PART NUMBER CONVERSION INSTRUCTIONS

Sierra
Marine Engine and Drive Parts

TO CONVERT SIERRA PART NUMBERS TO C.C. MARINE PART NUMBERS

Part No. starting with "18" with 4 digits after the dash:
Add **"0"** to both beginning and end of No. Example: 18-8056 converts to **018-80560.**

Part No. starting with "18" with 5 digits after the dash:
Add **"9"** to beginning of No. Example: 18-15440 converts to **918-15440.**

Part No. with 2 dashes:
Add **"0"** to the beginning of the number and ignore the second dash.
Example: 18-0477-9 converts to **018-04779.**

Part No. ending with "D" add **"0"** to beginning of No.
Example: 18-5258D converts to **018-5258D.**

For Loctite® products located in Tools & Shop Supplies Section of Sierra Catalogue add **318-** in front of the number.
Example: 37701 converts to **318-37701.**

For products listed in Generator Parts Section of Sierra Catalogue add **"2"** to beginning of the number and **"0"** to the end of the number.
Example: 23-3301 converts to **223-33010**

Please Note:
1. *Parts listed in Shields Hose section of Sierra Catalogue are only available as SPECIAL ORDER, unless listed in Fuel System & Hose section of C.C. Marine Catalogue.*
2. *Parts listed in Electrical Products section of Sierra Catalogue are only available as SPECIAL ORDER, unless listed in Lighting & Electrical section of C.C. Marine Catalogue.*

DG

Product may be subject to a dangerous goods fee when shipped. See pages 1336, 1337 for complete dangerous goods product listing.

SPECIAL ORDER ITEM

Items in green are Special Order Items.

C.C. MARINE PRODUCT RETURN INFORMATION

Regular Stock Return for Credit - RMA # must be obtained prior to any return. Items must be returned freight prepaid in original package, unopened and unmarked in any way. The return authorization # must be marked on the outside of the shipment and referenced on any related paperwork. **Retail dealership price stickers must be removed. If item is not in new and resalable condition, it will be returned to dealer. 20% restocking charge will apply to items over 21 days. Any goods without an RMA or over 90 days will not be accepted.** ***NOTE: All cables are subject to a 5% restocking fee (Steering & Control Cables).***

Defective Warranty Return for Credit - RMA # must be obtained prior to any return. Items must be returned freight prepaid. CC policy is based on each specific manufacturer's terms and conditions as listed on the manufacturer's website. Refer to pages 1333 - 1335 for website information. Credit will be issued to dealer's account upon approval from the manufacturer. The manufacturer may or may not extend warranty for an item, and CC is not a party to any such warranty and has no liability or obligation thereunder. **All defective returns must be accompanied with a copy of the sales invoice to the end user. This is for the manufacturer to confirm that the item is within the warranty period. Claims will be denied without this information. All warranty parts must be returned to CC prepaid freight for warranty consideration.**

Defective Warranty Items that cannot be returned to CC for Credit -These items must go directly to manufacturer for repair and be returned to dealer or end user. These items include, but are not limited to Air Spray Guns & Tools, Barbeques, De-icers, Depth Sounders, Downriggers, Electric Tools, Electronic Diagnostic Tools, Electronic Engine Parts, Electro Steer, Fish Finders, GPS, Jack Plates, Keelguards, Plotters, Propane Stoves, Refridgerators, Remote Powered Search Lights, Shrink Wrap Guns & Accessories, Stern Drive Lifts, Talons & Trolling Motors, Troll Masters, Water Heaters, Windlasses and Winches.

EXCEPTIONS to Defective Warranty Procedures

CDI & Balmar Products – Please Do not call CC for a Return Authorization – Call CDI First!!! - If you are experiencing a problem please contact CDI immediately at 1-866-423-4832 for assistance. These communications will allow the manufacturer to help you quickly and effectively – so your customer's boat doesn't stay in the shop any longer than required. Technical Services will assist you with troubleshooting the ignition system to determine if CDI Electronics' part failed by itself, or if another component of the ignition system is causing the CDI part to fail. This process helps to avoid the "repetitive failure loop" of reordering a part that continues to fail due to a failure mode caused by another part in the ignition system. If CDI determines you have a defective part they will issue an RMA and CC Parts Department will assist you with the process.

GLM Marine Parts - Any claim with labour concerns must be sent to GLM directly. GLM will credit or reimburse the Dealer for qualified warranty claims submitted that comply with GLM identified warranty policies. Any claim SHALL BE IN WRITING TO GLM PRODUCTS, INC. WITHIN THE WARRANTY PERIOD. Contact GLM Products or CC Marine Distributors for a GLM warranty application. All returns must have a GLM RGA # assigned and marked on all documents.

Megaware KeelGuard® - Lifetime Warranty - Must be registered when installed and claimed by end user (retail customer) directly to Megaware.

Norcold Refrigeration Products - Units need to be returned to an authorized service centre or the Norcold factory. Contact Parts Department for information on how to proceed.

Sierra Warranty Parts - Must be returned with a copy of invoice to end user. Any claim involving labour issues must be directed to Sierra. Labour claims procedure is located on inside back cover of Sierra Parts Catalogue.

Disclaimer - All items offered by CC Marine Distributors are subject to warranty approval by the Original Manufacturer based on their terms and conditions. CC disclaims any and all warranties, whether implied or expressed, including, without limitation, any warranty of fitness or merchantability or fitness for a particular purpose. We shall not be liable for any damages including commercial losses or damages arising from the purchase or use of such items.

C.C. MARINE
DISTRIBUTORS INC.

C.C. MARINE - INFORMATION POUR RETOURS DE MARCHANDISES

Marchandise régulière- retour pour note de crédit - # d'autorisation de retour doit être obtenu avant le retour. Les items doivent être retournés à fret prépayé dans l'emballage originale, l'empaquetage ne doit pas être endommagé ou ouvert. Le numero de retour doit être visible sur les documents de retour et sur la boite de retour. **Les prix de detail du concessionnaire doivent être enlevés. Si l'item n'est pas en condition pour la revente, l'item sera retourné au concessionnaire. Des frais de 20% seront additionnés apres 21 jours de la vente originale. Les items sans bons de retour ou de plus de 90 jours de la vente, ne seront pas acceptés.**
Tous les câbles sont soumis à des frais de réapprovisionnement de 5% (Câbles de direction et contrôle).

Garantie pour items défectueux- retour pour note de crédit - Le # de retour doit être obtenu avant chaque retour. Les items doivent être retournés a fret prépayé. La politique de CC est basée sur les conditions spécifiques du manufacturier et noter sur leur site web. Référez à la page 1333-1335 pour l'information des sites. Le crédit sera émit au compte du concessionnaire respectif lorsque le retour sera apprové par le manufacturier. Le manufacturier peut ou non approver la garantie sur un item et CC n'est pas responsable, ou sous obligation ci-dessous.
Tout items défectueux retournés, doit être accompagnés d'une copie de la facture d'achat. Le manufacturier doit confirmer que l'item est dans la période de garantie. Tout retours de garantie sera niés sans cette information. Toute pièces de garantie doit être retournées à CC fret prépayé pour considération de garantie.

Garanties pour items qui ne peuvent être retournés a C.C. Marine pour note de crédit - Ces items doivent être envoyés directement au manufacturier pour réparations et seront ensuite retournés au concessionnaire. Ces items incluent: Pistolets à Air et Outils, Barbecues, De-icers, Profondimètre, Downriggers, Outils Électriques, Outils à Diagnostiques, Pièces pour Moteurs Électriques, Électro Steer,Sonars, GPS, Jack Plates, Garde de Quille, Cuisinières au Propane, Réfrigérateurs, Lampes de Recherches avec Contrôle, Pistolet Thermique et Accessoires pour Film Rétractable, Talons, Support pour Pied de Moteur,Troll Masters, Chauffes-Eaux, Windlass et Treuils.

Exceptions pour marchandises défectueuses - Procédures de garanties

CDI et produits Balmar – SVP ne pas appelez CC Marine pour authorization, SVP applez CDI en premier. - Si vous avez un problème, contactez CDI immédiatement au 1-866-423-4832. Les communications directes avec le manufacturier va permettre une résolution plus rapide – donc, le vaisseau de votre client ne restera pas dans la shoppe plus longtemps que necessaire. Les techniciens sauront vous aider avec le systeme de démarrage pour déterminer si les pièces électroniques CDI sont défectueuses ou si ce sont d'autres pièces du systeme de démarrage qui causent le problème. Ce processus est pour éviter de re-commander la même pièce non- défectueuse, mais qui devient defectueuse et qui cause le system de démarrage d'échouer. Si CDI détermine que la pièce est défectueuse, ils s'occuperont de faire une authorization de retour et CC Marine vont vous aider avec ce processus.

Les pièces GLM Marine - Toutes réclamations avec travaux accomplis doivent être envoyées à GLM Marine directement. GLM va faire le crédit ou rembourser le concessionnaire pour toutes garanties qui qualifient, soumises et qui conforment aux politiques de garanties. Toutes soumissions doivent être émisent formellement par écrit à GLM Products Inc. dans la periode de garantie. Contactez GLM Products ou CC Marine Distributions pour l'application de garantie. Tout retour doit avoir un # d'autorization GLM assigné sur tout les documents.

Megaware KeelGuard - Garantie a Vie - Doit être enregistrée lors de l'installation et réclamée par le client directement a Megaware.

Les Produits Norcold Réfrigeration - Les unités doivent être retournées au centre de services autorisé ou le centre Norcold. Contactez le département des pièces pour toutes informations.

Pièces Garanties Sierra - Doivent être retournées avec une copie de la facture au client. Les réclamations comprenant les travaux doivent être envoyer a Sierra directement. Les procédures de réclamations sont postées dans le catalogue Sierra.

Declaration de non-responsabilité - Tout items offerts par C.C. Marine Distributeurs sont sujets a l'approbation de garantie du Manufacturier d'Origine et basé sur leur termes et conditions. C.C. déclare toute garanties, soit sous-entendu ou exprimé, incluant, mais pas limité a toutes garanties de commerciabilités ou de convenances. Nous ne sommes pas responsible pour tout dommages incluant pertes commerciales et dommages dû à l'achat ou usages de ces items.

DOMETIC OUTDOOR

GEAR UP FOR SUMMER

XTREME JACKPLATES

The SeaStar Xtreme Jackplates utilize high strength materials to handle some of the strongest engines on the water. The heavy-duty frames are capable of handling engines up to 400 HP. Designed with speed and durability in mind, the Xtreme Jackplates can adjust the engine height in just 8.5 seconds, even while the boat is moving at full speed.

For more product information see page 1187

STEERING CABLE MEASURING GUIDE

DOMETIC OUTDOOR

HOW TO MEASURE STEERING CABLES "MEASURE TWICE. ORDER ONCE."

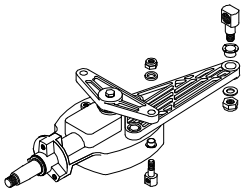
REPLACEMENT OF EXISTING CABLE:

If possible, find the part number stamped on the plastic jacket of the old cable. If you removed the old cable, measure for the replacement cable as follows:

For Rotary Steering Cable Replacement,
Measure Existing Cable as follows: Measure plastic cable jacket ("Y" dimension, shown in above drawing) in inches, add 18", and round up to the next foot.
Order that length cable.

For Rack Steering Cable Replacement,
Measure Existing Cable as follows: Measure plastic cable jacket ("Y" dimension shown in above drawing) in inches, add 30", and round up to the next foot.
Order that length cable.

For JBS Jet Boat Cable Replacement,
Measure Existing Cable as follows:
Measure cable from tip to tip.
(Round up to next foot if needed for whole foot.)
Order that length cable.



JBS helms are ONLY for smaller jets such as Mercury Sport Jet®, OMC Turbo Jet®, etc. and look like the helm depicted at right. If your jet steering is different, contact SeaStar Solutions Technical Service.

If your engine does not have a tilt tube cable connection, see "Connection Kits" pages later in this section to get the information or visit us on-line.

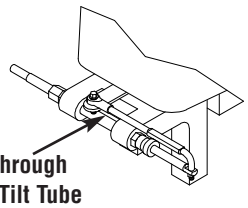
NEW INSTALLATION:

Measure cable routing path from wheel center line to engine connection, as follows:
A = Center line of wheel to gunwale (or deck, if routed downward),
B = Dash to transom,
C = Gunwale to centerline of cable connection at centered tiller.

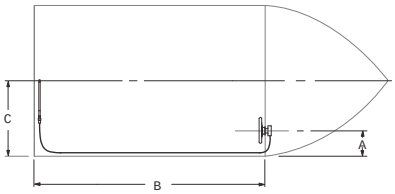
For Cable Installations through the Engine Tilt Tube:
Add A, B & C + 6", and round up to the next foot.
Order that length cable.

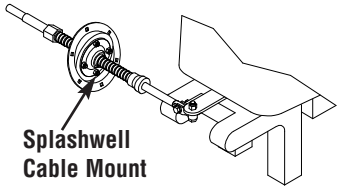
For Cables Mounted to Transom, Splashwell or Stringer:
Add A, B & C, then subtract 6" and round up to the next foot.
Order that length cable.

TYPICAL SINGLE STATION ROUTING

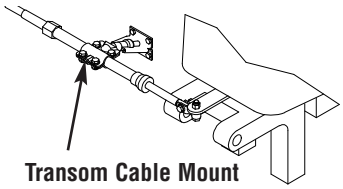


Cable Through Engine Tilt Tube





Splashwell Cable Mount



Transom Cable Mount (similar to stringer type)

A single-cable, starboard drive push-pull mechanical cable system is shown in this diagram. If your mechanical system is different than the one depicted and/or you have any questions about mechanical steering after reviewing this guide, please contact Dometics Technical Service. Cable routings (such as those found on pontoon boats) may vary from this drawing.
Confirm length by laying a garden hose (or similar object) along cable path and measure run from wheel to engine connection point.

For more information see: www.dometic.com

UFLEX

HOW TO MEASURE FOR NEW STEERING CABLE INSTALLATION

Fig. 1

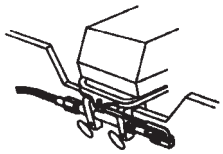


Fig. 2

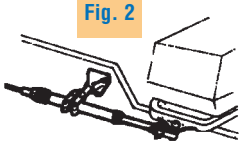

Fig. 3

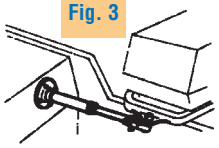

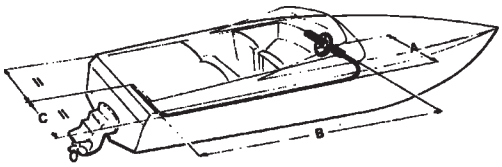

TILT TUBE MOUNTING - Fig. 1
Example:
A (2.5') + B (10.5') + C (3') = 16'
16' - 8" (two 90˚ bends) = 15'4"
15'4" + 12" (tilt tube) = 16'4"
Round up to 17"

TRANSOM SUPPORT or SPLASHWELL MOUNTING - Fig. 2-3
Example:
A (2.5') + B (10.5') + C (3') = 16'
16' - 8" (two 90˚ bends) = 15'4"
Round up to 16"

Add the lengths of A + B + C together and subtract 4" (10 cm) for each 90˚ bend.
Add 12" (30.5 cm) for the engine tilt tube. To order in foot length, round up to the nearest whole foot.

HOW TO MEASURE FOR REPLACEMENT STEERING CABLES

D = Conduit length

ORDER LENGTH:
"D" Dimension + 22" and round up to the next whole foot.
Example: D=120" + 22" = 142" (11'8"). Round up to 12 ft.

For more information see: www.uflexusa.com

MECHANICAL STEERING CABLES

ROTARY STEERING CABLES

DOMETIC OUTDOOR

All SeaStar Solutions steering cables exceed ABYC safety standards and ISO/IMCI/NMMA certification requirements. SeaStar Solutions steering cables are designed with a rotary or rack and pinion design to fit various helm space and application requirements.

All SeaStar steering cables feature:

- A tightly controlled core to conduit fit to offer precise steering.
- Outer jacket is constructed with HDPE a high density polyethylene material that is abrasion resistant and provides a high resistance to water penetration.
- All cables feature output ends constructed of stainless steel material for corrosion resistance.

SAFE-T QUICK CONNECT

SSC62XX

Standard quick connect rotary cable fits 073-50940-1, 073-51800 (SH5180P), 073-91190 (SH91190P), 073-91526 (SH91526P), 073-91527 (SH91527P), and 073-91523-1 (SH91523-1P).
Fits SeaStar Helms: SAFE-T (QC) Rotary, NFB Rotary, HPS Rotary

SSC62XX WITH ADAPTOR 069-27620 (SA27620P) sold separately*
Fits SeaStar Helms: Old SAFE-T "TS" (Threaded Spigot) Rotary, Big-T Rotary

SA27620P Adaptor (For use with older Safe-T and Big-T Helms)

SSC61XX is directly replaced by SSC62XX and adaptor SA27620P

		Dometics Direct Replacement Cable for these systems is SSC130XX	

♦*Safe-T II is for engines up to and including V-4's. For manually steered outboards larger than V-4, use NFB 4.2.*

***Slight dash modification required for installation of recommended new helm. If engine is power-assisted, NFB steering cannot be used.*

**Since this may be relatively new, replacement of entire system may not be necessary.*

Determine which part of the system may need to be replaced. If engine is power-assisted, NFB steering cannot be used.

Note: The only difference between 1990-1996 & 1996-date Safe-T QC helms is the shape of the helm housing castings.

SAFE-T® QC MECHANICAL ROTARY STEERING SYSTEM:

DOMETIC OUTDOOR

Traditional Dometics mechanical steering is still the choice for sterndrives, inboards and other power assisted applications. It's just right for power steered boats in which No FeedBack™ systems are not required. Safe-T® QC offers the quick response of three-turn steering, and easy installation with a patented, no-tools-required cable connection at the helm.

APPLICATIONS:

Virtually all power-assisted sterndrive boats with wheels up to 16" diameter. Safe-T QC® replaces all Dometics Safe-T helms made since 1968 with little or no dash modifications.
(Requires use of SSC62 QC Steering Cable.)
For single station use only. Safe-T QC accepts wheels up to 16" diameter. Components are available for dual cable systems, but we recommend No-FeedBack steering for all dual cable steered, non-power-assisted outboards and sterndrives. See the NFB 4.2 Dual Cable and SeaStar PRO sections of this catalogue.

FEATURES:

- Quick-response of 3 turns lock-to-lock.
- Kits include: cable, helm, 90° bezel and hardware.
- Standard 3/4" round tapered steering shaft.
- Stainless steel cable output ends.
- Fast, easy installation: uses simple snap-in cable connection, Quick Connect (QC) cable, and industry-standard Safe-T mounting hardware.
- Meets A.B.Y.C. standards.
- Meets N.M.M.A. certification requirements.
- Made, designed and assembled in the USA.

Sport Tilt

Sport Tilt Plus

DISCLAIMER:
This system is only recommended as replacement for the original system as installed by the boat manufacturer. Dometics always recommends NFB helms for outboard applications.
NFB helms lock out steering loads caused by propeller torque eliminating the driver fatigue normally experienced with a standard helm. Patented Dometics steering helms are a drop in replacement for Safe-T systems.

DOMETIC OUTDOOR

NFB™ SAFE-T® II MECHANICAL ROTARY STEERING SYSTEM

Major OEMs use Dometics Safe-T II, and so will your customers. It's the next generation of Safe-T, the world's #1 rotary steering system — rugged, compact, lightweight, and with Dometics No FeedBack technology. This ultra-smooth 3-turn system takes the work out of steering most V-4 outboard powered boats. The Safe-T II helm is a drop-in replacement for current generation Safe-T QC with no dash modifications!

COMPLETE SYSTEM
Kit includes Helm, 90° Bezel & Cable

Steering Kit Length	Mfr. No.	ORDER NO.

19'	SS 13219	084-13219
20'	SS 13220	084-13220

APPLICATIONS:

NFB Safe-T II single-cable systems are suitable for most single-station boats with a single non-power-assisted outboard engine up to V-4 and minimal engine flutter or steering instability. Safe-T II accepts wheels up to 16" diameter. (NFB Safe-T II is available in single cable configuration only). Replaces nearly all standard Safe-T® steering without dash modifications.

FEATURES:

- Patented No FeedBack™ Steering mechanism.
- Quick response of 3.0 turns from lock-to-lock.
- Minimal clutch free play.
- Standard 3/4" round tapered steering shaft.
- Stainless steel cable output ends.
- Fast, easy installation: uses Dometics Quick Connect (QC) cable & standard Safe-T mounting hardware.
- Meets A.B.Y.C. standards.
- Meets N.M.M.A. certification requirements.
- Made, designed and assembled in the USA.

DOMETIC OUTDOOR

NFB™ 4.2 MECHANICAL ROTARY STEERING (SINGLE) SYSTEM

Patented No FeedBack Steering Helm for about the cost of an old-fashioned steering replacement. With the advantage of 4.2 turns lock-to-lock and our patented No FeedBack steering to lock out steering loads, Dometics' 4.2 Rotary NFB Steering is the ideal single-cable system for most non-power-steered boats. The helm is a drop-in replacement for current generation Safe-T with no dash modifications required.

COMPONENTS:

(1) NFB 4.2 Helm **# 073-49100**
(1) Rotary NFB Bezel (90°) **# 070-27150**
(1) QC Cable **# 078-62XX0**
XX = Length of Cable

Steering Kit Length	Mfr. No.	ORDER NO.

19'	SS14719	084-14719
20'	SS14720	084-14720

APPLICATIONS:

NFB 4.2 single-cable systems are suitable for most single-station boats with a single non-power-assisted outboard engine up to V-6 and minimal engine flutter or steering instability. 4.2 accepts wheels up to 16" diameter.

Use dual cable system for boats with engine flutter or steering instability.
Replaces nearly all Dometics' Safe-T® steering systems without dash modification.

FEATURES:

- Patented No FeedBack™ Steering mechanism.
- Comfortable 4.2 turns from lock-to-lock.
- Minimal clutch free play.
- Standard 3/4" round tapered steering shaft.
- Stainless steel cable output ends.
- Fast, easy installation: uses Dometics Quick Connect (QC) steering cable.
- Kits include: cable, helm, 90° bezel and hardware.
- Meets A.B.Y.C. standards.
- Meets N.M.M.A. certification requirements.
- Made, designed and assembled in the USA.

SS147 NFB 4.2 Steering Kits (Single Cable)

NFB™ 4.2 MECHANICAL ROTARY STEERING (DUAL) SYSTEM

Patented No FeedBack Steering Helm for about the cost of an old-fashioned steering replacement. With the advantage of 4.2 turns lock-to-lock and our patented No FeedBack steering to lock out steering loads, Dometics' 4.2 Rotary NFB Steering is the ideal system for most non-power-steered boats. This rugged dual cable system is made for applications with engine flutter or steering instability. The helm is a drop-in replacement for current generation Safe-T with no dash modifications required.

APPLICATIONS:

NFB 4.2 dual-cable systems are suitable for most single-station boats with a single non-power-assisted outboard engine up to V-6 in which engine flutter or steering instability is present. 4.2 accepts wheels up to 16" diameter.

Replaces nearly all Dometics' Safe-T® steering systems (including twin cable) without dash modification.

FEATURES:

SAME FEATURES AS SS147 STEERING KITS
- With Added feature of Twin cable system for maximum control.

COMPONENTS:

(1) NFB 4.2 Dual Helm **# 073-49200**
(1) Rotary NFB Bezel (90°) **# 070-27150**
(2) QC Cable **# 078-62XX0**
XX = Length of Cable

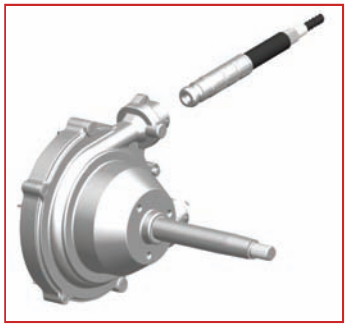
xtreme

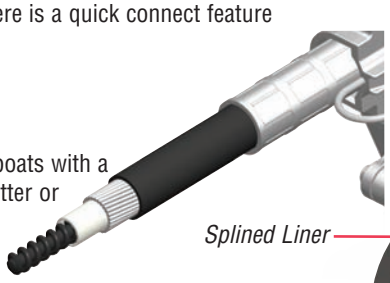
DOMETIC OUTDOOR

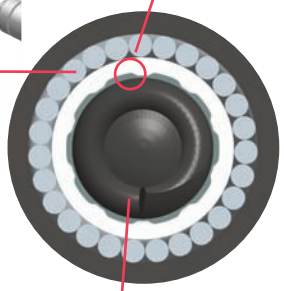
XTREME™ NFB™ MECHANICAL ROTARY STEERING SYSTEM



New Helm - The patent pending helm has a complete new gear train designed to provide smooth feel minimal backlash and low effort at the wheel. It also offers the smoothest NFB clutch release and has a smaller footprint than the current 4.2 helm. All castings are designed to reduce weight while offering superior strength.
New Bezel - New style, patent pending bezel keeping with the design of the SH91900 tilt and hydraulic helm pump designs.

A brand new XTREME™ steering cable was designed specifically for this system.
This cable offers lower backlash and is more efficient than a standard steering cable.
It provides the lowest ease of effort, a close "fit" of the core to liner for lowest lost motion. The concept provides the "tight" fit of core to liner yet allows area for lubrication. The design of the helm allows higher loads to be placed into the cable requiring this new design cable. There is a quick connect feature on both the steering cable and spent travel tube for easy, quick installation.
Cable is designed to fit only XTREME™ Helms.





APPLICATIONS:

XTREME single cable steering systems are suitable for most single-station boats with a single non-power assisted outboard engine up to V6 and minimal engine flutter or steering instability.
XTREME steering accepts steering wheels up to 16" diameter.

Use either the 4.2 NFB dual rotary or Pro Rack dual cable systems for boats with engine flutter or steering instability.

Replaces nearly all Dometics Safe-T steering systems without dash modifications

FEATURES:

- Smoothest and lowest steering effort mechanical helm offered in the market place yet still offers easy installation.
- Complete steering system including new helm, high efficiency XTREME™ steering cable design and new style bezel.
- Quick connect feature on both steering cable and spent travel tube for easy quick installation.
- Installs in same mounting pattern and bracket location as most current Dometics rotary steering systems.
- Smallest footprint possible to accommodate small/tight dash helm stations.
- Made, designed and assembled in the USA.

DOMETIC OUTDOOR

THE RACK MECHANICAL RACK STEERING SYSTEM:

Traditional Dometics mechanical steering is still the choice for sterndrives, inboards and other power assisted applications. It's just right for power steered boats in which No FeedBack™ systems are not required. Our new Rack features the precision and comfort of four turns lock-to-lock with a cable and helm that install easily from behind the dash. In single cable configurations, this is the best 4-turn choice for power-steered boats.

SS141 BM RACK STEERING KIT (Single Cable)

COMPONENTS:

(1) Back Mount Rack Helm (single/dual)	*# 073-52100*
(1) Back Mount Bezel (90°)	*# 070-39526*
(1) Back Mount Rack Single Cable	*# 078-134XX*

SSC135XX BM Dual Cable

Sport Tilt SH91800

Sport Tilt Plus SH91900

DISCLAIMER:

This system is only recommended as replacement for the original system as installed by the boat manufacturer. Dometic always recommends NFB helms for outboard applications.

NFB helms lock out steering loads caused by propeller torque eliminating the driver fatigue normally experienced with a standard helm. Patented Dometicssteering helms are a drop in replacement for Standard Rack Systems.

APPLICATIONS:

Virtually all power-assisted sterndrive and inboard boats with wheels up to 16" diameter.
Back Mount Rack Replaces 1984-date Dometics "The Rack" steering without dash modification.
(Requires use of SSC134XX Back Mount Rack cable.)
For single station use only.
Components are available for dual cable systems, but we recommend No-FeedBack steering for all dual cable steered, non-power-assisted outboards and sterndrives

See the NFB Pro Rack Dual Cable (Page 9) and SeaStar PRO (Page 24) in this catalogue.

FEATURES:

- Precise, easy 4 turns lock-to-lock.
- Kits include: cable, helm, 90° bezel and hardware.
- Standard 3/4" round tapered steering shaft.
- Stainless steel cable output ends.
- Fast, easy installation: back mount design allows quick placement in dash PLUS mounting hardware fits industry-standard Dometics rack holes.
- Meets A.B.Y.C. standards.
- Meets N.M.M.A. certification requirements.
- Made, designed and assembled in the USA.

DOMETIC OUTDOOR

NFB™ MECHANICAL RACK STEERING (Single) SYSTEM:

The easy-to-sell, easy-to-install upgrade to the most popular Rack and Pinion steering system in boating. Dometic has applied its patented No FeedBack technology to the incredible precision of a rack and pinion system, and engineered-in serious advances in steering comfort and control. And — it's a drop-in replacement for "The Rack".

Includes: (1) # 073-52300 Helm, (1) # 070-39544 90° Bezel and (1) # 078-134 xx Cable. Steering wheel not included.

APPLICATIONS:

NFB Rack single-cable systems are suitable for most single-station boats with a single non-power-assisted outboard engine up to V-6 & minimal engine flutter or steering instability. NFB Rack accepts wheels up to 16" diameter. New Back Mount design means easy installation; helm & cable are installed as a unit from behind dash & replace standard rack steering without dash modifications.

FEATURES:

- Patented No FeedBack™ Steering mechanism.
- Precise feel of 4 turns from lock-to-lock.
- Minimal clutch free play.
- Standard 3/4" round tapered steering shaft.
- Stainless steel cable output ends.
- Fast, easy installation; back mount design allows quick placement in dash PLUS mounting hardware fits industry-standard rack holes.
- Kits include: cable, helm, 90° bezel & hardware.
- Meets A.B.Y.C. standards.
- Meets N.M.M.A. certification requirements.
- Made, designed & assembled in the USA.

NFB™ PRO MECHANICAL RACK STEERING (Dual) SYSTEM:

The only Rack and Pinion steering system for the high performance boater. Dometic combines its patented No FeedBack technology with the incredible precision and control of a dual cable rack and pinion system. Now more than ever, NFB means performance! Dometic offers Pro Rack for high performance hulls and motors — boats which have engine flutter, experience instability or simply need that extra margin of control at the helm. It's a drop-in replacement for the "The Rack".

Includes: (1) # 073-52300 Helm, (1) # 070-39544 90° Bezel and (1) # 078-135 xx Twin Cable. Steering wheel not included.

APPLICATIONS:

NFB Pro Rack systems are suitable for single-station, high performance boats equipped with a single non-power-assisted outboard (up to V-6) in which engine flutter or steering instability is present. NFB Pro Rack accepts wheels up to 16" diameter.

New Back Mount design installs easily and replaces the standard rack steering without dash modifications.

FEATURES:

- Patented No FeedBack™ Steering mechanism.
- Dual cables minimize lost motion in system.
- Precise feel of 4 turns from lock-to-lock.
- Minimal clutch free play.
- Standard 3/4" round tapered steering shaft.
- Stainless steel cable output ends.
- Fast, easy installation; back mount design allows quick placement in dash PLUS mounting hardware fits industry-standard rack holes.
- Kits include: cable, helm, 90° bezel and hardware.
- Meets A.B.Y.C. standards.
- Meets N.M.M.A. certification requirements.
- Made, designed and assembled in the USA.

DOMETIC OUTDOOR

HELM/BEZEL VISUAL IDENTIFICATION GUIDE: Continued

This is an overview of Dometic RACK & PINION steering helms likely to be encountered.

THE RACK™ ("BACK MOUNT" RACK)

- Four bolts and nuts secure cable's rack housing to helm.
- Helm/cable install as unit from back of dash.
- Helm requires current generation rack cables (will not bolt up to older style cables).
- Dual cable has one rack housing with two cables attached. Single helm works on both single and dual cable applications (NFB recommended for non-power assist outboards)
- One bezel is offered; angle to dash is changed by adding wedges.

Kits: 081-141XX (Rack Single Cable)

073-52100

20˚ Wedge Kit

NFB™ RACK & NFB™ PRO RACK™ ("BACK MOUNT" RACK)

- Four bolts and nuts secure cable's rack housing to helm.
- Helm has No FeedBack™ feature.
- Helm/cable install as unit from back of dash.
- Helm requires current generation rack cables (will not bolt up to older style cables).
- Dual cable has one rack housing with two cables attached. Single helm works on both single and dual cable applications.
- One bezel is offered; angle to dash is changed by adding wedges.

Kits: 081-151XX (NFB Rack Single Cable), 081-152XX (NFB Pro Rack Dual Cable).

TILT STEERING

DOMETIC OUTDOOR

The ultimate in Tilt Steering Technology. Dometics' Tilt Steering delivers unsurpassed performance and flexibility making it the perfect system for all possible applications and boat types.

FEATURES:

- Preloaded dual taper bearings ensure minimal excess free play
- Smooth operation and feel
- Shaft seals prevent water ingress
- 48 degrees of tilt articulation
- 5 positive lock positions
- Up to three style options
- Compact footprint
- Maintenance free
- Fits most styled and formed dashes

DOMETIC OUTDOOR

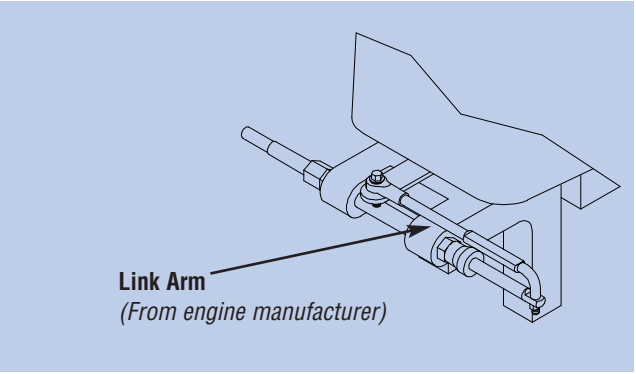
TILT TUBE MOUNT

This is the most popular steering cable-to-engine connection method for outboards with an ABYC standard tilt tube. This installation requires the use of a link arm which can be purchased from the engine manufacturer.

PARTS REQUIRED: **We recommend using the engine manufacturer's link arm.**

NOTE: In salt or brackish water only use Stainless Steel kit

See Steering Components Page 14 and 15



TRANSOM SUPPORT MOUNT

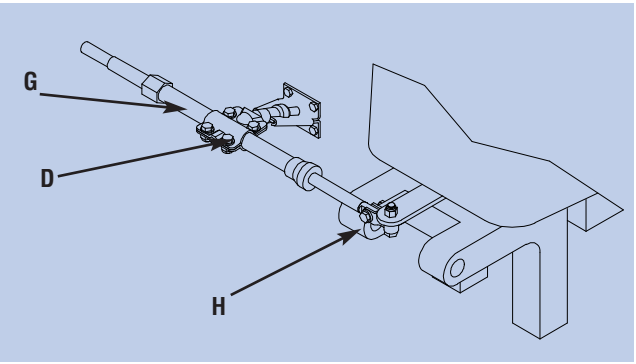
This cable connection is used for older model outboards without tilt tubes, low HP outboards or applications where transom design interferes with standard tilt mounting.

PARTS REQUIRED: **D, G & H**
Master Kits: **Include D, G & H**

069-27256 **Master Kit - Corrosion Resistant**
069-27255 **Master Kit - Stainless Steel**

NOTE: In salt or brackish water only use Stainless Steel kit

See Steering Components Page 14 and 15



SPLASHWELL MOUNT

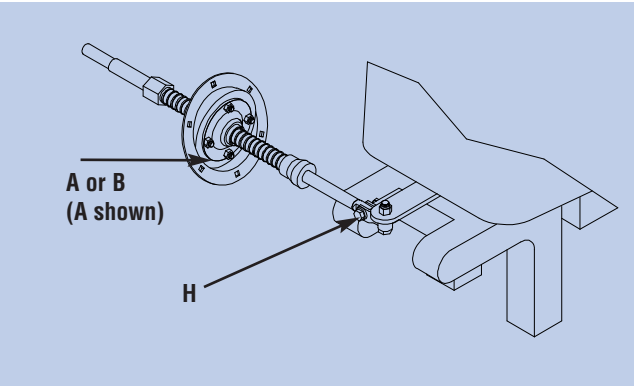
This cable connection is used on boats where standard tilt tube or transom support mounting methods are pre-cluded by a splashwell box or lack of engine tilt tube. The mounting surface is usually near perpendicular to the transom and between 12 and 16 inches from the centre line of the boat and/or tiller (25-33" Total Slashwell Width).

PARTS REQUIRED:
90° Splashwell Mounting - B, H
ORDER NO. 069-27254

15° Splashwell Mounting - A, H
ORDER NO. 069-27253

NOTE: Not for thru hull applications.

See Steering Components Page 14 and 15



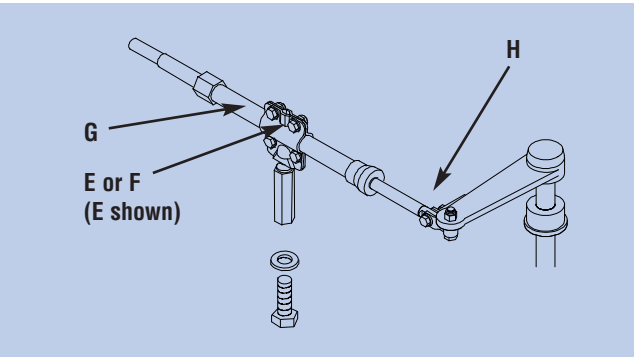
INBOARD STRINGER SUPPORT MOUNT

This cable connection is used on inboards and is attached to a stringer or suitable mounting bracket below deck. The cable is perpendicular to the centered tiller and in half stroke for proper operation. An additional bracket may be needed to support the ball post. Available in heavy duty “Ski Boat” versions with either long (4.5") or short (2.25") post standoff to centre of support tube.

PARTS REQUIRED: **E, G, H (long post) or**
F, G, H (short post)

For Ski Boat Clamp Block Kit, purchase E or F and G & H separately.

See Steering Components Page 14 and 15



For more information see: www.dometic.com

DOMETIC OUTDOOR

Just for Jets! JBS™ by Dometic means Jet Boat Steering! Designed exclusively for jet boats, JBS features a choice of two steering arcs, a special steering cable (not a control cable) plus an assortment of mounting options for virtually any boat! Nobody knows steering like Dometic!

APPLICATIONS:

Dometic JBS is recommended for use in all jet boat applications powered by Mercury® Sport Jet or OMC® Turbo Jet drives up to 175 HP.

FEATURES:

- Ultra-compact helm with stylish 4.4" bezel is easy to install and very rugged.
- 135° or 270° turning arc lock-to-lock.
- Uses a special steering cable. Note: SSC219XX replaces SSC229XX cables.
- 90° dash mount. (Tilt Steering option available!)
- 90° or 180° cable entry into helm allows alternate cable routing. (Looking at dash, options are 9:00, 12:00 or 3:00 routing positions.)
- Built-in steering stops prevent additional cable stress in hard over positions.
- Standard 3/4" round tapered steering shaft, 3.5" total allowable cable travel.
- Mercury® & OMC® nozzle/gate connection kits.
- Stainless steel cable output ends.
- Meets A.B.Y.C./N.M.M.A. requirements.
- Made, designed and assembled in the USA.

If you are replacing a jet boat steering cable, you must determine the part number of the existing steering cable. SSC219 cables are ONLY for JBS systems shown on this page. **Measurement is length from tip to tip.** Use only genuine Dometic replacement hardware specifically designed for this product. Do not substitute other parts.

JBS - JET BOAT STEERING SYSTEM

DOMETIC OUTDOOR

XTREME POWER ASSIST

NEW!

EXPERIENCE SMOOTH HANDLING WITH YOUR CURRENT MECHANICAL STEERING SYSTEM

The Xtreme Power Assist Steering is engineered to bring the smooth, easy control of electric power-assisted steering to a wide range of popular boats, including pontoons, runabouts, RIBS, aluminum fishing boats & center consoles. This is an affordable, easy-to-install solution that offers a more enjoyable driving expereience.

STRONG & DURABLE

This system differs vastly from competitive “electric helm” systems on the market, because it does not increase the load on the mechanical steering helm or cable. Once this system is installed, the mechanical steering cable now only turns the power assist unit, while the electric steering actuator actually turns the engine load. This ensures reliable long-term performance in real-world, on-the-water conditions.

KEY BENEFITS:

- Significantly reduced steering effort provides a car-like driving experience for mechanically steered boats
- Engineered to fit a wide range of single engine, mechanically steered outboard boats from 90-200HP.
- Integrates with any existing Dometic rack or rotary cable steering system, so there is no need to install new steering to take advantage of this new technology
- Designed as a self-contained, plug-and-play system which easily mounts to all major outboard brands and integrates with the boat’s existing mechanical steering in less than 30 minutes
- Built in Fail-safe System automatically reverts to mechanical steering in the event of a system failure

Mfr No. XPA1012P

ORDER NO. 085-10120

DOMETIC OUTDOOR

IntelliSteer® WIRELESS STEERING

NEW!

Boat steering has never been so easy!

Intellisteer™ supports boats with or without existing autopilot systems, outboard motors, hydraulic steering, and cable steering. Whatever your remote steering needs, Intellisteer™ has the right steering kit for you.

Top features of Intellisteer

- Wireless receiver module plus wireless handheld pendant – steering in the palm of your hand
- Up to two pendants can be used
- Steer and fish from anywhere on the boat
- Designed for pushbutton control
- Easy DIY installation – no need for a professional installer
- 2-year limited warranty – purchase with confidence

TYPE A - FOR BOATS WITH AN EXISTING AUTOPILOT

- No need for additional drive units. The Intellisteer Wireless Controller is designed to be wired between a Course Computer and Autopilot Drive
- When the Intellisteer Wireless Controller is activated it will disconnect the autopilot and provide wireless jog steering control from anywhere on the boat
- When the Intellisteer Wireless Controller is turned off, the Autopilot will function as before

ORDER NO. 888-63355
Mfr. No. INTTYPEA

TYPE H - FOR BOATS WITH HYDRAULIC STEERING

- Connects to any hydraulic steering system
- Rugged Octopus hydraulic pump
- Adds pushbutton steering to your hydraulic steering
- Current **3-6A Typical, 15A Peak**
- Includes all hoses and fittings

ORDER NO. 888-63362
Mfr. No. INTTYPEH

TYPE S/T - FOR CABLE STEERED BOATS WITH A DASH MOUNTED WHEEL

- Replaces existing helm
- Electronic clutch disengages for manual steering

BAYSTAR HYDRAULIC STEERING COMPACT CYLINDER SYSTEM

With mechanical steering you sacrifice a degree of comfort, and traditional hydraulic systems may be more than is needed on lower horsepower outboard engines. Built in the tradition of SeaStar, BayStar brings the same efficiency and durability you would expect from Dometic Hydraulic steering to smaller outboards up to 150 HP. Compact form and affordable price make it an ideal upgrade for mechanically steered boats up to 150 total HP.

APPLICATIONS:

BayStar is for single-outboard powered boats rated up to 150 HP, including runabouts and inflatables — and outboard engines with ABYC standard engine tilt tubes up to 150 HP (total).
For single station, single engine use only. BayStar is not intended for high speed, high performance type boats, such as Bass Boats.

FEATURES:

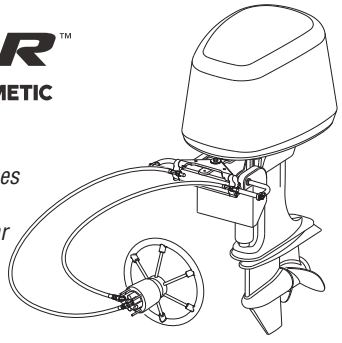
- Designed just for smaller outboards.
- Low friction hydraulic steering system.
- 5 turns from lock-to-lock.
- Balanced cylinder, featuring a compact design that fits most splashwells and provides full engine movement.
- Optional five position tilt helm available.
- Compact helm has only a 5" footprint; needs only 3" dash hole (standard or Tilt).
- Packaged complete with helm, cylinder, fittings, tubing, oil, fill kit and detailed instructions.
- Standard 3/4" tapered steering shaft.
- Fast, easy installation.
- Meets A.B.Y.C. standards • Meets N.M.M.A. certification requirements.

BAYSTAR™ BY DOMETIC

BAYSTAR OUTBOARD STEERING SYSTEM

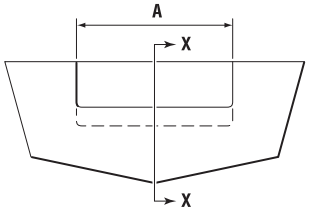
NOTE: SeaStar Outboard Steering hoses (Part No. HO51xx) can be used to plumb a BayStar Steering Systems

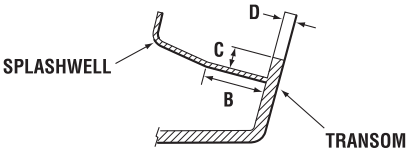
See Page 39



SPLASHWELL SIZE REQUIREMENTS

CYL. MODEL NO.	NO. OF ENG.	A	B	C	MIN. ENG. CENTRE DIST	TWIN ENG. APPL.
HC4645 / 47/ 48 / 58	1	21" / 534 mm	6" / 153 mm	5" / 127 mm	N/A	N/A





For more information see: www.dometic.com

NOTES:

1. *Ensure there is no interference between the BayStar cylinder rod and the splashwell boot or engine controls & cables.*
2. *Dimensional restrictions also apply to external motor mount brackets.*
3. *Ensure dimension "A" can be maintained at 32" (813mm) throughout the full trim/tilt range.*
4. *Maximum allowable transom thickness for BayStar cylinders is 3" (76mm).*
5. *Engines less than 70 HP may require up to 1" (25mm) of additional splashwell clearance.*

DOMETIC OUTDOOR

Hoses extra

SEASTAR STEERING (FRONT MOUNT PIVOT CYLINDER) SYSTEM:

Unmatched comfort and control. Only with SeaStar steering.
The world's most popular outboard hydraulic system offers smooth, superefficient steering for today's high performance hulls with single or multiple outboards up to 700 HP combined.
It's the OEM Choice for centre consoles, cruisers and more.

APPLICATIONS:

Single and dual non-power-assisted outboard engines up to 350 HP (700 combined HP for counter-rotating duals) that have ABYC standard engine tilt tube.
Ideal for cruisers, runabouts, centre console boats, offshore fishing boats and many more. Suitable for speeds up to 60 MPH and dual station use (with purchase of extra helm, hose & fittings). Allows independent engine tilt in dual engine installations. Dual engines require purchase of a tie bar Kit and extra hardware.

FEATURES:

- Patented steering lock valves.
- Low friction hydraulic steering system.
- 5 turns from lockTO-lock (single cylinder) when using 1.7 helms.
- Compact helm has only a 4-7/16" footprint; needs only 3" dash hole (Tilt requires larger dash cut out).
- Packaged complete with helm, cylinder, fittings, oil, bleeder Kit and detailed instructions.
- Standard 3/4" tapered steering shaft.
- Fast, easy installation.
- Meets A.B.Y.C. standards.
- Meets N.M.M.A. certification requirements.

**Helms dated 2008-Earlier use HA5417*
***The Commercial Helm Pumps are designed with a stainless steel shaft and a better sealing top plate for use in extreme conditions and/or commercial applications.*

NOTES:
1. *036-53450-3 is optional for Single Engine ONLY applications. DO NOT use 036-53450-3 for twin engine applications as operational interference may occur.*
2. *Requires One Spacer Kit 039-50900 per engine.*
3. *Minimum Engine Center = 27"*
4. *May Require Extensive Cowling Modifications.*
5. *039-50300 comes without Tie Bar*
6. *One cylinder per engine. Must use Mercury supplied tiller bolt for installation.*
7. *Interference will occur when using a single 036-53450-3 cylinder and 039-60030 tiebar when installed in the aft hole on the steering arm. Options include, a) install tiebar into most forward hole (this will limit steering articulation), b) purchase K-6 Cylinder, and tiebar kit part 039-50090. There will no be no interference when using twin 036-53450-3 cylinders.*

**Optional Pro Cylinder 036-63580-3*

DOMETIC OUTDOOR

SEASTAR PRO BY DOMETIC

SEASTAR PRO STEERING (FRONT MOUNT CYLINDER) SYSTEM:

The ultimate steering for high speed single outboards, SeaStar PRO®, is designed for the high speed and performance of today's top-end bass boats. Recommended for single outboards up to 350 HP (even with jackplates and performance props), SeaStar PRO has steered the BASS Masters Classic® since 1994 and it's the choice of high performance outboard boatbuilders.

APPLICATIONS:

Seastar Pro is for high-performance boats with single non-power-assisted outboards up to 300 HP, especially those capable of speeds over 60 MPH, which demand maximum steering control and comfort. It is suitable for use with high-performance propellers and jack plates.

FEATURES:

- Patented steering lock valves.
- Low friction hydraulic steering system.
- 4.25 turns from lock-to-lock.
- Compact helm has only a 4-7/16" footprint — needs only 3" dash hole (Tilt requires larger hole).
- Optional PRO Cylinders with longer shaft bushings and larger pivot bushings for an even more solid feel!
- Optional hoses with through-bulkhead fittings; multiple helm mounting options
- Factory swaged hoses are Kevlar® reinforced.
- Packaged complete with helm, cylinder, fittings, oil, bleeder kit and detailed instructions.
- Standard 3/4" tapered steering shaft.
- Fast, easy installation.
- Meets A.B.Y.C. standards.
- Meets N.M.M.A. certification requirements.

NOTES

- *Do NOT use with unbalanced cylinder.*
- *SeaStar PRO is for single engine applications only.*
- *The recommendations shown above apply to factory stock outboards only. Modified installations may require a higher capacity steering system. (Cylinder volume / helm displacement = number of turns.) If in doubt, contact Dometic technical service for assistance.*
- *Some applications vary from what is depicted in this catalog. Always consult SeaStar manual for diagrams specific to your application.*
- *Interference between the cylinder and boat can occur under certain conditions. Check installation thoroughly throughout the full range of movement for engine tilt and trim (and jack plate, if present).*
- *For all Seastar PRO outboard systems: use only SeaStar PRO Hose Kit Part No. HO57_ _ or HO82_ _, where last two digits equal length in feet.*

SEASTAR PRO LOCK VALVE SYSTEM:

SeaStar PRO's unique valve system keeps pressure in the two hydraulic lines about equal, so the wheel feels solid and sure at all times. SeaStar PRO is the only hydraulic steering system uniquely designed to give you maximum steering comfort and control of your high-performance bass boat.
SeaStar PRO has been installed on premium bass boats as original equipment for many years. It's the ideal upgrade for twin-cable mechanical steering.

For more information see: www.dometic.com

DOMETIC OUTDOOR

TOURNAMENT SERIES CYLINDER AND ADJUSTABLE TIE BAR

Extreme heavy duty cylinders and tie bars designed primarily for high performance twin and triple engine applications. Also available for single engine applications. These cylinders and tie bars are application-specific.
Please see the chart below.

036-68450-S

- Suitable for use with all SeaStar Helms & SeaStar Power Assist
- Heavy duty universal cylinder
- Bolt-on stainless steel tie bar plates, also reversible (patent pending)
- Robust design with heavy duty support brackets, barrel, shaft & seals
- Superior corrosion resistance
- New pivot plate design provides smooth articulation and a sealed joint (patent pending)
- Heavy duty adjustable tie bar (patent pending)
- Equipped with stainless steel adjustable o-ring sealed elbow fittings which can be easily orientated in any direction

GENERAL INSTALLATION NOTES FOR ABOVE CHART

1) Installation may vary according to the following factors: engine mounting height, transom thickness, use of transom savers, tiller bolt hole location, engine tilt range, and engine size.
2) For center engine drops greater than 3 inches (76mm), please consult Dometic Technical Service.
3) Tie bar length may vary depending on toe in/toe out setup. To allow for toe, add or subtract from your nominal engine center to center distance.
4) Based on recommended engine manufacturer minimum center to center distances. Deviating from these recommendations may require stroke limiting cylinders and/or engine tilt limiting, please consult Dometic Technical Service.
5) Cylinders must be plumbed in parallel only, no series connections. Only exception is if cylinders are utilizing a liquid tie bar.
6.) Maximum drop: <3 inches (76mm). Contact Dometic Technical Support for center engine drops greater than 3 inches.
7.) Extra long tiebar kits available, contact Dometic Technical Support for details.

SEASTAR STEERING (SIDE MOUNT CYLINDER) SYSTEM

A great alternative for wide, shallow splashwells. SeaStar side mount steering is a good choice for engines with threaded tilt tubes that comply with ABYC P17/NMMA/BIA standards for mechanical steering. The cylinder attaches to an engine tilt tube which meets the above standards.

APPLICATIONS:

Single and dual non-power-assisted outboard engines up to 300 HP (600 combined HP for counter-rotating duals) that have standard engine tilt tube.

Suitable for speeds up to 60 MPH and dual station use (with purchase of extra helm, hose & fittings).

Dual engines require purchase of a tie bar kit and extra hardware. For power steered engines, contact Dometic Technical Service.

FEATURES:

- Drag link design fits most engines with threaded tilt tubes. Fast, easy installation.
- Alternative to front mount cylinder where space allows, especially useful in boats with shallow splashwells.
- Suitable for use on engines with power steering.
- 4.8/5.7 turns lock-to-lock using SeaStar 1.7 helm (unbalanced cylinder).
- Compact helm has only a 4-7/16" footprint -needs only 3" dash hole (Tilt requires larger hole).
- Standard 3/4" tapered steering shaft.
- Meets A.B.Y.C. standards.
- Meets N.M.M.A. certification requirements.

	Power Assist Steering			PA 1200-2	**034-12000**

NOTES:

These recommendations apply to factory stock outboards only. Modified installations may require a higher capacity steering system. If in doubt, contact SeaStar Solutions technical service for assistance. (Cylinder volume / helm displacement = number of turns.) For dual engines, use SeaStar or engine manufacturer's tie bar. For all SeaStar outboard systems: Use following option A or B:

*A) Outboard hose: Order standard lengths (cannot be cut to length.)- **Part No. 039-51XX0 / # 039-57XX0**, where **XX** = length in feet.* ***(See Page 39)***

*B) Copper tube: 3/8" diameter copper tube and Hose Kit - **Part No. 037-55080.***

WARNING:

***Do NOT use SeaStar PRO helms** with the unbalanced side mount cylinder. Doing so may cause steering wheel to lock up leading to possible loss of steering causing property damage and/or personal injury.*

SEASTAR STEERING (SPLASHWELL MOUNT CYLINDER) SYSTEM

A Very Economical Hydraulic Steering Alternative, SeaStar splashwell mount steering is ideal for engines which do not have threaded engine tilt tubes (cannot use front or side mount cylinders). The splashwell mount cylinder typically attaches to an anchor point on or near the inside of the boat's transom.

APPLICATIONS:

An ideal hydraulic steering solution for engines without tilt tubes.

Single and dual non-power-assisted outboard engines up to 300 HP (600 combined HP for counter-rotating duals).

Suitable for speeds up to 60 MPH and dual station use (with purchase of extra helm, hose & fittings). Dual engines require purchase of a tie bar kit and extra hardware. Not suitable for engines fitted with factory power steering.

FEATURES:

- Ideal for outboard engines which do not have a tilt tube.
- Design allows wide variety of mountings.
- Light duty alternative to front mount cylinder where space allows.
- Suitable for installation in shallow splashwells.
- 5.5/6.5 turns lock-to-lock using SeaStar 1.7 helm (unbalanced cylinder).
- Compact helm has only a 4-7/16" footprint — needs only 3" dash hole (Tilt requires larger hole).
- Standard 3/4" tapered steering shaft.
- Cylinder #036-53800-3 features a compact 9" stroke for tight applications.
- Meets A.B.Y.C. standards.
- Meets N.M.M.A. certification requirements.

***The Commercial Helm Pumps are designed with a stainless steel shaft and a better sealing top plate for use in extreme conditions and/or commercial type applications.*

NOTES:
1. *Balanced system – ie: the number of turns lock to lock is equal port to starboard or vice-versa.*
2. *Unbalanced system – ie: the number of turns lock to lock is not equal port to starboard or vice-versa.*
3. *Requires cylinder rod end adapter 033-54240 supplied by Dometic.*
4. ***036-53320 replaces 036-53260-3 as of January 2000.*** *If installing 036-53260-3 additional clevis supplied by engine manufacturer is required. Mastry Engine part # SUN144 *not provided by Dometic.*
5. *The installation of the 036-53320 sterndrive cylinder requires the use of SeaStar Outboard hose only. DO NOT use 3/8" copper or nylon tube.*
6. *If engine outdrive is NOT equipped with a torque tab on the underside of the lower leg one must be installed to reduce prop torque.*
7. *Yanmar Engines using the Bravo III drives require the use of cylinder 036-53260-3.*

STERNDRIVE STEERING - Order Guide (Cylinder Volume ÷ Helm Displacement = # Of Turns)

SYSTEM CONFIGURATION	COMPONENT DESCRIPTION	QTY	MODEL	PART #	ORDER NO.
SINGLE & DUAL STERNDRIVES (Number of Turns varies by Helm & Cylinder. See Application Guide.) For dual sterndrive applications use engine manufacturers supplied tie bar.	CYLINDER	1	SEE APPLICATION GUIDE

			Tilt Helm-SeaStar 1.7	HH6541-3	038-65410-3
			Rear Mount Helm-SeaStar 1.7	HH5261-3	038-52610-3
			Tilt Helm-SeaStar 2.4	HH6542-3	038-65420-3
			Rear Mount Helm-SeaStar 1.7	HH5262-3	038-52620-3
			POWER ASSIST STEERING	PA1200-2	034-12000

NOTES:
1. *SeaStar helms are the standard recommendation for both non-power and power steered applications.*
2. *SeaStar helms with a higher displacement can be specified for less wheel turns where faster response is desired. Consult chart above for options.*
3. **To ensure performance, select the appropriate tube/hose kit as noted below*
   a) For SeaStar 1.7 Helms: use SeaStar 3/8" Extruded Nylon tubing, Order No. 041-51011. b) For SeaStar 2.0, 2.4 or 3.0 helms: use SeaStar/SeaStar PRO Outboard Steering Hose, or, 3/8" diameter copper tube and copper tube hose kit 037-55080 ***(See Page 39).***
4. *For dual stern drives – use the tie bar supplied by the engine manufacturer.*

These recommendations apply to factory stock stern drives only. Modified installations and high performance applications may require a higher capacity system. If in doubt, contact our technical service for assistance.

DOMETIC OUTDOOR

SEASTAR INBOARD STEERING

SeaStar has 2 types of inboard steering:
SeaStar (with SeaStar 1.7, 2.0 or 2.4 helm) and SeaStar Capilano (with Capilano 1250V or 1275V variable turn helm)
.

SeaStar systems are described on this page

HOW TO SELECT AN INBOARD STEERING SYSTEM

1) From the application guide select the System Number appropriate for the vessel based on:
   a) Hull type - displacement or planing;
   b) Length of vessel;
   c) Number of rudders; and **d)** Usage of vessel.
2) From the order guide select the appropriate helm and accessory hardware for each steering station.
3) From the order guide select the fitting and hose kits required.
4) Confirm that you have sufficient space available where the cylinder will be mounted and at the dash for the helm, etc.

Displacement Hull - Maximum hull speed does not normally exceed 18 knots.

Planing Hull - Maximum hull speed normally exceeds 18 knots.

FEATURES

- Regular duty aluminum or heavy duty brass cylinders.
- Easy installation for single and dual rudder vessels.
- Cylinders supplied with bleeder fittings.
- Two axis articulation.
- Easy autopilot interface.

APPLICATIONS

- Most inboard powered boats with single or twin engines.
- Single Engine Planing/Displacement Hull Craft from 26-44 feet.
- Twin Engine Planing Hull Craft from 26-50 feet.
- Twin Engine Displacement Hull & Sail Craft from 26-44 feet.

NOTES: 1. For systems 1, 2 & 3 – nylon tubing (3/8" dia.) is the standard requirement for plumbing the system. Copper tubing (3/8" dia.) can be substituted but Fitting Kit 037-55070 is required.
2. For systems 4 & 5 – copper tubing (3/8" dia.) is the standard requirement for plumbing the system. Fitting Kit 037-55080 is required.
3. For systems 1, 2, 3, 4, & 5 – Seastar outboard hose can be substituted for nylon or copper tube. These hoses must be ordered in standard lengths. They cannot be cut to length.

For more information see: www.dometic.com

DOMETIC OUTDOOR

SEASTAR AND BAYSTAR HELMS

Dometic has recently updated all helm pumps to use O-ring (ORB) type fittings. Before this update all helms used NPT fittings. The new fittings will simplify the installation process and will allow for simple reorientation of fittings after installation.
Figures A and B are intended to assist with identifying an NPT helm/fitting vs. an ORB helm/fitting. New ORB type helms are clearly marked with DO NOT USE NPT FITTINGS on the raised area at the rear of the helm.

All updated pump numbers are designated with a -3 at the end of the part number.

Features:
- Updated decal and vent plug
- Adjustable stainless steel O-ring seal (ORB) fittings
- Anodized rear cover with black port plugs, PRO marking visible on Pro helms

NOW FITTED WITH POSITIONABLE O-RING FITTINGS

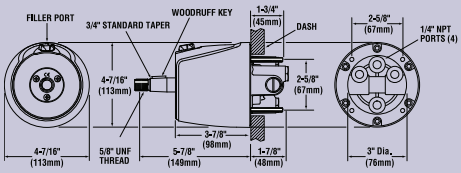
Designed for the performance boater, SeaStar Pro is the ultimate steering system for high-speed single engine outboards. As the premier Seastar Solutions No Feedback System, SeaStar Pro delivers uncompromising steering control! Suited for all those critical high speed outboard powered boat applications like Bass, Flats, Combo Race and Ski, and other performance boats capable of speeds in excess of 60 MPH. SeaStar PRO has steered the Bass Masters since 1994 and it's the choice of high performance outboard boat builders.

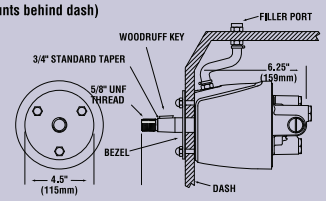
HYDRAULIC HELM MOUNTING OPTIONS

SeaStar offers a variety of helm mounting options to accommodate nearly any preference. Options are available for all helms, except Capilano and Hynautic helms.
SeaStar hydraulic helms typically mount on the dash surface with the steering shaft at 90° to the dash.
A SeaStar rear mount helm is also available for concealed (behind the dash mounting).
Optional kits are available to reduce the SeaStar helm protrusion from the dash, or to cover dash holes left by steering systems previously installed on the boat.

SEASTAR FRONT MOUNT HELM
(mounts on front of dash)



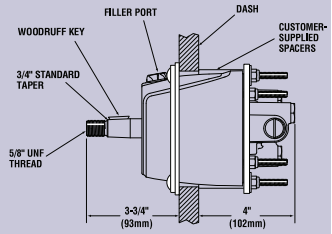
SEASTAR REAR MOUNT HELM
(mounts behind dash)



ROUND BEZEL KIT

The round bezel kit reduces SeaStar helm protrusion from the front of the dash by 3.75". (Not for BayStar).
ORDER NO. 033-54780
Mfr. No. HA5478

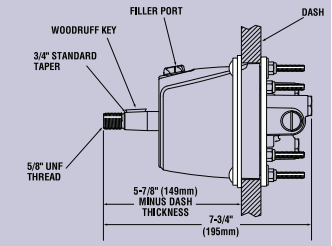
SEASTAR HELM MOUNTING KITS:
HA5478 ROUND BEZEL KIT



BACK PLATE KIT

The back plate kit reduces SeaStar helm protrusion from the front by the thickness of the dash and allows clean retrofit of SeaStar helm where following helms were previously installed: pre-1991 SeaStar, Syten, or mechanical rotary steering. (Not for BayStar).
ORDER NO. 033-54180
Mfr. No. HA5418

HA5418 BACK PLATE KIT



20° DASH WEDGE KIT

The 20° dash mounting wedge kit allows a SeaStar helm to be mounted 20° from perpendicular in any of four configurations. (Not for BayStar).
ORDER NO. 033-54190
Mfr. No. HA5419

HA5419 20° DASH WEDGE KIT

HYDRAULIC STEERING CYLINDERS

BAYSTAR OUTBOARD CYLINDERS

This balanced cylinder features a compact design that fits most splashwells. BayStar allows you to install all of the safety, reliability and comfort of hydraulic steering onto your boats rated up to MAX. 150HP. Combine this with the superior design, rigid ISO quality control and teamed with the finest materials and precision manufacturing.
BayStar continues the tradition bringing comfort and safety to boating.

NOTE: Mercury Optimax should use SeaStar cylinders
Not recommended for use on high performance engines

DESCRIPTION	CYLINDER NUMBER
Outboard Compact Cylinder	HC4645-3 / **036-46450-3**
Outboard Compact Cylinder - Honda	HC4647-3 / **036-46470-3**
Outboard Compact Cylinder - short plate	HC4648-3 / **036-46480-3**
Outboard Compact Cylinder - Yamaha	HC4658-3 / **036-46580-3**

THE NEW SEASTAR OUTBOARD STEERING CYLINDERS

SeaStar Solutions, the leader in hydraulic and mechanical marine steering, has introduced a new outboard hydraulic cylinder featuring upgrades to the barrel, sealing system and fittings. These upgrades are designed to keep pace with the introduction of heavier higher horsepower engines found on today's new boats.

Note: Order numbers ending with -3 represent updated cylinder style.

SEASTAR FRONT MOUNT OUTBOARD CYLINDERS

SeaStar Outboard Hydraulic Steering offers three models of steering cylinders to suit most applications. The standard and most commonly used model is the Front Mount Steering Cylinder HC5345-3/47/48/58. Before ordering it is necessary to determine the best possible application for your boat, taking into account the hull design, speed and usage of the boat. Keep in mind that engines today have become larger, more powerful and heavier than in the past.

DESCRIPTION	CYLINDER NUMBER
Outboard FM PP Cylinder	HC5345-3 / **036-53450-3**
O/B FM PP Cylinder (115-130HP Honda)	HC5347-3 / **036-53470-3**
O/B FM PP Cylinder ('77-'90 OMC)	HC5348-3 / **036-53480-3**
O/B FM PP Cylinder (225HP 4-Stroke Yam.)	HC5358-3 / **036-53580-3**

SEASTAR PRO FRONT MOUNT OUTBOARD CYLINDERS

The SeaStar Pro Front Mount Outboard Cylinders have keyed support brackets to prevent racking of the cylinder which gives it a more solid feel and more robust bushings.

SeaStar PRO Outboard cylinders are suited for all those critical high speed, single powered outboard boats, like Bass, Flats, combo Race/Ski and other performance orientated boats capable of speeds in excess of 65mph. All SeaStar PRO systems require the use of a SeaStar PRO helm and SeaStar PRO (1500psi) reinforced Kevlar hoses only!

DOMETIC OUTDOOR

SEASTAR SIDE MOUNT OUTBOARD CYLINDERS

This cylinder is suitable for installation in shallow splashwells and use on engines fitted with power steering. This unbalanced cylinder is 4.8/5.7 turns lock to lock. Typical applications include centre console fishboats and cruisers. For single and multiple outboard engine installations with total power to 600 HP in counter rotating application.

NOTE: Not for use with SeaStar Pro helms.

DESCRIPTION	CYLINDER NUMBER
O/B Cylinder Kit, Side Mount, Unbalanced . . .	HC5370-3 / **036-53700-3**

SEASTAR SPLASHWELL MOUNT OUTBOARD CYLINDERS

This cylinder is a light duty alternative to front & side mount cylinders. It is unbalanced with 5.5/6.5 turns lock to lock and fits engines with/without support (steering) tube. The splashwell mount cylinder is for single & multiple engine capability and has total power to 600 HP in counter rotating application. It can be transom or hull mounted cylinder.

NOTE: Not for use with SeaStar Pro helms.

DESCRIPTION	CYLINDER NUMBER
O/B Splashwell Mount Cylinder	HC5380-3 / **036-53800-3**

SEASTAR INBOARD CYLINDERS

These cylinders are for single and dual rudder vessels with two axis articulation and easy autopilot interface. Cylinders are also supplied with bleeder fittings.
The cylinders HC53XX-3 are redesigned cylinders with the following features:
- All anodized aluminum construction
- Adjustable o-ring sealed ports
- Common components (i.e. end glands, pistons, seals)

SEASTAR POWER ASSIST STEERING SYSTEM:

DOMETIC OUTDOOR

SeaStar Power Assist steering dramatically reduces steering effort in heavy or high torque applications. Power assisted steering delivers exceptional performance and unparalleled levels of safety and comfort, even in the most extreme conditions.

FEATURES:

- Dramatically reduces steering effort
- Wall or Floor mount
- Easy to install
- OEM or retro-fit
- Compatible with power purge system
- Simple add-on to an existing SeaStar steering system (from 1.4 to 2.4 SeaStar helms)
- Return to manual in failure mode
- Suitable for use with autopilots
- 12V or 24V operation
- Wiring harness included
- Ignition protected (SAE J-1171)
- ABYC, CE, NMMA, ISO 10592 Approved

SYSTEM OVERVIEW:

The SeaStar Power Assist unit can be installed on new SeaStar steering installations or as an easy retro-fit to existing systems.

Suitable for most boat types, the SeaStar Power Assist uses an electronically controlled hydraulic pump to provide on-demand power steering. It is installed into the hydraulic steering circuit between the helm and steering cylinder. The Power Assist unit is powered from the boat's battery and adjusts automatically to the input voltage (12V or 24V).

The SeaStar Power Assist can be used on boats with multiple engines and rudders, multiple steering stations and autopilots.

If power to the unit is interrupted for any reason, the steering system will automatically return to manual operation without any change to the number of lock-to-lock turns. In this case, the steering will of course be heavier than with the Power Assist activated.

SEASTAR POWER ASSIST PRO

Specifically designed for high torque single engine outboard applications fitted with SeaStar Pro helms, such as performance bass boats.

OPTIONS

DESCRIPTION	MFR.NO.	ORDER NO.
Dual Ignition Control Kit	HA1201	033-12010
Harness Fuse Kit	HA1206	033-12060

TECHNICAL SPECIFICATIONS

Voltage	12V or 24V (automatically recognized)
System Pressure	1000 psi MAX (1500 psi MAX Power Assist Pro)
Current Draw	40 A MAX, 60 A Peak (1 A System Electronics)

TYPICAL APPLICATIONS

- 150hp+ single outboards
- Heavy 4-stroke outboards
- Twin/Triple outboards
- High performance bass boats (SeaStar Power Assist Pro)
- Non-counter-rotating twin outboards

WHY USE POWER ASSIST?

Today's high horsepower engines are much heavier and are producing more propeller torque than ever before. Naturally this additional weight and torque has an effect on the boat's steering when these loads are transferred to the wheel. Unacceptable levels of steering load can increase driver fatigue and discomfort. The SeaStar Power Assist virtually eliminates all steering loads and provides modern boaters the same level of steering comfort and control found in cars. Even in the most extreme applications, the boat will be more comfortable to steer. The SeaStar Power Assist allows the boat to be driven safely and easily by the whole family.

FAST & EFFICIENT

SeaStar / BayStar Power Purge Jr. is the quickest way to bleed a SeaStar/BayStar system in the field and assure a rock-solid steering feel every time!

The Power Purge Jr. reduces installation and warranty costs while enhancing the quality of the boat to the end user. A typical manual fill and purge takes the average experienced installer or service technician about 30 minutes per boat - by using the **Power Purge Jr.** this can be reduced to 10 minutes or less.

POWER PURGE, JR. FEATURES:

- Makes bleeding systems simple, ensuring steering feel is solid every time
- 100% portable
- Powered by 12v battery
- Fast and efficient set up
- Quick connect fittings
- Easy to operate
- Filter screens help keep contamination out of your steering system
- Complete Fill & Purge in 10 minutes or less

DOMETIC OUTDOOR

HYDRAULIC HOSE/TUBING

1. OUTBOARD HOSE KITS
2. NYLON TUBING
3. COPPER TUBING

For Outboards

For Baystar System. Use BayStar hydraulic tubing (see below)

*For Seastar 1.7 systems: Use SeaStar hydraulic hose **# 039-51 xx 0** or SeaStar Pro hydraulic hose **# 039-57 xx 0** Outboard hose must be ordered in standard lengths.
(Cannot be cut to length. xx = Length of hose. See chart.)

*For SeaStar 2.0 & 2.4 & SeaStar PRO systems:
Use SeaStar Pro hose **# 039-57 xx 0** or 3/8'' dia. copper tubing + hose kit **# 037-55080**. SeaStar outboard hose kits are recommended.
(xx = Length of hose. See chart).

For Stern Drives

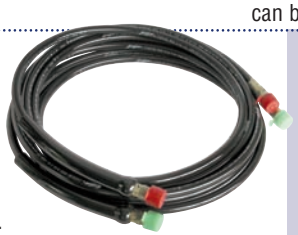
*For SeaStar 1.7 systems: Use SeaStar hydraulic hose **# 039-51 xx 0** or SeaStar Pro hydraulic hose **# 039-57 xx 0** or 3/8" dia. nylon tubing **# 041-51011** (per ft.). (xx = Length of hose).
*For SeaStar 2.0 & 2.4 systems: Use SeaStar hydraulic hose **# 039-51 xx 0** or SeaStar Pro hose **# 039-57 xx 0** or 3/8" dia. copper tubing + hose kit **# 037-55080**. (xx = Length of hose).

For Inboards

SeaStar systems:
For systems 1, 2 & 3 *(See Page 33)* 3/8" dia. nylon tubing **# 041-51011** (per ft.) is standard requirement for plumbing the system. Copper Tubing (3/8" diameter) can be substituted but Fitting Kit **# 037-55070** is required.
For systems 4 & 5 Copper Tubing (3/8" diameter) is the standard requirement for plumbing the system. Fitting Kit **# 037-55080** is required.
For systems 1-5 SeaStar outboard hose **# 039-51 xx 0** or **# 039-57 xx 0** can be substituted for nylon or copper tube. (xx = Length of hose. See chart).

1. OUTBOARD HOSE KITS

SEASTAR OUTBOARD HOSE KIT (HO 51XX)



Includes two hoses - can be used with all SeaStar systems, except SeaStar PRO, BayStar, Capilano and 3-line inboard systems.

ORDER NO.	Length	ORDER NO.	Length
039-51020	2-ft. / 0.6M	039-51160	16-ft. / 4.88M
039-51030	3-ft. / 0.9M	039-51180	18-ft. / 5.49M
039-51040	4-ft. / 1.22M	039-51200	20-ft. / 6.10M
039-51080	8-ft. / 2.44M	039-51220	22-ft. / 6.71M
039-51100	10-ft. / 3.05M	039-51240	24-ft. / 7.32M
039-51120	12-ft. / 3.66M	039-51300	30-ft. / 9.14M
039-51140	14-ft. / 4.27M	039-51340	34-ft. / 10.36M

SEASTAR PRO OUTBOARD HOSE KIT (HO 57XX)

ORDER NO.	Length
039-57140	14-ft. / 4.27M
039-57160	16-ft. / 4.88M
039-57180	18-ft. / 5.49M
039-57200	20-ft. / 6.10M
039-57220	22-ft. / 6.71M

Includes two hoses - can be used with all SeaStar/BayStar Steering Systems.

NOTE: Each OUTBOARD HOSE KIT contains (2) Hoses of equal length. Hose Kits are available in lengths from 2' to 30' from Seastar Solutions. If not indicated on above chart a special order can be placed.

2. NYLON TUBING

BAYSTAR TUBING KITS

Can be used with all BayStar helms, with appropriate fittings. Kit contains two cut lengths of tubing.

(NOTE: BayStar Cylinders with H suffix must use tubing part number with H suffix.)

DESCRIPTION	ORDER NO.	Mfr. No.
20' kit (2 x 20' lengths tubing):	039-44250	HT4420H
30' kit (2 x 30' lengths tubing):	041-44300	HT4430H

NYLON TUBING (HT5100) PER FT.

3/8" O.D. (outside diameter)
ORDER NO. 041-51011 (per ft.)

Can be used with SeaStar 1.7 helms on stern drives (except with 036-53320 cylinder) and small inboards with fitting kit; do not use on outboard systems.
NOTE: SeaStar 3/8" extruded nylon tubing is not recommended for use in systems with SeaStar Pro 2.4 helms or SeaStar HP helms. It is also not to be used systems where the total length of tubing run exceeds 100 feet. In these cases outboard hose and/or 3/8" copper tubing must be used.

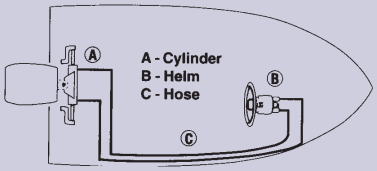
HOW TO DETERMINE HOSE/TUBING LENGTH

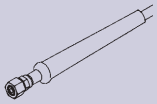
Select the situation which best suits your application, noting:
a) Cylinder location
b) Number of cylinders
c) Type of cylinders
d) Number of steering stations and
e) The number of hose and fitting kits required

Then define the hose/tubing lengths and fitting kits required:
1) Note the number of hose and fitting kits required.
2) Measure along the intended path of the hose/tube routing for each of the required hose kits.
a) Measure from centre of the cylinder(s) and helm(s).
b) Some installations require more than 1 hose kit and additional fitting kits.
c) Minimum bend radius for outboard hose is 2-1/2" (6 cm).
d) Outboard cylinders move. They are subject to engine trim & tilt; enough slack must be left in hoses to prevent kinking.
e) Systems using copper tubing require installation of flexible cylinder hose between the cylinder and the copper tubing.
3) Round the measurement up to the next even digit and add 2 feet (0.6m). This is the length of the hose/tubing required.
(See also Outboard, Stern Drive & Inboard Steering Sections of this catalogue for part number and application information.)

NOTE: Outboard hoses are supplied with pre-attached hose fittings on both ends. In order to prevent hose kinking, bend restrictors are supplied on one end of each hose in the kit. The end of the hose with the bend restrictor is to be attached to the cylinder.

Typical Single Station Routing





Seastar Steering Hose Typical End Detail

A single, front-mount outboard cylinder system is shown in this diagram. If your hydraulic system is different than the one depicted and/or you have any questions about hydraulic steering after reviewing this catalogue, please contact our technical department.

3. COPPER TUBING

3/8" outside diameter copper tubing is recommended for inboard, stern drive and seadrive steering systems with SeaStar II (2.4 cu.in/rev displacement) helms only, or where the length run exceeds 100 ft. Additional SeaStar hose kit # 037-55080 is required to connect the tubing to the cylinder.
NOTE: 3/8" copper tubing should be obtained through a local vendor.
SPECIFICATION: Soft Annealed Copper Tubing / 0.032 wall thickness / 3/8" outside diameter, Type 'L' produced under ASTM D-280.

DOMETIC OUTDOOR

SEASTAR HYDRAULIC OIL

Due to recent upgrades in our steering system components, Dometic recommends the use of SeaStar Steering Fluid ONLY in our hydraulic steering systems. SeaStar Steering Systems have been engineered and validated using our proprietary SeaStar Hydraulic Steering Fluid. SeaStar Steering fluid is engineered with special additive package that contains anti-foaming and anti-rusting agents, anti-oxidants, viscosity stabilizers, corrosion inhibitors, wear additives as well as water emulsification additives. It is highly recommend that SeaStar Steering Fluid be used to ensure optimum system performance and safety.

ANY NON-APPROVED FLUID MAY CAUSE SERIOUS DAMAGE TO THE STEERING SYSTEM RESULTING IN POSSIBLE LOSS OF STEERING, CAUSING PROPERTY DAMAGE, PERSONAL INJURY AND/OR DEATH

REMOTE BULKHEAD FITTINGS

These remote bulkhead fittings offer boaters a simple solution to cleanly route hoses through the hull while maintaining safety & aesthetics. Available in both single or dual hose applications for ultimate customization. Stainless steel options provide cleaner styling & corrosion resistance while blending in with your boat's stainless trim.

KEY BENEFITS

- Field installable series of products reduces the amount of stocking hose SKUs by allowing the user to install these on a standard hose kit
- Split grommet design allows for easy installation onto a hose assembly
- Increased inner diameter of plastic base plate simplifies fitting installation by allowing crimped hose fitting to pass through the base plate
- Stainless steel cover plates available for both single and dual applications provide cost effective cosmetic upgrade

Kit: Field installed Bulkhead.

DETMAR steering wheels are designed and manufactured to meet the rigorous physical and environmental demands of marine and other outdoor applications. All wheels are built around heavy duty, non-magnetic, high impact plastic frameworks with hard and soft rim options available. All black and coloured materials used are completely U.V. resistant.
All products meet ABYC P-22 and ISO 8848 standards.
Fit all standard 3/4" tapered shafts.

VIPER

This highly - styled, sport wheel provides a distinctive, clean appearance from front and rear viewing angles.

Features include:
- Hard and soft grip rim options.
- Texture/finish - rim is leather grained with finger grips and stitching.
- Wheel Diameter: 13-1/2"
- Dish: 4.0"

ORDER NO.	DESCRIPTION	Mfr. No.

DOMETIC OUTDOOR

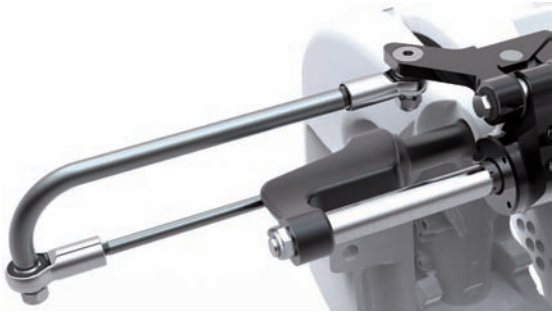
OUTBOARD HYDRAULIC STEERING

SEASTAR KICKER CABLE TIE BAR KIT

SEASTAR BY DOMETIC

This new **SeaStar** product allows a user to manually steer an auxiliary engine (kicker motor) using their existing **SeaSta**r hydraulic steering system. Today this is accomplished with a variety of solid mechanical linkages between the main engine and the auxiliary engine. Dometic has developed a patent pending design that incorporates a Xtreme cable as the linkage between the two engines.



FEATURES

- Flexible cable allows for adjustable locations of kicker motor.
- Allows independent trim/tilt of both engines.
- Allows full steering stroke of both engines.
- Simplified installation using universal ABYC steering connection (as per ABYC P17 & P21 standards) on kicker motor.
- Retrofittable to SeaStar Front Mount Cylinders
- Incorporates unique patented Dometics Xtreme cable technology

HO61XX KIT INCLUDES:

1 - Steering Cable Assembly Xtreme 40 series cable and a custom drilled out support rod)
1 - Pivot Cylinder Drive Link-arm (connects the drive bracket to one side of the cable assembly)
1 - Pivot Cylinder Drive Plate (allows for the link-arm to mount to the pivot cylinder pivot plate)
2 - Support Brackets (keyed version for use with this product)
Fasteners included.

Not Included:
Drive/drag link from auxiliary (kicker) engine to the end of the kicker steering cable.

Max. Engine Horsepower	Cable Length Nominal	Cable Type	Mfr. No.	ORDER NO.
20 HP	16"	Xtreme 40 Series	HO6116	039-61160
20 HP	22"	Xtreme 40 Series	HO6122	039-61220
20 HP	28"	Xtreme 40 Series	HO6128	039-61280
20 HP	34"	Xtreme 40 Series	HO6134	039-61340
20 HP	44"	Xtreme 40 Series	HO6144	039-61440

Installation Note: Kicker Cable Tie Bar systems require a minimum clearance of 14" from the end of the tilt tube towards the motor side well or gunnel.

SEASTAR MECHANICAL TIE BAR KIT

For hooking up a smaller kicker motor for trolling. Compatible with HC5345 or HC 5358 steering cylinders.

ORDER NO. 039-60100

TROLLMASTER PRO™ 3+
WIRELESS THROTTLE & STEERING CONTROL

"Control your troll" from anywhere on the boat.

The world's leading remote throttle control for gas powered auxiliary outboards.
A variety of models are available to fit brand-name, 4-Stroke kicker motors including Evinrude, Honda, Johnson, Mariner, Mercury, Nissan, Suzuki, Tohatsu, and Yamaha.

TrollMaster is an Angler's Dream – Maintain optimum trolling speeds to maximum your catch.
Throttle hardware kits required to fit specific 4 stroke outboards.
* Steering feature only works with Panther Electro Steer units (Sold separately)

FEATURES:
- Ergonomic Remote
- Full Wireless Control
- Water-Resistant
- Backlight LCD Display
- Works with all Panther Brand Electro Steer Models

KIT INCLUDES:
- Wireless Controller
- Radio Receiver
- Servo
- 2 AAA Batteries
- Detachable Lanyard

PANTHER

T5 - THROUGH TILT TUBE ELECTRO STEER

T5 provides a unique solution to steer a kicker motor. Can be installed on kicker motor with threaded tilt tube without drilling any holes in the boat. Installs in minutes and requires only 4 inches between main engine and kicker. Mounting hardware included. Controlled by a 2 button hand held remote with 24' cable. Optional wireless remote available see **ORDER NO. 934-55105**.

ORDER NO.	Mfr. No.	Description
934-55503	55-0503	Freshwater & Saltwater Model (Stainless Steel)
934-55022	99-55022	Relay Control

T4 - ELECTRO STEER

Unique product to steer a kicker motor. Can be installed on any kicker motor that has a threaded tilt tube. No need to drill holes in your transom. Installs in minutes. 9" minimum needed between main engine and kicker motor. Mounting hardware included. Controlled by a 24' cable and two button hand held remote. Available in Freshwater model (all component hardware made of zinc) and Saltwater model (all component hardware made of stainless steel).
Optional wireless remote available see **ORDER NO. 934-55105.**

ORDER NO.	Mfr. No.	Description
934-55103	55-0103	Freshwater & Saltwater Model (Stainless Steel)
934-55022	99-55022	Relay Control

ELECTRO STEER

Trolling Made Easy....Steer your kicker from anywhere in the boat. The Panther 100 Electro Steer is easy to install anywhere in the transom area. It operates the motor with the push of a button. Powered from the cranking battery; maximum amp draw: 5 to 7.5 amps. And fast? The Electro Steer will move from full right to left in only four seconds, with fast, precision kicker control, necessary for contour trolling. The connecting rod between the main and kicker motor easily disconnects, allowing versatile applications. Available in Freshwater Models (all component hardware made of zinc), and Saltwater Models (all component hardware made of stainless steel).

ORDER NO.	Mfr. No.	Description
935-50101	55-0101A	Freshwater & Saltwater Model (Stainless Steel)
934-55022	99-55022	Relay Control

WIRELESS REMOTE CONTROL

Allows you to steer your kicker motor from anywhere in the boat.
FCC and IC approved.

- Watertight
- 50 Ft Range
- Operates on 12v Battery
- Universal Design
- For “all” 2 bullet molded connectors
- Adapted for “all” Panther Steering and Trim & Tilt units ever made
- Does not interfere with other boat electronics
- Fits in the palm of your hand
- Lanyard included

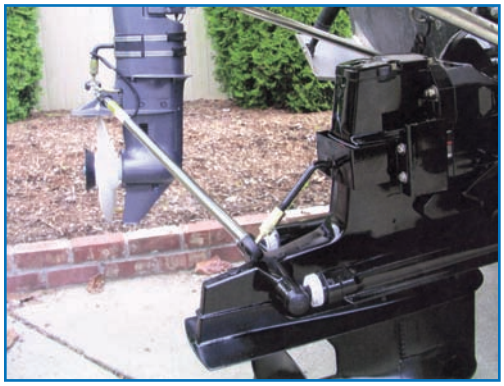
ORDERING TIP

To determine the correct rod length required, place both engines in the down running position, and measure the actual center to center distance between the housings. If your measurement is between:

ORDER NO.	Mfr. No.	C-C* Length	Description
511-10001	EZ-10001	19" - 22"	Short Rod Assembly
511-10002	EZ-10002	23" - 26"	Standard Rod Assembly
934-10004	EZ-10004	27" - 28"	Medium Rod Assembly
511-10003	EZ-10003	29" - 33"	Long Rod Assembly
511-10006	EZ-10006	34" - 38"	Ultra Rod Assembly
934-10005	EZ-10005	39" +	X-Long Rod Assembly

*Centre to centre measurement

By following this simple step it will help insure you are getting the correct length rod for your application.
Note: Please contact technical support for applications



For more information see: www.ezsteer.com

Uflex offers rotary systems featuring a "Planetary Gear Design" with 3 satellite gears which distributes steering feedback more evenly and effectively throughout the helm. The result is a reduction in the amount of effort needed to steer the boat straight or into the direction of the steering torque.

The Uflex Plantetary Gear Design also spreads the wear of the steering direction changes over a wider wear area which reduces overall wear and the correspondent lost motion.

ROTECH ROTARY STEERING KITS

• The competitively priced complete system

The Planetary Gear Design of the Rotech contrasts conventional systems which have only one contact point between two drive gears. The single contact point of conventional systems receives all the torque from the engine, which can eventually lead to uneven gear wear and correspondent lost motion in the steering.

System includes:
T71FC Helm, X34 Bezel and M66 Universal Rotary Cable with stainless steel output end fittings.

RACKTECH
RACK & PINION STEERING

Rack and pinion steering systems are generally found on boats where space between the drivers knees and the steering helm is limited. Racks were particularly common in the early 70's on ski boats where the freeboard of the boats were very small. Today's boats generally have enough space to fit a rotary helm, making the rack system's less popular as OEM installed option.

Rack and pinion systems have the similar design issues as conventional rotary helms. Accordingly, all the steering loads are transmitted to one contact point and there is uneven wear in the system.

System includes:

G86 Helm, X34 Bezel and M86 Universal Rack Cable
with stainless steel output end fittings.

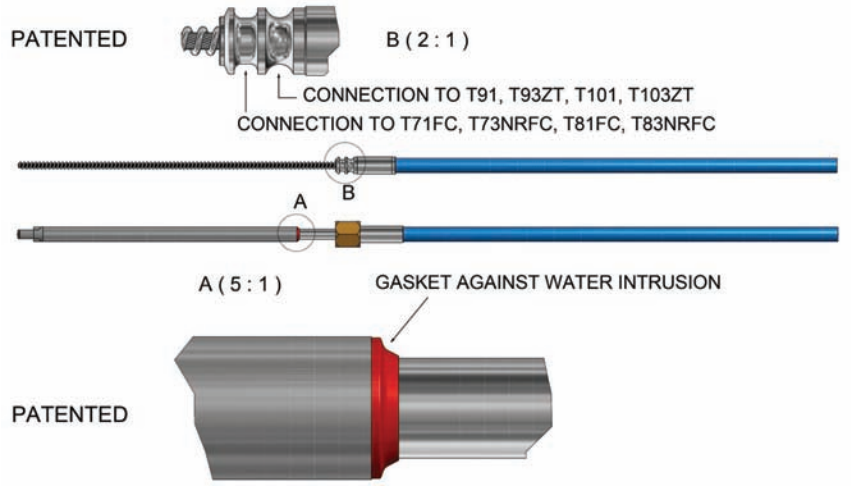
M90 MACH
- HIGH EFFICIENCY & FLEXIBILITY STEERING CABLE

Specifically designed for high performance and high efficiency applications, M90 Mach cable (patented) offers increased flexibility and durability by top quality materials and construction.

- Ideal solution for long cable runs and tight bend application
- Corrosion resistant materials, stainless steel engine side output fitting
- Minimal feedback
- Fast connect, simple installation, patented end fitting



NAVITECH™ POWER STEERING ASSEMBLY

Limit of Application:
Outboard Engines Up to 150hp, Maximum 50 mph, NO Jackplates.
Inboard Engines
Taking the latest technology from the automotive industry, Ultraflex has combined Electronic Power Steering (EPS) used in the most popular cars in the world with the latest mechanical steering helms and Mach 90 high efficiency steering cable to deliver unprecedented performance.

Perfectly silent, the system draws minimal power and furthermore is very easy to install.
The NaviTech™ also has Integrated System Monitoring (ISM) which detects certain operating conditions including the number of cycles and notifies the end user with a vibration signal in the steering wheel if the cable needs to be changed.
Never before has a steering system monitored it's own operating conditions and given the driver diagnostic feeback.

For specific applications Ultraflex can use programmable software to dial in the hand wheel effort and steering output to meet specific performance objectives of boat builders.
Validation for Marine application is per CE, ABYC P17, P27, and ISO 25197.
NMMA Type Acceptance completed.

NTECH-EPS Assembly Includes:
Power steering motor - Perfectly quiet power steering
Power assisted steering helm:
T91NAV - 43207 S - single cable steering helm
X66 - 40613 M - Tilt mechanism for NaviTech™ tilt mount helms.
Tilt range of 48˚ and five locking positions.

PANTHER XPS GEN 2 POWER STEERING

PANTHER XPS GENERATION 2 POWER STEERING SYSTEM

The Panther XPS System is designed to be installed on 90-2500 hp outboard motors that are equipped with a single steering-cable system.

Don't get left behind...take advantage of the ease, control & power og GEN2, the most advanced XPS power steering yet!
Engineered to make steering your boat as effortless as the vehicle you drive. No matter the vessel you operate, XPS offers affordability, confidence, fit and all around ease of operation.

SAFE
- Existing cable steering acts as safety back up in case of system failure
- Exceeds ABYC mechanical and hydraulic steering standards

EFORTLESS
- Automobile like effort
- Eliminates prop torque
- Easy to maneuver in tight quarters especially arounf docks and landing

BROAD FIT RANGE
- Designed to fit any boat or pontoon that can use cable steering
- Cylinder can be fully extended without interference
- Outboard engines 90-250hp

SAFE TIME & MONEY
- Self-bleeding hoses
- Utilize existing mechanical steering

SAFE POWER
- Stored energy allows for short pump run-times
- Less power draw substantially reduces risk of dead batteries

HYTECH OUTBOARD STEERING KIT 4.75 Turns Lock to Lock

For outboard engines 115 to 175 HP

PACKAGE KIT CONTAINS:

- **UP20 F** Front Mount Helm Pump
- **UC95-OBF-1** or **UC95-OBF-3** Front Mount O/B Cylinder
  Specify engine type when ordering
  (762-90006-1) HYTECH 1.1 - with UC95-OBF-1 Cylinder **or**
  (762-90007-1) HYTECH 3.1 - with UC95-OBF/3 Cylinder
- **OIL 15** Hydraulic Oil - 2 quarts **(762-00015)**
- **40 feet of cut to length tubing**

These recommendations should be used as a general reference only.
For further information please contact technical service at Phone no. 941-351-2628

Note: 2017 to date DF150, 175, & 200 require two cylinders for twin-engine application.
WARNING: These recommendations should be used as a general reference only. Final selection should be made with the assistance of a qualified installation technician. For any further information please contact our technical service.

SilverSteer™ HIGH PERFORMANCE OUTBOARD STEERING SYSTEMS

Specifically designed for high performance and high torque applications, the SilverSteer™ features a 1500 psi helm and keyed bullhorns on the cylinder for maximum durability and minimal lost motion. Whether a bass boat, flats boat or tournament style offshore fishing boat, the SilverSteer™ will deliver smooth, responsive and precise steering. Adjustable boss style fittings allow precise hose routing without the risk of breaking the fittings by over-tightening or leaking fittings from loosening during installation, a common problem on competing cylinders.

SILVERSTEER XP WHEEL TURNS: 5.28

For outboard engines 150 to 350 HP

SilverSteer XP packaged kit contains:

- **UP25 F-SVS** 762-88250 Front Mount Helm Pump
- **UC130-SVS** Front Mount Outboard Cylinder. Specify engine type when ordering.
- **Oil 15** Hydraulic Oil 2 litres (0.5 gallons)

Note: Hose kit with preassembled fittings **not included.**
Specify engine type when ordering. ***See Page 71*** for Hose Kits

Single Engine
Single Cylinder

Application: Up to 350 hp maximum
Wheel Turns:
5.28 (UP25F-SVS) Helm Pump
or 3.96 (UP33F-SVS) Helm Pump
Components Needed:
Cylinder (1) (UC130-SVS)
Helm Pump (1) (UP25F-SVS or UP33F-SVS)
Hose Kit (1) (KIT OB-SVS)
Oil (2) (OIL 15)
Steering Wheel (Wheel Selection)

For a second station add:
(1) UP25F-SVS or UP33F-SVS helm pump, (1) KIT OB-2S fitting kit, (1) KIT OB-SVS, 1 OIL 15 , 1 steering wheel

Dual Engine
Single Cylinder

Application:
Up to 350 hp maximum
(non-counter rotating engine)
Up to 600 hp maximum
(counter rotating engine)
Wheel Turns:
5.28 (UP25F-SVS) Helm Pump
or 3.96 (UP33F-SVS) Helm Pump
Components Needed:
Cylinder (1) (UC130-SVS)
Helm Pump (1) (UP25F-SVS or UP33F-SVS)
Hose Kit (1) (KIT OB-SVS)
Oil (2) (OIL 15)
Tie Bar (1) A94
Steering Wheel (Wheel Selection)

For a second station add:
(1) UP25F-SVS or UP33F-SVS helm pump, (1) KIT OB-2S fitting kit, (1) KIT OB-SVS, 1 OIL 15 , 1 steering wheel

Dual Engine
Dual Cylinder

Application:
Up to 600 hp maximum
(non-counter rotating engine)
Up to 700 hp maximum
(counter rotating engine)
Wheel Turns:
10.57 (UP25F-SVS) Helm Pump
or 7.93 (UP33F-SVS) Helm Pump
Components Needed:
Cylinder (1) (UC130-SVS)
Cylinder Port (1) (UC130P-SVS)
Helm Pump (1) (UP25F-SVS or UP33F-SVS)
Hose Kit (1) (KIT OB-SVS)
Oil (3) (OIL 15)
Tie Bar (1) A90
Steering Wheel (Wheel Selection)
Connection Kit (1) KIT OB-DBR-SVS)

For a second station add:
(1) UP25F-SVS or UP33F-SVS helm pump, (1) KIT OB-2S fitting kit, (1) KIT OB-SVS, 1 OIL 15 , 1 steering wheel

ATTENTION: The Siversteer™ helm pumps are always to be installed in conjunction with the UC130-SVS cylinder and the resinforced hose kit KIT-OB-SVS.

INDIVIDUAL COMPONENTS

UP18 HELM PUMP

- Built-in lock valve for positive rudder lock
- Integral relief valve for over-pressure protection
- 3/4" tapered anodized aluminum shaft
- Corrosion proof composite housing
- Easy accessible lock valve and shaft seal for replacement
- For use with UC81-OBF cylinder only
- Intermediate dashboard position mount

FRONT MOUNT HELMS

ORDER NO.	Model No.	Displacement/ Revolution	No. of Pistons	Relief Valve
SPECIAL ORDER	UP18	18 cc - 1.1 cu.in	5	55 Bar - 800 PSI

UP20 F - FRONT MOUNT HELM PUMP

- Built-in lock valve for positive rudder lock
- Integral relief valve for over-pressure protection
- 3/4" tapered anodized aluminum shaft
- Corrosion proof composite housing
- Easy accessible lock valve and shaft seal for replacement
- For use with UC94-OBF/1 or UC94-OBF/3 cylinder only
- Intermediate dashboard position mount

BUBBLEBUSTER™

A Portable Device for Automatic Filling & Purging of Hydraulic Systems!

- Reduce time and simplify purging hydraulic steering systems
- Features a Zero Emulsion pump, 1 gal. capacity reservoir
- Compatible with competing helms and cylinders
- 100% portable

ORDER NO. 762-99999 Mfr. No. BUBBLEBUSTER

SPECIAL ORDER ITEM

INDIVIDUAL COMPONENTS

762-88330

FRONT MOUNT & TILT MOUNT FEATURES:

- Available in two different displacement size helms for the SVS
- Compact design
- Ball bearing piston race
- Built-in lock valve for positive rudder lock
- Integral relief valve for over-pressure protection 105 bar (1500 psi)
- 3/4" tapered stainless steel shaft
- Easily accessible lock valve and shaft seal for replacement
- Cast iron rotor for greater durability and longer life
- Complete with fittings adjustable at 90° for 3/8" tube
- CE

INDIVIDUAL COMPONENTS

UC-132-OBS SIDE MOUNT CYLINDER

- 163cc / 9.95 cu.in Displacement
- Patented Mounting Collar for Easy Installation
- Rated for 450 Horsepower
- Counter Rotating Engines

ORDER NO. 762-01320 Mfr. No. UC132 OBS

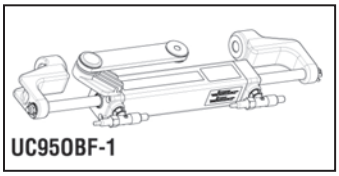
UC95-OBF FRONT MOUNT OUTBOARD CYLINDER - *See Application Chart for HYTECH Steering Kits on Page 65*

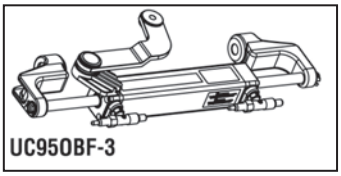
Applicable to engines up to 175hp and under. Constructed of top grade material, this cylinder is simple to install, exceptionally reliable, and fits almost every 2 & 4 stroke outboard engine on the market. 4.5 Turns lock-to-lock.

- Highly efficient & durable replacement end seals with linear bearing, high pressure seal, & wiper
- Carbon steel piston for excellent durability and split pinned mounting rod for smooth install

Volume: 94cc - 5.7 cu. in. **Output Force:** 278 kg - 613 lbs.
Inside Diameter: 30 mm - 1.18", **Stroke:** 186 mm - 7.3"
Fittings: 3/8" (9,5 mm) - For high pressure flex hose
Bleed fitting: DN5 Quick connect

NEW!





ORDER NO. 762-00950 Mfr. No. UC950BF-1
ORDER NO. 762-00953 Mfr. No. UC950BF-3

UC-128TS FRONT MOUNT OUTBOARD CYLINDER - *See Application Chart for PROTECH & PROTECH TILT Steering Kits on Page 66 & 67*

UC128TS is defined by optimal performance & durability for hydraulic steering on outboard engines. 300hp single engine, single cylinder applications, & up to 600hp on dual engine, dual cylinder applications. With a newly innovative design, the UC128TS is the legitimate solution for all steering system upgrades & replacements.

NEW!

- Latelest technology to isolate from tilt tube & eliminate friction
- Highly efficient & durable replacement end seals with linear bearing, high pressure seal, & wiper
- Stainless steel chrome plated rod
- Electropolished & passivated link assembly

Volume: 120cc - 7.3 cu. in. **Output Force:** 450 kg - 992 lbs.
Inside Diameter: 35 mm - 1.37", **Stroke:** 185 mm - 7.28"
Fittings: 3/8" (9,5 mm) - For high pressure flex hose
Bleed fitting: DN5 Quick connect

ORDER NO. 762-90128 Mfr. No. UC128 END CAP

UC130-SVS FRONT MOUNT CYLINDER - *See Application Chart for SILVERSTEER Steering Kits on Page 68 & 69*

Specifically designed for high performance, high torque applications. Balanced: The number of turns lock-to-lock is equal port to starboard or vice-versa. In the applications with dual UC130-SVS cylinder it is necessary to order a standard UC130-SVS cylinder (link arm attached to the starboard side of the cylinder) and a port UC130-SVS cylinder (link arm attached to the port side of the cylinder). A90 tie bar (SPECIAL ORDER ITEM) required for use on dual engine/dual cylinder applications.
Depending on the applications on the outboard engines, the UC130P-SVS port cylinder is available in 2 versions:

Volume: 130cc - 7.93 cu. in, **Output Force:** 492 kg - 1085 lbs.
Inside Diameter: 36 mm - 1.42", **Stroke:** 185 mm - 7.28"
Fittings: 3/8" (9,5 mm) - For high pressure flex hose
Bleed fitting: DN5 Quick connect

SPECIAL ORDER ITEM

PADDLE TRIM

For complete control of engine trim and tilt, trim tabs, jackplates, PowerPole(R) and other on board systems, the innovative Paddle Trim system is the answer.

Adaptable to existing front mount hydraulic and tilt helms, the Paddle Trim is ergonomically designed to allow the driver to make precise adjustments to the attitude of the boat or other systems without removing his hand from the steering wheel.

- Available both in single and dual versions (for either two equal or two different outputs).
- Both single or dual paddle can be positioned at various angles for the most comfortable choice.
- Equipped with one water proof “MOM.ON-OFF-MOM.ON” switch (2 switches on dual version).
- Max load 5 Amp @ 12VDC.
- For loads exceeding 5 Amp we recommend the use of the KTR - 42860S kit relay
- Uflex® trim tabs require the use of the KTR - 42860S kit relay
- Suitable for any kind of steering wheel dish. Max wheel dia. 15.7” (400 mm)
- Easy to install on the following Ultraflex® steering systems:
  - front and tilt mount hydraulic helms
  - tilt mount mechanical helms
- Wiring harness, labels and mounting hardware kit are included
  The mounting plate, which differs between front and tilt mount installation, is ordered separately

TILLER STEERING SYSTEM - ZERO TORQUE

Neutralize propeller torque with the ZTF Tiller! This unique tiller handle contains a hydraulic valve and cylinder that virtually locks out propeller torque while not actively changing the direction of the boat.

- Rated for Mercury® engines up to 150 HP
- Includes Mercury® "BIG TILLER" and the hydraulic valve and cylinder
- Safer boat handling operations
- Consistent boat direction
- Fatigue reducer
- Patented

ORDER NO. 762-50000 Mfr. No. ZTF TILLER M1T

When the handle is operated it swivels around its pivot and moves the linkage bar which will operate the valve.

CABLE BOOT

This is truly a functional cable boot that is easy to install. No longer necessary to split or cut your motor well boot to pass cables through. This cable boot provides a fully open area to pass wiring and cables through and when rigging is complete simply pull cable tie snug around wires and cable to complete installation. The cable boot is constructed of rugged black vinyl that resists ultraviolet rays, gasoline and oil.
This cable boot is available in two sizes to cover all installation requirements. Patent Number 4,958,790.

CABLE BOOT 3"

ORDER NO. 205-90010 - Black
ORDER NO. 205-90011 - White
Requires a 3" diameter hole and mounts with 6 pan head screws.

CABLE BOOT 4-1/2"

ORDER NO. 205-90040
ORDER NO. 205-90041
Requires a 4-1/2" diameter hole and mounts with 8 pan head screws.

DOMETIC OUTDOOR

HOW TO MEASURE CONTROL CABLES "Measure twice. Order once"

For A NEW INSTALLATION

Measure cable routing path from control head attachment point to engine connection, as follows:

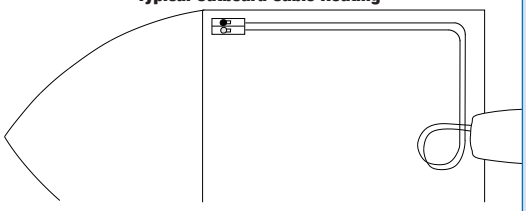
Outboards

Measure from control along unobstructed cable routing to center of outboard. Add four feet to allow for loop which provides unrestricted engine movement. Round up to the next foot and order required cable part number. (Last two digits of cable part number equal cable length in feet.)

Inboards & Stern Drives

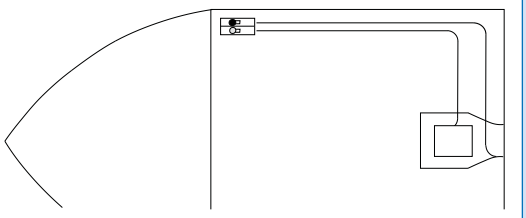
Measure from control along unobstructed cable routing to shift and/or throttle connection. Round this dimension up to the next foot and order required cable part number. (Last two digits of cable part number equal cable length in feet.)

Typical Outboard Cable Routing



TYPICAL OUTBOARD CABLE ROUTING
(MEASURE CABLE PATH + ROUND UP
TO NEXT EVEN FOOT + ADD 4 FEET FOR
LOOP AT ENGINE TO PREVENT KINKING)

Typical Stern Drive (I/O) or Inboard Cable Routing

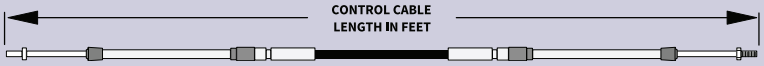


TYPICAL STERN DRIVE/INBOARD
CONTROL CABLE ROUTING
(MEASURE CABLE PATH +
ROUND UP TO NEXT EVEN FOOT)

For REPLACEMENT OF EXISTING CABLES

If you removed the old cable, measure for replacement cable as follows:

Measure from tip to tip and round up to the next foot, if necessary (aftermarket cables are sold in foot increments).
The control cable part number contains its length. Dometic cables are usually listed as CC???XX, where XX = length in feet.



FOR EXAMPLE: Part Number CCX63320 = 20 ft. CCX633 Control Cables or
Morse® Part Number *032377-03-240.0 = 20 ft. 33C Control Cable

*This cable is no longer available.
Use CCX633XX as a replacement

WHAT TO CONSIDER WHEN SELECTING CABLES

Dometic makes engine control cables for a wide variety of applications. We recommend their use with our controls as well as in engine manufacturers' control systems. We offer three grades of cable: Standard, Midrange & xtreme (PREMIUM)

THREE PERFORMANCE GRADES:

xtreme control cables can be used in any boat. They are by far the best choice for long runs, twin stations or other difficult routings with multiple cable bends. Midrange cables are recommended for somewhat longer cable routings and heavier use than their standard counterparts. Standard cables are suitable for most applications with short, simple cable routings.

FOUR APPLICATION TYPES:

- **OEM Replacement Type**

Dometic offers a direct replacement cable for almost every engine manufacturer's control. Most of our OEM type cables are available in both standard & xtreme versions.

- **Universal (3300/33C) Type**

Universal (or 3300/33C) type throttle/shift control cables are direct replacements for many boats using aftermarket controls or most engine manufacturer's controls with the correct adapter kit. Universal 3300/33C cables can be connected to most engines. These cables are offered in all three grades: standard, midrange & Xtreme.

- **Universal (4300/43 6400/64) Types**

Heavy duty universal type control cables are available in xtreme versions only. These are drop-in replacements for 43C, 43BC, 64C & 64BC style cables.

- **Jet Boat Gate Control Cables**

Three styles of drive-specific jet boat gate control cables are available, for Mercury Sport Jet® 90 & early 120s, Sport Jet 175s & OMC Turbo Jet®. Our Xtreme 43BC cable is used on most other popular jet drives. Replacement throttle control cables are generally an OEM or 3300/33C Universal Type.

Dometic control cables meet OEM specifications for fit, function, reliability and quality. They are built with marine-grade, corrosion-resistant materials and feature either xtreme premium core construction or Lubri-Core™ lifetime internal lubrication.

xtreme BY DOMETIC

XTREME control cables are simply the best cable in the business. Patent-pending unique splined-core design gives you maximum performance with no lost motion. Recommended for long cable runs.

XTREME CONTROLS - Upgrade to Xtreme Controls

- **Comfortable Handle & Grip**
- **Tactile Switch Functions**
- **Optimized System Performance**
- **Designed for Human Interaction**

SINGLE TOP MOUNT

The ergonomics and features of our controls are the most advanced available and are suitable for most types of boats with single engine applications. The shapely, balanced handle provides a very comfortable feel and the state of the art mechanism guarantees a smooth yet solid action, assuring you have maximum control at all times.

DUAL TOP MOUNT

These controls offer options that most top mount controls in the market do not. Options include trim (most outboards) or trim and tilt (most stern drives) or the neutral lock out button. This control is designed for twin engine applications and is suitable for use with both universal type (3300) or OEM type control cables without the need for adaptation. The neutral lock out button is great for center console boats where there is a possibility the control can be bumped while passing by knocking it into gear.
The standard items on these controls are the shapely and balanced hand grips that give you a very smooth, yet solid feel, the neutral safety switch and the neutral warm up button. These controls can not only use the 3300/33C style control cables they can also use Mercury® style cables from 1965 to date including the Gen II, OMC/Johnson/Evinrude/BRP® control cables from 1979 to date. This makes it one of the most desirable replacement controls in the market today.

SIDE MOUNT

Two new styles of side mount controls. Each designed for the correct application of either a center console or starboard side gunwale mounting. These unique handle designs place the grip and trim switches in a natural position. These controls come with the standard features of neutral safety switch, neutral lock out, neutral warm up and the safety stop switch with lanyard. You can also get the optional trim switch (most outboards) or trim and tilt (most stern drives). These controls can use the 3300/33C style control cables and Mercury® style cables from 1965 to date, including the Gen II, OMC/Johnson/Evinrude/BRP® control cables from 1979 to date.
This makes it one of the most desirable replacement controls in the market today.

ALL CONTROL FEATURES:

- Lever/handle updated for aesthetics, ergonomics, and improved durability.
- Multitude of control configurations to suit all boating types.
- Minimal changes to mounting scheme or cable nesting from Osprey or SL-3.
- Superior feel and function for most outboards, stern drives & inboards.
- Dual function lever controls both throttle and shift of one engine.
- Neutral interlock and start-in-gear protection (standard) for side mount controls.
- Optional Trim in the handle.
- Neutral engine warm-up feature (standard).
- Optional tilt switch available.
- Standard lanyard-style cut-off switch for emergency engine shut down for side mount controls.
- Friction adjustment feature included.
- "Easy-On" cable design accepts virtually every type of OEM and 3300/33C type cable.
- Easily adapted to push or pull cable actuation mode.
- Mechanical advantage 2.38:1.
- Meets/exceeds all applicable standards.
- Designed and assembled in the USA.

DOMETIC OUTDOOR

Model No. CH2300P

SKI BOAT (CH2200P)
JET BOAT (CH2300P)

Considered the best by boat builders, these controls feature superior styling, a compact design, positive lockout and smoothest feel available — and they're standard equipment on ski and jet boats. The ski boat unit includes superior neutral warm-up action, while the jet boat version features a waterproof neutral safety switch.

APPLICATION:

Dual-function control — each lever controls throttle AND shift. Ski version: inboard ski boats and other single station craft requiring super smooth, precise throttle control. Jet version: jet boats powered by Mercury® Sport Jet 90 & early 120, OMC® Turbo Jet, or similar propulsion systems. Single lever, dual action design controls both throttle and shift with one lever using 3300/33C type cables.

FEATURES:

- Single lever, dual action for throttle & shift
- Superior neutral engine warm-up control (ski version)
- Jet version - jet boats powered by Mercury sport jet & OMC turbo jet
- Flush mount design for quick, tidy installation
- Handle Finish: Textured
- Includes hardware for two 3300/33C type cables
- Crisp shifting ball grip for a solid, sure feel
- Neutral safety switches: - Optional for ski version
  Waterproof type included with jet version
- Weatherproof exterior, rugged diecast frame
- Meets/exceeds all applicable industry standards

Please note that while the CH2200P and CH2300P are similar in appearance, they have different neutral safety switches and internal mechanisms.
They are NOT interchangeable. Do not substitute CH2200P for CH2300P or vice-versa

DOMETIC OUTDOOR

MT-3 SINGLE LEVER (CH5310P)
MT-3 TWIN LEVER (CH5300P):

Ideal for inboards, stern drives and outboards, MT-3 combines classic binnacle control styling with dual function levers, a neutral safety switch and an engine warm-up feature! Control throttle and shift with one lever instead of two.
MT-3 Twin can control two engines using the 3300/33C cables.

APPLICATION:

Dual-function control
— each lever controls throttle AND shift. Great for single station inboards stern drives and outboards, single or dual engine. Perfect for applications in which a binnacle control appearance is desired, but one-lever throttle/shift control is preferred. Also a great choice when space is at a premium. This control uses 3300/33C type cables (single and dual lever) and 4300/43 type cables (single lever version only). Not suitable for use with Mercury® and OMC® OEM type control cables.

FEATURES:

- Binnacle styling with the advanced features of a dual-function control: one-handle engine control, neutral warm-up.
- Neutral safety switch to help prevent starting in gear (standard).
- Mechanical advantage - shift 2.77:1/throttle 3.57:1.
- Meets/exceeds all applicable industry standards.
- Can be used in a dual station application with the DS unit.

DOMETIC OUTDOOR

SINGLE S (CH5210P) TWIN S (CH5200P)

This classic control is great for inboards, single or dual station. The time-proven design of Twin S means years of reliable operation. Accepts universal control cables. Optional lever extension, detent kits and neutral safety switch available. Additional hardware is required for twin station use.

APPLICATION:

Single-function control — each lever controls throttle OR shift. Ideal for inboards, stern drives and outboards, the S controls are suitable for single or dual station use. These single function engine controls are available in both one or two-lever models. Both S controls use 3300/33C and 4300 type cables. Not suitable for use with Mercury® and OMC® OEM type control cables.

CH5210P

FEATURES:

- Highly polished stainless steel cover.
- Simple, rugged, compact design.
- Easily adjustable throttle friction and shift detent feel.
- Optional neutral safety switch to prevent starting in gear.
- Optional hand lever extension.
- Optional shift detent kit (if used in dual stations; use on main station only).
- Option throttle hold kit.
- Uses 4300 type cables.
- Mechanical advantage - shift 2.77:1/throttle 2.77:1.
- Meets/exceeds all applicable industry standards.

UNIVERSAL 3300/33C APPLICATIONS

Universal type cables are designed to fit aftermarket engine controls as well as OEM units from BMW®, Chrysler,® Honda®, Nissan®, Suzuki®, Volvo®, Yamaha® and others. Two versions of the 3300/33C type are available, including a XTREME model.
XTREME versions of the 3300/33C cables are offered for demanding applications in which a smooth feel at the control is essential.

Features:

- Cables can use the existing connection components.
- Stainless steel and brass fittings.
- Standard cables use stainless steel Lubri-Core™ core wire for smooth operation and long life. (8" minimum bend radius.)
- Premium 3300/33C cables have a heavy jacket and the XTREME splined, coated core element for maximum smoothness with minimal lost motion. (4" min. bend radius.)
- Black HDPE outer casing for durability and best resistance to UV and chemicals.

OEM CABLE APPLICATIONS

MERCURY/MARINER/FORCE/U.S. MARINE

OEM direct-replacement type cables are designed to fit BRP® Mercury®, Mariner®, OMC®, Volvo® and similar OEM engine control heads which use a proprietary control cable connection. Xtreme versions of the most popular cables are offered for demanding applications in which a smooth feel at the control is essential.

For These Controls:
Mercury®, MerCruiser®, Mariner®, Force®, OMC®, Evinrude®, Johnson®, Volvo®, SeaStar Solutions Osprey Series CH1700, CH7500, CH7600, and CH7800 and SL-3 SERIES.

Features:
- Drop-in replacement cables are engineered as replacements for original equipment cables.
- Cables use the existing connection components.
- Stainless steel and brass fittings.
- Standard cables use stainless steel Lubri-Core™ core wire for smooth operation and long life. (8" minimum bend radius.)
- Premium cables have a heavy jacket and the splined, Xtreme coated core element for maximum smoothness with minimal lost motion. (4" min. bend radius.)
- Black HDPE outer casing for durability and best resistance to UV and chemicals.

JET BOAT APPLICATIONS

Just for Jets! Two families of jet boat control cables are available, for replacement of Mercury Sport Jet® and OMC Turbo Jet® throttle and reverse-gate cables. Xtreme Versions of the three most popular cables are offered for demanding applications in which a smooth feel at the control is essential.

FOR THESE CONTROLS:

Mercury SportJet®, OMC TurboJet® Dometic *CH2300, MV-3 and others
** CH2300 Control only uses 3300/33C style cable for both throttle and shift.*

FEATURES:

- Drop-in replacement cables are engineered as replacements for original equipment cables.
- Cables use the existing connection components.
- Stainless steel and brass fittings.
- Standard cables use stainless steel Lubri-Core™ core wire for smooth operation and long life. (8" minimum bend radius.)
- Midrange cables use a heavier jacket and a stainless steel Lubri-Core™. (8" minimum bend radius for Lubri-Core construction)
- Premium cables have a heavy jacket and the splined, coated core element for maximum smoothness with minimal lost motion. (4" min. bend radius.)
- 4300/43 type cables have stainless steel conduit fittings. (5" minimum bend radius.)
- Black HDPE outer casing for durability and best resistance to UV and chemicals.

CABLES FOR MOST JET BOAT THROTTLE & GATE CONTROLS

BRP/OMC TURBO JET®

THROTTLE CABLES:

For OMC Turbo Jets with OMC side mount controls that accept OMC "snap in" O.E.M. type cable. Drop-in replacement cable; uses existing connection components.
See Page 87 for Replacement Cable Order Nos.

Xtreme 479 type Cable	CCX205 XX
479 type Cable (Standard)	CC205 XX

GATE CABLES:

For OMC Turbo Jets with OMC side mount controls that accept OMC "snap in" O.E.M. type cable. Drop-in replacement cable; uses existing connection components.
See Page 87 for Replacement Cable Order Nos.

Xtreme Turbo Jet Cable	CCX214 XX

THROTTLE/GATE CABLES (10-32):

For OMC Turbo Jets with OMC binnacle mount, Dometic or other controls that accept a cable with 10-32 threaded ends. Drop-in replacement cable; uses existing connection components.
See Page 85 for Replacement Cable Order Nos.

Xtreme 3300/33C Cable	CCX633 XX

MERCURY SPORT JET®

THROTTLE CABLES:

3300/33C cables are for Mercury Sport Jets with controls that accept a cable with 10-32 threaded ends.
Drop-in replacement cable; requires connection kit **ORDER NO. 015-27319** for engine end.
See Page 85 for Replacement Cable Order Nos.

3300 Cable (Standard)	CC230 XX
Xtreme 3300/33C Cable	CCX633 XX

DOMETIC OUTDOOR

UNIVERSAL 4300/43 & 6400/64 APPLICATIONS

Universal type cables are designed to fit aftermarket engine controls as well as OEM units from BMW®, Chrysler®, Honda®, Nissan®, Suzuki®, Volvo®, Yamaha® & others.
For heavy duty applications, Dometic offers 4300/43 & 6400/64 series XTREME cables.
For These Controls: Dometic & other brands which accept "universal" type control cables.

FEATURES:

- 4300/43 type cables have stainless steel conduit fittings. (5" minimum bend radius.)
- 6400/64 type cables have stainless steel conduit fittings. (8" minimum bend radius.)
- Black HDPE outer casing for durability and best resistance to UV and chemicals.
- Cables meet/exceed all applicable industry standards.

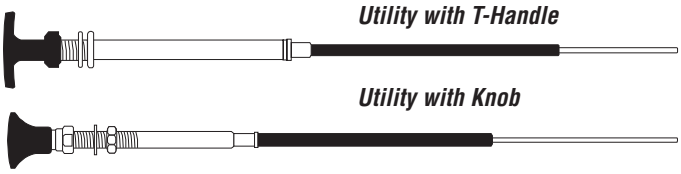
DOMETIC OUTDOOR

UTILITY & VERNIER APPLICATIONS

UTILITY: WITH KNOB AND T-HANDLE



CC343 Series Cable w/Knob & T-Handle		
Length	Mfr.No.	ORDER NO.
10 ft.	CC34310	017-34310
20 ft.	CC34320	017-34320

VERNIER

The Vernier Cable requires ordering 2 part numbers: A Vernier Cable Head (which includes knob, button, panel body and fine adjustment mechanism) PLUS a Cable, which attaches to the Cable Head.

Description	Mfr. No.	ORDER NO.
Vernier Cable Head Only	317310	317-31000

CC345 Series Vernier Cable		
Length	Mfr.No.	ORDER NO.
10 ft.	CC34510	017-34510
20 ft.	CC34520	017-34520

CONDUIT FITTING KITS

Use these (formerly known as Hub Adapter Kits) to mount utility cables to mount in either bulkhead or clamp type applications.

Description	Mfr. No.	ORDER NO.
Bulkhead Adapter Kit	300673	300-67300
Clamp Adapter Kit	302485	302-48500
Stop Collar	037693	300-37693

DC CONTROL

Converts standard 3300/33C cable into a utility control. Install through a panel or mount nearly anywhere with optional bracket.

Description	Mfr. No.	ORDER NO.
DC Control	301916	301-91600
Mounting Bracket, SST	048210	300-48210

Uses 3300/33C type cable.
*CCX633 is the recommended 3300/33C cable for use with the DC control

UTILITY CABLE:

An easy-to-install, easy to operate flexible push-pull cable for remote control of choke, throttle, shut off, fuel valves, vents and many other applications.

- Available with both Knob and T-handle.
- Solid stainless steel core wire resists corrosion, moves easily in HDPE liner.
- HDPE outer casing for durability and best resistance to UV and chemicals.

VERNIER CABLE:

Great for throttles or other applications where precise control is desired. Push the button for fast easy setting of approximate position, then turn the knob for micro adjustment.

- Positive, adjustable brake maintains settings regardless of vibration or governor back pressure.
- Uses standard Dometic throttle connection kits.
- HDPE outer casing for durability and best resistance to UV and chemicals.

FOR USE ON:

Remote control of choke, governor, throttle, fuel valves, vents and other applications.

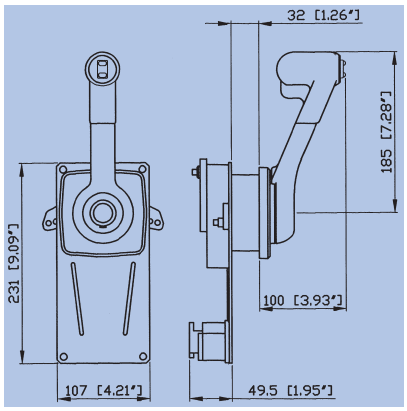
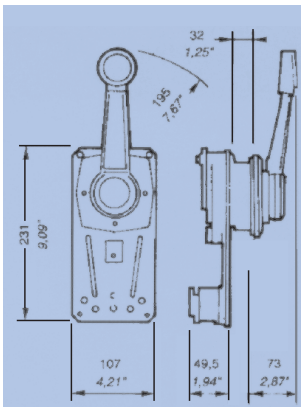
SINGLE LEVER SIDE MOUNT CONTROLS

Single lever / dual action control to operate both throttle and shift. Suitable for any type of boats with outboard, inboard or I/O power plants.

Features:

- Enables easy and safe shifting by preventing accidental gear engagement unless engine is idling
- Can be installed horizontally or vertically, on the starboard or port side of the boat
- The lever assembly is made of painted marine aluminum
- Provided with a brake tension release system adjustable from outside
- Pull-out handle disengages shift for warm-up
- Includes neutral safety switch # 351-00012 (Mfr. No. X12) which prevents in-gear starting
- All models are provided with positive lock-in neutral to prevent accidental gear engagement
- Model B184 & B184 Merc. are provided with a power trim switch conveniently located in the handle grip that enables easy tilting of the engine
- For use with all Universal 3300 Type engine control cables. Or C2, C8, CØ Ultraflex engine control cables
- For Mercury Type cable # 351-00035 (Mfr. No. K35) kit is required, except for # 762-01841 (B184 Merc.) control.
- Exceeds EN ISO 11547 Standards when X12 or X50 safety switch is installed





B183

B184

B85

B183

This control features a positive neutral lock-in position of the lever and a neutral safety switch to prevent in gear starting.
Model No. B183
ORDER NO. 762-01830

B184

This control features a positive neutral lock-in position of the lever, a neutral safety switch to prevent in gear starting, and a trim switch in the handle for engine/drive trim and tilt.
Model No. B184
ORDER NO. 762-01840

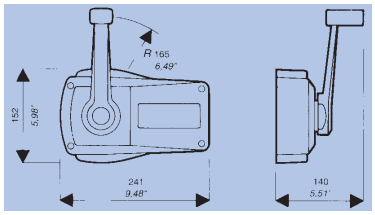
B184 MERC.

This control features a positive neutral lock-in position of the lever, a neutral safety switch to prevent in gear starting, and a trim switch in the handle for engine/drive trim and tilt. Includes # 351-00035 (Mfr.# K35) connection kit for installation of Mercury type cables & X50 (# 351-00050) neutral safety switch.
Model No. B184 Merc
ORDER NO. 762-01841

B85

Standard smooth design well suited for use on sailboats. This control features a positive neutral lock-in position of the lever and a neutral safety switch to prevent in-gear starting. To shift control an upward motion of the handle is required.
Model No. B85
ORDER NO. 762-00850

Lock in Neutral



B90

Black finish with positive lock-in neutral.
Model No. B90 **ORDER NO. 762-00900**

Features:

- Enables easy and safe shifting by preventing accidental gear engagement unless engine is idling
- Can be installed horizontally or vertically, on the starboard or port side of the boat
- Made of painted marine aluminum
- Pull-out handle disengages shift for warm-up
- Neutral safety switch # 351-00012 (Mfr. No. X12) prevents in-gear starting
- Exceeds EN ISO 11547 Standards when X12 or X50 safety switch is installed
- Provided with a positive lock-in neutral to prevent accidental gear engagement
- For use with all Universal 3300 Type engine control cables. Or Ultraflex C2, C8, CØ engine control cables.
  Note: Current OMC Type cable could be used with this control with # 351-00051 (Mfr. No. K51) connection kit for the motor end.
- For Mercury Type cable # 351-00035 (Mfr. No. K35) connection kit is required for the control.

For more information see www.uflexusa.com

SINGLE LEVER SIDE MOUNT CONTROLS

The new B310 controls combine elegance, functionality and versatility. Available with chrome, burl or soft touch control levers, the B310 series can be used on outboards, sterndrive and inboard application. The universal control design allows for the connection of 33C Universal style cable and OMC (Johnson/Evinrude) cables with adapters included. Mercury Gen I cables can be easily connected with the addition of the K35 connection kit.

Features:

- Enables easy and safe shifting by preventing accidental gear engagement unless engine is idling
- Can be installed horizontally or vertically, on the starboard or port side of the boat
- Provided with a brake tension release system adjustable from outside
- Pull-out handle disengages shift for warm-up
- Includes X50 (# 351-00050) neutral safety switch which prevents in-gear starting
- Exceeds EN ISO 11547 standards when X12 safety switch is installed
- All models are provided with positive lock-in neutral to prevent accidental gear engagement
- All models are provided with a power trim switch conveniently located in the handle grip that enables an easy tilting of the engine
- For use with all Universal 3300 Type, 33C and 33C Supreme engine control cables. Or C2, C8, CØ Ultraflex engine control cables. Mercury®/current BRP® (OMC®)/Yamaha®/Sukuki® Honda®/Volvo® style cables.
- For Mercury Type cable # 351-00035 (Mfr. No. K35) kit is required, except for # 762-01841 (B14 Merc.) control.

SINGLE LEVER TOP MOUNT CONTROLS

Single lever / dual action control to operate both throttle and shift. Suitable for any type of boat with outboard, inboard or I/O power plants.

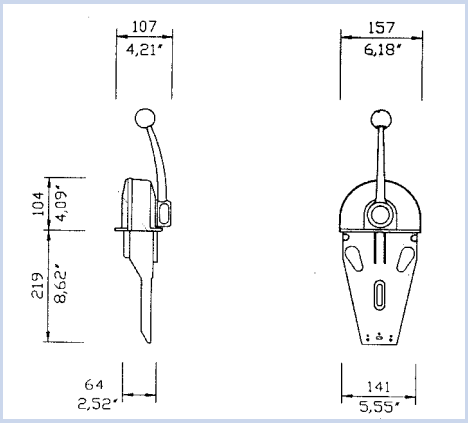
Features:

- Enables easy and safe shifting by preventing accidental gear engagement unless engine is idling.
- Made of chrome plated marine aluminum
- Pull-out handle disengages shift for warm-up
- Neutral safety switch # 351-00043 (Mfr. No. X43) (optional) prevents in-gear starting.
- Exceeds EN 1SO 11547 Standards when X43 safety switch is installed
- Built-in friction to avoid throttle creep.
- For use with Universal 3300 Type or 33C, 33C Supreme engine control cables. Or C2, C8 and MachZero Ultrafllex engine control cables.

B103

Single lever control for one engine

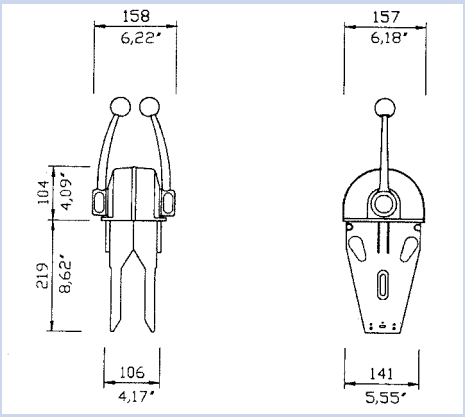
ORDER NO. 762-01030



B104

Twin lever control for two engines

ORDER NO. 762-01040



LOW PROFILE SINGLE LEVER TOP MOUNT CONTROLS

Single lever / dual action control to operate both with throttle and shift. Suitable for any type of boats with outboard, inboard or I/O power plants.

- Compact single lever controls offering a unique low profile style compared to other controls available on the market
- Enables easy and safe shifting by preventing accidental gear engagement unless engine is idling
- Made of chrome plated aluminum
- Push-in button disengages shift for warm-up
- Neutral safety switch # 351-00012 (X12) - prevents in-gear starting
- Exceeds EN ISO 11547 standards when # 351-00012 (X12) safety switch is installed
- For use with Uflex C2, C8 & MACHZero cables or Universal 3300 Type, 33C and 33C Supreme

SINGLE LEVER CONTROL FOR ONE ENGINE
Mfr. No. B301CR
ORDER NO. 762-03010

TWIN LEVER CONTROL FOR TWO ENGINES
Mfr. No. B302CR
ORDER NO. 762-03020

For more information see: www.uflexusa.com

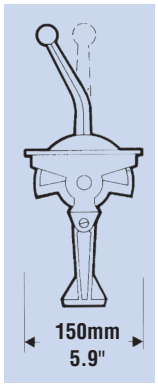
TWO LEVER TOP MOUNT CONTROLS

Two lever/single action control: each lever operates separately either throttle or shift.
Suitable for use with outboard, inboard or I/O power plants.

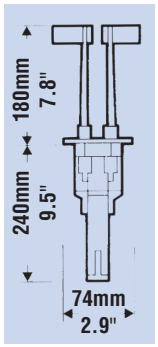
Features:

- Flush mount design makes them suitable for exposed positions such as fly bridge.
- Made of marine aluminum with chrome plated lever.
- Throttle lever is provided with adjustable brake tension release system and shift lever with forward, reverse and neutral detents. Both the brake tension release and detents can be installed and adjusted from the outside.
- Neutral safety switch # 351-00012 (Mfr. No. X12) optional, prevents in-gear starting.
- Exceeds EN 1SO 11547 Standards when X12 safety switch is installed
- Available with straight levers (B59) or bent levers (B58).
- B58 and B59 models are provided with an interlock kit to prevent accidental gear engagement.
- For use with Universal 3300 Type, 33C or 33C Supreme engine control cables or Ultraflex C2, C7, C8 and engine control cables.
- For Universal 4300 Type or Ultraflex C22 engine cable, # 351-00022 (Mfr.# K22) connection kit is required for the control.

B58
Control with Bent Levers,
Throttle and Shift, with interlock.
ORDER NO. 762-00580



B59
Control with Straight Levers,
Throttle and Shift, with interlock.
ORDER NO. 762-00590

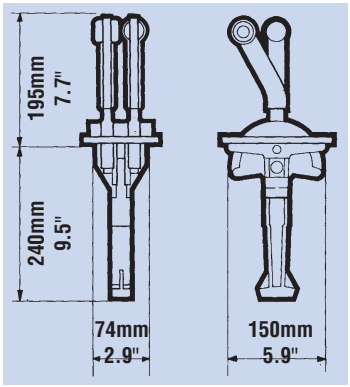


Features:

- Flush mount design makes them suitable for exposed positions such as fly bridge.
- Levers structure made of die cast zinc provided with a soft thermo plastic ergonomical handgrip.
- Adjustable brake to avoid throttle creep and positive detent for shift
- Optional adjustable ratchet for precise throttle operation use kit # 351-00052 (Mfr. No. K52).
- Neutral safety switch # 351-00012 (Mfr. No. X12) included prevents in-gear starting.
- Exceeds EN 1SO 11547 Standards when X12 safety switch is installed
- Raked throttle handle and straight gear handle for better manoeuvering.
- B204 and B208 models are provided with an interlock kit to prevent accidental gear engagement.
- For use with Universal 3300 Type, 33 or 33C Supreme engine control cables or Ultraflex C2, C7, C8 and MACHZero engine control cables.
- For Universal 4300 Type or Ultraflex C22 engine cable, # 351-00022 (Mfr. No. K22) connection kit is required for the control.

B204R
Black painted Control
with black soft hand grip,
Throttle and Shift, with interlock.
ORDER NO. 762-02040

B208R
White painted Control
with grey soft hand grip,
Throttle and Shift, with interlock.
ORDER NO. 762-02080



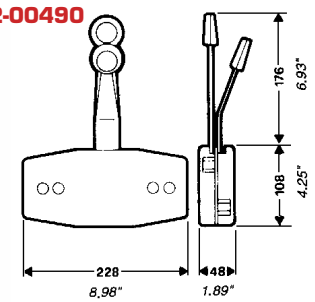
SINGLE ACTION TWO LEVER CONTROL

Suitable for all outboard engines.

Features:

- Made of nylon fiberglass with anodized aluminum levers.
- Left or right side mount installation.
- For use with engine control cables:
  - Seastar Solutions CC205 or Ultraflex C14 (OMC 1979-date) control cables with # 351-00023 (Mfr. No. K23) connection kit.
  - Seastar Solutions CC170 or Ultraflex C4 (OMC pre-1979) control cables with # 351-00024 (Mfr. No. K24) connection kit.
  - Universal 3300 Type, 33C, 33C Supreme or Ultraflex C2, C7, C8 and CØ control cables with # 351-00025 (Mfr. No. K25) connection kit.
  - Seastar Solutions CC179 or Ultraflex C5 (Merc 1965-date) without connection kit.

B49
Control. Black finish. **ORDER NO. 762-00490**



For more information see www.uflexusa.com

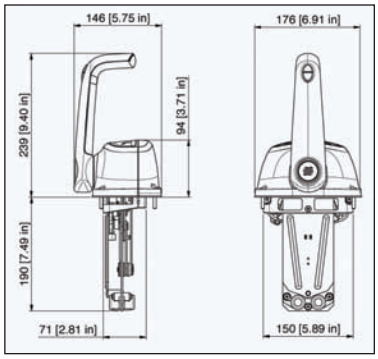
SINGLE LEVER TOP MOUNT CONTROLS

Single lever / dual action control to operate both throttle and shift. Suitable for any type of boat with outboard, inboard or I/O power plants.

Controls available WITHOUT LOCK IN NEUTRAL with TRIM only.

NOTE: Also available by (SPECIAL ORDER) controls with lock in neutral and with and without trim switches).
In the twin engine installation a single switch will operate both trims. With a focus on efficiency these controls have been specifically designed to improve the functionality of control systems, making the boat easier to control. Single lever / dual action control to operate both with throttle and shift. Suitable for any type of boats with outboard, inboard or I/O power plants.

762-05010-BT



CE

Features:

- Enables easy and safe shifting by preventing accidental gear engagement unless engine is idling.
- Gloss black painted high resistance ABS housing with die cast black painted levers
- Push in button disengages shift for warm-up
- Includes X12 neutral safety switch which prevents in-gear starting
- Exceeds EN ISO 11547 standards when **X12** safety switch #351-00012 is installed
- For use with all Ultraflex control cables except C4:
  - C14 and MACH14 cables require no kit
  - C2, C8 and MACHZero cables the connection kit **K59** - 40144 C is included
  - C5, C16 and MACH5 cables require **K60** Kit - 40145 E
  - C36 and MACH36 cables require **K62** Kit - 40157 J
  - C22 cable requires **K61** Kit - 40146 G

POWER A MARK II™ ELECTRONIC CONTROL SYSTEM

Reliable, Digital, Ergonomically Styled Control Systems.
The easy to install Power A Mark II™ control system provides fingertip operation of throttle and shift levers.

Power A

Using reliable and precise digital data transmission, this single or dual function control system is specifically designed to work on mechanically controlled as well as electronic and electro-hydraulic gas and diesel inboards, sterndrives and outboards.
The Power A Mark II™ comes with many features including Dock Assist, which offers the operator the opportunity to reduce the sensitivity of the throttle function for easier dockside handling.
Other standard features include RPM Synchronization, which reduces engine vibration and improves fuel economy, a High Idle feature to increase RPM where higher idle is necessary for cold engine operations, a programmable Trolling Valve Control and neutral Warm Up.
The stylish and ergonomically designed control makes the Power A Mark II™ suitable for many types of applications ranging from sport boats, yachts, and commercial applications.
Available with or without trim, the control has audible and visual interfaces which alert the operator to the current status of the control system.
With the ability to control up to 2 engines from up to 4 different stations, the Power A Mark II™ is a modular and flexible system with simple to install components.
The unique programming Module Display of the PowerA Mark II™ provides simple touch pad programming with descriptive information regarding the set up, tuning and diagnostics of the system.
The Power A Mark II™ is a system that can replace mechanical controls either on fully mechanical engines, or on fully electronic engines, or on engines with the combination of both characteristics.

- Private protocol Can Bus for data transmission
- Suitable for mechanical shift and throttle as well as electronic throttle and shift
- Connection of multiple stations up to 4 controls
- Modular system
- Direct Communication with electronic engines (SAE J 1939 or NMEA 2000)
- Plug'N Play Connectivity
- Automatic engine synchronization
- Dock assist
- Fully programmable shift delays
- Personalized label (upon special request)

Technical Features:

- Single Lever/Dual Function and Dual Lever/Dual Func for shift, throttle and trolling
- Up to 4 control stations
- Control boxes IP Protection: IP66
- Power supply: min 9 max 32V
- Working temperature: -25°C to+ 75°C
- Control station functions:
  - Station Select
  - Engine Warm up
  - High idle
  - Docking
  - Engine synchronization
  - Trolling valve, on request, according to customer's specifications
- Electronic throttle outputs:
  - Voltage (double output 0 - 5V and 0 - 2, 5V)
  - PWM (0-100%, frequency from 200Hz to 1kHz)
  - Current (4 - 10mA)
- Digital Throttle Output:
  - SAE J 1939
  - NMEA 2000
- Trolling valve output
  - Voltage (0 - 5V)
  - PWM (0-100%, frequency from 100Hz to 1kHz)
  - Current (4 - 20mA)
- Electric shift control:
  - 2 or 3 ON/OFF or proportional solenoids
  - Shift delays fully settable

Single Lever

Dual Lever

Safety Devices:

- Start in-gear PROTECTION (start inhibition with shifted gear)
- Audible and visual diagnostic failure alarm (Readable messages on the control unit display)
- Proportional shift delays
- Programmable working parameters
- Meets CEI EN 60945 standards

EMC Certification and CE Mark

Conforms with:

- CEI EN60945
- UNI-EN ISO 11547

Compatibility with all Mechanical Throttle Engines
Compatibility with all Electronic Throttle Engines

- Cummins, Detroit Diesel, Scania, Iveco, FPT, Lombardini, VM Motori, FNM, Yanmar, CMD-Volkswagen, Hyundai ecc.

763-00011-T

763-00021-T

The Power A Mark II™ electronic system actuators cannot be installed in those rooms where ignition-proof devices are required.

ACCESSORIES FOR CONTROL BOXES

K22 - ORDER NO. 351-00022
Kit to connect Seastar Solutions 4300/43C Type cables to top mount two lever control boxes B58, B59, B204, B208

K23 - ORDER NO. 351-00023
Kit to connect SeaStar Solutions CC205 or Ultraflex C14 (OMC 1979-date) cable to B49 control box.

K24 - ORDER NO. 351-00024
Kit to connect SeaStar Solutions CC170 or Ultraflex C4 (OMC pre-1979) cable to B49 control box.

K25 - ORDER NO. 351-00025
Kit to connect SeaStar Solutions 3300 Type, 33C, 33C Supreme or Ultraflex C2, C8, and MACHZero cables to B49 control box.

K35 - ORDER NO. 351-00035
Kit to connect SeaStar Solutions CC179 & CC210 or Ultraflex C5 & C16 to dual function controls.
Note: These cables do not work with B103 and B104 controls.

K51 - ORDER NO. 351-00051
Kit to connect SeaStar Solutions CC205 or Ultraflex C14 cable to engine for use with B90 control.

K52 - ORDER NO. 351-00052
Adjustable ratchet for B204, B208 controls.

X12 - ORDER NO. 351-00012
Neutral safety switch to prevent in-gear starting. For all Ultraflex controls except B103, B104 & B184 merc controls.

X43 - ORDER NO. 351-00043
Neutral safety switch to prevent in-gear starting, standard with B103 and B104 controls.

X50 - ORDER NO. 351-00050
Neutral safety switch to prevent in-gear starting, standard with B184.merc controls

HOW TO MEASURE FOR UFLEX CONTROL CABLE INSTALLATION

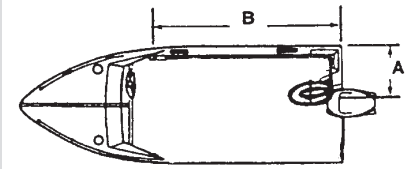
For NEW INSTALLATION

Measure A + B distance from the control along an unobstructed cable routing to clutch and / or throttle connection.
Round this dimension off to the next whole foot: you will have your cable length. We recommend that the cable bends have a minimum radius of about 8" (200 mm).
For outboard engine installations, it is necessary to add three feet to the obtained length, in order to allow the engine movement.

To determine the needed length of the REPLACEMENT CABLE, measure it from tip to tip. When ordering, specify the cable length in feet, rounding the dimension off to the next whole value.
If any kit is required to complete the cable connection, consult the appropriate section in this catalog.

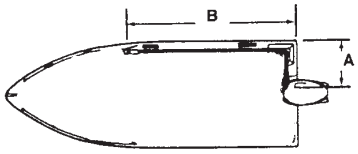
OUTBOARD

A + B + 3' (90cm) = L



INBOARD / STERNDRIVE

A + B = L



CONTROL CABLES

Uflex offers the best quality and most affordable cables in the business. Every Uflex cable has a full complement of 16 tempered lay wires, a claim not every company can make. A full complement of wires around the core allows for an overall stronger cable, smoother cable bends, a more consistent radius, hence less backlash, and longer life.

MACHZERO UNIVERSAL 3300 STYLE CABLES

Features and Performance

- MACHZero - Universal 3300 Style Cables
- Stroke: 3.4" (87 mm)
- Suitable for outboard, inboard, & sterndrive engines
- Ideal for high performance applications, long cable runs and complex routings
- Blue color jacket
- High efficiency for smooth operation
- High flexibility for reduced bend radius.
- Maintenance free
- Stainless steel cable end fittings
- High resistant blue outer jacket, against abrasion, UV and chemicals

RECTIFIERS

RECTIFIER 2/3/4/6 CYL.
1969-2000 (50-235 HP) 3 Wire Replacement, Engines Using a Rectifier Only

Replaces
580795, 581603, 583408, 582307, 582399, 390124

Reg/Rec Upgrade Available!
Not for Use w/ Maint. Free Batteries

ORDER NO.153-340800
Mfr. No. 153-3408

RECTIFIER 2 CYL.
1993-2001 (9.9,10 & 15HP) 4 Wire Replacement Bullet Connectors

Replaces
584597

Not for Use w/ Maint. Free Batteries

ORDER NO.153-459700
Mfr. No. 153-4597

RECTIFIER 2 CYL.
1995-2000 (15HP) 4-Stroke Engines, 3 Wire Replacement, w/ Plug

Replaces
585081

Reg/Rec Upgrade Available!
Not for Use w/ Maint. Free Batteries

ORDER NO.153-508100
Mfr. No. 153-5081

RECTIFIER 2 CYL.
1993-2000 (5,6,8,9.9,10 & 15HP) 4-Stroke Engines w/3 Wire Replacement, Bullet & Ring Connectors

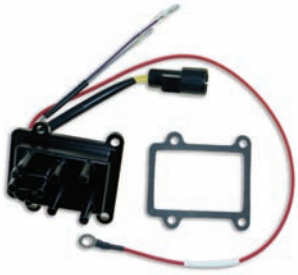
Replaces
445091, 445114

ORDER NO.153-511400
Mfr. No. 153-5114

VOLTAGE REGULATOR 10 AMP
1984 (150 & 235HP)

Replaces
582616, 582905

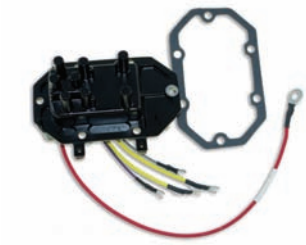
ORDER NO.193-290500
Mfr. No. 193-2905



VOLTAGE REGULATOR 6 CYL., 35 AMP
1991-1995 (150 & 175HP) 1992-1998 (105HP JET) 60 Degree Engines

Replaces
584093, 585219, 439561, 878768

ORDER NO.193-409300
Mfr. No. 193-4093



VOLTAGE REGULATOR 6/8 CYL., 35 AMP
1986-1992 (175,185,200 & 225HP - 6 Cyl.)
1985-1992 (250,275 & 300H - 8 Cyl.)

Replaces
586000, 586272, 583266, 583689, 584424, 878334

ORDER NO.193-368900
Mfr. No. 193-3689

VOLTAGE REGULATOR 4 CYL., 10 AMP
1985-2001 (120,125,130,135 & 140HP) Loop Charged Engines

Replaces
584205, 583512, 582907, 584675, 585192, 878332

ORDER NO.193-420500
Mfr. No. 193-4205

VOLTAGE REGULATOR 4/6 CYL., 10 AMP
1984-1998 (65 JET,80 JET, 85, 88, 90,100,112,115 & 140HP - 4 Cyl.) 1984-1990 (150,155,185 & 235HP - 6 Cyl.) Cross Flow Engines

Replaces
585129, 585195, 583529, 584204, 878331

ORDER NO.193-420400
Mfr. No. 193-4204

VOLTAGE REGULATOR 6/8 CYL., 35 AMP
1993-2001 (185,200,225 & 250HP - 6 Cyl. Loop Charged, Carbureted Engines) 1993-1997 (250 & 300HP- 8 Cyl.)

Replaces
584641, 586271, 585995, 878333

ORDER NO.193-464100
Mfr. No. 193-4641

REGULATORS

VOLTAGE REGULATOR
2/3/4 Cyl., 10 amp 1992-2005 (40 & 50HP- 2 Cyl. w/ Three Wire Trigger) 1992-2001 (25,40,50,60,65 & 70HP - 3 Cyl. w/ S.L.O.W) 2000-2001 (105HP - 4 Cyl. 4-Stroke, Tiller Kit 60 Degree Engines)

Replaces
584476, 585001

ORDER NO.193-447600
Mfr. No. 193-4476

VOLTAGE REGULATOR 2/3 CYL., 10 AMP
1995-1998 (9.9HP - 2 Cyl., 4 Stroke Engines) 1996-2001 (25 & 35HP - 3 Cyl., 60 Degree Engines)

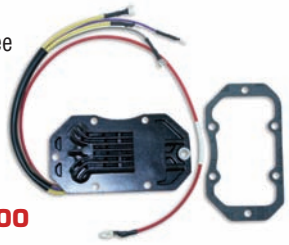
Replaces
584890

ORDER NO.193-489000
Mfr. No. 193-4890

VOLTAGE REGULATOR 4 CYL., 20 AMP
1995 (90 & 115HP) 60 Degree Engines w/ Plug

Replaces
584847

ORDER NO.193-484700
Mfr. No. 193-4847



VOLTAGE REGULATOR 4/6 CYL., 35 AMP
1984-1991 (150,155,175,185 & 235HP- 6 Cyl.) 1992 (110,115 & 140HP 4 Cyl. w/35 amp upgrade)

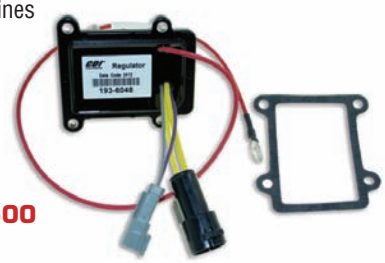
Replaces
583076, 582904, 584423, 583268, 395204, 395391, 878335

ORDER NO.193-520400
Mfr. No. 193-5204

VOLTAGE REGULATOR STARTER/GENERATOR COMBINATION UNIT
Early Johnson Evinrude Engines with Starter/Generator Combination Unit

Replaces
378335

ORDER NO.193-833500
Mfr. No. 193-8335



VOLTAGE REGULATOR
4/6 Cyl., 20/35 amp
1996-2006 (80 JET,90,100 & 115HP - 4 Cyl.) 1996-2006 (105,150 & 175HP - 6 Cyl.) 60 Degree Engines

Replaces
586048, 586075

ORDER NO.193-604800
Mfr. No. 193-6048

STATORS

STATOR COIL 2 CYL.
1973-1976 (18,20 & 25HP) Manual Start Engines, Replacement Driver Coil Only

Replaces

ORDER CDI ELECTRONICS

QUICK STRIKE PRO SERIES

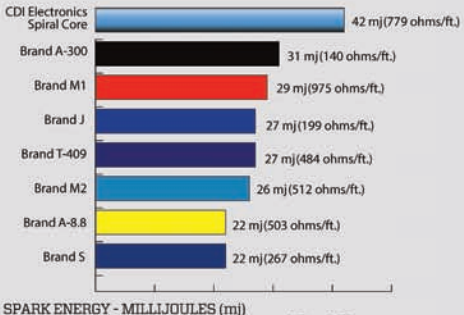
HIGH PERFORMANCE SPARK PLUG WIRE SETS WITH YOUR CDI ELECTRONICS INBOARD IGNITION COMPONENTS

INDEPENDENT TESTING CONFIRMS CDI ELECTRONICS HIGH PERFORMANCE SPARK PLUG WIRE SET IS SUPERIOR!

When tested against 7 leading brands, CDI Electronics beat them all:

More Spark Energy!

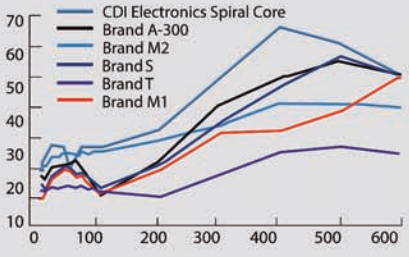
Optimum capacitance, inductance and resistance for maximum energy transmission



SPARK ENERGY - MILLIJOULES (mj)
Note: No correlation between Resistance and Spark Energy

Better EMI Suppression!

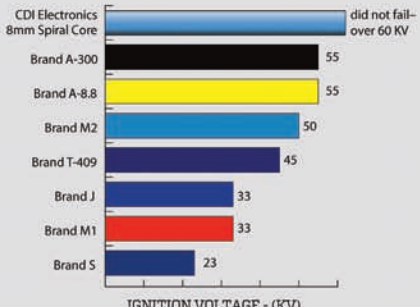
Ideal electrical properties provide best EMI suppression for peak radio and electronic ignition performance



FREQUENCY - (MHz)
EMI Suppression Performance
Sample wire lengths tested in SAE CISPR Box test.

Higher Dielectric Strength!

Premium silicone jacket over dense EPDM (Ethylene Propylene Diene Monomer) for best insulation performance



IGNITION VOLTAGE - (KV)
Insulation Performance High Dielectric Test -
Wire Failure due to Voltage Leakage

To see our offering of Outboard Spark Plug Wires, please see the individual engine groupings.

SG200 BATTERY MONITOR

SG200 Battery Monitor
Balmar's Expandable, Next Generation Monitor

- **LEARNS & DISPLAYS ALL CRITICAL BATTERY PARAMETERS**
  - State of Charge (SoC%)
  - State of Health (SoH%)
  - Charge/Discharge Current Flow
  - Time Remaining
  - History, Faults & Alerts

- **SUPPORT FOR ALL COMMON BATTERY CHEMISTRIES & VOLTAGES**
  - Including Lead Acid, Lithium (LiFePO4), Standard AGM, TPPL AGM, Carbon Foam AGM, and GEL Batteries
  - Supports 12V-48V Battery Banks
  - Typically 97% Accurate within 2 Cycles
  - Auto-Calibrating
  - Does not Lose Accuracy with Age

- **LARGE, BRIGHT COLOR DISPLAY**
  - Sunlight Readable, Configurable & Dimmable
  - 60 Degree Viewing Angle
  - Fits in Standard 2-1/16" Gauge Socket

- **EXPANDABLE ARCHITECTURE**
  - Support Multiple Displays (Optional)
  - Supports Multiple Battery Banks (Optional)
  - Standard Support for 2 Start Batteries (Voltage Only)
  - Simple, easy-to-install Point-to-Point Network

- **OPTIONAL SMARTPHONE/BLUETOOTH® GATEWAY**
  - Free iOS and Android Apps (Requires Bluetooth® Gateway PN SG2-0300)
  - View All Parameters on your Phone
  - Download Product Updates

Balmar has combined recent technology advances to introduce a next generation battery monitor. The **SG200** is quite simply the most accurate battery monitor available today. Balmar has combined the best features of its 1st generation SmartgaugeTM with many advantages of a shunt-based amp-hour counting system. Further, we've designed a device architecture which facilitates multiple Displays or multiple SmartShunts to be added to the network-allowing the boater to monitor multiple energy storage banks simultaneously from multiple locations.

In addition, the **SG200** Colour Display is easy to read, configurable and fits any standard 2-1/16" gauge socket. Now you can determine your battery(s) condition from anywhere on the vessel or vehicle with multiple Displays, or simply add the optional Bluetooth® Smartphone App to keep information in your pocket!

ORDER NO.	Mfr. No.	Description	Explanation / Includes

XT-SERIES ALTERNATORS
Designed for Recreational Applications

- 170A in a Small Case Package • Up to 140A at Idle Speeds
- Dual Fan Cooling, High Airflow Frame
- Ideal for Large Battery Banks
- USCG Title 33, ISO 8846 and SAE J1171 Certified

The New XT-Series Alternators from Balmar brings the latest innovations in alternator design to deliver incredible charging power in a compact, Marine-friendly package.

The New XT-Series Alternator family features a state-of-the-art, braided stator wire design to generate exceptional output in the smallest possible area. The XT-Series produces slightly more power than our previous AT-Series 165A design and operates 5º-10ºC cooler. In addition, we've added Balmar's Smart Ready® internal regulator technology to provide an additional level of fault tolerance for cruising boaters. Available XT-Series mounting styles have also expanded to include the "Vortec" 9Si design found on many GM gasoline engines.

XT-Series Alternators may require a Tachometer Signal Stabilizer (Part No. 15-TSS) if your current tach is not adjustable. XT-Series should only be used in Dual Vee or Multi-Groove Serpentine belt configurations. Balmar's growing range of AltMount® Serpentine Pulley Conversion Kits support all XT-Series Alternators.

Braided Stator

XT-Series Output	Power Take Off	Mounting	ORDER NO.	Individual Alternator Part Number(2)(3)	ORDER NO.	Alternator Kit with Max Charge Regulator(1)	AltMount® Pulley Kit Required?

(1) Kit includes XT-Series Alternator, Max Charge Regulator (MC-614-H) and Temperature Sensors (MC-TS-A, MC-TS-B).
(2) The XT-Series Alternator may require a Tachometer Signal Stabilizer (15-TSS) if your current tachometer is not adjustable. (3) All Dual Foot Yanmar Kits include the 6-0020 Mounting Kit
Pulley Designations: DV = 1/2" Dual Vee, K6 = K6 Serpentine, J10 = J10 Serpentine

ARS-5 VOLTAGE REGULATOR

- 5 Selectable charging programs
- Alternator & battery temperature sensing
- Alpha-numeric LED display
- Fully potted circuitry
- Appropriate for 6-Series Alternators (150A and below)

While it carries the same smart charging profiles of the premium Max Charge regulator, the ARS-5 features programming limited to two simple elements; battery type and drive belt to alternator output ratio. The bright, easy-to-read LED display monitors basic, or in-depth operational data. Alternator and battery temperature sensing (optional sensors MC-TS-A and MC-TS-B, are required) adds even greater functionality.

Description	ORDER NO.	Mfr. No.
Regulator, ARS Multi-Stage, 12V, with Harness	002-00005	ARS-5-H

VOLTAGE REGULATOR - Integration with the SG200 Battery Monitor

- Monitor Alternator/Regulator Activity from the SG200
- Setup Regulator from 2" Color Display or the Balmar App
- Advanced Programming from the Smartphone App
- All the Same Regulation Features as the MC-614
- New Carbon Foam Battery Profile
- Improved High Temperature Alternator Control
- Protects Lithium Batteries Below Freezing Temperatures

Balmar has upgraded its legendary MC-614 Voltage Regulator to communicate with the SG200 Battery Monitor! Now you can see how the New MC-618 Regulator is directing your onboard charging activity from either the SG200 2" Color Display and/or the optional Bluetooth® Smartphone App. Basic setup functions can be accomplished from the SG200 Color Display, Balmar App or the traditional on regulator programming tool. Advanced Programming functions are available from the Balmar App. Balmar customers have been asking for years to view regulator information from outside the engine compartment. Balmar has accomplised this goal without the need for a separate, dedicated display device.

Description	ORDER NO.	Mfr. No.
Regulator, MC618 Multi Stage 12V, w/Harness	002-06180	MC-618-H

DIGITAL DUO CHARGE - For Multi Bank Charging

- The DDC is a Solid State Battery Combiner
- Control Voltage and Current between House and Start Batteries
- Eliminates the Need for an Isolator, Relay or Manually Operated Battery Switch
- Used in Concert with Max Charge or ARS-5 Regulators
- Can also be used without a Balmar Regulator
- Works in both 12V and 24V applications
- Start Battery Temperature Sensing Available with the MC-TS-B Sensor Cable
- 4 Battery Programs Supported for the Start Battery:
- Standard Flooded, Deep Cycle Flooded, AGM and Gel Cell

The Digital Duo Charge ("DDC") provides a "hands off" solution for charging two battery banks without the use of problematic isolators or manual battery switches.

Description	ORDER NO.	Mfr. No.
Digital Duo Charge, 12/24V, w/Wires	002-41224	DDC-12/24

For more information see: www.balmar.net

BALMAR WWW.BALMAR.NET DC CHARGING SOLUTIONS

CENTERFIELDER II

For Balanced Twin Engine Charging

- Eliminates Alternator Chatter by Unifying Field Current
- For Use with Max Charge Regulators Only
- Works in Both 12V and 24V Applications
- Includes Upgraded Regulator Power Wires and Fusing
- Isolates Alternators and Regulators when only One Engine is Running
- Can be Used with the Digital Duo Charge to charge a Second Battery

The **Centerfielder II**, when used with Max Charge Regulators, balances twin engine charging systems by monitoring the port and starboard voltage regulators. When both alternators and regulators are working, the **Centerfielder II** automatically designates the starboard regulator as dominant for both alternators – making it possible to charge a single house battery bank with the combined output of both alternators.

The **Centerfielder II** eliminates the "yo-yo effect" of two regulators repeatedlyturning on and off as the battery approaches target voltage because the two systems are not working in concert.

Description	ORDER NO.	Mfr. No.
Centerfielder II, 12V/24V with wires	002-12400-CF	CFII-12/24

SMARTGAUGE™ BATTERY MONITOR

Balmar's new Smartgauge™ Battery Management System provides at-a-glance information, so you can enjoy accurate and reliable updates on the condition of your batteries. Based on years of experienced engineering and rigorous, independent testing, the Smartgauge delivers dependable data even as your batteries experience extended use and cycling. Easy to install, and just as easy to program, the Smartgauge™ takes much of the mystery out of battery monitoring; just select the program that matches your battery type, and the Smartgauge™ automatically configures monitoring to your electrical system. Because of its proprietary computer modeling and battery testing techniques, the Smartgauge™ remains accurate without need for re-synchronization. The bright LED display and simple controls provide a user interface that's intuitive and understandable, even for the most inexperienced crew member.

Smartgauge™ is equipped with low and high voltage and low charge state alarm outputs which can be used to activate audible or visual alerts (buzzers or lamps). The Smartgauge™ can be used in 12-volt or 24-volt charging systems.

Voltage Range:	8-40VDC
Temperature Range:	-25° to 85°C
Current Draw (Sleep/On):	5mA/<15mA
Battery Programs For:	Gel, AGM, Std. Flooded, Deep Cycle Flooded, Sealed Maintenance Free, Lead Acid Hybrid
Dimensions:	4.3"W x 3.0"H x 1.1"D

FUEL PUMP APPLICATIONS

Many fuel pumps are often used on similar engines. In order to identify the correct fuel pump for your application, it is necessary to determine the position of the inlet, outlet and separator fitting (where applicable) in relation to the rocker arm. The angle between the rocker arm and the fuel inlet is expressed in terms of clock position. Place pump with rocker arm in the 12 o'clock position. The rocker arm must be held behind the fuel pump body. (The bottom of the fuel pump body must face you.) Observe the relationship of the fuel inlet to the rocker arm. This position is the clock position of the pump. Examples of this in the outline drawing below show that if the fuel inlet is at position "A", it is considered a 6 o'clock pump, if at position "B" a 3 o'clock pump, and at position "C" an 8 o'clock pump.

DIESEL TURBINE SERIES

THE INSIDE STORY

As fuel enters, it moves past the internal check valve then through the turbine centrifuge where it flows in a spiraling direction, spinning off large particulates and water droplets. Being heavier than fuel, they fall to the bottom of the collection bowl.
Smaller water droplets bead-up along and on the sides of the internal components and on the surface of the Aquabloc® element. When heavy enough, they too fall into the high-capacity bowl to be drained as needed.
Besides repelling water and tiny solids, asphaltenes, algae and rust are filtered from fuel by the Aquabloc® element.
Because Aquabloc® elements are waterproof, they remain effective longer.

- T- handle for easy element service
- Rugged, die-cast aluminium construction
- Sheilded, see-thru bowls

AQUABLOC® ELEMENTS

Besides removing asphaltenes, water, gums, and varnishes, Aquabloc® elements filter tiny particles of dirt and algae from fuel. Aquabloc® elements are rustproof - with polymer end-caps that won't ever corrode. With an Aquabloc® replacement element, you get a complete kit with all the seals you need. And not just any seals, but specially-formulated, Racor-engineered seals.

- End caps are colour-coded: - Brown for 2 micron secondary - Blue for 10 micron primary/secondary - Red for 30 micron primary
- Handles for easy servicing. • Racor Filter elements include an emergency bypass.

TURBINE "V" SERIES SERVICE FILTERS

2020V/2040V fuel/water separator service filters for new Racor Turbine Series FV & VMA Assemblies

The Turbine service filters are designed for the new 900FV, 1000FV, 900VMA, & 1000VMA (marine application). The service filters are backward compatible with previous models.

Note: Old & current service filter part numbers will not work in the new FV & VMA housing. New part numbers are backward compatible with previous models.

Features & Benefits:

- Toolless, easy grip bail design for quick & comfortable service filter removal. Includes lid gasket & t-handle o-ring
- Aquabloc® Synergy media is designed for the best filtration to meet today's fuel challenges
- Manufacturered in the USA

NEW!

- Fits previous models of Racor Turbine housings including marine versions.

2020V & 2040V service filters are backward compatible for the following:

Assemblies	Models
900	FH, FG, FGM, FF, FE, MA & MAM
75900	FHX, FGX, FGM, MAX & MAXM

DIESEL SPIN-ON SERIES

COMPACT AND VERSATILE FILTRATION SYSTEMS FOR PROPULSION & GENSET APPLICATIONS

Metal bowls are reusable, impact resistant and virtually indestructable. Only the filter element is replaced. Bowls will not deteriorate from water collection, alcohol, blended fuels, exposure to harsh additives, salt spray or UV light. UL listed filters meet ABYC, ASTM, ISO and many other global standards for filters used in marine engine rooms.

DIESEL FUEL FILTER/WATER SEPARATOR

The Racor's fuel filter/water separators feature a variety of compact sizes to fit the most cramped engines. Most units feature 1/4"-18 NPTF inlet and outlet fuel ports and a unitized mounting bracket. If quality is what you want and filtration is what you need, than a Racor fuel filter/water separators are the answer. Experienced sailors trust their engines, their livelihood and even their lives to Racor. Shouldn't you?

UPGRADE YOUR GASOLINE FILTER

CONVENIENT SPIN-ONS

Now, owners of inboard or outboard engines can get smoother operation and longer life—all in one easy spin, onto their existing engine filter heads. There's a choice of rugged, reusable clear bowls with self-venting drains (for outboard applications), or a metal bowl with drain plug (for inboard applications). Metal bowls are UL Listed and USCG accepted.

ORDER NO.	Mfr. No.	Description	Application
209-55100	PFF5510	Replaces Mercury, Mercruiser, Yamaha, Suzuki, Honda, and Tohatsu. 10 micron.	Inboard or Outboard
209-32020MAM	B32020MAM	Replaces quicksilver. Also fits: SMI, Sierra, Aquapower, and other filter heads (comes with a metal bowl–shown above). 10 micron.	Inboard or Outboard
209–03220T-UL	S3220TUL **	Replacement filter for B32020MAM. 10 micron.	Inboard or Outboard

THE MOST COMPLETE PROTECTION ON THE WATER

Being on the water is fun, having water in your fuel is not. And more than ever today's high-performance gasoline inboard and outboard engines require clean, dry fuel. Racor filters offer the improved features and peace-of-mind that come with our quality fuel filter/water separators.

- **Clear contaminant collection bowl with drain valve for outboards only**
- **10 micron Aquabloc media.**
- **High capacity and long life.**
- **Rated 98% efficient at 10 micron per SAE test procedures.**
- **Corrosion-resistant construction.**
- **Metal bowl units for inboard powered boats meet 33 CFR and USCG regulations.**
- **Meets ABYC standard for gasoline-powered vessels**
- **New 2 micron option**

MERCURY VERADO FILTER

Replacement Filter for Mercury Engines – 31871 Twin Pack

You should always carry extra replacement elements as one tankful of dirty fuel can plug a filter. The 31871 solves this problem by providing two filters in every pack!

- Legendary Aquabloc®II, 2 micron filter media, removes up to 100% of free water and protects sensitive fuel system components from particulates
- Meets or exceeds OEM requirements
- Compatible with ethanol gasoline blends
- Height: 5" (12.7 cm), Diameter: 2.1" (5.3 cm)
- Replaces Mercury filter no. 35-884380T or 35-8M0020349

2 Pack

VENT LINE VALVES

Installed in the fuel tank vent line, the **Racor Lifeguard Fuel/Air Separator** efficiently separates air from fuel forced into the line. Air is vented, and all fuel is returned to the tank. The Fuel/Air Separator captures fuel normally discharged due to agitation and thermal expansion up to 2.4 psi. It also eliminates damage to expensive striping and labels and protects finishes from fuel stains.
The unit is also maintenance free - there's nothing to rust or corrode.

The Racor Fuel/Air Separator fits neatly into your vent line, actually replacing a section of the line.
Fittings are included.
One fuel/air separator unit is required for each vent line, and both models fit 5/8" vent lines.

LG50

LG100

Application	Gasoline	Diesel/Gasoline
Dimensions	1 3/4"D x 6"L	4"D x 9 3/4"L
Max Air Flow	12cfm / 5.6 lps	17 cfm / 8lps

FUEL CONDITIONING MODULES

The New Racor Fuel Polisher removes contamination at the source - the fuel tank. Most filtration solutions block contamination as it moves through the fuel system on the way to the engine. As contamination builds, fuel filters will choke leading to inadequate fuel delivery to the engine, damage to injectors and other engine components, increased emissions, and decreased performance. The Racor fuel polisher removes contamination from the fuel tank allowing the fuel system to run at peak performance. By setting up a new fuel circuit around the fuel tank contaminates such as water, dirt and rust will be removed from the fuel delivery circuit, resulting in increased filter life, better performance, and less downtime to change filters.

FUEL POLISHING CART

ORDER NO.	Mfr. No.
209-16250	FC-16-25

Racor's heavy-duty fuel polishing carts are a cost effective way to filter diesel, mixtures of biodiesel, and other petroleum hydrocarbon fluids in storage or transport. The filter carts polish, clean up, and recycle old or contaminated fuel.

Features: 2-Wheel Cart, FBO-14 Filter, 25 Micron Element
Power Requirement: 110-220 Volts, 60/50 Hz, Single Phase, 9.6/4.8 amps

PRODUCT SPECIFICATIONS	
Application	Power Generation, Fuel Transfer, and Fuel Storage
Replacement Filter	FBO 60338 / CC No. 209-60338 / 25 Micron

Max. Fuel Operating Temperature	150˚F / 66˚C

FBO FUEL DISPENSING FILTERS

Racor's FBO filter assemblies are designed to meet tough refueling conditions and provide ease of service. FBO features a locking ring collar, which attaches the filter housing to the aluminum die-cast filter head with four bolts. The closure hardware allows maintenance personnel to easily change out the filter cartridge.

MARINE RATED HOSE

Parker Marine Hose is a USCG-rated hose for gasoline, diesel, lube oil, and hydraulic systems for commercial and recreational applications. As you'd expect, it delivers test-proven performance in a wide operating temperature range and constant working pressure. It is of a long-lasting reinforced construction, kink and cut resistant, and compatible with a variety of standard 100R5 fittings.

Working Pressure: 500 PSI ** Burst Pressure: 2000 PSI

ACCESSORIES

VACUUM/COMPOUND GAUGE KITS

Vacuum and Compound (vacuum/pressure) gauges and related hardware are available to monitor filter condition. As the filter slowly becomes clogged with contaminants the restriction (resistance to flow) increases. The fuel pump still tries to draw fuel (suction) but because of this restriction less fuel is delivered to the engine and instead more air is pulled from it (fuel degassing). These results can cause the engine to lose power and eventually stall. By installing a vacuum gauge in your fuel system (on the outlet side of the Racor filter) visual monitoring of filter condition is possible at a glance. Note the position of the dial, or apply the 'red line' decal provided with most kits. This will assist in easy monitoring as filter efficiency begins to decrease when a filter change is necessary.

BOWL WRENCH

Racor offers a hand wrench to remove all metal and see-thru Spin-On bowls that feature external ribs. By simply fitting the wrench over the bowl ribs, the bowl can be removed from the replaceable Spin-On element, or filter housing with little effort. The wrench is made of a corrosion proof, high-impact, high-strength engineered polymer. One bowl wrench per kit.

OMC - COBRA COMPLETE LOWER GEAR HOUSING ASSEMBLY 1986-1993

Strongest Lower Gear Housing Assemblies in the Marine Industry for 1986-1993 OMC Cobra Sterndrives

All GLM #28820 replacement lower gear housings for the OMC Cobra sterndrives have the new heavy duty #22666 gear sets. These durable gears are capable of operating with up to 300 horsepower. They also have the large 1-1/4 inch diameter prop shafts with a reverse thrust washer installed between the shaft and reverse gear.

62722P

62718P

PREMIER PRO

FEATURES:

- Full automotive type lighting, no "halo" around dial edges. When lit, white dial grads become red, pointer lights white.
- Black dial, white graduations/numerals (metrics in blue), white pointer staff.
- Scratch resistant curved glass lenses, with black, near-flush bezels.
- U.S. and metric scales, with ISO symbols, where appropriate.
- Optional add-on square bezel available *(See Page 222 for details).*
- Line includes standard ignition engine synchronizer kits including module.
- Fog-Resistant Design! Complies with SAE J-1810.

PREMIER PRO

A very popular OEM line, Premier features black dials with modern white and blue graphics. When lighted, white dial grads become red and pointer lights white. These instruments feature automotive type light-piping and a fog-resistant design for outstanding readability.

LIDO

Hottest selling white dial line! A comprehensive family of instruments for most engine types, Lido features crisp white dials and fire-orange pointer tips. Red through-dial and white perimeter lighting provide great night readability. Excellent inboard coverage with engine sync gauges* and diesel alternator and magnetic pickup tachometers.**

*Module required, not included with gauge.
**Magnetic Pickup sender available separately.

LIDO

FEATURES:

- White dial, black numerals, black pointer with fire-orange tip.
- Scratch resistant curved glass lenses, with polished stainless steel, near-flush bezels.
- U.S. and metric scales, with ISO symbols.
- Optional add-on square bezel available *(See Page 222 for details).*
- White perimeter and red thru-dial lighting.
- Comprehensive line includes tachometers for diesel alternator and magnetic pickup PLUS synchronizer gauge (Suitable for gas or diesel engines with appropriate module. Module required, not included with gauge).

HEAVY DUTY SERIES

82288P

HEAVY DUTY

A classic line for inboards including diesels, Heavy Duty includes mechanical water temperature and oil pressure gauges, ammeters, engine sync gauges* and a range of diesel tachometers, including a programmable tach/hourmeter.

***Module required, not included with gauge.**

FEATURES:

- Classic white graphics and pointer on deep black faces. Low-profile polished stainless steel bezels.
- Perimeter lighting and scratch resistant glass lenses.
- Tachometers for diesels available.
- Several temperature and mechanical oil pressure gauges available.
- Programmable tach/hourmeter offered.
- Ideal replacement for Stewart-Warner® "Deluxe" instruments.
- Optional add-on square bezel available

(See Page 222 for details).

ARGENT PRO

ARGENT PRO

Black graphics on a silver background, pointer has a black hub with fade resistant acrylic orange staff. Pointer is internally illuminated for excellent night visibility. Dial graphics light red when illuminated and scratch resistant glass lens with fog-resistant design and polished stainless steel bezel.

65545P

65550P

65547P

FEATURES:

- Translucent dial as well as into the pointer staff, provides the best in night visibility.
- Easy to read black graphics on a silver dial background.
- Domed glass lenses are scratch resistant
- Low profile bezels follow the curvature of the lens, with no "lip" to trap and hold water.
- Optional add-on square bezel available
  (See Page 222 for details).
- Fog-Resistant Design! Complies with SAE J-1810.

61908P

SAHARA

FEATURES:

- Tan dial and retainer, black graduations and numerals, black pointer with fire-orange tip.
- Scratch resistant curved glass lenses, with black matte, near-flush bezels.
- White perimeter and red thru-dial lighting.
- U.S. and metric scales, with ISO symbols, where appropriate.
- Optional add-on square bezel available *(See Page 222 for details).*

SAHARA

With crisp tan dials and fire-orange pointer tip, Sahara gives any dash the elegant OEM look. Combined red through-dial and white perimeter lighting provide great night readability. These aren't merely "close enough" — they're the real thing!

BLACK STERLING

69073FP

69074FP

BLACK STERLING

With its rich luster and polish, Black Sterling instruments convey a look of utmost sophistication and add elegance to any dash. These instruments have fire-orange pointer tips and stainless graphics for a contemporary, ultra stylish look. Black Sterling instruments have clean, crisp black dials which highlight the stainless accents.

FEATURES:

- Scratch-resistant domed glass lens.
- Perimeter lit dial.
- Elite stainless steel bezel.
- Black pointer with fire orange tip.
- White graphics and black background on spun aluminum dial.
- Optional add-on square bezel available
  (See Page 222 for details).
- Fits most stern drive and outboard applications.
- US and Metric scales where appropriate.

MULTI-GAUGE FEATURES:

Combines 2 gauges in one.
Saves dash space.
Fog-Resistant Design! Complies with SAE J-1810.

GPS SPEEDOMETERS

781-579035

781-627080

781-683035

781-684080

GPS SPEEDOMETERS

These GPS speedometers provide accurate speed over ground readings and heading information all in one attractive package. Available in various speed ranges to meet your application, these speedometers are offered in a number of popular styles to match the colours in your boat like Premier Pro, Amega, Arctic, Eclipse, & Argent Pro instrument lines.

FEATURES:

- Available in speed ranges of 35 MPH, 80 MPH and 120 MPH.
- Included LCD heading display to show course over ground.
- Use our GPS antenna (Sold separately) or connect to an existing NMEA 0183 GPS device – connectors included.
- Speed accuracy of +/- 1 MPH (once moving).
- Heading accuracy of +/- 1 degree (once moving).
- Ideal for slow speed applications like pontoon boats and for high speed performance boats where pitot tubes do not perform well

GPS RECEIVERS

For use with Sierra GPS speedometers.

- Highly sensitive receiver
- Precise information output even when mounted under a fiberglass console or bimini top
- Durable exterior
- Updates once every second to output accurate NMEA 0183 information
(*Updates 10 times per second #69053P)

69053P*

*Updates 10 times per second
- 4' Long

DEPTH GAUGE & TRANSDUCER KIT

- Clamshell packaging for easy POP display
- Depth range to 600 ft. & on plane readings up to 60mph
- Includes two interchangeable faces (Black, White) and three bezels (Black, White, Chrome) designed to match most Sierra gauge series
- Automatic range and sensitivity adjustments for no-worry usage
- Polarized LCD display for easy viewing in any environment
- 30 ft. transducer cable length for small or large boat installations on package
- Installation and user manual available on Sierramarine.com or using the QR code
- Dual-mount transducer can be transom mounted or internally glue mounted to hull
- Dual depth alarms can be set to warn of depth changes
- One touch alarm muting instantly silences audible alarm
- User selected unit of measure (feet or meter)
- Keel offset designed to properly adjust depth readings
- LED backlit display for easy viewing at night
- High speed transducer resolution of 7X per second
- Fits 2-1/8" hole

NEW!

ORDER NO. 781-26000

5" - BLACK PREMIER SERIES STAINLESS STEEL MULTI-FUNCTIONAL GAUGE KITS

Speedometer (80 MPH) - Features Fuel Level & Voltmeter
Tachometer (0-7000 RPM) - Features Trim & Water Pressure (30 psi)

NEW!

Fits: Mercury/Yamaha Engines
ORDER NO. 781-20000
Mfr. No. 20000P

Fits: Evinrude/Suzuki Engines
ORDER NO. 781-20010
Mfr. No. 20010P

Anti-fog coated lens reduces fogging. Domed glass lens resists scratching and total lens washout in sunlight. Stainless steel bezel, silicon dampened pointers reduces pointer bounce in rough waters. Reverse polarity protection. Optional eyebrow bezels available for stylish look. Perimeter lit dial and pointer, incandescent bulb lighting. Includes pitot tube and water pressure installation kit.

5" - WHITE PREMIER SERIES STAINLESS STEEL MULTI-FUNCTIONAL GAUGE KITS

Speedometer (80 MPH) - Features Fuel Level & Voltmeter
Tachometer (0-7000 RPM) - Features Trim & Water Pressure (40 psi)

NEW!

Fits: Mercury/Yamaha Engines
ORDER NO. 781-21000
Mfr. No. 21000P

Fits: Evinrude/Suzuki Engines
ORDER NO. 781-21010

R3 DIGITAL GAUGE

TOUCH SCREEN DISPLAY

72236P CANBUS DISPLAY:

NEW!

For use with digital or analog engines; Direct fit for most 3 3/8" cutouts.

Fully round, edge-to-edge LCD-color display; Customizable screen with capacitive touch abilities, providing the styling of a traditional analog gauge with the modern ability to change looks to suit any application;

CC ORDER NO.
781-72236
Mfr. No. 72236P

FEATURES:

- IP67 Protection;
- 850 NIT backlit display for full sunlight readability;
- 432 x 432 screen resolution;
- Rugged and reliable CAN Display;
- 2 x CANBus & 1 x RS485 connection;
- 6 x Analog, 1 x Frequency Input;
- 5 x Outputs;
- NMEA 2000;
- Flash Memory 8MB;
- RAM 256KB;
- EEPROM 4KB;
- Display PCAP LCD 2.93" Round;
- Viewing Angle 70°;
- Contrast Ratio 700:1;
- Power 10-32V DC;
- Sounder: Internal Buzzer;

GPS SPEEDOMETER

KTF049

The GPS Speedometer is a drop in replacement for your current speedometer and can be made to match your existing instrumental dash.

GPS information is gathered from an internal GPS antenna.
No external antenna required.
The Faria GPS Speedometer uses a highly accurate 48 channel GPS receiver. You can be sure that the Faria GPS Speedometer is giving you the most accurate GPS information available on the market today.
Course Over Ground (COG) and actual heading (compass heading over ground) are displayed on the digital LCD.
Speed data is shown by an analog pointer. This pointer is driven by a digital stepper motor for increased accuracy and minimized pointer bounce during vessel operation.

ORDER NO.	Mfr. No.	Description
860-33726	33726	Chesapeake SS Black, 60 MPH
860-33826	33826	Chesapeake SS White, 60 MPH
860-32816	32816	Euro Black, 60 MPH (Studded)
860-33147	33147	Dress White, 60 MPH (Studded)

For more information see: www.fariabeede.com

FEATURES & BENEFITS

- Available in multiple Speed ranges up to 80 MPH, and 130 KPH
- Premium LED back-lit or edge-lit dials
- **No external GPS antenna required**
- Available LCD displays Compass Rose heading and Actual heading (COG)
- Ultra fast Satellite acquisition time (TTFF) 1 second from Hot Start
- Speed Accuracy of +/- 1 MPH
- Heading Accuracy of +/- 1 degree
- Digital stepper motor driven pointers
- Ideal replacement for speed sensing devices (pitot tube and paddle wheel) that typically fail over time
- Perfect for slow moving vessels where pitot tubes typically don't work
- Deutsch connector cases
- 4" Gauge (3-375"(85 mm) mounting hole)

HUMMINBIRD
SIMPLY. CLEARLY. BETTER.

Improved Depth Perception

HDR 650 IN-DASH DIGITAL DEPTH SOUNDER

The HDR 650 In-Dash Digital Depth Sounder gives you instant, reliable digital depth readings, and offers customizable bezel and face colors to complement installed gauges. This unit comes packed with a transom mount transducer.
Bezel colors included: White, Black and Chrome. Face plate colors included: White and Black.

Highlights

- Easy to Install into Existing 2-1/8 inch gauge opening
- Completely waterproof
- Easy to read large, backlit LCD display for use at night
- Wires to Ignition Switch for Auto Power On
- Shallow and Deep Depth Alarms
- Reads in Feet, Meters and Fathoms
- Tracks Bottom Up to 70 MPH

ORDER NO. 407-86010 Mfr. No. 407-860-1

For more information see: www.humminbird.com

DEPTH SOUNDER

The Faria Depth Sounder offers standard 199 foot depth capability, automatic gain control, backlighting for maximum night vision, keel offset, along with deep and shallow alarms. The Faria Depth Sounder is available in all Faria Styles.

Style	ORDER NO. In-Hull	ORDER NO. Transom Mount
Euro Black™	860-12851	860-12850
Dress White™	860-13151	860-13150
Chesapeake SS Black™	860-13751	860-13750
Chesapeake SS White™	860-13851	860-13850
Kronos SS	860-19151	

- Depth readings from:
  3 to 199 Feet
  1 to 61 Meters
  0.5 to 32 fathoms
- Three push buttons for ease of adjustments.
- "Quick-set" mode for rapid adjustment of settings.
- Icons provide clear indication of status and alarms.
- Out-of-range indication
- 2" Gauge (2.0625") (53mm) mounting hole.
- Full Range shallow and deep alarms.
- Shallow and deep alarms are both audible and visible to operator.
- Power status stored when power is removed:
  - if unit is OFF when key is turned off, it will be OFF when key is turned on.
  - if unit is ON when key is turned off, it will be ON when key is turned on.
- Keel-Offset adjustment and indication
- Harnesses and connectors included.

ADJUSTABLE IN-HULL TRANSDUCER

This in-hull transducer has a patented adjustable feature which ensures that sound waves are transmitted vertically to the bottom on almost any hull with a dead rise up to 22˚. With no hull penetration, installation is easy and high speed performance is maximized.

ORDER NO. 860-20100

TRANSOM MOUNTED DEPTH TRANSDUCER

With a low profile this depth unit offers little drag and easy installation for dead rise angles up to 30˚. Designed with a release bracket to protect against impact damage. This unit provides good high speed operations up to 55 knots.

ORDER NO. 860-20110

DEPTH SOUNDER WITH AIR/WATER TEMPERATURES

Size	2"
Mount	2-1/16" diameter hole
Depth behind face plate	3" min.
Display	Multi-character LCD
Backlighting	Red coloured diffused lighting for display.
Water Integrity	Front will withstand direct water spray.
Alarm	Audio and visual alarm indicates shallow or deep water conditions exist.
Depth Readings	3 to 199 Feet 1 to 61 Metres 0.5 to 32 Fathoms
Keel Offset	Allows you to adjust offset from keel at display.
Out of Range Indication	
Power Status Memory	Returns Depth Sounder to last Power on status.
Quick Set Mode	Allows rapid adjustments of settings using the three easy to use push buttons.
Icon Display	Icons provide clear indication of status and alarms.
Operating Voltage	10 vDC to 16.5 vDC
Operating Temperature	-40ºF to 185ºF (-40ºC to 85ºC)
Current Drain	90 mA max. with supplied transducer.

Harnesses and Connectors Included
TS0101

OIL PRESSURE SAFETY SHUT-OFF SWITCH (Illustration E)													
051-72533*												1/4-18	1/4" spade

*3-wire hookup to starter, pump and ignition. I/O and inboard units require a method to shut off the electronic fuel pump when the engine fails or is shut down. This switch senses low oil pressure and shuts the fuel pump off. DS specifies Dual Station Sender

Illustration A OIL PRESSURE SWITCH	Illustration B OIL PRESSURE SENDER	Illustration C TEMPERATURE SENDER	Illustration D TEMPERATURE SWITCH	Illustration E OIL PRESSURE SAFETY SHUT-OFF SWITCH	Illustration F TEMPERATURE SENDER

ORDER NO.	DESCRIPTION	APPLICATIONS
051-22901	OIL SWITCH	USED FOR ELECTRIC FUEL PUMP SHUT OFF. SET AT 6 PSI. USED BY MERCURY MARINE & VOLVO.
051-24301	OIL SENDER	100 PSI FOR SINGLE STATION
018-58990	OIL SENDER	80 PSI FOR SINGLE STATION USED FOR MANY OMC APPLICATIONS.
051-24891	OIL SENDER	80 PSI FOR DUAL STATIONS. USED FOR MANY OMC APPLICATIONS.
051-25101	TEMPERATURE SWITCHES	USED WITH LIGHT, SET AT 200°F.
018-58960 & 051-26611 Thru 051-26631	TEMPERATURE SENDERS	450W at 100°F and 46W at 220°F.
051-26641, 051-26651, 018-58970 & 018-58980	TEMPERATURE SENDERS	339W at 100°F and 35W at 220°F.
051-72533	OIL PRESSURE SAFETY SHUT-OFF SWITCH	USED FOR ELECTRONIC FUEL PUMP SHUT OFF.
018-75130	TEMPERATURE SENDER	USED FOR VOLVO APPLICATIONS.

DIESEL TACHOMETER SENDER

Magnetic Proximity Sender for diesel tachs.
Sender code B.

ORDER NO.	Mfr. No.
150-76780	1507678P

INDICATOR LIGHTS

Large Indicator Lights
- 12 volt DC use only
- 1/2" mounting hole
- 4" tinned copper wire leads

ORDER NO.	Mfr. No.	Colour
051-21281	UN21280	Red
051-21291	UN21290	Green

Small Indicator Lights
- 12 volt DC use only
- 5/16" mounting hole
- 5" tinned copper wire leads

ORDER NO.	Mfr. No.	Colour
051-22100	UN22100	Red
051-22110	UN22110	Green

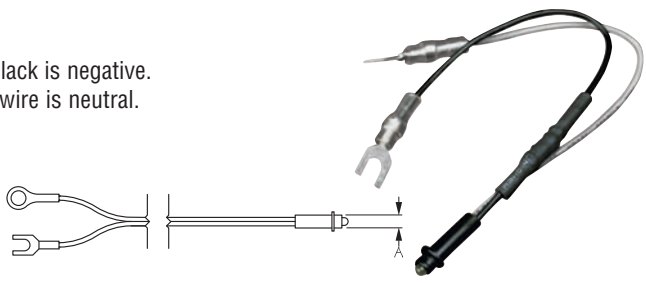
For more information see: www.catalog.sierraparts.com

SEA-DOG LINE
QUALITY MARINE GEAR

LED LIGHTS

Recommended wiring instructions:
DC voltage: Grey wire is positive and black is negative.
AC voltage: Black wire is hot and grey wire is neutral.

ORDER NO.	Mfr. No.	A	Voltage	Colour
424-08112	408112	3/16"	110 AC	Green
424-08121	408121	3/16"	12 DC	Red



For more information see: www.sea-dog.com

DIGITAL ANALOG CONVERTER

- Converts NEMA 2000 digital output to analog signal
- Eliminates need to replace analog gauges when repowering
- For Yamaha, Honda, Suzuki, and BRP (Johnson, Evinrude)

ORDER NO.	Mfr. No.
105-69741	69741P

REPLACEMENT INSTRUMENT LIGHT & SOCKET KITS

For all gauges **except** Heavy Duty 2" and some other 2" Sierra mechanical gauges with plastic housings.

ORDER NO.	Mfr. No.	Description
042-62995	IA62995	Bulb with wedge base socket (12V clear 1-CP bulb)

For Heavy Duty 2" gauges
Metal socket has one lead; housing has ground strip.

ORDER NO.	Mfr. No.	Description
042-18278	1827871P	Bulb with push-in socket (12V clear 3/4 CP)

BLANK GAUGE INSERT

Fits standard 2-1/8" cutout for 2" gauge

ORDER NO.	Mfr. No.
101-11860	10860

ADAPTER

Yamaha adapter for Water Pressure/Temperature Kits
ID 1/8" NPT

ORDER NO.	Mfr. No.
106-61886	61886P

BEZELS

SQUARE INSTRUMENT BEZELS

For all lines

ORDER NO.	Mfr. No.	Description
042-65477	IA65477	3" Aircraft Style Bezel

TACHOMETER ACCESSORIES

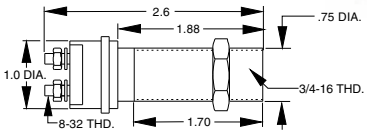
TACHOMETER WIRING HARNESS

- Permits fast installation of tachometer
- BIA color-coded harness
- Eliminates field wiring problems

ORDER NO.	Mfr. No.	Description
044-14767	IH 14767	Pre-1996 OMC/JE (3-wire Plug)
044-15105	IH 15105	Merc/Mariner (5-wire plug)

MAGNETIC PROXIMITY SENDER

For Diesel Tachometers.



ORDER NO.	Mfr. No.
150-76780	1507678P

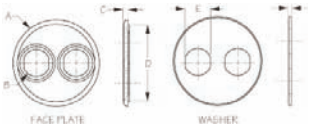
For more information see: www.catalog.sierraparts.com

SEA-DOG LINE QUALITY MARINE GEAR

INSTRUMENT HOLE ADAPTER - 4" FOR SOCKETS & METERS

Injection Molded Nylon

NEW!



ORDER NO.	Mfr. No.	A	B	C	D	E	F	Colour
424-26103	426103-1	3-3/4"	1-3/16"	3/16"	3-3/8"	1-1/16"	1/8"	Black
424-26104	426104-1	3-3/4"	1-3/16"	3/16"	3-3/8"	1-1/16"	1/8"	White

Replace an unused 4" gauge with two new 1-1/8" style gauges. Installs by placing the face plate in front of the dashboard then inserting the socket/meter in the hole with the washer behind. Held in place by the socket/meter nut.

HELIX 5 SONAR G2
w/ Dual Beam PLUS

- 5" HD 256 Colour TFT
- 800H x 480V pixel resolution
- Sonar Standard: Dual Beam PLUS
- Sonar Frequency: 83/200 kHz
- Depth Sonar: 1,500 ft. (Standard Transducer)
- Temperature: Built-in, Speed optional
- Compatible with: AIS, AutoPilot
- 500 Watts (RMS) / 4000 Watts (PTP)
- Standard Mounting Size: 7.55"W x 4.64"H x 3.3"D

ORDER NO. 410-19001 Mfr. No. 410190-1

HELIX 5 DI G2
w/ Down Imaging, Dual Beam PLUS

- 5" HD 256 Colour TFT
- 800H x 480V pixel resolution
- Sonar Standard: Down Imaging, Dual Beam PLUS
- Sonar Frequency: 200/455/800 kHz
- Depth Sonar: 600 ft. (Standard Transducer)
- Depth Down Imaging: 350 ft.
- Temperature: Built-in, Speed optional
- Compatible with: AIS, AutoPilot
- 500 Watts (RMS) / 4000 Watts (PTP)
- Standard Mounting Size: 7.55"W x 4.64"H x 3.3"D

ORDER NO. 410-20001 Mfr. No. 410200-1

HELIX 5 CHIRP GPS G3 w/ Built-In GPS, Built-In Mapping, Dual Spectrum CHIRP

- 5" HD 256 Colour TFT
- 800H x 480V pixel resolution
- Sonar Standard: Dual Spectrum CHIRP
- CHIRP Frequency: Supported
- Sonar Frequency: 50/80/200 kHz
- Depth Sonar: 1,200 ft. (Standard Transducer)
  3,000 ft. (Optional 50kHz)
- Temperature: Built-in, Speed included
- Memory Card Slot: Single Micro SD
- Compatible with: AIS, AutoPilot, Minn Kota US2 Sonar
- LakeMaster, Coast Master Compatibility
- Navionics Gold/HotMaps, Platinum+, Platinum Compatibility
- 500 Watts (RMS) / 4000 Watts (PTP)
- Standard Mounting Size: 7.55"W x 4.64"H x 3.3"D

ORDER NO. 411-66001 Mfr. No. 411660-1

HELIX 5 CHIRP GPS G3 - PORTABLE
w/ Built-In GPS, Built-In Mapping, Dual Spectrum CHIRP

- 5" HD 256 Colour TFT
- 800H x 480V pixel resolution
- Sonar Standard: Dual Spectrum CHIRP, Portable
- CHIRP Frequency: Supported
- Sonar Frequency: 50/80/200 kHz
- Depth Sonar: 1,200 ft. (Standard Transducer)
  3,000 ft. (Optional 50kHz)
- Temperature: Built-in, Speed included
- Memory Card Slot: Single Micro SD
- Compatible with: AIS, AutoPilot, Minn Kota US2 Sonar
- LakeMaster, Coast Master Compatibility
- Navionics Gold/HotMaps, Platinum+, Platinum Compatibility
- 500 Watts (RMS) / 4000 Watts (PTP)
- Standard Mounting Size: Portable

HELIX 7 CHIRP MEGA SI GPS G4N

w/ Built-In GPS, Built-In Mapping, Dual Spectrum CHIRP, Down Imaging, Side Imaging, MEGA Imaging, MEGA Live Imaging, Bluetooth, Networking, Wi-Fi

- 7" HD 256 Colour TFT
- 1024H x 600V pixel resolution
- Sonar Standard: Dual Spectrum CHIRP, MEGA Down Imaging, MEGA Side Imaging
- CHIRP Frequency/ CHIRP Imaging Frequency: Supported
- Sonar Frequency: 50/83/200/455/800 kHz & 1.2 MHz
- Depth Sonar: 1,200 ft. (Standard Transducer)
  3,500 ft. (Optional 50kHz)
- Temperature: Built-in, Speed included
- Memory Card Slot: Dual Micro SD
- Compatible with: AIS, AutoPilot, Minn Kota US2 Sonar, Minn Kota Built-In MEGA DI, MEGA Live, One-Boat Network, Minn Kota i-Pilot Link, Minn Kota Talon/Raptor, NMEA 2000, Radar
- LakeMaster, Coast Master Compatibility
- Navionics Gold/HotMaps, Platinum+, Platinum Compatibility
- 500 Watts (RMS) / 4000 Watts (PTP)
- Standard Mounting Size: 10.54"W x 5.80"H x 3.68"D

ORDER NO. 411-65001
Mfr. No. 411650-1M

NEW!

FISHFINDER UC H7R2
UNIT COVER HELIX 7 G4N

- A silicone cover for all HELIX 7 models that helps keep your fish finder protected when not in use
- Not for use while trailering boat
- Colour: Black

ORDER NO. 780-04410
Mfr. No. 780044-1

Note: Features and specifications are subject to change without notice.

HELIX 8 CHIRP GPS G4N w/ Built-In GPS, Built-In Mapping, Dual Spectrum CHIRP, Bluetooth, Networking, Wi-Fi

- 8" HD 256 Colour TFT
- 1024H x 600V pixel resolution
- Sonar Standard: Dual Spectrum CHIRP
- CHIRP Frequency: Supported
- Sonar Frequency: 50/80/200 kHz
- Depth Sonar: 1,200 ft. (Standard Transducer)
  3,500 ft. (Optional 50kHz)
- Temperature: Built-in, Speed included
- Memory Card Slot: Dual Micro SD
- Compatible with: AIS, AutoPilot, Minn Kota i-Pilot Link, Minn Kota Talon/Raptor, NMEA 2000, Radar, One-Boat Network, Minn Kota US2 Sonar
- LakeMaster, Coast Master Compatibility
- Navionics Gold/HotMaps, Platinum+, Platinum Compatibility
- 1000 Watts (RMS) / 8000 Watts (PTP)
- Standard Mounting Size: 12"W x 7.0"H x 4.13"D

ORDER NO. 411-33001
Mfr. No. 411330-1

NEW!

HELIX 8 CHIRP MEGA DI GPS G4N w/ Built-In GPS, Built-In Mapping, Dual Spectrum CHIRP, Down Imaging, MEGA Imaging, Bluetooth, Networking, Wi-Fi

- 8" HD 256 Colour TFT
- 1024H x 600V pixel resolution
- Sonar Standard: Dual Spectrum CHIRP, MEGA Down Imaging
- CHIRP Frequency/ CHIRP Imaging Frequency: Supported
- Sonar Frequency: 50/83/200/455/800 kHz & 1.2 MHz
- Depth Sonar: 1,200 ft. (Standard Transducer)
  3,500 ft. (Optional 50kHz)
- Temperature: Built-in, Speed included
- Memory Card Slot: Dual Micro SD
- Compatible with: AIS, AutoPilot, Minn Kota i-Pilot Link, Minn Kota Talon/Raptor, NMEA 2000, Radar, One-Boat Network, Minn Kota Built-In MEGA DI, Minn Kota US2 Sonar, MEGA Live
- LakeMaster, Coast Master Compatibility
- Navionics Gold/HotMaps, Platinum+, Platinum Compatibility
- 1000 Watts (RMS) / 8000 Watts (PTP)
- Standard Mounting Size: 12"W x 7.0"H x 4.13"D

PRECISION GPS RECEIVER AS GRP

- Precision NMEA0183 GPS/WAAS receiver
- Provides fast and precise position fixes accurate within 2.5 meters
- Provides more accurate position fixes than the industry standard GPS
- View your track & speed, mark waypoints, navigate and more
- Plug and play installation
- Comes with 20' cable
- Mount on any flat surface or 1" x 14 thread mountable
- Software must be 6.300 or higher for the Humminbird system to be compatible with the AS GRP GPS receiver
- Receiver's dimensions : 3.25" diameter, 1.5" high
- Power Draw: 28 mA

Note: *This GPS receiver* ***WILL NOT*** *work with Interlink. For use with ONIX Series purchase of AS GPS NMEA cable for connection is required.*

ORDER NO. 408-92001
Mfr. No. 408920-1

ETHERNET CABLE – NETWORKING AS EC 20E

The Ethernet Cable is a 20' cable that allows the connection of two Ethernet capable units to be connected.

ORDER NO. 407-20073-3
Mfr. No. 720073-3

ETHERNET CABLE – NETWORKING AS EC 20E

The Ethernet Cable is a 30' cable that allows the connection of two Ethernet capable units to be connected, or connection of a Humminbird control head to an accessory 5 Port Ethernet Switch (AS ETH 5PXG), as part of a multi-unit Ethernet network. Compatible with: All HELIX 15, HELIX 12, HELIX 10, HELIX 9, HELIX 8, HELIX 7 (G2N and G3N only), all 11xxci, all 9xxci, all 8xxci, 7xxci HD only.
Compatible with: All APEX, SOLIX & ONIX models.
The AS EC QDE is required with all networking products except APEX, SOLIX and ONIX.

ORDER NO. 407-20073-4
Mfr. No. 720073-4

ETHERNET CABLE AS EC 10E

This Ethernet Cable is a 5' cable that allows the connection of two Ethernet capable units to be connected. AS EC QDE may be required with some Humminbird models.

ORDER NO. 407-20073-6
Mfr. No. 720073-6

SPEED TEMP SENSOR TS W

Transom mount temp/speed sensor, 20 ft. cable.
Temperature range of 25-99.9 degrees F.
Speed range of 2-75 MPH.
Note: *Requires purchase of AS T Y cable to connect with HELIX 5 Series, HELIX 7 Series, 600 Series, select 700 HD Series, 8x9 ci Series, 9x9 ci Series & 11x9 ci Series.*

ORDER NO. 334-10010
Mfr. No. 730000-1

ETHERNET ADAPTER CABLE – NETWORKING AS EC QDE

This Ethernet Adapter Cable is required if you want to network (Ethernet) capabilities on a HELIX 9 Series, HELIX 10 Series, HELIX 12 CHIRP Series, 7x8 HD Series, 8x9ci HD Series, 9x9ci HD Series, 11x9ci HD Series Humminbird product. This cable is approximately 12 inches long. Additional adapter cables and Ethernet cables are required if networking 2 of these products.

ORDER NO. 407-20074-1

AUTOCHART ZERO LINES MAP CARD SD N AM - *The starting point to your mapping adventure!*

NORTH AMERICAN

The Zero Line is the place where the water meets the shore. It's also the starting point for building your own maps with AutoChart, or AutoChart Live. With these all-important Zero Lines as your foundation, you can begin creating your own, accurate and detailed maps of any fishing spot, even where contour coverage doesn't exist.

Anglers can purchase additional Zero Line Map Cards to view the AutoChart created maps on multiple Humminbird units.

Simply export the map from the PC program to the extra Zero Line Map Cards and you'll have multiple charts of your favorite fishing spots ready to view on a range of compatible* Humminbird fish finders.

*Optional for select ONIX, ION, HELIX, 1100, 900, 800, and 600 Series models. Compatibility subject to change without notice.

Specifications:

- 32 GB SD card containing zero lines for with over 140,000 named water bodies and over 1.75 million unnamed water bodies in the United States and over 96,000 named water bodies and over 3.85 million unnamed water bodies in Canada. Plus there is 16 GB of free space to maintain your custom maps.
- Card must be present to get the detailed zero line base map to display in AutoChart PC
- All Humminbird units will require software update

Don't want to wait for the retail package?
Purchase the digital-only version and receive it today!
Remember, you must have a 32GB (or higher) SD card.

ORDER NO. 406-00033 Mfr. No. 600033-1

NOTE: Opened packages are not eligible for return

DC CABLECLAMS

Provides a waterproof pass-through for antenna cables without requiring removal of the factory installed connector.

- Save the expense of removing and replacing connectors
- Avoid poor connections from removing factory connectors
- Use 1001, 1001100 for GPS cables, 1002, 1002100 for VHF cables, 1003, 1003100 for Radar cables
- Pre-drilled and slit rubber seals for easier installation
- 1001100, 1002100, 1003100 include a 316 stainless steel cap which conceals mounting hardware and matches other deck hardware
- Stainless steel fasteners included

VHF MARINE ANTENNAS

Recommended for Boats 22+ ft. (7+ m) Medium to Long Range Communication 10+ miles (16+km)

5101
8' VHF 6dB Gain
End-Fed with Matching Stub

Classic

A new standard of excellence in an economical antenna! Shakespeare brings you the best of the high-end features in an 8ft antenna with a brass element and a smooth, high gloss, polyurethane finish that won't turn yellow in the sun. This antenna delivers not only performance, but superb value.

- Brass and copper elements
- Chrome-plated brass ferrule with standard 1"-14 thread
- Includes 15' RG-58 cable, which can be cut to size, and a PL-259 connector
- Suggested mount: Style 4187 or 5187 Ratchet Mount
- Smooth, durable, high gloss finish
- One section

ORDER NO. 276-51010
Mfr. No. 5101

5206-N
8' VHF 6dB Gain
End-Fed with Matching Stub

Classic

The classic 5206-C is an economical alternative to our high-end series antennas while maintaining the durability, reliability and quality boaters trust. This 8' VHF antenna is lightweight, self-supporting and utilizes copper cable elements to deliver quality communications where range is not the predominant factor.

- Not for T-tops
- Quality copper cable elements
- Nylon ferrule with standard 1"-14 thread
- Includes 15' RG-58 cable and a PL-259 connector
- Suggested Mount: 4187 or 5187 Ratchet Mounts
- Twin to: Styles 5205 and 5207 CB antennas

ORDER NO.	Model
276-52060	5206-N

Classic

5102
8' VHF Marine Band 6dB
Collinear Phased 5/8-Wave

Classic 5102 VHF antenna combines the most desired high-end features with exceptional craftsmanship to provide quality & value-packed performance. Brass and copper elements provide strength and durability inside a high gloss finished radome that will remain pristine white for years to come.

- Larger brass and copper elements
- Chrome-plated brass ferrule with standard 1"-14 thread
- Includes 15' RG-58 cable and a PL-259 connector.
- Suggested mount: Style 4187 or 5187 Ratchet Mount

ORDER NO. 276-51020
Mfr. No 5102

Recommended for Boats 14-22 ft. (4-7m) Short Range Communication 3-7 miles (5-11km)

5911 *(Short Range)*
THE STOWAWAY™
10' VHF Unity Gain

Classic

Emergency VHF Flex Antenna, Loaded 1/4 Wave Whip

Comes packed in a 12" weather-resistant, plastic tube which can "stow away" in an easy-to-reach location for instant emergency capability if your main antenna becomes broken or disabled. Complete with 12' cable, connector, and rubber suction cup for fast, easy mounting to any smooth horizontal surface.

- Flexible vinyl outer covering.
- 10" overall length.
- Velcro strips for storage included.

ORDER NO. 276-59110

ELECTRICAL DATA CHART FOR VHF ANTENNAS

Mfr. Style No.	Length	Antenna Gain	Max Input Wattage	SWR Nominally	Bandwidth within 2.0:1 SWR	Frequency	DC Ground
5101	8 FT.	6dB	50 w	1.5:1@156.8 MHz	5MHz	VHF Marine Band	*Yes / No
5102	8 FT.	6dB	50 w	1.5:1@156.8 MHz	5MHz	VHF Marine Band	*Yes / No
5206-N	8 FT.	6dB	50 w	1.5:1@156.8 MHz	3MHz	VHF Marine Band	No
5911	10 FT.	Unity	25 w	*	n/a	VHF Marine Band	*Yes / No

*Adequate across marine band. Precise SWR depends upon antenna location on boat.

Note: All Shakespeare Marine Antennas are vertically polarized. When indicated, PL-259 connector is included but not attached to VHF antenna for ease of installation. *Antennas with "Yes" will read short circuit when tested with ohm meter.

Mounting Information
8' Antennas are self supporting and maybe installed using a ratchet mount in nylon, chrome or stainless steel. If used with an extention, use a swivel mount with a standoff bracket

For more information see: www.shakespeare-marine.com

SHAKESPEARE

Recommended for boats 22+ ft. (7+ m) Medium to Long Range Communication 10+ miles (16+km)

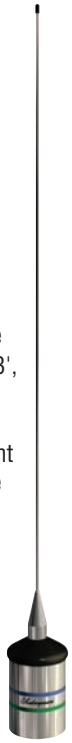
5241-R Classic
VHF MARINE ANTENNA

36" VHF 3dB Gain
Low Profile End-Fed 1/2 Wave Antenna

Perfect for bass boats, center console fishing boats, or any vessel where a standard fiberglass antenna may be too obtrusive or impossible to install. Measuring in at 3', the sealed, tin-plated copper wire coil delivers quality performance while the heavy-duty stainless steel whip maintains extra stability at high speeds. A ratchet mount or rail mount with a center hole is required for passage of the supplied 15' coax cable which exits from the center of the ferrule.
Recommended mounts are
#276-41870, #276-51870, or #276-41900.

- 3dB performance
- 36" stainless steel whip
- 1" - 14 thread chrome-plated brass ferrule



ORDER NO. 276-52410 Mfr. No. 5241-R

5242-A Classic
WITH QUICK DISCONNECT WHIP

36" VHF 3dB Gain
Low Profile End-Fed 1/2- Wave with Standard Duty Whip

This legacy style is coming back due to popularity. Convenient press and twist bayonet fitting makes attaching or removing its stainless whip quick and easy. The bayonet has been re-designed and improved for extra convenience

- Stainless steel whip (36")
- Whip is user replaceable
- SO-239 connector
- L-shaped bracket included for mounting to a vertical surface
- One section
- Note: Cable or connector (not included)

ORDER NO. 276-52420 Mfr. No. 5242-A

ELECTRICAL DATA CHART FOR VHF ANTENNAS

Mfr. Style No.	Length	Antenna Gain	Max Input Wattage	SWR Nominally	Bandwidth within 2.0:1 VSWR	Frequency	DC Ground
5912	7 FT.	Unity	25 w	*	n/a	VHF Marine Band	No
5241-R	3 FT.	3dB	50 w	1.5:1@156.8 MHz	7MHz	VHF Marine Band	No

SHAKESPEARE

Recommended for Boats 22+ ft. (7+ m) Medium to Long Range Communication 10+ miles (16+ km) Antenna

To make it easy and convenient to install/replace your antenna, we designed our QuickConnect™ antenna system with cable attached to the mount instead of the antenna itself. Simply screw on/off the antenna, and enjoy this hassle-free and cost-effective alternative to the traditional antenna installation. The QuickConnect™ products have a 2 year warranty and have the same mounting hole pattern as our standard antenna mounts. Note: When selecting a QuickConnect™ antenna, you must pair it with a QuickConnect™ mount.

FEATURES:
- QuickConnect™
- High quality connection
- Hanging dust protection cap
- Water protection cap
- Centerpin PL-259-CP-G Connector
- Standard mount design

BENEFITS:
- Unscrew or screw antenna to disconnect or connect
- No noise generated due to vibrations
- Protect the connector on the mount when antenna is disconnected
- Cap stays fastened to mount to prevent it from getting lost
- Easy solderless centerpin connector
- Upgrade to a high-end Shakespeare antenna without purchasing a new mount

QC-8
QUICKCONNECT™ ANTENNA INSTALLATION SYSTEM

VHF Marine Band 3dB QuickConnect™ stemming from the popularity of the quick connecting feature on Shakespeare's high-end Phase III® marine antennas.

SHAKESPEARE

SeaWatch®

DIGITAL HDTV READY!

SEAWATCH® MARINE TV ANTENNA

12VDC - 110VAC

The Shakespeare SeaWatch® series of TV antennas are omni-directional over-the-air digital HDTV solutions that bring sleek lines and 360 degrees high-performance coverage to your watercraft. Designed to accept common 1 inch-14 threaded mounts, the antennas are well suited to fit virtually any application.

Everything needed to connect the antenna to your converter or television is in the box. When paired with an optional 2-way band separator between the antenna and the amplifier, these antennas can also receive AM/FM radio signals. A full line of mounts and extension masts are available to fine-tune the installation.

These antennas are designed for the mobile lifestyle and can be used on marine vessels, RVs, pop-up campers and more! Watch your favorite sports, sitcoms, reality TV, crime dramas, local news, weather, kids programming and more for FREE and in 1080 HDTV!

ORDER NO.	276-30150	276-30190

Noise Figures:	3dB	3dB
Max. Output Lever:	110dBuV	110dBuV
Impedance:	75 ohms	75 ohms
Connectors:	"F" Type	"F" Type
Power Supply	DC 12v / AC 110v	DC 12v / AC 110v
Dimensions	15" dia.x 3"H	19" dia. x 3"H
Best suited for areas up to from Broadcast Towers	40 miles	75 miles

FEATURES:
- Low noise amplifier
- Omni-directional
- Recieves ALL local HD broadcast signals
- AC, DC and USB power adapter

Kit Includes:
- Panel TV Antenna
- 20' RG-59 Coax Cable/F-Connectors
- USB/AC/DC Power Cords

It's HD Ready...of course.

Simply connect the antenna to any TV that has a digital receiver. With older analog TVs connect a digital converter box (not supplied).

The style 3020's wall-mounted 12-volt DC power supply has outputs on both front and rear. For cable, satellite, and playback devices, its Auxiliary Input automatically switches from Antenna Input to Auxiliary Input when powered off.

To achieve a streamlined appearance, the coax running to the antenna head can be concealed by running it through the mounting base.

Cable and satellite support requires appropriate hardware and programming from the service provider.

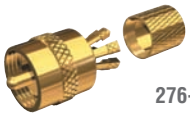
VHF ACCESSORIES

Shakespeare Revolutionizes The PL-259/PL-258 Centerpin®

276-00258-1



276-00259-1

The perfect solution to the troublesome task of installing a PL-259 connector or splicing RG-58 A/U or RG-8/X coax. Shakespeare's revolutionary new Centerpin® connectors are solderless, fret-less, and botchless. They go on without a hitch, without soldering skills. No measuring, no critical stripping of coax insulation, no fussing with the coax's braid, and no "tinning". New connectors are gold-plated brass to better withstand the elments and to minimize traditional connector-borne signal loss.

Centerpin® PL-258-CP-G: The easy way to splice coax! The new Centerpin® PL-258-CP-G connector puts Centerpin® convenience to work on the double-trouble task of splicing RG-58 A/U and RG-8X.

ORDER NO. 276-00258-1

Mfr. No. PL 258-CP-G

Centerpin® PL-259-CP-G: For RG-58 A/U and RG-8X coax. Installing a PL-259-G connector hasn't been simple. Now it is.

ORDER NO. 276-00259-1

Mfr. No. PL 259-CP-G

SHAKESPEARE STYLE ART-3 TESTER

No need to call for a radio check when you have this compact, easy to use, unit on-board. Unlike other meters in its class, the ART-3 tests receiver function as well as output power and VSWR (antenna efficiency). It is powered by an internal battery or can be connected to ships 12 VDC with the supplied power cable. Battery level can be checked at the flip of a switch. **No serious boater should be without an ART-3**

Mfr. No ART-3 **ORDER NO. 276-00030**

Specifications:

- **Frequency Range: 155-158 MHz**
- **RF Power Scale: 0 to 30 watts**
- **Impedance: 50 ohms**
- **Accuracy: ±10%**
- **Connectors: SO-239**
- **Signal Generator: 3 KHz Deviation**
- **Tone: 1000 Hz**
- **RF Level: -15 dBM (approx.)**
- **Die-cast aluminum construction**
- **Two PL-259 connectors on each end, already installed**

AS-2 AUTOMATIC SWITCH

This innovative switch toggles two radios to one antenna. It mounts out of the way, because you don't have to get at it to use it. When you key the microphone on one of the radios, the AS-2 switches the antenna to it - Automatically. The radio stays locked onto the antenna until the automatic switch detects a transmit signal from the other radio. Easy!

Mfr. No. AS-2 **ORDER NO. 276-00022**

Frequency Range. Up to 600 MHz
VSR: Below 1.2:1
Power Rating: 30W
Impedance: 50 ohms
Insertion Loss: Less than 1.2dB
Isolation: Better than 150dB
Connections: SO-239 type
Power Supply: 12 vDC @ 200 ma
Sensing/Switching Time: Less than 100ms

RATCHET MOUNT STAINLESS STEEL

Sleek, simple lines come from a nutless, boltless, design.
Standard 1"-14 thread.
Slot for cable feed-through
Bolt holes: 5/16" diameter
3" x 1-1/2" on center

ORDER NO. 276-51870
Mfr. No. 5187

RATCHET RAIL MOUNT

Stainless Steel

Ratchet action, designed for quick and easy installation on 7/8" or 1" vertical or horizontal rails. Handles antennas up to 8' and has cable feed-through provision.

ORDER NO. 276-41900
Mfr. No. 4190

SHAKESPEARE 4364-B 12" FIBERGLASS EXTENSION MAST

One inch diameter extension mast for light to moderate duty applications. White molded polycarbonate male upper and female lower 1"-14 threads. Excellent for MarineTV antennas.

- Fits standard antenna mounts
- Great for clearing an obstruction
- One section

ORDER NO. 276-43641
Mfr. No. 4364-B

UPPER BRACKET

Insulated stand-off brackets of white molded plastic. Corrosion resistant. Easy opening for quick lay down. Includes bolts, nuts and lock washers. With insert - fits either 1", 1-1/8" or 1-1/2" diameter antennas.

ORDER NO. 276-04081
Mfr. No. 408-R

SHAKESPEARE 4365 STRAIGHT MOUNT

4" high, 1"-14 thread stainless steel mount. Perfect for radar arches. May be used with Style 4364 (#276-43640) extension mast.

ORDER NO. 276-43650
Mfr. No. 4365

SHIM KIT FOR RATCHET MOUNTS

Shim kit for ratchet mounts - heavy-duty rubber. Kit of four shims, two each with front/back and side/side slope. Each shim adds a half-notch (5˚) tilt. Stack them for extra height or for compound angles.

ORDER NO. 276-04140
Mfr. No. 414

Heavy-Duty Rubber

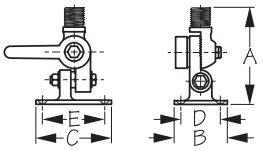
SEA-DOG LINE QUALITY MARINE GEAR

ANTENNA BRACKET - Injection Molded Nylon

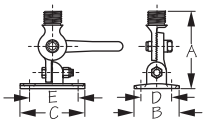
This bracket will accept any standard antenna with 1" - #14 threads.



ORDER NO.	Mfr. No.	A	B	C	D	E	Fastener
423-29130	329130-1	4-3/4"	2-9/16"	3-5/8"	1-13/16"	2-13/16"	1/4" FH

ADJUSTABLE ANTENNA BASE - Investment Cast 316 Stainless

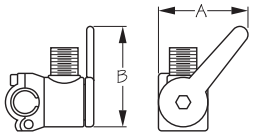
All stainless steel construction with dual swiveling mounts allows for full adjustability.
Will accept any standard antenna with 1" - #14 threads.
Designed with an integral feed system for Loran Cable.



ORDER NO.	Mfr. No.	A	B	C	D	E	Fastener
423-29230	329230-1	4-1/2"	2-1/2"	3-5/8"	1-13/16"	2-15/16"	1/4" FH

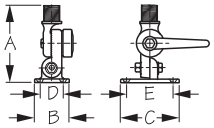
RAIL MOUNT ANTENNA BRACKET - LEVER TYPE - Injection Molded Nylon/Stainless Screws

ORDER NO	Mfr. No.	A	B	Fits Tubing
423-27148	327148-1	3-3/16"	3-5/8"	7/8" – 1"



ADJUSTABLE ANTENNA BASE - Die Cast Zinc Chrome Plated

Die cast zinc construction with a mirror finish chrome plating will accept any standard antenna with 1" - #14 threads.
Designed with an integral feed system for Loran cable.



ORDER NO	Mfr. No.	A	B	C	D	E	Fastener

AMPLIFIER WITH SPEAKERS

2 - CHANNEL BLUETOOTH AMPLIFIER
& PAIR OF 6.5" BAR MOUNT 2-WAY SPEAKER
Includes JAHD240BT Bluetooth Amplifier /Pair of JXHD65ROPSK 6.5" Speakers

JXHD65ROPSBT

- 80 Watts max (40 watts RMS)
- Bluetooth audio (A2DP/AVRCP)
- Waterproof (IPX6 rated)
- 4 Ohm~8 Ohm
- Frequency Response: 20 Hz - 20 KHz
- Epoxy potted enclosure
- Corrosion resistant (ASTMB117)
- Dimensions: 22"H x 11"W x 11"D

Mfr. No. JXHD65ROPSBT
ORDER NO. 688-22616

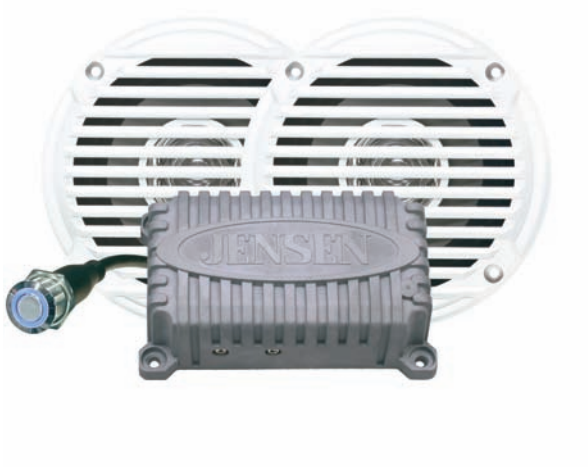
AMPLIFIER WITH SPEAKERS

2 - CHANNEL BLUETOOTH AMPLIFIER
& PAIR OF 5" WATERPROOF SPEAKERS
Includes JAHD240BT Bluetooth Amplifier / Pair of MS5006W 5" Speakers

CPM50

- 80 Watts max (40 watts RMS)
- Waterproof (IPX6 rated)
- Bluetooth streaming audio (A2DP) and controls (AVRCP)
- Illuminated program button
- 4 Ohm~8 Ohm stable
- Operating Voltage: 10 18V
- Frequency Response: 20 Hz - 20 KHz
- Epoxy potted enclosure
- Corrosion resistant finishes/materials (ASTMB117)
- Dimensions: 15"H x 10"W x 14"D

Mfr. No. CPM50
ORDER NO. 688-00050



MS5006W SPEAKERS

- 5" Dual Cone Waterproof Speaker
- Max Power Handling: 30 Watts
- Waterproof
- ASTM B117 Salt Spray Exposure Standard Compliant:
- ASTM D4329 UV Exposure Standard Compliant:
- Speaker Color: White

JHD910 MINI RADIO - ATV - HEAVY DUTY

Jensen® is proud to offer the new 12V Heavy Duty MINI Weatherproof AM/FM/WB Stereo with Front Audio Aux-in! Because work conditions can be pretty harsh, you need audio equipment that can stand up to the challenge. With the JENSEN® MINI, you have the dependability that you need along with state-of-the-art features that bring your customers the best radio options in the ATV industry

JENSEN HEAVY DUTY

ORDER NO. Mfr. No.
688-00910 JHD910

- Completely waterproof AM/FM radio
- 7-Channel NOAA Weatherband & Weather Alert
- Front panel audio aux-in for use with iPods®, MP3 players, & portable CD players Jobsite work timer
- 30 day internal memory
- Green or Amber backlighting
- Electronic Seek Up-Down/Volume/Bass/Treble & Balance Controls
- 2-Channel amplified audio output
- Standard "L" Mounting bracket included
- 12VDC Power - no batteries required
- Overall Dimensions: 5-3/16"W x 3-3/8"H x 1-7/8"D

JENSEN® HEAVY DUTY MINI ACCESSORIES

Maximize your audio quality by pairing the JHD910 Mini Radio with the Jensen® JXHD35 Mini Speakers. By offering full range audio reproduction, easy mounting options, and UV resistance, the JXHD35 Mini Speakers bring further audio enjoyment to the JHD910 Mini Radio

JXHD35 HEAVY DUTY SPEAKERS WATERPROOF

- 30 Watts
- 3.5"Heavy Duty
- Weatherproof
- Corrosion resistant
- UV resistant materials
- Multiple mounting applications (surface mount housing/metal mounting bracket)
- Full range audio through 3.5" woofer with independent tweeter
- Dimensions: 3"L x 4.4"W x 4.4"H

ORDER NO. Mfr. No.
688-00035 JXHD35

6-1/2" HIGH PERFORMANCE COAXIAL MARINE SPEAKER

MSX65R

- Weatherproof and designed for marine use
- Max power handling: 150 Watts (pair)
- Includes 2 white grilles & 2 silver grilles
- Frequency: 65Hz-20kHz
- Nominal impedance: 4 Ohms
- Polypropylene woofer: 6-1/2"
- Magnet: 11 oz.
- Mounting hole diameter: 5"
- Mounting depth: 2-1/4"
- Tweeter type: Dome
- Tweeter material: Silk
- ASTM B117 salt spray exposure compliant
- ASTM D4329 UV exposure standard compiant

ORDER NO. 688-65111 Mfr. No. MSX65R

6-1/2" COAXIAL WHITE MARINE SPEAKER

MS6007WR

- Weatherproof and designed for marine use
- Max power handling: 120 Watts (pair)
- Frequency: 75Hz-20kHz
- Nominal impedance: 4 Ohms
- Polypropylene woofer: 6-1/2"
- Magnet: 9.8 oz.
- Mounting hole diameter: 5"
- Mounting depth: 2-1/3"
- Tweeter type: Dome
- Tweeter material: Titanium
- ASTM B117 salt spray exposure compliant
- ASTM D4329 UV exposure standard compiant

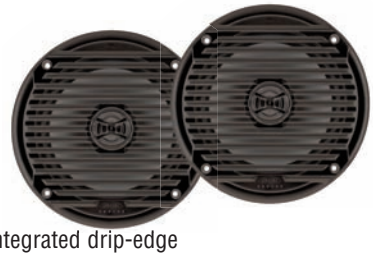
ORDER NO. 688-60070 Mfr. No. MS6007WR

6-1/2" WATERPROOF COAXIAL SPEAKER

MS6007BR

KEY FEATURES

- Max power handling: 60 Watts Sensitivity: 91dB
- Frequency: 75Hz-20kHz
- Nominal impedance: 4 Ohms
- Polypropylene woofer: 6-1/2"
- Magnet: 9.8 oz.
- Mounting Hole Diameter: 5"
- Mounting depth: 2-1/3"
- Tweeter type: Dome
- Tweeter material: Titanium
- One-piece plastic chassis with integrated drip-edge
- Voice coil size: 1"
- Suspension/Surround: Rubber
- ASTM B117 Salt Spray Exposure Standard Compliant
- ASTM D4329 UV Exposure Standard Compliant



ORDER NO. 688-60070-1 Mfr. No. MS6007BR

6-1/2" COAXIAL SPEAKER

MSX60CPR

KEY FEATURES

- Max power input: 75 Watts
- Frequency response: 65Hz-20kHz
- Bridged/suspended tweeter
- Polypropylene cone
- Rubber suspension/surround
- Magnet weight: 11 oz.
- High polished chrome grille
- Water and corrosion resistant sealed design
- All plastic chassis construction
- UV resistant (ASTM-D4329 compliant)
- Mounting Hole Diameter: 5"
- Mounting depth: 2-1/3"

ORDER NO. 688-60060-1 Mfr. No. MSX60CPR

6-1/2" COAXIAL SPEAKER

MSX60RVR

KEY FEATURES

- Max power handling: 75 Watts
- Sensitivity: 91dB
- Frequency: 65Hz-20kHz
- Nominal impedance: 4 Ohms
- Polypropylene Woofer: 6-1/2"
- Magnet weight: 11 oz.
- Mounting Hole Diameter: 5"
- Mounting depth: 2-1/3"
- Tweeter type: Dome
- Tweeter material: Titanium
- ASTM B117 Salt Spray Exposure Standard Compliant
- ASTM D4329 UV Exposure Standard Compliant

Mfr. No. MSX60RVR

6-1/2" COAXIAL SPEAKER - WATERPROOF
MSX60BR

ORDER NO. 688-00600
Mfr. No. MSX60BR

- Max power input: 150W (pair)
- Frequency response: 65Hz - 20KHz
- Bridged/suspended tweeter
- Polypropylene cone
- Tweeter: Mylar
- Rubber suspension/surround"
- Magnet weight: 11 oz.
- High polished chrome grille
- Water and corrosion resistant sealed design
- All plastic chassis construction
- UV resistant (ASTM D4329 compliant)
- Hole size: 5"
- Mounting depth: 2.3"

ORDER NO. 688-00600 Mfr. No. MSX60BR

8" AMPLIFIED MARINE POWERED SUBWOOFER 200 WATTS
JMPSW800

ORDER NO. 688-00800
Mfr. No. JMPSW800

- 200 Watts max handling power
- 12VDC power system
- Built-in amplification
- Black anodized, all aluminum enclosed
- Mate-in-lock connectors for easy installation
- Adjustable gain and crossover
- Low (line) level inputs
- Frequency response 60 Hz - 200 Hz
- Vertical and horizontal mounting provisions
- Overall Dimensions: 13.6"W x 10.4"H x 2.90"D

ORDER NO. 688-00800 Mfr. No. JMPSW800

MARINE STEREO PACKAGE
MCK508WB.6
BLUETOOTH IN-DASH SINGLE-DIN MARINE MP3 - COMPATIBLE CD AM/FM RECEIVER, USB/BLUETOOTH® AUDIO STREAMING

USB and SD Memory Card Ports,
Compatible with audio output of iPod®/iPhone®, Smartphones, and MP3 Players, Front & Rear Outputs.
MR508UABW (Receiver), One Pair of MR6W (Speakers) & MRANT10 (Antenna)

ORDER NO.	Mfr. No.
988-50800-06	MCK508WB.6

FEATURES:
- 6.5" 2-Way Weather Proof Full Range Marine Speakers with Poly Carbon Cone and Rubber Surround
- 180 Watts, Max 90 Watts RMS Power Handling per pair
- Receiver MR508UABW - 50 Watts x 4 Max Power, Preset built-in EQ, and Wireless Remote
- Plays CD/USB/SD/MP3/WMA,FM/AM, Smartphones
- CD±R/RW Audio
- USB, SD, Aux Inputs and Front & Rear RCA Outputs
- Compatible with Audio out from Smartphones and MP3 Players
- Bluetooth Hands Free & Bluetooth Audio Streaming - Play and Control Music Apps (Spotify / Pandora wirelessly
- Switchable US & Europe Tuner Frequencies
- RDS Tuner
- PC Board with Conformal Coating
- Front Panel UV Coating
- Marinized

MARINE STEREO PACKAGES
MCKGB450W.6 & MCKGB450B.6
BLUETOOTH® /AUDIO STREAMING/MARINE GAUGE DIGITAL MEDIA AM/FM RECEIVER
PLUS

One Pair 6.5" 180 Watt Dual Cone Marine Loudspeakers (MR6W Speakers) & MRANT10 (Marine Dipole Antenna)

FEATURES:

- IPX6**
- NOAA Weather Band Tuner
- Switchable US & EU Tuner Frequencies
- RDS Tuner
- Conformal Coated PCB
- Polished Stainles Steel Bezel (2 trim bezels included)
- Zero Current Draw Memory (Radio preset memory in case of battery disconnect)
- Fully Marinized
- Engineered in the USA

MR6W SPEAKERS

- 180 Watt Peak Power
- Resin Treated Cloth Surround
- Polypropylene Cone
- Dual Cone Design
- Composite Basket
- Cutout Diameter 3" (76 mm)
- Wired Remote Ready
- Illuminated Soft Touch Buttons
- 60 Watts x 4 Channel
- Built-in 4 Channel Amplifier

INPUTS & OUTPUTS

- USB Port
- USB Charging (1A)*
- Aux-In
- **Compatible with Audio Output of iPod®/iPhone® Smartphones, & MP3 Players**
- Front, Rear/Sub Pre-Amp Outputs

PLAYBACK

- MP3/WWA
- BLUETOOTH® AUDIO STREAMING Stream & Control your Favorite Music APPs

MARINE AMPLIFIERS

MR1200PA, MR1000 & MR800 amplifiers are fully marinized and feature a unique rubber door, which tightly seals all control panel openings when not in use. They also use in-line weatherproof connectors for all input and output connections, which are run through grommeted openings in end panels. MR1200PA is designed with a built-in PA system, so wake tower speakers or other stereo speakers can be used to make announcements. When you key the microphone the audio source is muted and your voice comes out over the speakers.

MR4.3W
4" – 3-WAY INDOOR/OUTDOOR BOX SPEAKER 200 Watts (White)

SPECIFICATIONS:
- Total Power: 200 Watts
- System Impedance: 4 Ohms
- Frequency Response: 80 Hz to 18 kHz
- Sensitivity @ 1W/1 m: 85dB

Components
- Number of Tweeters: 2
- Tweeter Size: (2) 1" Material: Mylar Dome

Mounting Options
- Swivel Bracket

Mfr. No. MR4.3W
ORDER NO. 988-00043-00

Sold in pairs

TUBE SPEAKER
BLUETOOTH® PORTABLE SPEAKER SYSTEM

FEATURES:
- IPX5
- Bluetooth® Audio Streaming
- SD and USB Ports included
- FM Tuner
- Track, Volume and Station Controls

Dimensions:
11.25" (285.8 mm) x 4.6" (117.5 mm)

- Rechargeable Li-Ion Battery
- Cigarette Lighter Adapter for Charging
- Soft Touch Controls
- Blue LED Illumination w/Music Sync
- Adjustable Shoulder Strap included

AN150SR AMPLIFIED AM/FM RADIO ANTENNA

Antenna mounts easily using adhesive foam strips and works great in marine applications. Includes 7 ft cable along with 6 milliamps @12V DC of power when unit is on.
Dimensions: 14-1/2" W x 7/8"H x 3/4"D

ORDER NO. 030-00130
Mfr. No. AN150SR

AN110 TOP MOUNT AM/FM ANTENNA

- Features 5-Section, disappearing, locking/unlocking antenna
- 39" mast with 48" of cable
- Removable rubber cap for locking or non-locking application
- Key provided
- Adjustable 35 degree angle.

ORDER NO. 030-00110
Mfr. No. AN110

TOP/SIDE MOUNT AM/FM RUBBER MAST ANTENNA

Features 10" rubber mast with 60" cable.
Antenna adjusts to 90 degree angle. Surface mount angle installations of 0, 8 and 16 degrees.

ORDER NO. 211-81067 Mfr. No. 1181067

DIPOLE ANTENNA

This universal wire antenna plugs right into your factory or aftermarket stereo. It delivers a strong, static-free signal and, thanks to its slim, hideaway design, it won't hog space.

- 6ft. Soft Wire Antenna
- Works with any stereo

ORDER NO. 688-309819 Mfr. No. 8309819

POWER760 4 CHANNEL AMPLIFIER

- Max power output: 760 Watts
- Designed to meet CEA-2006 test standards
- High current bi-polar output transistors
- Compact design allows great flexibility in mounting
- Built-in low-pass & high-pass crossover filters for bi-amplifying
- Channel mode selector switch - 4, 3 and 2 channel
- Full-range option
- Variable bass EQ 0~12 dB at 45 Hz
- Pass-thru RCA's
- Green operation and red protection LED's
- Protection circuit that safeguards against short circuits, DC-offset & thermal overload
- Overall Dimensions: 9"W x 2.5"H x 12.5"L

ORDER NO. 688-76000 Mfr. No. POWER760

AUXILIARY AUDIO INPUT JACK

- 1/8" Auxiliary input jack
- Includes 9 ft. RCA cable
- Includes 3 ft. connection cable for iPod/MP3 Player
- For increased stability, use a pod cradle
- Compatible with all Jensen stereos with auxiliary input
- Graphite Grey in color

ORDER NO. 688-12839 Mfr. No. JPORTG

WEATHER RESISTANT PUSH PULL SWITCHES

Mfr.No. MP39380
ORDER NO. 051-39380
OFF-ON SPST

- Solid brass construction
- Gasket sealed case
- 3/8" mounting bushing
- 2 screw terminals
- 3/4" chrome plated brass knob
- For panels up to 1" thick
- Rated: 15 amp @ 12 VDC
- Display packaged

HEAVY DUTY MARINE PUSH PULL SWITCHES

- Pull for ON
- Solid brass construction
- 3/8" mounting bushing
- 2 screw terminals
- For panels up to 1" thick
- Chrome plated plastic knob
- Rated: 15 amp @ 12 VDC
- Display packaged

Mfr.No. MP39520
ORDER NO. 051-39521
OFF-ON SPST

- Pull for ON
- Solid brass construction
- 3/8" mounting bushing
- 2 screw terminals
- For panels up to 1" thick
- Chrome plated solid brass knob
- Rated: 15 amp @ 12 VDC
- Display packaged

Mfr.No. MP39530
ORDER NO. 051-39530
ON-OFF SPST

- First pull energizes #1
- Second pull energizes both circuits
- Solid brass construction
- 3/8" mounting bushing
- 3 screw terminals
- For panels up to 1" thick
- Chrome finish plastic knob
- Rated: 15 amp @ 12 VDC
- Display packaged

Mfr.No. MP39570
ORDER NO. 051-39571
OFF-ON(1)-ON(1&2) SPST

- First pull energizes #1
- Second pull energizes both circuits
- Solid brass construction
- 3/8" mounting bushing
- 3 screw terminals
- For panels up to 1" thick
- Chrome plated solid brass knob
- Rated: 15 amp @ 12 VDC
- Display packaged

Mfr.No. MP39580
ORDER NO. 051-39580
OFF-ON(1)-ON(1&2) SPST

- First pull energizes #1
- Second pull energizes two separate circuits
- For anchor/running lights or similar function
- Solid brass construction
- 3/8" mounting bushing
- 4 screw terminals
- For panels up to 1" thick
- Chrome finish plastic knob
- Rated: 15 amp @ 12 VDC
- Display packaged

Mfr.No. MP39610
ORDER NO. 051-39610
OFF-ON(1)-ON(2&3) SPST

WATER-RESISTANT CONTURA SWITCHES

Specifically manufactured for use in Blue Sea Systems Contura Water Resistant Panels
Use of non Blue Sea Systems Contura Switches will not maintain the water resistant ingress protection rating of Blue Sea Systems panels.

Features:

- Vibration, shock, thermoshock, moisture and salt spray resistant
- Mounts in Blue Sea Systems Contura Water Resistant Panels & Contura Switch Mounting Panels.
See page 343 for Water-Resistant Panels
- Amperage Max. Operating: 20A @ 12V DC, 15A @ 24V DC
- Amperage Operating Current: 18 Milliamps
- Lighted: LED rated 100,000 hours half-life
- Seals: Internal & external gasket panel seal
- Temperature Rating: -40˚C to 85˚C
- Mounting Hole: 1.45 in x 0.83 in (36.83 mm x 21.08 mm)

NEW!

Regulatory

CE marked
Meets UL 1500 & ISO 8846 external ignition protection requirements

IGNITION SWITCHES

Sierra offers the most complete selection of high quality polyester and brass ignition switches for the Marine Industry.

Marine grade glass-filled polyester switches
- Maximum corrosion protection – eliminates oxidation
- Inner seal between cylinder lock and contact plate
- Non-conductive housing eliminates potential shorts
- 20 Amp rating
- 2, 3 and 4 position switches
- Switches for magneto and conventional ignitions

Brass ignition switches
- Corrosion resistant construction
- Up to 15 Amp rating
- 2, 3 and 4 position switches
- Switches for magneto and conventional ignitions

4 POSITION CONVENTIONAL – ACCESSORY – OFF – RUN – START

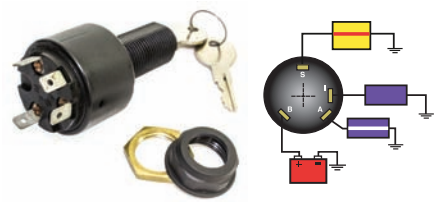
Mfr. No. MP39800
ORDER NO. 051-39800

Description:

Material	Polyester
Length	Long: 1-1/8" maximum panel thickness
Terminal Type	4 Blade
Back Up Nut	Brass
Face Nut	Hex black plastic face nut
Hole Size	7/8"

Rated:

Ignition	15 Amp @ 12v DC
Solenoid	30 Amp @ 12v DC
Accessory	15 Amp @ 12v DC



Mfr. No. MP41040

ATO®/ATC® FUSES

Delivers fast-acting protection for electronics and other small loads

Features:

- Fast-acting type fuses ideal for electronic devices
- Standard circuit protection device for automobiles and trucks
- Tin-plated connector blades for corrosion resistance
- Colour coded for easy identification
- Visible indication of blown condition
- Sold in packages of 2

CLASS-T FUSE BLOCK

- Four stud design provides ample access around connecting stud to install large cable lugs without obstruction from the fuse
- Insulating cover satisfies ABYC/USCG insulation requirements
- Cover breakouts allow wire access in any direction
- Stud design ensures secure fuse mounting even with high heat
- Stainless steel studs provide resistance to corrosion and high torque
- One-piece stainless flange nuts ensure safe and secure connections
- UL 94-V0 base resists high heat
- Acepts Classic-T Fuses *(See Page 313)*

Specfications:
Voltage Max. Operating: 160V DC
Cable Size: Up to 4/0 AWG (120 mm²)
Fuse Mounting Blocks: Tin-Plated Copper

5007100 and 5502100 Regulatory:
Meets ISO 8846 and SAE J1171 external ignition protection requirements when cover is secure

MAXI® FUSE BLOCK

Ignition protected MAXI Fuse Block allows for installation in a gas engine compartments.

- Snap-on terminal cover insulates all conductive parts, satisfying ABYC/USCG requirements
- Accepts wires from sides or bottom
- Terminal screws compress fuse blades within blocks for low resistance connections
- Label recess accepts large format labels
- Accepts MAXI Fuses *(See Page 311)*

Specifications
Voltage Max. Operating: 32V DC
Amperage Max. Operating: 80A
Wire Size: 14–4 AWG
MAXI® Fuses available: 30A–80A
Mounting: #10 Screws
Regulatory:
Meets ISO 8846 and SAE J1171 external ignition protection requirements

MRBF SURFACE MOUNT FUSE BLOCKS

MFBF - Marine Rated Battery Use

- Surface mount fuse blocks accommodate three MRBF fuses for consolidated high amperage circuit protection
- The independent source fuse block (5194) is ideal for 3 output battery chargers
- The common source fuse block (5196) provides 3 loads from a single source
- Clip-on cover insulates terminal connections
- Versatile wiring options allow all wires to come out a single side
- Label recesses for easy circuit identification
- One-piece stainless flange nuts ensure safe and secure connections
- Ignition protected when used with MRBF fuses
- Accepts MRBF Terminal Fuses *(See Page 313)*

Specifications
Voltage Max. Operating: 58V DC
Amperage Max. Operating: 240A per circuit
Terminal Fuses Available: 30–300 Amps
Regulatory: Meets SAE J1171 external ignition protection requirements

BLUE SEA SYSTEMS

MIDI® OR AMI® SAFETY FUSE BLOCK

For use with MIDI® or AMI® fuses CE Marked

Features:

- Ignition protected for installation aboard gasoline or diesel powered boats
- Sealed cover protects fuses from the harsh marine environment
- Insulating cover satisfies ABYC/USCG insulation requirements
- Cover breakouts allow wire access in any direction
- 200A maximum with 4/0 cable
- Accepts Blue Sea Systems Square Format standard or custom label
- Fuses sold separately

ORDER NO. 738-77200
Mfr. No. 7720

MEGA® OR AMG® SAFETY FUSE BLOCK

For use with MEGA® or AMG® fuses

Features:

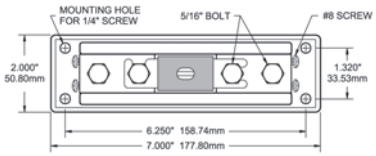
- Ignition protected for installation aboard gasoline or diesel powered boats
- Sealed cover protects fuses from the harsh marine environment
- Insulating cover satisfies ABYC/USCG insulation requirements
- Cover breakouts allow wire access in any direction
- 300A maximum with 4/0 cable
- Accepts Blue Sea Systems Square Format standard or custom label
- Fuses sold separately *(See Page 313)*

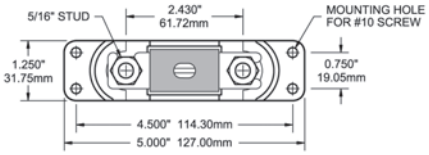
ORDER NO. 738-77210
Mfr. No. 7721

ANL 300 & 750 FUSE BLOCKS WITH COVER

Features:

- Accepts 5/16" (M8) ring terminals
- For use on systems up to 32 Volts DC
- Swing out design allows replacement of the fuse without removing fasteners
- Stainless steel studs provide resistance to corrosion and high torquing for excellent electrical contact
- UL 94-VO base resists high heat
- Insert molded studs ensure secure fuse mounting
- Insulating cover satisfies ABYC/USCG requirements
- Cover breakouts allow wire access in any direction
- Fuse sold separately *(See Page 313)*





ORDER NO.	Mfr. No.	Description	Amperage Max. Operating	Max. Cable Size
738-50050	5005	ANL 300	300 Amps	2/0 AWG
738-55030	5503	ANL 750	750 Amps	4/0 AWG

TERMINAL FUSE BLOCK

- New isolated stud design uses standard M8 (5/16") hardware and permits stacking of terminals
- Compact, high-amp fuse—appropriate for DC Main, inverter, windlass, and bow thruster circuit protection
- Provides high current protection in tight space constraints
- Weatherproof—suitable for small open-cockpit boats and other harsh environments
- Insulating cap prevents accidental shorts
- Fuses sold separately. *(See Page 313)*

Specifications:
Maximum Voltage: 58 Volts DC
Maximum Amperage: 300 Amperes DC
Fuses Available: 30-300 Amperes DC

STD TOGGLE CIRCUIT BREAKERS

- Compatible with AC & DC circuits
- Exact OEM replacement for many top brands
- Hydraulic-magnetic trip mechanism will not trip by surges caused by start-up currents
- Standard safety 'trip free' feature so switch cannot be held 'ON'

051-50410 051-50470

NEW!

FLUSH/PANEL MOUNT CIRCUIT BREAKERS

NEW!

- 1/4" Stainless steel studs on the face of the circuit breaker for easy installation
- Connected terminal boots
- Combined use as a switch & circuit protection
- Standard safety 'trip free' feature so switch cannot be held 'ON'
- Ignition protected design for safe use in below deck boat applications

COMPLETE AUDIBLE WARNING KIT

Contains:

-Mfr. No. OP22900 Oil pressure switch 6 PSI (1/8" - 27)
-Mfr. No. TS25101 Temperature switch (3/8" - 18)
-Mfr. No. MC33502 Buzzer switch
-Mfr. No. OP22891 Optional oil pressure switch 15 PSI (1/8" - 27)

ORDER NO. 051-41400 Mfr. No. MP41400

Buzzer alerts operator of high engine temperatures or low engine oil pressure. Kit includes instructions, oil pressure switch (set at 6 PSI) and temperature switch (set at 200° F).

PUSH BUTTON RESET-ONLY CLB CIRCUIT BREAKER

- Ideal for 24-hour circuit protection
- Quick connect terminal style circuit breakers are incorporated into Blue Sea Systems' Waterproof Circuit Breaker Panels and Battery Bank Main Distribution Panels
- Push-to-reset operation
- "Trip Free" design cannot be held "ON" during fault current condition
- Ignition protected - Safe for installation aboard gasoline powered boats
- Optional Push Button Waterproof Boot protects circuit breaker in wet environments Order Nos. 738-41350 (Clear) and 738-41370 (Black)
- Marked

285-SERIES THERMAL CIRCUIT BREAKERS

(Replaces 185-Series Circuit Breakers)

Provides circuit protection for 25 to 150 Ampere loads when switching and circuit protection are both required

Features

- Drop in replacement for 185-Series Circuit Breakers
- Visible yellow reset lever shows open condition
- Ignition protected - Safe for installation aboard gasoline powered boats
- Meets SAE J1171 external ignition protection requirements
- Weather Resistant
- Combines switching and circuit breaker function into one unit*
- "Trip Free" - cannot be held closed after trip

***Do not use as a switch where high inrush currents are expected.**

Regulatory

- Marked
- Meets SAE J1171 external ignition protection requirements
- IP67 - Temporary immersion for 30 minutes

187-SERIES THERMAL CIRCUIT BREAKER

- Combines switching and circuit protection into a single device*
- Large Clearance around terminal studs accept heavy gauge wire lugs
- Clear, single lever operation
- Robust 5/16 M8 terminals provide high torque connections
- "Trip Free" design cannot be held "ON" during fault current

***Do not use as a switch where high inrush currents are expected.**

- Large lever with vertical/horizontal orientation provides indication of trip condition status
- Waterproof
- Ignition protected
  - Safe for installation aboard gasoline powered boats
- Recessed mounting holes for clean appearance

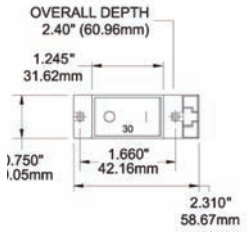
BLUE SEA SYSTEMS

A-SERIES ROCKER CIRCUIT BREAKERS

- White actuator indicates OFF position
- Single pole is available in Flat Rocker and Restricted Off styles
- Single pole is frequently used for AC or DC Branch circuit protection
- Double pole is available in Flat Rocker and Raised Rocker styles
- Double pole is typically used for AC Main circuit protection
- Raised Rocker actuator style is used for AC source selection on the 360 Panel System
- International ON and OFF symbols support vertical or horizontal mounting



Single Pole, AC/DC

Specifications

Voltage Max. Operating:	32V DC / 240V AC
Temperature Min. Operating:	-40°C
Temperature Max. Operating:	85°C
Switching Cycles:	10,000 @ rated amps and volts
Type:	Magnetic Hydraulic – Trip free
Terminal Screw:	#10-32 Stainless Steel
Terminal Screw Torque:	14–15 in-lb Recommended (load terminal is 30° angled)
Trip Time Delay:	See www.bluesea.com
Mounting Screw:	#6-32 Stainless Steel (included)
Mounting Screw Torque:	6–8 in-lb Recommended

Regulatory
CE marked, TUV certified, CSA certified, UL 1077 recognized

MARINE GRADE SHORT STOP CIRCUIT BREAKERS

Use a Circuit Breaker instead of a Fuse

- Designed with corrosion resistant materials to withstand harsh environments
- IP64 water resistant boot protects against dust and splashing water
- Push-to-reset operation only disconnects when tripped
- Stainless steel nyloc nuts for secure connections

IGNITION PROTECTED

Specifications

Interrupting Capacity:	2,500A@28V DC
Voltage Max. Operating:	28V DC
Temperature Min. Operating:	-10°C
Temperature Max. Operating:	60°C
Type:	Thermal trip, manual reset
Terminal Screw:	#10-32 Studs
Terminal Screw Torque:	24 in-lb. max.
Trip Time Delay:	See www.bluesea.com

Regulatory: IP64, SAE J553, meets SAEJ1171 external ignition

ATO®/ATC®-STYLE LOW PROFILE CIRCUIT BREAKERS

NEW!

Use a manually resttable circuit breaker instead of an ATO or ATC fuse

- Drop in replacement for ATO and ATC bladestyle fuses
- Manual push button reset complies with ABYC circuit protection requirements
- Compatible with Water-Resistant ST-Blade Fuse Block with cover secured
- Compatible with all other ST-Blade Fuse Blocks without cover

Features:

- Interrupting Capacity: 2,000A @ 28V DC
- Voltage Max. Operating: 32V DC
- Temp Min. Operating: -40˚C
- Temp Max. Operating: 85˚C
- Type: Thermal trip, manual set
- Trip Time Delay: See www.bluesea.com

Regulatory
SAE J553, UL1500, ISO 10924, SAE J1171, meets external ignition protection requirements

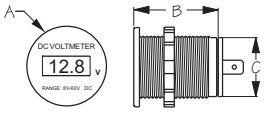
ROUND OLED DC VOLTMETER

NEW!

Injection Molded Nylon



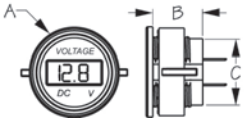
• Waterproof IP66 rating.

ORDER NO.	Mfr. No.	A	B	C	Volts
424-21600	421600-1	1-7/16"	3/4"	1-1/8"	8-60

Designed to withstand constant vibration and the rigors of a marine environment. Monitors voltage on a bright, waterproof, daylight readable OLED screen. High contrast and resolution make this screen visible from a wide viewing angle, even with polarized sunglasses. Reverse polarity protected. Constructed of injection molded nylon with terminal spade contacts. Installation is as easy as drilling a 1-1/8" hole, inserting the socket body, tightening the locking nut, & connecting the wires. Also fits Sea-Dog® Power Socket Shell (424-26100) & mounting bracket (CC #424-26105).

ROUND DIGITAL VOLTAGE METER

Injected Molded Nylon

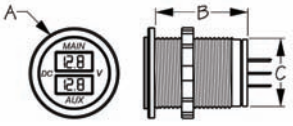


ORDER NO.	Mfr. No.	A	B	C	Volts
424-21615	421615-1	1-7/16"	3/4"	1-1/8"	4-30

Compact size allows for installation in a variety of locations – the same round size as a standard 12V receptacle. For interior or fully protected locations only.

DUAL ROUND VOLTMETER

Injected Molded Nylon

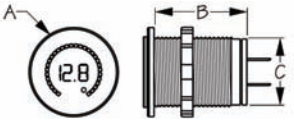


ORDER NO.	Mfr. No.	A	B	C	Volts
424-21616	421616-1	1-7/16"	1-3/8"	1-1/8"	10-48

Displays voltage for main and auxiliary batteries simultaneously. The same compact round size as a standard 1-1/8" socket allows this voltmeter to be installed in a wide variety of locations. Red LED display. Input 10V-48V. IP65 rating.

RAINBOW DISPLAY DIGITAL VOLTAGE METER

Injected Molded Nylon



ORDER NO.	Mfr. No.	A	B	C	Volts
424-21617	421617-1	1-7/16"	3/4"	1-1/8"	5-15

The rainbow dial digital voltmeter gives the user quick visual color-coded voltage information. Red/yellow means the voltage is too low. Green means voltage is normal. The same compact round size as a standard 1-1/8" socket allows this voltmeter to be installed in a wide variety of locations. Rainbow LED display. For use with 12V systems. IP65 rating.

SEA-DOG LINE QUALITY MARINE GEAR

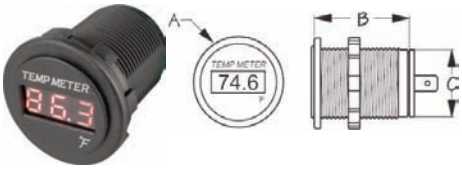
TEMPERATURE METER

NEW!

Injected Molded Nylon

ORDER NO.	Mfr. No.	A	B	C	Volts	Temp Range
424-21618	421618-1	1-7/16"	1-1/16"	1-1/8"	12-24	-67˚F to 248˚F

Temperature meter includes a prewired temperature sensor with a 6' cable. Monitors temperature on a bright LED screen. Reverse polarity protected. Same compact round size as a standard 12 VDC receptacle, this temperature meter supports many installation options. Installation is as easy as drilling a 1-1/8" hole, inserting the socket body, tightening the locking nut, and connecting the wires. IP67 waterproof rating.

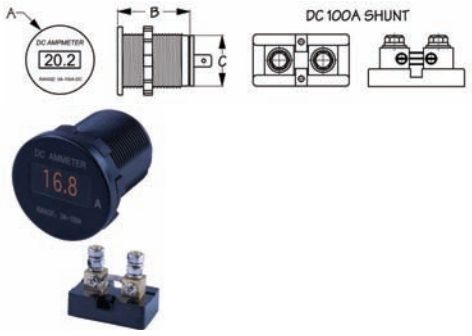


ROUND OLED 100 AMMETER

Injected Molded Nylon

ORDER NO.	Mfr. No.	A	B	C	Volts	Amps
424-21620	421620-1	1-7/16"	3/4"	1-1/8"	12-24	100

Designed to withstand constant vibration and the rigors of a wet marine or dusty outback environment. Monitors amperage on a bright, waterproof, daylight readable OLED (Organic LED) screen. High contrast and resolution make this screen visible from a wide viewing angle, even with polarized sunglasses. Reverse polarity protected. Same compact round size as a standard 12V receptacle, this OLED amperage meter provides many installation options. Injection molded nylon construction. IP66 rating. Includes 100A/50mv shunt.

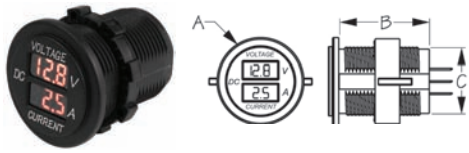


ROUND DIGITAL VOLTAGE METER

Injected Molded Nylon

ORDER NO.	Mfr. No.	A	B	C	Volts	Amps
424-21625	421625-1	1-7/16"	1-3/8"	1-1/8"	4-30	10

Compact size allows for installation in a variety of locations – the same round size as a standard 12V receptacle. For interior or fully protected locations only. DC shunt not required.

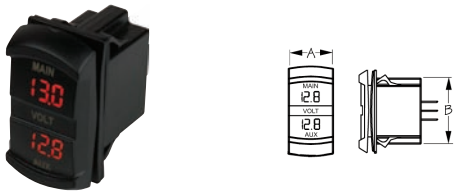


DUAL VOLTMETER ROCKER SWITCH STYLE

Injected Molded Nylon

ORDER NO.	Mfr. No.	A	B	Volts
424-21636	421636-1	13/16"	1-7/16"	10-48

Monitors and displays the voltage for main and auxiliary batteries simultaneously. Injection molded nylon construction. Fits into any 13/16" x 1-7/16" rocker switch hole. Digital red LED display. Input 10V-48V. IP 65 rating.



DUAL VOLT/AMP METER ROCKER SWITCH STYLE

Injected Molded Nylon

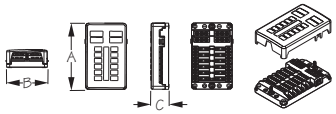
ORDER NO.	Mfr. No.	A	B	Volts	Amps
424-21645	421645-1	13/16"	1-7/16"	4-30	10

This rocker switch style dual volt/amp meter monitors and displays the voltage and amps simultaneously. Fits into any 13/16" X 1-7/16" rocker switch hole. Digital red LED display. Input 6-30VDC. IP65 rating.

LED INDICATOR FUSE BLOCK

NEW!

Nickel Plated Copper/Stainless Steel/Injection Molded ABS



• Waterproof IP67 rating.

ORDER NO.	Mfr. No.	Terminals	A	B	C	Fastener
424-45185	445185-1	6	3-7/16"	3-3/8"	1-7/16"	#8 FH
424-45188	445188-1	12	5-1/2"	3-3/8"	1-7/16"	#8 FH

Used to provide over-current protection to help protect wiring in electrical circuits. Features a LED indicator which lights up when the fuse is blown. For use with Sea-Dog® ATO/ATC (445101-CC # 424-45130, CC # 424-45190, 445156, and 445157; sold separately) and ATM mini style fuses (445002-445030, CC # 424-45090; sold separately). Main line terminal rating is 100A 32VDC max, with M5 metric threaded studs. Single line terminal rating is 30A 32VDC max, with M4 metric threaded studs. Includes semi-transparant cover and 71 labels. Installs with four #8 FH fasteners (not included).

SPECIAL ORDER ITEM

ST BLADE BATTERY TERMINAL MOUNT FUSE BLOCK WITH COVER (Screw Terminal)

Easily add up to 4 fused circuits with isolating cover to the terminal of a battery. Provides power to new accessories in your boat or vehicle.

FEATURES:

- Easy to install 4 ATO®/ATC® fused circuits
- Mounts on the battery terminal stud
- Screw terminals for securing wires
- Four nylon insulated ring terminals included
- Insulated cover included
- Accepts small format circuit labels
- Includes 1 fuse

REGULATORY:

Designed to meet iso 8846 and SAE J1171 external ignition protection requirements pending testing.

ORDER NO.	Mfr. No.
738-50230	5023-BSS

SPECIFICATIONS:

Voltage Max. Operating	32V DC
Amperage Max. Operating	30A (per circuit)
Amperage Max. Operating	40A (per block)
Fuse Type	ATO® or ATC® Fuses
Screw Terminal	#8-32 Screws with captive star lock washer
Mounting Thru-hole	Clearance for 3/8" (M10) stud

ST BLADE BATTERY TERMINAL MOUNT FUSE BLOCK KIT WITH COVER (Screw Terminal)

Easily installed battery terminal mount 4 ATO® / ATC® Fuse Block and negative busbar

FEATURES:

- Easy to install 4 ATO®/ATC® fused circuits
- Mounts on the battery terminal stud
- Screw terminals for securing wires
- Eight nylon ring terminals included
- Includes #5023 (CC #738-50230) & #2340 (CC #738-23400)
- Insulated cover included

ORDER NO.	Mfr. No.
738-50240	5024-BSS

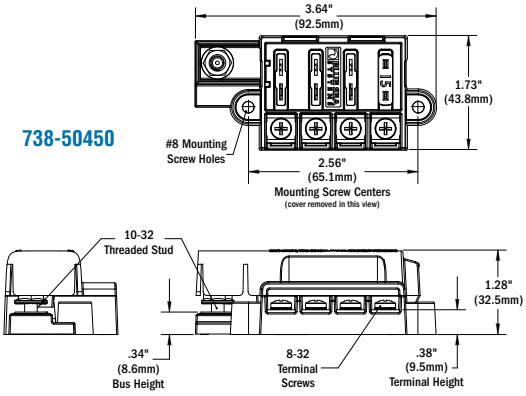
ST BLADE COMPACT FUSE BLOCKS

Common Source

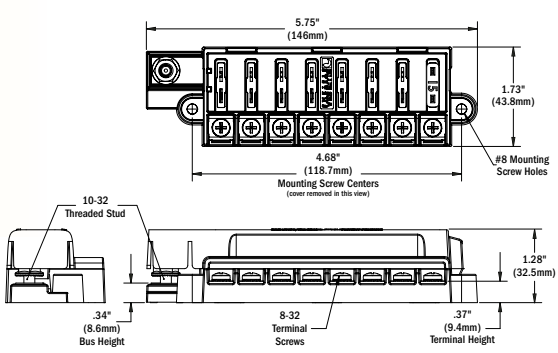
Provides surface mount circuit protection for ATO®/ATC® Fuses in a compact footprint. The single side design allows wire entry from one side to maximize space.

- Compact common source fuse block
- Accepts ATO® and ATC® fast acting blade fuses
- Single side entry wiring
- Ignition Protected-meets ISO 8846 and SAE J1171 for use in a gasoline engine compartment
- Insulating cover meets ABYC/USCG insulation requirements
- Tin-plated copper buses and fuse clips
- Accepts ring or snap fork type terminals
- Small format standard and custom labels available
- Fuses sold separately

738-50450



738-50460



SPECIFICATIONS:

Voltage Max. Operating	32V DC
Amperage Max. Operating	30A (per circuit)
Amperage Max. Operating	100A (per block)

BLUE SEA SYSTEMS

SAFETYHUB 100 FUSE BLOCK

The SafetyHub 100 combines an ignition protected fuse block and integrated connecting plugs. It is safe for use on gasoline powered boats, reduces wiring connections, and consolidates up to seven fused circuits.

- Accepts three MIDI® or AMI® fuses for high-amp circuits including panel feeds, windlasses, and stereo amplifiers
- Accepts four ATO® or ATC® fuses for circuits including bilge pumps, electronics and lights
- Sealed cover protects fuses from the harsh marine environment and satisfies ABYC/USCG insulation requirements
- Integrated connector plug eliminates loose wires and provides a secure, waterproof connection
- Fuses sold separately *(See Page 311)*

738-77250

Specifications:

Amperage Max. Operating (Combined) 280A
Voltage Nominal Operating . . . . . .12V DC
Minimal Cable Size to meet Ratings . . . . . .4/0 AWG (120 mm^2)
Recommended Ring Terminal . . . . . .M8 (5/16")

Regulatory

- CE Marked
- Meets ISO 8846 ignition protection, and SAE J1171 external ignition protection requirements
- IP66— protected against powerful water jets

ORDER NO.	Mfr. No.	Description
738-77250	7725-BSS	SafetyHub 100 Fuse Block

SAFETYHUB 150 FUSE BLOCK

The SafetyHub 150 is an ignition protected fuse block with screw termination. It is safe for use on gasoline powered boats, reduces wiring connections, and consolidates up to ten fused circuits. It can be used for Main or Branch DC power distribution

- Four 30A–200A MIDI®/AMI® fuses ideal for high-amp circuits including panel feeds, windlasses, and stereo amplifiers
- Six 1A–30A ATO®/ATC® fuses ideal for low-amp circuits including bilge pumps, electronics, and lights
- Sealed cover protects fuses from the harsh marine environment: IP66 rating—protected against powerful water jets
- Negative bus provides common location for negative collection
- Circuit identification label with write-on capability
- Fuse puller easily removes ATO®/ATC® fuses
- Cover provides storage space for two spare ATO®/ATC® fuses and two spare MIDI®/AMI® fuses
- NYPATCH coated MIDI®/AMI® fuse screws resist loosening over time
- Ignition protected fusing meets Coast Guard and ABYC requirements for installation on gasoline or diesel powered boats
- Fuses sold separately *(See Page 311)*

738-77480

Regulatory

- CE Marked
- Meets ISO 8846 ignition protection, and SAE J1171 external ignition protection requirements
- IP66— protected against powerful water jets

ORDER NO.	Mfr. No.	Description
738-77480	7748-BSS	SafetyHub 150 Fuse Block

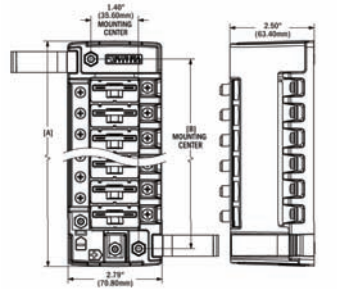
ST CLB CIRCUIT BREAKER BLOCK - 6 POSITION

Compact surface mount solution providing secure screw termination where Push Button Reset-Only CLB Breakers are desired

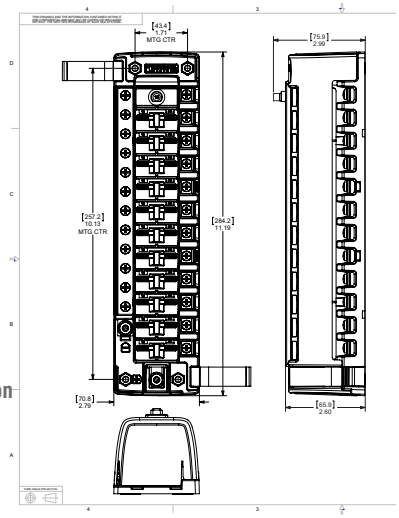
Features

- Quick connect clips allow circuit breakers to snap easily into place
- Tin-plated copper busses and screw terminals
- Clear insulating cover with square format label recesses, satisfies ABYC/USCG insulation requirements
- Breakouts allow wire access in two directions
- Accepts ring terminals
- Optional push button waterproof boots 738-41350 (Clear), 738-41370 (Black) or dress nuts can be installed over cover
- Accepts square labels
- Optional jumper **#5049**, (for use with 5050 & 5051
- Circuit breakers sold separately. ***(See Page 319)***

6 position



12 position



Specifications:

Voltage Max Operating . . . . . .32 V DC
Amperage Max. Operating . . . . . .32A (per circuit)
Amperage Max. Operating . . . . . .100A (per block - common source)
Amperage Max. Operating . . . . . .40A (per jumped circuit group - independent source)
Temperature Min. Operating . . . . . .-10˚C to 60˚C
Breaker Type . . . . . .Push Button Reset - Only Circuit Breaker with Quick Connect Terminals
Screw Terminal . . . . . .#8-32 Screw with Captive Star Lock Washer
Mounting . . . . . .#8 Screw (M4) or #8 Nut
Ring Terminals . . . . . .Screw Terminals #8 (M4), Neg. Bus #10 (M5)
Stud Size 10-32 (M5)

BLUE SEA SYSTEMS

ST BLADE WATER-RESISTANT FUSE BLOCK

Provides water-resistant circuit protection for ATO/ATC fuses & circuit breakers in a compact footprint

Features:

- Water-resistant IP66 design
- Accepts standard ring or fork type terminals to allow for simple wiring with standard tools
- Accepts a wide range of wire sizes
- Integral plugs maintain water-resistant rating if less than four loads are required
- Accepts ATO and ATC fast-acting blade fuses
- Accepts ATO/ATC-Stlyle low profile circuit breakers
- Nests with ST-Blade Water-Resistant Fuse Block (5056 or 5056100) & Water-Resistant 100A Bus Bar (2356 or 2356100)
- Tin-plated copper busses and fuse clips
- Includes four write-on circuit labels
- Small format standard & custom labels available
- Spare fuse & fastener storage in cover
- Fuses sold separately *(See Page 311)*

Regulatory For an ABYC/USCG compliant design use #738-5056100
CE marked, IP66 - protected against powerful water jets

738-50560

738-5056100

NEW!

SPECIFICATIONS:

Voltage Max. Operating	32V DC
Amperage Max. Operating	80A (per block/ 25A per circuit)
Fuse Type	ATO® or ATC® Fuses & circuit breakers
Input Wire Size	(1) 8 AWG to 4 AWG
Load Wire Size	(4) 16 AWG to 10 AWG
Bus Material	Tin-Plated Copper C11000
Mounting Thru-hole	Accepts 1/4" (6 mm) screws
Screw Terminal	(4) #8-32 Screws with captive star lock washer
Stud Terminal	(1) #10-32

ORDER NO.	Mfr. No.	Description

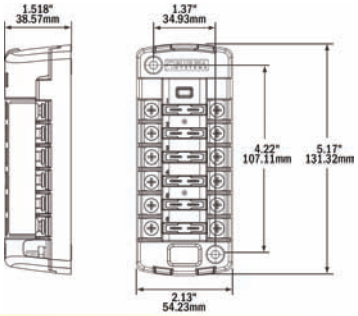
ST BLADE INDEPENDENT SOURCE FUSE BLOCKS WITH COVER (Screw Terminal)

ATO®/ATC® fuse block consolidates branch circuits and eliminates in-line fuses

FEATURES:

- Can be used for 24-hour circuits and switched circuit in same block
- Screw terminals for securing wires accept ring terminals
- Clear insulating cover with label recesses and storage for one fuse, satisfies ABTC/USCG insulation requirements
- Easy to open, push button latch for easy access to fuses
- Tin-plated copper buses and fuse clips
- Fuse block with cover includes 20 write-on circuit labels and two terminal block jumpers Order No.738-92170
- Fuses sold separately ***(See Page 311)***

ORDER NO.	Mfr. No.	Description
738-50350	5035-BSS	6 Circuit



SPECIFICATIONS:

Voltage Max. Operating	32V DC
Amperage Max. Operating	30A (per circuit)
Amperage Max. Operating	40A (per jumped circuit group)
Fuse Type	ATO® or ATC® Fuses
Screw Terminal	#8-32 Screws with captive star lock washer
Mounting	#8 Screw (M4)

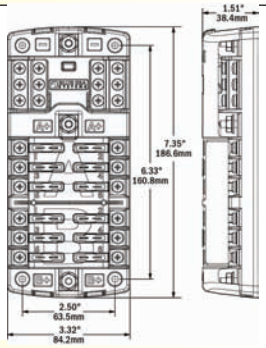
ST BLADE SPLIT BUS FUSE BLOCK WITH COVER (Screw Terminal)

Split ATO®/ATC® fuse block with ground and insulating cover. For use when a mix of switched and 24-hour circuits are desired in the same block.

FEATURES:

- Provides two insulated groups of six ATO®/ATC® circuits
- For use with either two isolated batteries or with a single battery providing a mix of 24 hour and switched circuits
- Screw terminals for securing wires accept ring terminals
- One-piece stainless flange nuts ensure safe and secure connections
- Clear insulating cover with label recesses and storage for two fuses, satisfies ABYC/USCG insulation requirements
- Easy to open, push button latch for easy access to fuses
- Tin-plated copper buses and fuse clips
- Fuses sold separately ***(See Page 311)***

ORDER NO.	Mfr. No.	Description
738-50320	5032-BSS	12 Circuit



SPECIFICATIONS:

Voltage Max. Operating	32V DC
Amperage Max. Operating	30A (per circuit)
Amperage Max. Operating	100A (per block)
Fuse Type	ATO® or ATC® Fuses
Screw Terminal	#8-32 Screws with captive star lock washer
Mounting	#8 Screw (M4)

ST BLADE FUSE BLOCKS WITH COVER (Screw Terminal)

- Positive distribution bus with #10-32 stud
- Can be used for 24-hour circuits
- Models available with or without a cover
- Cover satisfies ABYC/USCG requirements for insulation, incorporates an easy to open push button latch providing easy access to fuses, storage for two spare fuses, and label recesses that accept Blue Sea Systems' Small Format Labels for circuit identification
- Fuse blocks with covers include 20 write-on circuit labels
- Tin-plated copper buses and fuse clips
- Accepts ring or snap fork type terminals
- Accepts ATO® and ATC® fast acting blade fuses
- Fuses sold separately ***(See Page 311)***

ORDER NO.	Mfr. No.	Description

Pro Installer Heavy Duty Busbars provide a robust means to connect (bus) together the multitude large cables found in modern electrical installations. These offer unrivaled flexibility to meet the requirements of any installation, saving significant cost and space.

Specifications:

- 4 Stud-500A busbar: 8 mm (5/16") stainless steel studs
- 3, 5, and 8 stud-650A busbars: 10 mm (3/8") stainless steel studs
- Studs treated with anti-seize lubricant
- 50 VDC
- Tinned CDA102 Copper conductors
- Stainless steel studs, washers, nuts for longevity in the marine environment
- Generous stud lengths, metric threads

Battery Switch Set

Z-Bar Link Bar Set

2-Way to 6-Way Joiners

PRO INSTALLER LINK BARS

Pro Installer link bars provide the fastest and most economical way of connecting the Pro Installer line of products to save space and allow for the most compact installations. The common interconnection height of Pro Installer components allow link bars to quickly and easily convert a group of different products into a functional cluster. Pro installer link bars are made from high purity copper and are tin plated for optimum marine electrical performance. Links can be doubled to accomodate high loads.

ORDER NO.	Mfr. No.	Description	Amps
779-10002	779-LB-EES	End to End Set	650A per link

Z BUSBAR

Marinco BEP Products have created a completely new concept for small cable termination with the Z-Bar range. These busbars maximize power density by utilizing high and low level bars to optimize cable runs, saving even more installation space.

Specifications:

- 10 Way version
- 4x 6 mm (1/4") studs with anti-seize lubricant
- 4mm (5/32") terminals with captive lock washers
- 200A maximum per bar (2x 200A)
- 50 VDC
- Tinned CDA102 Copper conductors
- Stainless steel studs, washers & nuts for longevity in the marine environment
- Metric threads

ORDER NO.	Mfr. No.	Description	Footprint
777-10200	777-Z10W-200	10 Way	1 x

INSULATED STUDS

Pro Installer Insulated studs are available in single and twin stud versions, featuring 8 mm (5/16") and 10 mm (3/8") variants.
A double stud version with 10mm and 8mm studs is also included for extending outboard motor cables. The Power Tapping Plate single stud models provide convenient termination points for additional small cables. Pro Installer family features are replicated with these insulated studs, generous stud length, modular footprint, insulating covers with label recess, common interconnection height.

Specifications:

- Power tapping plate: 4x 4 mm (5/16") terminals
- Maximum current through power tapping plate: 50A per terminal (4x 50A maximum)
- Note: no power passes through the stud so no amp rating is given
- 50 VDC
- High temperature, fibre reinforced plastic base provides strength and chemical resistance
- Clear polycarbonate cover with snap-out extra cable access
- Stainless steel studs, screws & nuts for longevity in the marine environment
- Insert moulded studs with metric threads
- Double studs feature 'snap out' insulating partition, to allow linking of studs

ANL FUSE HOLDERS

These ANL fuseholders offer unparalleled circuit protection choice for both the installer and end-user. The innovative Through-Panel fuseholder (778-ANLTP) provides superior access for fuse inspection and replacement. Small electrical loads are catered to with the compact 778-ANL unit while additional cable security and highest capacity is provided by the 778-ANL-2S, featuring additional studs for separate clamping of cables.

Specifications:

- Cable connection studs: Shared 8mm (5/16") on 778-ANL.
- 10mm (3/8") studs on 778-ANL-TP and 778-ANL-2S
- Fuse mounting studs: 8mm (5/16")
- Double washers allow any ANL fuse brand to be fitted
- Fuse type: ANL or ANN (fast blow)
- Swinging fuse style allows changing fuse without removal of fastening nuts
- Amperage: determined by fuse sizing, 778-ANL: 35-300A, 778-ANL2S: 35-750A, 778-ANLTP, 35-500A
- 50 VDC (or determined by fuse fitted)
- Tinned CDA102 copper conductors 778-ANL-2S
- Tinned CDA260 high conductivity brass conductors 778-ANLTP

For ANL Fuses *(See Page 313)*

CLASS-T FUSE HOLDERS

Class-T fusing provides the ultimate protection for high power circuits, and where extremely fast fuse blow characteristics are required. Modern battery technologies such as Mastervolt Lithium Ion or AGM are capable of very high short circuit currents which may be beyond the interrupt rating of standard circuit breakers and other types of fuse. Two sizes of Pro Installer Class-T Fuseholder are available which accommodate fuses from 225-400 Amps, and 450-600 Amps respectively.

Specifications:

- Cable connection studs: 10 mm (3/8") studs
- Fuse mounting studs: 10 mm (3/8") 225-400A holder, 12 mm (1/2") 450-600A holder
- Fuse type: Class-T (JLLN / TJN / A3T)
- Maximum amperage: Determined by fuse sizing, either 400A or 600A
- 50 VDC
- High temperature, fibre reinforced plastic base provides strength and chemical resistance
- Clear polycarbonate cover
- Tinned CDA102 Copper conductors
- Stainless steel studs, washers and nuts for longevity in the marine environment
- Metric threads

For Class-T Fuses *(See Page 313)*

SPECIAL ORDER ITEM

MINI CLAMP MULTIMETER - 600 VOLTS

Compact and feature-rich AC/DC Multimeter eases diagnosis of marine electrical problems
Regulatory CE Marked, Cat III, 600 Volts

Specifications:
- Clamp allows measurement of AC and DC current in wires without disturbing the circuits or contacting live terminals
- Compact size allows for comfortable one hand operation, portability, and access to confined areas
- Auto range simplifies operation by automatically selecting the range that best fits the data
- Additional functions include: Data Hold, Overload Display, and Auto Power-Off
- True RMS AC measurement is accurate for normal sine wave and modified sine wave inverter output
- Includes test leads and carrying case

ORDER NO. 738-81100 Mfr. No. 8110

BLUE SEA SYSTEMS

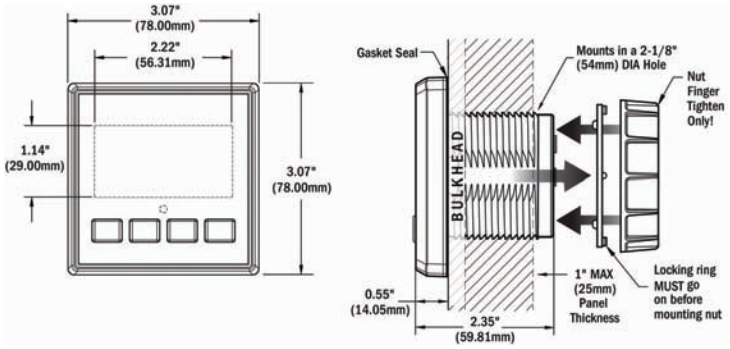
DC M2 OLED DIGITAL MONITORS

The M2 OLED Digital Monitor measures electrical system parameters with adjustable alarms and an auto-dimming display in a compact enclosure. The gasket creates a waterproof seal on the unit face. The M2 Monitors include a MOSFET External Circuit Relay (ECR) which can be used to control external circuits based on any value measured by the M2. The M2 External Circuit Relay is separate from and independent of the Internal Alarm Function.

- Auto-dimming, bright LED display is easy to read
- Easy to adjust
- 92dB alarm on all models
- Isolated MOSFET relay



Specifications:

Display Size	55mm x 28mm
Power Supply Voltage	7-70V DC
Max. Power Consumption	1.00W*
Min. Power Consumption	0.3W*

Regulatory:

Unit face is IP67 - Protected against immersion up to 1 metre for 30 minutes. Surface Mount Gasket creates a waterproof seal on unit face. CE marked for E60945 electromagnetic interference

738-18300

M2 DC SoC MONITOR

Accurately measure and monitor the state-of-charge of your batteries. Supports programmable shunt ratios.

738-18380

M2 AC MULTIMETER

Monitors AC Amps, Volts, Hzs on large, bright display. Supports programmable current transformer ratios. Accurately measure and monitor AC amperage, voltage and Hz. (measures 2 voltages and 2 circuits)

M2 OLED DIGITAL METERS

The M2 Organic LED Digital Monitor measures essential electrical system parameters with adjustable alarms and an auto-dimming display. The M2 Monitors include a MOSFET External Circuit Relay (ECR) which can be used to control external circuits based on any value measured by the M2.

- Auto-dimming, bright Organic LED display is easy to read
- 80dB alarm on all models
- Isolated 500mA MOSFET relay
- Includes external DC Shunt or AC Current Transformer when required

1839 Tank Level Meter Features

- Intuitive tank level monitoring
- Monitor up to 4 tanks
- Auto calibration for unique tank shapes
- Compatible with common sending units

ORDER NO.	Mfr. No.	Description
738-18390	1839	Tank Level Meter

1841 External Temperature Meter Features

- Versatile external temperature monitoring
- Monitor up to 4 temperature sensors
- Temperatures range from -40°C to 125°C (-40°F to 250°F)
- Measures in Fahrenheit or Celsius
- ABYC compliant for engine exhaust
- Waterproof temperature sensors included (4x 1821 included)

ORDER NO.	Mfr. No.	Description
738-18410	1841	External Temp Meter

1842 Bilge Meter Features

- Monitor up to 4 bilges
- Alarm/Relay Activation: Run Time/hr cycles/24 hr Average Cycles
- Senders: Float switch or pumps with bilge active outputs
  Not compatible with "fully auomatic bilge pumps"
- Cycle counter

ORDER NO.	Mfr. No.	Description
738-18420	1842	Bilge Meter (Bilge float switch not included)

SPECIFICATIONS

Display Size 55mm x 28mm
Power Supply Voltage 7–70V DC*
Range (Power Consumption) 0.3W–1.0W
* Variable with voltage, display intensity, and sleep mode

Regulatory:

IP66 - Protected against powerful water jets

SUBMERSIBLE TEMPERATURE SENSOR

- General temperature sensor designed to work for most applications
- Easy double sided tape installation
- Fully submersible (IP68 rated)
- Wires connect in either order
- Works with all Blue Sea Systems devices that require a temperature sensor
- Temperature Range: -40˚F to 175˚F (-40˚C to 80˚C)
- Resistance: 10,000 Ohms@25˚C
- Wire Length: 12"
- Wire Size: 16 AWG

ORDER NO.	Mfr. No.
738-18200	1820

HIGH TEMPERATURE SENSOR

- Designed for sensing raw water exhaust without drilling holes. Strap sensor to the outside of the pipe for accurate readings of raw water exhaust temperature/
- Multiple mounting options
- Non-submersible IP65 – protected against jets of water
- Wires connect in either order
- Works with all Blue Sea Systems devices that require a temperature sensor
- Temperature Range: -40˚F to 300˚F (-40˚C to 150˚C)
- Wire Length: 18"
- Wire Size: 16 AWG

ORDER NO.	Mfr. No.
738-18210	1821

M2 VESSEL SYSTEMS MONITOR (M2 VSM)

Performs comprehensive monitoring of four critical systems in one compact organic LED digital monitor.

DC System Monitoring (up to two batteries)
One input monitors the DC voltage, state-of-charge, current for one battery bank and another input monitors the voltage of an additional battery bank.
Alarms include high and low voltage, high current, and low battery.

AC System Monitoring
The VSM monitors a single AC voltage, current, and frequency. Alarms include high and low voltage, high current, and high and low frequency.

Bilge and Tank Monitoring
The M2 VSM has two inputs that can be configured as a bilge or tank monitor. When configured as a bilge input, monitoring functions include pump active, cycle count in the last 24-hours, average cycles in a typical 24-hour period, and total cycles. High alarms can be set for both the minutes of run time in the last hour as well as the number of cycle counts in the last 24-hours. When configured as a tank input, tank status can be represented in both capacity (gallons or liters) or as a percentage of capacity. Custom tank shapes can be auto-calibrated or programmed. Both high and low level alarms can be set for all tanks.

DC Specifications

Nominal Voltage	12V, 24V, 48V
Operating Voltage	7-70V
Min. Current Draw	18.8mA @ 12V, display off 35mA @ 24V, display off
Voltage Accuracy	+/- 1%
Current Range	-500A to 500A
Current Accurancy. -	+/- 1%

AC Specifications -

Nominal Voltage	120V @ 60Hz
Operating Voltage	40-300V
Voltage Accuracy (RMS)	+/- 1%
Current Range	0-150A

MINI OLED METERS

Monitors essential electrical system parameters on a bright, waterproof, daylight readable OLED screen

- Compact size enables mounting in any convenient location
- Reverse polarity protected
- Mounts in a common 1-1/8 in hole

1733 Features
- Convenient voltage monitoring
- Monitors 8V to 36V DC

1732 Features
- Convenient amperage monitoring
- Monitors - 100A to 100A DC
- Positive or negative side wiring

1741 Features
- Convenient temperature monitoring
- Temperature range from -40˚C to 125˚C (-40˚F to 250˚F)
- Measures in Fahrenheit or Celsius

SPECIFICATIONS
Cutout Dimensions in (mm) 1-1/8" (29mm) diameter

TRAC CAMCO

DIGITAL CIRCUIT BREAKERS

NEW!

Eliminates the inaccuracy of thermal breakers.

- User selectable current (amperage) limit
- User selectable Manual-RESET, Auto-RESET, or OFF modes
- Includes surge compensation to monitor amperage & allow short duration current surges common with electric motors
- Illuminated with high-brightness LEDs for daylight viewing
- Circuit interrupt LED will flash intermittently when the circuit is broken
- Completely sealed & waterproof

WATER-RESISTANT CIRCUIT BREAKER SWITCH PANELS

Designed for exposed mounting applications

- Illuminated 15A circuit breakers provide switching, "ON" indication and overcurrent protection
- Industry-standard sizes and mounting allow these panels to be easily retrofitted in an existing application
- Polycarbonate/ABS panel surface is UV-stabilzed, flame retardant, and will not corrode
- Silicon breaker boots and gasket protects against water ingress
- Low profile makes it easy to install in tight spaces
- Fast-on circuit breaker connectors make it quick to wire
- Two-wire connection for powering all panels is simple and requires #10 ring terminals. Terminals screw to bus bars for secure connections
- #738-43210 includes a 12/24V 2.1A DC dual USB charger
- Set of 15 square format circuit labels are included, and are easy to replace.

738-43200

738-43210

738-43220

- Nominal Voltage: 12V DC
- Amperage Max. Operating: 45A
- Terminal Type: 1/4" Male quick connect
- Hardware: Stainless steel #6 x 5/8" mounting screws
- Ring Terminal Size: M5 (#10)

Regulatory: Panel front is IP66 when mounted with gasket in place – protected against powerful water jets

ORDER NO.	Mfr. No.	Colour	Description	Width in (mm)	Height in (mm)	Depth in (mm)

CONTURA SWITCH WATER-RESISTANT BILGE PANELS

Consolidated control & circuit protection for up to four bilge pumps

- Designed for 12 or 24V DC systems
- Watertight mounting gasket
- Pre-wired for easy installation
- ON indicating LEDs embedded in all switches
- (ON)-OFF-ON Contura switches and 15A AGC fuses
- Expanded offering

NOTE: Labels are not backlit

738-82630

738-86640

738-82650

738-82660

- Voltage: Max. Operating: 24V DC
- Amperage Operating Current: 18 Milliamps per illuminated LED
- Switch Rating: 20A @ 12V DC, 15A @ 24V DC
- Circuit Breaker Rating 15A
- Fuse Holder Rating: 20A Max.(15A fuses included)
- Panel Cumulative Rating: 45A

Regulatory: CE marked. Panel front is IP66 when mounted with gasket in place – protected against powerful water jets (see inside back cover)

CONTURA SWITCH WATER-RESISTANT PANELS

Designed for open-cockpit & flybridge applications using switches to complement existing controls commonly used on many boats

- Designed for 12 or 24V DC systems
- Watertight mounting gasket
- ON-OFF Contura Switches
- ON indicating LEDs embedded in all switches
- Includes small format label set #8217-BSS (grey) or #8214-BSS (black)
- 8421-BSS & 8521-BSS include a 12/24V DC 4.8A USB charger
- Ignition protected - safe for installation aboard gasoline powered boats
- Expanded offering

NOTE: Labels are not backlit

Regulatory

Panel front is IP66 when mounted with gasket in place – protected against powerful water jets (see inside back cover)
Circuit breaker models only – meet UL 1500 & ISO 8846 external ignition protection requirements

WEATHERDECK™ WATERPROOF PANELS

Designed for open-cockpit & flybridge applications

- **Fuse Model:** Bicoloured LEDs illuminate circuit labels to quickly identify OFF (Red), ON (Green), or Blown (No colour) circuits
- **Circuit Breaker Model:** Green LEDs illuminate circuit labels
- **Fuse & Circuit Breaker Models:**
  - Backlighting is compatible with Deckhand Dimmers
  - Independent label backlighting allows switching & dimming
- **Switch Only Models:** No circuit protection or illuminated circuit labels
  - Integrated switch guards reduce the risk of accidental switching
  - Panels can be mounted in four different orientations
  - Panel front rated IP67 when properly mounted with watertight mounting gasket
  - UV stabilized weather-resistant faceplate snaps on & off providing access to components & concealing mounting screws
  - Square format label set #4215 included

ELECTRICAL PANELS

MARINCO
BEP PRODUCTS

BEP Marine is internationally recognized as a leading manufacturer of high quality marine electrical products. A major supplier to boat builders around the world, BEP Marine products are designed and manufactured to the highest standards. As an ISO 9000 2001 certified manufacturer, BEP guarantees consistent quality on every product produced. BEP Marine's waterproof and splash proof switch panels are constructed of high impact, UV stabilized plastic. All switches are circuit protected via 15A rated ATC fuses. Each panel comes with labels and mounting screws.

SPRAY PROOF SWITCH PANELS - WATERPROOF SERIES

- Compact panel size
- Sprayproof inline fuse holders with fuses included
- Waterproof power receptacles
- Switches are rated at 20A
- 3.75"H x 4.25"W x 3"D
- Panel supplied with label LBL-WP

Contemporary styling, available in 4 and 6 position panel and a five position with 12V, 16A rated waterproof power socket.

BLUE SEA SYSTEMS

CIRCUIT BREAKER ENCLOSURE

Surface mount option for mounting single and double pole circuit breakers

Labels, circuit breaker, and LED's are sold separately

FEATURES:

- Wire glands included for secure installation of circuit breakers
- Accepts A-Series toggle *(See Page 341)* and A and C-Series Flat Rocker circuit breakers, LED's *(See Page 338)* and Square format labels for custom configurations.

Specifications:

4.92"H x 3.95"W x 4.07"D (124.97 mm x 100.33mm x 103.038mm)

ORDER NO.	Mfr. No.

AC SMS SURFACE MOUNT SYSTEM

Panel enclosure for ELCI Main circuit breakers and other large frame devices. Meets ABYC E-11 when used with an ELCI Main circuit breaker and mounted within 10 feet of the shore power inlet.

- Models available with ELCI Main circuit breakers for 120V 30A
- Blank apertures for custom breaker loading
- Glass filled polycarbonate base
- Clear cover allows easy view of circuit breaker status
- Overlapping cover for strength and increased gasket protection
- Oversized, formed in place seamless PUR gasket
- Easily removed stainless steel hinge pin for unobstructed installation
- Stainless steel latch secures cover without penetrating the enclosure
- Blank circuit positions accommodate Carling Technologies™ A- and C- Series Flat Rocker and ELCI Main circuit breakers
- Stainless steel mounting hardware included
- Includes waterproof glands
- LED lights for back lighting and ON indication

Specifications:

Enclosure Size	6.0" x 6.0" x 4.0" 152 mm x 152 mm x 102 mm
Exterior Overall Dimensions	7.6" x 7.4" x 4.7" 192 mm x 188 mm x 120 mm
Temperature Range	-40˚C to 85˚C
Cover Screws and Hardware	10-32 stainless steel
Mounting Hardware	1/4", #12, (6 mm)

Regulatory

IP66 - Protected against powerful water jets when cover is latched. Flammability rating-Per UL 508
Toxicity - Non-toxic, halogen free, RoHS compliant
UL Listed and NEMA 4X rated,
NEMA Type 4, 4X, 6, 6P, 12, and 13

DUAL USB SWITCH MOUNT CHARGERS, 4.8A

Intelligent device recognition allows rapid charging of phones, tablets, or other mobile devices

- Charges at the speed required by specific devices
- Internal filtering for reduced electronic interference
- Over temperature protection
- Short circuit protection
- Protective dust cap keeps debris and moisture out
- Conformal coated circuit board for the harsh marine environment
- 1039 mounts in an existing contura switch aperature

Cut Out Dimensions
1039 - 1.45" x 0.83" (36.83 mm x 21.08 mm)
1045 - 1-1/8" Dia. (29 mm)

Regulatory:

DUAL USB SOCKET MOUNT CHARGERS, 2.1A

Charge two mobile devices on the go

- Install in existing 12V DC socket hole providing access for charging mobile devices
- Compatible with popular mobile devices
- Conformal coated circuit board for the harsh marine environment
- Protective dust cap keeps debris and moisture out
- Thermal overload protection
- Short circuit protection
- Cut Out Dimensions 1-1/8" Dia. (29 mm)

DUAL USB CHARGER

- Input 12-24V
- Dual USB ports with 4.8 amp (total output)
- Cover prevents dust & water from damaging receptacles

ORDER NO.	Mfr. No.
055-00131	12VDUSB48

NEW!

CONTURA DUAL USB CHARGER

- Input 12-24V
- Dual USB ports with 4.8 amp (total output)
- Blue LED shows power is available
- Installs in standard Contura switch footprint
- Cover prevents dust & water from damaging receptacles

ORDER NO.	Mfr. No.
055-00132	12VCDUSB48

NEW!

CONTURA DUAL USB CHARGER WITH VOLT/AMP METER

- Input 12-24V
- Dual USB ports with 4.8 amp (total output)
- 3-Digit Blue LED volt/amp meter
- Installs in standard Contura switch footprint
- Cover prevents dust & water from damaging receptacles

ORDER NO.	Mfr. No.
055-00133	12VCDUSB48A

NEW!

BLUE SEA SYSTEMS

WATER-RESISTANT USB ACCESSORY PANELS

Easy to install accessory panels include a 15A circuit breaker switch and pre-wired harness. Panels offer customizable 12V charging and monitoring options.

- Pre-wired harness included in all panels for easy installation
- Silicon breaker boots and gasket protects against water ingress
- Illuminated Carling Technologies 15A circuit breaker switch allows the ability to shut off panel preventing parasitic draw
- Polycarbonate/ABS panel face is UV-stabilized, flame retardant, and will not corrode
- 12V DC only

Regulatory:
CE Certfied
IP66 - Protected against powerful water jets

BLUE SEA SYSTEMS

12 VOLT SOCKET-PLUG SYSTEM

Corrosion resistant materials to ensure solid contact and low voltage drop.

Features:

- Moisture proof sealing ring around the shaft to keep out spray and make it sit firmly in the outlet
- "ON" indicating LED
- Strain relief
- Built-in 10 Amp fuse
- Designed to withstand the rigors of wet environments and constant vibration

738-10100

738-10140

738-10110

738-1011200

738-10120

- Large contact surfaces for good electrical connection
- Twist lock system—plug locks securely into socket
- Internal strain relief and cord seal
- Nickel plated copper alloy used for all current carrying components
- Front panel, rear panel, or surface mount

ORDER NO.	Mfr. No.	Description
738-10100	1010	12 Volt Plug
738-10110	1011	12 Volt Black Socket
738-1011200	1011200	12 Volt White Socket

FLOYD BELL TURBO SERIES ALARM

Audibly alerts operator

Features:

- Adjustable volume by rotating bezel
- Tamper resistant front mounting case
- Threaded attachment ring
- Fits any 1" round aperture

ORDER NO.	Mfr. No.
738-10700	1070

Specifications:

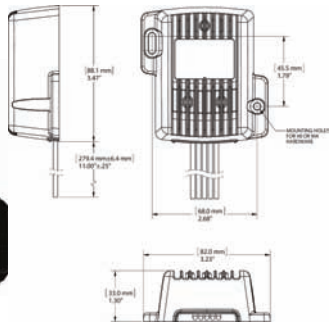
Voltage Nominal	24V DC
Operating Voltage	5-30V DC
Amperage Max. Operating	15A DC (socket)
Amperage Max. Operating	10A DC (plug)

DECKHAND DIMMER

Digitally controls dimming of non-regulated LED, incandescent, and halogen lights

Features:

- Illuminated exit with adjustable time delay
- Supports multiple switch locations
- Memory for last dimmer setting
- Bulb saver prevents excessive bulb aging while boat's batteries are being charged
- Provides continuous voltage control from 0 to 100% of input voltage
- Offset mounting tabs allow dimmers to be mounted close together
- Retail package includes momentary (ON)-OFF-(ON) switch #8216



Specifications:

Maximum Parasitic Current	<2mA
Temperature Rating	-40˚C to 85˚C

Regulatory:

- CE marked

Meets ISO 8846 and SAE J1171 external ignition protection requirements

ORDER NO.	Mfr. No.	Amperage Max. Output	Nominal Voltage	Operating Range
738-75060	7506	6 Amps	12V DC	9V to 16V

SPECIAL ORDER ITEM

360 PANEL SYSTEM ACCESSORIES

360 Panel System accessories include innovative modular back covers for AC 360 Panels. ABYC standards mandate isolation of AC and DC components on combination panels. Stackable, screw-down covers protect AC components from coming into contact with tools, personnel, & DC wiring.

360 PANELS - WITH AC DUAL OUTLETS

Provides a 360 Panel System platform for mounting equipment, switching, and monitoring functions.

- Suitable for mounting accessories and for pad printing

Dimensions: 4.88"W (123.83 mm)
4.75"H (120.65 mm)

SOCKET & DUAL USB CHARGER PANELS

Integrates DC Sockets & USB Charger with 360 Panel System

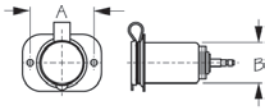
Dimensions:
4.88"W (123.83 mm)
4.75"H (120.65 mm)
1.50"D (38.10 mm)

ORDER NO.	Mfr. No.	Description
738-14780	1478	12V DC Socket & 12V DC Dual USB Charger

SEA-DOG LINE QUALITY MARINE GEAR

POWER SOCKET 12-VOLT

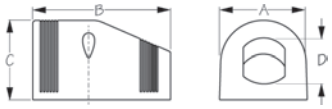
Stamped 304 Stainless Mounting Plate



ORDER NO.	Mfr. No.	Socket Material	A	B	Fastener
424-26013	426013-1	Chrome Steel Socket & Molded Cap	1-11/16”	1-1/8”	#8 RH
424-26053	426053-1	Stainless Steel Socket & Molded Cap	1-11/16”	1-1/8”	#8 RH

Ideal for additional power outlets

POWER SOCKET SHELL - Injection Molded ABS

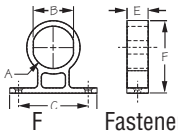


ORDER NO.	Mfr. No.	A	B	C	D
424-26100	426100-1	2-3/16"	3-7/16"	1-15/16"	1-1/8"

Power Socket Shell fits Sea-Dog Line power sockets 426115, 426120, & 426502. Uses #6 pan head screws.

ROUND POWER SOCKET/METER MOUNTING BRACKET

Injection Molded Nylon



ORDER NO.	Mfr. No.	A	B	C	D	E	F	Fastener
424-26105	426105-1	1-1/8"	1-1/16"	1-15/16"	2-3/8"	9/16"	1-15/16"	#8 FH

Designed for the external mounting of round power sockets and gauges 1-1/8" in diameter. Fits all Sea-Dog® round power sockets, gauges, and meters. Installs with two #8 FH fasteners (not included).

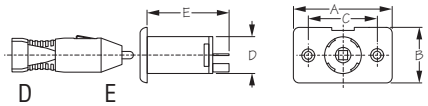
POWER SOCKET REAR BOOT - PVC

ORDER NO.	Mfr. No.	A	B	C
424-26106	426106-1	1-7/8"	1-1/8"	1/4"

Fits all power sockets and power socket meters. Protects wire connections and provides a finished appearance.

POWER SOCKET 12-VOLT

Stamped Brass/Injection Molded Nylon & ABS

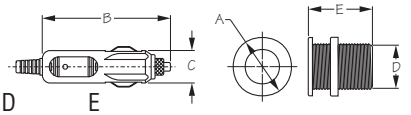


ORDER NO.	Mfr. No.	Description	A	B	C	D	E
424-26112	426112-1	Complete	2-1/4”	1-1/4”	1-1/2”	1-1/16”	1-7/8”
424-26113	426113-1	Socket & Cap	2-1/4”	1-1/4”	1-1/2”	1-1/16”	1-7/8”

Maximum Rating: 12 volts, 16 amps.

DELUXE POWER SOCKET 12-VOLT

Stamped Brass/Injection Molded Nylon & ABS

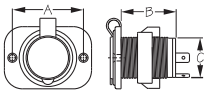


ORDER NO.	Mfr. No.	Description	A	B	C	D	E
424-26115	426115-1	Socket & Cap	1-7/16”	n/a	n/a	1-1/16”	1-9/16”
424-26116	426116-1	Complete	1-7/16”	3-3/16”	13/16”	1-7/8”	1-9/16”

Add power easily almost anywhere. Drill a 1-1/8” hole, insert the socket body and tighten down the locking nut. Connect the wires and you are done. Plug includes LED light to indicate when powered.
12 volts, 16 amps. Includes a 3 amp fuse.

DELUXE POWER SOCKET - 12 VOLT

Stamped Brass/Injection Molded Nylon & ABS



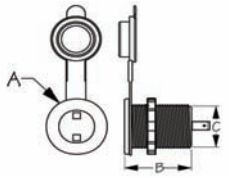
ORDER NO.	Mfr. No.	A	B	C	Amps
424-26120	426120-1	1-15/16"	1-1/2"	1-1/16"	16

LED POWER SOCKET - 12 - 24 VOLT

Stamped Brass/Injection Molded Nylon & ABS

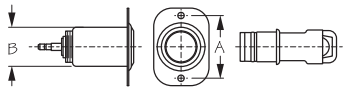
ORDER NO.	Mfr. No.	A	B	C	LEDs	LED Colour
424-26127	426127-1	1-7/16"	1-9/16"	1-1/16"	2	Blue

Add power easily almost anywhere. Drill a 1-1/8" hole, insert the socket body and tighten down the nut, connect the wires and you're done. 2 blue LEDs light up the interior. Input 12V-24V. 16A. IP65 rating.



CIGARETTE LIGHTER/CHART LIGHT

Stamped 304 Stainless Steel

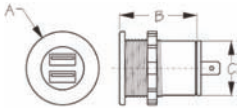


ORDER NO.	Mfr. No.	Socket Material	A	B	Fastener
424-26352	426352-1	Stainless Steel Socket & Lighter (complete)	1-11/16"	1-1/8"	#8 RH

Combination Chart Light and Cigarette Lighter with the flick of a switch. Comes with a stainless 304 mounting plate.

DUAL USB POWER SOCKET - ALUMINUM

Aluminum/Injection Molded Nylon with Terminal Spade Contacts

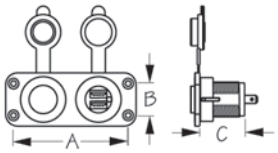


ORDER NO.	Mfr. No.	A	B	C	Volts	Total Output	Finish
424-26504	426504-1	1-7/16"	1-1/2"	1-1/16"	9-32	5V/4.8A	Red Anodized

Charges two devices simutaneously. The total output 4.8A load is split 2.4A per side as needed. Enough power to charge phones, pads, & tablets quickly & efficiently. Protective dust cap extends the life of the charger. Installation is as easy as drilling a 1-1/8" hole, inserting the socket body, tightening the locking nut, and connecting the wires. Machined round aluminum with no D flats. Also fits power socket shell (426100 & mounting bracket (426105). IP65 rating.

DOUBLE USB & POWER SOCKET PANEL

Injection Molded Nylon

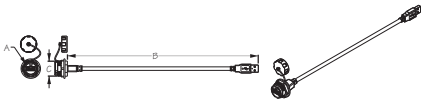


ORDER NO.	Mfr. No.	A	B	C
424-26505	426505-1	3-1/2"	1"	1-5/8"

Double USB Input 12V-24V, Output DC 5V/2.1A. The total output 4.8A load is split 2.4A per side as needed - enough to charge iPhones, iPads & almost all other devices. Power Socket rated at 12 volts, 16 amps. Includes screws & connectors.

USB MALE TO FEMALE EXTENSION CORD - 9 FT.

Stamped Stainless Steel/Injection Molded Nylon



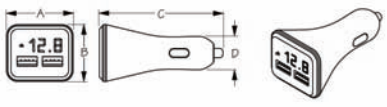
• Waterproof IP67 rating. RoHS compliant.

ORDER NO.	Mfr. No.	A	B	C	Volts	Total Output
424-26509	426509-1	7/8"	108"	1"	12-24	5V/4.2A

The nine foot 2.4A Male to Female USB extension cord extends your USB connection for use charging and accessing printers, keyboards, mice, cameras, and other USB computer peripherals. Perfect for applications where a USB device with a fixed output needs to be connected to the USB port of a computer. Attached cap protects the USB port from water and debris when not in use. Not illuminated.

DOUBLE USB POWER PLUG W/ VOLTAGE METER

Stamped Stainless/Injection Molded Nylon



ORDER NO.	Mfr. No.	A	B	C	D
424-26513	426513-1	1-1/2"	1-1/4"	2-13/16"	13/16"

Charges two devices simultaneously, providing DC 5V/2.4A per side, 4.8A total, which is more than enough power to charge two phones, pads, and tablets quickly and efficiently. LED lighted amp meter window monitors voltage. For use on a boat or a car or RV, this portable version fits all standard 12V receptacles, including all Sea-Dog power sockets.

USB 3.0 & USB-C POWER PLUG WITH VOLTMETER

NEW!

Aluminum/Injection Molded Nylon

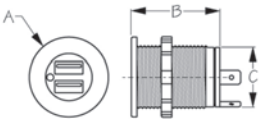
ORDER NO.	Mfr. No.	A	B	C	Volts	Output
424-26514	426514-1	1-1/4"	2-1/2"	13/16"	12-24	5V/6A

Charges two devices simultaneously while the LED screen displays voltage status. Can be used on a boat, car, or RV. The total output 6A load is split 3A per side as needed. USB 3.0 features Quick Charging (QC) for supported devices, giving enough power to charge phones, pads, and tablets quickly and efficiently. USB-C features Power Delivery (PD) for faster and more flexible charging. This portable version fits all Sea-Dog® Power Sockets and any standard 12V receptacle. Constructed of aluminum and injection molded nylon. Blue LED display. FCC, CE, RoHS compliant.

DOUBLE USB POWER SOCKET

Injection Molded Nylon

ORDER NO.	Mfr. No.	A	B	C
424-26515	426515-1	1-7/16"	1-1/2"	1-1/16"

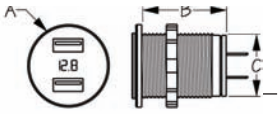


Input 12V – 24V, Output DC 5V/3.1A. Total output 4.8A load is split 2.4A per side as needed – enough to charge iPhones, iPads and almost all other devices. Fits Sea-Dog Line Power Socket Shell 426100.

DOUBLE USB SOCKET/VOLTMETER W/HIDDEN DISPLAY

Injection Molded Nylon

ORDER NO.	Mfr. No.	A	B	C	Volts	Output
424-26517	426517-1	1-7/16"	1-1/2"	1-1/16"	12-24	5V/4.2A



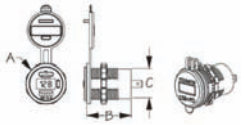
Allows for two devices to be charged simultaneously while also displaying the batteries output. The total output 4.2A load is split 2.1A per side as needed. Enough amperage to charge iPhones, iPads, and almost all other devices. Also fits Sea-Dog Line power socket shell #426100. ORDER NO. 424-26100.Red LED display. IP65 rating.

USB 3.0 & USB-C POWER SOCKET WITH VOLTMETER

NEW!

Injection Molded Nylon

ORDER NO.	Mfr. No.	A	B	C	Volts	Output
424-26518	426518-1	1-7/16"	1-1/2"	1-1/16	8-32	5V/6A



Charges two devices simultaneously while the LED screen displays voltage status. The total output 6A load is split 3A per side as needed. USB 3.0 features Quick Charging (QC) for supported devices, giving enough power to charge phones, pads, and tablets quickly and efficiently. USB-C features Power Delivery (PD) for faster and more flexible charging. Protective dust cap extends the life of the charger. Protective dust cap extends the life of the charger. LED voltmeter reads voltage up to 14.6 volts. Includes On/Off button to conserve battery power when not needed. Constructed of injection molded nylon. Installation is as easy as drilling a 1-1/8" hole, inserting the socket body, tightening the locking nut, and connecting the wires. Also fits Sea-Dog® Power Socket Shell (426100). Blue LED display. IP65 rating. RoHS compliant.

RAINBOW VOLTMETER WITH USB 3.0 & USB-C POWER SOCKET

NEW!

Injection Molded Nylon

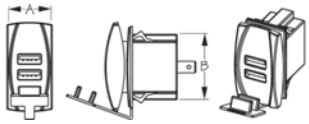
ORDER NO.	Mfr. No.	A	B	C	Volts	Output
424-26519	426519-1	1-7/16"	1-1/2"	1-1/16	8-32	5V/6A

Charges two devices simultaneously while the rainbow dial displays voltage status. The total output 6A load is split 3A per side as needed. USB 3.0 features Quick Charging (QC) for supported devices, giving enough power to charge phones, pads, and tablets quickly and efficiently. USB-C features Power Delivery (PD) for faster and more flexible charging. Protective dust cap extends the life of the charger. The rainbow display gives the user quick, visual, color-coded voltage information. Red/orange means the voltage is too low. Green means voltage is normal. Reads voltage up to 14.6 volts. Includes On/Off button to conserve battery power when not needed. Installation is as easy as drilling a 1-1/8" hole, inserting the socket body, tightening the locking nut, & connecting the wires. Also fits Sea-Dog® Power Socket Shell (426100). Output DC: 5V/6A. Input: 8-32 VDC. IP65 rating. RoHS compliant.

DOUBLE USB ROCKER SWITCH POWER SOCKET

Injection Molded Nylon

ORDER NO.	Mfr. No.	A	B	Volts	Output
424-26520	426520-1	13/16"	1-7/16"	12-24	5V/4.8A

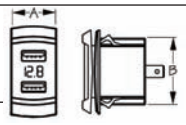


Fits into any 13/16" X 1-7/16" rocker switch hole, Input 12V-24V, Output DC 5V/3.1A. Total output is 3.1A with the load being split between the two sides as needed – enough to charge iPhones, iPads and almost all other devices.

DOUBLE USB ROCKER SWITCH STYLE/VOLTMETER

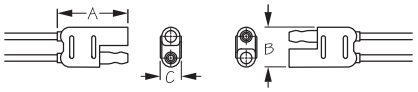
Injection Molded Nylon

ORDER NO.	Mfr. No.	A	B	Volts	Output
424-26527	426527-1	13/16"	1-7/16"	12-24	5V/4.8A



Fits into any standard 13/16" x 1-7/16" hole. It allows for two devices to be charged simultaneously while also displaying the batteries output. The total output 4.8A Load is split 2.4A per side as needed. Enough amperage to charge iPhones, iPads, and almost all other devices. Input 12V-24V. Output DC 5V/4.8A. Red LED display. IP65 rating.

POLARIZED ELECTRICAL CONNECTOR 2-WIRE - PLUG & SOCKET



Injection Molded PVC

ORDER NO.	Mfr. No.	A	B	C	Volts	Amps	Wire Gauge
424-26880	426880-1	1-1/16"	5/8"	5/16"	12-24	20	16AWM/12"

Connector is an SAE type, two-prong plug and socket connector set. Polarized to assure the proper mating of circuits, reducing the chance of accidental reverse polarity. Colour coded 16-gauge 12" lead wire with bullet-type contact pins. Weather resistant connectors are vibration and strain resistant. Use of dielectric grease recommended to further protect circuit from salt spray, debris, and corrosion.

SAE POWER CABLE

Injection Molded PVC

ORDER NO.	Mfr. No.	A Length	Volts	Max Amps	Wire Gauge
424-26901	426901-1	1 ft.	12-24	20A @ 12V	14AWM
424-26903	426903-1	3 ft.	12-24	20A @ 12V	14AWM

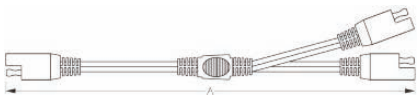
424-26912	426912-1	12 ft.	12-24	20A @ 12V	14AWM

Polarized electrical connector is an SAE type, two prong plug and socket connector set.

NEW!

SAE POWER CABLE Y-SPLITTER



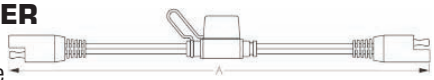
Injection Molded PVC

ORDER NO.	Mfr. No.	A Length	Volts	Max Amps	Wire Gauge
424-26920	426920-1	1 ft.	12-24	20A @ 12V	14AWM

Polarized electrical connector is an SAE type, two prong plug and socket connector set.

NEW!

SAE POWER CABLE ATO/ATC INLINE FUSE HOLDER



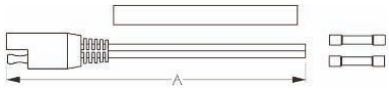
Injection Molded PVC

ORDER NO.	Mfr. No.	A Length	Volts	Max Amps	Wire Gauge
424-26925	426925-1	1 ft.	12-24	20A @ 12V	14AWM

Polarized electrical connector is an SAE type, two prong plug and socket connector set. Features an ATO/ATC inline fuse holder.

NEW!

SAE POWER CABLE POWER PLUG KIT



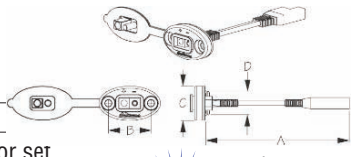
Injection Molded PVC

ORDER NO.	Mfr. No.	A Length	Volts	Max Amps	Wire Gauge
424-26930	426930-1	6"	12-24	20A @ 12V	14AWM

Polarized electrical connector is an SAE type, two prong plug and socket connector set. 14 gauge lead wire with bullet-type contact pins. Includes two plugs, four heat shrink tubes, and four butt connectors.

NEW!

SAE POWER SOCKET - FRONT MOUNT



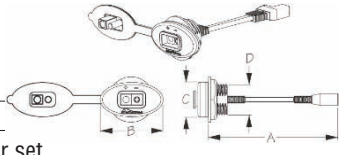
Injection Molded PVC

ORDER NO.	Mfr. No.	A	B	C	D	Volts
424-26950	426950-1	5"	1-1/4"	1"	3/4"	12-24

Polarized electrical connector is an SAE type, two prong plug and socket connector set. Great for solar panel connections and battery maintaining. 14AWM -gauge duplex wire. Installs with two #10 RH screws (not included). Max amps (20A @ 12V).

NEW!

SAE POWER SOCKET - BACK NUT MOUNT



Injection Molded PVC

ORDER NO.	Mfr. No.	A	B	C	D	Volts
424-26955	426955-1	5"	1-13/16"	1"	7/8"	12-24

Polarized electrical connector is an SAE type, two prong plug and socket connector set. Great for solar panel connections and battery maintaining. 14AWM -gauge duplex wire. Installation is as easy as drilling a 7/8" hole, inserting the socket body, tightening the locking nut and connecting the wires. Max amps (20A @ 12V).

NEW!

MARINCO

SEALINK®® DELUXE 12 VOLT RECEPTACLE & PLUG

The SEALINK® 12 volt receptacle and plug is a totally new design. Both are manufactured from corrosion resistant marine grade materials. Exclusive to SEALINK® products is a unique interconnecting system that securely locks the plug into the receptacle resulting in a positive and moisture proof connection. Both the plug and receptacle feature optimized metal connection points for maximum conductivity.

5 YEAR WARRANTY

12VRC
SEALINK® 12 VOLT RECEPTACLE

- Watertight Sealing Cap
- Easy to install, use supplied mounting plate for front panel installation, or locking ring for rear access installation

TROLLING MOTOR RIGGING KIT

TRAC

Everything you need to wire your boat for high-current (60amp) 12V/24V/36V power.

Use this high-current power connection for all boats to power up to 36V trolling motors, winches, & any other 12V, 24V or 36V device up to 60 amps.

Kit Includes:

TRAC's high-current quick-connect system:

- (2) quick-connect plugs one for boat/battery & one for trolling motor or other device, 1-1/2" round hole adapter, & U-bracket
- 30' of heavy 8-gauge AWG tin-plated marine-grade battery wire
- (1) High current 60 amp manual resetting circuit breaker
- (2) 14" 8-gauge cross-wire for 24V & 36V systems
- (4) Isolator bolts to install trolling motor or other device
- 28' of corrugated wire loom
- Heat-shrink terminations

12 VOLT RECEPTACLE WITH PROTECTIVE CAP

- Stainless steel
- Includes stainless steel mounting plate and wire set
- **Not for use with cigarette lighter/chart light**

ORDER NO.	Mfr. No.	Description
102-20036	20036	12V Receptacle with protective cap

TROLLING MOTOR PLUG & RECEPTACLE

ConnectPro™

12VBR
CONNECTPRO® RECEPTACLE

- Universal design for 2- or 3-wire configuration; 12, 24, 12/24, 24/36 or 36 volt systems
- Watertight sealing cap
- Corrosion resistant, plated brass electrical components
- Drain holes in receptacle keep water away from electrical components
- Perma-Lock™ screw terminals will not loosen under extreme hull vibration
- Standard 1-1/8" diameter mounting hole
- Easy to install, with supplied mounting plate for front panel installation, or locking ring for rear access installation
- Accepts 10 and 8 gauge wire
- Easily replaces other trolling motor plugs and receptacles (No special tools needed)

ORDER NO. 055-00126

12VBP
CONNECTPRO® PLUG

- O-ring seal for waterproof connections
- Weather resistant plug cover
- Corrosion resistant, plated brass electrical components
- Accepts 16 to 8 gauge wire
- Ergonomic contoured grip for easy hook-up and blade alignment

ORDER NO. 055-00127

12VCP
CONNECTPRO® RECEPTACLE & PLUG

- 12 VBR and 12 VBP Packaged together as a set in resealable clamshell packaging

ORDER NO. 055-00128

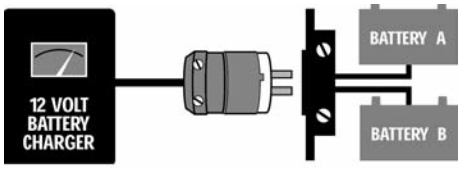
TROLLING/CHARGING SYSTEM

The 4-wire Trolling/Charging System eliminates the need for a charge/run switch. Install the receptacle on the boat, mount the black trolling motor plug on the trolling motor, and the red charger plug on the leads of the battery charger.
Simply plug in the black plug to troll, or plug in the red plug to charge.

12/24V LOCKING

CHARGER PLUG (MALE)

Connects to a 12V battery charger to allow simultaneous charging of two 12V batteries when plugged into the receptacle. Red.

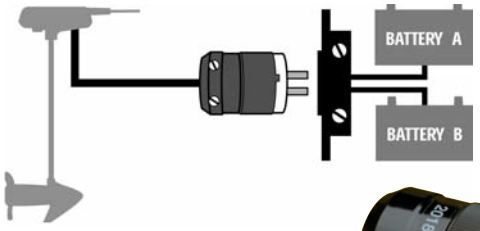


Note: for 12V only trolling motors use 2018BP-12

ORDER NO.	Mfr. No.
055-20181	2018BP-12

TROLLING MOTOR PLUG (MALE)

Connects to trolling motor. Jumpered internally to supply 12V & 24V power to the trolling motor when plugged into the receptacle. Black. Maximum rating is 40 Amps.



ORDER NO.	Mfr. No.
055-20182	2018BP-24

RECEPTACLE

Glass-reinforced corrosion reistant nylon. Accepts 8 gauge stranded wire or up to 6 gauge with ring terminals.
Black.

ORDER NO.	Mfr. No.
055-20180	2018BR

RECEPTACLE BRACKET

- Spring loaded flip lid cover
- Without receptacle

ORDER NO.	Mfr. No.	Description
055-20183	2018-MB	12V & 24V Receptacle Bracket & Flip Lid

MARINE GRADE WIRE & ELECTRICAL TAPE

ANCOR

PRIMARY WIRE

ANCOR Marine's individual copper wire strands are tinned to resist corrosion from salt and moisture found in the marine environment, lasting up to 10 times longer than non-tinned wire, with better conductivity than bare copper wire. Also resists battery acid, oil, gasoline, ultra-violet radiation, heat and abrasion. Insulation contains 20% more polymers to prevent scalloping and increase flexibility.
The ultra flexible (Type 3/Class K) stranding resists fatigue due to vibration and flexing while the premium vinyl insulation resists salt water, battery acid, oil, gasoline and ultra-violet radiation, rated at 600 volts and 105° C. Ancor wire exceeds all UL 1426, US Coast Guard Charterboat (CFR Title 46) and ABYC standards so no matter where you build, repair, or sell, all requirements are met. Manufactured to American Wire Gauge sizes, which is 12% larger than automotive (SAE) wire and allows for better current carrying capacity.

3M

3M™ 165 TEMFLEX™ GENERAL USE VINYL ELECTRICAL TAPE

Good quality, multi-purpose vinyl insulating tape. This tape has great resistance to moisture and varying weather conditions.

- Made of durable PVC
- Flame retardant and helps inhibit the corrosion of electrical conductors
- Compatible with rubber and synthetic splicing compounds
- Min. Temperature Rating: 32˚F/0˚C
- Max. Temperature Rating: 194˚F/90˚C
- Thickness: 6 mil

MARINE GRADE BATTERY CABLE

ANCOR

BATTERY CABLE-UL1426 Tinned Boat Cable

- ANCOR Marine Grade™ wire is manufactured from tinned copper stranding for maximum protection against corrosion and electrolysis. Ultra flexible (Type 3) stranding resists fatigue due to vibration and flexing.
- ANCOR's prprietary premium vinyl insulation stays flexible even in extreme cold and resists salt water, battery acid, oil, gasoline and ultra-violet radiation. Exclusive insulation is rated at 600 volts, 105ºC dry and 75ºC wet, and is resistant to heat and abrasion.
- Exceeds all UL 1426, US Coast Guard Charterboat (CFR Title 46) and ABYC standards.

ANCOR

PREMIUM BATTERY CABLE ASSEMBLIES

ANCOR Marine Grade™ Standard Cable Assemblies are manufactured with premium UL 1426 tinned copper battery cable.
The battery cable is fine stranded to produce maximum conductivity and flexibility. In addition, all ANCOR battery cable is flame retarded, UV inhibited, rated 600V AND 105ºC. The lugs are tinned copper to avoid corrosion and last longer.
Each end has a piece of ANCOR's adhesive lined 3:1 heatshrink tubing placed over the electrical connection. The heatshrink tubing seals out moisture and other corrosive elements found in the marine environment, and provides strain relief to ensure a long lasting battery connection.

ANCOR

TINNED COPPER LUGS - HEAVY-DUTY

ANCOR Marine Grade lugs are manufactured from heavy duty annealed tinned copper, providing for maximum current flow. 100% tin plated copper resists corrosion from salt and moisture. Seamless barrel design allows for maximum strength when crimped. Closed end design seals out moisture so cables stay dry and corrosion free.

Ancor Marine Grade connectors and terminals have nylon insulators which are easy to crimp and will not split. Barrels are designed to tightly grip the wire with the least effort. Tinned copper gives the least electrical resistance but the most corrosion protection. Highest grade electrolytic copper, tin plated for greatest corrosion resistance and least amount of power loss.

HEAT SHRINK CONNECTORS

ANCOR heat shrink connectors offer adhesive built into the sleeve of the heat shrink tubing Shrinks to form a water tight seal & the ultimate vibration and strain relief. Tinned for corrosion resistance. Pure copper for maximum current flow. Brazed seam for maximum strength. Nylon insulator, preferred by experts, for Marine Grade™ resistance to sunlight, water, oil, chemicals, vibration and cut-through damage.

Cross Linked polyolefin tubing is much stronger than PVC tubing and will not burn like PVC.
Heat activated adhesive lining provides impervious seal to salt water, oil, acids, and sunlight as well as providing strain relief.
Highest shrink ratio - shrinks to 1/3 original size.
Shrinks at 257° F/125° C.
Operating temperature range of -40° C to 110° C.
Shrink tubing is UL.

HEAT SHRINK STEP-DOWN/MULTI-WIRE CONNECTORS

Ancor's new assortment of adhesives lined heat shrink butt connectors can be used as a step-down from one gauge size to another or as a multi-wire connector for one gauge size wire. These connectors offer a sealed alternative for products such as a quick-tap or 3-way connector in areas where corrosion is a concern.

- 4:1 shrink ratio tubing to ensure a watertight seal between wires
- Flared barrel with uniform copper wall ensures an easy and proper mechanical crimp
- Crimp indicator on barrel for proper placement of installation tool
- Clear heat shrink tubing ensures crimp accuracy
- Coloured stripes on the barrel indicate which crimp die to use, regardless of application

ANCOR

UNIVERSAL SPEAKER CONNECTOR KITS

Marine speakers are equipped with male disconnects in two sizes (.250 tab for positive and either .188 tab or .110 tab for negative) depending on speaker manufacturer. Ancor's universal speaker connector kits include (2) .250 tab, (2) .188 tab and (2) .110 tab female adhesive lined heat shrink disconnects to allow a user to install two speakers regardless of manufacturer. Female heat shrink disconnects are the optimal connector for speaker installation as they provide a sealed connection for the harsh marine environment.

NEW!

SPLIT LOOM & SPIRAL WRAP

Permits flexible routing of cable harnesses.
Provides abrasion protection for wire and cable.
Allows lead outs at any point for greatest ease of installation.
Split loom temperature range is -40°F to 275°F / -40°C to 135°C
Black is ABYC REG fire retardant.

CABLE TIES

Ancor offers a wide variety of materials, styles, and sizing options. A patented, DoubleLock design offers increased tensile strength that is 33 percent stronger than the industry standard cable tie. With a unique design and high-quality construction, Marinco cable ties provide a great solution for bundling wire, cable, hoses, cords and countless other applications.

STANDARD CABLE TIES

ORDER NO.	Mfr. No.	Length	Colour	Unit Qty	Bundle Dia. Max	Tensile Strength	DoubleLock	Type 11

LOW PROFILE/HOSE CABLE TIES

- Reduced head height and contour design conforms to the shape of the wire bundle or hose
- Round design and side tail entry creates a round shape optimal for hoses
- Trimmed tail retracts into cavity leaving a clean, low profile installation
- Tamper-proof pawl is inaccessible after installation
- 50 lb. tensile strength exceeds industry standards

ORDER NO.	Mfr. No.	Length	Colour	Unit Qty	Tensile Strength

CABLE TIE MOUNT

Mounting bases are the perfect companion for cable ties. They allow a user to mount cable ties just about anywhere. GB's feature a 2-way fastening design where they mount either by the adhesive back, or a center screw for extra holding power. Cable ties can be inserted in 4 different directions which gives greater flexibility in mounting bundles.

ORDER NO.	Mfr. No.	Description
421-99231	199231	#8 Screw, Natural **(25 Pack)**

REPAIR TAPE

Repair tape fuses only to itself when applied under tension.
No sticky residue remains on wrapped surfaces.

- Operates and remains flexible from -60˚F to 500˚F / -51˚C to 260˚C
- Stretches up to 300% its original length with 60 ppi tear strength
- A permanent air and water tight seal
- Excellent UV resistance
- Begins to bond immediately on contact with itself

MARINE GRADE TINNED WIRE DISPLAY
24 PIECES
This compact counter top display consists of 24 spools of the 12 most common wire sizes & colours. All wire is Premium UL 1426 Tinned Copper Primary Wire. Display comes with full-color planogram, hooks, re-order tags & assembly instructions.
ORDER NO. 666-22180
Mfr. No. DR2218

MINI SPOOL DISPLAY
60 PIECES
This compact counter top display consists of 60 spools of the 12 most common wire sizes & colours. All wire is Premium UL 1426 Tinned Copper Primary Wire.Display comes with full-color planogram, hooks, re-order tags & assembly instructions.
ORDER NO. 666-12180
Mfr. No. DR1218

NYLON CONNECTORS & TERMINALS DISPLAY
720 PIECES
Contains a selection of Ancor's 32 most popular nylon butt connectors, disconnects & ring terminals to fit wire sizes from 22 to 10 AWG. Display comes with full-colour planogram, hooks, re-order tags, & assembly instructions.
ORDER NO. 666-22430
Mfr. No. DR2243

CONNECTOR & TERMINAL DISPLAY
257 PIECES
Contains a selection of the most popular nylon butt connectors, disconnects and ring terminals to fit wire sizes from 22 to 10 AWG. Display comes with full-colour planogram, hooks, re-order tags, and assembly instructions.
ORDER NO. 666-01243
Mfr. No. DR1243

HEAT SHRINK TERMINAL CONNECTOR & TUBING DISPLAY
387 PIECES
Contains Ancor's 29 most popular consumer packages of adhesive lined heat shrink tubing, heat shrink terminals, and butt connectors. Display comes with full-colour planogram, hooks, re-order tags, and assembly instructions.
ORDER NO. 666-22300
Mfr. No. DR2230

ADHESIVE LINED HEAT SHRINK
96 PIECES
Contains Ancor's most popular consumer packages of adhesive lined heat shrink tubing, heat shrink terminals, and butt connectors.. Display comes with full-colour planogram, hooks, re-order tags, and assembly instructions.
ORDER NO. 666-01230
Mfr. No. DR1230

TINNED COPPER LUG DISPLAY
96 PIECES
Contains 24 sizes of heavy duty tinned copper lugs, 8 AWG to 4/0. Includes combo packs, battery terminals, and heavy duty lug crimper. Display comes with full-colour planogram, ho re-order tags, and assembly instructions.
ORDER NO. 666-24250
Mfr. No. DR2425

LUG DISPLAY
113 PIECES
Contains 24 sizes of heavy duty tinned copper lugs, 8 AWG to 4/0. Includes combo packs, battery terminals, and heavy duty lug crimper. Display comes with full-color planogram, hooks, re-order tags, and assembly instructions.

NMEA 2000 CABLES & CONNECTORS

ANCOR

NMEA 2000 CERTIFIED CABLES & CONNECTORS - ***Premium Quality. Universal Fit.***

Ancor NMEA 2000 approved cables & connectors simplify creating or expanding an NMEA 2000 network.

- Colour coded for easy installation & component identification
- NMEA 2000 Certified, 100% universal & compatible with other manufacturers' products

Ancor NMEA 2000 Color Key:

- = power connection
- = power isolation
- = backbone connection
- = inline termination
- = drop connection

NMEA APPROVED

NMEA 2000 POWER CABLE W/ TEE

For power connection to an NMEA 2000 network.

- Includes a tee for direct connection to backbone cables
- Large 18 AWG power conductors to reduce voltage drop, provide better reliability.

NMEA 2000 BACKBONE CABLES

For connection to an NMEA 2000 tee connector.

NMEA 2000 Power Isolator connects between NMEA 2000 Tees & backbone cables while isolating the power supply within the network.

- Large 18 AWG power conductors to reduce voltage drop & provide better reliability for critical backbone cables

NMEA 2000 DROP CABLES

For connection between an NMEA 2000 device & tee connector.

- Super flexible 22 AWG power conductors for ease of installation & wiring routing
- Simplified, colour coded network installation

The drop cables are smaller in diameter & more flexible than backbone cables for easy connection to NMEA 2000 devices.

412-70101

422-70103

422-70104

NMEA 2000 TEE CONNECTORS

For connection between NMEA 2000 drop cables & backbone cables.

The yellow nuts connect to the corresponding Ancor tees & backbone cables, creating a simplified, colour coded network installation. The connectors are offered in four configurations for maximum installation flexibility. The two way & four way tee connectors allow for multiple drop cables to be connected without additional backbone cable.

422-70105 Female 422-70106 Male

NMEA 2000 TERMINATORS

For proper termination of an NMEA 2000 network.

One male & one female terminator is required for each NMEA 2000 network.

NMEA 2000 INLINE TERMINATOR

For proper termination of an NMEA 2000 network in a single piece, space saving design.

NEW!

422-70114

The inline terminator connects between a backbone cable & a drop cable, while still maintaining proper termination for the end of the network

NMEA 2000 BLANKING CAPS

Cover unused couplers. (2 Pk).

412-70111 Female

412-70112 Male

NEW!

Protects unused tee connectors from dust & water.

NMEA 2000 90° ELBOW CONNECTOR

Makes cable routing easier.

The connector is installed between two cables to reduce stress on the cables & create a compact installation.

422-70108

NMEA 2000 FIELD SERVICEABLE CONNECTORS

For termination of bare NMEA cable.

Securely terminate bulk cable, or replace a broken end.

422-70109 Female

422-70110 Male

NEW!

NMEA 2000 THROUGH BULKHEAD ADAPTER

Use for transitions through bulk head or panels.

Simplifies installation when routing through a waterproof bulkhead or panel. Creates a connection point for removable equipment such as a computer interface.

422-70107

NEW!

NMEA 2000 POWER ISOLATOR

Isolating power within a NMEA 2000 network.

Connects between NMEA 2000 Tees and backbone cables while isolating the power supply within the network.

422-70113

NMEA 2000 NETWORK CABLES & CONNECTORS

- NMEA approved & specifically designed to fit marine requirements
- Follows requirements of a serial data communication network to interconnect electronic equipment
- Equipment designed to this system will have the ability to share data
- Share data, including commands & status with other compatible equipment over a single channel
- Rated to IPX7 for reliable, water-tight connections
- Interchangeable with other NMEA 2000 products
- Premium metal connection collars ensure connections are tight & secure

NMEA 2000 SINGLE DEVICE STARTER KIT

Kit includes all components needed to create a single device NMEA 2000 network.

KIT INCLUDES:

- (1) NMEA 2000 Micro T-Piece *(Mfr. No. PC51060)*
- (1) NMEA 2000 Male Termination Resistor *(Mfr. No. PC51080)*
- (1) NMEA 2000 Power T Cable, 3 ft. *(Mfr. No. PC51050)*
- (1) NMEA 2000 Micro-C Drop Cable 6 ft. *(Mfr. No. PC51160)*

ConnectCharge™ Inlet 150CCI

For use with Guest Battery Chargers with ConnectCharge Plug Only!

UNIVERSAL MOUNT

Mount to dash from rear with threaded locking ring or from the front with three screws through face plate

- Eliminates rewiring, plug snaps into Inlet locking tab
- Watertight lid protects AC plug
- Easy to install or retrofit

ORDER NO. 055-01501
Mfr. No. 150CCI

New plus design is a standard feature on all Guest On-Board Trolling Motor and Bluewater chargers with AC plug.

On-Board Charger Inlet 150 BB1

The MARINCO® On-Board Charger Inlet is a revolutionary design in flanged inlets. The sleek design fits almost anywhere on a boat's exterior, and fishing line won't catch on the low-profile, UV resistant cap.

With the On-Board Charger Inlet hard-wired to an on-board battery charger, charging can occur with all the boat's hatches closed and locked, adding convenience and security for the boater.

- 15A 125V straight blade inlet
- Small enough to be mounted almost anywhere on a boat
- Low profile cap won't catch fishing line
- Color and style fit in nicely with appearance of the boat
- Mounts quickly and easily to fiberglass and aluminum hulls
- Perma-Lock™ terminals and color coded wire entrance holes makes wiring a snap
- UV resistant housing and cap

ORDER NO. 055-01500 Mfr. No. 150BBI

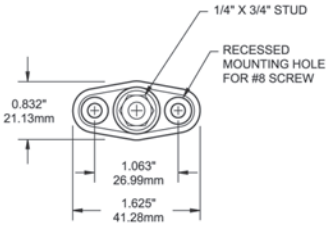
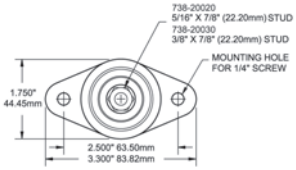
BLUE SEA SYSTEMS

POWERPOST HIGH AMPERAGE CABLE CONNECTORS

- Connect high-amperage cables securely
- Not rated for continuous amperage – amperage flows between terminals stacked on post
- Maximum voltage 48 volts DC
- CE Marked

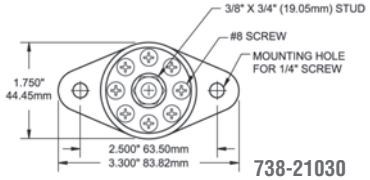




ORDER NO.	Mfr. No.	Description	Screws
738-20100	2010-BSS	#10-32 x 5/8" Stud	#8
738-20110	2011-BSS	1/4" - 20 x 3/4" Stud	#8
738-20020	2002-BSS	5/16" - 18 x 7/8" Stud	1/4"
738-20030	2003-BSS	3/8" - 16 x 7/8" Stud	1/4"

POWERPOST PLUS CABLE CONNECTORS

- 150 A bus allows small wire connections at high amperage cable connections
- Terminal Screws: 8 x #8-32
- CE Marked



ORDER NO.	Mfr. No.	Description
738-21010	2101-BSS	1/4" - 20 x 1" Stud
738-21020	2102-BSS	5/16" - 18 x 3/4" Stud
738-21030	2103-BSS	3/8" - 16 x 3/4" Stud

DUAL POWERPOST CABLE CONNECTOR

Provides a termination point for extending the length of outboard harnesses or other conductors

- Designed for outboard engine installation when factory cables need to be extended
- Includes one black and one red insulator
- 1 x 5/16" Stud, 1 x 3/8" Stud,

ORDER NO.	Mfr. No.	Stud Height 'A'	Stud Height 'B'
738-20180	2018-BSS	1.50 inches	1.63 inches

STUD MOUNT INSULATING BOOTS

Quickly & easily insulate conductive posts & studs

- Press-fit design works with all 5/16" (M8) & 3/8" (M10) posts & studs
- Ideal for ML-Series remote battery switches, solenoids & automatic charging relays, battery terminals, power posts, bus bars, battery switches, & much more
- For use with insulated ring terminals & lugs only

NEW!

2 per pack

ORDER NO.	Mfr. No.	Colour
738-40000	4000-BSS	Red

ROTATING CABLECAP INSULATORS

- Top rotates 360° to allow cable entry from any angle
- For batteries with integral marine wing nut posts
- Fits all cable sizes
- Sold as a pack containing 1 Black and 1 Red

ORDER NO. 738-40010
Mfr. No. 4001-BSS

STANDARD CABLECAP INSULATORS

Insulates battery terminals which have added adapter terminals.
Sold as a pair - 1 Red, 1 Black.

BATTERY BOXES & TRAYS

BATTERY BOXES

All battery boxes meet ABYC standard E-10 and U.S. Coast Guard Specification Number 183.420 as an OEM-installed battery hold-down system. Polypropylene construction for total acid resistance. Hold-down straps resist 350 pounds of force, nearly four times the USCG requirement. Battery Boxes are drop tested in temperatures ranging from -20°F to +120°F.
Hold-Down strap and mounting hardware included.

- Black, vented battery boxes
- 4 cable openings. Enlarged to .55" diameter
- Larger handles with rolled edges
- Instructions molded inside cover
- Hardware includes four #8, 3/4" screws and two footman clamps
- Straps are woven polypropylene with "firm grip" buckle and completely resistant to battery acid.

STANDARD BATTERY BOX

Use with 24/24M series batteries.

ANCOR

GENERAL LAMPS

Heavy duty glass envelope for break resistance. Nickel-plated brass bases prevent corrosion while insuring a positive point-of-contact. Filaments, with "rough service" design, permit hours of reliable burning. Available in various configurations, tested for dependability. Nickel plated brass for corrosion resistance and positive contact.

COLOUR SWITCHING BULBS - 10-30V DC - NON POLARITY SENSITIVE

The **multi level output bulbs** offer boaters the ability to achieve two or three levels of lighting by replacing their standard 5 watt or 10 watt G4 halogen bulb to a LuxOr Marine multi level replacement bulb. Switch between 9 LEDs, to 6 LEDs to 3 LEDs offering you tri level lighting or between 6 LEDs and 3 LEDs for dual level lighting. All this can be done without changing the fixture, installing extra switches or an expensive dimmer switch or add new or additional wiring. Simply remove and install the LuxOr Marine G4 multi level output replacement bulbs.

DUAL COLOUR SWITCHING LED BULBS

	CC ORDER NO.	Mfr. No	Number of LED's	Light Colour	Lumens	Specifications
	240-49630-4	LED-G4S-6PW-3BL	9 - SMD5050	6 Pure White & 3 Blue	123 / 13	Volts: 10 to 30v DC Diameter: 30mm View Angle: 120˚ Thickness: 11.4mm Watts: 0.7w / 1.3w
	240-49630-5	LED-G4S-6PW-3RD	9 - SMD5050	6 Pure White & 3 Red	123 / 15	

	CC ORDER NO.	Mfr. No	Number of LED's	Light Colour	Lumens	Specifications
	240-41603-4	LED-G4S-10PW-6BL	16 - SMD5050	10 Pure White & 6 Blue	182 / 24	Volts: 10 to 30v DC Diameter: 33mm View Angle: 120˚ Thickness: 11.4mm Watts: 1.0w / 1.7w
	240-41603-5	LED-G4S-10PW-6RD	16 - SMD5050	10 Pure White & 6 Red	182 / 27	

TRI COLOUR SWITCHING LED BULBS

	CC ORDER NO.	Mfr. No	Number of LED's	Light Colour	Lumens	Specifications
	240-41364-7	LED-G4S-6PW-4RD-3BL	13 - SMD5050	6 Pure White 4 Red & 3 Blue	PW: 123 Red: 20 Blue: 13	Volts: 10 to 30v DC Diameter: 33mm View Angle: 120˚ Thickness: 11.5mm Watts: PW: 0.7, Red: 0.6w, Blue: 0.45w

MULTI LEVEL OUTPUT BULBS - G4 BASE - 10-30V DC - NON POLARITY SENSITIVE

The **multi level output bulbs** offer boaters the ability to achieve two or three levels of lighting by replacing their standard 5 watt or 10 watt G4 halogen bulb to a LuxOr Marine multi level replacement bulb. Switch between 9 LEDs, to 6 LEDs to 3 LEDs offering you tri level lighting or between 6 LEDs and 3 LEDs for dual level lighting. All this can be done without changing the fixture, installing extra switches or an expensive dimmer switch or add new or additional wiring. Simply remove and install the LuxOr Marine G4 multi level output replacement bulbs.

Dual Light Level	CC ORDER NO.	Mfr. No	Light Colour	Specifications	Features:	
	240-46300-1	LED-G4S-6WW-3WW	◯ Warm White 6 to 3	Volts: 10-30v DC Lumens: WW-6-129, 3-651lm PW-6-137, 3-70lm View Angle:120˚ Watts: 1.3W / 0.7W Diameter: 30mm Thickness:: 11.4mm	Number of LEDs: 9 - SMD5050 Can replace a 5w or 10w halogen bulb 	
	240-46300-2	LED-G4S-6PW-3PW	◯ Pure White 6 to 3			

Tri Light Level	CC ORDER NO.	Mfr. No	Light Colour	Specifications	Features:	
	240-49630-1	LED-G4S-9WW-6WW-3WW	◯ Warm White 6 to 3	Volts: 10-30v DC Lumens: WW-9-187, 6-129, 3-651lm PW-9-192, 6-137, 3-70lm View Angle:120˚ Watts: 1.9w / 1.3W / 0.7W Diameter: 30mm Thickness:: 11.4mm	Number of LEDs: 13 - SMD5050 Can replace a 5w or 10w halogen bulb 	

The above bulbs also available in back pin configurations. Replace the LED-G4S with LED-G4B for back pin configuration.

Simply Replace The G4 Bulb - no wiring or special fixtures required. Dual level and tri-level bulbs are not automatic switching.

The USCG and other maritime testing agencies currently do not certify individual replacement LED bulbs by themselves or otherwise. At present only complete fixtures with bulbs are tested and certified against the COLREG requirements, while our LED bulbs are the brightest LED bulbs available, the operator of vessels assumes all liability when using this product as a replacement for the original light source.

Luxor G4 Bulb Features & Selling Tips

- **Products are CE and Rohs certified**
- **Lamps are lead and mercury free with NO UV Output**
- **Zero RF emission with surface mount device design**
- **LuxOr lamps are designed to minimize EMI by utilizing a specially designed PCB layouts which avoid tracks acting as antenna's that radiate EMI (Electromagnetic interference)**
- **LuxOr G4 design incorporates Transient suppressor and fuse (self re-setting electronic fuse) which provides extra protection against current overload and voltage spikes to ensure maximum lamp life.**

LED LIGHT FIXTURES

AQUA SERIES WALL MOUNTED READING LIGHTS

The Luxor Marine Aqua Series offers a stylish yet attractive interior LED luminaire for your interior lighting needs. The Aqua Series provides a warm white light that illuminates your cabin interior. The touch dimming allows you to control the fixture brightness or light output which is ideal for cabin lighting or a reading light. When first turned on the built-in Touch Dimming switch produces a smooth blue glow. Touch dimming is simple, simply touch the switch and hold it until the desired lighting level is achieved. The Touch Dimming retains the last setting so when the power is turned off and then back on the light level will remain the same as the last setting. Swivel head allows you to direct the light to the task you want to illuminate.

AQUA SERIES - Decorative Wall Lamps

SLIM LINE RIGID UNDER-CABINET LIGHT STRIPS

Luxor Marine offers a Slim Line LED luminaire ideal for under cabinet or accent valance lighting.
These fixtures are an ideal replacement for old fluorescent lighting used in kitchens, bathroom or salons.
The fixtures are only 8mm thick and offer either a low profile or adjustable mounting clips as standard.
The LED-SLM-12-TD is supplied with a 3 level touch dimmer. 100% - 60% - 30% - Off.
Also included are a 12v DC power cable for connecting to 12 V DC supply and low profile mounting clips.
The LED-SLM-12-ILE is the 300 mm long fixture supplied with an extender bracket which allows the customer to simply plug into the first fixture to extend fixture to fixture. There is a maximum limitation of 3 light bars end to end.
The LED-SLM-90-CC is a 90° connector which allows for the fixtures to be mounted in a corner 90° configuration with a simple plug in connector.
The LED-SLM-PC-12VDC is a 0.5-meter power cable, which allows for an easy connection to a 12v DC supply at one end and slide in connector for the fixture at the other end.
LED-SLM-LC-12VDC is a 1.0 meter link cable which allows the installer to link two 12 inch fixtures together with a cable so the fixtures can be spaced further apart up to 1.0 meter. There is a maximum limitation of 3 light bars end to end.

SEA-DOG LINE QUALITY MARINE GEAR

ALL SEA-DOG BRASS LIGHTS
Have a lacquer coated finish.
DO NOT use any solvents to clean any portion of the light. In addition, care should be taken when cleaning any surface around the light. The use of solvents will dissolve the lacquer coating causing the light to tarnish.
We recommend using only soap and water.

Prewired with on/off switch and 12 volt, 15 watt DC double contact bayonet bulb. Berth Light has a lacquer coated polished brass body with solid brass knurled adjusting knobs. Interior surface of lamp shade is white enamel.

LED CABIN/READING LIGHT WITH TOUCH DIMMER

Built-in touch controlled on/dim/off switch, the light provides a direct beam reading light as well as ambient light for the cabin. High quality aluminum construction with an adjustable light angle and a warm white, 3000K Cree bulb providing 270 lumens at 2W. Works with 12V and 24V systems. Includes mounting screws and Allen wrench.

LED DOCKING LIGHTS – SURFACE MOUNT

Backed by a 10-year warranty, Attwood's LED Docking Lights are designed and tested for extreme conditions. Attwood used only the highest grade stainless steel and aluminum components to ensure the product is resistant to corrosion. The rubber gasket provided creates a barrier that protects your hull from water entry and ensures the light is watertight and keeps all electrical components fully sealed.

106-65227

106-65237

- 12V DC - 5 Watts
- Surface mount - 1" Thick
- Draws a fraction of the power while producing a brighter output
- 120˚ wide beam
- Watertight - all components are fully sealed
- Longer lasting - Resistant to corrosion - Watertight
- Stays cool to the touch
- Requires (2) #8 stainless steel phillips head screws
- Sold in Pairs

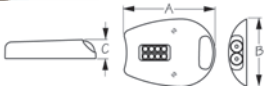
LED (CREE) DOCKING LIGHTS
12 Volt DC
Stamped 304 Stainless

Two high power Cree LED bulbs provide 1300 Lux light output from the front array, with a focused beam angle of 10˚ for a concentrated light beam. Eight regular LED bulbs on the top array have a wide angle beam of 90˚ to illuminate a large portion of the docking area. Surface mount with a small footprint makes for easy installation, and these lights are waterproof with an IP rating of 68. Front lights and top lights can be controlled separately.



Sold in pairs

135 SL RC SEARCHLIGHT

A remote control searchlight, developed with the 20 to 50 ft (7-15 metre) powerboat in mind, with many benefits of existing units at a greatly reduced cost.

- Easily replaceable halogen sealed beam delivers 100,000 candle power.
- 1 Lux at 865 ft (262 metres).
- Supplied complete with joystick remote control.
- Optional secondary full control panel for dual helm stations.
- 320° horizontal rotation, 75° vertical sweep.
- All materials are non-corrosive.
- Complete with 15ft (4.5m) cable, with optional extension cables.

Size: 7" wide x 8-1/8" long x 7-7/8" high (18cm x 20.5cm x 20cm).
Weight: 6 lb (2.7kg)

ORDER NO.	Description
60020-0000	12 Volt DC, fuse 10 amp
60030-0000	Replacement controller 12/24 DC
18753-0178	Replacement sealed beam, 12/24 Volt DC, 100,000 cp

146 SL RC SEARCHLIGHT

A high performance searchlight for medium sized yachts, remotely controlled from helm station.

- Easily replaceable halogen sealed beam delivers 175,000 candle power.
- 1 Lux at 1275ft (386 metres).
- Supplied complete with water resistant joystick remote control.
- Tough, corrosion resistant Lexan housing.
- Full, 360° horizontal rotation, 60° vertical sweep.
- Optional secondary full control panel for dual helm stations.
- Complete with 15ft (4.5m) cable, with optional extension cables.

Size: 8-1/2" wide x 10-1/8" long x 8-15/16" high (22cm x 26cm x 23cm).
Weight: 9 lb (4kg)

ORDER NO.	Description
60080-0012	146SL 12 Volt DC, fuse 10 amp.
18753-0455	Replacement sealed beam, 12/24 Volt DC, 175,000 cp

155 SL RC SEARCHLIGHT

Our new leading light for style, performance and value. Sweeping curves complement the latest pleasurecraft profiles. Fingertip control of the watertight halogen sealed beam will pick out hazards nearly 900ft away.
Just check out the value!

- Easily replaceable 5" (130mm) halogen sealed beam delivers 100,000 candlepower.
- 1 lux at 885 ft (268 metres).
- Full 320° horizontal rotation, 75° vertical sweep.
- Complete with joystick remote control (12 Volt DC model)
- Complete with 15ft (4.5m) cable, with optional extension cables.
- Tough thermoplastic housing and base.
- Optional secondary remote control panel for dual helm stations

Size: 6-3/8" wide x 8" long x 8"high (16cm x 20cm x 20cm).
Weight: 5 lb (2.3kg)

ORDER NO.	Description
61050-0012	12 Volt DC, fuse 10 amp.
18753-0528	Replacement sealed beam 12/24 Volt DC, 100,000 cp

REVERSE "Y" ADAPTER

NEW!

The Reverse "Y" Adapter has two (2) male plugs with special power isolation circuitry for added safety. When one (1) plug is connected to a receptacle, the circuitry isolates the second plug. The reverse "Y" provides 50A 125/250V power when only two (2) 30A 125V receptacles are available. **Note:** Reverse "Y" will NOT work with 50A, 125V, 3-wire inlets. Power is provided in both circuits to the 4-wire inlet, but the dock side receptacles limit the current in each circuit to 30A. The two (2) 30A 125V receptacles must be supplied from a single power source providing 208V to 250V between them for proper operation.

EEL BY MARINCO SHOREPOWER

EEL SHOREPOWER™ Y - ADAPTERS

EEL ShorePower™ Y - Adapters enable you to split one dockside receptacle between two boat inlets of similar or dissimilar power configurations. In addition to the EEL ShorePower™ system, Y - Adapters incorporate the highest quality, marine grade construction for which Marinco is known:

- Sealing collar to create a weatherproof seal when joining cables together
- Suitable for use in wet locations
- Watertight molded plug and connector ends for safety and durability.
- Heavy-duty, super flexible marine grade cable (30 Amp 10 gauge, 50 Amp 6 gauge)
- Corrosion-resistant, nickel-plated contacts

EEL SHOREPOWER™ - STYLE STRAIGHT ADAPTERS

EEL ShorePower™ - Style Straight Adapters are high-quality, one-piece adapters used much like Pigtail Adapters. However, they do not have sealing collars and are not recommended for use in wet locations. Use only in an enclosed, dry location, such as powering your boat from a 15A power receptacle inside your house. EEL ShorePower-style Straight Adapters add the following improved features:

- LED power indicator
- Ergonomic design for easier gripping

POWER CORD PLUS® CORDSETS

All Marinco® cordsets are made of the highest quality, marine-grade construction with features you won't find on other power cords.

1 • Watertight molded plug and connector for safety and durability

2 • Heavy duty, super flexible marine-grade cable (30 amp 10 gauge, 50 amp 6 gauge)

3 • All models include a standard threaded ring for hook-up to ordinary threaded inlets

4 • Corrosion resistant, nickel plated contacts

5 **Power Indicator Light:** Boatside connector features a molded-in LED light. When it glows red, you know you have power to the boat.

6 **Contour Grip with Thumbprint Locator:** Both plug and connector ends are molded to fit the contour of your hand. When the thumbprint is in the 12 o'clock position,the blades line up for easy connection.

7 **Marinco's Easy Lock™ System:** Quickly locks the cord set to the inlet in just 1/8 of a turn. The exclusive locking tabs engage slots built into all Marinco® inlets.

5 YEAR WARRANTY

DOCK SIDE 30 AMP TO 15 AMP ADAPTER WITH GFCI

- Provides safer hook-up to 30A dock side power
- Provides protection against harmful electric shock
- Reduces the possibility of fire
- Offers protection for up to three (3) attached tools
- Corrosion resistant & rain-proof rated for outdoor use
- Can also be used for other outdoor, harsh environments such as construction sites or wherever ground fault protection is desired

GFCI Protection:
According to ABYC standard E-11,11. A Ground Fault Circuit Interupter (GFCI) may be used on single phase AC circuits to provide additional protection for personnel & equipment.

ORDER NO.	Mfr. No.	NEW!	BOAT SIDE (FEMALE CONNECTOR) Attaches to boat inlet or cordset	DOCK SIDE (MALE PLUG) Attaches to dock side receptacle or cordset	
055-199128	199128	G W G W G W	3-15A 125V Straight Blade	30A 125V Locking	W G

Note: A Ground Fault Circuit Interrupter (GFCI) limits the duration of an electrical shock to a period considered safe for healthy people. It does not prevent electric shock. This device does not protect against electric shock due to contact with both circuit conductors or a fault in any wiring supplying this device.

30 AMP INLETS, PLUGS, CONNECTORS

30 AMP 125V INLETS

IP56 Meets or Exceeds ABYC Standards · CSA · MARINE UL LISTED

NEMA L5-30R W G 30A 125V LOCKING

Marinco® Power Inlets are the industry standard. Offered in 3 styles, they feature robust construction & corrosion-resistant materials for long life in the harsh marine environment. Easy to install & a pleasure to use for the marine professional or the casual recreational boater.

1 • Easy Lock™ - Marinco®'s exclusive Easy Lock™ System has been designed to make hook-up quick and easy. Just connect the cordset (with an Easy Lock™ locking ring installed) to the inlet and turn the locking ring less than a quarter turn. The tabs on the locking ring lock into the inlet for a positive watertight hook-up while eliminating any chance of cross threading. The locking ring features lock locators positioned at 180˚ to improve finger grip during attachment. Easy Lock™ inlets have a threaded boss that swill accept threaded cordsets as well. The Easy Lock™ system is a standard feature on some Marinco® 30 Amp and 50 amp inlets and cord sets

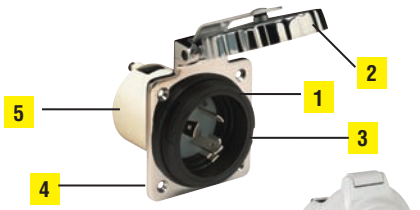
2 • The covers on all Marinco® inlets are designed to stay hinged open when the cover is lifted up. This allows the boater to connect their shore power cord while the cover remains open and out of the way. A soft touch unlocks it for closing

3 • Blades are nickel plated brass for maximum corrosion resistance

4 • Interior hardware is marine grade stainless steel

Rear Enclosure

5 • Made of flame resistant UL94V0 plastic
• All rear enclosures are glass-filled polyester for strength
• Integral strain relief complies with ABYC requirements
• Multiple positions allow for maximum installation flexibility



STAINLESS STEEL POWER INLET

Marinco® stainless steel inlets are solid cast marine grade 316 stainless steel and include a heavy duty cap strap for strength and durability.

SHOREPOWER CORD SETS

FURRION

THE PERFECT BALANCE OF STRENGTH & DURABILITY

Features:

- Super-flex, oil resistant conduit that is easy to clean and flexible for easy coiling
- Ergonomically, molded side grips for easy user-friendly connections
- 99.9% pure annealed copper with thick copper strands provide maximum conductivity and durability
- All cords meet global marine industry standards, Marine UL, cUL, ETL Intertek Certified
- 5-year, quality assured warranty

POWERSMART™ Blue
LED Voltage Indicator

Provides instant indication that power is present, dual Powersmart LEDs indicate power is present on each leg. In blackout situations, the LEDs indicate whether a fault has occurred at the power source or at your equipment.

FAULTSMART™ Red
LED Fault Indicator
REVERSE POLARITY & NEUTRAL LOSS INDICATOR

Indicates incorrect flow of electricity due to incorrect wiring. Provides instant warning and reduces the risk of hazard or damage to electrical quipment. ****50A, 125V Cords***

POWERSMART™ 30 AMP LED CORD SETS with PowerSmart™ Technology

The Powersmart™ bright blue LED voltage indicator displays real time information that there is power to the cord set. Engineered and tested to withstand harsh environments, Furrion cord sets are ETL Intertek Certified, meet Marine UL and other global marine industry standards.

Features:

- Constructed for durability, strength and longevity in the marine environment, flexible for easy coiling and storage
- Ergonomically, molded side grips for easy connection
- Universal fit with other brands (NEMA)

ProTournament*elite* Series

Tournament Winning Technology…

The fastest battery charger with the most features in its class. Specifically designed to deliver maximum charging performance and extend battery life. Get on the water first and stay there longer with tournament winning technology providing: 100% charge upon completion of multi-stage charging process. 100% charging output with AC power as low as 90 VAC. 50% lighter and 2 to 3 times faster than traditional chargers. Give your batteries what they demand with ProTournamentelite's three (3) digitally selectable "performance matched" 5-stage charge profiles. Using 100% of the available charging amps, ProTournamentelite's Distributed-On- Demand™ Charging technology will always distribute its full charging output to the combination of batteries connected to it as required by the discharge state of each battery.

For 12, 24, 36 or 48 Volt Systems (model specific, see chart below)

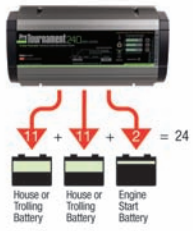
Digital LED Display with Dual Mode Battery Status Monitor
Charge level indicator with on-the-water push-to-test button
System Check OK and battery trouble status indicators
3 Selectable Performance matched charge profiles

3 Selectable Performance Matched Charge Profiles
Standard Flooded/AGM batteries, HP AGM1 for pure lead AGM batteries like OPTIMA Blue Top Marine Batteries, HP AGM 2 for pure lead AGM Batteries like Odyssey Marine Batteries.

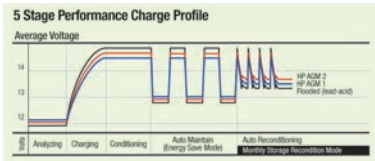
Waterproof Connector Port for Optional Charge Status Remote
Tri-color LEDs indicates charge mode status
Remote not included

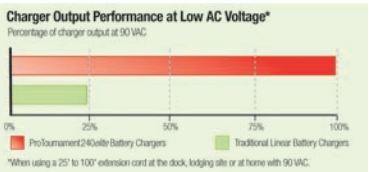
Digital 5-Stage Charging
Analyzing, advance high fill rate charging, conditioning and auto maintain (energy saving mode)
Automatic once a month storage recondition mode

How Distributed-On-Demand™ Charging Technology Works



ProTournament*elite*'s Distributed-On-Demand™ Charging Technology ensures 100% of the available charging amps are fully utilized to meet the demand of each battery on-board. For example, if your engine start battery only needs 2 amps from your ProTournament240*elite*, the unused 6 amps will automatically be Distributed-On-Demand™ to your house or trolling motor batteries, providing 11 amps to each of your deep cycle batteries for faster charging.





For Lead Acid (Flood) / AGM batteries only. For Group 24 to 31 12V Flood (Lead-Acid), STD AGM & high performance AGM batteries

Designed and constructed to:
Marine UL 1236 SB
CSA C22.2 No. 107.2
FCC Class A
CEC Listed

100% WATERPROOF & SALTWATER TESTED

THREE YEAR WARRANTY INCLUDED

Professional Grade Series On-Board Marine Battery Charger

Professional Performance for Fastest Charge Times
Designed to deliver maximum charging performance and extend battery life.

Tournament Winning Technology
100% charge upon completion of multi-stage charging process. 100% charging output with AC power as low as 90 VAC. 50% lighter and 2 to 3 times faster than traditional chargers.

Forced Induction Cooling (360 *elite* models only)
Concealed waterproof fan provides forced air cooling for cooler operation & fastest charge times.

Digital LED Display with Dual Mode Battery Status Monitor
Intuitive LED display with charge mode indicators and real time charge level status with an on-the-water push-to-test feature for percent of battery power remaining.

3 Selectable Performance Matched Charge Profiles
Profiles include: Standard Flooded/AGM batteries, HP AGM1 for pure lead AGM batteries like OPTIMA Blue Top Marine Batteries, HP AGM 2 for pure lead AGM Batteries like Odyssey Marine Batteries.

Waterproof Connector Port for Optional Status Remote
Optional tri-color LED charge mode status remote can be placed up to 12' away from the charger.

Digital 5-Stage Charging with Temperature Compensation
Analyzes connections and the ability for a battery to accept a charge, advance high fill rate charging, conditioning, auto maintain (energy saving mode) and automatic once a month storage recondition mode automatically monitors ambient temperatures and adjusts its charging output.

System OK & Individual Battery Trouble Status Indicators
Advanced technology eliminates time consuming trouble shooting by clearly indicating system and battery connections are OK or if a fault is present on a specific battery bank.

Built-in Safety & Pre-Wired for Easy Installation
Shock resistant, space saving extruded aluminum design, dual in-line DC safety fuses for trolling motor and house batteries, over-voltage, overload, over-temperature, reverse polarity and ignition protection.

Distributed-On-Demand™ Technology

ProNauticP SERIES BATTERY CHARGERS PROMAR DIGITAL PERFORMANCE CHARGING

Industry recognized with the 2010 IBEX Innovation Award, ProNauticP employs our Generation 3 ProMar Digital Performance Charging Platform which combines all digital control and software-based power conversion technology with global energy management features.
ProNauticP addresses the trend of incorporating and using more 12-volt electronics on board today's power, sail, cruising and sport fishing boats.

Features:

- ProMar Digital Charging Performance - 12 Selectable Profiles
- Power Factor Correction - Global AC Input
- Distributed-On-Demand™ Technology
- Digital Self-Calculating Absorption and Battery Health Re-Conditioning Mode
- Conservation Energy Saver Mode
- Service and Fault Mode LED Indicators
- Automatic Fan Speed Control
- Automatic Temperature Compensation and Built-in Safety: Marine ULc 1236, CE, CTick and FCC Class B
- Available in 12V or 24V Models

Expand your ProNauticP Digital Charging System with PROISOCHARGE SERIES (See Page 421)

Digital Mobile Charge DC TO DC Advanced Electronic In-Transit-4-Stage Battery Charging Systems

Battery to Battery

Digital Mobile Charge40 is a breakthrough in battery to battery, on-the-water charging technology. Simply connect to the engine crank battery and your house electronic battery, allowing for up to 40 Amps per hour to be transferred to your house battery bank. Protects your engine battery while charging and conditioning your house battery bank, using its all-digital C³ boost-mode-charging technology.

Digital Mobile Charge130 alternator to battery on-the-water charging system provides a significant increase in charging capacity of up to 130 amps. Simply connect your alternator to the Digital Mobile Charge130, then connect Digital Mobile Charge130 to your engine crank battery and house electronic battery bank. Digital Mobile Charge130 will provide up to 130 Amps per hour to your house battery bank while protecting your engine battery and charging/conditioning your house battery with its all-digital C³ boost mode charging technology.

Alternator to Battery

- **In-Transit C³ Software Controlled, Multi-Stage Charging** - Optimal fast charge, conditioning & maintenance. 4th stage provides on-demand fast charge mode when needed.
- **C³ Software - Engine Battery Management** - Intelligently monitors & manages the health of the engine battery while providing maximum charge capacity to the auxiliary battery or bank.
- **C³ Intelligent Self-Calculating Absorption/Conditioning Mode** - Automatic programming of charge/absorption time based on discharge state of auxiliary battery or bank resulting in a 100% charge while desulfating battery plates and extending battery life.
- **On-Board C³ Digital Dash Includes Hi-Vis LED's** - Battery type, charge modes, temperature & fault conditions
- **User Programmable Battery Type Selector** - Select flooded (lead-acid), AGM and GEL batteries
- **Built-in Safety** - Ignition protection, over temperature and over voltage protection. Intelligent alternator & battery over temperature protection
- Remote temperature probe included

PROMAR1 DIGITAL SERIES

Recreational Marine & Industrial Grade On-Board Battery Chargers

ProMar1 DS Generation 3 reflects a new outward design taken to the next level in performance with all Digital Charging Technology.

Flooded Lead Acid AGM & Gel Batteries | 3 Year Warranty | Energy Saving

- Fully Automatic 4-Stage Charging proven to extend battery life
- Dual Mode Charge Status Indicator
- Battery & Wiring Fault Detection
- Rugged Shockproof Construction
- Auto Maintain/Energy Saver Mode Extends Battery Life
- Safe for Long & Short Term Storage
- Pre-Wired with Waterproof Inline DC Fuses & Nickel Plated Copper Ring Terminals
- Built-in Safety
- IP68 Waterproof
- Quiet EMI Design Meets US FCC Emissions Requirements

PROSPORT POWER INVERTER

Perfect for the on-board or on-the-road active user who needs to convert 12 Volt battery power to 110V AC. While on the water or in you car, provide instant AC power for laptops, cell phone, chargers, radios, portable TV's, lighting, camcorders, small power tools and more.

- Converts 12 Volt Battery Power to 110 Volts AC up to 150 Watts
- On the Road Power – Use with digital cameras, MP3 players, game consoles, portable DVD players and more
- Extruded Aluminum Case
- High Surge Capacity
- Power / Status LED Indicators
- Standard 110V AC Receptacle
- Output Short & Input Polarity Protection
- Low Battery Shutdown
- Over Temperature and Overload Protection

Patented Universal Cupholder Design

ORDER NO.	Mfr. No.	Surge Capability	Input	Output	Output Frequency	Battery Low Alarm/Shutdown	Size	Cable Length

TRUEPOWER PLUS SERIES INVERTERS
Heavy Duty Marine, Mobile and Industrial Grade Inverters

Designed to convert 12V DC battery power to 115V AC and will automatically pass through AC Inlet when present.

- Intuitive dual colour digital LCD message center
- Dual colour gauges for AC power output and battery DC input
- Internal 30 amp AC transfer switch will automatically pass through AC inlet power when present
- USB power port and GFCI convenience outlets
- Compact and lightweight design
- Soft start noise filtered technology
- On/Off remote with 9 ft. cable and DC cable covers included
- Integrated AC power cable strain reliefs for ease of installation
- Built-in safety with overload, over temperature, short circuit and reverse polarity protection
- Audible alarm and shut down for low and hign DC voltage, overload and over temperature conditions
- Shock resistant construction with internal conformal coated electronics
- 2 year warranty

Display Functions
Indicates percentage of AC power being used verses output rating. The scale turns red when output demand exceeds output rating

Included Remote
- On/Off Control
- Input power source LED indicators
- Check fault LED indicator
- Remote mounting screws and 9 ft. cable included

BATTERY ISOLATORS
ProMariner™ Battery Isolators with gold-plated terminals & improved efficiency, provide enhanced charging

Rated for use with DC devices ranging from 10 amps to 130 amps.

- Rated for use with DC devices ranging from 10A to 13A
- One or two alternators can be connected multiple battery banks
- Allows electric current to flow in one direction only
- Batteries will not discharge into undercharged batteries

ProSafe FS GALVANIC ISOLATOR SERIES
FailSafe Technology with Peace of Mind Dependability

Fail Safe CERTIFIED

Zinc Saving Technology

The ProSafe FS Series of FailSafe 30 Amp Galvanic Isolators will interrupt galvanic current flow with other boats at a marina when installed on a boat which is connected to AC Shore Power. This technology maintains AC safety ground and solves the most common forms of corrosion and premature zinc loss within a boats bonding system. The ProSafe FS Series is UL Certified to meet the parameters of the ABYC A-28 recommendation published July 31, 2008.

MARINE CE UL LISTED

Galvanic Isolator 3GF1

ProSafe FS installs easily and does not require a dedicated monitor to verify the operational status of the galvanic isolator as required by non-Failsafe Certified galvanic isolators. The ProSafe 30 Amp model is built on robust Flat Pack Semiconductor platforms, ensuring that in the event of a failure, the failure is safe by not compromising the ground continuity on-board when connected to AC Shore Power.

- **ABYC A-28 July '08 Compliant and Fail Safe Certified**
  Certified by Underwriters Laboratories (UL). Insures shore power safety ground wire is maintained through the isolator
- **Flat Pack High Power Semiconductors**
  Robust high power diodes allow the FS Series to meet the new FailSafe criteria for conducting inrush currents of 3,000 and 5,000 amps (FS30 respectively) for the required duration period
- **Ignition Protected**
  Meets ISO 8846 and can be mounted within an engine compartment
- **Gold Plated Terminations**
  Use ProSafe FS30 for 30 amp shore power applications

MINN KOTA

PRECISION ON-BOARD CHARGERS - For the Long Haul

Minn Kota chargers are digially designed to deliver just the right amount of power every time you plug in. No more. No less. Just a longer-lasting, better-performing battery.

FEATURES:

- Automatic Multi-Stage Charging
- Automatic Temperature Compensation
- AC Plug Holder
- LED Status Display
- Rugged, Waterproof, Vibration-Resistant Construction
- Saltwater Tested - Corrosion Resistant Construction
- Low-Line Voltage Compensation
- Battery Equalization
- Custom Charging
- Battery Selection By Bank
- Digital Control

NEW!

SPECIFICATIONS:

For use with 12-, 24-, 36- and 48-volt systems with 12V/6 cell batteries that are Flooded/Wet Cell, Maintenance Free, Starved Electrolyte (AGM/HP AGM), Gel or Lithium (Check Battery Specifications)

- FCC Compliant, CEC Compliant
- Designed to UL 1236 marine standard

DIGITAL ON-BOARD CHARGERS - Get Back Out There

Get into the digitally-controlled charger game with our Digital on-board series. They're fast and accurate, so you get back on the water sooner and stay out there longer.

FEATURES:

- Digital Control
- Automatic Multi-Stage Charging
- Automatic Temperature Compensation
- Status Code Display
- True-Rated Output
- AC Plug Holder
- Rugged Waterproof Construction

SPECIFICATIONS:

- For use with 12-, 24-, 36- and 48-volt systems with 12V/6 cell batteries that are Flooded/Wet Cell, Maintenance Free or Starved Electrolyte (AGM) only
- Short circuit, reverse polarity, arc and ignition protected
- FCC Compliant
- UL listed to marine standard 1236

DC ALTERNATOR ON-BOARD CHARGERS - An Extra Jolt

Get an extra boost of power and better battery life. Our Alternator chargers use charge-on-the-fly technology to redirect excess power from your alternator to your trolling batteries.

FEATURES:
- Charge-On-The-Fly Technology
- Battery Protection
- LED Display
- Waterproof Construction

SPECIFICATIONS:
For use with 12-, 24- and 36-volt systems with 12V/6 cell batteries that are Flooded/Wet Cell, Maintenance Free or Starved Electrolyte (AGM) only.
- Minimum Alternator Output: MK 1 DC is 12 amp min
  MK 2 DC is 25 amp min
- FCC Compliant

MKR-21 AC POWER PORT

This convenient adapter allows quick thru-hull connections to an AC extension cord.
- With no cutting or splicing required – using the male AC plug from any of our chargers
- The watertight cover and gasket prevent corrosion on the AC plug when it isn't in use

ORDER NO. 718-65108 Mfr. No.1865108

MARINCO

1.5 AMP ChargePro® MAINTAINER

Keep your battery charged with this highly reliable, Guest 1.5 Amp maintainer. Extends battery life and will charge, monitor and re-charge your battery if the voltage drops below 12.9V. The maintainer can be safely connected to the battery for short or long periods of time. To increase versatility the maintainer comes with alligator clips and ring terminals for the output cable. The maintainer will charge smaller batteries and maintain batteries up to 125Ah (group 31).

- Ideal for sport fishing boats, ski boats, jet ski's, ATV's, automobiles, tractors, riding lawn mowers and more
- For Wet, Gel and AGM batteries
- Charge batteries 1.2 Ah to 40Ah
- Maintain batteries 1.2Ah to 125Ah
- Energy savings mode automatically shuts off the charger when the battery is charged. The charger periodically monitors the battery and turns back on when the battery falls below 12.9V
- Maintainer can safely stay connected to the battery for long periods of time
- LED's let you know when the power is ON, battery is being charged and when charging is complete
- Includes ring terminals and alligator clips for connection to the battery
- Weather resistant, IP65
- 3-Wire AC plug, NEMA 5-15P
- 3 Year Warranty
- Meets UL 1236 and CSA Standards, cETLus

ORDER NO.	Mfr.No.	Output Volts	Output Amps	Banks	Cable Length	Size	Weight	AC In
102-27010	2701A	12V DC	1.5 Amps	1	6'	5.0" x 5.8" x 2.0"	2.3 lbs.	120V AC 60Hz

PROSPORT 1.5 AMP
Fully Automatic Battery Maintainer & Charger

ProMariner™

Ideal for personal watercraft, recreational ski and wake boats, ATV's, tractors and more.
Designed for maximum utility. Concealed mounting holes allow the ProSport 1.5 to be installed on-board or to be used as a portable, with rear die cut foam resting pad. Ring terminal and DC clamp quick connect cable assemblies included. Marine grade design is weatherproof, water resistant to IP 65 and can be used in all fresh and salt water outdoor and indoor applications as needed. Designed to keep 12 volt batteries fully charged during short or long term storage periods. ProSport's Energy Saver mode will monitor and auto maintain a battery when needed to maintain a full state of charge. Significantly reduces AC power consumption, lowers operating costs and maximizes reserve power performance.

- Fully automatic energy saving design
- Multi-use design, easily configures for on-board or portable use
- Concealed mounting holes and die cut foam resting pad for portable use
- Expanded LED display for Power, Charging and Auto Maintain status
- Maintain 12 volt lead acid (sealed & vented) batteries up to 150 amp hours
- Quick connect DC clamp & ring terminal assemblies
- Weatherproof and water resistant to IP65
- Built-in safety with reverse polarity, short circuit, temperature and ignition protection
- Pre-wired for easy installation
- 3 year warranty

Expanded LED Status Center

Dimensions	5.0" x 5.75" x 1.97"
Weight	2.3 lbs.

GUEST CHARGEPRO™

GUEST CHARGEPRO™ ON-BOARD BATTERY CHARGERS FOR 12, 24, 36 AND 48 VOLT SYSTEMS (MODEL SPECIFIC)

Guest On-Board battery chargers have been redesigned from the inside out to provide optimum performance. Our newest generation On-Board Marine battery chargers include leading advancements in digital charging technology and waterproof design/construction. Designed to maximize individual battery performance, extend battery life and show battery status better than ever before. Every Guest charger has dedicated battery charging, sensing and control per bank. The easy to read graphics indicate the status of each battery bank through the charging process. ChargePro's low profile flangeless extruded aluminum housing is sealed by gaskets with heavy duty end caps for 100% waterproof performance to IP67.

This new construction design delivers an increase in charging and thermal management performance. The new ChargePro Series is up to 40% lighter while increasing durability and ease of installation over prior generations of older technology epoxy filled plastic body chargers.

- All high frequency, digital charging technology
- Microprocessor and software control for precision, fully automatic 5-stage performance charging
- Fully automatic 5-stage performance charging
- Dedicated battery charging, sensing and control per bank
- Expanded LED charge status monitor
- Wiring and battery fault detection
- Auto-maintain energy saver mode
- Up to 40% lighter
- 100% Waterproof (IP67) and shock resistant for all fresh and saltwater applications
- All models are pre-wired for easy installation
- For all 12 volt flooded and AGM lead acid batteries
- Built-in safety: reverse polarity, over-current, over-voltage, over-temperature and ignition protection. In-line fuses for maximum DC wire protection.
- 2 year warranty

Certified to: UL STD 1236, CSA C22.2 No. 107.2, FCC Class B | IP67 | Energy Saving Technology | Designed and Constructed to: ABYC-31

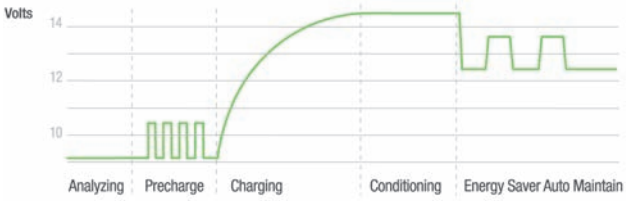
Fully Automatic Multi-Stage Performance Charging Overview



ChargePro's 5-Stage Performance Charging algorithm is fully automatic & designed to maximize battery performance & extend battery life.

Stage 1 - Analyze Mode: AC Power is applied. ChargePro's red Charging LED will flash indicating it is analyzing individual wiring connections for proper connection/polarity and that each battery is over 4.0V DC and capable of accepting a precharge. When completed any errors will trip a battery specific red fault LED, or if no faults are present the red Charge LED will illuminate solid red.

Stage 2 - Precharge Mode: For batteries under 10 volts, this mode is designed to pulse the battery up to 10 volts before accepting full rated constant current (Stage3). During this mode the red charging LED will be illuminated with a solid on.

Stage 3 - Charging Mode Constant Current: During this mode the red charging LED will be illuminated with a solid on indicating each battery is being charge in constant current mode as controlled by temperature until the battery voltage is raised to a precise 14.6 volts DC and the red Charging LED will shut off.

Stage 4 - Conditioning Mode Constant Voltage: During this mode the amber Conditioning charging LED will be solid on indicating each battery is being conditioned at 14.6 volts for up to 3 hours until the battery is fully charged. Followed by the amber LED turning off while the charger enters into Stage 5.

Stage 5 - Auto Maintain Mode:

During this mode the blue AC Power and green Auto Maintain LED will be solid on indicating each battery is being monitored while the charger is in standby mode consuming little to no power until the battery drops under 12.8 volts (fully charged) and the charger will turn on and auto maintain the battery in a fully charged state. This is fully automatic and safe for short and long term storage.

BLUE SEA SYSTEMS

P12 BATTERY CHARGERS

The P12 Battery Charger is a four stage, three output, dry mount device designed for use in harsh environments where reliability, ease of use, and high performance are of primary importance. Backed by a 5-year warranty and technical phone support, the P12 Battery Charger is designed, assembled, and tested at Blue Sea Systems' headquarters.

738-75320

Designed to meet these three core company philosophies:

1. Reliability
- Rugged, finned aluminum case
- Universal line voltage 90-265V AC, 50/60 Hz
- PreFloat™ stage prevents over charging by allowing each battery to end absorption stage individually
- Power factor corrected for efficient use of AC

2. Ease of Use
- Intuitive diagnostic screens
- User selectable charge profiles for Lead Acid, Gel, AGM, TPPL, & other battery types
- Provides charging for up to three battery banks
- Large, bright display
- Multi-language: English, French, German, Italian, Spanish
- Charge coordination with Blue Sea Systems Automatic Charging Relays (ACR) controls ACR state ensuring proper float stage for each battery.

3. Support and Safety
- Factory technical support
- 5 year warranty
- Ignition protected
- AC over & under voltage shut down & automatic restart
- Over and under battery temperature protection
- DC over voltage and reverse polarity protection
- Surge & short circuit protection

Regulatory:
Designed and constructed for compliance to UL-1236 Marine, CSA 22.2 No. 107.2, and ABYC A-31 standards.
Ignition Protection per ISO 8846, and SAE J1171.
Meets FCC Part 15, Class B requirements.

P12 BATTERY CHARGER REMOTES

P12 BATTERY CHARGER LED REMOTE

Indicates battery charger stage and alerts as well as controlling basic battery charger functions.

LED Indicators

- **Charging:** Quick check for green light confirms charging
- **Charge Stage:** Displays charging stage
- **Equalize:** Indicates the charger is currently in equalization mode
- **Fan Mode:** Indicates charger's internal fan mode
- **Charge Output:** Displays the percentage of output current for each battery. Will also indicate maximum output setting when maximum output is adjusted to accommodate for AC source limitations.
- **Alert:** Provides warning and alert status for quick diagnostics

Four Control Buttons

- **Fan:** User adjustable settings
- **Dim/ Alarm:** Provides adjustment to brightness of LEDs on display as well as Silence function for alarms.
- **Output:** User adjustable charger output when AC source limitations exist that require lowering the AC current draw.
- **Standby:** Places P12 Battery Charger into standby mode

ORDER NO.	Mfr. No.	Voltage
738-75200	7520	12V DC

EV BATTERY CHARGER DISPLAY

P12 EV BATTERY CHARGING OLED DISPLAY REMOTE

Intuitive Battery Monitoring

The EV Battery Charger Display provides two options to monitor your battery banks. It can display a graphical representation of voltage for 1 to 3 battery banks with or without connection to a P12 Battery Charger. When connected to a P12 Battery Charger it can display the charger's Summary screen, displaying voltage, current charging stage, and faults from the charger.

- Drop in replacement for traditional rectangular displays
- Automatically detects 1-3 battery banks
- AC charge indication verifies that power is connected and the battery charger is charging
- Plain language fault indication relays if there is a fault with the battery charger
- Dip switch selectable screen configuration allows the display to show voltage bar graphs or the P12 Battery Charger summary screen
- Displays voltage bar graphs even when AC power is not present
- Optional standby mode shuts off screen after 4 hours of inactivity
- Automatic ON based on motion with integrated knock sensor
- Bright, daylight readable, OLED display

ORDER NO.	Mfr. No.

Specifications:

Accuracy:	± 1% @ 36 Volts DC
Battery Inputs:	3 with common reference
Display Size:	55mm x 28mm
Display Type:	Yellow OLED
Input Voltage Range:	6-36 VDC
Maximum Current Draw:	50mA
Minimum Current Draw:	<1mA in Standby Mode

Regulatory Specifications:

IP66

MINI-ADD-A-BATTERY PLUS KITS - 65A

A complete small boat battery management system. Charge two batteries at or away from the dock. For alternators up to 65A. Shore charge up to 10A.

Includes a Dual Circuit Plus™ Battery Switch 6011 a 3 Stage, 10 Amp charger with an integrated 65A Automatic Charging Relay, and a LED charger remote.

738-76550

6011, m series Dual Circuit Plus™ Battery Switch
- Switches two battery banks simultaneously while maintaining battery bank isolation
- Can combine two battery banks in the event of a low start battery
- Tin-plated copper studs for maximum conductivity and corrosion resistance
- IP66 Proteced against powerful water jets

BatteryLink® Charger
- Integrated ACR provides DC charging from engine alternator
- AC plug-in while at the dock
- Battery temperature compensation prolongs battery life
- Includes a remote LED indicator
- Start isolation protects sensitive electronics from voltage sags and spikes
- IP67 Protected against immersion up to 1 meter for 30 minutes
- CSA C22.2 No. 107.2-01
- FCC Part 15: Subpart B Compliant

ORDER NO.	Mfr.No.	Description	Plug Style
738-76550	7655	Mini Add-A-Battery Plus Kit	North American: NEMA 5-15P

7605

IGNITION PROTECTED

7608

BATTERYLINK® CHARGERS

Charge two batteries with shore power or the engine's alternator.

AC Charging at the dock:
Use AC shore power to charge two isolated battery banks with the 3 Stage battery charger

DC Charging away from the dock:
Share the DC power from the alternator with both the Start and the Auxiliary battery through the integrated ACR.
- Battery Temperature Compensation prolongs battery life
- Start isolation protects sensitive electronics from voltage sags and spikes
- Includes LED remote indicator for charge status at the helm
- Snap-on insulating cover
- One-piece stainless flange nuts ensure safe and secure connections

Regulatory
Designed and constructed for compliance to UL-1236 Marine, csa 22.2 No. 107.2, and ABYC A-31 standards. Ignition Protection per ISO 8846, and SAE J1171. Meets FCC Part 15, Class B requirements. IP67 - Protected against immersion up to 1 meter for 30 minutes.
Specifications subject to change. See bluesea.com for current information including dimensional drawings.

Specifications

Nominal Voltage	12V DC
Number of Output Connections	2 positive, 1 negative
Universal AC Input	100V-240V
Typical Float Voltage	13.5V DC
ACR Combine Voltage	13.5V
ACR Open Voltage	12.75V
Terminal Stud Size	1/4"-20 (accepts M6 ring terminal)
Max.Terminal Stud Torque	60 in-lb (6.78 Nm)
Quick Connect Terminal Size	1/4" x 0.032"
Battery Types	Flooded, AGM, TPPL
Plug Style	North American NEMA 5-15P

*Battery bank sizes are tested to California Energy Commission compliance (CEC). larger and smaller size banks could charge well, but consume slightly more power over the charging cycle.

MINI ADD-A-BATTERY KIT - 65A

Simplifies switching and automates charging for a complete 65A, two battery bank solution for outboard powered boats. For alternators up to 65A.

The Mini Add-A-Battery Kit includes the **m** Series Dual Circuit Plus™ Battery Switch #6011 and the **m** ACR Automatic Charging Relay #7601. These components simplify switching and automate charging, so that all you have to do is turn the battery switch ON when you arrive and OFF when you leave. CE Marked

6011, m series Dual Circuit Plus™ Battery Switch
- Switches two battery banks simultaneously while maintaining battery bank isolation
- Can combine two battery banks in the event of a low start battery
- Tin-plated copper studs for maximum conductivity and corrosion resistance
- IP66 Proteced against powerful water jets

7601, m ACR Automatic Charging Relay
- Automatically combines battery banks when charging and isolates when discharging
- Dual Sensing senses charge on two battery banks
- Isolates batteries during engine cranking and when not charging
- Start isolation protects sensitive electronics from voltage sags and spikes
- Shares the charge between two batteries more efficiently than a battery isolator
- Allows efficient dual battery charging without needing regulator adjustment or rewiring
- IP67 Protected against immersion up to 1 meter for 30 minutes

ORDER NO. 738-76490 Mfr. No. 7649

738-76490

ADD-A-BATTERY KIT (DUAL CIRCUIT SYSTEM)

Simplifies switching and automates charging for a 120A, two battery bank solution for inboard and outboard powered boats. For alternators up to 120A.

The Add-A-Battery Kit includes the **e** Series Dual Circuit Plus™ Battery Switch #5511e and the **m** ACR Automatic Charging Relay #7601. These components simplify switching and automate charging, so that all you have to do is turn the battery switch ON when you arrive and OFF when you leave. CE Marked

5511e, Dual Circuit Plus™ Battery Switch
- Switches two battery banks simultaneously while maintaining battery bank isolation
- Can combine two battery banks in the event of a low start battery
- Tin-plated copper studs for maximum conductivity and corrosion resistance
- IP66 Proteced against powerful water jets

7610, 120 Amp SI (Starting Isolation) Automatic Charging Relay
- Automatically combines battery banks when charging and isolates when discharging
- Dual Sensing senses charge on two battery banks
- Isolates batteries during engine cranking and when not charging
- Start isolation protects sensitive electronics from voltage sags and spikes
- Shares the charge between two batteries more efficiently than a battery isolator
- Allows efficient dual battery charging without needing regulator adjustment or rewiring
- IP67 Protected against immersion up to 1 meter for 30 minutes
- ISO 8846 Marine

MARINCO
BEP PRODUCTS

PRO INSTALLER 400 AMP MEDIUM BATTERY SWITCHES

Marinco by BEP is proud to introduce the new range of Pro Installer Battery Switches. The ergonomic, innovative, patent pending design provides intuitive operation. With attention to functionality and use, the Pro Installer switches offer superior installation flexibility, high power capacity and unmatched reliability while improved design and ergonomics provide clear intuitive operation. The industry standard footprint enables easy mounting into existing or new installations.

- Common interconnection height - ability to "cluster" with other Pro Installer products
- Standard industry footprint (3.85" x 3.85")
- 400 Amp Continuous
- (600A Intermittent, 1500A Cranking)
- Durable Construction
- Tinned copper 10mm (3/8") Studs
- Stainless steel washers/nuts
- Fiber reinforced plastics
- Waterproof to IP66
- Accepts large cables with multiple lugs
- Knob removable in the off position, allows isolation during service
- Choose between 3 mounting styles, (Surface, rear panel, front panel mounting options)
- Intuitive, ergonomic switch positioning
- Clear graphics indicate switch position
- Innovative nut retention allows use of metric or imperial fasteners
- Tested to UL 1107 ignition protection
- CE certified, Meets ABYC standards

PRO INSTALLER ON/OFF BATTERY SWITCH

A powerful new generation battery switch with outstanding performance and features for both the installer, and end user. Three mounting options: surface, rear panel, and front panel mounting, plus optimized cable access makes installation a breeze. Pro Installer switches set the new benchmark with outstanding ergonomics, intuitive look/feel, and are engineered from the finest materials to withstand the harsh marine environment.

ORDER NO. 770-07700
Mfr No. 770

PRO INSTALLER DOUBLE POLE BATTERY SWITCH

Same industry standard mounting with On/Off operation. Used where positive and negative supplies must be isolated at the same time.

SAFETY NOTE: BEP does not recommend this for switching house and start battery systems at the same time, for safety reasons. You may need to isolate your engine battery in an emergency, but not your house battery which typically powers the communications. For this application please use the new Dual Bank Control Switch (772-DBC) or one of BEP's battery switch clusters.

Note: 771-DP is replacing 720-DP

ORDER NO. 770-07702
Mfr No. 770-DP

PRO INSTALLER DUAL BANK CONTROL SWITCH

This innovative (Patent Pending) switch combines the functions of 3 battery switches into one (House, Start, and Emergency Parallel) to intuitively manage 2 battery banks and 2 loads. A unique safety position isolates one load e.g. House "On", Start "Off" in case of engine malfunction, so an emergency radio call can still be made. Significant savings in both space and installation cost can be made, without compromising functionality or safety.

ORDER NO. 770-07721
Mfr No. 772-DBC

PRO INSTALLER SELECTOR (771-S) & SELECTOR WITH FIELD DISCONNECT (771-SFD)

Power requirements on boats have increased, and these 2 Selector switches offer high power capacity (400 amps continuous), the ability to easily fit doubled cables, and conform to the industry standard mounting footprint (Guest, Perko, Blue Sea).
Please note selector switches will not separate electronics from harmful engine starting spikes.
Note: 771-S is replacing 721

ORDER NO. 770-07713
Mfr No. 771-S

ORDER NO. 770-07713-FD
Mfr No. 771-SFD
Note: (With Field Disconnect)
Protects the diodes in an alternator when the switch is turned to the "OFF" position.

PRO INSTALLER 400A EZ-MOUNT BATTERY SWITCHES

As easy as 1, 2, 3, these revolutionary battery switches allow you to wire from the front. Never has installation been so easy and cabling so accessible. With their shared interconnection height, EZ-Mount battery switches "cluster" directly with the Pro Installer Busbar Range, resulting in the fastest, most compact installations. All ratings, footprints and features of the EZ-Mount switch match the high quality of our standard switches:

- Tested to UL1107 ignition protection, CE
- Tinned copper 10mm (3/8") studs
- Stainless steel washers/nuts
- Fiber reinforced plastics
- 400A Continuous / 600A 5 mins Intermittent / 1500A 10 secs Cranking
- Waterproof to IP66
- Same interconnection height as Pro Installer
- Removable knob allows isolation during servicing
- 3 removable sideplates for protection
- Industry standard 3.85" x 3.85" footprint

MARINCO
BEP PRODUCTS

BATTERY SWITCHES

- UV stable, impact and chemical resistant polycarbonate plastic
- Tin plated copper studs
- Removable side plates for ease of cable attachment
- Switches include removable back plate for flush mount applications
- Extra large cable access, up to 1/0 for the mini switch and 4/0 for the heavy duty

THE BEP ADVANTAGE

- Custom labels available for switch knobs
- Switches designed to modulate together for use with multiple battery banks
- Top rated by Power Boat Reports Magazine
- Can be flush or surface mounted
- All selector switches are **Make Before Break**
- Extensive OEM usage
- Tested to UL1107, meets ABYC and USCG Specifications, CE Approved

EASY FIT BATTERY SWITCH

Rated at 275A continuous and 1250A cranking for systems up to 48V. Designed to upgrade traditional post and lever type battery disconnect switches. Will fit in 7/8" hole through wall thickness of up to 3/4". Stud Size: 3/8"

700 2.75"L x 2.75"W x 4.25"D

ORDER NO. 770-07000

MINI BATTERY SELECTOR SWITCH

Rated at 200A continuous and 1000A cranking for systems up to 48V. Ideal for tight mounting situations on smaller boats. Will handle the cranking loads of any outboard engine on the market.

701S 2.75"L x 2.75"W x 3"D

ORDER NO. 770-07011

MINI BATTERY DISCONNECT SWITCH

Rated at 275A continuous and 1250A cranking for systems up to 48V. Switch features a removable knob in the "off" position to prevent unauthorized use of boat. Ignition protected.

701 2.75"L x 2.75"W x 3"D

ORDER NO. 770-07010

BEP MARINE MINI SELECTOR SWITCH WITH DUAL SENSE VSR

This system allows for dual battery charging using a battery selector switch. The dual sense VSR will allow the selected battery to be charged to 13.7V then close and charge the battery in isolation. When the engine is stopped and the voltage on the selected battery drops to 12.8V the relay opens and isolates the two banks. A simple battery management system and a great space saver for small boats.

714-140A-DVSR 2.75"L x 5.55"W x 3"D

ORDER NO. 770-07140

DIGITAL VOLTAGE SENSING RELAY

DVSR: Dual Battery Charging Made Easy

The Digital Voltage Sensing Relay (DVSR) allows the charging of a second battery bank from any single charging source. When the voltage on the charged bank rises sufficiently, the DVSR engages allowing the 2nd battery bank to charge. When charging stops and voltage falls, the DVSR automatically isolates the battery banks, ensuring that engine start batteries are kept fully charged. Digital circuitry provides superior reliability and extremely low power consumption.

- Safely charge two or more independent battery banks from one charge source (alternator, battery charger…)
- Charges engine starting batteries before combining auxiliary bank for charging
- Protects start batteries from becoming flattened by domestic loads
- Isolates electronics from harmful electrical surges from starter motors
- Simple to install 3 wire connection, leaves alternator wiring intact
- No volt drop vs. diode isolators
- Ignition protected
- Surface or panel mountable
- Replaces previous models 710-125A and 710-125A-DS

Dimensions: 2.75"L x 2.75"W x 2"H (69 X 69 X 50 mm)

Replaces 710-125A

2011 Digital Enhancements:

- Multi voltage, auto selects between 12 and 24V DC operation
- Digital circuits provide very low power consumption and enhanced performance
- Remote sensing circuitry allows optional connection from ignition switch, provides same functionality as single sense VSR and zero power consumption when engine is off
- Zero stand by current draw when remote sensing circuit utilized with storage mode switch fitted (switch in open position)
- Remote status LED output option

ORDER NO.	Mfr. No.	Volts	Rating (A) Continuous	Rating (A) Continuous	Engages (V DC)	Disengages (V DC)
770-71140	710-140A	12/24	125	140	13.4/26.8	12.8/25.6

BATTERY SELECTOR SWITCHES

Alternator field disconnect (AFD) allows selection of any position, including "off", without damage to alternator or electrical system. AFD is required on some electrical systems.

- Heavy-duty copper sweep contacts
- Positive click-stop on all positions
- "Make before brake" contacts allow selection of all positions except "off" while engine is running
- Use with 6, 12, 24 or 36 volt systems
- New design is easy to retrofit into existing hole patterns
- Built in skirt protects connections
- Surface or rear panel mounting
- Durable marine grade polycarbonate case
- 1 year limited warranty

8511 SERIES - COMPACT MEDIUM DUTY BATTERY SWITCHES

- Requires 1/3rd less space to mount
- Higher rating than popular 8500 Series switches
- New smooth rotary action
- Popular 90° Easy to identify position rotation
- Ignition Protected
- For use with 12, 24 and 32 volt marine electrical systems
- Safety Seal Design prevents water intrusion
- Without key lock
- Without alternator field disconnect
- UL Listed Std. 1107

BLUE SEA SYSTEMS

ML-SERIES REMOTE BATTERY SWITCHES (Magnetic Latch)

- Includes ML-Series Remote Control Contura Switch 2145
- Manual control switch provides an added level of safety allowing control with or without power, and offering "Locked Off" capability for servicing
- 500 Ampere continuous rating for engine, inverter, house loads, and emergency battery combine
- Bi-Stable Magnetic latching draws no current in "ON" or "OFF" state, only draws current when changing state of switch
- Silver alloy contacts provides high reliability for switching live loads
- 3/8" -16 tin-plated copper studs for maximum conductivity and corrosion resistance
- 7/8" (22mm) stud length accepts multiple cable terminals
- Label recesses for circuit identification

738-77000

738-77020

738-77130

Regulatory:

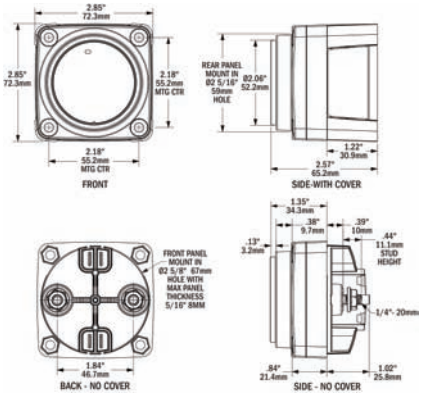
m-LVD LOW VOLTAGE DISCONNECT

Senses low battery voltage and automatically disconnects devices to save power for starting or to preserve battery life.

Features:

- Status light in both m-LVD and Remote Control Switch provides visual warning of low voltage state prior to disconnect
- Alarm output for audible warning of low voltage state prior to disconnect (optional alarm required)
- One-piece stainless flange nuts ensure safe and secure connections
- Remote Control Switch Functions:
  - **Disconnect voltage Adjustment** • Sets desired disconnect voltage
  - **Override** • Temporarily delays circuit disconnect for 10 minutes
  - **OFF** • Temporarily disconnects circuits until voltage rises
  - **Override or OFF** • Silences alarm (optional alarm required)
- Case design allows surface, front panel, or rear panel mounting
- Rear insulating cover protects rear contacts
- Waterproof – rated IP67 for temporary immersion
- Includes Remote Control Switch (#7928)



Specifications:

SPECIAL ORDER ITEM

ATD AUTOMATIC TIMER DISCONNECT

Adjustable time or voltage based battery disconnect automatically shuts off devices to preserve battery power.

- 12V signal triggers relay to connect battery power to devices. When signal is removed the timer is activated and will disconnect devices after a preset time.
- Disconnect can be triggered based on time, low voltage, or removal of 12V signal
- Low voltage will disconnect if time hasn't been reached to preserve battery power
- Time and voltage options can be turned off to allow 12V signal based disconnect
- Clip-on cover insulates terminal connections
- One-piece stainless flange nuts ensure safe and secure connections
- Integrated LED indicates status

Optional Features

- Remote LED remotely indicates ATD status - requires optional LED

BLUE SEA SYSTEMS

SI-SERIES AUTOMATIC CHARGING RELAY
(Start Isolation)

Automatically combines batteries during charging, and isolates when discharging and when starting engines.

Features:

- 120 Amp continuous rating - supports high-output alternators
- LED light indicates when batteries are combined and blinks when the undervoltage or starting isolation feature is engaged
- Side and bottom knockouts for power cable connections
- Clip-on cover protects terminal connections
- 1/4" x .032" male quick connect terminals for ground, optional remote LED and starting isolation
- 7/8" stud length to accept multiple cable terminals
- Start Isolation (SI) - Can be configured for temporary isolation of House loads from engine circuit during engine cranking to protect sensitive electronics
- 12/24 Volt DC auto ranging voltage input
- Hermetically sealed contacts / vapourproof
- Remote LED output indicates relay state away from ACR (requires optional LED)
- Senses charging on two battery banks

ORDER NO.738-76100
Mfr. No. 7610-BSS

ML-SERIES HEAVY DUTY AUTOMATIC CHARGING RELAYS
(Magnetic Latching)

Automatically manages the charging of two battery banks and offers optional manual override for emergency battery paralleling.

Features:

- 500 Amp continuous rating
- Magnetic Latch (ML) - ACR draws very low current (<10 mA to monitor terminal voltage) in the “ON” or “OFF” states, and draws moderate current for very short time when changing state
- Start Isolation (SI) - can be configured for temporary isolation of House loads from Engine circuit during engine cranking to protect sensitive electronics
- Engine Isolation (EI) - can be configured for isolation of two engines while both are running to protect engine electronics and maximize alternator output
- Senses charging on two battery banks
- Supports high-output alternators up to 500 amps
- LED output to remotely indicate when batteries are combined, isolated, in voltage lockout, in Start or Engine isolation (requires optional LED)
- 3/8" - 16 tin-plated copper studs for maximum conductivity and corrosion resistance
- 7/8" stud length to accept multiple cable terminals
- Label recesses for circuit identification
- Silver alloy contacts provide high reliability for switching live loads

Regulatory:

- CE Marked

Meets ISO 8846 ignition protection, and SAE J1171 external ignition protection requirements.
IP66 - Protected against powerful water jets

DC MINI ACR AUTOMATIC CHARGING RELAY

Automatically combines batteries during charging, isolates batteries when discharging or at rest

FEATURES:

- 65 Amp continuous rating manages the charging current from alternators up to 65 Amps found on most outboards and many inboard engines
- Compact case design allows surface and panel mounting
- Senses charging on two battery banks
- Snap-on cover insulates terminal connections
- LED indicates ACR status
- 1/4" x .032" male quick connect terminal for ground
- 5/8" (16 mm) stud length to accept multiple cable terminals
- 12V DC voltage input

DC BATTERYLINK™ ACR AUTOMATIC CHARGING RELAY

With Auxiliary Battery Priority

Automatically shares single source of charge with auxiliary battery

FEATURES:

- 120 Amp continuous rating manages the charging current from high output alternators found in many specialty vehicles
- 12/24V DC auto ranging voltage input
- Senses charging on two battery banks
- Side and bottom knockouts for cable connections
- Clip-on cover insulates terminal connections
- 7/8" (22 mm) stud length to accept multiple cable terminals
- Integrated LED indicates ACR status
- 1/4" x .032" male quick connect terminals for ground and optional connections

OPTIONAL FEATURES:

- **Auxiliary Battery Priority** shares the alternator charge with the auxiliary battery longer when engine is running
- **Remote LED** remotely indicates ACR status – requires optional LED *(See Page 338)*

BATTERY MAINTENANCE & RESTORATIVE FLUID

NATURAL MARINE BATTERY EQUALISER

This patented and proven, water-based liquid additive is the biggest improvement in battery chemistry in 75 years. By automatically putting sulphation back into liquid electrolyte it cleans the battery internally giving users up to double battery life.
Other benefits include increased CCA, extended storage, 25% reduction in charge time, 32% extended running time, reduced gassing and tougher plates. Ideal in all flooded lead-acid batteries including marine, forklift, snowmobile, UPS, and solar.
One 500 ml bottle treats 5 starting batteries. Ideal in all new or used batteries. Millions of bottles sold globally and marinas see battery sales increase significantly with new customer traffic. Many marinas are now offering to service batteries with Battery Equaliser in Spring or Fall.

MEGAWARE BatteryGuard

NEW!

Get the maximum performance and longevity from your battery.

Megaware BatteryGuard™ acts like a shock absorber and can help extend the life of your expensive battery. Excessive shock and vibration are two of the leading causes for battery failure. Megaware BatteryGuard™ sits under your battery and absorbs the gravity shock caused by excessive vibration and up and down bounce.

- Reduces up to 80% of the G-shock caused by excessive shock & vibration
- Great for boats, automobiles, ATVs, trailers, or anywhere shock & vibration can damage a battery
- Dimensions: 12¾" × 6⅞" × ⅜"
- Place in battery box or trayr
- Fits up to Group 31 Batteries

Mfr. No. 40131
ORDER NO. 660-40131

PERKO® MADE IN THE USA

9621 SERIES - SINGLE BATTERY DISCONNECT SWITCH

Cup Mount

For use with Alternators & Generators 6-50 V.D.C. Marine Electrical Systems.
Single Battery Disconnect Switch permits the battery to be shut off from the electrical system when the vessel is not in use. Also can serve as an emergency main disconnect switch in the event of an electrical problem.
Ignition Protected.
Rating:
140 amps continuous,
200 amps 5 min. intermittent,
250 amps 30 second start.

Materials & Finish
- Red polycarbonate polymer body
- Black polymer actuator key
- Nickel plated terminals
- Face Dimensions: 3" x 2-1/2"

Features
- Small compact size
- Unique oval shape mounts in a round hole
- Removeable actuator key adds additional security

Spare actuator key #9621DP0KEY

Panel Mount

THREE MOUNTING OPTIONS

1. Panel Mount w/ Backing Plate: Backing plate mounts flush on surface. Installation Hole Size: 2-1/8"

2. Bulkhead Mount w/ Mounting Legs: This option creates a space that allows for direct cable access. No mounting hole is required for this option.

3. Cup Mount: This option creates an attractive, durable easy open/close cover and protects the switch face. Installation Hole Size: 3"

Bulkhead Mount

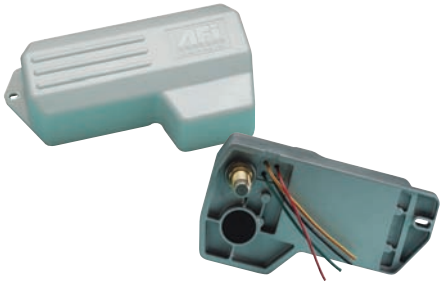
HEAVY DUTY WIPER MOTORS

AFI-1000
WATERPROOF WIPER MOTOR



- **Powers 18" x 18" arm/blade combinations at a sweep set of 80° or less**
- **Powers 16" x 16" arm/blade combinations at a sweep set of 110°**
- **Factory pre-set sweep of 80° or 110° adjustable to 50°, 65°, 80° or 110°**
- **5/8" diameter shaft**
- **Shaft Length: 2-1/2"**
- Fully sealed waterproof housing made of UV stabilized, high-temperature, high-impact thermoplastic
- 12 volt heavy-duty motor with anti-rotation drive shaft
- Knurled drive shaft and solid brass arm drive nut
- Adjustable right or left self-parking
- Coast to park
- Includes 5 amp fuse and holder (No on/off switch)
- RF shielded circuitry
- Maximum current draw: 5 amps
- Compact size - 6-5/8" L x 3-3/8" W x 2" H
- Weight: 1.75 lbs.
- Made in the U.S.A.
- **3 year warranty**

AFI-1.5
WATERPROOF WIPER MOTOR - 12V

- Fully sealed powder coated aluminum waterproof base and housing
- Powers a 22" Deluxe arm and 22" Deluxe blade combination or a 20" Premier arm/blade combination
- Available in two shaft lengths: 1.5" and 2.5" (Includes .5" length of knurled arm fitting)
- Factory pre-set sweep angles of 80˚ or 110˚, with easy adjustments to 45˚ or 60˚
- Chrome plated solid brass knurled drive nut with brass & stainless steel drive shaft
- Two speed motor • Sealed 6" wire leads, 16 AWG
- Adjustable right or left self parking
- 5/8" diameter shaft (16mm)
- Available in 12V • Coast to park
- RF shielded circuitry
- Includes 5 amp fuse and holder (operating switch not included)
- Measures approximately 7-3/4"L x 4"W x 2-3/4"D
- **3 year warranty**

AFI-2.5
WATERPROOF WIPER MOTOR - 12V

- Fully sealed powder coated aluminum waterproof base and housing
- Powers a 26" Deluxe arm and Deluxe blade combination or a 24" Premier arm and Premier blade combination
- Available in 2.5" shaft length: (Includes .5" length of knurled arm fitting)
- Factory pre-set sweep angles of 80˚ or 110˚, with easy adjustments to 45˚ or 60˚
- Chrome plated solid brass knurled drive nut with brass & stainless steel drive shaft
- Two speed motor • Sealed 6" wire leads, 16 AWG
- Adjustable right or left self parking • 5/8" diameter shaft (16mm)
- Available in 12V • Coast to park
- RF shielded circuitry
- Includes 6 amp fuse and holder (operating switch not included)
- Measures approximately 7-7/8"L x 4-1/4"W x 3"D
- **3 year warranty**

WINDSHIELD EQUIPMENT - WIPER ARMS

DELUXE STAINLESS STEEL ADJUSTABLE ARM

- All stainless steel
- Arm has “articulating/bent-back” feature
- Motor shaft mounting has additional set screw clamping

ORDER NO.	Mfr. No.	Description
103-33006	33006A	Adjusts 6-3/4" to 10-1/2"
103-33007	33007A	Adjusts 10" to 14"
103-33010	33010A	Adjusts 14" to 20"

DELUXE ADJUSTABLE PANTOGRAPHIC ARM

- Stainless steel
- Arm has “articulating/bent-back” feature

All AFI deluxe wiper arms come with an articulating feature which allows the arm to lock into position when it is bent back for window washing.

ORDER NO.	Mfr. No.	Description
103-33032	33032A	Adjusts 12" to 17"
103-33037	33037A	Adjusts 17" to 22"

HAND-OPERATED WINDSHIELD WIPER

Comes complete with stainless steel 7 1/2" x 12" wiper arm, 11" blade and all parts for installation. Handle is chrome plated brass and unit is fully adjustable for use with many different boat designs. For use on flat windshields only.

ORDER NO.	Mfr. No.
103-31000	31000

CLASSIC STRAIGHT BLADES

- Stainless steel
- Replaces most standard blades in boats made before 1990
- Does not work with standard or deluxe arms

ORDER NO.	Mfr. No.	Description

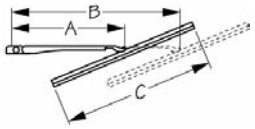
WINDSHIELD WIPER COMPONENTS STAMPED - 304 STAINLESS/LEXAN BLADES



All hook style wiper blades and arms are replacements for Sea-Dog wipers sold prior to 1993. In addition, the hook style wiper blades and arms will fit most older wipers sold by AFI, Wilcox, NA Taylor, GEM, L.S. Brown and others.

All current Sea-Dog wipers now come with the new slip-on hinge style wiper blades and arms. Verify style required prior to ordering.

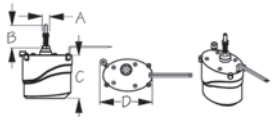
WIPER MOTORS/KITS & ACCESSORIES

WATERPROOF STANDARD WIPER MOTOR

Powder Coated Aluminum/304 Stainless

IP66 rating (dust tight and protected from strong jets of water), powers up to a 14" arm and blade combination (21" total length) using standard wiper arms, for exterior/unprotected locations. Adjustable sweep, preset at 80˚ or 110˚, and adjustable right or left hand park, factory preset for left-hand park. Stainless steel base plate, shaft, and knurled drive nut, with corrosion proof aluminum white power-coated housing. Fits the same footprint as almost all competitive standard (STD) wiper motors. CE approved, 3 Year Warranty.



ORDER NO.	Mfr. No.	Description	Sweep	(Shaft Dia.)A	(Shaft Dia.)B	C	D	Volts
424-12321	412321W-3	Motor Only	110˚	3/8"	2-1/2"	3-1/4"	4-3/8"	12
424-12328	412328W-3	Motor Only	80˚	3/8"	2-1/2"	3-1/4"	4-3/8"	12

WATERPROOF STANDARD WIPER MOTOR KITS

Powder Coated Aluminum/304 Stainless

ORDER NO.	Mfr. No.	Description	Sweep	(Shaft Dia.)A	(Shaft Dia.)B	(Arm) C	(Blade) D	Volts
424-12421	412421W-1	Kit	110˚	3/8"	2-1/2"	11"-13"	11"	12
424-12428	412428W-1	Kit	80˚	3/8"	2-1/2"	11"-13"	11"	12

Includes a waterproof standard motor, an adjustable standard arm, and an 11" blade.

SYNCHRONIZED WIPER CONTROL

Powder Coated Aluminum/Stainless

ORDER NO.	Mfr. No.	A	B	C	D	E	Voltage	Fastener
424-14800	414800-3	13/16"	1-7/16"	4-7/16"	4-3/8"	1-5/16"	12	#8RH

Synchronizer will sync up to three wiper motors and adds an interval speed position to the traditional two-speed motor. One short push takes the motors from interval, to slow then to fast speed. One long push activates the primary motor only. Capable of operating a washer system like the Sea-Dog #414900-3.
Kit includes: synchronized controller, switch and 5' wiring harness. Overload protected. CE Approved.

For more information see: www.www.sea-dog.com

ELECTRIC HORNS

MARINCO

All AFI electric horns exceed NMMA/ABYC specifications for vessels up to 12 meters.

MINI TWIN ELECTRIC HORN

- Type 304 stainless steel covers, diaphragms, and mounting bracket
- 3"L x 8"W x 1-3/4"H
- One year warranty
- Combines high styling with a powerful dual tone - high and low notes provide a melodic tone
- A dual version of the 10035
- Mounts almost anywhere
- Ideal for bass boats and runabouts in a freshwater environment

ORDER NO. 101-10001

Mfr. No. 10001

- Maximum amp draw: 6 Amps, 12 Volt
- db(A) rating: 109 at 1 metre
- Fundamental frequency: 490 ± 20/440 ± 20Hz

MINI COMPACT ELECTRIC HORN

- Totally sealed sound unit
- Type 304 stainless steel cover, diaphragm, mounting bracket
- 3"L x 3-1/4"W x 1-3/4"H
- One year warranty
- Original AFI design
- Most popular compact marine horn worldwide
- Inexpensive
- Will mount almost anywhere

ORDER NO. 101-10035

Mfr. No. 10035.

- Maximum amp draw: 3 Amps, 12 Volt
- db(A) rating: 106 at 1 metre
- Fundamental frequency: 440 ± 20Hz

MINI HIDDEN HORN

- Type 304 stainless steel diaphragm
- Dimensions: 3-1/4"W x 3/4"H x 3"L
- Maximum amp draw: 3 Amps
- dB(A) rating: 105 at one meter
- Fundamental frequency: 440 ± 20Hz
- Designed for below deck or hide-away locations with limited installation area
- 1 year warranty

Note: This horn is not designed for installation in exposed areas.

1 MILE PULSAR™ Sidelights

Twist/bayonet lock design secures lens and cover to base. Includes a 9-watt (#906),wedge base lamp and 7" wire leads for connection to 12 VDC power supply. Installs directly to deck with two #10 fasteners. Cover and lens conceal installation fasteners and seal water out of lamp and hull. For use on boats up to 39.4 ft. (12 meters). USCG certified 1 NM.

BI-COLOUR COMBINATION, HORIZONTAL DECK MOUNT

- Footprint: 2-3/8" Dia.
- Height: 1-7/16"

ORDER NO.	Mfr. No.	Lens Colour	Finish
105-50450*	5045-7	Bi-Colour	Black

*One-mile, 225° light visibility

RED/GREEN PAIR, RAISED BASE

Ideal for use where the light must be elevated for visibility above rails and carpeting. Notch in rear of mounting base provides passage for wire leads. For use on boats up to 39.4 ft. (12 meters). Two pre-drilled holes for required #10 fasteners. USCG certified 1 NM.

- Includes a 9-watt (#906) wedge base lamp
- Footprint: 3-1/8" L x 1" W
- Height: 3"

ORDER NO.	Mfr. No.	Lens Colour	Finish
105-50801*	5080R7	Red	Black
105-50802*	5080G7	Green	Black

*Each light provides one-mile, 112.5° visibility

1 MILE ZAMAK DECK MOUNT SIDELIGHTS

These die-cast ZAMAK sidelights with Perma-Plate® finish provide one-mile visibility for power boats up to 39.4' (12 meters). Mounts on decks or gunwales with external screws. Includes 7.5-watt lamp and 7" hardwire leads for 12 VDC electrical connections.

BI-COLOUR COMBINATION, DECK MOUNT

Housing completely encases socket. Installs with two #8 fasteners (not included). One-mile 225° visibility.

ORDER NO.	Mfr. No.	Dimensions at Base	Repl. Lens Set
106-63750	6375D6	1-3/8"H x 2-3/4"L x 2-1/2"W	106-37525

www.attwoodmarine.com

PLUG-IN POLE LIGHTS

Attwood offers a selection of durable stowaway pole-mounted lights. Plug-in Pole Lights are available in socket styles to fit almost any base - Attwood's 2- & 3-pin bases, or even competitive brands of bases when the 2- or 3-pin Locking Collar pole is specified.

PULSAR™ BI-COLOR COMBINATION SIDELIGHT WITHOUT TASK LIGHT - POLE ONLY

One-mile, 225° red/green light visibility for boats up to 39.4 ft. (12 meters). Available in straight or angled pole. Includes 9-watt wedge base lamp. Installs into most 2-pin bases. Includes optional locking collar. Base not included. USCG certified 1 NM.

105-50910

ORDER NO.	Mfr. No.	Description	Pole Type	Pole Length	Fits Base #
105-50910	5091-10-7	2-Pin Standard Pole	Angled	10"	109-11339
105-50920	5092-10-7	2-Pin Locking Collar Pole	Straight	10"	109-91020

ARTICULATING HEAD ANTI-GLARE ALL-ROUND POLE LIGHT

The bottom aperture reduces glare at 7.5° below horizontal. Above horizontal, the continuous arc of light makes the boat more visible to taller craft. The patented Articulating Head adjusts from 15° forward to 15° aft. Just align to the horizon and tighten the adjustment screw! Simplifies inventory because one light fits most angles and installations. Simplifies installation too because the Universal Locking Collar Pole fits 95 percent of existing bases - Attwood models, as well as competitive bases, such as Perko® brand.

Base not included

ORDER NO.	Mfr. No.	Description	Pole Length

TELESCOPING ALL-ROUND POLE LIGHTS

For older-style boats, this light features a die-cast ZAMAK base with locking knob that allows pole to be lowered to the gunwale when not in use. Includes one 12-watt lamp. Has three countersunk holes for #10 fasteners.Note: Adequate clearance is required below deck for pole when lowered. Frosted globe lens. Two-mile visibility, 360°. USCG certified 2 NM.

Stores easily in less space than conventional stern light and can be removed quickly from any Attwood light base.

- Aluminum pole telescopes from 26" to 42"
- Universal Two-Pin Contact
- Locking Collar to ensure light stays in the base
- USCG 2NM - 360˚ illumination for boats up to 65.6 ft. (20m)
- Includes 12-watt lamp

LED AREA LIGHTING

STAINLESS STEEL LED SPOT LIGHTING - 12VDC

These LED lights exceed the output of comparable halogen lights while using 20% of the power. Fully potted electronics and stainless steel housing allow for interior and exterior mounting. Lights are only 1/4" thick which allows for easy surface applications. These lights are cool to the touch and eliminate the burn hazard that halogen lighting can present. Rated for 50,000+ hours of life.

Standard 2- Pin Pole

Aftermarket Dual Locking Collar

Note: Locking collar design is compatible only with LightArmour Plug-In Bases.
NV6 Pole Light Series: Use with Light Base (910R2, 901V2, 910T2, 2520, 911339*, 911370*, 911445*) bases.*
NV6 Pole Light Series with task light: Use with (910R3, 901V3, 910T3, 2530) bases.*

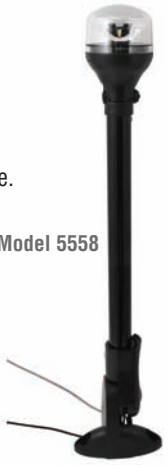
2-Mile

LED ALL-ROUND FOLD-DOWN LIGHTS WITH LIGHTARMOR™ BASES

LIGHTARMOR

All Attwood All-Round Fold-Down Navigation Lights include a new durable, easy-to-use, easy-to-install, LightArmor™ Fold-Down Base that allows light to swing 180˚. In extreme conditions, if a12ft/lb. force hits the base, the cam lock releases and allows base to swing down, reducing the chance of breakage to base or pole. All wiring is concealed and protected within the pivoting base.

- Robust design provides easy, single-handed cam lock operation
- Built to last in harsh marine environments

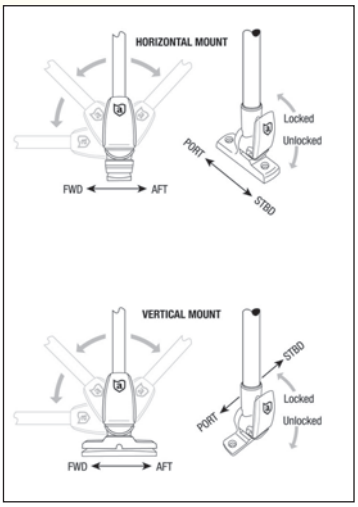


Model 5558

Model 5557

LED Articulating Anti-Glare
Draws 20% less power than traditional all-round lights

- USCG certified
- Provides 2-mile, 360˚, illumination for boats up to 39.4 ft. (12m)
- Operating range = 10.5 VDC - 14.4 VDC
- LightArmor™ All-Round navigation light engine
- 30% lighter light engine than earlier Attwood all-round lights
- Exclusive condensation management increases visibility
- Exclusive anti-glare engine preserves night vision
- Shock, corrosion and water-proof electronics
- Durable, anodized aluminum pole
- Articulating head for use in all applications
- Includes new LightArmor™ Fold-Down Base
- Bases are glass-filled polymer
- Bases install with two #10 fasteners
- Over 50,000 hour life



LIGHTARMOR

PLUG-IN BASES

Are designed for premium performance, durability, and attractive styling that helps them stand out. This combination of intelligent design and engineering make them worthy of the Light Armor name.

- They're a sure fit - threaded design feature fits perfectly with the threaded locking collar now offered across the entire line of Attwood pole lights. This unique system ensures a tight and secure fit that prevents annoying rattling while underway or trailering
- Plenty of style choices - 3 popular shapes and a range of materials
- Unique cover design ensures that the cover stays in place
- Low-profile prevents water from pooling on the top surface

910V SERIES RECTANGULAR BASE

LIGHTARMOR

Classic rectangular design is available in Black Composite & 316 Stainless Steel.

REMOVABLE BI-COLOUR POLE LIGHTS

Removable bi-colour lights are ideal for boats with casting decks on the bow. Unlike conventional bi-colour lights that can stand as high as 2" above the deck, removable bi-colour lights can be unplugged and stowed while fishing.
This leaves only a small flat-topped base. Longer lengths are designed for larger trolling motors.

CERTIFIED FOR USE ON SAIL OR POWER DRIVEN VESSELS UNDER 12 METRES (39.4 FT) IN LENGTH

- Black polymer top and locking collar with red and green lenses
- 3/4" diameter anodized aluminum tube
- Requires 2 pin mounting base
- Gold plated contacts
- USCG certified 1 nm
- CE certified

WHITE ALL-ROUND LIGHTS

DELTA SERIES - UNIVERSAL REPLACEMENT REDUCED GLARE DESIGN

CERTIFIED FOR USE ON POWER DRIVEN VESSELS UNDER 20 METRES (65.6 FT) IN LENGTH

A reduced glare globe preserves night vision while under way. Adjustability of the globe allows for proper horizontal alignment regardless of base configuration.
Delta's combination of features put it in a class by itself - no other pole light system offers more.

- 2 globes - reduced glare and full output
- 2 collars - threaded and locking
- 2 screw positions
- Wide 40° adjustable head
- Gold plated contacts
- Designed to also fit most other manufacturers' bases
- Black polymer top with clear fluted lens
- 3/4" diameter anodized pole
- 12 volt bulb (included)
- USCG certified 2nm
- CE certified

ALPHA SERIES - UNIVERSAL WHITE ALL-ROUND LIGHT

CERTIFIED FOR USE ON SAIL OR POWER DRIVEN VESSELS UNDER 20 METRES (65.6 FT) IN LENGTH

Traditional frosted globe allows for all round visibility even when globe orientation is not horizontally aligned. In addition, this design also provides limited cockpit illumination.

- Replacement stow-a-away plug-in type
- Black polymer top with white translucent globe
- Selective use of 2 screw holes and/or collar allows for use in multiple applications
- Gold plated contacts
- Designed to also fit most other manufacturers' bases
- Pole rake 0°
- 3/4" diameter anodized pole
- USCG certified 2nm

PERKO® MADE IN THE USA

INLAND SERIES REDUCED GLARE WHITE ALL-ROUND POLE LIGHTS

CERTIFIED FOR USE ON SAIL OR POWER DRIVEN VESSELS UNDER 20 METRES (65.6 FT) IN LENGTH

The original "Reduced Glare" light, this design helps preserve night vision. In addition, since the amount of light wasted outside of the visibility zone is greatly reduced, this light does not attract as many bugs.

- Stow-a-way plug-in pole
- Clear fluted globe
- Black polymer top
- Contemporary styling
- Gold plated contacts
- USCG certified 2nm
- CE certified
- 12 Volt bulb (included)

LED PORTABLE LIGHT KITS

Be seen and be safe with these compact and portable LED navigation lights. All new portable navigation lights are more durable, easier to use, and include Attwood's strongest mounting and pole configurations. Ideal for personal watercraft, camping, and hunting. Kits include red/green LED bow light, white LED stern light, quick-release mounts, pole, and hardware.

- New water-resistant bow and stern navigation lights
- Attwood's most durable, portable LED navigation light engines
- Sealed electronics, built to last in harsh conditions
- Sealed, shock-proof composite housing
- Shatter-proof polycarbonate lens
- 150+ hour run-time on three AAA batteries (not included)
- New telescoping and threaded poles
- New heavy-duty C-clamp and kayak pad mounting option

ROUND TRANSOM LIGHT - 3"

Light provides 2-mile, 135° transom visibility for pleasure craft up to 164 ft. (50 m) in length. 304 stainless steel with a plastic body and watertight lamp socket. Round transom light body is translucent, so it shines on both sides of a bulkhead! Can be used to light an interior compartment and may also be used as a cockpit courtesy light. Rubber gasket seals lens and body to mounting surface. Includes (2) stainless steel #10 screws.
7.5 watts at 12-volt DC
Vertical, flush mount
Patented design

Approved for Day or Night Use

RED HANDHELD FLARE

This high intensity signal burns for 60 seconds and produces a signal with 15,000 candlepower. This is the perfect unit to help rescuers pinpoint your position.
Will not produce hot residue harmful to inflatable life rafts. Pull cord ignition system.
USCG Approved NOs. 160.121/A5/0,160.021/A28/0
Transport Canada Approved: TC-002-032-039, Meets SOLAS LSA code 3.2

ORDER NO.077-52186 Mfr. No. 52186 DG

Approved for Day or Night Use

ORANGE FLOATING SMOKE SIGNAL

This is the best daytime approved signal to help rescuers pinpoint your position. Each floating canister delivers 3 minutes of a dense orange cloud. Will not harm the environment.
USCG Approved NOs. 160.122/A4/0,160.022/A14/0
Transport Canada Approved: TC-002-032-040, Meets SOLAS LSA code 3.3

ORDER NO.077-52151 Mfr. No. 52151 DG

Approved for Day or Night Use

DG **Subject to Dangerous Goods Fee**

NON - APPROVED SIGNALS

SOLAS, WHITE ILLUMINATING ROCKET

Ideal for night search and rescue operations, reaches an altitude of 300 metres (1000ft.), 200,000 candlepower signal that stays aloft and burns for 25 seconds. Easy trigger ignition system.
Not approved for marine distress by USCG or TC.

DG

ORDER NO.077-52562 Mfr. No. 52562

WHITE HANDHELD SIGNALS

These 10,000 candlepower-60 second signals are intended to caution approaching vessels of your position, or to illuminate an area at night. They meet the same construction standards as the red flares, but are not USCG, or SOLAS approved since there is no standard for white flares. Will not produce hot residue harmful to inflatable life rafts.

DG

FOX 40 marine

WATERCRAFT SAFETY THROW

Watercraft Safety Throw is a superior alternative to fabric throw bags. Aerodynamic shell sails through windy conditions while traditional fabric bags tend to get caught up in the wind. The integrated handle is clearly visible and easy to grasp. A quick-release plug prevents the rope from deploying inadvertently. The 50 ft premium polypropylene braided floating rope has 900 lb breaking strength. Unique knit rope provides a degree of stretch while also providing ultimate strength.

ORDER NO. 561-95010 Mfr. No. 7901-0201

WATER SAFETY ROPE & FLOAT – 50FT

Much softer and easier to handle than conventional coarsely-braided ropes. Made from extra-fine polypropylene filaments woven into high-density braid. Float made of expanded poly-vinyl chloride for maximum toughness, weather-resistance and long-service life. Lab-tested to 900 lb breaking strength.

ORDER NO. 561-95050 Mfr. No.7905-0000

RESCUE THROW BAGS

Highly durable drawstring bags. Contains premium polypropylene woven floating rope with 700 lb breaking strength. Easy to use, handle, and store. Bright red colour makes it easy to locate in emergency.

50 FT. THROW ROPE/RED BAG

ORDER NO. 561-95011 Mfr. No. 7907-0102

90 FT. THROW ROPE/ORANGE BAG

Includes adjustable strap with heavy-duty J-clip and 3M reflective tape.

ORDER NO. 561-70302 Mfr. No. 7909-0302

For more information see: www.fox40world.com

Scotty

ECONOMY BUOYANT HEAVING LINE

- 50' x 9/32" 660 lb. test
- 15m x 7mm 300 kg. test
- Braided MFP polypropylene floating rope.
- Bright orange nylon and polyester self-draining bag with adjustable strap & 3M reflective safety band.

ORDER NO. 382-00793 Mfr. No. 793

For more information see: www.scotty.com

NOTE: A buoyant heaving line is one of the personal protection items required effective April 1,1999 by the Canadian Coast Guard. It is a mandatory minimum on all sailboats, paddleboats, watercycles, canoes, kayaks, rowboats as well as pleasure crafts up to 20 metres in length. It applies to rentals for recreational purposes.

AIRHEAD

LIFE LINE™ RESCUE THROW BAG

- 50 ft. long
- Constructed of rugged bright orange, UV resistant 600-denier polyester

SHARX MARINE WHISTLE

The first Fox40 Pealess Whistle designed specifically for the outdoors.

Exceptional sound! Extremely easy to blow! Works wet or dry! Flawless and consistent performance makes it the preferred, most reliable and trusted whistle for search, rescue, outdoors and personal safety. Emits effortless authoritative sound power of 120 dB that can be heard for miles over ambient noises. Specifically designed to perform in the nastiest weather conditions! Works wet or dry. Made from durable polycarbonate and co-molded elastomer for added comfort and slip resistance.

Design: 2-chamber/4 resonators; pealess

Sound Power: 120 dB

Includes Breakaway Lanyard

ORDER NO.	Mfr. No.	Colour	W/ Breakaway Lanyard
561-87322	8703-2208	Blue/Yellow	Yes

FUZIUN CMG® PEALESS WHISTLE

A combination of the Classic® & the Sonik Blast CMG® Whistles

- 3 Chamber design is flawless, consistent and reliable
- Cushioned mouth grip
- Optimal "Whistle Sound Power"

Design: 3-Chamber / Pealess + CMG®

Sound Power: 118 dB

NO. 786 LIFESAVER #1 SAFETY WHISTLE

The world's most advanced all purpose safety whistle.

Designed by search and rescue professionals. The synthetic peas will not absorb moisture or freeze. Works when soaking wet - clears instantly.

- ABS Plastic will not stick to mouth in cold weather as metal whistles do
- Double chambered for multiple pitches
- Comes with universal locking safety clip
- Waffled Sure-grip
- Meets anti-choking standards for children
- Large Tooth-grip for hands-free use
- Lip Seal prevents loss of air in extreme cold

Meets Coast Guard Requirements
Loud! - Up to 118 dB

APPROVED LIFE RING BUOYS

DOCK EDGE®

Dolphin™

Dolphin Life Rings are the only Life Rings manufactured in North America with U.S. Coast Guard, Canadian Coast Guard and DOT approval. All Dolphin Life Rings are rigorously tested and monitored by The Underwriters Laboratories of the United States and Canada.

The Ring bodies are warranted for seven years under all climatic conditions and are resistant to fire, oil, and gas. The hard shell prevents tearing and ripping and is virtually vandal proof. The design allows for easy rope replacement should the rope become damaged, thus ensuring the integrity and continued certification of the Ring.

Dolphin Life Ring Buoys are roto-molded for strength with a polyethylene shell and filled with closed cellular foam for long life under extreme marine conditions. They conform to all standards up to and including S.O.L.A.S. standard 7483.
Sold by each.

ORDER NO.	Description	Case Qty	Color
112-00001	Ring Buoy 20"	(6pcs/Case)	White CAD (Not CCG Approved)

FIREBOY-XINTEX®

DG

FIRE EXTINGUISHERS

The Fireboy® manual feature is a backup for those who prefer the extra measure of control or for inspected vessels who are required by U.S. Coast Guard regulation. Diesel-powered craft must install Automatic Engine Shutdown System. MA2 Series fire extinguisher systems feature positive backup via a mechanical pull cable. Primary activation (heat response) is automatic at 175° F (79° C).

WARNING:
Diesel-powered craft must also install the Automatic Engine Shutdown System.

ORDER NO.	Mfr. No.	Maximum Volume	Unit Diameter	Unit height
454-07527-B	MA20075227-BL	75 cu. ft. 2.1 cu. m.	3-1/2" 89 mm	15" 380 mm
454-12527-B	MA20125227-BL	125 cu. ft. 3.5 cu. m.	5" 127 mm	15" 380 mm
454-17527-B	MA20175227-BL	175 cu. ft. 4.9 cu. m.	5" 127 mm	15" 380 mm

- USCG and FM approved.
- Actuation temperature: 175° F (79° C)
- Mechanical actuation possible with pull cable assemblies and must be installed in order to retain USCG and FM approvals. Other cable lengths available from 6' to 100' through special order (allow 2-4 weeks).
- Models protecting enclosures from 25 cubic feet (.71 cubic meters) through 600 cubic feet (17 cubic meters) may be installed vertically or horizontally.
- Models protecting 650 cubic feet (18.4 cubic meters) through 1500 cubic feet (42.4 cubic meters) may be installed vertically or tipped to 60° off horizontal (30° off perpendicular).

DG Subject to Dangerous Goods Fee

HIGH-TEMPERATURE MANUAL DISCHARGE CABLES

Fireboy High-Temperature Manual Discharge Cables allow for the manual discharge of an MA2 or GA Series system when smoke or flames are detected and meet the U.S. Coast Guard flame-test guidelines for fire resistance. Determine the length of cable needed by measuring from the extinguisher head to the desired location where the red T-handle can be easily pulled. Use the shortest allowable cable when possible. Maximum allowed bending of the cable (in degrees) should not exceed 360° and should be taken into consideration when selecting the cable length.

MARINCO BEP PRODUCTS

GAS DETECTOR W/CONTROL

Same as 600-GD but has the ability to switch a valve on. The unit has a unique "Pulse & Hold" circuit. This allows the valve to be pulled in at 12V then steps down the voltage to hold the valve in place at 250mA. This reduces power consumption and heat build up.

- Operating Voltage 10 to 32 Volts DC
- Self testing capability
- Microprocessor control
- Provision for external alarm
- Automatic shut-off solenoid control with pulse and hold circuit for low power draw (600-GDL only)
- Provision for bilge blower
- Dual sensor capability
- For remote alarm operation use part no. 54-27C4

ORDER NO. 770-06001
Mfr. No. 600-GDL

CMD6-M MARINE CO ALARM

Carbon Monoxide Alarm with New Sensor Technology

MADE IN THE USA

NEW!

How the Fireboy-Xintex CMD6-M CO Alarm Works:

The Xintex CMD6-M CO alarm uses a sensor operating with a microprocessor to measure Carbon Monoxide (CO) levels. Using a "Time-Weighted Average" (TWA) process, it monitors CO concentration, temperature and time to calculate levels of Carboxyhemoglobin (COHb). COHb is the degree to which the oxygen carrying capacity of the blood is impeded by the union of carbon monoxide to the hemoglobin and is expressed as a percentage. The human body absorbs CO easier than oxygen and COHb is the ratio of absorbed carbon monoxide to oxygen in the bloodstream. The CMD6-M alarm calculates this COHb as a function of time and determines the appropriate alarm response.

Recommended Carbon Monoxide Detector Installation:

A carbon monoxide detector should be installed in each accommodation space. Small crafts with an open design may require only one detector for adequate protection. If two or more sleeping areas or spaces are partitioned then one detector should be installed in each of the spaces.

- **New Sensor Technology**
  Electrochemical sensor – immediate and stable sensing reduces false alarms
  Ultra-low current draw – 4 mA
  Long sensor life – Approx. 7 year End of Life (EOL)
- **Multiple Location Warning**
  All connected CMD6-MI Alarms sound together
- **Compact Design for Inconspicuous Protection**
  Modern design blends in with interior decor
- **Battery Operated Version requires No Power Wiring**
  Reduced labor and material costs to install
  Maintenance free lithium-metal batteries
- **Relay module available for generator shutdown**
  One relay control module for multiple CO alarms

- **Fireboy-Xintex quality and reliability on board**
  - Microprocessor controlled
  - Conformal coated circuit board for added protection
  - Time-weighted average CO measurement process constantly monitors all CO levels
  - Highly resistant to most chemicals, solvents & cleaners
  - Internal batteries or 12/24 VDC models available
  - CMD6-M Marine Series CO Alarms Tested by ETL to UL 2034, (Edition 4)
  - ABYC A-24 24.4.5
    Enclosed accommodation compartment
    - one contiguous space, surrounded by permanent structure that contains all the following:
    - Designated sleeping accommodations
    - Galley area with sink
    - Head Compartment

Needs to be activated before use!

TELESCOPING BOAT HOOKS

The Most Dependable Twist Lock and Strongest Boat Hook End

A tough boat hook is a valuable asset when launching, docking, mooring or retrieving your favorite hat. Team™ fixed boat hooks come in two lengths, 4' and 6' (1.2 and 1.8m). Our telescoping boat hooks adjust to 8' or 12' (2.4 and 3.7m). The threaded end accepts a deck brush, mop, squeegee and other accessories. A highly visible, soft vinyl tip covers the threads and protects the boat's finish when fending off.
All Team™ boat hooks float!

This Lexan® Hook is virtually UNBREAKABLE LIFETIME GUARANTEE If Lexan® Hook should ever break, send broken piece to Davis for free replacement kit. DAVIS • Hayward, CA • U.S.A.

#4132 Telescoping Boat Hook

TELESCOPING PADDLE/ADJUSTABLE PADDLES

Paddles are required by law in many states aboard PWC's and small boats. Team™ adjustable paddles stow easily and telescope to 3'9" (.51 to 1.14m). Our Paddle/Boat Hook combination is great to have on board and at the launch ramp. The bright orange paddle end doubles as a signalling device. Made tough for years of hard use.

ORDER NO. 510-04330

BOAT HOOKS

Injection Molded Nylon/Aluminum

Sea-Dog boat hooks feature an over-molded soft rubber coated hook to protect your boat from scuffs and scratches. The bright orange rubber tip cover is readily visible and removes for accessory attachment. The four-point hook attachment, comfort grip handle, and marine grade aluminum tubing make for a high quality and durable accessory. Its buoyant design keeps the boat hook afloat for more than 5 minutes.

LARGE BOAT HOOK MOORING BUOY SNAP KIT

Investment Cast 316 Stainless/304 Stamped Stainless

ORDER NO.	Mfr. No.	A	B	C	D	E	F	Fastener
424-91058	491058-1	1/2"	8-1/8"	1-3/16"	2-1/2"	1-11/16"	3/4"	#8FH

The safe and easy solution for attaching a mooring line to a mooring buoy or cleat. These channeled 316 stainless steel snaps fit onto the end of boat hooks or other poles, using the included backing plate, turning a challenging task into a quick and simple process. The kit includes the snap hook, keeper plate and fasteners for attaching the keeper plate (Sea-Dog® boat hooks have pre-drilled holes for ease of installation). Truly a life saver on high bowed vessels. Simply reach out with the boat pole, hook the carabiner on the inside of the attachment point, then pull back on the boat pole. The carabiner snaps shut as it slides free of the pole and you're now clipped to the mooring eye or cleat. The large size works on cleats up to 24"! WLL-2,185 lbs.

HEAVY DUTY CLOTH VINYL COATED ANTI CHAFING TAPE

Protects your lines from chafing or breaking at the dock or on the boat. Ideal for protecting dock lines, mooring lines, rigging, etc.
Developed to withstand salt water.
12 mils thick, yet soft and pliable.
Will not crack.

ORDER NO. 263-03949
Mfr. No. RE3949 1" x 25 ft Roll

BUTYL CAULKING TAPE

Butyl tapes help prevent and reduce costly water damage.
Tough rubber, pressure sensitive mass, offers excellent adhesion to a variety of surfaces (no applicators required). Used to seal out: dirt, dust, moisture and water.
Easy to use in tape form. Low moisture vapor transmission value.
A must requirement in any sealing application.
Butyl tapes are packaged with an attractive illustration label plus comes in a rugged, reusable, resealable package for storing. Butyl caulking tape will remain sticky and will continue to conform over many years and will not dry up or crack like other sealants.

3M™ 5000 SERIES ORGANIC VAPOUR P95 MAINTENANCE FREE RESPIRATOR ASSEMBLY

(3M Recommended for paint spray & pesticide applications)

This NIOSH/OSHA approved maintenance-free respirator offers a new level of comfort and protection in painting applications. It is available in three convenient sizes designed to fit the majority of workers. Not for use against paints containing isocyanates.

ORDER NO. 600-05201 Medium Organic Vapor-Respirator Only

3M™ 7500 SERIES HALF-MASK FACEPIECE

A soft seal design with advanced silicone material provides a softer feel on the face, while a unique head harness design adjusts easily so the user has the option of wearing the respirator in either traditional or drop-down mode. The 3M™ Cool Flow™ Exhalation Valve makes breathing easier, and helps reduce heat and moisture build-up in the facepiece.

3M™ REPLACEMENT FILTERS FOR 5000 & 6000 SERIES RESPIRATORS

3M™ 2091 P100 PARTICULATE FILTER

The 3M™ 2091 P100 Particulate Filter is designed to meet the NIOSH 42 CFR 84 filtration classifications, P100. The 2091 does so with comfort, simplicity and economy. 3M's new advanced electrostatic filter media (AEM) makes this possible. Currently, it is the only filter not made from fiberglass components to achieve a P100 rating. This filter can be used with 3M™ 5000 (with adapter) and 6000 Series Half and Full Facepieces.

ORDER NO.. 600-20910
(2/pk)

3M™ 2097 P100 PARTICULATE FILTER

This filter has been certified as being 99.97% efficient at removing solid and liquid particles including those containing oil. Used largely for welding, this filter is 3M recommended for ozone protection up to 10X the LTV and welding odor relief (organic vapors below the OSHA PEL). Designed for use only with the 3M™ 6000 and 7000 Series Half and Full Facepieces.

ORDER NO. 606-20971
2 Filters Per Bag

3M™ 5N11 N95 PARTICULATE PREFILTER

This prefilter offers cake-resistant filter media for easy breathing and lint-resistant coating to help ensure exacting results during painting operations. Requires N (non-oil) filters. Can be used with 3M™ 5000 and 6000 Series Respirators.

ORDER NO. 606-51950
(10/pk)

3M™ PAINT SPRAY RESPIRATOR

The 3M™ Paint Spray Respirator Assembly is NIOSH certified for organic vapors and 95% efficient in removing solid and liquid particles including oils. 3M suggested for spray painting lacquer, enamel and pesticides.

ORDER NO. 600-62110
Medium Respirators Per Box: 1

For more information see: www.3m.com/marine

3M™ PARTICULATE RESPIRATORS

3M™ 8210 N95 PARTICULATE RESPIRATOR

3M Recommended for sanding, grinding & buffing

- Meets NIOSH 42 CFR 84 N95 requirements.
- Excellent worker protection.
  Comfortable to wear and easy to use.
  Workers are quick to accept and use maintenance-free respirators.
- Lightweight construction.
  Promotes greater worker comfort.
  Contributes to increased wear time.
- Adjustable nose clip.
  Provides a custom fit and more secure seal.
  Reduces the potential for eyewear fogging.
- Basic design. Provides economical protection.

ORDER NO. 608-21095 **20 Per Box**

3M™8511 N95 PARTICULATE RESPIRATOR

3M Recommended for sanding, grinding & buffing

This respirator is NIOSH certified to have at least 95% filter efficiency at removing solid and liquid particles (excluding those containing oil). The innovative "M" nose clip helps provide a good seal against the face. The 3M™ Cool Flow™ Exhalation Valve reduces heat and humidity build up inside the respirator. Wearers will appreciate the added comfort and durability found in this respirator.

ORDER NO. 600-08511 **10 Per Box**

3M™ PETROLEUM SORBENTS

For use in "Hydrophobic"(oil only) Sorbent applications

3M™ Sorbents help contain and control potentially dangerous spills of oil and gasoline but repel water! 3M™ Sorbents are available in several different forms to meet most of your needs.

ORDER NO. 609-00550
5" x 50' Box folded (10.5 Gal/Box)

ORDER NO. 609-00156
17" x 19" x 1/4" Pad (.38 Gal/Pad)

3M™ PETROLL 5-GALLON PETROLEUM SPILL KIT

3M™ Petroll can be used for containing and absorbing petroleum-based liquid spills of up to 5 gallons. Conformable, 3M™ Petroll is an excellent solution for storage where space is limited. Because 3M™ Petroll uses 3M's Petroleum Sorbent-Folded technology, it can be used as booms, pillows, pads or roll, making it the most versatile response product available on the market today.

Kit Contains: 5" x 26' 3 with perforations every 16" (1" x 26' fully opened)
One temporary disposal bag and tie

ORDER NO. 609-00005

SECUREFIT™ PROTECTIVE EYEWEAR 200 SERIES

- 3M™ Pressure Diffusion Temple Technology – a scientific advancement that helps diffuse pressure over the ear & enhances temple comfort while not compromising the security of fit across diverse workforces, & has a soft nosepiece to help reduce slippage
- Shade 5.0 lens reduces ultraviolet, visible & infrared radiation reaching the eye
- Scotchgard™ Anti-Fog Lens coating helps keep lenses free of moisture in hot & humid conditions
- Anti-scratch coated polycarbonate lens which absorb 99.9% UVA & UVB, & UVC rays between 200 nm & 380 nm
- Lightweight, cool safety glasses
- Certified to CSA Z94.3 & meets the requirements of ANSI Z87.1
- Effective in both hot and cold weather.

3M™ SCOTCHLITE™ REFLECTIVE SAFETY TAPE

The 3M™ Scotchlite™ Reflective Tapes and Reflective Kits are composed of a highly flexible, durable, adhesive coated sheeting designed for areas that require bright night-time light reflectivity needed to increase safety. Examples include: trailers, driveways, mailboxes, bicycles, farm equipment, RVs and watercraft. In addition, they can be used at the marina or boat docking location to increase awareness and safety. For best results the surfaces should be smooth and clean. The 580 series tape will work on metal, glass, fibreglass, wood, and painted surfaces.

Note: For life saving equipment such as life vests, jackets, liferings, lifefloats, lifeboats, and liferafts, 3M™ Scotchlite™ Reflective Sheeting High Intensity SOLAS Grade Series 3150A is recommended.

ORDER NO. 600-03456
Size: Silver 2" x 36"
ORDER NO. 600-03459
Size: Red 2" x 36"

3M™ STRIPE OFF WHEEL

Used to remove vinyl decals, striping tapes, and double-sided foam attachment tapes. Will not scratch or damage acrylic enamel or urethane paint. Designed to be used with common 3/8" pneumatic and electric tools with a 500-4000 RPM speed range. Optimum performance achieved around 2000 +/- 200 RPM.

ORDER NO. 600-07498
Size: 4" x 5/8" Solid Wheel with Hardware

SAFETY REFLECTORS

HIGHLY REFLECTIVE STICK-ON REFLECTORS

Use SAE A and DOT approved reflex reflectors to reduce cost in your reflector application program. These reflectors are easy to install and save time with quick peel and stick application.
Our reflectors feature highly reflective prismatic lenses in a durable transparent resin. The backing is coated with an aggressive permanent, pressure sensitive adhesive with a clear poly easy remove liner.

HIGHLY REFLECTIVE, HIGH VISIBILITY REFLECTIVE TAPE

Provides extra safety protection when towing your boat trailer on our busy highways. DOTC2 approved.

Features:
- Manufactured to a minimum 700 candlepower brightness, typically 1000 candlepower
- Long distance visibility allows motorist time to take corrective action much sooner
- Seven plus years durability
- Stays clean, withstands brushing, dirt, grime and high pressure steam sprayers
- Easy to apply. Rub firmly into place
- Apply only at temperatures above 10°C (50°F)
- Apply to surface free of any dust, dirt, grease or moisture
- Apply to clean, smooth surface, metal, plastic, fiberglass or wood
- 6/6 pattern, 6" silver/6" red

FLUSH MOUNT SKI TOW

Solid Stainless Steel Casting

The stainless Ski Tow mounts flush to the transom and has no exposed fasteners.
The elliptical hook accepts up to 5/8" tow line and blends perfectly with the 2-1/2" circular body.
It rises only 1/2" outward so there's less chance of snagged lines or tangled gear.

- Casting and hook are certified #316-stainless steel alloy, polished to a mirror finish, then through acid and rinsing baths contaminants are removed and a hydrous oxide film is left to increase corrosion resistance.
- Easy mounting - simply use a 2-1/8" hole saw.
- Nylock nuts and aluminum backing plate are included.
- Lines slip in and stay put until lifted out.

Guaranteed for the life of the boat!

ORDER NO.	Mfr. No.	Description

1-SECTION WATER SKI ROPE

- High quality 1 section, 16 strand, 75 feet ski rope
- 12" aluminum core handle has a performance "Tractor" grip and molded finger protectors
- UV-treated
- Rope keeper included for tangle-free storage

ORDER NO. 737-19878
Mfr. No. AHSR-75

4-SECTION WATER SKI ROPE

- 75 feet long rope has 4 sections (75', 60', 50', 40') to meet the needs of skiers and riders of all skill levels
- 16 strand, UV treated, 1,600 lb. tensile strength
- 12" aluminum core handle has a performance "Tractor" grip and full-length molded finger protectors
- Rope keeper included for tangle-free storage

ORDER NO. 737-19083
Mfr. No. AHSR-4

PERFORMANCE 8-SECTION RADIUS HANDLE SKI ROPE

Ski longer, harder and stronger with less muscle fatique

- 3/8, 16 strand, UV treated, 1,600 lb. tensile strength
- 8 colour coded sections and take-up loops
- 17°, 13" radius aluminum core handle with TPR Diamond Grip is the ultimate in quality
- Full length finger guards create a comfortable split finger grip
- Rope keeper included for tangle-free storage

ORDER NO. 737-19090 Mfr. No. AHSR-8

EZ UP SLALOM TRAINING ROPE

The perfect rope for learning deep water ski starts

- 16 strand, 75 feet long rope
- 1,500 lb. tensile strength
- Deep V- EZ Up bridle
- 12" floating handle has a TPR grip, aluminum core, 0& molded end caps & finger guards
- UV-treated and is completely covered with flexible vinyl
- Rope keeper included

ORDER NO. 737-19113
Mfr. No. AHSR-2

WAKESURF ROPE - 25 FOOT

- 25 ft. PolyE 5 piece sectional
- 12 " Mainline with 4 grasp knots
- 10" EVA handle
- Removable sections: (3 ft., 3 ft., 3 ft., 4 ft.)
- Break Strength: 1200 lbs.

AIRHEAD

HI-PRESSURE AIR PUMP

- 120 Volt
- For towables, boats, rafts, trampolines & other large inflatables
- Quickly inflates or deflates
- 4 valve adapters and pressure release valve
- Accordion style hose and 10 ft. power cord

ORDER NO. 737-19809
Mfr. No. AHP-120HP

Pressure Release Valve Included!

12 VOLT HI-PRESSURE AIR PUMP

- Produces 3 times the pressure of other 12 volt air pumps
- 5 universal valve fittings fit all popular valves and lock onto the hose
- 4 valve adapters and pressure release valve
- A removable pressure release valve limits the output to 1.4 psi, the perfect inflation pressure for towables
- Provided alligator clips connected to a 10 ft. power cord for hooking up to a car, truck or boat battery
- Volume is 410 liters/min
- Maximum pressure is 2.5 psi.
- Draws 28 amps/340 watts

ORDER NO. 737-21789
Mfr. No. AHP-12HP

Pressure Release Valve Included!

AIR PIG PUMPS

- High volume, high pressure capabilities
- Quiet motor
- Includes 10 ft. power cord, 24" reinforced hose, 4 adapters

ORDER NO.	Mfr. No.	Volts	psi	Amp Draw / Watts
737-38305	AHP-12AP	12v	1.0	22amps / 260W

10 ft. power cord with alligator clips

HIGH OUTPUT 120V AIR PUMP

- For towables, pool toys, lounges, airbeds and other inflatables
- Accordion style hose locks onto the pump and valve fittings
- 4 universal valve fittings
- 10 ft. power cord
- 0.92 psi maximum
- Draws 1.6 amps

ORDER NO. 737-18222
Mfr. No. AHP-120

HI-VOLUME BELLOWS AIR PUMP

- For towables, boats, rafts and other large inflatables
- Quickly inflates or deflates
- Extra-long 54” hose
- Collapses for EZ storage
- Hi volume air displacement – 0.5 litres per stroke
- Peak air pressure: 2.9 psi
- Adapters fit most valves

ORDER NO. 737-20737
Mfr. No. AHP-F1

DOUBLE ACTION PUMP

For airbeds, boats, towables and other inflatables

- Double volume/double action
- Pumps on up and down strokes
- 4 universal valve fittings are included to fit Boston valves and stem valves
- 5 ft. accordian style hose
- Ergonomic handle and foot plate
- Volume is 2 Liters/Stroke
- Durable, lightweight plastic construction

ORDER NO. 737-17720
Mfr. No. AHP-1

Inflate & Deflate

HIGH OUTPUT/OPTIMAL PRESSURE 12V AIR PUMP

- For towables, airbeds, boats, balls and other large inflatables
- Quickly inflates or deflates
- Fits all popular valves
- 10 ft. power cord
- 12 volt plug

ORDER NO. 737-18239
Mfr. No. AHP-12H

AIRHEAD

AIRHEAD® TEAR-AID™ VINYL REPAIR SEE-THRU PATCH KIT

Repair holes & tears instantly

- Airtight, watertight and elastic composition stretches and springs back to keep the patch in place for a very long time
- Repair towables, ,fishing waders, bicycle tubes, towable tubes, pool liners, rafts, pool floats, air mattresses & more
- UV-resistant
- See-thru patch makes it suitable for vinyl of any colour

ORDER NO.	Mfr. No.	Description
737-19670	AHTR-1B	Tear-Aid™ Vinyl Repair

VINYL REPAIR KIT

Keep a repair kit handy!

Kit includes:

- 1 oz tube of commercial grade vinyl cement
- 4 – 2" round vinyl patches

ORDER NO. 737-18246
Mfr. No. AHRK-1

AIR DADDY™

Versatile Inflator/Blow Gun

- Fits all popular valves (Boston, stem & needle)
- Inflate towables, pool toys, sport balls (needle valve included) and airbeds
- Works with compressors, gas station air and bike pumps
- Screw-on blow gun tip for autos and workshops

ORDER NO. 737-19816
Mfr. No. AHAD-1

MULTI-VALVE™

Inflate with Speed & Flexibility

- Consists of 2 Boston valves and a Shrader valve
- For all Boston valve equipped inflatables
- Use Shrader valve to inflate quickly at gas station or marina
- Use Boston valve with low pressure/high volume pump

ORDER NO. 737-16624
Mfr. No. AHMV-1

BOSTON VALVES

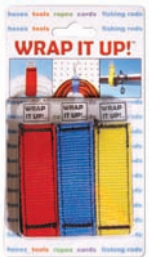
Always carry a spare!

- 2 Boston valves with different thread pattern
- Square bases – easier to turn
- Bright red – easier to find

ORDER NO. 737-26791
Mfr. No. AHBV-2

WRAP IT UP!

100's of uses to aid in organizing



- 12" long hook and loop wraps
- Hook and loop fasteners are sewn to a durable 12" x 1" webbing and reinforced with a bar tack at each end
- Cord is attached for hanging items

ORDER NO.	Mfr. No.	Description
737-19793	WR-123	3 per/Blister Pack, Assorted colours

SUP ALUMINUM PADDLE

- Lightweight aluminum adjustable oval shaft
- One-size fits all
- Length adjusts from 63" to 87" (160 to 220cm)
- Fibreglass reinforced ABS “duck foot” blade
- Weight: 2.75 lbs. (1.25 kgs)

ORDER NO. 737-45730 Mfr. No. AHSUP-P11

SUP PADDLE CARBON FIBER COMPOSITE

- One-size-fits-all
- 3-Section easy to stow
- Length adjusts from 63" to 83" (160 to 210cm)
- SUP handle can easily be adjusted from 165cm to 185cm
- 100% carbon fiber shaft
- Fiberglass reinforced ABS “duckfoot” blade with soft TPE edge that prevents damage to fiberglass boards
- Carbon handle

ORDER NO. 737-42074 Mfr. No. AHSUP-P6

AIRHEAD® SCRUNCHY LEASH

- Lightweight accordion style webbing
- Extends to 11 feet
- 2 in-line swivels keep the leash from tangling
- Comfortable neoprene lined ankle cuff

ORDER NO. 737-38527
Mfr. No. AHSUP-A008

AIRHEAD® PADDLE/ROD LEASH

- Stretches from 24" to 60"
- Swivel hooks & comfortable collars for lots of attachment options
- Easily connect to paddle with adjustable velcro strap
- Great for fishing poles too!

ORDER NO. 737-38534
Mfr. No. AHSUP-A009

SUP VELOCITY PUMP 12V

- Inflates SUPs 1/3 of the time faster than any other portable pump
- Single stage high pressure / high volume inflation
- Aligator clips cable for direct battery connection
- Interchangeable H-Valve and Leafield C7 adapters
- Auto shut-off, just dial in the pressure from 1 to 20 PSI

ORDER NO. 737-45723
Mfr. No. AHSUP-A029

CMP Cordage

DOUBLE BRAIDED DOCK LINES

- Double braid nylon rope is easy to handle & spliceable
- Nylon resists most chemicals & will not rot or mildew
- Twisted twill yarn to improve abrasion resistance
- Exceeds Cordage Institute standards strength
- Professional hand spliced eye — the splice is stronger than the rope
- Bitter end is heat sealed to prevent fraying & protected with an overall non-corrosive flexible polyolefin shrink tube
- Heavy-duty reusable storage strap
- Great for dock lines, anchor lines, or mooring lines

NEW!

Cover Construction

- 100% continuous filament high tenacity Type 6 nylon
- Coloured nylon yarns are solution dyed for colour fastness & reduced fading
- Colour yarn has extra twist to improve abrasion resistance & strength
- Braided cover is torque balanced to increase strength & reduce rotation under load

Core Construction

- 100% continuous filament high tenacity Type 6 nylon
- Braided core is torque balanced to increase tensile strength & reduce rotation under load

Made in CANADA

DOUBLE BRAIDED DOCK LINES

- Whipped bitter end
- Always flexible – stays soft and easy to handle throughout its life
- Spliced eye end – much stronger than a knot
- Resistant to oil, grease, gasoline, mildew and most chemicals
- Will not rot – allows for storing wet or dry
- Great for dock lines, anchor lines, or mooring lines

Use this chart to help choose the correct line diameter. If your boat is located in a windy area or in an area that often experiences rough sea conditions, it is a good idea to choose the next bigger line diameter. Bow and stern lines should be two-thirds the length of your boat. Spring lines should be as long as your boat.

Rope Diameter	Boat Length	Tensile Strength
3/8"	Up to 25'	4,450 lbs.
1/2"	Up to 32'	7,850 lbs.

REMOVABLE CHAFE GUARD

Protect Your Lines with Removable/Adjustable Chafe Guards

Chafe protection is critical at the dock, at anchor or on a mooring. Davis offers a great solution to prevent chafing over a cleat, cap rail, where two lines cross or at the anchor roller. Dock lines can be expensive—extending their life with good chafe protection is not!

Secure Removable Chafe Guards fit braided or twisted line from 3/8 to 1" (10–25 mm). They're easy to remove and adjust as lines stretch or chafe protection is needed elsewhere. Great for dock, mooring and anchor lines where wearing through a line could cost you the boat. The outside cover is made of tough, UV-stabilized nylon webbing. The inside is lined with 100% Velcro® to grip the rope. Each chafe guard is 16″ long (40 cm).

Rod end with internal threads for either end of Nautalift gas filled lift supports. Unique construction makes installation easy and safe.

GS62910 **051-62910**
Zinc plated steel 10mm ball stud with threaded shaft.

Polyform US®

THE LEADER IN QUALITY AND SERVICE

Our production process is like no other in the world. Terms like one-piece construction, even wall thickness and reinforced ropehold eyes were originated by, and synonymous with, Polyform. We do not believe in cutting corners. In our eyes, it doesn't cost more to do it right the first time, and you as the customer benefit from this belief. So put your boat's protection in the hands of the experts...

G series

PROTECTED MOORINGS

CM series

MOORING BUOY

- Strong mooring iron made from galvanized steel with vinyl-coated eye
- Larger eye {4-3/8"} and swivel {1-1/2"} provide maximum strength
- Also available with 316 stainless steel mooring iron
- Even wall thickness for strength and durability
- Limited three year warranty

WS series

WATER SKI SLALOM BUOY

- Meets official American Waterski Association specifications
- Multiple colours to make both ski and boat courses
- High quality PVC
- Durable ropehold

ELITE FENDER COVERS

Our long-lasting, extra heavy duty knit polyester gets near perfect ratings for colour fastness and resistance to sunlight, repeated washings, friction and seawater. Available in black with a gold embroidered logo or navy with a silver embroidered logo to fit every Polyform fender style and size.

FENDER FIT COVERS

Fully protects your fenders from damaging UV rays. Eliminates the "squeak" for a peaceful mooring, minimize hull damage from scuffs and rub marks. Durable—made from long-lasting acrylic yarn.

TRUE-FIT FENDER HOLDER KIT

Fender Holder Kits include two baskets and all connectors needed for correct mounting.

Every (2) holders need (3) TFR 402 Swivel connectors and (1) pair of TFR 403 parallel connectors for proper installation.

Swivel Connector
TFR-404 [Fits 1-1/4" rails]
TFR-402 [Fits 7/8"–1" rails]

Parallel Connector
TFR-403 [Fits all holders]

Polyform U.S.

A FENDER FOR EVERY BOAT

A FENDER FOR EVERY CONDITION

HTM SERIES

www.taylormadeproducts.com

THE GUARANTEE OF A LIFETIME!

Against Splitting or Bursting....If it fails we'll replace it!

You take a lot of pride in your boat, and part of that pride is its color scheme. Too often, the colors of your accessories just never seem to match up quite right with the boat's gelcoat, or with each other, leaving it with a variety of mis-matched colors at the dock.

That's why Taylor Made is introducing True Color™. Our team of engineers has spent countless hours creating color mixes for our fenders and accessories to closely match the most popular colors used in OEM's gelcoats and trim.
So, when choosing a brand to outfit your boat, choose Taylor Made®...the only marine accessory company with true colors.

#1 SELLING FENDERS!

True Color™
The Next Generation of Color

HULL GARD® INFLATABLE VINYL FENDERS

- Unique oval shape prevents rolling
- Molded in football needle style valve is integrally molded into the fender, not glued like the competition.
- Seamless one piece construction
- High gloss finish
- Guaranteed for the life of your boat!

The Guarantee of a Lifetime!
Against Splitting or Bursting....If it fails we'll replace it!

PONTOON FENDERS

These unique fenders offer a level of protection to areas on the Pontoon boat other fenders can't provide. The Pontoon Fender is specifically designed to fit snugly between the pontoon and the deck of the boat, protecting both from rafting boats, docks, or other objects. All pontoon fenders are made from our own marine-grade, U.V. resistant vinyl and have an integrated rubber football style valve for easy inflation.

- Molded in ridge hooks underneath pontoon deck to help secure fender in place
- Optional securing points to accommodate most styles of pontoon boats
- Contoured shape helps to hug the rounded shape of the pontoons
- Measures 9" wide x 16" Long

ORDER NO.	Description
666-31030	Pontoon Fender, White
666-31035	Pontoon Fender, Silver

PONTOON FENCE SAVER

The Fence Saver secures to the fence or railing and is designed to prevent contact to the delicate aluminum fencing. The fence saver is especially effective preventing those nasty dings that occur when rafting a pontoon boat to a conventional hull boat.

ORDER NO.	Description
666-31032	Fence Saver, 9" x 36"

PONTOON CORNER BUMPERS

The pontoon corner bumpers comes shaped to mount on either a radius style or 90˚ pontoon corners. Bumper mount over the original factory installed aluminum corner section to provide air-cushioning impact protection when docking. Special silver PVC formulated to match the aluminum color of the boat and secures with stainless fasteners. Each measures 3"Wide x 12"Long.

ORDER NO.	Description
666-31038	Silver/Corner Bumper

For more information see: www.taylormadeproducts.com

DOCK EDGE

'TOON FENDER

- It is a complete system - There is no need to buy extra attachment devices or rope.
- No need to remove - double hook attachment will keep the fender from rolling around or popping up, there is no need to store the fender.
- Over 36" long, adjusts from 17" to 34" attachment. Protects from above the top railing to 4 to 5 inches below the floor trim, or can be adjusted to protect the pontoons themselves.
- Protects below the waterline. This is the only fender that can protect below the water line and does not float up like typical round fenders would.
- Boat covers can be installed normally, fitting in behind the fender.
- Thin top stainless steel hook allows it to be attached between cushion upholstery - impossible with a typical rope attachment.
- Promotional DVD available
- Molded in UV inhibitors and fungicides

440-53131	TOON FENDER, Cream, 36"
440-53134	TOON FENDER, Beige, 36"
440-53135	TOON FENDER, Grey, 36"
440-53136	TOON FENDER, Black, 36"

For more information see www.dockedge.com

TRANSOM FENDER

Uniquely shaped to fit the stern of a sailboat or the edge of most swim platforms up to 4" thick. An integral 3/4" diameter tube allows a securing line to pass from end to end while a contoured shape helps 'grip' the fendering location.
Made from soft, flexible vinyl. Rubber football inflation valve to adjust the level of firmness to satisfy all applications.
Made in the USA.
Size: 10" x 22"
ORDER NO. 111-56090 Mfr. No. 56090

LOW FREEBOARD FENDERS

The first boat fender to address the needs of low freeboard boats. Shaped to protect the gunwales and rubrail, the Low Freeboard fender offers superior protection compared to regular fenders against high docks. Low Freeboard Fenders can be tied over the cleat to position it higher on the boat, putting protection where it is needed. Made from specially formulated tough marine grade vinyl and features an inflation valve for air pressure adjustment.
Made in the USA.

SPECIALTY FENDERS

HULL HUGR® FLAT FENDERS

- Constructed of durable marine grade tri-laminate with a polycarbonate grommet at each end
- Hang them vertically or horizontally
- Easily stows under a seat or in a side compartment
- Stays put unlike round fenders, that tend to roll up from contact with the dock, leaving your boat unprotected
- Great for mounting to docks and posts too!
- Size: 26" long x 2-1/2" thick

AIRHEAD

HULL HUGR® ROLL UP FENDERS

HULL HUGR™

Traditional round fenders roll up, leaving boats unprotected and are bulky to stow.
HULL HUGR® to the rescue! When boats rock, HULL HUGR® stays put.
The innovative Roll Up Fender protects boats better than 6 traditional fenders. The ingenious patented design enables you to fold it up to a very compact size that is easy to stow, or can be used as a cushion. HULL HUGR® is constructed of UV and puncture resistant marine grade vinyl/polyester tri-laminate with six blocks of durable closed-cell foam sealed inside. There are 2 sizes available (medium & large) to fit every boat, dock, & slip. For higher profile boats including cruisers, performance boats, pontoons, deck boats, sailing yachts & houseboats. Great for tall docks

BIG B™ FENDER HANGER

Designed for use on Taylor Made fenders with 3/4" I.D. tubing. Maybe used on other brands; but due to variation among brands the consumer must verify a tight enough fit between the tube and product for proper function (centre tube must be small enough to keep the product halves firmly together)

- Injection molded reinforced nylon for strength
- Vented to prevent water accumulating in fender tube
- Fits 3/8" diameter rope
- Professional finished look

ORDER NO.	Mfr. No.	Description
666-10850	1085	Big B™ Fender Hanger (3 pack)
666-11085	11085	Big B™ Fender Hanger Display (36 Pieces)

DAVIS® FENDERFRIEND™

FenderFriend is a fender whip, hanger and adjuster – all in one! Features Shockles® built-in shock absorber to reduce shock loads generated by fenders grinding against the hull and the dock or piling. No more torn fender eyes or bent stanchions and rails!

- Allows anyone to quickly and easily set the fenders
- Stretches when fenders get pinched between the hull and dock
- Minimizes loads on stanchions, lifelines, rails, cleats
- Attaches almost anywhere: lifelines, stanchions, winches, cleats, grab rails, workboat rails, toe rails, pulpits
- UV resistant strap adjusts from 16" to 72" (0.4-1.8 m)
- Sturdy, marine grade Nexus® nylon buckle makes attaching fenders a snap
- Choose from twin-eye or center-tube models
- Made of black, UV resistant webbing with Nexus® nylon buckle

DOCK EDGE®

MOORING SNUBBERS

For Secure and Cushioned Mooring. Ideal for both motor and sailing boats.
The forces the line is exposed to, are taken up by the elongation of the mooring snubber, reducing the shock load on the line as well as the boat's hardware.

ORDER NO.	
440-90302	For line sizes 3/8" - 7/16" & craft up to 20 Ft.
440-90304	For line sizes 7/16" - 5/8" & craft up to 26 Ft.
440-90306	For line sizes 9/16" - 3/4" & craft up to 40 Ft.

For more information see: www.dockedge.com

FALCON

LINE MASTER MOORING SNUBBERS

Falcon Line Master Mooring Snubbers stretch to more than twice their length, if necessary, to absorb shock loads and protects boats, cleats and lines from the strain of winds and waves. Highly resilient EPDM rubber is resistant to sunlight, salt water and ozone. It never discolors or damages a boat. Unique, injection molded nylon locking system provides 100% safe and secure locking of the line with no hardware required. The harder the line is pulled, the tighter the grip. No slipping ever. Easy to fit-variable resilience. Keeps boats stable when moored-ideal for overnight trips. Unprecedented 5 year replacement warranty.

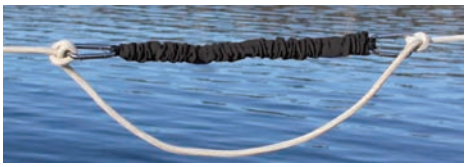
DAVIS®



SHOCKLES® LINESNUBBER™

Minimizes stress on ALL lines – for use on any boat!

LineSnubber features a patented stretch limiter and progressive tension design to safely and effectively reduce shock loads.
Two 316 stainless steel carabiners offer simple and secure attachment. Adjust or remove in seconds. One size fits all – tie a simple clove hitch in line up to 3/4" (19mm) diameter. Use two LineSnubbers side-by-side on very large boats. Progressive tension means the further LineSnubber stretches, the greater its return force. The result is smooth action and moderated stress. The patented internal line limiter is made from 2500 pound test (1140 kg.) nylon webbing. LineSnubber's outer sheath is 3500 pound test (1590 kg) tubular nylon webbing that is UV resistant to protect the internal parts.

TITAN MARINE PRODUCTS

G30 ISO PROOF COIL
General Purpose

ISO Proof Coil Chain is low carbon steel general purpose/anchor chain with an ISO short pitch link. Used in applications where high tensile strength is not required.
*Never exceed working load limit.
*Not for overhead lifting.

ORDER NO.	Description	Container
300-18751-250	G30 ISO HDG CHN 3/16" x 250'	Plastic Pail

300-37500-063	G30 ISO HDG CHN 3/8" x 63'	Plastic Pail
300-37500-200	G30 ISO HDG CHN 3/8" x 200'	1/2 Drum

G43 ISO HIGH TEST CHAIN
Calibrated for Windlasses

ISO High Test Chain uses high tensile strength carbon steel that provides a greater strength-to-weight ratio than proof coil chain. ISO short pitch link which makes it more flexible and ideally suited as a windlass chain. Each link is proof tested and calibrated. Check manufacturer's specification prior to purchase

ORDER NO.	Description	Container

TIE DOWN
MANUFACTURING INGENUITY

Hooker ANCHORS

For safe anchoring, a length of chain should be attached between the anchor line and anchor. This helps keep the anchor shank low and allows the flukes to further penetrate. Also guards against bottom chafe.

SUPER HOOKER

The Super Hooker anchor is a good choice for your anchoring needs. This lightweight, hot dipped galvanized Super Hooker anchor has strong wide flukes that penetrate quickly and firmly for maximum holding power. The fully welded crown configuration provides the right angles for ultimate holding power and secure penetration. The Super Hooker stows flat and can be used with most fluke type anchor storage systems.

MADE IN THE USA

Hooker ANCHORS

QUIK-SET

The Hooker Quik-Set has 50% more holding power and the appearance of an anchor costing much more. The Hooker Quik-Set design with the "Slip Lock" shank insures a proper set regardless of which way the anchor lands. A slip design permits easy retrieval in snag prone areas. Hot dipped galvanized finish.

DOCK BUDDY

Stretch Dock Line **For Temporary Docking only**

Dock Buddy is an easy to use dock line that stretches between boat cleat and dock cleat, without knots. A simple slide adjustment tightens loop around cleat and allows for quick and secure docking. Dock Buddy stretches for more stability from waves while fueling or cooking at dock. Black.

ORDER NO.	Mfr. No.	Description
937-00400-1	DB4-B	Dock Buddy, 4', Black
937-00500-1	DB5-B	Dock Buddy, 5', Black

ANCHOR BUDDY

The Anchor Rope that Stretches

Poly-covered bungee cord stretches from 14' to 50'. Anchor Buddy takes the shock out of your anchor line and makes it easier to anchor offshore. Simply drop anchor about 30' out, proceed to shore, and Anchor Buddy stretches while your anchor stays set. As you pay out your bow line Anchor Buddy retracts, anchoring your boat safely offshore. Also works great for anchoring in rough water. Black.

ORDER NO. 937-04000-1

STRETCH n' SLIDE - Versatile Dock & Rafting Line

Multi-Loop Bungee for perfect size every time. Stretches to fit any span to 7 ft.

Docking:

Without question, Stretch n' Slide is the world's most versatile and easy to use dock line.
Innovative multi-loop bungee allows a perfect fit for any span to 7 ft.
Simply place end loop over cleat, stretch and tighten down the slider.
Then just select perfect loop to place over second cleat.
Stretch n' Slide makes docking quick and easy for any craft from PWC to large boats.
Temporary docking only.

ORDER NO. 937-00001

Mfr. No. SNS-b (Black) in Colour

Rafting / Party Chaining:

Stretch n' Slide is the ultimate solution for Rafting boats together for party chain.
The versatile loops allow quick and accurate connection between cleats, regardless of distance or elevation between boats.
With Stretch n' Slide a rafting party can be connected in minutes, without tying a single knot. Shock absorbing bungee allows entire chain of boats to move and flex together with ease.

For more information see: www.greenfieldproducts.com

SHURHOLD

DOCK - A RENI™

- Allows you to tie your boat up with ease
- Makes a loop - Dock line holding tool
- Use with any boat pole
- Plastic - No-rust, UV resistant
- Patented design

ORDER NO. 962-01340 Mfr. No. 134

For more information see: www.shurhold.com

KWIK GRIP SELF-LOCKING CLEAT

Tie loads without tying knots!
Ideal for securing deck & dock lines,
fenders, anchor, mooring lines, & deck accessories.

- Works with any rope up to 1/2"
- Made of durable 316 stailess steel
- Corrosion resistant
- Durable clear coat finish
- Stainless mounting hardware

ORDER NO. 937-70112 Mfr. No. R701-12

AIRHEAD

BUNGEE DOCK LINES

Recommended for Docking Boats & PWC's up to 4,000 lbs.

- Absorbs shock to boats, cleats, docks, pylons & other hardware
- Bungee is hidden inside the rope and acts as a built-in snubber.
- Two foam floats protect the boat from chafing
- Sliding adjustment at both ends for quick docking
- Colour: Black/Blue/Red
- Tensile Strength: 2,150 lb.

For more information see: www.airhead.com

DECKHAND ANCHOR WINCHES

MINN KOTA

DECKHAND 40

Why do all the work when a Deckhand will do it for you?

These electric winches will automatically raise or lower your anchor at the touch of a button. A special anti-drag system senses the bottom to allow for controlled drifting.

- Davit can be mounted at base of Deckhand or in remote position on boat deck
- 40-lb anchor capacity (anchor not included)
- Pre-spooled with 100 ft. of 800 lb test nylon rope
- Universal davit stows anchor horizontally to eliminate anchor swing
- Anchor shackle allows for quick changes between anchors
- Runs on 12 volt battery (not included)
- Compatible with Deckhand 40 remote switch (sold separately)

Mfr. No. 1810140

ORDER NO. 718-10140

DECKHAND 25R

The Deckhand 25R's new 12 ft. corded remote control lets you operate your Deckhand from anywhere on the boat

- 25 lb. anchor capacity (anchor not included)
- Includes davit for stowing most styles of anchors
- Pre-spooled with 60 ft. of 800 lb. test nylon rope
- Runs on 12 volt battery (not included)

Mfr. No. 1810126

ORDER NO. 718-10126

DECKHAND 40 REMOTE SWITCH

25' cord allows you to operate the Deckhand 40 from anywhere on the boat

KANBERRA GEL
The Original All Natural Air Purifier

Kanberra Group products eliminate odours naturally & keep them from coming back as opposed to simply masking them. The Kanberra® family of products currently includes gel, spray, wipes, hand soap, essential oil, and anti-friction cream. Kanberra® products are safe around children & pets & are used worldwide wherever odours are an issue by individuals who went from being consumers to loyal brand advocates. Kanberra® products contain a premium blend of Pure Australian Tea Tree Oils certified by ATTIA, Ltd. (Australian Tea Tree Industry Association, Ltd.) Our water based products are chemical & alcohol free with the highest quality standards in place from "seed to sales."

Storage:
While your vessel is wrapped, Kanberra Gel eliminates odors & keeps them from coming back. As it settles it also removes odours from carpets, curtains, furnishings & more. That means easier spring clean up, no wiping with chemicals, etc.

Weekender: When you uncover your boat, reseal the Kanberra Gel container and stow. When you're done boating, simply open & place the container where you need it. Kanberra Gel keeps working 24/7, 365 days a year.

KANBERRA GEL JARS

How to Use:
- Peel off top label, remove lid and inner seal, replace specially designed lid & simply place container where needed
- You will smell our clean, signature scent upon opening – but as Kanberra goes to work, you will smell nothing, just clean air!
- When gel shrinks to a small pellet – refill or replace container
- The effects last around 2-3 months. Evaporation will cease if the contents freeze, but the process will begin again as soon as the temperature allows Kanberra Gel to thaw

AIR PURIFIER/STAIN REMOVER

TEA TREE OIL GEL

Star brite's new TEA TREE OIL products offer a natural solution to unpleasant odors on boats, RVs or in homes and offices. By harnessing the power of Australian tree oil, these products help maintain air quality without the use of perfumes or caustic chemicals. Available in tubs that can be deployed anywhere odors are present.

- Genuine Australian tea tree oil
- Eliminates musty, moldy odours naturally
- Freshens hard surfaces, fabric and the air
- Ideal for winterized boats & year round use
- Keeps air clean and fresh
- Tub allows use anywhere on boat or RV

AIR-DRYR 500 - Say goodbye to mold, mildew & moisture with this simple effective tool!

Air-Dryr is an inexpensive and effective way to fight moisture problems, cold drafts, and corrosion. Designed to operate anywhere, 24 hours a day. Place Air-Dryr on the floor in any damp, enclosed space and plug into a 110/220 volt outlet. The damp air is heated to the point moisture is held in suspension (above dew point), then released through the top vents of the device. As warmed air rises, cooler damp air is drawn in, where it too is heated. Air-Dryr costs no more to operate than the burning of a light bulb. A thermal cutoff turns the unit off should air flow be impeded.

ORDER NO.	Mfr. No.	Description
510-01458	1458	Air-Dryr 1000
510-01459	1459	Air-Dryr 500

Features:
- Neutral beige polycarbonate housing for strength and durability
- Slim and stable; Can be placed out of the way in confined spaces
- Designed for 24-hour operation; Low operating cost
- Safe to the touch; Safe for marine use
- Silent operation; No switch, fan, or thermostat; uses natural convection to circulate the air

Use in Boats
Cabins, v-berths
Bilges, engine rooms

Use at Home or Office
Closets, cabinets, basements, storage units
Tack Rooms, Pump Rooms, RVs, motor homes, trailers, cars, or airplanes

3M

3M™ MARINE CLEAN & SHINE WAX

3M™ Marine One Step Clean and Shine Wax is a quick and easy, "spray on/wipe off" product that recaptures that "just waxed" look and feel. Excellent for use on wet or dry surfaces; no water needed! May also be used to enhance the shine of your boats fibreglass gelcoat, marine topside paint, painted aluminum or metal parts. Simply spray on sections that are still wet after washing and rinsing, & revitalize the finish by wiping the surface dry.

ORDER NO. 600-90331 Mfr. No. 09033 **500 mL**

3M™ MARINE RUBBING COMPOUND

Recommended for **HEAVY** aggressive compounding of oxidized gelcoat and marine paint. Clings to paint and gelcoated surfaces-remains wet on the job with little or no mess. Maintains a high rate of cut with constant pressure. Buffs to high gloss with minimum of swirl marks. Can be used by hand or by machine. Contains no wax or silicone.

ORDER NO. 600-90040 Size: 16 fl. oz.
Mfr. No. 09004

SCOTCHGARD™ MARINE LIQUID WAX

Designed for the harsh marine environment and provides protection from the sun's damaging ultraviolet rays. Safe for use on fiberglass, gelcoat, marine topside paints, and marine metals.

LIFESEAL® SEALANT

A unique combination of marine silicone and polyurethane formulated especially for fiberglass. LifeSeal® offers a fast-curing, low odor, high adhesion, non-sagging, non-corrosive, non-yellowing formula. It provides a durable permanent watertight seal for joints subject to structural movement. May be used above and below the waterline. Use for sealing decks to hulls, thru-hull fittings, vinyl ports, sealing/glazing windshields and bedding marine hardware. Will adhere to metal, glass, wood, Lexan, ABS and certain other materials. Can be removed without damaging gel-coat. Not recommended for ferro cement hulls, impregnated wood or oil-soaked materials. Cures in presence of water. Mildew resistant and acid free. Custom colors available.

MARINE SILICONE RUBBER SEALANT

An all-purpose, non-corrosive, non-yellowing, low odor 100% marine high quality silicone sealant. Tack-free in 30 minutes or less. *Fully cured in 24 hours. For use above or below the waterline. Will not shrink, crack or dry out. Superior flexibility and adhesion to fiberglass, plastic, metal and wood. Retains flexibility and tensile strength even after years of exposure. Acid free cure will not corrode metal..

***Note: All curing times subject to atmospheric conditions.**

GRAPHIX WAX™

A revolutionary high performance cleaner and UV protectant. *Designed for Graphics*

- Graphix Wax is a liquid wax which is easily applied (Wipe-on, dry, wipe-off)
- Ideal product to use on boats, RV's, cars, airplanes & jets with costly graphics
- Will not deteriorate graphics like other solvent-based waxes
- Cleans dirt, grime and stains
- Superior formulation using only high grade components
- Solvent-free

ORDER NO. 843-11211 8 oz.
ORDER NO. 843-11241 16 oz.

SILICONE SEALANT

- #1 selling marine sealant
- 100% marine grade silicone; won't turn yellow
- Remains flexible from -70° F to 480° F
- Bonds to fiberglass, plastic, wood, glass and metal
- Unaffected by sunlight, weathering, most chemicals and solvents
- Will not shrink or sag
- Can be removed easily - excellent for deck hardware
- Special marine formula can be used above and below the waterline
- Dries tack-free in less than one hour, cures completely in 24 hours

TEAK CARE KIT

- Everything needed to clean, restore and protect teak in one box
- Each kit comes with a $2.00 mail-in consumer rebate coupon
- The perfect kit for the smaller boat with minimal teak trim

ORDER NO. 408-12161

16 fl. oz.

Each Kit Contains:

1 Teak Oil (pint), 1 Teak Brightener (pint), 1 Teak Cleaner (pint)

TEAK CLEANER/BRIGHTENER

- Combines two steps in one: cleans & brightens
- Saves time & effort preparing teak for oiling
- USafe for use on all treak decks & furniture
- Will not harm fiberglass or painted surfaces
- Contains no dangerous acids
- Cleans teak; removing dirt, grime & old oil
- Phosphate-free, biodegradable formula

ORDER NO.409-49321 **32 fl. oz.**
Mfr. No. 094932C

TEAK CLEANER

- Safe, easy to use formula
- Cleans teak and other fine woods
- Removes stains and weathering
- Use as the first step in the restoration of grey, weathered teak
- No need to sand after cleaning
- Does not contain acid - no neutralizers needed
- not raise wood grain

ORDER NO.408-14321 **32 fl. oz.**
Mfr. No. 081432C

TEAK BRIGHTENER

- Brightens teak and other fine woods
- Highlights woodgrain and enhances warm natural color
- Use as the second step in the restoration of grey, weathered teak
- Easy to use - just apply and rinse
- No rubbing or scrubbing required

ORDER NO.408-15161 **16 fl. oz.**

CANOE/KAYAK POLISHES

CANOE/KAYAK PERFORMANCE & PROTECTIVE COATING

Ideal for inflatables, water toys, SUP, windsurfers, PWC and fishing boats.

- Can be applied to fiberglass, aluminum, kevlar™, polyethylene, ABS, PVC, composites and nitrylon™
- Reduces friction, hydrophobic coating
- Seals and protects
- Easier to clean surface
- Lasts an entire season
- Helps to defer underwater attachment and provides an easier to clean surface during the season
- 400 ml treats up to 6 canoes, kayaks or inflatables

ORDER NO. 791-54311 Mfr. No. 5431
Size: 400 mL

CANOE/KAYAK CREAM CLEANER

Ultimate Water Sport Maintenance!

Ideal for canoes, kayaks, SUP, inflatables, windsurfers, PWC, water toys and fishing boats.

- Can be applied to fiberglass, aluminum, plastic, polyethylene, ABS, PVC, kevlar™, composites, non-skid surfaces, inflatables, nitrylon™, mirasol™, plastic water toys and almost any hard non porous surface, fenders, tarps, awnings, etc
- Water based
- Cleans & revitalizes
- For best results use with Canoe & Kayak Cream Cleaner Mfr. No. 5431
- Repeat application annually
- Application: Easily cleans one 10' to 12' small craft
- Avoid soft, porous padded seating material

ORDER NO. 791-54321 Mfr. No. 5432
Size: 450 mL

DRINK CUP HOLDER

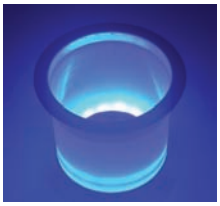
From T-H Marine comes the ultimate in Drink Cup Holders. This drink cup holder is manufactured from super tuff poly material which resists sunlight, breakage and chemicals. Our cup holder has been UV tested and will not fade as others do. This drink cup holder has a large diameter lip to provide a neat installation. Because drink cup holders sometimes require that they be mounted above sensitive instruments or directly above a cabin or storage locker, we have provided a hose fitting on the bottom to accept a 3/8" I.D. hose. Any spills, spray or rain water can be drained to the bilge area. Holds insulated or non-insulated cans, 16 oz. bottles and miscellaneous objects.

ORDER NO.	Mfr. No.	Colour	Main Body Diameter	Top Lid	Depth
205-72001	LCH-1-DP	Black	3.77”	4.2”	3-1/8”

LED LIGHTED STAINLESS STEEL RIM DRINK HOLDER

Corrosion Resistant 316 Stainless Steel Rim

- Illuminated cup holder provides soft LED lighting
- 15 Super bright LED’s
- Robust UV stable molded housing
- Mounts in standard 3-5/8" hole
- LED Light system is waterprooff
- Includes drain hole and nipple for routing drainage
- Wired for connection to 12V source



Depth: 4"
Rim Diameter: 4-1/8"
Hole Cut: 3-5/8"

Ironwood Pacific OUTDOORS

STICKYBOARDS™

If you've ever cut your bait or filleted your fish out on the water, you know that boat movement is a fact of life. With the StickyBoard™ you no longer have to worry about the board sliding off the counter or transom when you are cutting thanks to suction cups that keep it securely anchored.

Features:

- Suction cups securely anchor bait board
- Stain and odour resistant
- Dishwasher safe for easy cleaning
- Commercial grade poly surface will not dull knives
- Suction cups are removable

Small Bait Board: 6" x 10" w/ 2 suction cups
Large Bait Board: 9" x 15" w/ 4 suction cups

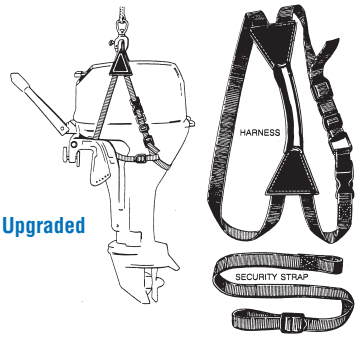
The Safe and Easy Way to Move an Outboard Motor



QUICK FIST® ONE PIECE RUBBER CLAMP

Securing your equipment just got a whole lot easier! Quick Fist® is ideal for stowing or transporting tools. Quick Fist® is a rubber clamp that mounts easily to keep tools and equipment firmly in place. Ideal for off-road trucks, boats, military equipment, ATVs, or any vehicle. Quick Fist clamps are made of heavy duty transportation grade rubber. They're UV resistant and withstand extreme heat or cold. Terrific for marine use, since Quick Fist will not rust or corrode.

- Holds objects from 7/8" to 2-1/4" in diameter (22-57 mm)
- Each clamp supports approximately 22 lbs. (10 kg)
- Mounting base measures 7/8" x 2-3/4" (22 x 70 mm)
- Mounts easily with #10 (5 mm) bolts or screws - (not included)
- Can also be used as a pipe stand-off - (do not use on exhaust pipes)

ORDER NO. 510-00540 Mfr. No. 540 - **Pair**

SUPER QUICK FIST®

Ideal for holding fire extinguishers, oxygen cylinders, CO2 tanks, and other equipment. Can be mounted with strap facing any direction. To clamp, pull strap through jaw and lock into place. Strap can be trimmed off for neat installation.

- Holds objects from 2-1/2" to 7-1/2" in diameter (64-191 mm)
- Each clamp supports approximately 50 lbs. (23 kg)
- Mounting base measures 7/8" x 6" (22 x 152 mm)
- Mounts easily with three #10 (5 mm) bolts or screws - (not included)

CFX3 SERIES POWERED COOLERS

Take control of outdoor adventures like never before with the Dometic CFX3 series powered coolers. Enjoy fresher food at your fingertips thasnks to Dometic's market leading VMSO3 variable speed compressor with optimized software for better cooling, freezing and power consumption. The CFX3 series features a durable Exoframe that protects the cooler, making it ideal for rugged trips. Strong, springloaded aluminum handles make it easy to lift and carry. Set the cooling temperature of your CFX3 on the new high resolution colour display screen and pack all your favorite foods. Download the CFX3 app and roam free from worry. Once your CFX3 is connected through your phone, you can set the ideal temperature, and get a detailed history of energy and temperatures.

- Generous storage capacity ranging from 36 litre to 99 litre
- Heavy-duty yet lightweight ExoFrame construction with fender frame protected edges and aluminumalloy handles
- Powerful VMSO3 compressor cooling technology efficiently refrigerates and deep-freezes to -7˚F (-22˚C)
- Easy-to-read high-resolution colour display and soft touch buttons enabling seamless control and monitoring of cooler performance
- CFX3 App allows temperature control via Wifi or Bluetooth and provides performance history
- 3-Stage dynamic battery protection system prevents dead car battery or allows deep draw on dual batteries

CFX3 SERIES POWERED COOLERS (continued)

Take control of outdoor adventures like never before with the Dometic CFX3 series powered coolers. Enjoy fresher food at your fingertips thasnks to Dometic's market leading VMSO3 variable speed compressor with optimized software for better cooling, freezing and power consumption. The CFX3 series features a durable Exoframe that protects the cooler, making it ideal for rugged trips. Strong, springloaded aluminum handles make it easy to lift and carry. Set the cooling temperature of your CFX3 on the new high resolution colour display screen and pack all your favorite foods. Download the CFX3 app and roam free from worry. Once your CFX3 is connected through your phone, you can set the ideal temperature, and get a detailed history of energy and temperatures.

- Generous storage capacity ranging from 36 litre to 99 litre
- Heavy-duty yet lightweight ExoFrame construction with fender frame protected edges and aluminumalloy handles
- Powerful VMSO3 compressor cooling technology efficiently refrigerates and deep-freezes to -7˚F (-22˚C)
- Easy-to-read high-resolution colour display and soft touch buttons enabling seamless control and monitoring of cooler performance
- CFX3 App allows temperature control via Wifi or Bluetooth and provides performance history
- 3-Stage dynamic battery protection system prevents dead car battery or allows deep draw on dual batteries

DOMETIC OUTDOOR

PATROL INSULATED ICE CHESTS
HIGH PERFORMANCE COOLERS

NEW!

The Dometic Patrol coolers are built to last trip after trip with thick PU insulated walls, single piece rotomolded construction, and a full length hinge pin. They are more than just a box to put ice in — smart features like a leak proof drain, deep-freeze lid seal, and one-hand rubber latches make the Patrol coolers an ultra-functional product. Constructed with C5 insulation, which reduces GHG emissions over 90% compared to its replacement.

- Robust rotomolded polyethylene construction withstands tough conditions
- Deep-freezer seals with thick PU insulation keeps ice cold for days
- Leak-proof drain for easy cleaning
- Lid firmly closed using one-handed rubber latches
- Durable, ergonomic rubber handles
- Full length lid hinge

Ironwood Pacific OUTDOORS

HelmsMate™

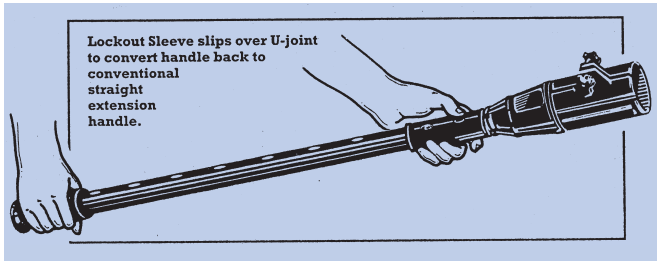
HELMSMATE™ OUTBOARD & TROLLING MOTOR EXTENSION HANDLES

IDEAL FOR GAS OUTBOARDS & ELECTRIC TROLLING MOTORS UNDER 15 HP

HelmsMate is an outboard and trolling motor extension handle that is designed to attach to your existing tiller giving you the extra reach you need to steer from the best seat in the boat while still maintaining precision steering & throttle control.

Features:

- Sit in a more comfortable position, or move forward in your boat for better trim
- Control speed and direction on twist throttle gas or electric trolling motors
- Easy access to outboard kill switch
- Simple to install
- Indestructible nylon clamp adjusts to fit most motors 15 HP & below, or up to 1 3/4" in diameter
- Universal clamp clasps securely to existing handle
- Positive stainless steel snap locks on extendable units avoids slipping
- Durable anodized aluminum shaft with stainless steel hardware
- Universal joint (U-Joint) model offers easy push pull steering for offset seating
- Lifetime Warranty
- Made in the USA



ORDER NO.	Mfr. No.	Description
968-00001	001.0	**U-Joint Model:**

Features the only all-metal universal joint, which allows offset seating and easy push-pull steering. Telescopes from 37" to 52".
Our most popular outboard extension handle for gas kicker motors.

ORDER NO.	Mfr. No.	Description
968-00011	001.1	**Straight Model:**

Straight handle for direct-steer feel. Extendable from 36" to 51". Ideal as an outboard tiller extension handle or as an electric trolling motor extension.

ORDER NO.	Mfr. No.	Description
968-00012	001.2	**Basic Model**:

Ideal for trolling motors and applications where only a short extension is needed, 30" fixed length.

ORDER NO.	Mfr. No.	Description
968-00122	001.22	**Basic Adj. Model**:

Ideal for trolling motors and applications where only a short extension is needed, Extendable from 18" to 24".

MINN KOTA

For more information see:
www.minnkotamotors.com

There's no excuse for missing a fish because you were messing with your boat. Our re-designed i-Pilot® and i-Pilot® Link systems automatically control your boat with GPS accuracy, so you can do more fishing and less excuse-making.

Note: These Remotes are Compatible with Bluetooth-enabled i-Pilot Systems (2017 or later) Only

I-PILOT® BT

The most-trusted GPS remote now has an all-new 33% larger LCD screen for total control. GPS technology integrated into trolling motor provides unprecedented boat control and flexibility.

FEATURES:
- **Remote**: Larger LCD screen and more intuitive controls
- **Reinvented Spot-Lock**: New hardware and software algorithms combine to create the most accurate electronic GPS anchor ever
- **Jog**: Move your current Spot-Lock position 5 feet to the left or right, forward or backward, with the simple push of a button
- **Bluetooth® Wireless Communication**: Fast, secure connection allows for easy software updates via your Apple® or Android ® device
- **Phone App**: Control i-Pilot directly from your Apple® or Android ® device. Enables quick command of speed, steering, Spot-Lock and Auto-Pilot plus ability to update your i-Pilot software
- iTrack Record/Playback
- Advance AutoPilot
- Cruise Control
- CoPilot

The new i-Pilot remote includes:
- Rugged, soft grip design
- 33% larger, full sunlight-viewable LCD screen
- New soft keys for easier and expanded menu navigation
- Power supplied by 3 x AAA batteries, with an anticipated battery lifetime of approximately one fishing season

i-PILOT AVAILABLE PRE-INSTALLED ON:
Select Ultrex, Ulterra, Terrova and PowerDrive Trolling Motors

ORDER NO.	Mfr. No.	Description
718-66550	1866550	i-Pilot Remote - Bluetooth

718-66550 iPilot

718-66650 iPilot Link

I-PILOT® LINK BT

Link lets your Humminbird and trolling motor communicate. Fully integrated. Completely unstoppable

FEATURES:
- **Remote**: Compact design with larger full-color touchscreen LCD
- **Reinvented Spot-Lock**: New hardware and software algorithms combine to create the most accurate GPS anchor ever
- **Jog**: Move your current Spot-Lock postion 5 feet to the left or right, forward or backward, with the simple push of a button
- **Phone App**: Trolling motor controls and software updates (iOS and Android)
- **Circle**: Select a position, dial in an offset distance, and travel around your selected location in a circular direction at the speed of your choice
- **Virtual Remote**: Control speed, steering, Spot-Lock and Advanced AutoPilot directly from your Humminbird® (Ethernet models)
- Follow the Contour and Contour Offset
- BackTrack
- Go To
- iTrack Record/Playback
- Advance AutoPilot
- Cruise Control
- CoPilot

The new i-Pilot Link remote includes:
- Compact, soft-grip design that fits better in the user's hand
- Large, full-color, sunlight-viewable LCD screen
- Dual Interface Control
- Touchscreen user interface with intuitive, customizable menu
- Full function keypad control
- Integrated, rechargeable battery, with an anticipated battery charge of approximately one fishing day

i-PILOT LINK AVAILABLE PRE-INSTALLED ON:
Select Ultrex, Ulterra and Terrova Trolling Motors

COPILOT ACCESSORY - POWERDRIVE BT

Compatible with PowerDrive trolling motors model year 2017 or later.

Wireless system allows you to control speed, steering and prop on/off on your PowerDrive trolling motor. It installs easily with plug-nplay design located inside the side plate of the trolling motor mount. A plug is also included, allowing a corded foot pedal to be used in conjunction with CoPilot. Includes wireless remote, receiver, neck lanyard and installation hardware.

NEW!

COMPOSITE QUICK RELEASE BRACKETS

Easily remove your electric-steer, bow-mount trolling motor. High-yield composite construction is super strong and impervious to corrosion. Low-profile design leaves deck clear when motor is removed. Locking handle with stainless steel pins can be secured with padlock (padlock not included, sold separately).
NOTE: Not for use with 72" shaft length motors.
Compatible with Ulterra, Terrova, PowerDrive, PowerDrive V2, PowerDrive Pontoon and Deckhand 40.

REPLACEMENT PROPS

Minn Kota offers a wide range of replacement props to fit all existing and many discontinued models. The props include the nut attachment and can be installed in seconds.

WEEDLESS WEDGE PROPS

The patented Weedless Wedge is the only 100% weedless prop in the history of fishing. It delivers full power so there's no need to carry an extra prop and a wrench. The leading edge on each propeller blade is shaped with a swept-back edge that always meets at an angle of less than 45º.

"Wedges" weeds away from the hub - even at slow fishing speeds

WEEDLESS WEDGE 2

The next generation of the industry's only 100% fully weedless prop. Swept-back, flared blades "wedge" weeds away, allowing you to pass through heavy vegetation at any speed, without draining valuable battery power.

CIRCUIT BREAKER - MKR-19

Protects trolling motor from electrical damage. 60 amp rating with manual reset. Fully waterproof. Compatible with all 12-, 24- and 36-volt systems.

ORDER NO. 718-65106 Mfr. No. 1865106

UNIVERSAL SONAR 2 ADAPTER CABLES

Universal Sonar 2 delivers advanced water temperature sensing and DualBeam PLUS™ technology for the best view of the waters below. These adapters connect your trolling motor to your favorite brand of sonar or fishfinder (200 kHz and 200/83 kHz DualBeam PLUS™ compatible). Shielded, IP68-rated waterproof connectors are metal tipped to prevent sonar interference.

TALON

UNLOCK THE WATER

Introducing the all-new Talon shallow water anchor. Up to 15' deep, with multiple anchoring modes, and control from the bow, transom, console, remote or mobile app. Unlock more water, and never miss another fish. Only with Talon.

Control more water and catch more fish with the first 15 Ft. shallow water anchor – 50% deeper than the competition.

With more control options than ever before, you can Talon down from anywhere on the boat using the Talon control panel, standard Talon remote, wireless foot switch, i-Pilot or i-Pilot Link remote, the Talon mobile app, or your Humminbird fish finder.

UNIVERSAL MODULAR TILT / ADAPTER BRACKETS

It's easy to choose your bracket, easy to install and pretty much impossible for anything to stop it. Talon's Universal Modular Adapter Brackets are built stronger than they have to be, and their innovative design lets you put Talon in just the right position on your boat. Mount Talon directly to the side of your jack plate or between your jack plate and transom or between the outboard and transom, on either the port or starboard side of your boat.

- Unparalleled Strength – made with extruded aluminum and reinforced with rugged construction. Brackets hold Talon steady whether you're trailering or tearing through heavy chop.
- Universal Modular Design – Two brackets. Any transom. Fits any situation and the brackets can be adjusted and tweaked to the perfect orientation. Interlocking teeth clamp-down to hold brackets and Talon in place once in position.

MINN KOTA

RAPTOR IS RELENTLESS

MEET RAPTOR THE SHALLOW WATER ANCHOR THAT NEVER STOPS WORKING TO KEEP YOU LOCKED-IN.

Raptor keeps working to hold you more reliably than any other anchor, especially in rough conditions. It knows where you're anchoring, what's happening to your boat, and what to do next. It reads the bottom, senses the anchoring force and reacts automatically to keep you locked down until the moment you're ready to change spots. Legendary Minn Kota durability and innovative anchoring technology make Raptor the only hydraulic anchor that can call itself relentless.

ACTIVE ANCHORING: ***(Standard on most Raptor models. Optional on black & silver 8' models)***
Raptor senses when wind and waves pick up and start to threaten your hold.
Then it automatically anchors itself back, and you don't have to lift a finger.

AUTO-BOTTOM MODE: ***(Select models only)***
Whether you're anchoring into rocks, mud, silt, sand or anything else - Raptor automatically senses the bottom to apply the right hold, with Auto-Bottom Mode. It's just one of four User-Selectable Anchoring Modes on Raptor. You can also activate Soft Bottom Mode for mud and silt, Rough Water Mode in wind and heavy chop, or Standard Mode for normal conditions.

NEW!

USER-SELECTABLE ANCHORING MODES: - Separate anchoring modes
Rough Water Mode: (heavy wind and chop),
Soft Bottom Mode: (muddy or silted bottom),
Standard Mode: (normal anchoring),
Auto-Bottom Mode: (on Active Anchoring equipped models which automatically delivers the ideal anchoring force by sensing bottom hardness).

DURABLE DESIGN:
A wider profile, heavy duty reinforced pivot points and extruded aluminum design will keep Raptor on the water in the harshest conditions.

RETRACTION FORCE:
Raptor Is designed with increased retraction force to ensure spike removal in all bottom types.

INDESTRUCTABLE ANCHORING SPIKE:
Strong and flexible composite anchor spike backed with a lifetime guarantee.

AUTO UP/DOWN:
Automatically deploy or retract your Raptor with the push of a button; no need to hold the button down.

SALTWATER-TOUGH ENGINEERING:
Keeps Raptor safe from the corrosive effects of saltwater.

Raptor shallow water anchors with and without active anchoring cannot be paired to one-another.

MOUNTING & ACCESSORIES

RAPTOR MOUNTING BRACKETS

Raptor's single-piece aluminum brackets provide superior strength and a rock-solid hold on the back of your boat. They're powder-coated for corrosion resistance in any situation, and mounted with stainless steel hardware. Just choose how you want to mount Raptor and we've got the perfect bracket for you.

- **Direct to Transom Mounting - Direct Mount Angle Bracket**
  If you're mounting directly to your transom, this bracket delivers maximum holding power and an optimal deployment angle for Raptor.
- **Jack Plate Mounting - Jack Plate Brackets**
  If you are mounting to your outboard's jack plate, choose whether you're mounting on the port or starboard side. For smaller, lighter boats choose the 4" rise. For larger, heavier boats choose the taller 6" rise. You can also use these brackets without a jack plate by adding the Raptor Universal Sandwich Adapter.

CANNON® ROD HOLDERS & TRACK SYSTEMS

Our revolutionary rod holder track systems are built to fit the way you fish.
The innovative pistol grip holders feature a ratcheting system for easy removal and angle adjustment.
The entire system of interchangable, high-strength aluminum components lets you spend less time rigging and more time reeling.

DUAL AXIS ADJUSTABLE ROD HOLDER

Experience 360˚ of rotation at the push of a button with this 10" holder.
It features six up and down locking positions, a pistol grip release for quick, one handed angle changes and a ratcheting adjustment system that allows you to quickly position the holder vertically. Includes a UV-resistant end cap to protect the rod and reel.

- Position rods vertically or easily remove them, thanks to the innovative ratcheting adjustment system on our rod holders

ORDER NO. 719-07002
Mfr. No. 1907002

SINGLE AXIS ADJUSTABLE ROD HOLDERS

This 10" holder utilizes six up & down locking positions, and delivers 90˚ of side to side rotation. Our Track system workhorse, it features a pistol grip release for quick angle adjustments and a ratcheting vertical positioning system. Includes a UV-resistant end cap to protect the rod and reel. The Rail mount version fits round or square rails from 3/4" to 1-1/4", perfect for boats with rails. The clamp mount version features a mount that opens to 2-1/2".

ELECTRIC DOWNRIGGERS

Scotty Depthpower Electric Downriggers have reached the highest performance and reliability standards ever, while remaining competitively priced. Thousands of fishermen now enjoy the superior speed, power and years of reliability that only Scotty offers. From custom designed marine motors to the final quality control tests, Scotty performance is unmatched in the industry.

TILT-UP-FEATURE
All Scotty Electric Downriggers include the 1023 Tilt-Up Mounting Bracket, which enables the unit to be tilted and locked in the upright position.

NO. 1106 DEPTHPOWER 36"-60"

The most popular Scotty Electric, with a boom that telescopes for extra reach and collapses for extra storage. Makes a great "big boat" rigger.

- 60" long, 1-1/4" diameter telescoping stainless steel boom (collapses to 36" for storage)
- Boom mounted No.350 Rodmaster II rod holder
- 1 Power Grip Plus Line Release
- 1026 Pedestal Swivel Mount

ORDER NO. 382-11060

NO. 1101 DEPTHPOWER 30"

Designed for heavy duty use, this unit will handle long hours and heavy weights in tough conditions.

- 30" long, 1-1/4" diameter stainless steel boom
- Boom mounted No. 350 Rodmaster II rod holder
- 1 Power Grip Plus Line Release
- 1026 Pedestal Swivel Mount

ORDER NO. 382-11010

NO. 1106-B DEPTHPOWER 36"-60"

The most popular Scotty Electric, with a boom that telescopes for extra reach and collapses for extra storage. Makes a great "big boat" rigger.

- 36" - 60" Telescopic stainless steel boom
- Boom Diameter: 1-1/4"
- Rod Holder Interior Diameter: 1.85"
- Fully adjustable decent speed, lifts 7 lb. weights at 235 ft./min. and 15 lb. weights at 203 ft./min.
- Spray protected positive-drive depth counter and Kevlar drive belt by Optibelt™
- 300 ft. of 200 lb. test, low drag microfilament premium power braid downrigger line (No. 2701)
- Boom mounted adjustable 358 Rodmaster II Rod Holder
- Includes Scotty/Marinco™ Plug and Receptacle
- The lowest amperage draw of any downrigger made with less than 1/3 the battery draw than some of the competition
- Marine grade stainless steel boom
- Multi-position auto-stop included (Use 1008 Stopper Beads to stop at any pre-set position)
- Includes Power Grip Plus Line Release
- Includes 1023 Tilt-up Mounting Bracket which enables the unit to be tilted and locked in the upright position
- Includes 1026 Swivel Pedestal Mount with 16 available positions
- Fully assembled and factory tested with complete saltwater protection

Downrigger Electrical Accessories

No. 1133 PREMIUM 12 GAUGE 2 CONDUCTOR DOWNRIGGER POWER WIRE

- For wire run lengths of up to 25 feet, use minimum 12 Gauge Wire. For runs of 25 - 40 feet use, 10 Gauge Wire.
- Manufactured from HEAVY DUTY annealed, tinned copper, providing maximum current flow.
- Ultra-flexible for extra protection from vibration or frequent flexing.
- CSA and UL approved, RoHA compliant.
- Recommend use with #1124 - 30 amp inline fuse

ORDER NO. 382-01133

"Scotty Downrigger" Power Wire is specially designed to exceed recommendations for cold bend flexibility, moisture, salt & oil resistance, heat shock, flammability and resistance to moisture capillary action.

Recommended use with # 1124-30 amp inline fuse

Downrigger Line Releases

Power Grip Plus

POWERGRIP PLUS LINE RELEASES

The line release is the critical link between the downrigger and the fishing rod. If it does not perform properly you will lose both valuable fishing time and fish. The fishing line is gripped between the soft pads with variable release tension attained by moving the line in or out of the jaws. The line release is attached to either the weight or the cable. Full range of release tensions, plus an adjustment clip that provides double the holding power if needed. 4-1/4" in length

No. 3134 LOCKING PLATE SET

Works in conjuction with your existing mounting knobs and padlocks of your choice. Works with all Scotty tilt-up electric and manual downriggers. Manufactured using rugged fiber reinforced engineering grade nylon molded over a robust stainless steel plate.

** This system provides a degree of protection for your Scotty downrigger and swivel mount. It is not designed to, and will not stop a determined and equipped thief.

ORDER NO. 382-31340

Note: Padlocks not included

SURE STOP PRO

The sure stop turns off your electric Downriggers auto stop at the same spot every time. The tuna cord provides a secure hold for your self-locating snap and is easier on your hands when pulling your gear to the boat. The Scotty Snubber absorbs shock, provides electrical insulation and helps prevent snags (model's 377 & 378). Tubing has been added to provide protection against abrasion in high wear areas.

ORDER NO. 382-03490 Mfr. No. 0349-BK

BAIT CASTER/SPINNING ROD HOLDER

Holds a bait caster reel in a cushioned cradle.
A slot in the front of the rod holder allows for a spinning reel to be securely held in position. The rod holder design has a side mounted flange, which leaves the bottom open. This allows for the rod holder to accommodate trigger grips. Pistol grip rod butts easily clear the sides of the rod holder for quick rod retrieval. Rod can be secured in holder with a soft latching strap which snaps over the top.

No. 459 ADJUSTABLE ROD HOLDER EXTENDER

No. 459

Provides the option for you to position your Scotty Rod Holder into that perfect fish fighting location. Conveniently position your rod holder closer to you on your kayak or your downrigger to eliminate reaching for your rod.
Extends the height of the rod holder by 9-1/2".

ORDER NO. 382-04590

No. 259 ROD HOLDER HEIGHT EXTENDER

No. 259

Increase your odds with easier access to your rod and reel. Extends the height of the rod holder by 6-1/2", allowing for faster access when that fish strikes. Works with Scotty post mount rod holders (except 240 Striker).

ORDER NO. 382-02590

No. 414 OFFSET GEARS

Endless Rod Holder Positions

Now you can adjust your rod holder to that perfect fish fighting position!

- Offset Gears double your rod holder positions for ultimate versatility
- Position your rod holder exactly where you want
- Simply place a gear between the rod holder post and your Scotty rod holder, adjusting your desired angle of the rod holder before fastening the bolt tight

ORDER NO. 382-04140

No. 415 SLIP DISCS

- Allow you to make micro adjustments to your rod holder or any of the Scotty® rod holder height extenders. These discs when placed between the rod holder post and Scotty® rod holder allow you to obtain infinite adjustment
- Using one or both discs

ORDER NO. 382-04150

No. 254M MINI ROD HOLDER HEIGHT EXTENDER

No. 254M

Extends the height of your rod holder by 4-1/4", allowing you to tilt and swivel your rod holder when using a Flush Deck Mount. The MINI extender provides more flexibility when choosing the perfect position for your rod. Works with all Scotty post mount rod holders.

ORDER NO. 382-02540

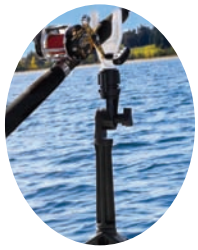
No. 433 COAMING / GUNNEL MOUNT CLAMP WITH GEAR-HEAD

Position your rod holder or Scotty accessory virtually anywhere on the lip of your kayak's coaming or boat gunnel. Built tough from rugged engineering grade nylon, the 433 revolutionizes the way you can fish from your sit-in kayak. The attached Gear-Head mount allows you to quickly change rod holder positions with a simple twist. Easily fasten the 433, drop and lock your favorite Scotty rod holder or accessory and start fishing! A non-permanent solution for mounting fishing gear to your watercraft and getting you out there!

ORDER NO. 382-04330

No. 416-BK ROD BALANCER / REST

- Non-resistance approach encourages more bite to strike hook-ups when fishing
- Increased successful and efficient hook-sets
- Built tough from rugged engineering grade nylon
- Makes for a great rod rest when fighting big fish in a small boat or kayak
- Works with all Scotty post mounts and rod holder height extenders
- 360˚ rotation available when using Scotty post mounts or extenders-
- Scotty® always recommends using a rod safety leash at all times



ORDER NO. 382-04160

No. 342-BK GLUE-ON PADDLE CLIP

Scotty's super-strong paddle clip now comes with the option of a glue-on mounting pad. This versatile product is great for any inflatable watercraft, including kayaks and SUP's where drilling holes is not an option. Using marine grade adhesive, mount the low profile 342 in a convenient location and simply snap in your paddle.

ORDER NO. 382-03420

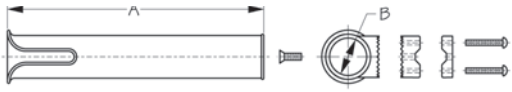
RAIL MOUNT ROD HOLDER

Injection Molded Polypropylene



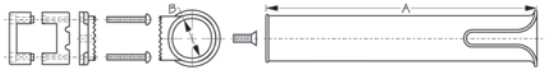
ORDER NO.	Mfr. No.	Colour	A	B	Fits Tubing
423-27160	327160-1	Black	11-3/4"	1-3/4"	7/8" - 1"
423-27161	327161-1	White	11-3/4"	1-3/4"	7/8" - 1"

These rod holders can accomodate rods up to 1-3/4" in diameter. Designed with a front mount adjustment screw. This allows easy adjustment without having to disassemble the rail mount brackets as required on competing models. Sea-Dog Line recommends using a safety line on the rod and/or reel when used with rail mount rod holders.

423-27161

RAIL MOUNT ROD HOLDER - SQUARE RAIL

Injection Molded Polypropylene



423-27166	327166-1	White	11-3/4"	1-3/4"	1-1/4" x 1-1/4"

Designed with a front mount adjustment screw. This allows easy adjustment without having to disassemble the rail mount brackets as required on competing models. It is a quick and easy way to add rod holders to pontoon boats. Sea-Dog Line recommends using a safety line on the rod and/or reel when used with rail mount rod holders.

Available in White Only

For more information see: www.sea-dog.com

PONTOON SQUARE RAIL ADJUSTABLE ROD HOLDER

Each rod holder comes with 2 protective liners, one to fit 1" and one to fit 1-1/4" square rail. The liners are round on the outside allowing the rod holder to be adjusted to any angle above the water. The hidden left or right adjustment allows even more adjustment choices. Made from 304 stainless steel tube lined with a UV resistant black PVC and fitted with a chrome zinc alloy adjustable clamp. Angle around the rail is infinitely adjustable.

Angle to the left or right adjusts 15˚ increments.

- Fits 1" or 1-1/4" square rail
- Fully adjustable around the rail and side to side
- 9" tall tube with 1-5/8" ID
- Gimbal pin keeps rod from spinning
- Solid bottom with drain holes prevents water from pooling
- Includes everything you need to install, mounting screws and the right hex key needed to make the angle adjustment and to tighten the clamp in place

ORDER NO. 336-55108

TURBO IN-LINE BLOWERS

Improved 3" design includes:

- Nickel-plated motor can for corrosion resistance
- Stiffening ribs to reduce housing distortion
- Motor cap to seal wires and motor for water resistance
- Up to 25% higher airflow
- Up to 40% fewer amps
- NMMA Certified
- IMCI (CE) Certified

Attwood's new and improved Turbo 4000 sets the standard for in-line blower performance. Utilizing advanced fan blade design techniques, Attwood has developed a blower system that matches air flow of existing in-line blowers at a significantly reduced noise level. For added durability, Attwood incorporates an engineered plastic housing that resists deformation during installation and prevents blade to housing interference.

COWL VENTILATOR WITH FLANGE

For use with 3" I.D. wire-supported ventilation hose.
Comes with flexible hose flange for simple, secure insertion into the deck hole. Flange is screwed onto hose, then the vent snaps easily onto the flange. Vent constructed of chrome-plated die-cast Perma- Plate® ZAMAK. Flange is non-corrosive plastic.

- Dimensions: 5-5/16" wide x 6" long x 2-1/4" high (neck extends 1" below deck)
- Installation hole size: 3-1/4" to 3-1/2" diameter
- Pre-drilled with three holes for #8 screws

ORDER NO. 101-13640 Mfr. No. 1364A3

TWIST-ON HOSE FLANGE

For use with 3" I.D. wire-supported ventilation hose.
Unique design allows hose installation from topside by simply turning the flange into the hose spiral, passing the hose through the deck hole, then mounting ventilator. The connection is secure with no hose clamps needed.
Non-corrosive plastic construction.

- Installation hole size: 3-1/4" - 3-1/2" diameter
- Pre-drilled with four holes for #10 screws

ORDER NO. 101-14050 Mfr. No. 1405-3

STORAGE VENT

Used to vent lockers and storage areas.
Does not accept a ventilation hose.
For mounting above the rub rail only.
Installs easily to provide 3" diameter transom vent.
Plastic construction will not corrode or discolour.

- Provides over 6 square inches of ventilation opening
- Overall dimensions: 3-13/16" flange diameter, 1-1/16" high, 5/8" neck
- Installation hole size: 3-1/16" to 3-1/8" diameter

ORDER NO. 101-13530 Mfr. No. 13531

MARINCO®

SOLAR POWERED EXHAUST VENTILATION

The MiniVent 1000 is the smallest and most economical solar vent in the Nicro line. At just 7" in diameter and approximately 1-3/4" high, the MiniVent 1000 is compact yet effective. The solar powered model is an exhaust vent only, but it will keep the boat cabin cool when you need it most -during the hot sunlight hours. Under solar power, the Mini Vent 1000 will move 700 cubic feet of air an hour. At night, even a light breeze will continue to ventilate the boat passively. Built-in shut-off damper prevents water intrusion in rough seas. Fits a 3-3/4" installation hole.

MINI VENT 1000

CE

- Solar powered exhaust ventilation during daylight -passive exhaust at night
- No batteries or wiring required
- Whisper-quiet fan operation
- Durable white ABS construction
- Shut-off damper to prevent water intrusion in rough seas
- 2-year limited warranty and 5-year qualified warranty
- Mounting hardware included
- Optional stainless steel cover available
- Dimensions: 7" diameter x 1-3/4" high
- All MiniVent 1000 models come complete with white plastic interior trim ring, mounting hardware and an easy-to-understand installation manual

Mfr. No. N20020 3" White
ORDER NO. 113-20020

AIR VENT 500
PASSIVE EXHAUST VENTILATION

Nicro offers the AirVent 500 as a non-solar ventilation option that can passively move 600 to 1,000 cubic feet of air per hour in a 15 knot breeze. Nicro's engineering expertise created this vent to be strong, compact and effective.
The AirVent 500 is an economical way to provide ventilation in your boat or it can be used in conjunction with other solar powered or 12V vents to create cross flow air circulation.

- Compact size: 7" diameter x 1-3/4" high
- High Air Flow volume 600-1,000 cu. ft./hour in a 15 knot breeze
- Strong U.V. stabilized white ABS construction
- Center panel is translucent plastic allowing light to pass through it below deck
- Center damper shuts vent off from below
- Easy installation- attaches directly to deck in compact 3-3/4" diameter hole

Mfr. No. N28810 3" White
ORDER NO. 113-28810

DAY/NIGHT SOLAR VENT

NEW DESIGN

CE

- Circulates fresh air in boat cabin eliminating mold, mildew and musty air
- Moves 1,000 cubic feet of air/hour or 24,000 cubic feet of air/day (4" model)
- Rechargeable battery allows for 24-hour continuous operation
- Whisper quiet fan operation
- No wiring required
- Built-in on/off fan switch, LED lights and intake/exhaust switch
- 2-year limited warranty
- High capacity NiMh battery operates vent for up to 24 hours without sunlight on a full charge
- Threads into included deck plate and can be removed from outside without tools
- Complete air & green water shut-off from below
- All Day/Night PLUS models come complete white plastic interior trim ring, insect screen, mounting hardware and an easy-to-understand installation manual
- **Replaces NICRO 3" & 4" snap-in deck plates (fits existing holes once snap-in deck plates are removed)**

PRECISION WIND DIRECTION INDICATORS

10" WINDEX VANE
For Small Boats and Dinghies

Sapphire suspension bearing, 10" Vane (25cm) and adjustable tacking arms with tabs. Vane and tabs feature reflectors for high visibility day and night. Includes glass reinforced polycarbonate J-Base for side, top or front of mast mounting on most dinghies, smaller boats and sport boats. Stands just 9.25" (23.5cm) tall and weighs 1.2 ounces (31g).

ORDER NO.	Mfr. No.	Description
510-03120	3120	Windex 10 Sport
510-03101	3101	Spare Vane Only

15" WINDEX VANE The Choice for Most Sailors

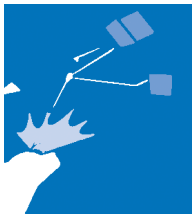
The 15" (38.1cm) vane can be through bolted or tapped into the masthead. The mounting socket has a 5/16"-18 thread. The entire unit weighs only 3.6 ounces (101g). Sapphire suspension system and reflector tabs on the bottom surfaces make Windex 15 highly sensitive and visible, even at night!
Bird-proof spike extends above vane to keep birds off your mast. Can be equipped with Windex Light #3200.

ORDER NO.	Mfr. No.	Description
510-03150	3150	Windex 15
510-03151	3151	Spare Vane Only

WINDEX LIGHT For Viewing Windex Indicators at Night

This unique lighting system makes it as easy to "read the wind" at night as during the day, from anywhere on deck. The Windex Light is mounted directly to the masthead fitting of the Windex 10 and 15. The non-dazzling light from the 12-volt bulb illuminates the reflecting surfaces of the reference tabs and vanes. Completely waterproof with non-corroding, silver parts.
Low battery drain: Current draw of Windex Light is 120ma.

ORDER NO.	Mfr. No.	Description
510-03200	3200	Windex Light



WINDEX AV Combines Two Installations into One

Windex AV lets you mount the time tested Windex 15" wind vane onto standard Metz™ or Shakespeare™ brand VHF or AM/FM whip antennas. Keeps masthead uncluttered, reduces weight and windage aloft. Rides on low-friction Teflon™ bearings in place of sapphire suspension. Complete with 15" (38cm) vane, reflective tabs, stainless arms, and all components needed for easy installation.

ORDER NO.	Mfr. No.	Description
510-03160	3160	Windex AV

Note: Antenna not included

WINDEX ACCESSORIES

J-BASE™ VERSATILE MOUNT
for Windex 15 and Windex 10.Sport

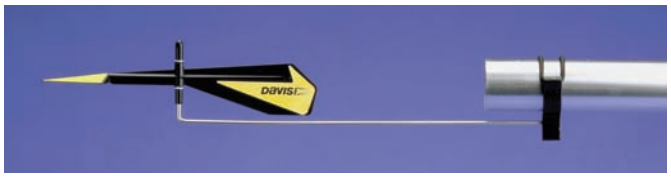
Standard with the Windex 10.Sport, **J-Base™** can be ordered as an option for Windex 15. Allows for side, top or front mounting on most masts, on big boats or dinghies alike. **J-Base™** is made of glass filled polycarbonate, 2" (5cm) long. Includes stainless steel set screw and (2) #10 self-tapping screws. Reduces overall weight by 15 grams when substituted for standard mounting base on Windex 15.

ORDER NO.	Mfr. No.	Description
510-03155	3155	J-Base for Windex 15
510-03125	3125	J-Base for Windex 10.Sport

BLACK MAX WIND DIRECTION INDICATOR
Tough • Versatile • Sensitive

Black Max™ is a versatile, high performance wind direction indicator that attaches quickly to masts and booms on most small boats such as Lasers and Sunfish. The tough, high impact plastic vane is designed to withstand years of punishment and the abuse of small boat sailing. The stainless steel mounting arm and set screw, as well as a tough plastic mounting base, add to the system's durability.
Wind vane length 8" (20 cm).
ORDER NO. 510-01295
Mfr. No. 1295

Unique adjusting system fits masts OR booms from 1.5 to 2.5" (38 to 64 mm)



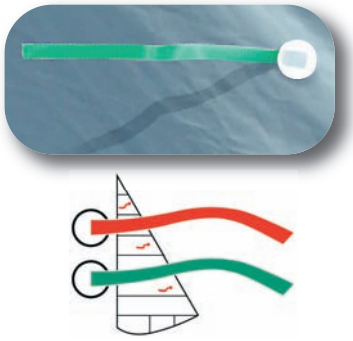
Attached to a boom

Attached to a mast

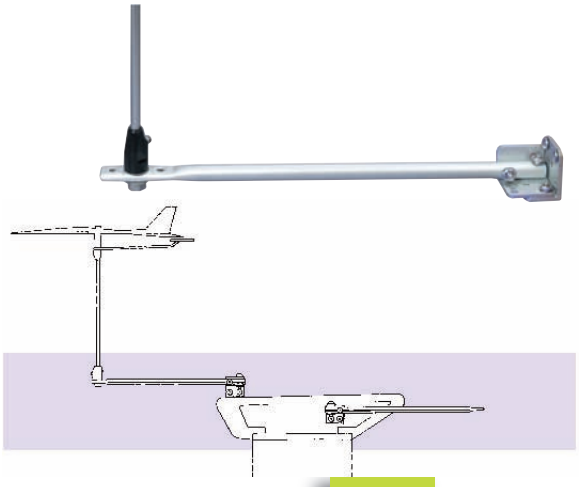
Unbreakable protective storage tube

SAIL & RIGGING GEAR
Air-Flow Tels™
Lightweight, ripstop nylon Air-Flow Tels™ attach to sails with waterproof adhesive locator discs. No holes required. Tels show the air flow across the sails - allowing you to trim sails for maximum performance. Each kit includes 14 Tels and full instructions on where to apply them and how to read them.
ORDER NO.510-00950
Mfr. No. 950

#950 Air-Flow Tels™



UNIVERSAL MASTHEAD MOUNT
Extend your Windex 10.Sport or Windex 15 vane away from masthead obstructions. The 13" (33cm) arm comes with hardware to allow for side or top mounting and offset angles up to ±20 degrees. Mount on the back of the mast for easier viewing from the cockpit.
Can be used with Windex Light # 510-03200.
Length 13 inches (33cm) Weight 3.2 oz (90g)
ORDER NO.510-01705
Mfr. No. 1705



SAIL TRACK STOPS

When it's time to lower your sail you can rely on Davis' Round and Flat SAIL TRACK STOPS to hold your sail and its slides in place on the mast and boom. Large knurled wheels are released with ease. Made of heavy-duty, black anodized aluminum and marine grade nickel plated brass. Flat stops come with lanyard holes.

EMERGENCY RADAR REFLECTOR

Effective in any Weather

RADAR REFLECTORS

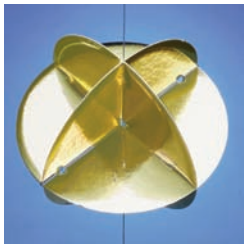
Giving ships a chance to see you in fog and low visibility conditions is a must for serious boaters.

• Proven Superiority. • Ranked "the best radar reflector" and one of the top ten sailing products by Practical Sailor. • Rated "superior" by SRI after the most rigorous tests ever conducted on radar reflectors, some costing 10 times as much.

EMERGENCY RADAR REFLECTOR

Every small boat needs a radar reflector.
The Davis Emergency Radar Reflector is a compact, lightweight and economical unit that disassembles and stows flat for storage. When needed, it pops open to 11.5" diameter (292mm) and installs in seconds. Its three perpendicular planes reflect radar from all directions. Made of special plastic-metal foil laminate. Resists corrosion or peeling. Cheap insurance!

ORDER NO. 510-00151



#151 Emergency Radar Reflector

BOAT COVERS

BoatGuard®

Hot Shot™ Fabric
Acrylic Coated Polyester

BoatGuard® Boat Covers are America's best selling universal-fit trailerable boat covers. Strong enough to be trailered, and are fully capable of surviving the rigors of the road. BoatGuard® Covers are manufactured from acrylic coated polyester grey Hot Shot™ fabric that is both light weight and water repellent. Storage bag & tie-downs included.

All BoatGuard® covers feature:

- 4-ply folded seams and double-folded hems.
- Strong 1" wide tie-down loops to secure the cover without scratching the boat.
- Shock cord in the hem for a close fit.
- Sizes to fit most models.
- 2 year limited warranty.

HOT SHOT ™ ZIPPERED STORAGE BOOTS FOR BIMINI BOATOPS®

Keep your Bimini BoaTop® neatly stored when you are not on the boat. Boots feature one separating plastic zipper for easy on/easy off, and are made of marine vinyl to last for years. Manufactured with Hot Shot™ acrylic coated polyester fabric, that makes the boot strong yet lightweight and easy to store.

SURESHADE® POWER BIMINI

Never leave your seat again to adjust your bimini top. The Sureshade® Power Bimini allows boaters to operate their canopy from the helm with the flip of a switch. In seconds, your pontoon bimini can adjust from fully extended to lying completely down, or any position between.

- Equipped with a telescoping frame that adjusts from 92" to 102" wide, this automatic shade system fits most pontoons on the market today
- With 10' of canvas, you can get up to 30% more coverage than standard bimini tops

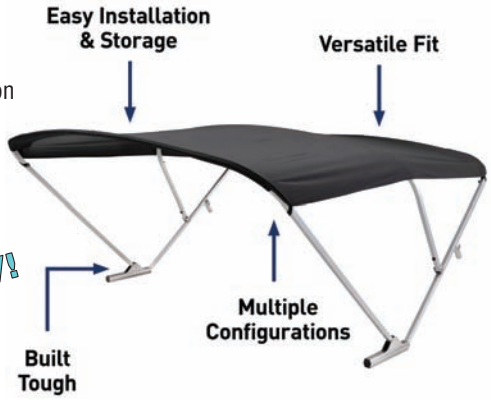
NEW!



ANCHORSHADE®III

Long known for manufacturing quality marine products,
Taylor Made Products has re-invented the highly successful Anchorshade. Several important design changes are being introduced, including larger diameter and solid fiberglass structural ribs, and hinge connectors which are twice as strong as on our last model. Also added to these improvements, is a powder-coated aluminum frame (so even if scratched, it will not rust), a 4-point locking height adjuster and a Sur-Lock push-up mechanism. These newest innovations are sure to keep your Anchorshade III looking and working well, for years to come!
This uniquely designed 6ft. x 6ft. square umbrella can be used on almost any vessel from a small fishing boat to the larger high performance boats.
AnchorShade®III is designed to be used when anchored or at idle speed on a calm day.
AnchorShade®III is perfect for relaxing on the water,
at dockside, or just lounging on the beach.

- Adjustable pole locks in place up to 8'
- Lightweight, mildew/fade resistant UV-treated nylon top
- Excellent sun protection. Blocks out 85-90% of harmful rays
- Adjustable straps with non-corrosive hardware provide mounting flexibility for nearly all applications
- "Market Style" top allows venting to occur without loss of sun protection
- Comes complete with its own heavy-duty carrying case with a shoulder strap

STYLED-TO-FIT® TRAILERABLE BOAT COVERS

- "Semi-Custom" boat covers are highly fitted to accommodate the primary characteristics of the boat style
- Designed to accommodate all popular hull styles & boat configurations
- 1/4" strong, durable shock cord encased in the hem for a snug fit
- Great for travel, mooring & storage

CARVER by COVERCRAFT

MATERIAL: POLY-FLEX II - OPTION #1
Colour - SLATE GRAY

Features:

- Economically-priced 5.3 oz. 100% Solution-Dyed Marine Polyester with polyurethane finish coating
- 300 Denier x 300 Denier
- Poly-Flex II colors are part of the polyester fiber itself the colour goes completely through the fiber instead of being just on the surface
- Lightweight and strong
- Good resistance to tearing, fading and rot
- Good sun blockage
- Durable water repellency, UV and mildew resistant finish
- Breathable to help allow interior moisture to escape
- Covers are trailerable when secured to trailer with included Tie Down Kit (CC Order # 457-61000). (1) kit includes: 12 tie-down straps - If the boat is 20' or larger, we recommend an additional tie-down kit.
- NOTE: Motor covers are sewn into the outboard boat covers; some designs come with a separate motor cover
- **3 Year Limited Warranty**

MATERIAL: Sun-DURA® - OPTION #2
Colour - MIST GRAY

Features:

- 100% Solution Dyed Polyester means colors are part of the polyester fiber itself, rather than the dye adhering only to the surface of the fibers
- 7.6 oz. marine grade polyester that offers superior resistance to harmful UV rays, fading, mildew, tearing & overall wear-&-tear
- Our own unique finish provides exceptional water repellency while maintaining breathability for the health of the boat
- Covers are trailerable when secured to trailer with included Tie Down Kit (CC Order # 457-61000). (1) kit includes: 12 tie-down straps - If the boat is 20' or larger, we recommend an additional tie-down kit.
- NOTE: Motor covers are sewn into the outboard boat covers; some designs come with a separate motor cover
- **7 Year Limited Warranty**

CARVER 4-BOW SQUARE TUBE PONTOON BIMINI TOP 48" X 8'

COMPLETE TOP KIT, READY TO ASSEMBLE - UPS-ABLE
Square Aluminum Frame / Sunbrella® Outdura® Fabric
with MATCHING STORAGE BOOT

Designed for pontoon boats. The tough, rigid 1" square satin-finish tube complements the rails on the pontoon boat. All 4-bow square tube bimini tops come with an attached rear brace kit with quick release pins, high grade domestic nylon fittings and a matching zippered storage boot. Comes with full sleeves without zippers, and does not have a cutout for a running light.

BIMINI TOP ACCESSORIES

BIMINI TOP BRACE KITS

Specifically designed to hold your top up and out of the way when top is folded and not in use.
Each package contains 2 braces which can be cut down to desired length, 2 deck hinges, 2 unique hinged jaw slides that make installation easy by eliminating the need to disassemble the main bow, and 2 pole clips to secure the braces to the bimini frame and eliminate rattling while top is folded down for travel or storage.
All screws necessary for mounting are included. ***(1 pair per package)***

BOAT COVER ACCESSORIES

CARVER BOAT COVER TIE DOWN KIT

AN ABSOLUTE MUST FOR PROTECTING YOUR BOAT AND EXTENDING THE LIFE OF YOUR BOAT COVER!

This is an effective, efficient way to secure your boat cover when trailering. Constructed of heavy duty 1" black polypropylene webbing and convenient quick-release buckles. Unlike bungee cords, these durable tie down straps don't stretch, so they won't tear your cover or damage your boat.

Each kit contains (12) 12-foot straps

ORDER NO.	Mfr. No.
457-61000	61000

CARVER BOAT SUPPORT POLES with BOAT VENT II

Added breathability for the health of your boat. Replace a conventional support pole with one that provides an air vent to reduce moisture, heat and mildew under the cover. Includes an adjustable (22" to 70") anodized aluminum pole, boat vent and simple installation instructions.

Packaged (1) per box

ORDER NO.	Mfr. No.
457-60002	60002

CARVER BOAT COVER REINFORCEMENT

This repair kit is an ideal way to prolong the life of your boat cover. Kit includes one square yard self adhesive material. Use it to add extra padding to stress points from windshields, trolling motors, etc. Simply cut to desired size and apply to clean, dry surface.

ORDER NO.	Mfr. No.
457-61050	61050

BOAT VENT II ONLY

Protect your investment with this fast and easy-to-install Boat Vent II. The Boat Vent II can be added to any custom or styled-to-fit boat cover. Made with UV inhibited polymers to withstand the elements. Prolongs the life of the boat's upholstery by venting the enclosed space of the warm, moist air. Boat Vent II helps prevent mold, mildew, and bacteria from growing under the boat cover and causing irreversible damage to the boat's interior. Can be used alone or with most standard 3/4" support poles.

ORDER NO.	Mfr. No.
457-00000	VENTII

CARVER BOAT SUPPORT POLES with SNAP & VINYL END

Prevents dry rot and mildew. These lightweight telescoping poles are designed to support your cover so that water does not pool. Constructed of anodized aluminum tubing that can be adjusted to desired height from 22" to 70". Additional vinyl end included. ***Packaged (1) per box***

ORDER NO.	Mfr. No.
457-60000	60000

PRIVACY CURTAIN

Great for use as a changing room or portable potty enclosure. Made with Poly-Flex II, 100% marine-grade polyester and non-corrosive marine-grade zipper. Attaches to bimini top with 1" polypropylene straps with quick release buckles. Height is adjustable up to 60"

(1 per package)

ORDER NO.	Mfr. No.

BIMINI TOP ACCESSORIES

BIMINI TOP SLIDE TRACK KITS

Designed to allow a retracted top to slide into storage position, this is an alternative to a brace kit. Hardware is included to accommodate standard mounting or side mounting.
Each aluminum slide track kit includes 2 slide tracks,
2 sliding deck hinges with combined slide locks,
2 sidemount sliding deck hinges, 2 side locks,
4 end caps, and all necessary screws for mounting.
(1 pair per package)

ORDER NO.	Mfr. No.	Description
457-62000	62000	24" Slide Track Kit
457-62001	62001	36" Slide Track Kit

10" TRAILERING STRUTS
ALUMINUM with NYLON FITTINGS

Keep your bimini top secure while trailering. Fits any 7/8" round tube bimini top frame.
Two 10" long struts can be cut down to desired length and are easy to install.
All installation hardware included.
(1 pair per package)

ORDER NO.	Mfr. No.

UNIVERSAL MOTOR COVERS

Universal Motor Covers are a great option if you are upgrading your motor or simply need a replacement motor cover. Each motor cover has 1/4" draw rope sewn into the hem for easy installation and snug fit.

Material: Poly-Flex II®

- Economically-priced 5.3 oz. 100% Solution-Dyed Marine Polyester with polyurethane finish coating
- 300 Denier x 300 Denier
- Poly-Flex II® colors are part of the polyester fiber itself so the color goes completely through the fiber instead of being just on the surface
- Lightweight and strong
- Good resistance to tearing, fading & rot
- Good sun blockage
- Durable water repellency
- UV & mildew resistant finish
- Breathable to help allow interior moisture to escape

3 Year Limited Warranty

Colour: Slate Gray

DOCK EDGE

BOAT COVER SUPPORT POLES

36"- 64" SUPER BOAT COVER SUPPORT POLE

This fully adjustable support pole is 3 support poles in one!
We supply a male canvas snap, a grommet tip, and a plain end cap with this Super Support Pole. So, if you have a female canvas snap or a grommet on your boat cover, you can get a support that will work with your cover. The pole is aluminum, with a durable plastic adjuster to set the correct height for your cover.

ORDER NO. 101-11992 Mfr. No. 11992

For more information see:
www.taylormadeproducts.com

BOAT COVER SUPPORT POLE BASE PAD

Base is designed for use with all 7/8" diameter (bottom pole) support poles. Fits #'s 11991 & 11992. Bottom pad is made for EPDM to provide additional friction to hold pole in place against the deck versus the crutch tip design. Base has a swivel capability that allows the pole to be positioned at just the right angle for your application. Simply remove the bottom tip from your existing support pole and insert over adapter to secure. Sold individually.

ORDER NO. 101-11976 Mfr. No. 11976

36"- 64" ADJUSTABLE BOAT COVER SUPPORT POLE

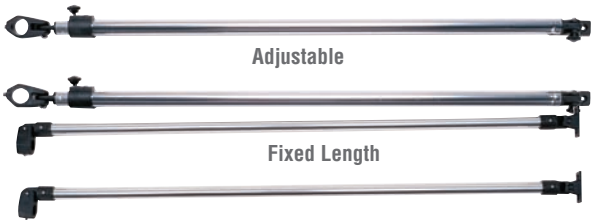
Extend the life of your boat cover by preventing water from pooling on top. Our standard boat cover support pole has a non-marring tip on each end of a telescoping aluminum tube. A durable plastic knob allows for easy adjustment of the height.

ORDER NO. 101-11991 Mfr. No. 11991

BIMINI SUPPORT POLES

Keep your Bimini BoaTop® off the gunwales with a pair of bimini support poles. Available in adjustable or fixed lengths, use these poles to replace your rear straps and keep your top "up and out of the way." Two jaw slides (7/8") and deck hinge are included.
Sold in pairs.

ORDER NO.	Mfr. No.	Description
101-11995	11995	Adjustable Support Poles, 28" x 48"
101-11989	11989	Fixed Support Poles, 40" Length



Caution: These poles should never be used to replace the front support straps. Only the rear straps should be replaced with adjustable support poles. Do not exceed 35 miles per hour while using adjustable Bimini top support poles.

attwood

DELUXE BOAT COVER SUPPORT SYSTEM

One of the best cover support systems on the market. Provides an easily adjustable, effective boat cover support to keep water from accumulating in the center of the boat cover. Extends the life of any boat cover by as much as 50%. The support uses a telescoping center pole (28" to 48") and polyweb straps with bow spreader to form a double ridge line under the cover. The pole rests on a rubber foot and the web straps attach to the stern with non-marring hooks.

- Aluminum pole: 1" diameter
- Polyweb straps: 1" wide, black

For Boats up to 19 ft.
Mfr. No. 10795-4
ORDER NO. 101-10795

SEA-DOG LINE
QUALITY MARINE GEAR

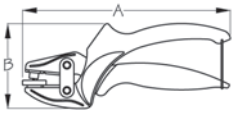
CANVAS SNAP TOOL - Aluminum Steel

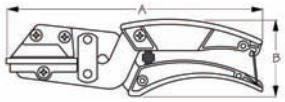


ORDER NO.	Mfr. No.	A	B
422-99190 Ea.	299190-1	7-1/4"	2-7/8"

Includes a die wrench & three removable dies for various snap caps & studs. Not for use with heavy-duty stainless canvas snaps.

MULTI-PURPOSE CUTTER

Powder Coated Steel



ORDER NO.	Mfr. No.	A	B
425-63310	563310-1	9-1/2"	2-5/8"

Great for rope and plastic tubing.
Includes two spare utility blades.

HEAVY DUTY CANVAS & UPHOLSTERY SCISSORS

304 Stainless Steel/Injection Molded Nylon

ORDER NO.	Mfr. No.	A	B
425-63320	563320-1	8-1/4"	3-1/4"

Quality stainless steel shears are designed with offset handles to allow the blades to hug the work surface, giving you precise cutting with thin and thick materials. Applications include: rubber, vinyl, leather, plastics, cording, upholstery, and canvas.

For more information see: www.sea-dog.com

DRAWN ALUMINUM TUBING

Close tolerance to provide consistent use with rail and top fittings. Also offers superior strength to standard extruded tube. Fits most canvas top applications.Silver Bright Dip and Anodized finish for chrome like appearance. Withstands corrosive environments. Extrusion flow lines may appear through the anodized finish.

ORDER NO.	O.D.	Wall Thickness	Length
003-10780	7/8"	.058	10'
003-20780	7/8"	.058	20'

STAINLESS STEEL TUBING (ROUND)

Used for a multitude of applications including grab rails, bow rails and canvas top frames. Polished finish.

ORDER NO.	O.D.	Wall Thickness	Length
080-10780	7/8"	.049	10'
080-20780	7/8"	.049	20'

Features 3 locking points which when engaged cause the camming surface to pull the lid into the gasket creating a water tight seal. Constructed of injection molded polypropylene with a structural honeycomb lid for superior rigidity and strength. Non-slip textured surface. Can be mounted horizontally or vertically. Full strength piano hinge for added strength and security. Interior opening is 11-1/8" x 7" and will accept group 24 series size batteries. Installs with ten #10 FH fasteners (not included).

HATCH ADJUSTER

Formed and Stamped 304 Stainless/Nylon

SUN BLOCK CLIP - WINDOW PROTECTOR

Protect your clear plastic windows from scorching & costly replacement with "SUN-BLOCKER", a self insulated protective clip which eliminates contact between your metal tubular top frame & the clear plastic windows. Unprotected windows develop a chronic condition which should no longer exist for boaters. It is a safety hazard when you can't see through these windows! "SUN-BLOCKER" reduces singeing, scorching & heat cracking. Two or three "SUN-BLOCKER" clips can give you maximum protection against element destruction of your clear plastic windows.

• Designed cooling air-vents • All rounded-corners eliminate abrasion

ORDER NO.	Mfr. No.	Description	Colour
144-00078	NHS-78	Sun Blocker Clip, 7/8"	Marine Grey
144-00100	NHS-100	Sun Blocker Clip, 1"	Marine Grey

FLUSH CLEATS

Stud mount

Counter-sunk mount

This cleat recesses flush to the deck for a clean, contemporary look at an affordable price. Two mounting styles include an exclusive stud-mounted cleat (Patented). Water-resistant cleat recesses into cast body and is captured with lubricated seals. An optional drainage receptacle mounts below the cleat to drain off water. Durable, enhanced cast 316 stainless steel construction and simple patented design assures long-life and dependable operation.

Easy Installation

Hole pattern is similar to competitive models
1/8" stamped backing plate, for decks thicker than 1/2", is standard on all models

NEAT CLEATS

The Neat Cleat offers what you've been asking for - a retractable cleat with a thin profile that installs easily on narrow gunwales.

- The cleat stays up when pulled up. Friction springs hold it in place & reduces rattling
- When lowered, cleat is only 1/2" above deck.
- Beautiful, strong and durable - each stanchion is a 7/8" rod of solid enhanced # 316 stainless steel alloy.

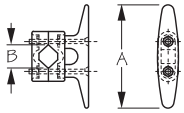
RAIL MOUNT CLEAT

Injection Molded Nylon/Stainless Steel

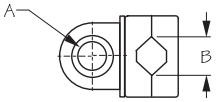


ORDER NO.	Mfr. No.	A	B
423-27111	327111-1	4-5/16"	7/8" - 1"

Ideal for easy attachment of fenders, flag halyards, canvas tie downs and related accessories. Includes a 043340 heavy duty black nylon cleat.

RAIL MOUNT FAIRLEAD WITH STAINLESS INSERT

Injection Molded Nylon/Stainless Steel

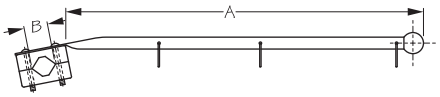


ORDER NO.	Mfr. No.	A	B
423-27112	327112-1	11/16"	7/8" - 1"

Allows easy routing of roller furling lines. The stainless insert allows use of wire lines if necessary. Includes a 082615 nylon fairlead with stainless insert.

RAIL MOUNT FLAGPOLE

Injection Molded Nylon/Stainless Steel

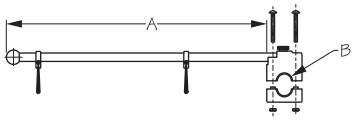


ORDER NO.	Mfr. No.	A	B
423-27120	327120-1	15-1/2"	7/8" - 1"

The Sea-Dog Rail Mount Flagpole comes complete with split rings for easy flag attachment.

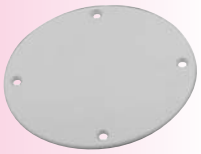
ADJUSTABLE RAIL MOUNT FLAGPOLE

Injection Molded Nylon & Polypropylene/Stainless Steel



ORDER NO.	Mfr. No.	Size	B	C	Flagpole Included
423-27122	327122-1	17"	15-1/4"	7/8" - 1"	17"
423-27124	327124-1	30"	28-1/4"	7/8" - 1	30"

The Sea-Dog Adjustable Flagpole is made of highly polished, heavy wall stainless steel tubing. The flag is attached to the flagpole using nylon penant mounts with stainless steel spring wire quick release clips which are designed to hold their shape after continued use. Both penant mounts can move either direction on the flagpoles allowing flexibility in mounting various sizes of flags where the eyelets of the flag are less than the overall length of the flagpole. The 327122-1 & 327124-1 incorporate a rail mount flagpole holder for the 17" & 30" flagpoles that can attach to either 7/8" or 1" tubing.



INSPECTION COVER - Injection Molded abs

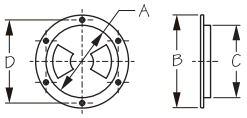
SCREW OUT DECK PLATE WITH CLEAR COVER - Injection Molded ABS/Polycarbonate

ORDER NO.	Mfr. No.	A	B	C	D	Colour	Fastener
423-37161	337161-1	6-1/2"	8-1/8"	6-1/2"	7-1/4"	White	#8 FH

The Sea-Dog Screw Out Deck Plate with clear polycarbonate lid allows visual inspection of watertight compartments, storage lockers and fuel fittings without removing the lid.
Use silicone sealant on hull or deck surface when installing the deck plate.
Lubricate with Teflon grease or Vaseline and clean with hot, soapy water.
NOTE: Avoid contact with acetone or strong solvents.



QUARTER-TURN DECK PLATE - Injection Molded ABS/Polycarbonate

Sea-Dog Line's Quarter-Turn Deck Plate is UV stabilized and features a new locking system that prevents over tightening, jamming and cross threading. Easy to open and close.
A specially engineered lubricated gasket is used in conjunction with a knife edge for a leak tested seal. Patent pending.

DetMar CORPORATION

SAFETY GRAB HANDLE

This attractively styled Grab Handle may be used as an economical safety device throughout passenger areas. Molded of high impact plastic, this rugged handle has a soft leather grained vinyl covering for a comfortable, no slip grip which won't corrode or discolour in harsh marine environments. The Grab Handle mounts by through bolting with two 1/4" pan or round head machine screws. Once installed, decorative caps snap over mount holes so no fasteners are visible. Handle measures 9-1/4" long with a 6-3/4" bridge length and 1-5/8" finger clearance.

ORDER NO. 101-21132 - Black (each)

UNDER PLATFORM

UNDER PLATFORM SLIDING LADDER

- Designed for under platform use - stows easily and compactly
- Ideal for installations under swim platforms or under the deck on bow or side of pontoon boats
- Nylon bushings between ladder sections prevent inadvertent deployment when flipping ladder into the water
- Ladder stows compactly within its own length
- Spring loaded self-locking for stowage
- 304 stainless steel - rated to 400 lbs.
- Flat poly treads for increased comfort

Specifications:
3 Steps, Length Deployed: 33.5" (85cm)
Length Stowed: 16" (41cm)
Overall height: 3" (8cm)
Width: 11.5" (29cm)
Support Frame Length:
14.75" (37cm)L x 13.75" (35cm)W
Three 1/4", mount holes each side, 6" spacing

ORDER NO. 459-19643

BOARDING LADDERS

SPORT/DIVER LADDERS

SPORT/DIVER LADDER

- Angled Design for stair-like ease of boarding
- 2-1/4" Diameter center vertical allows easy use with diving gear
- Oval steps with textured surface
- Stainless steel quick release transom mounting bracket and ladder storage brackets included
- Heavy duty – Rated to 400 lbs. (181 kilos) boarding weight
- Designed for all vertical, horizontal and breakaway mounting hardware options

ORDER NO.	Mfr. No.	Description	Dimensions
459-19803	19803:01	3-Step	38"L X 13"W
459-19804	19804:01	4-Step	48"L X 13"W

STAINLESS STEEL SPORT/DIVER LADDER

- Designed for all vertical, horizontal and breakaway mounting hardware options
- Superior corrosion resistant, electropolished stainless steel.
- Easy boarding – for swimmers or divers with fins and heavy gear.
- Center post design – angled mount for stair like ease. Quick release transom mount bracket makes attachment easy.
- Heavy duty – rated to 400 lbs. (181 kilos) boarding weight
- Comfortable non-skid step surface.

Mounting Hardware Included

Center vertical 1.75" diameter electropolished stainless steel tube. Welded stainless cross steps, non-slip oval shaped aluminum steps.

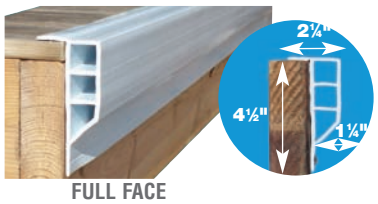
DOCK BUMPER PROFILES

DOCK EDGE

STANDARD HEAVY DUTY PROFILES

These profiles are constructed of marine grade flexible PVC, will not chip or crack under normal usage, and are unaffected by oil, gas or salt water. UV Stabilizers prevent yellowing, deterioration from sunlight and unsightly blotching.
Protect your investment with a durable Commercial Grade Protection System.



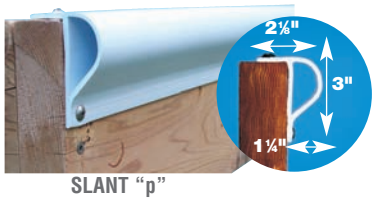
FULL FACE

FULL FACE: Ideal for larger applications, this Profile provides extra strength and security against damage to boats or property. Double internal channels with cross girder adds additional protection from impacts and provides a large contact area.
ORDER NO. 440-11600 16' Roll Full Face **White**
ORDER NO. 440-11160-3B 3x8' Lengths - (24') Full Face **Black**

SMALL "p"

SMALL"p": Perfect for small outboards or personal watercraft. Will retain resiliency and brilliance for years. Can be installed in minutes.
ORDER NO. 440-11700 16' Roll Small "p" **White**
ORDER NO. 440-11180-3B 3x8' Lengths - (24') Small "p" **Black**

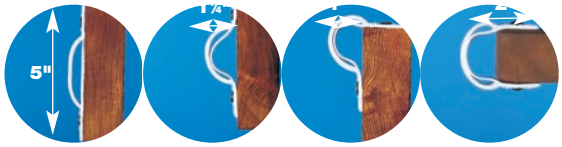
PROUDLY MADE IN CANADA FABRIQUÉ AU CANADA CANADIAN



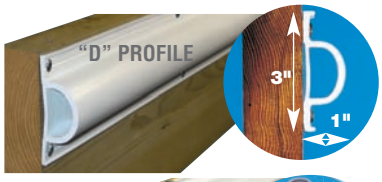
SLANT "p"

SLANT "p": Provides a larger contact area for added protection, combined with resiliency and durability.
ORDER NO. 440-11800 16' Roll Slant "p" **White**
ORDER NO. 440-11170-3B 3x8' Lengths - (24') Slant "p" **Black**

UNIVERSAL 4-WAY: Unique design allows mounting in several configurations to suit any application. Mount flat on your dock for traditional use, as a heavy-duty double wall fender, or as a corner protector. Can be used on pilings with equal effectiveness. Prevent boat damage during docking with this UNIVERSAL Profile. Stainless steel or aluminum fasteners recommended for maximum durability. **White only**.
ORDER NO. 440-10100 25' Roll Universal

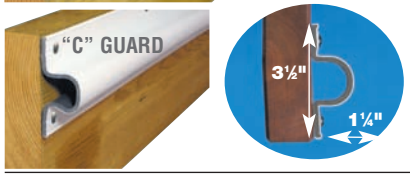


FLEXIBLE PVC



"D" PROFILE: This versatile and strong profile without a lip can be mounted vertically or horizontally anywhere on the dock face. Great for pilings too. Made of Marine Grade PVC with UV Inhibitors and Fungicide. Packaged in easy to use rolls for fewer joints.
ORDER NO. 440-11900 16' roll "D" Profile, **White**

DOCK GUARD: The economy Dock Guard Co-Extruded Profile can be used in light to medium duty applications. It features a raised lip for gunwale protection on Ski and Bass boats.
ORDER NO. 440-11340 Dock Guard, **White**e (24' / CTN) 4x6' Lengths
ORDER NO. 440-11360 Dock Guard, **White** (10' / CTN)



"C" GUARD: This economy "C" Shape Profile is made of Marine Grade PVC with UV Inhibitors to exacting standards. It will not crack or distort with temperature extremes.
It comes in easy to install 6 Ft. Lengths and can be used on flat surfaces as well as on pilings.
ORDER NO. 440-11330 "C" Guard, **White** (24' / CTN) 4x6 Lengths

BOAT SAVER™
SUPER SAVER™

Developed specifically for AIR CUSHION™ spot protection. It's like having a fender mounted just where you need one the most. Order several for complete protection. Can be mounted vertically or horizontally on docks, pilings or boat houses. Combine with other high quality Profiles for total protection.

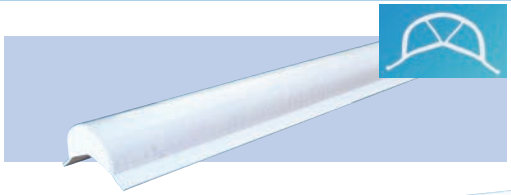
Super Saver End Plugs, Caps and Connectors sold separately.

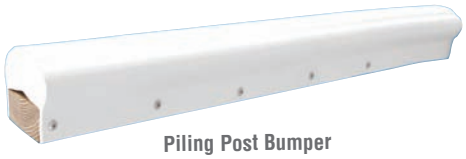
See Page 753

ORDER NO.	Description
440-10050	Boat Saver™, 24" Length, White, Ea.
440-10150-3	Super Saver™, 3 x 8' Lengths, White (24ft/Ctn)
440-10151-3	Super Saver™, 3 x 8' Lengths, Navy (24ft/Ctn)

PILING BUMPER

- Premium marine grade PVC construction
- Molded-in UV Inhibitors & Fungicides
- Integral strengthening ribs
- Curved profile to make piling mounts easier
- Mounts easily on curved or flat surfaces
- 6 ft. Lengths, capped one end (Top)





ORDER NO.	Description
440-10200	Piling Bumper
440-10220	Piling Post Bumper, 2x4 Mount

ULTRAGARD™

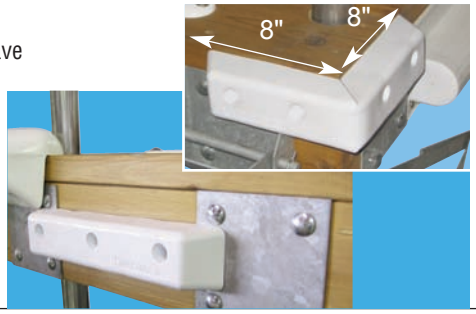
This bumper is manufactured from the same quality material as our Dolphin™ boat fenders and offers the ultimate in cushioning of impacts from your boat. Molded in ribs on the interior of the UltraGard™ ensure it is very soft, but durable and will not collapse. The back has a slight radius allowing for easy mounting on piling as well.

Measures 35" x 2-1/4" x 5"

ORDER NO.	Description
440-10080	UltraGard™ 35", White PVC (ea)

PROTECT™ CORNER / PROTECT™ STRAIGHT

These heavy duty bumpers are manufactured from PVC with UV inhibitors and fungicides, have excellent shock absorption qualities and will not mark or mar the hull of the boat. The Protect™ Straight and Protect™ Corner Bumpers also have many industrial applications where cushioning and protection are required.

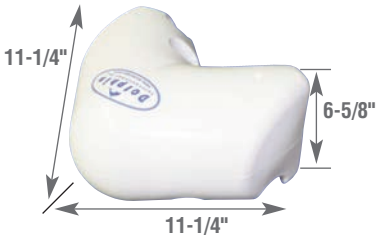


ORDER NO.	Description
440-10580	Protect™ Straight, 12" HD, PVC White (ea)
440-10590	Protect™ Corner, 16" in Total-(8" per side), HD, PVC White (ea)

CORNER BUMPERS

Protect your vessel from damaging impact by using premium dock corners. These air-filled bumpers are made from PVC with **UV Inhibitors & Fungicides** & feature built-in air valves for inflation or deflation if necessary.

ORDER NO.	Mfr. No.	Description
112-10574	1057-1-F	Corner Bumper, White with Display Header Card & S.S. Screws
112-10030	R1003	Corner Bumper, Navy Blue with Display Header Card & S.S. Screws
112-50000	R1034	Corner Bumper, White - BULK



DockSide™

440-10640	1064-W-F	Corner Bumper, White, 11-1/4" x 11-1/4"

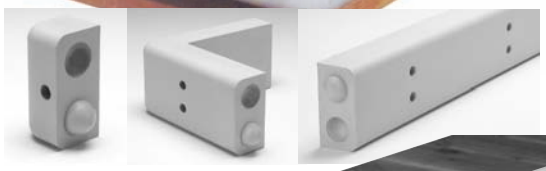
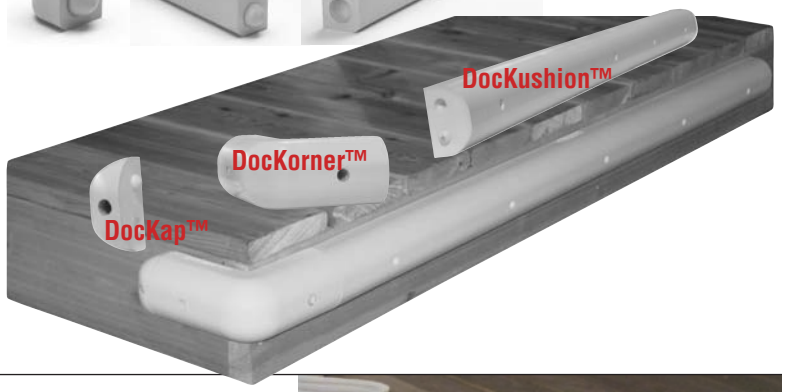
DOCK EDGE

DOCKUSHION™ MODULAR BUMPER SYSTEMS

The ultimate in protection systems. No need for fenders any more! This revolutionary new design incorporates a soft expanded polypropylene core surrounded by integral skin foam. This creates the softest but most durable bumper you can treat your boat to. A marine plywood backer also molded in allows strong secure mounting. Unique male and female sockets at the ends make joining the pieces a snap for a seamless look. End caps and corners complete your system for a professional looking job. The U.V. Stabilized classic grey color will enhance the look of your dock and is always clean looking.





ORDER NO.	Description
440-11500	DocKushion™ Large Putty 48" Interlok
440-11510	DocKorner™ Large Putty 9" Interlok
440-11520	DocKap™ Large Putty 2" Interlok
440-11530	DocKushion™ Small Putty 48"
440-11540	DocKorner™ Small Putty 5-1/2"
440-11550	DocKap™ Small Putty 1-1/4"

FLEXGUARD™ FLEXIBLE FENDER SYSTEMS

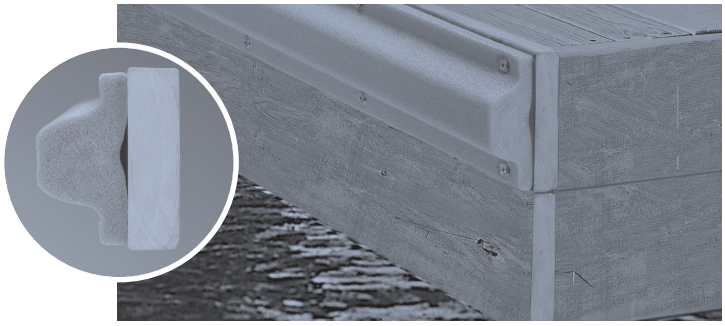
Designed with both smooth and ribbed surfaces, this bumper is manufactured from flexible PVC, containing both U.V. Inhibitors and Fungicide. The ribbed surface adds strength and can be mounted with either surface showing. Sold in 25' Long x 5" Wide rolls. Available in White, Beige and Gray.

ORDER NO. 440-10750 FlexGuard™ Ctn/ 25' roll, White

BOAT SHIELD™

This extruded U.V. Stabilized polyethylene foam bumper is contoured at the back so it can be mounted both horizontally on your dock or vertically on pilings. The beveled edge helps deflect your boats' fenders so they do not catch under the profile. The light grey colour matches up with the natural colour of weathered wood. Stainless steel screws and washers included. 48" x 2-3/4" x 5"

ORDER NO. 440-10070 Boat Shield™ 48" Grey, PE



DOCK WHEELS

Smooth rolling wheels offer substantial dock cushioning and feature molded-in valves to adjust the level of firmness. Heavy-duty hot dipped galvanized hardware mounts securely to dock and the 12" wheel uses a large 2" diameter axle housing for extra strength.
Guides boats into your slip easily, regardless of wind and current conditions.

ORDER NO. 440-95072
Inflatable Dock Wheel -12"
ORDER NO. 440-95075
Inflatable Dock Wheel -18"
ORDER NO. 440-95078
Inflatable Dock Wheel - 9"

DOCK BUMPERS

DOCK PRO™ HEAVY DUTY VINYL DOCK BUMPERS

Taylor Made now offers the ultimate in versatile, durable docking protection! Dock Pro heavy-duty vinyl bumpers are ideal for rough conditions, and can take a beating. Made from U.V. resistant, marine-grade vinyl, they provide excellent protection for your boat and dock. Corner piece provides superior impact protection on dock corners. Bumpers have inflation valves for easy adjustment to desired firmness. Pre-drilled for easy, permanent mounting with plated fasteners.

ORDER NO.	Mfr. No.	Size	Description
666-45500	45500	35.5"L x 4"D x 5"H	Straight Mount
666-45510	45510	13"L x 4"W x 5"H	Corner Mount

DOCK CUSHIONS

Hybrid construction means soft compressible foam where you want it and tough high density foam where you need it. The inner core of the new foam bumper is a lower density EVA foam (2.8 pounds per cubic foot) and the outer (front and back) pieces are tougher, higher density PE foam (8.7 pcf). UV protected foam material is maintenance free, non-marring and provides superior cushioning from impact. Designed for both horizontal and vertical applications, dock cushions are pre-drilled and ready to mount. Hardware not included. Also available with LED lighting installed. Easily identify your dock from a distance. Dock cushion contains 3 recessed ultra-bright LED's and solar power panel. Can illuminate for 6 hours after full sunshine charge.

Foam plugs are supplied to give the bumper a clean finished look!

ORDER NO.	Mfr. No.	Size	Description
114-60110	46011	3.25"D x 5"T x 36"L	Straight

POST BUMPERS

Post bumpers are great protection for pipe supported type docks. Protects the boat from contact with the metal dock pipe and hardware at dock level. Easily slides over 1 1/2" dock pipe and rests securely against the dock. Molded from marine grade vinyl with an inflation valve to adjust firmness. Bumper measures 7" dia. x 17" long.

ORDER NO.	Mfr. No.	Description
666-45600	45600	Post Dock Bumper (White)

For more information see: www.taylormadeproducts.com

TORPEDO BUMPERS

These large, durable bumpers add an attractive and functionally rugged cushion to the leg pipes of your docking system. Fabricated from the same quality material as our Dolphin™ fenders, each weighs a rugged 2.7 lb. and measures 18" tall with a diameter of 5". Each torpedo bumper also includes a molded-in air valve for easy inflation or deflation as desired. Place them on dock leg pipes over the mounting brackets to prevent damaging your watercraft from protruding bolts. Simply slip the top portion of the Torpedo bumper over a leg pipe and slide it down to the dock surface. Flex the bumper to go over the mounting bracket on the dock faceboard and spread the lower flange of the torpedo bumper to slip over the leg pipe that is below the dock faceboard. Inflate as desired.

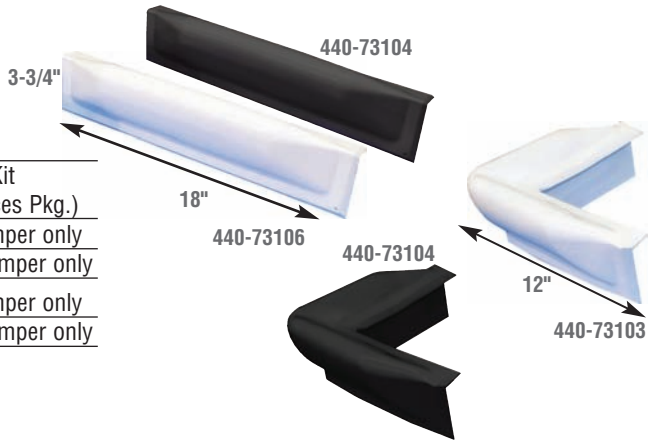
ORDER NO.	Description
440-91110	White Torpedo Bumper, 18" Each
440-91104	Navy Blue Torpedo Bumper, 18" Each

For more information see: www.dockedge.com

DOCK EDGE

DOCK GUARD™ DOCK BUMPER KIT

This roto-molded bumper kit is fabricated from soft vinyl with UV inhibitors and fungicides. Each piece has angled ends to deflect craft and molded-in ribs for additional strength. The contours of each piece protects above as well as the dock face, providing excellent gunnel protection for bass and ski boats. Mounts easily in minutes and is suitable for all applications.
Convenient 3-Piece value pack.
12" Corner x 1, 18" Straight x 2



ORDER NO.	Mfr. No.	Colour	Description
440-73100	DE73100F	White	Dock Bumper Kit (3 pieces Pkg.)
440-73103	DE73103F	White	12" Corner Bumper only

440-73104	DE73104F	Black	12" Corner Bumper only
440-73107	DE73107F	Black	18" Straight Bumper only

DockSide™

OCEANUS BUMPERS

These heavy-duty roto-molded bumpers incorporate all the benefits of a multi-usage product with the strength and integrity you've come to know from DockEdge products. Due to its design it will not only protect the lower bow but anywhere you install an Oceanus bumper. Fabricated to be permanently secured in place, it also has grooves which act as reinforcing ribs and can be used for temporary strapping in places where fastening
isn't allowed. Ideal for commercial & marina applications.

- Fabricated with UV inhibitors & fungicides
- Includes screw-in inflation valve

ORDER NO.	Mfr. No.	Description
440-73071	DE73071F	Oceanus Bumper, White

DockSide™

DOCKSIDE™ BUMPERS

Industrial Strength with the Standard Quality and Performance of Dolphin™ Fenders

These rugged fenders are the ultimate in heavy impact protection. Heavy-wall molded PVC construction with intergral inflation valve. Each fender has angled ends to deflect craft and may be used in pairs to form protection for insided corners. Excellent gunnel protection.

ORDER NO.	Mfr. No.	Description

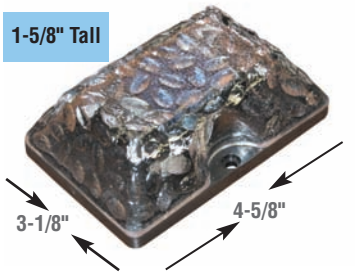
CLEARVUE™ LED LIGHTING

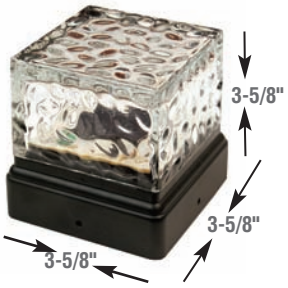
- Features four ultra-bright warm white LEDs
- User replaceable AA NiMH battery
- Clear plastic lens ensures durability while still allowing the solar panel to properly charge
- 8 hour run times after a full charge



DOCK LIGHT

The ClearVue Dock Light can be mounted to any flat surface, making it ideal for docks, decks, or walkways.

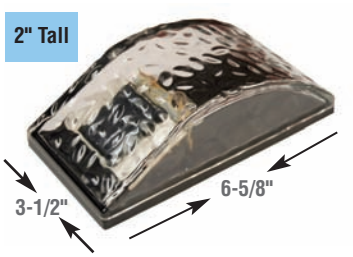
ORDER NO.	Mfr. No.
111-46303	46303



SQUARE POST LIGHT

The ClearVue Square Post Light is specifically designed to mount on the top of a 4" x 4" post.

ORDER NO.	Mfr. No.
111-46304	46304



SIDE POST LIGHT

The ClearVue Post Light is a unique and elegant solution to down lighting. Simply mount the light to any post and the light will provide a pool of light at the base of the post, where you need it.

ORDER NO.	Mfr. No.
111-46305	46305

SOLAR LED LIGHTING

SOLAR LED DOCK & DECK LIGHTS

Features and Benefits:

- 3 Colors Built In With a Push Of A Button (Bright White, Candlelight, Blue)
- 3 LEDs Illuminated Simultaneously
- Replaceable AAA NiMH Rechargeable Battery
- Auto On/Off at Dusk and Dawn
- Waterproof For Heavy Rain, Wind, and Snow
- No wiring needed
- Installs in minutes

NOTE: Duration of light output varies directly with the amount of sunlight exposure. Expect less burn time when daylight conditions are shorter, overcast, or cloudy. Light is shipped in the "Off" position. Simply press the button to switch between the three color modes and use the "Off" position for long term storage.

3 COLOUR CHOICES
Switch from white to candlelight to blue!

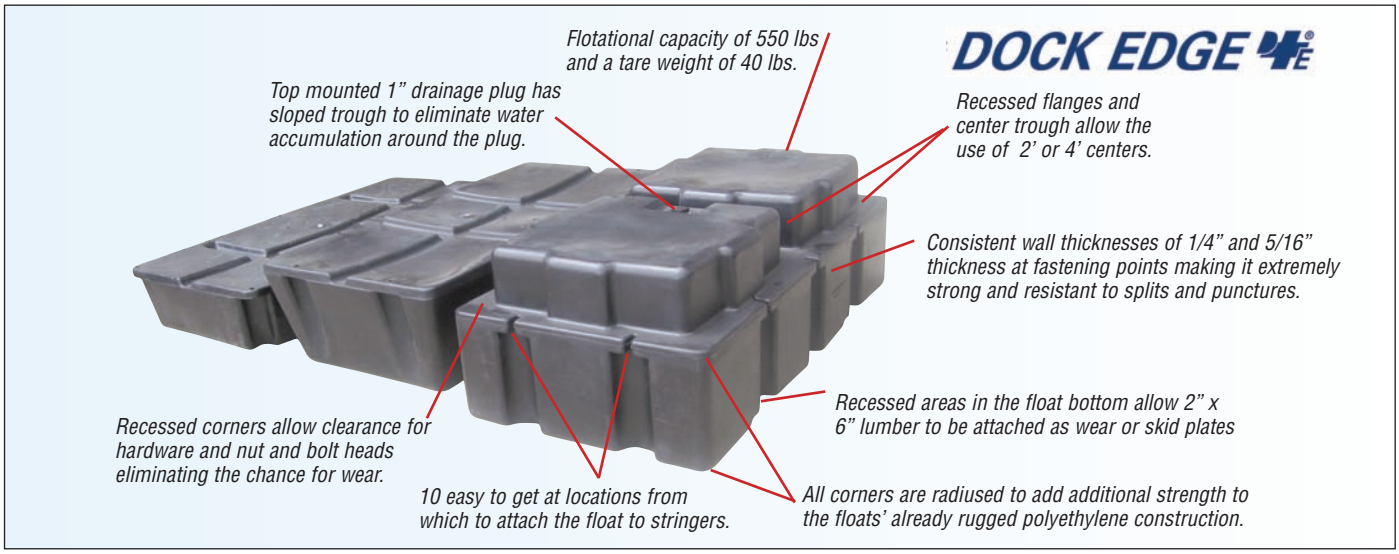
DOCK FLOATS

Howell™ Dock Floats are ROTATIONALLY MOLDED from high density, black, virgin polyethylene with U.V. Inhibitors ensuring the most rugged float possible. Wall thicknesses are a minimum 1/4" and up to 5/16" at fastening points and corner edges, ensuring extremely strong resistance to splits and punctures.



HOWELL™ 550 DOCK FLOAT

With the Howell™ 550 & 400 dock floats our Dock Hardware program is complete with all products developed and produced by Dock Edge +. This benefits you, our customer by making it possible to purchase a complete and compatible line from hardware right through to the finishing touches and knowing that the Howell™ float series is backed by a **10-YEAR WARRANTY** against manufacturing defects.

HOWELL™ 400 DOCK FLOAT

With the same great qualities of the Howell™ 550 float, the 400 has a floatation capacity of 400 lbs. and is also available filled with closed cellular foam for commercial use and applications that do not require water ballast.

Dimensions: 24" x 48" x 12" high and a tare weight of 28 lb.

Description	Dimensions	ORDER NO.

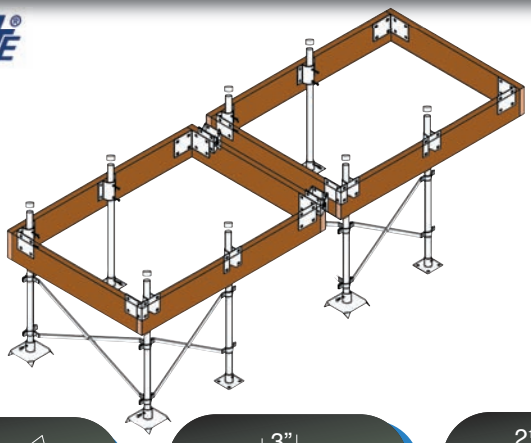
DOCK EDGE

STATIONARY DOCK HARDWARE ENGINEERED FOR STRENGTH, DURABILITY & SIMPLICITY.

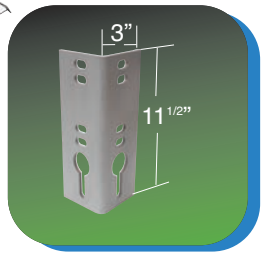
- **All Stationary Dock Hardware is 1/8" (nominal) Hot Dipped Galvanized Steel with 7/16" Holes for 3/8" Carriage Bolts.**



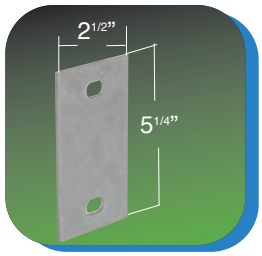
Hardware Placement Guide
Correct Usage of Hardware with Backer Plates

440-75000 Corner Leg Holder. Mounts on inside corner of framework.

440-86106 Connector Hinge



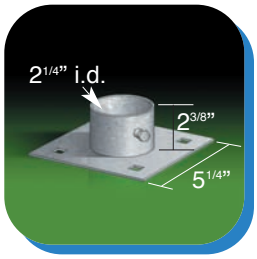
440-91119 Anchor Chain Corner. 3/16" thickness. Universal hole placement.



440-95123 Washer Plate

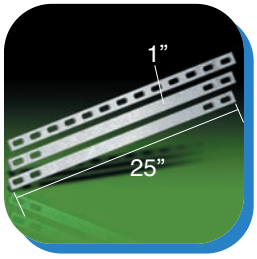
440-86105 Connector Hinge Kit. 3/16" thickness

440-75010 Side Leg Holder. Can be mounted inside or outside of the dock frame.



440-75020 Base Plate. Used as a footing. May be bolted to a 2" x 6" piece of lumber and joined to an adjacent base plate for stability.

440-75030 Connector Hinge. Used to join dock sections or a fixed ramp to the dock at varying angles. Includes hinge pin.

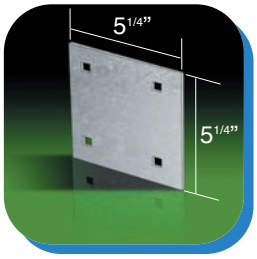


440-75100 Leg Brace Set. Extends up to 72". Use with Leg Brace Holders to connect legs for stability.

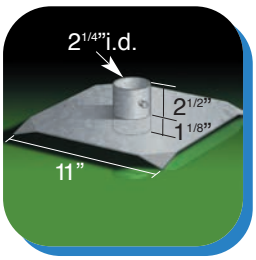
440-10320 Leg Cap. Use to cover raw leg pipe edges. Gives dock the finishing touch. (4 per pack)

440-75050 Corner Plate. Used on inside corners for increased strength.

440-75090 Corner Leg Brace Holder. Use when attaching a 440-75100 Leg brace from corner to side legs for stability.



440-75150 Backer Plate. Prevents pipe from deforming wood causing bolt loosening and dock shifting.



440-94102 Bottom Pad. Use for soft bottom applications. Allows leg pipe to extend through to lake bed for lateral support. Pointed corners.

440-95122 Joist Corner. Used to reinforce stringer joints.

440-75220 Anchor Tie Down Corner. Used to secure dock in place. May also be used as inside corner for added strength.

440-75080 Leg Brace Holder. Use with Leg Brace Set to connect leg pipes for stability. (Double)

440-93168 (6' 8") & **440-75280** (10') Galvalume Leg Pipe.

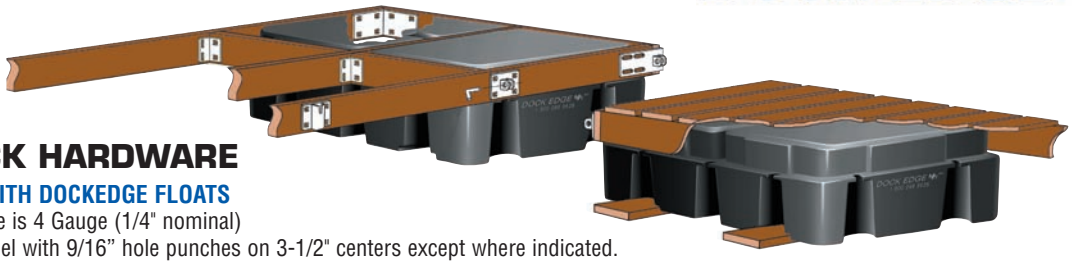
LEG PIPE SAND AUGER
440-94200

- Rugged Cast Iron
- Fits up to 2" O.D. pipe
- Easily penetrates sandy or soft sediment as well as packed surfaces

Always use backer plates and carriage bolts and sandwich the framing lumber between hardware. Lag bolts alone will fail over time.

For more information see: www.dockedge.com

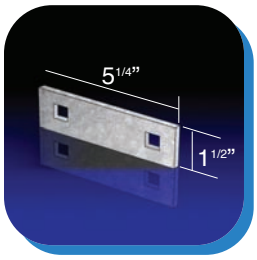
DOCK EDGE



FLOATING DOCK HARDWARE

ENGINEERED FOR USE WITH DOCKEDGE FLOATS

- All Floating Dock Hardware is 4 Gauge (1/4" nominal) Hot Dipped Galvanized Steel with 9/16" hole punches on 3-1/2" centers except where indicated.
- Slot sizes are 9/16" x 1 5/8" except where indicated.
- All Male and Female Connectors have a 3/8" tab with a 7/8" hole to fit a 3/4" Pin or bolt.
- Universal hole placement fits 2" x 8" & over lumber. Holes designed for use with any 3-1/2", 4-1/2", or 5-1/2" bolt pattern.



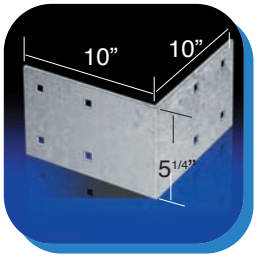
440-99006 Washer Plate.

440-99002 Joist Corner. Use to mount stringers with 440-99006 washer plates. Also use as a backer plate to prevent cleats from pulling out.

440-93122 Backer Plate. Used to sandwich wood framing when another piece of hardware isn't used. Prevents bolt loosening and pull-through.

440-99005 Side Pipe Holder. Bolts to side of dock frame to anchor it in place yet allows vertical movement for water variances.

440-99013 Chain Retainer. Holds chain up to 1/2" to secure the dock in position.

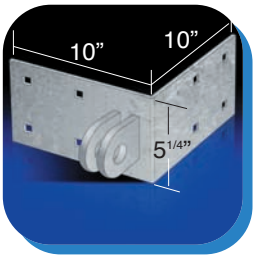


440-99004 Outside Corner. Use with backer plates or inside corners at outside ends of docks, fingers and swim platforms.

440-75460 Inside Corner. For lighter duty applications where an outside corner is not necessary.

440-75470 Inside Anchor Corner. Use as inside corner. Adds extra strength with its anchor chain bar. Accepts chain up to 1/2".

440-99009 Male Corner Hinge. Use with all styles of Female Connector Hinges.

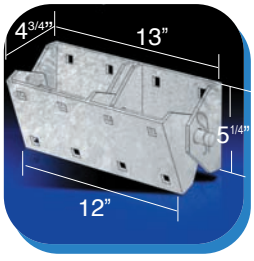


440-99010 Female Corner Hinge. See Male Corner Hinge.

440-99011 Female T Connector. See Male T Connector and Connector Pin.

440-99012 Male T Connector. Use with all styles of Female Connector Hinges.

440-96111 Connector Pin used to join male and female connectors.



440-75160 HD Connector Hinge. Use at both ends of ramps when connecting dock sections to shore or joining multiple sections.

440-99001 HD Anchor Chain Corner. Offers maximum corner strength when used with 440-99004 Outside Corner or any Corner Connecting Hinge.

DOCK EDGE®

MOORING ARMS

An economical alternative or enhancement to bumpers and dock bumper profiles, these Mooring Arms retain your watercraft a safe and convenient distance from the dock face to minimize the possibility of damage from wind, wake and waves. These easy-to-install mooring arms apply vector based forces to the bow and stern of the watercraft allowing it to freely and effortlessly follow wave and water action such as tidal fluctuations, yet securely keep the craft at arms length from the surface.

Arms are manufactured from the same durable Cross-wound fiberglass as our DockEdge and Howell mooring whips. Each set includes polyethylene line and pivot retainers as well as stainless steel hardware. Hot-Dipped Galvanized cleats, mooring lines and DockEdge Quality craftsmanship is included in every Mooring Arm kit.

WAKE WATCHER®

- Protects passengers and your boat
- Securely moors boats up to 3,500 lb. (1,500 kg)
- Protects your boat from dock contact
- Allows your boat to come close to the dock for easy passenger boarding
- Automatically repositions your boat safely 3 ft. (1m) away from the dock
- Adjustable tension
- Resists lateral, vertical and horizontal motion
- Featured in Popular Science magazine

DOCK MOORING WHIPS

PREMIUM DOCKSIDE™ MOORING WHIPS

DOCK EDGE

The practical alternative to marine railways, davits and lifts, these grey fiberglass WHIPS are exceptionally strong, attractive and do not obstruct your waterfront view. They act as a spring to safely hold your boat a safe, convenient distance away from the dock.
Solid cast aluminum grey powder coated bases with built-in cleats. Unaffected by cold or heat. WHIPS can be removed quickly from bases for storage.
Complete with double braided nylon whip lines, spring lines, and stainless steel mounting hardware.
Some mooring areas may be too rough for any type of tie-up system.
Note: Weight is more critical than length when selecting the correct whip size.
One Year Warranty.

PROUDLY MADE IN CANADA FABRIQUÉ AU CANADA CANADIAN

ULTIMATE MOORING WHIPS

Ideal for protecting deck boats & larger boats from wind and wake damage in fluctuating water levels. These fiberglass whips surpass all others in construction and design technology. Manufactured from solid fiberglass rod and wrapped in three additional multi-stage, cross wound fiber layers. Adjustable cast aluminum bases with rubber shock absorbers allow for greater range of movement and flexibility. Impervious to UV degradation, cold and heat. Each Whip incorporates a unique functional roller tip and includes a tie-off cleat for easier access to your boat with unique line tensioners for easy, one handed operation.
Stainless Steel mounting hardware is included with each whip set.
Please note that even with rocker bases, tides in some areas may still be too extreme for any type of mooring or tie up system.
Includes lines and hardware.

ORDER NO.	Description
440-34500	Ultimate Mooring Whip, 12', (Set of 2) For boats up to 23', or 5,000 lb.
440-36500	Ultimate Mooring Whip, 14', (Set of 2) For boats up to 28', or 10,000 lb.
440-38500	Ultimate Mooring Whip, 16', (Set of 2) For boats up to 33', or 20,000 lb.

ECONOMY HOWELL™ MOORING WHIPS

The economical way to fasten your boat, these fiberglass WHIPS are exceptionally strong, attractive and will not obstruct your waterfront view. Each whip mounts into a durable cast aluminum base. DockEdge base is superior to other bases due to its solid cast aluminum design with molded-in cleat, ring and convenient thumb screw for securing the whip into position. It is unaffected by UV and cannot be damaged when securing to the dock due to it's tough 3/8" thick mounting footprint. Each whip includes a unique tip with a functional roller which allows easier access to your boat. By simply releasing the whip line from the base cleat, the whip lines effortlessly roll through the unique roller tip causing the boat to gently approach the dock for boarding. Each WHIP is constructed to the most rigid specifications and is of the higest quality, Great for PWCs too!

STOW 'N GO™ FIBERGLASS DOCK BOXES

These fiberglass dock boxes are built tough. With a UV gelcoat finish and the stainless steel lockable latch and hardware these are sure to hold up in the harshest marine environments.
Our dock boxes incorporate gas shock lifts, which come standard on all models. These shocks help to keep your lid open on rocking docks and in higher wind areas and allows for a slower, more controlled closing. These fiberglass molded dock boxes are also constructed with a smooth interior finish which helps prevent splinters in your hands when storing or retrieving your boating accessories.

Standard Dock Boxes

Provide a large rectangular space in which to store all your boating needs.
(2 shocks installed)

STARLITE™ SOLAR CAPACITOR SERIES

Welded Marine Grade Aluminum

The Starlite™ Capacitor Series of Solar lighting is for those with distinguishing tastes in design, durability and function. Not only are these unique and advanced solar lights built to provide a long and useful life, they actually seem to put out more light than they take in during the charging process. A capacitor stores the energy created from exposure to the sun, as well as charges the rechargeable battery. On days when there is insufficient sunlight to charge the battery, the capacitor re-energizes the battery with what it has held in safe keeping so you never have to go without light at night just because there wasn't enough during the day. Visible up to 1/2 mile or 800m. **5 Year Warranty**

SWIVL-EZE®
EXCEEDS THE HIGHEST STANDARDS

The American Boat & Yacht Council has established rigorous safety codes for seating hardware. Swivl-Eze welcomes these standards because we know seating is the critical interface between a boating passenger and a safe and comfortable boat. We exceed ABYC standards to ensure the strength and safety of every Swivl-Eze product.

ABYC REQUIREMENTS REFERENCE GUIDE

To make specifying simple, we've created an easy visual coding system. Throughout this catalog, each code shows the rating applied to individual hardware.

- AO = Operator (Used at the helm/driver position)
- AN = Non-Operator (Not to be used at the helm/driver position)
- B = Not to be used at the helm/driver position for speeds not to exceed 5 mph

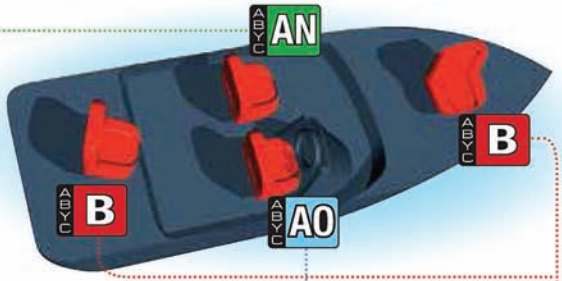
ABYC H31 SEAT STANDARDS

Go to attwoodmarine.com for updated requirements.

GENERAL REQUIREMENTS FOR ALL SEAT TYPES. (AO, AN, B)

31.6.1 Provided with a means to preent unintentional detachment
31.8.7 Withstand static load of 450 lbs.
31.8.13.1 Adjustable height seats must withstand vertical dynamic test

SPECIFIC REQUIREMENTS BASED ON SEAT TYPE (Catalog reference code)



AN
TYPE A: NON-OPERATOR
(Not to be used at the helm/driver position)

31.7.3 Swivel locking mechanism must sustain torque of 30 ft. lbs.
31.3 A seat designed for occupancy while the vessel is underway at any speed
31.7.1 Employ a locking mechanism for each plane or axis of movement
31.7.4 Seats with fore/aft adjustment must sustain static load of 300 lbs. for 3 minutes in mid position
31.7.5 Seats with a vertical adjustment feature shall have a positive locking mechanism
31.8.3 Sustain 10 impacts of 225 lbs.

AO
TYPE A: OPERATOR
(Used at the helm/driver position)

31.7.6.1 Must have positive locking swivels which withstand 150 ft. lbs. of torque
31.7.6.2 All seats interchangeable with the operator's seat must meet the requirements of this section
31.3 A seat designed for occupancy while the vessel is underway at any speed
31.7.1 Employ a locking mechanism for each plane or axis of movement
31.7.4 Seats with fore/aft adjustment must sustain static load of 300 lbs. for 3 minutes in mid position
31.7.5 Seats with a vertical adjustment feature shall have a positive locking mechanism
31.8.3 Sustain 10 impacts of 225 lbs

B
TYPE B
(Not to be used at the helm/driver position)

31.3 A seat designed for occupancy only at boat speeds not exceeding five miles per hour
31.8.3 Sustain dynamic loads at 1/2 the velocity required for Type A seats

EXCEPTIONS:

31.2.1 ABYC H31 standards do not apply to canoes, kayaks, sailboats, inflatables, race boats, tiller steered boats and boats rated for less than 10 horsepower or manual propulsion

CLASSIFICATIONS

A Few Notes about ABYC and H-31…
The American Boat and Yacht Council has recommended seating standards for the marine industry. These standards help classify pedestal applications into two separate categories.
These are:

CLASS A A
Seat designed for occupancy while the boat is under way at any speed.

CLASS B B
Seat designed for occupancy only at boat speeds not exceeding five miles per hour.

Within each of these classifications all pedestals must pass a series of tests, (horizontal and vertical impacts, torque and static load test). There are also two types of Class A seats. Those are:

CLASS A PASSENGER AP
Seat mount must resist 30 foot pounds of torque.

CLASS A DRIVER AD
Seat Mount must incorporate a "mechanical interference lock" and resist 150 foot pounds of torque.

LAKESPORT 238 SERIES 2-3/8" SEAT PRODUCTS

The Swivl-Eze Difference

- These sturdy 2-3/8" diameter bell pedestals have all the strength and durability you need for years of family fishing enjoyment
- Hard anodized aluminum base pedestal tubes
- Bead blasted finish pounds the aluminum surface and closes up porosity
- All LakeSport™ 238 Series hardware is engineered to exceed ABYC standard

Type A/Operator Models lead the industry with these features:

- Ergonomic positive-locking handle with stainless steel components

459-75033	75033	24" Polished

ADJUSTABLE HEIGHT

- Seat raises or lowers, locks at desired height
- 4 prong spider swivels 360˚ and locks positively
- Polished

Specifications:
2-7/8" (7 cm) diameter smooth stanchion tube,
9.25" (23 cm) diameter base plate

ORDER NO.	Mfr. No.	Description
459-75028	75028	18" - 24" Height, Polished

COMPLETE SYSTEM - RIBBED SERIES

ADJUSTABLE HEIGHT STANDARD FRICTION LOCK

- Seat raises or lowers, locks at desired height
- 2-7/8" (7cm) diameter stanchion tube, 9" (23cm) diameter base plate
- Anodized protective finish helps prevent saltwater corrosion and weathering.
- 2-7/8" (7cm) diameter ribbed stanchion tube, 9.25" (23cm) diameter 6 hole base plate

ORDER NO.	Mfr. No.	Adjustable Height
459-75535	75535	12" - 17" (30 - 43cm), Anodized Tube

BLUE WATER ADJUSTABLE HEIGHT SEAT BASE
- Positive Pin Type Lock

- Pin secures base at specific height in 1" increments
- Stainless steel lock pin locates securing hole easily
- Positive lock spider, rotates 360˚. Fluted bearing cup fits onto matching ribbed stanchion profile
- Wobble free design

ORDER NO.	Description
459-75435	12" - 17" (31 - 43cm)

2.875" PEDESTAL DIAMETER
SMOOTH STANCHION SERIES SEAT HARDWARE

GARELICK EEz-In

MILLENIUM SERIES

SEAT SLIDE SYSTEM
Positive Lock Slider & Spider Combination Left Hand Lever, Silver Powder Coat Finish
- Low profile design allows 360° of rotation and 6" of smooth, wobble-free fore and aft travel
- Heavy duty anodized aluminum slide plate has standard 5"x12" hole pattern to accommodate standard seat mounting holes
- Positive Lock Spider – rotates 360°, internal cup engages in 10° increments for positive stop lock (Secondary twist control offers variable drag adj. and can be tightened to lock in place)
- Internal Delrin cup provides smooth, gall-free operation.
- Meets ABYC-H31, Type A Standards & Garelick performance standards
- Silver powder coated finish
- Includes retaining hardware (99302)

SLIDE: *High tensile aluminum profile extrusion 13.75" x 8" (35cm x 20cm) plate, mounting hole pattern 5" x 12" (13cm x 30cm), Fore and Aft travel 6" (15cm).*
SWIVEL: *High tensile aluminum 2-7/8" (7cm) diameter, plastic internal cup. All stainless hardware.*

ORDER NO. 459-22000 Mfr. No. 22000

SWIVEL SEAT MOUNT TOP
360° Positive Lock Swivel Spider Mount Silver Powder Coat Finish
- Low profile design allows 360° of rotation
- Heavy duty anodized aluminum slide plate has standard 5"x12" hole pattern to accommodate standard seat mounting holes
- 360° rotation is regulated by dual locking devices - lift the positive lock lever to rotate. Drop the lever to lock in place in 10° increments. Secondary twist control offers variable drag adjustment and can be tightened down to lock in place.
- Internal Delrin Bearing Cup provides smooth, gaul-free operation
- Silver powder coated finish
- Meets ABYC-H31, Type A Standards & Garelick performance standards

- 3.5" Diameter Stanchion for Mid-Size (30 Ft.+) Boats
- Proportionately to Scale for added Strength and Styling
- Design accommodates all Garelick EEz-In Seat Slide and Swivel Spiders
- Popular Heights Available – 3 Fixed Heights and 2 Adjustable Heights
- Meets ABYC, H-31 Type A Standards
- 3.5" (9 cm) diameter smooth stanchion tube, stanchion base casting 10.5" (27 cm) diameter 6 hole, 3/8" mounting holes.
- Polished and Anodized aluminum components

ORDER NO.	Mfr. No.	Height
459-78524	78524	24" (61 cm)

LOW PROFILE SEAT SLIDE

- Allows helm or boat seats to adjust fore and aft
- Slide mounts under seat in between seat and pedestal base
- Convenient handle provides solid locking at any position
- Compatible with most 360° spiders
- Wobble-Free Design/Operation
- Anodized aluminum with stainless steel hardware
- Spider swivel casting (459-99023,459- 99036) not included

ORDER NO.	Mfr. No.
459-75080	75080
459-75081	75081

SPECIFICATIONS:
75080: Standard Size for wood or plastic seats.
6" (15cm) Fore and Aft Travel 8.5" W x 8" L x 1.63" H
(22cm x 20cm x 4cm)
75081: Full Length Size for roto-molded seats.
7" (18cm) Fore and Aft Travel 8.5" W x 13" L x 1.63" H
(22cm x 33cm x 4cm)
For use where additional travel and any seat needing reinforcement underneath. Required on all Roto molded seats.

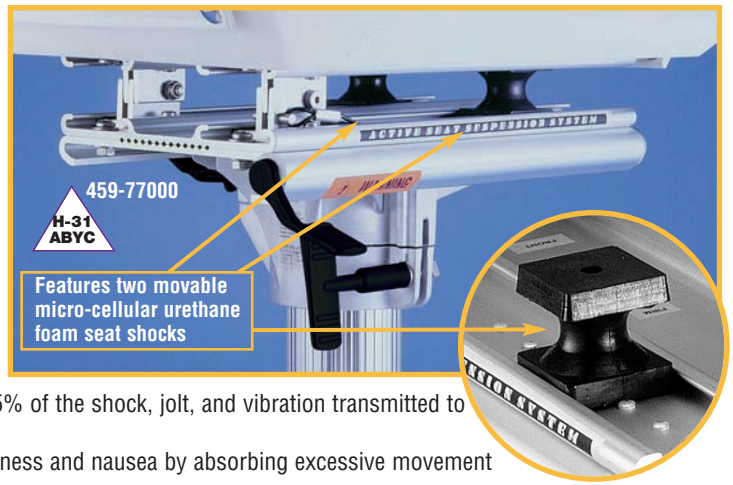
ACTIVE SEAT SUSPENSION SYSTEM

Pedestal Base Mounting
77000 Active Seat Suspension System

Compatible with fluted tube stanchion seat bases

International Patents Pending



OFFERS BOATERS NEW LEVELS OF COMFORT AND SAFETY IN ALL WEATHER AND WATER CONDITIONS

- Active Seat Suspension System absorbs and minimizes up to 75% of the shock, jolt, and vibration transmitted to the passenger from the forces of roll, pitch, and yaw.
- Active Seat Suspension Systems reduces the feelings of seasickness and nausea by absorbing excessive movement with 1" of damped vertical travel.
- This system is CAD designed, FEA proven, and precision engineered and tooled.
- Components are saltwater spray tested and UV stable; to help endure harsh marine environments.
- Made from rugged, high-tensile, anodized aluminum with stainless steel hardware.

Pedestal Base Mounting Options:
- Standard bolt hole pattern allows for mounting on top of pedestal and beneath any individual seat
- Features heavy duty forward hinge system allowing shock absorption to occur in the vertical plane only, eliminates sway and side tipping
- U.S. PATENT #6,042,093
- Includes provisions for mounting seats with 6" center hole pattern.
- Easily mounts to almost any current seat.

Floor and Deck Mounting Options:
- Standard bolt hole pattern allows for easy mounting beneath seat to the deck, a box, or the floor of a boat
- Perfect for mounting beneath seat greater than 20" (51cm)
- Includes provisions for mounting seats with 6" center hole pattern

SPECIFICATIONS:
77000: Compact size and low profile design adds only 2" (5cm) of height.
The outline is 13" x 7" (33 x 18cm) with standard 5" x 12 1/8" (13 x 31cm) slotted mounting hole pattern

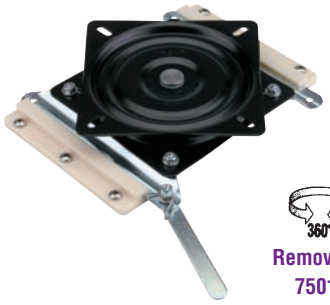
Adjustable Compression Feature easily fine tuned with NO tools

ORDER NO. 459-77000
Mfr. No. 77000

BOAT SEAT ACCESSORIES

UNIVERSAL BOAT SEAT SWIVELS

- Rotates 360° Fits most standard seat hole patterns
- Self-lubricated, non-corrosive poly swivel bearings
- Plated steel to resist corrosion



Removable
75019

ORDER NO.	Mfr. No.	Description
459-75016	75016:01	7" x 7" (18cm x 18cm) Standard Flat

ADJUSTABLE SEAT SWIVEL CLAMP

- Accepts standard boat seats, fits tank or bench tops
- Durable – All metal construction
- Quick mounting & dismounting, includes 360° swivel
- Vinyl covered clamps

TABLE PACKAGES

QUICK RELEASE TABLE PEDESTAL SYSTEM

Model No. 75640 Pedestal

- Patented, revolutionary table hardware system
- Quick release levers allow effortless take-down of table system for storage
- Simple to use, simple to install
- Low-Profile deck ring creates minimal interference when table is stowed
- No large centre hole in deck as is common with other table hardware systems
- Marine grade polymer components resist corrosion
- 2-1/4" ribbed Anodized aluminum stanchion is tapered at both ends
- 9-1/4" and 13" stanchion posts available for converting dinette into bunk use
- Individual components available if additional mounting locations are desired

ORDER NO. 459-75640
Mfr. No. 75640:01

ORDER NO.	Mfr. No.	Description
459-75650	75650:01	Includes complete system 75640 and 15" x 28"(38 x 71cm) rectangular white polymer table top and two recessed cup holders
459-75320	75320:01	Includes complete system 75640 and 18" x 30"(46cm x 76cm) oval, acrylic-coated ABS plastic table top with two recessed cup holders
459-75321	75321:01	Includes complete system 75640 and 16" x 32"(41cm x 81cm) rectangular, ABS plastic table top with four recessed cup holders
459-75640	75640:01	Complete system includes: deck ring, socket base, table mounting socket, 25.5" stanchion tube

REMOVABLE MARINE / RV TABLE

Detmar's marine and RV Removable Table System permits quick and easy setup in virtually any boat or RV camper. Octagonal (8-sided) shape molded from high impact plastic for durability and corrosion resistance to sun, salt water and solvents. The table requires no maintenance. Cleanup can be done with soap and water.
For easy installation and removal the table has a molded-in underside receptacle to fit 2" diameter table legs.

TABLE KIT

Contains # 121-10300 white octagonal table top, # 121-12200 table leg and # 121-12700 flush mount table receptacle.
ORDER NO. 121-10800
- Octagonal Table Kit

TABLE TOP

Octagonal - Measures 20" across and comes with four large molded-in recesses to accommodate insulated cup holders. Installed table height is 27".
Colour: White
ORDER NO. 121-10300
- Octagonal Table Top Only

TABLE LEG

Polished Stainless Steel Leg - 2" diameter tube measure 26" in length.
Made of corrosion resistant 304 stainless steel.
ORDER NO. 121-12200
- Table Leg - Stainless steel

Floor Receptacle

Table Receptacle

RECEPTACLES

FLOOR RECEPTACLES

Recessed Flush Mount - Molded of high-impact plastic, receptacle mounts flush to floor. Base measures 6-1/2" in diameter with a 1-5/8" recess. Table leg hole has molded-in plug eliminating need to cap hole when leg is not in place. Molded to accept # 10 x 1-1/4" oval head SM screws.
Fits 2" diameter legs
ORDER NO. 121-12700
- Receptacle - Flush Mount, Black

TABLE RECEPTACLE

Surface Mount - Molded of high-impact plastic this receptacle mounts flush to underside of table or to floor. Base measures 6-1/2" in diameter. Molded to accept # 10 x 1" pan head screws.
Fits 2" diameter legs
ORDER NO. 121-13100
- Surface Mount Table Receptacle, Black

TEMPERATURE PRESSURE & RELIEF VALVES

668-10473

668-10423

Protect your water heater from excessive temperatures and water pressure with corrosion-resistant metal T & P valves. All valves are factory set at 150 PSI and are crafted with no gaskets and epoxy-coated probes to prevent corrosion buildup.

ORDER NO.	Mfr. No.	Description
668-10423	10423	1/2" Valve with 4" Probe
668-10463	10463	3/4" Valve with 1" Probe
668-10473	10473	3/4" Valve with 4" Probe

WATER PRESSURE REGULATOR

668-40055

Stop damage to your water hose, pump or internal lines from inconsistent water pressure in marinas. Reduce water pressure to a safe, consistent 40-50 PSI of operational pressure. Protects equipment and prevents hose failure, helping to prolong equipment life.

ORDER NO.	Mfr. No.	Description
668-40055	40055	Brass Regulator, 3/4"

2 BURNER DROP-IN COOKTOP

- Low Pressure Propane

MANUAL TOILET - TWIST'N' LOCK™ MANUAL TOILET

THE MANUAL TOILET THAT GUARDS AGAINST FLOODING & WASTE BACKFLOW
This intuitive, simple to use, Twist 'N' Lock™ handle works by locking the new cone-shaped piston into place which helps to prevent any backflow during a voyage.

Features:

- Twist 'N' Lock™ action safety handle
- Reversible pump mounting allows re-assembly for left hand operation by installer.
- Powerful self-priming, double-acting piston pump.
- Strong swirl action for efficient flushing.
- Crevice free contours and skirted base for added cleanliness and hygiene.
- Contoured handle and conveniently positioned flush control lever for ease of use.
- Angled pump housing and long stroke for easier pumping.
- Spring assisted top valve closure for easier priming.
- Automatic vacuum breaker operated by flush control lever for easier bowl emptying.
- Constant 38mm (1-1/2") bore waste path minimises blockages.
- Aortic joker valve combines full 38mm (1-1/2") bore with automatic back- flow prevention.
- Multi-angle discharge elbow for ease of installation.
- Accessible mounting points for faster installation.
- All fastenings face front or top for superbly simple servicing without need for special tools.
- Renewable external seal housing for quick, clean replacement of seal and piston rod guide.
- Positively located gaskets ensure correct re-assembly.
- Dual function base plug combines winter drain point with easy cleaning access.
- **Replaces 3000 Series**

Fitting: 3/4" (19mm) ID Inlet Hose, 1-1/2" (38mm) ID Outlet Hose

The pump is fitted with a full size rod guide and seal housing making it easy to unscrew and remove the entire handle, seal housing, piston rod and piston as an assembly without disassembling the pump. The upper flap valve assembly is now fitted with a valve return spring to ensure quick and easy priming.

Twist 'N' Lock™ action safety handle provides a quick & easy lock that ensures a solid seal during the voyage.

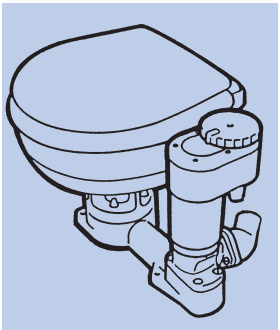
ELECTRIC CONVERSION PUMP



Features:

- Directly replaces manual pump assembly
- Easy to Install
- Simple to operate
- Dual action control allows water level to be varied
- Fits all Jabsco and Par 29090 and 29120 standard and large bowl toilets. Adaptors available to fit many other makes
- Suitable for use in above or below waterline installations
- Built-in macerator
- Meets EN50081-2 for Electro Magnetic Compatability (EMC)
- Meets ISO 8846 MARINE and USCG 183.410 for Ignition protection
- Self priming up to 0.6m(2ft)
- Waste pump discharges over an anti-syphon loop up to 1.8m(6ft) and out of a through hull fitting down to 0.9m(3ft) below the surface
- Typical power consumption is less than 1.0 amp hour(12 Volt) or 0.5 amp hour (24 Volt) per day

ELECTRIC CONVERSION KIT

NEW CONTOURED BASE

Converts Jabsco manual toilet models to full electric operation without altering existing inlet or discharge seacocks.

Features:

- Also converts most toilets with 4 bolt screw pattern on a 3-3/4" (95mm) diameter bolt circle such as Groco, Raritan, Wilcox Cirttenden, Mansfield and Sealand.
- Push button flushing for ease and simplicity of operation
- Kit includes all necessary parts
- Flushing pump self-priming up to 4ft (1.2m) vertical lift
- May be installed 3ft (1m) below waterline
- Complies with USCG 183.410 and ISO 8846 MARINE (Ignition Protection)

ORDER NO	Volt DC	Fuse Rating
37010-0092	12	25 Amp

Fitting: 5/8" – 3/4" (16-19mm) ID Inlet Hose, 1" or 1-1/2" (25-38mm) ID Outlet Hose

QUIET FLUSH CONVERSION KIT

Converts virtually any toilet to Quiet Flush quality.

ORDER NO.	Volt DC	Fuse Rating
37055-0092	12	25
37055-0094*	24	15
37255-0092	12	25
37255-0094*	24	15
90197-0000	Service Kit, Seal & Gasket	

Features:

- Very quiet flush cycle - like a household toilet
- Converts all Jabsco, Par manual toilets and early electric toilets to the new Quiet-Flush System
- Also converts Groco HC, HE & HF
- Raritan PH,Cricket, Compact & Crown
- Sealand (Mansfield) 750 to 752 series and all Wilcox Crittenden toilets
- Single button flush actuator - with dual function water level control switch
- Supplied with Par-Max 4 self-priming pump to provide sea water or lake water to rinse the toilet bowl
- High capacity waste macerator and bowl discharge pump
- 3-way control panel allows operator to select a normal flush and drain cycle or to lower or raise the water level
- 37255 Series are supplied with a remote mounted quiet running flush pump for use with salt, river or lake water. Complete with Pumpgard™ strainer.
- 37055 Series are supplied with a solenoid valve and syphon breaker assembly for connection to any existing pressurized pump of 3.5 gpm (13.5 lpm) or more.

Fitting: 3/4" (19mm) ID Inlet Hose, 1" (25mm) ID Outlet Hose.
Adapter included for connection to 1-1/2" (38mm) discharge hose.

NEW CONTOURED BASE

RUN-DRY MACERATOR PUMP

The latest version of the Macerator pump now has a fully sealed motor and a new more powerful chopper blade. The sealed motor consists of o-ring sealed endbells, sealed bearings and a hard durable powder coating to prevent corrosion occurring both internally and externally. A new four-bladed chopper has been added to further reduce the possibility of clogging.

Features:

The pump still has the Run-Dry feature present in previous models.

- Triple-sealed motor to prevent both internal and external motor corrosion
- New Four-bladed chopper reduces clogging
- Detects the absence of fluid then shuts-off pump before impeller is damaged
- Sensor provides adequate run-dry period to allow initial priming of the pump
- Interrupting power supply to the macerator resets the Run-Dry Device
- Flow rate to 12 gpm (45 lpm)
- Self-priming to 4ft (1.2m) vertical lift
- Complies with USCG 183.410 and ISO 8846 MARINE (Ignition Protection)

Specifications:

Fitting: Inlet Port: 1-1/2" (38mm) Hose Barb plus 1-1/2" NPT
Discharge Port: 1" (25mm) Hose Barb
Size: 11-3/8" (29cm) long x 4-3/4" (12cm) wide x 3-5/8" (9cm) high
Weight: 5 lb (2.3 kg)

JABSCO

a xylem brand

DELUXE FLUSH ELECTRIC TOILETS

You may install JABSCO Deluxe Flush electrically operated marine toilets in both power and sailing craft, either above or below the waterline, for use on sea, river, lake or canal.

Features:

- Space saving stylish design
- Regular household size seat
- Virtually silent operation for undisturbed sleep
- User selectable choice of "one touch" flush cycles for minimal water usage - a 'Quick Flush' uses less than 1 quart (1 litre)
- Owner selectable choice of leaving bowl wet or dry after use
- Fresh or raw water rinse order no.s
- Non-clogging large bore flush pump macerates waste
- ISO 8846 MARINE - Ignition Protection
- Crevice free contours for added cleanliness and hygiene
- All plumbing and wiring easily concealed
- Angled or Vertical back vitreous china bowl. Angled version gives minimal footprint and makes it easy to mount against a sloping surface or in a corner. Vertical version allows snug fitting against a vertical bulkhead.

Fitting: 3/4" (19mm) ID Inlet Hose, 1-1/2" ID (38mm) Outlet Hose

ORDER NO.	Bowl Type	Volt DC	Fuse Rating	Dimensions - In. (cm) Height	Width	Length
58080-1012	Vertical with solenoid valve	12	25 Amp	14-3/8 (36)	14-1/2 (37)	17-5/8 (45)
58060-1012	Angled with solenoid valve	12	25 Amp	14-3/8 (36)	14-1/2 (37)	17-5/8 (45)

QUIET FLUSH ELECTRIC TOILET

The Quiet Flush was designed to reduce noise levels when flushing. A three-way switch allows operation of the flush pump, the discharge pump or both, allowing the water level to be adjusted for user comfort. These toilets are available in regular or compact bowl sizes, and in two models: one has an intake pump for external water flushing, while the other has a special solenoid valve and siphon breaker to prevent contamination if the system is connected to a drinking water pressure pump.

With a quiet flush cycle similar to a household type toilet

Features:

- Very quiet flush cycle - like a household toilet
- Single button flush actuator - with dual function water level control switch
- Can be plumbed to any pressurized water system that can provide a 3-1/2 GPM (13.5 LPM) flow rate
- Water control solenoid valve with anti-siphon breaker to prevent contamination of potable water supply
- White vitreous china bowl available in compact or comfortable household size
- Baked enamel seat & cover
- High capacity waste macerator and bowl discharge pump

PAR-MAX 4 - 37245-Series

Specifications:

Port(s):	Inlet 3/4" Hose Barb
	Outlet 1" Hose Barb
Motor:	Meet USCG Regulation 183.410 and ISO 8846
Water Consumption:	1-2 quarts (Litres) per flush

LITE FLUSH ELECTRIC TOILET - LIGHTWEIGHT CONTEMPORARY DESIGN

A new electric toilet designed to instantly retro-fit your existing Jabsco manual toilet or to give your bathroom a modern stylish look. The innovative design offers both low power and water consumption with an integral rinse and waste pump system. The 'Lite Flush' electric toilet features a simple foot switch. Just press down once to fill the bowl, and press again to flush.

Features and Benefits

- Lightweight and compact
- Stylish and contemporary design
- NEW quiet and efficient flush pump technology
- Low water usage - 1.2 litres (1.3 US Quarts) per flush
- Low power consumption
- Ceramic inner, plastic outer for light weight construction
- Rinse pump integrated into unit for compact design
- Slow close seat and lid

Dimensions: 13-1/2"L x 15-3/4"W x 14-3/4"H

CE

Simple Foot Switch Feature

The 'Lite Flush' electric toilet is available with either a footswitch or a control panel. The 'Lite Flush' has the same footprint, fixing points and hose attachments as Jabsco's existing manual toilet for ease of installation and a true retro-fit. For the footswitch variant, simply press down once to fill the bowl, and press again to flush. The Control Panel variant offers a multi-functional one touch' pad offering four options - 'fill', 'quick flush', 'flush', or 'empty'.

Dimensions: 14"L x 4-1/4"W

MARINE TOILETS

Features:
- Whisper quiet operation
- Self-priming pump
- Clean lines – pleasing to the eye
- Hygienic, easy-to-clean vitreous china bowl and exterior surfaces
- Plastic seat made of polypropylene
- Low water consumption (2-2.5 l/flush) makes the most of holding tank capacity
- Versatile plumbing connection options
- Automatic back-flow prevention
- Available in comfort or compact bowl sizes
- Designed for virtually any onboard mounting position
- May be installed above or below the waterline
- Suitable for OEM or replacement installation
- Corrosion resistant materials throughout
- Long service life
- Ergonomic pump handle for ease of use
- Pump can be mounted left or right of the toilet bowl
- Innovative brake bushing prevents annoying leakage at the handle

AquaT™ Manual
- Ergonomic pump handle for ease of use
- Pump can be mounted left or right of the toilet bowl
- Innovative brake bushing prevents annoying leakage at the handle

AquaT™ Silent Electric
- Equipped with 12V or 24V Aqua Jet pumps
- Includes two switch control panel for separate rinse & discharge
- Quick-connect hose or threaded connectors
- Complies with ISO 8846, ignition protection, & EN 55014 EMC

CE Johnson Pump®

AquaT™ MARINE TOILETS

The fine finish and well thought-through design of these toilets is remarkable. Made from white vitreous porcelain, and with corrosion resistant parts throughout, the Johnson Pump AquaT™ marine toilet, is quiet, robust and easy to clean.

The AquaT™ toilet will give you years of trouble free operation. The manual version incorporates an ergonomically designed, hand-powered piston pump that can be mounted for either left-hand or right-hand use. When spare parts such as a new seat or valve are needed, you'll find Johnson Pump's global network of distributors at your service. Quiet, hygienic and reliable, the Johnson Pump AquaT™ marine toilet is perfect for almost any marine toilet room.

PORTA POTTI® CURVE 565E PORTABLE RV/COTTAGE TOILET - NON MARINE USE

Durable, easy to use and to clean.

- Replaces Porta Potti 550E Curve
- Battery-powered electric flush
- Sleek, modern and homelike design
- Comfortable seat height
- Large bowl size
- User-friendly flush lever
- Hidden controls
- Tank level indicator for fresh water and waste tanks
- Integrated tissue holder

Note: *Do not use stiff brushes or homemade products to clean or lubricate the valve & seal, as these will damage the seals & surfaces, causing odours to escape from holding tanks. Thetford recommends using Aqua-Clean & toilet seal lubricants.*

a xylem brand

DIAPHRAGM WASTE PUMP

New model passes solids and is particularly effective in emptying holding tanks.
The multi-positional pump head offers a variety of installation options.

- 5 Gpm (19 lpm) output
- Self-priming up to 10ft (3m)
- Capable of extensive dry running
- Compact and simple design
- Quiet running
- Flexible Installation
- Corrosion resistant parts
- Complies with USCG 183.410 and ISO 8846 MARINE (Ignition protection)
- ISO 8849 MARINE (Bilge Pump Standard)

Specifications:
Fitting: Connections for 1-1/2" (38mm) ID hose
Size: 10.9" (27.7cm) long x 6.1" (15.5cm) wide x 4.4" (11.1cm) high
Weight: 6lb (2.7kg)

ORDER NO.	Mfr. No.	Description
50890-1000	50890-1000	12 Volt DC, Fuse 10 Amp
50890-1100	50890-1100	24 Volt DC, Fuse 5 Amp

Y-VALVE

Robust Y-valve for use in toilet applications. Allows waste to be pumped into a holding tank.

- Rotating ports allow for variable routing of hoses onto the valve
- Can be operated through bulkhead by use of optional handle
- Can be padlocked so that waste can only go to the holding tank to comply with some local regulations (Padlock not included)
- Waste and corrosion resistant construction throughout

Fitting: Connnection for both 1-1/2" (38mm) ports and 1" (25mm) inlet port
ORDER NO. 45490-1000

Padlock not included

INLET NON-RETURN VALVE

A check valve gives quicker and easier flushing response on many manual and 37010-Series electric toilet installations.

- For use with manual and electric toilets using sea water flush
- Simply fit in inlet suction hose, near seacock but just above waterline
- Prevents loss of prime above waterline installations
- Retains water in bowl of 37010-Series electric toilets installed above waterline

Fitting: Connections for 3/4" (19mm) ID hose.
ORDER NO. 29295-1011

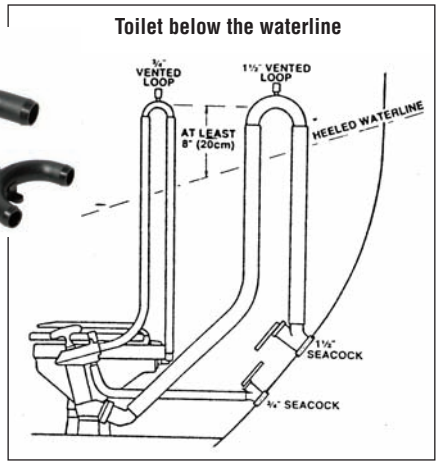
VENTED LOOPS

An essential safety component on all inlet and discharge plumbing of toilets installed below the static or heeled waterline.

- Simple valve system ensures water cannot siphon over plumbing loops
- Available in 3 sizes for 1-1/2" (38mm), 1" (25mm) and 3/4" (19mm) ID hose
- Internal valve avoids the need for external venting
- Molded in tough, corrosion proof plastic

29015-Series

Toilet below the waterline



ORDER NO.	Hose Size	Height	Width	Depth
29015-0000	3/4" (19mm)	3" (75mm)	3-3/4" (95mm)	1" (25mm)
29015-0010	1-1/2" (38mm)	5" (125mm)	7-1/4" (185mm)	2" (50mm)
29015-0020	1" (25mm)	5" (125mm)	7-1/2" (190mm)	1-3/4" (45mm)

TOILET PUMPGARD™

The Pumpgard™ protects manual or electric toilets from pump malfunctions caused by debris.

- Simply installed in 3/4" (19mm) ID inlet hose
- Transparent housing allows instant inspection
- Screw off top allows quick in place cleaning and removal of debris

ORDER NO.	Description
46400-0000	Toilet Pumpgard™

GULPER® TOILET PUMP

For Holding Tank Electric Pump Out / Discharge

No clog, no filter waste pump on more than a decade of market leading pump technology

Pumps un-macerated Toilet Waste with Ease

- Runs dry without damage
- Up to 18 liters (4.75 US gal) per minute
- Virtually unblockable
- Rotatable inlet & outlet - allows you to install in awkward locations
- Self priming up to 3 m (9.8 ft.) - mount the pump in the most convenient part of boat
- Pumps a mixture of air & waste
- Easy to maintain
- Rubber mounting feet - absorb vibration
- High spec protected motor
- Easy release clamp ring to rotate pump head
- Reliability - non choke valves to easily manage unmacerated waste, no moving parts to clog
- Head rotates 360° to best suit your installation
- Extra large ports 1-1/2" (38 mm) for consistent flow
- Ideal for holding tanks & vacuum systems
- CE marked
- Ignition protection ISO8846

MOELLER WASTE TANKS

Each tank features a nominal wall thickness of 0.30 in. (7.6 mm) to control odor which would otherwise permeate through the walls. NPT openings for vent, fill, and pumpout are standard.
Refer to the diagram on the right. The position of the vent is the same for all waste tanks. The fill and pumpout position (dimension D2) varies for each tank, and is provided with the tank dimensions below.

Federal Regulation 33CFR159, which incorporates EPA standards for water pollution control, governs the design, construction, and certification of marine sanitation systems. Boat owners and operators are responsible for making sure that each sanitation device complies with the requirements of 33CFR159.
All Moeller waste tanks meet the material and pressure specifications for sanitation tanks as called out in the federal regulations.

MARINE DESCALING FLUID

Starbrite®

- Safely & quickly busts through scale, salt, & calcium deposits in raw water-cooled systems, maximizing power at a fraction of the cost of similar products
- Dissolve calcium & marine deposits, blast away scale & build-up in pipes, clean AC, engine, & generator systems
- Can remedy unseen overheating issues
- Won't damage seals, gaskets, or rubber impellers

WAKEBOARD AND SKI BOAT BALLAST PUMPS

Designed to pump water into Wakeboard Liquid Ballast Tanks and when reversed will also pump water out of them.

BALLAST PUPPY - 9 GPM

- Adds approx 80 lbs. of ballast water per minute
- Reversible pump to both fill & empty ballast tanks
- Self-priming to 3 ft.
- Exclusive (Patent pending) Run-dry protection shuts off pump before impeller is damaged
- Complies with USCG 183.410 & ISO 8846 MARINE (Ignition Protection)
- **Replacement Impeller ORDER NO. 06303-0007-P (Green)**

Fittings:

Ports - 1/2" (13mm) NPT internal thread,
1" (25mm) External Hose Barb
Size: 7-1/8" (18cm)L
4-3/4" (12cm)W
3-5/8" (9 cm)H
Weight: 6 lbs. (2.7 kg)

ORDER NO. 18220-1127 Reversing Switch Included

HIGH SPEED INFLATOR/DEFLATOR

The Rule High Speed inflator/deflator inflates a typical 4 man dinghy in as little as one to two minutes. Adjustable nozzles have been included for most inflatables and valves types.

- 12 Volts, 25 amps, maximum 2.6psi, 20 CFM
- 10' (3m) cable length with battery clips
- Pre-lubricated and sealed bearings to ensure long life
- Robust fan drive belt for long life
- Adjustable nozzles for most inflatables and valve types included
- Grip pad for one handed operation

TSUNAMI® AERATOR PUMPS

With their innovative engineering and compact design, Tsunami pumps deliver high output from a small package. We use the most advanced material available, including the best quality bearings and state-of-the-art brushes, alloys and magnets. Our patented shaft seal prevents leaks caused by misalignment and our caulked and tinned wiring eliminates wicking, prevents water damage and resists corrosion.

Three high-efficiency aerator pumps that move water at output capacities of 500 gph, 800 gph and 1200 gph.
With their innovative engineering and compact design, Tsunami pumps deliver high output from a small package.

Output & Performance:

- Move more water and oxygen into livewell tanks to keep fish active
- Cooler-running motors, premium materials, watertight seals and waterproof wiring
- Motor cartridge locks for secure placement
- Standard threaded outlets
- Unlocks for easy cleaning or motor replacement

Inlet lengths – 7/8", 1-1/2", 3-1/2"
Outlets: T1200 is 1-1/8" threaded T500 & T800 are ¾" threaded
Cartridges are replaceable and interchangeable between bilge and aerator pumps

TSUNAMI® DUAL OUTLET AERATOR PUMPS

The advantage of the dual outlet is that you can feed multiple applications through a single thru-hull fitting. The Tsunami second outlet is integrated into the pressure chamber, so it looks – and pumps – like part of the aerator. Both of the pump's outlets are engineered for the precise position and angle that will deliver optimum performance.

Output & Performance:

- Get twice the value because the new dual outlet Tsunami Aerator is actually a multifunction pump
- Both outlets are engineered for the precise position and angle that will deliver optimum performance
- You get separate outlets for two livewells
- Run a livewell and a separate low-pressure washdown outlet
- 3-year Warranty

TSUNAMI® RECIRQ AERATOR KIT

The Tsunami Recirq Kit recirculates livewell water to keep it cooler and rich in oxygen. This self-contained system feeds a separate aerator spray head and works even while you are underway and cannot use a thru-hull connection. Add this kit to any tank that already has a freshwater fill system. Or use as a backup pump for a fail-safe system.

Recirq Kit Includes:

- 500 GPH Tsunami aerator pump with short inlet, threaded outlet
- Aerator spray head
- Stainless steel strainer
- 2 plastic hose clamps
- 3/4" diameter 23" poly hose
- Straight thread-to-barb connector

ORDER NO. 104-42530
Mfr. No. 4253-7

LIVEWELL/BAITWELL FITTINGS

ADJUSTABLE AERATOR SPRAY HEAD

Use on livewells that have built-in overflows or recirculating systems. Mounts on side of tank. 90˚ fitting for installation in tight spaces. Rotating head with O-ring adjusts and maintains flow setting. Removable head has an " interference-fit thread design" that will not allow it to vibrate or blow out. Polypropylene construction. Can be installed on tanks with up to 5/8" wall thickness.

ORDER NO. 104-41250
Mfr. No. 4125-7

For more information see: www.attwoodmarine.com

SINGLE VALVE SPRAY HEAD

For use on livewells that have built-in overflows or recirculating systems. Single valve model. Multi-port spray maximizes oxygen level in the livewell. For output from an aerator pump into the livewell. Constructed of ABC plastic.

ORDER NO. 104-41181
Mfr. No. 4118A5

LIVEWELL ACCESSORIES

TH MARINE

THE OXYGENATOR™ BY T-H MARINE www.KeepFishAlive.com

PRO LIVEWELL FLUSH MOUNT OXYGENATOR™

The OXYGENATOR Pro Livewell Flush Mount is the best way to ensure your fish stays alive and make it to the weigh in.

The OXYGENATOR is much more efficient than the traditional aeration process which produces much lower oxygen levels. Using a patented process, the OXYGENATOR produces oxygen that is readily absorbed into the water which keeps bait and fish not only healthy, but livelier as well. This is the most efficient means of maintaining high-levels of oxygen in a livewell and nothing comes close to the OXYGENATOR'S ability to create an oxygen-rich environment. In addition, the OXYGENATOR uses advanced sensor technology to increase or decrease the frequency and duration of the output to maintain the highest yet safest dissolved oxygen level based on the livewell water temperature variation.

- 12V dc drawing less than 1 amp
- No switch required - automatically activated when livewell fills with water
- Easy installation instructions
- Silent running
- Emitter size: 3.375" in diameter
- Rated capacity: 10-20 gallons

ORDER NO.	Mfr. No.
205-88000	02-BK3-DP

Johnson Pump®

BASSPIRATOR II™ - CARTRIDGE AERATOR SERIES - 12V

Internal anti-airlock fins help prevent air lock ensuring a good even flow of water to the livewell. These powerful and efficient pumps, are available in 500 and 750 GPH flow capacities, have proven themselves to be trouble free providing excellent life expectancy so you can enjoy your time fishing.

General Features:

- Fully submersible
- Ignition protected
- Seawater tough
- Anti-airlock protection
- Straight and 90˚ Dura-port discharge ports
- Common body allows interchangeable motor cartridge replacement to the same of different size
- Smaller profiles to fit in more confined spaces
- Removable motor cartridge feature allows for easy cleaning and maintenance
- 100% factory tested
- Meets and exceeds NMMA, ABYC, ISO 8846, CE and USCG specifications
- 3-year warranty
- Made in the U.S.A.

LIVEWELL SYSTEM KITS

IN-WELL AERATOR SYSTEM

Installation kit for new aerator system offering the advantage of continuous recirculation of the livewell water. Ensure good aeration of the livewell when the boat is on the trailer or on the plane going to the next fishing hole

Kit includes:

- Reliable 500 GPH cartridge recirculating pump with 90˚ outlet
- 16 gauge wire (brown & black)
- Illuminated & fused dash switch panel switch
- Aerating head double valve
- 3/4" I.D. thru-hull
- 3 feet of 3/4" I.D. bilge hose
- Complete illustrated instructions

ORDER NO. 847-34024 Mfr. No. 34024

BASSPIRATOR II SYSTEM

Installation kit for new aerating system offering the advantage of continuous replenishment of fresh water to the live well.

Kit includes:

- 500 GPH Basspirator II™ cartridge aerating pump
- Two 1-1/2" overflow fittings and hose
- 7 feet of 3/4" I.D. bilge hose
- 16 gauge wire (brown & black)
- Attractive dash switch with indicator light and built-in fuse holder
- Aerating head single valve
- 4 hose clamps
- Transom shim **(# 847-71245)** for boats with angled transom
- Complete illustrated instructions

ORDER NO. 847-34014 Mfr. No. 34014

For more information see: www.spxflow.com/johnson-pump-marine

ICE CHEST AERATOR - 12V

- 400 GPH pump
- Flexible hose
- Aerating head with mounting clip
- Stainless steel shaft and hardware
- 2.0 amp draw use 3 amp fuse
- Ignition protected
- Stainless steel shaft and hardware
- Anti-Airlock protection
- Saltwater tough
- 100% factory tested
- Meets and exceeds NMMA, ABYC, ISO 8846, E and USCG specifications
- Three year warranty

ORDER NO. 847-24052 Mfr. No. 24052

INTAKE STRAINER

Attaches directly to intake tube on Johnson Pump Aerator Pumps. Filters debris which could clog pump.

ORDER NO. 671-77125 Mfr. No. 77125

AERATING HEADS & FITTINGS

Shown here are some of the more popular designs used as standard equipment by leading bass boat manufacturers. Our variety of fittings allows for all shapes and configurations so we can custom design an aerating head for your boat production requirements.

Spray Head Assembly
Overall length 9-3/4",
3/4" thru hull,
one shut-off valve

ULTIMA BILGE™

Mercury Free design with no moving parts. Low Amperage.

Integration of the patented Ultima "field effect" sensing technology into the bilge pump body creates a sleek, reliable compact, unit ready to install and run for years and years of unerring service.

- Rugged ABS Fuel-Resistant Housing
- Featuring - Patented Digital "Field Effect"
- 12 Volt
- Ultima™ 600GPH - 1000GPH, Easy to-install Dura-Port discharge ports to eliminate stress cracking caused by over-tightened hose clamps & also includes both a straight & a 90° smooth elbow DuraPort
- Ultima™ 1250GPH we include threaded 1-1/4" & 1-1/8" discharge port
- All versions include a removable check valve
- Simple 3 wire design for easy installation
- Wire Size: 30" 16 GA
- Motor Shaft: 316 Stainless Steel
- Ultima™ 1250GPH we include threaded 1-1/4" & 1-1/8" discharge port

ULTIMA BILGE™ COMBO PUMP

The Ultima Combo combines the line of Cartridge Bilge Pumps with automatic operation. The pump is equipped with the new Ultima Switch.

- 12 Volt
- Submersible bilge pump with Ultima switch
- Complete with Dura-Port discharge ports to eliminate stress cracking caused by over-tightened hose clamps
- Includes both straight and a 90° smooth elbow Dura-Port
- All versions include a removable check valve
- Replaceable cartridge design
- Pre-wired for auto operation as well as manual override
- Non clogging pump and switch
- Water-cooled motor
- Free and easy flow
- Salt water tough
- Easy to clean

ULTIMA SWITCH

Mercury Free design with no moving parts.
Completely sealed Solid State Design.

Automatic bilge pump switch 12/24V DC 20 amp draw.
Detects fluid using the patented Mirus™ "field effect" technology.

Features:

- 3-year warranty
- Turns pump on at 2" fluid level
- Turns pump off at 3/4" fluid level
- Not effected by oil, fuel or debris
- Reverse wire protection
- 12/24V DC operation
- Handles all pumps up to 20 amp draw
- Meets ISO 8846, ABYC, NMMA and USCG
- Made in USA

ORDER NO. 671-36303
Mfr. No. 36303

BILGE ALERT™

High Water Alarm

A new level of high water protection. 100db alarm and LED warning light alert you to bilge water levels above normal conditions.
Detects fluid using the patented Mirus™ "field effect" technology.

Features:

- 100db alarm and LED warning light
- Completely sealed and corrosion proof
- Three way panel switch Test/Armed/Off
- No moving parts
- Easy to install
- 12VDC
- Meets ISO 8846, NMMA, USCG & ABYC requirements
- Ignition protected
- 3-year warranty

BILGE PUMPS

Johnson Pump®

LOW BOY BILGE PUMP

Low profile pump design for ease of mounting and removal in tight bilge areas. Perfect for vessels with bilge pumps mounted beneath inboard or I/O engines. Removable cartridge style. For 750 GPH Low Boy pumps we have easy-to-install Dura-Port discharge ports to eliminate stress cracking caused by over-tightened hose clamps. The pumps will be delivered including both a straight and a 90˚ smooth elbow. Use 847-36152 magnetic switch only.

Max Length: 5.75"
Width: 3.2"
Height: 2.82"
Wire Size: 16 GA

HIGH CAPACITY BILGE PUMPS 12V

The best choice when you are looking for a high perfomance, heavy duty bilge pump that is designed to meet and exceed the tough demands of commercial and recreational duty. The pump has a liquid-cooled, 12-pole motor with double ball bearings for extended service life. The L2200 motor is sealed off by a mechanical seal design that eliminates shaft wear and allows for service and replacement, while the L1600 model has lipseal. The impeller is carefully designed and tested to maximize head and flow. The L4000 high capacity, heavy duty bilge pump has been developed by Johnson Pump as the premier pump in our submersible bilge pump range. Features a robust motor design, mechanical shaft seal, high impact ABS plastic and unique threaded port design. Universal base plate and choice of 1-1/2" or 2" ports makes for a simple installation. These pumps all include a removable check valve.

THE ORIGINAL INTERCHANGEABLE CARTRIDGE PUMP

Johnson Pump's cartridge bilge pumps with it's original interchangeable motor cartridge design allows for easy cleaning and service. Fully submersible and ignition protected.
Includes: One each of straight and 90˚ non cracking "Dura Ports", and a removable check valve is standard. 3 year warranty.

General Pump Features

- Fully submersible
- Ignition protected
- 12 Volt
- Compression lip seals
- Dura-Port discharge port 3/4" discharge only
- 100% factory tested
- Anti-Airlock protection
- Meets and exceeds NMMA, ABYC, ISO 8849, CE and USCG specifications
- Three year warranty
- Dimensions: 2-3/4"L x 2-3/4"W x 4-1/2"H
- 316 stainless motor shaft and hardware

New Generation Series

FULLY AUTOMATIC BILGE PUMP

Our bilge pumps provide ultimate pumping performance, which helps keep your bilge clear of nuisance water, building on the genuine Rule design.

Rigorous engineering and testing helped generate the new series of RuleMate automatic bilge pumps. Our pumps are tested to the highest standard providing better efficiency for the toughest applications.

RuleMate bilge pumps operate using an internal level sensor. When water reaches 2" (5 cm) they switch on and pump it out, when level reaches 3/8" (0.9 cm), they switch off again. Our pumps use a unique back up feature that will let you know if something has covered the sensor, this prevents the pump running when it shouldn't giving peace of mind.

SPECIFICATIONS

- **Higher Flow – optimized impeller to provide greater flow at the same amperage**
- **Auto Sense Intelligence - Integral water level sensor controls the pump automatically**
- **Back-Up Feature - Prevents continuous running if sensor is fouled by debris, pump reverts to 2.5 minute cyle mode**
- **Smaller footprint - New RuleMate is 2/3 the size of existing model**
- **Built-in Thermal Cut-Off (TCO) – provides added protection for pump and vessel**
- **Back Flow Prevention - reduces the amount of water left over in the bilge, reducing odor and helping keep your bilge cleaner**
- **Hidden Air Vents in the Body – helps prevent air locking in challenging plumbing installations and helps with the check valve**
- **Threaded Discharge - easier installation, easier maintenance**

AUTOMATIC - NEXT GENERATION ELECTRONIC SENSING S SERIES BILGE PUMPS

No Float Switch Needed!
Works on the principle of Impeller Resistance!
The pump will turn on every 2-1/2 minutes for about one second to sense the water. If water is present, the pump will sense resistance and continue to run until all water is removed. After, the pump will resume checking for water every 2-1.2 minutes. Water is kept in check between 1/8" and 3/8"!!

- Higher Flow
- Submersible and ignition protected
- High effeciency, low amp motor
- Stainless steel shaft
- Includes backflow preventer
- Includes 3/4" ports
- Check valve included with hidden air vent to prevent airlocking
- True electromagnetic suppression (EMC)
- Built-in thermal cell that protects the pump and the vessel when things get too hot

NON - AUTOMATIC - NEXT GENERATION OF BILGE PUMPS

Best Design with Higher Flow & BackFlow Prevention!
Use with a Panel Switch or Rule Float Switch
Rule has re-engineered inside and out the bilge pump with the idea that a 500 gph pump should produce maximum open flow at 12 volts (more typical of on-board voltage supply) rather than the 13.6 volts of a vessel's alternator.

- Submersible and ignition protected
- High effeciency, low amp motor
- Stainless steel shaft
- Higher flow
- Includes backflow preventer
- Includes ports and check valves

BILGE PUMPS – LOPRO SERIES

LOPRO SERIES 900S - *Features 3 Automatic Modes*
FULLY AUTOMATIC LOW PROFILE BILGE PUMP

Designed to bring automatic pumping power to tight spaces.

Rule's LoPro Series Bilge Pumps are only 2.25" high. Yet each one can move a mighty 900 gallons per hour. In addition, the 900S model features two automatic modes. The first one engages the pump when the water level reaches 1.3" or 2", and the second one checks for water by briefly turning on the pump every 2.5 minutes.

- **Fully rotating discharge body –** The entire body swivels up to 180˚, making the pump extremely easy to install.
- **Threaded discharge nozzle –** The threads allow the discharge nozzle to couple with either a staight or 90˚ fitting, both of which are included. An included tricuspid check valve, used with the straight fitting, can be used to minimize the backflow of water.
- **Multiple modes of operation –** In addition to manual, the 900S features two automated modes of operation.
- **Electronic automatic timer mode –** The pump automatically turns on every 2.5 minutes to check for water, and if it's detected the pump stays on until the water is gone.
- **High or low water sensing mode –** The low setting automatically starts the pump when the water level rises to 1.3", and the high setting engages the pump when the water rises to 2".
- **Horizontal or vertical mounting –** The 900S features a variety of mounting options to accommodate the boat's design.

SPECIFICATIONS:
Voltage: 12 VDC
Flow: 900 GPH open flow at 13.6V/3407 LPH
Amp Draw: 4A approximate
Protection: TCO
Port Configuration: 3/4", 1", 1-1/8" Straight, 90˚ 3/4"
Backflow preventer valve can be used with straight fittings
Dimensions: 2.3"H x 9.3"L x 2.3"W

LOPRO SERIES 900D - NON-AUTOMATIC
LOW PROFILE HIGH CAPACITY BILGE PUMP

Designed to bring pumping power to tight spaces.

Rule's LoPro Series Bilge Pumps are only 2.25" high, but can move a mighty 900 gallons per hour. Each one features a threaded discharge nozzle with straight and 90˚ fittings, and the body can swivel up to 180°, making it a great fit for small spaces and odd configurations.

- **900 gallon per hour capacity –** The 900D can move a colossal 900 gallons of water per hour, even though it has an extremely low profile.
- **Fully rotating discharge body –** The entire body swivels up to 180°, making the pump extremely easy to install.
- **Threaded discharge nozzle –** The threads allow the discharge nozzle to couple with either a staight or 90˚ fitting, both of which are included. An included tricuspid check valve, used with the straight fitting, can be used to minimize the backflow of water.
- **Horizontal or vertical mounting –** The 900D features a variety of mounting options to accommodate the boat's design.
- **12V DC operation –** The pump operates on standard marine electrical power while delivering high capacity pumping power.

SPECIFICATIONS:
Voltage: 12 VDC
Flow: 900 GPH open flow at 13.6V/3407 LPH
Amp Draw: 4A approximate
Protection: TCO
Port Configuration: 3/4", 1", 1-1/8" Straight, 90˚ 3/4"
Backflow preventer valve can be used with straight fittings
Dimensions: 2.3"H x 7.6"L x 2.3"W

SUBMERSIBLE BILGE PUMPS - VDC

Rule submersible bilge pumps have set the standard for the industry for decades. They are the first choice of yachtsmen and commercial fishermen throughout the world.

- Easy clean snap-lock strainer
- Anti-airlock protection
- Ignition protected
- Rust and corrosion protection
- Marine grade blocked wiring
- Silent and vibrationless operation
- Compact, efficient long life motor
- No burn-out when run dry
- Used by leading boat builders worldwide

TSUNAMI Mk2 MANUAL BILGE PUMPS - 12 VOLT

Tsunami Mk2 is the only manual bilge pump that eliminates air-locks.

NEW!

Key Product Features

- **Patented X-Air™ Impeller:** Prevents air locking so that the pump will not run dry & burn out.
- **Flexible Outlets:** 90° rotatable elbow outlet allows users to install the pump anywhere in a full 360° orientation
- **Single-Hand Pump Cartridge Release:** Convenient when trying to access a pump located in a hard-to-reach area of the boat's hull
- **Industry's Best Motor & Shaft Seals:** Provides better protection against harmful corrosion that in any other instance could cause failure
- **Exterior Mounting Feet:** Eliminates the need to remove the basket, saving OEMs time on production lines
- **Retrofits Footprint Of Current Offering:** Provides seamless transition for existing customers
- **No Pipe Or Hose Removal Required:** Reduces the time that it takes to replace the cartridge
- **Tricuspid Check Valve:** Helps prevent the water from backflowing through the pump

HEAVY DUTY BILGE PUMPS

Attwood's line of heavy-duty, high-capacity bilge pumps have unsurpassed durability, adjustability and performance in a compact design. These powerful pumps keep water where it belongs – outside your boat.

Features:

- Available in 2 flow capacities: 1700 GPH and 2000 GPH
- Fully-adjustable outlet and base configuration
- High-efficiency permanent magnet motor
- Molded two-wire seal eliminates a potential leak path

Benefits:

- Quick and easy installation
- Tough, dependable performance in a small package
- Designed to out-perform
- Tested relentlessly to deliver reliable, efficient performance

AUTOMATIC FLOAT SWITCHES

The Automatic Float Switch converts any bilge pump that draws 12 amps (at 12 VDC) or less to fully automatic operation. It features a compact, low-profile design that mounts on any surface from horizontal up to a 24° angle. No large voltage drop which reduces bilge pump output. Incorporates a reliable and affordable mechanical switch that actuates pump motor at 2" water level. Wire leads do not flex or hinge with the float. Integral cover dampens bilge sloshing to reduce pump cycling, and prevents debris interference. Sealed switch mechanism resists moisture, fume ignition and electrical shock. Contains no mercury, a "Persistent Toxic Substance" listed as a health hazard. CE rated. Float switch installs independently or directly onto the rear slots of the V-Series pump bracket. Features a convenient test knob to test pump operation.

ORDER NO.	Mfr. No.	Description

Johnson Pump®

AUTOMATIC FLOAT SWITCH

FOR A BETTER AND SAFER LIFE AFLOAT!
For full automatic bilge pumping operation, connect the automatic switch to your bilge pump. The AS888 has a time proven micro switch without mercury. When water exceeds the acceptable level, the pump is turned on by a rolling steel ball, which changes the pressure on the micro switch.

- Can be mounted to all Johnson Pump submersible bilge pumps through the clip-on "T-slot" & can be used with 6, 12, 24, or 32 Volt systems
- Non-clogging switch
- No false starts
- Saltwater tough
- Easy to clean
- Pre-wired for manual override
- Universal mounting plate
- Max Amp: 15 A

ELECTRONIC FLOAT SWITCH

The Electronic Float Switch is built on the same concept as the switch on Cartridge Duo. As a separate accessory it is possible to attach the switch to all pumps in Johnson Pump L- Series.

- 12 Volt
- Can be mounted to all Johnson Pump submersible bilge pumps
- Can be used with 6, 12, 24, or 32 Volt systems
- Non clogging switch
- No false starts
- Saltwater tough
- Easy to clean
- Pre-wired for manual override
- Universal mounting plate
- Max Amp: 15 A

GENERAL PURPOSE CENTRIFUGAL PUMPS

The Rule General Purpose Pump is designed for use as a washdown pump and/or to circulate water to your livewell tank(s). Heavy duty construction for use on commercial or pleasure boats. 1-1/2" (38mm) discharge outlet. This pump must be mounted below the waterline. It does not deliver high pressure, nor is it self-priming. It delivers lots of water but at low pressure. 12 volts DC. Non-Automatic.

WATERBUSTER® PORTABLE PUMP

This patented, submersible pump is a great way to remove unwanted water from boats, pool covers, aquariums and sump pits. Convenient and safe because it needs no electrical cord – runs up to 5 hours on three alkaline "D" batteries. Excellent for use as a portable pump-out device for paddle boats, inflatables, duck boats, dinghies and kayaks. Any craft that lacks a hard-wire, permanent electrical system.

- Pumps up to 200 gallons per hour
- Includes 42" hose with garden hose adapter for adding longer hose
- Lifts water to height of 40"
- 6-3/8" High x 5-1/4" Diameter

Note: Not to be used as a permanent bilge pump.

ORDER NO. 104-41400 Mfr. No. 4140-4

BILGE PUMP INSTALLATION KIT FOR ¾" ID

Complete kit to install manual bilge pump with ¾" ID hose outlet.

Includes:

- One 2-way On/Off switch with bezel plate
- One ¾" ID x 5' corrugated hose
- One thru-hull fitting for ¾" ID hose
- Two Snap-It hose clamps
- One two-conductor 16 gauge wire, 20' long
- One in-line fuse holder with 2-amp fuse

Caution: Bilge pump switches are not external ignition protected.

DOMETIC OUTDOOR

REMOTE BULKHEAD FITTINGS

These remote bulkhead fittings offer boaters a simple solution to cleanly route hoses through the hull while maintaining safety & aesthetics. Available in both single or dual hose applications for ultimate customization. Stainless steel options provide cleaner styling & corrosion resistance while blending in with your boat's stainless trim.

KEY BENEFITS

- Field installable series of products reduces the amount of stocking hose SKUs by allowing the user to install these on a standard hose kit
- Split grommet design allows for easy installation onto a hose assembly
- Increased inner diameter of plastic base plate simplifies fitting installation by allowing crimped hose fitting to pass through the base plate
- Stainless steel cover plates available for both single and dual applications provide cost effective cosmetic upgrade

TH MARINE

CEACAP™ BULKHEAD PASS-THRU FITTING

- Watertight seal for cables, tubing or wires
- Self-attaching - no hardware needed
- Turn down washer included
- Fits 3/4" hole - slot is 1/4" dia.

ORDER NO.	Mfr. No.	Description
205-99010	TH-CC-1-DP	Black
205-99011	TH-CC-2-DP	White
205-96101	UG-1-DP	Grommet

Size: 3-3/8"OD, Max Hole Size: 2-3/8"

FLOW-MAX™ BALL SCUPPER

- Replaces worn out flapper scuppers.
- 70% more drainage than competitive models.
- New twist-off feature for clearing debris.
- Retrofits all hole patterns.
- Stainless steel lock screw for safety.
- Seal slotted to fit over 1-1/4" motorwell tube.
- Large 1-1/8" drain
- Meets all ABYC specs.

ORDER NO.	Mfr. No.	Colour
205-11010	FMS-1-0-DP	Clear

DOUBLE BARB INLINE SCUPPER

- Prevents backwash
- Chemical resistant material
- Thermo-plastic flapper
- Black

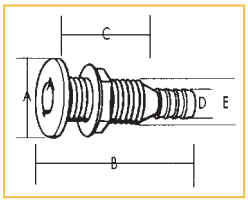
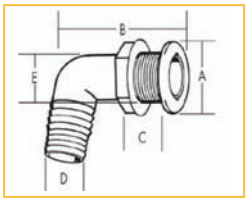
Replaces Detmar Thru-Hull Connectors





For more information see: www.thmarine.com

A Lifetime of Stainless Performance!

Polish your image with these beautiful, durable stainless steel fittings. Each Thru-Hull and Scupper Valve is available with a new silicone gasket and are backed by Attwood's trusted Lifetime Warranty! Why specify plastic parts when these fittings will last the life of the boat?

- Rugged stainless construction - #316 stainless steel alloy
- Solid silicone watertight gasket - will not deteriorate or shrink over time
- Faster, simpler installation - Barbed tail ends provide plenty of room to hold multiple clamps

STAINLESS STEEL STRAIGHT THRU-HULL CONNECTORS - BARBED

- Two lengths are available. The Standard model has full length thread for thick hulls for easy tightening. The Short thread is a more compact size. Allows installation near corners and in confined areas.
- Stainless steel thru-hull connectors are designed for installation above the waterline only

ORDER NO.	Mfr. No.	Description / Hose ID
106-66540	66540-3	Connectors Short - 5/8
106-66541	66541-3	Connectors Short - 3/4"

STAINLESS STEEL SCUPPER VALVE - BARBED

Good Looks and Stainless Durability!

- The Scupper Flap is tough neoprene rubber with a molded V-groove to reduce backwash.
- Fasteners are concealed and corrosion resistant.
- Stainless steel scupper valves are designed for installation above the waterline only

ORDER NO.	Mfr. No.	Description
106-66553	66553-3	Scupper - 1-1/2" Hose ID

THRU-HULL FITTINGS

Durable nylon plastic fittings suitable for exhausting water from bilge pump or other sources. Ranges of styles and sizes to meet every requirement.

THRU-HULL CONNECTOR WITH STRAINER

Accommodates 3/4" I.D. hose. Thru-hull connector with strainer prevents debris from entering and clogging the aerator pump. Strainer attaches to threads that extend beyond external retaining nut. Tough acetal construction.

- Maximum hull thickness: 1-7/16"
- Designed for installation above the waterline only
- Installation hole size: 1-1/16" to 1-1/8" diameter

Caution: Do not use strainer as a thru-hull connector nut replacement

ORDER NO. 103-38860

Mfr. No. 3886-3

REPLACEMENT STRAINER ONLY

ORDER NO. 103-38850

Mfr. No. 3885-3

STRAIGHT HOSE CONNECTOR

Barbed end accommodates 3/4" I.D. hose. Threaded end fits TSUNAMI Series Threaded outlet Acetal construction.

ORDER NO. 103-38990

Mfr. No. 3899-3

90° HOSE-TO-BARB CONNECTOR

for 3/4" I.D. hose

Barbed end fits 3888 drain fitting or A-series aerator pump outlets and TSUNAMI Series threaded outlet. Acetal construction.

ORDER NO. 103-38900

Mfr. No. 3890-3

4" THRU-HULL CONNECTOR

for 3/4" I.D. hose; White

Thru-hull connector with 4" stem length for thicker transoms or hulls. Made with durable thermoplastic construction which prevents electrolysis.

- Max. Hull thickness: 2"
- Installation hole size: 1-1/16" to 1-1/8" dia.
- Flange diameter: 2"

ORDER NO. 103-38960

ELECTRIC BILGE PUMPS

FULLY AUTOMATIC BILGE PUMPS NARROW LOW PROFILE

SUPERSUB SMART

High Capacity

Fits Deep In The Bilge Where Other Pumps Can't Reach

- Integrated Intelligent Control Sensor Switch for automatic operation Field Sensor Technology
- No separate bilge switch required
- Retrofitable - now with angled mounting bracket to aid installation**
- Unaffected by wave motion - optimized on/off timings prevent run on
- Environmentally friendly - mercury free
- Includes manual override facility
- Solid state switching - no moving parts
- Suitable for use with fresh or salt water
- Conforms to ISO 8849 & ISO 15083
- Ignition protected per ABYC & USCG standards
- NMMA type accepted

New Improved Design

897-52120

897-12120

- Built in non-return valve & stepped port
- Rotates to suit your installation
- Integrated bleed ball prevents airlocks
- Easy clean unique strainer
- Straight forward installation Multi-position pump head & body

GULPER® 320

Easy Access Remote Mount Bilge
For Protection & Easy Inspection

No clog, no filter waste pump built on more than a decade of market leading pump technology

CE

Easy Access & Product Protection

- Meets requirements for primary bilge pump for boats up to 12 m (39.4 ft.)
- Ideal where bilge space is limited
- Long life high, dry & protected
- ISO15083 Marine standard suitable as a primary bilge pump (for vessels up to 12m) or secondary bilge pump in accordance with ISO8849.
- Ignition protection ISO8846

- **Easy Maintenance -** Non-choke valves, no filter to block or clean
- **Ezi-clamp -** Twist & single screw to secure
- **Securing Strap -** Ensures pump remains in place in harsh marine conditions
- **Secure -** Three feet design - only 3 screws required
- **Reliability -** Double outlet valves to continuous flow
- **Simple Plumbing -** Barbed connections 19 mm (3/4") or 25 mm (1") hose size
- **Installation -** Multi directional head rotates 360° for convenient installation

MANUAL BILGE PUMPS - Gusher® Range *Tough & Lightweight Polypropylene Models*

Gusher® 10

The Original Bilge Pump Choice for Sailors in Extreme Conditions
Robust Design stands up to the Toughest Marine Conditions

- Ideal for workboats, cruisers, offshore racing
- Designed for simple installation & maintenance
- Efficiency: Large high flow non-choke valves
- Typical Uses: Bilge pump out, holding tank pump out
- Easy pump action - Self priming, easy grip handle
- Durability: Long life LM6 diecast alloy
- Mounting Options: (deck, bulkhead, thru deck)

MANUAL BILGE PUMPS - Low Profile - Compact Range

Compac 50

Low Profile Under Deck Bilge Pump

- Designed for confined spaces where you have limited space to fit your pump
- Compact design easily installed in tight bilge spaces where other pumps simply cannot fit
- Tough, proven, reliable design
- Includes sleek Whale deck plate with cover
- 120 mm (4-3/4") deep for low profile installation underdeck
- Clamp ring easily removed for head rotation & quick maintenance
- Suitable for pumping bilge water and diesel

It is important to ensure that a vented anti-syphon loop is incorporated in the system

GUZZLER HAND PUMPS

Use Guzzler hand pumps to dewater bilges, or any place emergency pumping is required. Rugged construction of Dupont Delrin, with reinforced diaghragm and flapper valves make Guzzlers impervious to many fuel oils, solvents and detergents. They will even handle small stones and slurry without hampering use. Guzzler 400 uses 1" hose - Guzzler 500 uses 1-1/2" hose.

AMAZON UNIVERSAL

For mounting on bulkhead, through bulkhead, on deck, or through deck (with optional through deck kit). Readily achievable 22 gallons/min output

Features:

- Unique safety feature allows operation from both inside and outside the cabin (with optional Through deck kit)
- Flow rate of up to 25 gpm
- Self-priming up to 10 ft
- Push-fit inlet and outlet elbows swivel through 360° to increase flexibility of installation
- Corrosion resistant materials throughout
- Quick release clamp ring gives fast access for blockage clearance
- 1-1/2" ports give excellent solids handling ability for use with holding tanks
- Stainless steel handle supplied with mounting clips and provision for safety lanyard
- Dimensions: 9-1/2"W x 9-1/2"H x 6" D
- Connections for 1-1/2" ID hose

2840 SERIES - 4.5 GPM
WATER BOOSTER SYSTEM
HIGH VOLUME

Typical uses include applications where available water pressure is very low, and fluctuates widely. Kit consists of a 12V Quad MPU, 4.5 GPM, SW40, 0.77 gallon capacity accumulator tank, plastic mounting board, and pump inlet strainer.

- Volts: 12 VDC
- Fully automatic w/ built-in strainer, pressure switch and check valve
- Provides smooth flow
- Pressure Switch Setting: 40 psi (0.7 to 2.7 bar)
- Flow Rate: 4.5 GPM (17 Liters/Min)
- Max. Flow Rate: 4.5 GPM @ 10PSI (0.7 bar)
- Integrated pump and tank system
- May be mounted vertically or horizontally
- Port Type: 1/2" hose barb
- Easy installation requires only that the water lines be connected, and the power cord plugged in.

Par-Max™ Series

MARINE FRESHWATER DELIVERY PUMPS

Jabsco's updated and improved lineup of freshwater supply pumps are designed to provide years of satisfactory service in applications both large and small.

HD (Heavy Duty) models include a wider diameter motor with a powder coated shell, cast aluminum endbells and lower housing to improve pressure capability and life. Available in configurations up to 6 GPM (23 LPM) and 60 PSI (4.1 BAR), these pumps deliver exceptional performance.
Standard models provide good performance in an economical footprint. These configurations are available in 1-3 GPM, perfect for vessels with 1-3 outlets. A plastic housing protects the motors on these units from corrosion.

Features and Benefits:

- Co-molded diaphragm technology for long life & durability
- HD models feature heavy duty, motors & cast aluminum lower housings which allow for long-life, even at high pressures
- Integrated, sealed pressure switch for on-demand operation
- Self-priming allows for installation versatility
- Efficient & quiet operation
- Can run dry without damage
- Quick connect ports for ease of installation, servicing, & maintenance
- Vibration dampening mounting feet
- Equipped with integrated bypass module to reduce cycling & provide smoother flow

a xylem brand

PAR 36800-SERIES

Two well established and service-proven pumps for larger boats.
Both designed specifically to supply a reliable, smooth and steady flow of water for up to four fixtures.

Features include: Run dry capability; belt drive and flexible mounts for low noise; built-in check valve protection against city water pressure (automatic switch maintains 39 psi. pressure); pulsation dampeners to absorb water hammer; battery conserving low amperage motors; and ports sized to take 1/2"-5/8" ID hose.

Can be used in salt water systems for galley rinse water and deck and anchor washdown.

	OPEN FLOW			AMPS/	DIMENSIONS-in (mm)

36800-1000	3.3	12.5	12 Vdc	6/8	8-3/8(213)	6-1/2 (165)	9-7/8 (251)

PAR 36950-SERIES

A popular pump for boats with two or three fixtures.
A dependable, low maintenance pump able to run dry extended periods.
Smooth belt drive and flexible mounts aid noise reduction. Pump protected against city water pressure by built-in check valve. Pulsation dampeners absorb water hammer and give smooth flow to fixtures. Low amperage motors conserve battery power.
Ports fit 1/2" - 5/8" hose.

This pump can be used in salt water systems for deck and anchor washdown, and galley rinse water.

	OPEN FLOW			AMPS/	DIMENSIONS-in (mm)

ULTRA MAX WATER PRESSURE SET

A fully assembled pressure set that simplifies the installation of water pressure systems for both the professional and amateur installer.
The set consists of a PAR-Max pump, strainer and pre-pressurized accumulator tank with quick connect electrical connections on a rubber mounted board.
Serves 3 or more 1/2" (13mm) outlets.

- Flow of 3.5 gpm (13.2 lpm).
- Self-priming up to 10ft (3m).
- Can be installed vertically or horizontally.
- Quadruple Diaphragms for smooth and quiet operation.
- Thermal overload protection automatically stops motor should it overheat due to overload, with auto re-start feature.
- Diaphragm design allows extended dry running.
- Pressure switch cut-in 20 psi (1.4 bar), cut-out 40 psi (2.8 bar) (59451-1012).
- Maintenance free potable water quality accumulator tank.
- Complies with USCG 183.410 and ISO 8846 MARINE (Ignition Protection).

Fitting: Connections for 1/2" (13mm) ID hose or 1/2" (15mm) Qest fittings.
Size: 15-1/2" long x 15-3/4" wide x 5-1/2" high (39cm x 40cm x 14cm).

ORDER NO.	Description
59451-1012	12 Volt DC model, fuse 10 amp, high pressure version

PUMPS WITH AC MOTORS CAN SPARK. EXPLOSION AND DEATH CAN OCCUR.
DO NOT USE WHERE FLAMMABLE VAPORS ARE PRESENT.
All DC voltage pumps shown above meet applicable ignition protection sections of the U.S. Coast Guard Electrical Regulations (Title 33, Chapter 1, Part 183, Subpart 1).

WASHDOWN PUMPS

JABSCO
a xylem brand

HotShot™ Series
MARINE WASHDOWN PUMPS

Years of clean decks and satisfaction in the form of robust and reliable high-flow and high-pressure diaphragm pumps.

The Jabsco legacy of exceptional products continues with this updated and improved lineup of washdown pumps and kits.

HD (Heavy Duty) models include a wider diameter motor with a powder coated shell, cast aluminum endbells and lower housing to improve pressure capability and life.

NEW!

Standard models provide exceptional performance in an economical footprint. A plastic housing protects the motors from corrosion.

FEATURES & BENEFITS:

- Co-molded diaphragm technology for long life and durability
- HD models feature heavy duty, motors and cast aluminum lower housings which allow for long-life, even at high pressures
- ••Integrated, sealed pressure switch for on-demand operation
- Efficient and quiet operation
- Self-priming allows for installation versatility
- Can run dry without damage
- Quick connect ports for ease of installation, servicing, and maintenance
- Vibration dampening mounting feet

WASHDOWN SPRAY NOZZLE

Combined with the PAR-MAX washdown pump, this disconnect nozzle has a multi-setting flow control for fine mist spray through to a power-cleaning blast output. Works well with both fresh and salt water. The quick-disconnect nozzle can be removed from the hose and used at another outlet, without turning off the pump. Also performs well with other pumps.

ORDER NO.	Description
30703-1000	Quick-disconect nozzle attaches to 3/4" GHT snap-in connector

DC PUMP FOR BILGE, DECKWASH & REFUELLING F38B-19 12VOLT

Perfect for bilge pumping, deckwash, water circulation, oil and diesel refuelling at dockside service, etc. These pumps may be combined with a vacuum switch for automatic operation. Capacities vary from 14 l/min to 55 l/min, allowing the proper matching of the pump to the application. All motors are heavy duty to provide long service life even under heavy use.

SHURflo®

MACERATOR PUMP - 12VDC

Designed specifically for sanitation waste and fish box evacuations. Features a premium impeller design with run-dry capability and includes our seamless shell motor with o-ring sealed end bells and a sealed manual turn key. The unique dual blade and housing construction ensure problem free pumping, providing superior performance in harsh marine environments. Thermally protected and ignition protected.
1 year warranty.

Pump Design:
Type: Centrifugal Pump (Flex-Impeller)
Liquid: 130˚F (54˚C) Max
Dry-Prime: 4 feet (1.21 m)
Run Dry: 20 seconds max

Electrical:
Motor: 12V DC Permanent Magnet, Intermittent Duty
Protection:Thermal Overload, Automatic Restart

CE

SHURflo®

Aqua King™

The Next Generation SHURflo pumps guarantee quiet operation and smooth performance while providing the ultimate in durability and reliability. Designed and built specifically for the harsh marine environment, the Next Generation SHURflo pumps are equipped with sealed switches and seamless e-coated motors. Thermally Protected. Ignition Protected. 3 Year Warranty

AQUA KING™ II STANDARD 3.0 FRESH WATER PUMP 12VDC

Shurflo's NEW 4138 Series fresh water pump design was created with a unique over-molded single-piece diaphragm and internal by-pass, assuring long life and top performance in all plumbing systems. Designed as the next legendary pump to exceed the expectations of our customers, the 4138 Series pumps are constructed for smooth flow and no rapid cycling. (Replaces model #3901)

- Sealed Switch
- Sealed Motor
- Corrosion Resistant Electro Coated Motor
- 4 Independent Chambers
- Built-in Check Valve
- Co-Molded Diaphragm
- Quiet running
- Adjustable Switch
- Adjustable By-Pass
- Self-Priming up to 6 feet
- Dry Run Capability
- Thermal Protected
- Ignition Protected, CE

AQUA KING™ II PREMIUM 4.0 FRESH WATER PUMP 12VDC

Designed for boats with multiple fixtures. These pumps provide "Just like Home" shower pressure, yet can operate at lower flow conditions with low cycling. A built in mechanical bypass function enables the pump to vary the flow rate for any on demand condition, without the need for an accumulator. This heavy duty motor is built to withstand the marine environment with electro-coated seamless shell, O-ring sealed end bells, and fully sealed wire entries on the motor shell and pressure switch. Pumps can run dry without damage. Inlet strainer and 1/2" NPS-M hose barb fittings included.

- Self-Priming

PRESSURE REGULATED WALL MOUNT CITY WATER ENTRIES

This combination water regulator and check valve diaphragm design prevents high-pressure damage often caused by city water systems. Leak-tight, stress & crack-resistant, these high-performance water entries limit water pressure safely to 65 PSI while meeting or surpassing all check valve code requirements. **1 Year Warranty**

- Quick, permanent wall mount
- Continuous protection from high pressure surges
- Fits standard hose fittings
- Built-in check valve

Fitting: Choose connections for 3/8", 1/2", 3/4" ID hose, or 1/2"-14 pipe.
Size: 4-3/4" long x 2-3/4" wide x 2-1/2" high (12cm x 7cm x 6cm).

WATER PRESSURE REGULATORS

Water Pressure Regulators protect your boat's water system from damaging pressures of unregulated city water hook-ups. Available in two models – permanently installed flush mount or in-line. Both feature brass GHT fittings for potable garden hose connection.

- Limits inlet water pressure to 45 psi (3.1 bar)
- Maintains regulated pressure at various flow rates
- Compact in-line model only 3" long
- Flush model has unique swivel elbow output
- Manufactured of food-grade materials
- Meets all applicable codes and approvals
- Removable strainer on 44412 models protects plumbing

ORDER NO.	Description	Fitting
44411-0045	In-Line – White (strainer not included)	3/4" GHT female inlet and 3/4" GHT male outlet

SWIM 'n' RINSE TRANSOM SHOWER

Hot & Cold Mixer - Cover Included

The classic design in deck showers for easy washdown on the transom after swimming. Simply swim & rinse without wasting water

Save water on board
- Simply use the hot and cold controls - Mix perfect temperature then close the rose handset to conserve water supply during showering

Lightweight & durable ABS exterior shower range
- Add a touch of luxury on board.

- Designed for easy rinse down after swimming
- Fit in convenient locations on deck - extra long 2.1 m (7 ft.) hose
- Save water on board - on/off control on shower handset allows you to set temperature and only use the water you need
- Robust ABS housing is designed and tested to withstand extreme marine conditions - long life UV resistant
- Easy use controls even with soapy hands - to set ideal temperature
- Neat hinged cover with latch to close
- White high shine finish matches the gel coat
- Sleek cover - for a neat finish on deck
- Lightweight handset will not damage the gel coat if dropped on deck
- Simple connection to either Quick connect 15 mm pipework / 1/2" hose connection

Hot & Cold Mixer	Swim 'n' Rinse

Note: ONLY suitable for pressure systems up to 45 psi/3 bar

ELEGANCE SWIVELING FAUCET RANGE

Ideal for installation where space is limited.

Lightweight & Durable ABS faucets/showers
Ideal for tight spaces

- Water saving rose allows temporary shut-off - mix temperature & conserve water
- Separate temperature controls for easy mixing to the right temperature
- Ergonomic easy grip controls
- Suitable for connecting to 3/8"/1/2" hose or easily to Whale's Quick Connect 15mm pipework
- Only suitable for pressure systems up to 45 psi/3 bar
- Compact design - Straight forward installation where space is limited
- Standard connections - 1/2" hose connections, also suitable for Whale Quick Connect 15mm plumbing

Robust ABS Construction

- Designed for use with all types of galley pumps
- Easily connects to Whale Quick Connect 15mm pipework
- Connects to 3/8" or 1/2" hose connections
- 1 year warranty

FLIPPER PUMP Mk 4

Manual Freshwater

Simple hand operated solution for pumping water in the galley!

Manual Self-Priming Galley Pump

- Ideal for installing between two sinks - swivelling outlet
- Precise flow control
- Easy operation - Light back & forth pump action
- Robust moulded base
- High quality non corrosion aluminum alloy outlet
- 7 liter capacity (1.85 US gals) per minute
- Fine flow control
- Suitable for fresh or saltwater

Galley Pump	FLIPPER PUMP Mk 4
ORDER NO.	**897-04180**
Mfr. No.	GP0418
Hose Connections	Suitable for 13 mm (1/2") Flexible Hose
Weight	0.30 kg (0.71 lbs.)
Materials	Pump Body: Acetal, Nylon, Polystyrene, Polypropylene LM6 Aluminum Alloy, Brass Seals: Neoprene, Nitrile®, ABS Fasteners: Stainless Steel
Service Kit	AK0405 **ORDER NO. 897-04050** For Flipper Mk 3 & Mk 4 Models Contains: Diaphragm, Seals, Screws AS0406 - Flipper Overhaul Kit
Max. Suction Lift	3 m (10 ft.)
Max. Discharge Head	3 m (10 ft.)
Max. Output per Minute	7 liters (1.85 US gals)

Note: Not for use in pressurized systems

GUSHER® GALLEY

Manual Freshwater

The simple solution for fresh water delivery in small galleys

Simple Foot Operated Solution for Pumping Water in the Galley

- Smooth double action
- Self-primes & operates dry without damage
- Easy, smooth hands-free operation
- Ease of installation - Multi-directional inlet & outlet hose connections
- 3 mounting options (including thru bulkhead)
- Easy to operate foot pedal
- Enclosed protected diaphragm
- Hard wearing acetal pump housing
- Also ideally used to prime Whale In-Line Booster pumps
- Pumps fresh & salt water
- 15 liters (4 US gals) per minute
- Left and right oriented foot lever versions available

Note: Left lever mount version shown

POTABLE WATER PUMP

This economical compact pump delivers drinking water from a water tank to the 106-61420 Three Way Faucet Hand/Pump. Seal allows it to run dry without damage.
Made from high-impact plastic. Patented. IAPMO inlet and outlet have combination fittings: 3/8" barbs can be removed to accommodate 1/4" NPT fitting.
Potable Water Pump is not activated by line pressure.
Pump is non-submersible.
Note: Mount centrifugal pump so water will flow into the pump.
Caution: Not external ignition protected.

ORDER NO.	Mfr. No.	Inlet/Outlet Size	GPH	Max. Head	Amp Draw	Fuse Size
106-61260	6126-7	3/8" barb, or convert to 1/4"NPT	150	16'	1.5	2-amp

CHECK-TEES

These check-tees provide a combination check valve and tee that replaces additional connections for RV and marine hookups. Check-tees allow water to flow in from the dockside connection without filling the tank. They are constructed of tough ABS plastic.

Combination Inlet / Threaded Outlet
Inlet has combination fitting: comes with 3/8" barbs that can be removed to accommodate 1/4" NPT fitting. Outlet is 1/2" NPSM. 1/2" NPT fitting for dockside water connection.

Mfr. No. 6115A1
ORDER NO. 106-61151

Combination Fittings
Inlet and outlet have combination fittings: comes with 3/8" barbs that can be removed to accommodate 1/4" NPT fitting. 1/2" NPT fitting for dockside water connection.

TastePURE™ EVO™ UNIVERSAL WATER FILTER WITH 5.0 WATER FILTER CARTRIDGE

Reduces bad taste, odors, sediment, bacteria, chlorine and much more. Includes filter housing, one extension hose and one replaceable premium spun polypropylene filter cartridge. Filtration begins with water traveling through a porous shell with openings no greater than 5 microns in diameter. Filtered water then passes through a bed of KDF® and GAC (Granulated Activated Carbon) for further filtration and bacteria control. The result is fresh, clean, great tasting drinking water straight from your tap. Universal fits cartridges 9-3/4" to 10" Tall - 2-1/2" to 3" in diameter.

- Boating / RV / Camping
- Large capacity
- High flow
- Exterior use

Includes:
(1) EVO™ RV Water Filter Body
(1) 5.0 Micron Cartridge, (1) Wrench & (1) Extension hose

AQUA JET WATER PRESSURE SYSTEMS

The five chamber Aqua Jet WPS-series provides a reliable heart for small boat and recreational vehicle water pressure systems. Compared to conventional three or four-chamber diaphragm pumps, the Aqua Jet demonstrates dramatically lower noise & water pulsation characteristics. It is recommended to install the WPS-pumps with an accumulator tank. Aways use a PUMProtector™ inlet strainer before the pump intake.
These systems offer a smooth quiet operation & include BST & NPT connections & filter.
Made in the USA.

Johnson Pump®

AQUA JET FLOW MASTER 5.0 WATER PRESSURE SYSTEM

The Flow Master 5.0 is a five chamber positive displacement diaphragm pump that is an ideal choice for pressurizing water in a closed system such as that found in a boat or recreational vehicle. The digital controller automatically adjusts water flow as the demand is increased and decreased while maintaining a very smooth flow. The unique variable flow feature of the Flow Master pump allows the pump to be mounted without an accumulator tank and still maintain an even flow regardless if one or multiple taps are being used. Exclusive soft start feature of pump makes it virtually silent when low water flow is required. Stainless steel base plate and fasteners for corrosion resistance and the motor has built in thermal overload protection.
Comes standard with PUMProtector™ inlet strainer and multiple port options for most applications.

Specifications:

Dimensions	9.4"long x 8.22" wide x 4.49" high
Weight	4.5 Lbs.
Motor	WPS 5.0 - 150 W, 12Volt DC (with built-in thermal protection)
Body	Nylon/Polypropylene
Valves	Santoprene/EPDM
Diaphragm	Santoprene
Capacity	19L/min - 5 GPM
Cut-Off Pressure	3.5 bar/50 psi
Fuse size	15 A
Connection	3/8" NPT / hose 1/2", 1/2"NPT / hose 3/4", 1/2" - 14 NPSM 1/2" CTS

Mfr. No. 10-13329-103
ORDER NO. 101-33293

AQUA JET WASHDOWN/LIVEWELL PUMP KIT 5.2

Aqua Jets washdown pump kit makes it easy to add a washdown and livewell pump to any boat

AquaJet 5.2WD Pump Kit Includes:

- Max. Pressure 5 bar (70 psi) pump, 1/2" NPT/hose 3/4", 3/4" GHT550
- 500 GPH Twin Port livewell pump, inlet 3/4" NPT X 1" length
  Discharge livewell 3/4" straight or 90º hose
  Discharge WD 1/2" FNPT, 3/4" MNPT or 3/4" hose
- PUMProtector™ inlet strainer
- Spray nozzle
- Bulk head fitting with valve, - inlet 3/4" hose, outlet 3/4" GHT
- Aerator head, 3/4" hose
- 25' (7.5 m) of coiled wash down hose 3/4" GHT
- 2 illuminated panel switches

Mfr. No. 64634
ORDER NO. 106-64634 **(12V)**

WATER PRESSURE SYSTEM PUMP 1.1 GPM

Industrial, RV, Marine Agricultural Pump

- 12 Volt, Amps: 2.5
- Open Flow: 1 GPM, 3.8 lpm
- 35 PSI
- Duty Cycle: Intermittent
- Runs dry without damage
- Smooth Operation
- Self-Priming
- Silent Running
- Low Power Draw
- Easy connecting system 3/8" barb

Mfr. No. 10-22020-101
ORDER NO. 102-20201

DECK WASH FLUSH MOUNT

Single outlet, single flush

- 316 Stainless steel
- Connects and disconnects under full pressure
- Positive lock bayonet connector
- Double viton O-ring seals
- Large flow capacity
- Connections made of Nylon 66
- Garden Hose Connector

Mfr. No. JP-61121
ORDER NO. 106-61121

Johnson Pump®

AQUA JET WASHDOWN PUMP KIT WITH HOSE - 12V

Aqua Jets washdown pump kit makes it easy to add a washdown pump to any boat

- Quiet 5 chamber diaphragm pump design
- 5.2 GPM/20 l/min Wash Down Pump
- Max. Pressure 5 bar (70 psi)
- Duty Cycle: Intermittent, Max 20 min.
- Connection 3/8" BSP, 1/2" hose - 1/2"NPT, 3/4" hose - 3/4" GHT
- 25' Coiled hose (7.5 m), hose 1/2" I.D
- Includes easy-push connectors 3/4" hose & 3/4" GHT (garden hose)
- Suitable for fresh and salt water
- Can be run dry without damaging pump
- Corrosion resistant construction
- Self-priming
- With integrated auto pressure switch to turn on & off (When nozzle is open/closed)
- PUMProtector™ inlet strainer (Easy to push-in)
- Spray nozzle with pistol grip rear trigger design
- Unique adjustable flow control dial
- Ignition protected according to ISO8846

ORDER NO.	Mfr. No.	Description	Capacity
106-64534	64534	Aqua Jet Washdown Kit w/hose - **5.2 GPH**	20 l/min

WASHDOWN SPRAY PISTOL CONNECTOR W/ 25' HOSE

- Heavy duty plastic spray nozzle with pistol grip rear trigger design
- Durable 25' Coiled hose (7.5 m) (non-kink)
- True 1/2" inside hose diameter

Mfr. No. 10615-01

DECK WASH PUMP - 12 VDC 3.5 GPM

Ideal for cleaning leisure boats, fish boxes, anchor chains and dinghies.

4305 SERIES

- 5.0 GPM for 30-50 gal. tanks **w/Thermal Overload Protection**
- Flow Rate: 13.5 Liters/Min (3.5 US Gallon/Min)
- Pressure Switch Setting: 20 psi (1.4 bar)
- Max. Pressure: 40psi (2.8 bar)
- Self-priming up to (2.4m) vertical lift
- Amp Draw: 5.0 amp
- Port Type: 3/4" Hose & 3/4" Thread Included
- Includes Jabsco Pump Guard strainer
- Nozzle: NOT INCLUDED
- Dimensions: 8.6"L x 6.3"W x 3.75"H

ORDER NO.	Mfr. No.
430-51440	04305144A

QUAD DC WATER SYSTEM PUMP - 12 VDC 3.3 GPM

Ideal for cleaning leisure boats, fish boxes, anchor chains and dinghies.

4405 SERIES

- Four-piston design delivers high flow rates
- Flow Rate: 12.5 Liters/Min (3.3 US Gallon/Min)
- Pressure Switch Setting: 15 psi (1.1 bar)
- Self-priming up to (2.4m) vertical lift
- Amp Draw: 3.9 amp
- Port Type: 1/2" Hose & 1/2" Thread Included
- Includes quick-connect plug-in ports for easy installation
- Bypass: Included
- Pressure Switch: Included • Strainer: NOT INCLUDED
- Dimensions: 8.2"L x 6.3"W x 3.75"H

ORDER NO.	Mfr. No.
440-51430	04405143A

QUAD DC WATER SYSTEM PUMP - 12 VDC 4.5 GPM

ORDER NO.	Mfr. No.
432-51430	04325143A

4325 SERIES

- For use with a 1 to 5 gallon (3-20 liter) accumulator tank
- Designed for 6 or more fixtures
- Flow Rate: 4.5 GPM (17.0 l/min)
- Max. Pressure: 40psi
- Provides quiet operation and smooth flow
- Runs dry without harm to the pump
- Includes plug-in ports for easy installation - Two 3/4" hose barb ports
- Install with new FLOJET strainer (included) to protect pump from debris
- Dimensions: 9.9"L x 6.3"W x 3.75"H

Whale®

HI PRESSURE WASHDOWN KITS - 12 VOLT

- Smooth constant flow at high pressure:
- Easy-to-use trigger handset for targeted water flow
- Soft, non-slip trigger with deck protect nozzle, adjustable jet with push in fittings and dry coupling valve Easy stow 25' coiled hose
- Compact, kink resistant hose
- Elite kit includes unique 4 in 1 deck fitting
- Discreet deck fitting with sliding cover, featuring hose connection, IP65 rated switch & fuse for simple fast installation

ELITE KITS

ORDER NO.	Mfr. No.	Specifications
897-03517-E	WD3517E	3.5 GPM, 60psi, 13 litre/min
897-04517-E	WD4517E	4.5 GPM, 70psi, 17 litre/min

Elite Kits Include: Pump, Strainer, Adjustable Trigger w/ ergonomic handle & deck protect nozzle, (2) 1/2" Barbed Connections, 25' coil hose, storage bag & quick release hose connection, deck fitting w/ switch, fuse & sliding cover.

ACCUMULATOR TANKS

PRESSURIZED ACCUMULATOR TANK

A more compact pneumatic bladder to fit smaller systems and spaces

- Internal bladder
- Smoother and more even flow
- Quieter water system
- Better temperature control
- Long pump life
- Lower battery drain
- Simply fitted to new or existing systems
- Compact size
- Snap-in port fittings include both: 1/2" barbed hose fittings and 1/2" threaded hose fittings
- Tank: hygienic, light, compact, impact and pressure resistant plastic construction

1/2" Snap-in Barbed Hose Fittings

1/2" Threaded (QEST) Hose Fittings

Diameter: 4-3/4" (119mm)
Height: 13-1/4" (337m

ORDER NO.	Description
30573-0000	1 quart (1 litre) Accumulator Tank
30649-1000	Snap-in port fittings for 1/2" female threads

Bladder Accumulator Tank

Note: Pressure switch can be mounted on tank

MINI-ACCUMULATOR TANK

Improves all pressure controlled water systems. Our new compact 21 oz (0.6 Liter) accumulator tank fits into those tight areas, and performs all of the same functions as our 1 Quart model (1 Liter), but in a smaller package.

- Smoother flow, quieter water systems
- Internal rubber membrane eliminates maintenance and allows universal mounting
- Better control of hot water temperatures
- Simply fitted to new or existing systems
- Longer pump life, lower battery drain
- Snap-in port fittings

Specifications:
Size: 21 oz. (0.6 liter) 4-3/8" deep x 4-3/4" wide x 7" high (11cm x 12cm x 18cm)
Weight: 21 oz. (0.6 liter) 1lb (0.45 kg)
Fitting: Connections for 1/2" (13mm) ID hose,

ORDER NO.	Description
30573-0003	Mini Accumulator Tank, 21 oz. (0.6 Liter)
30649-1000	Snap-in port fittings for 1/2" female threads

PRESSURIZED LARGE ACCUMULATOR TANK

The Jabsco pneumatic accumulator tank will smooth flow from faucets and showers, reducing pump cycling and eliminating pulsations and water hammer. Water is totally separated from air chamber by a diaphragm and polypropylene tank liner.
Volume of tank is 2 gallons with a working water volume of about 1 gallon.

- Will smooth flow from faucets and shower, reducing pump cycling and eliminating pulsations and water hammer
- Water is totally separated from air chamber and metal tank by a bladder and polypropylene tank liner
- Mounts horizontally, vertically, or upside down
- Includes brackets and band clamps
- Pre-pressurised to 20 psi (1.4 bar)
- Tank may be fine-tuned to cut-in pressure of pump
- 2 gallon tank
- 100 psi (6.9 bar) maximum working pressure
- Connection for 3/4" NPT male thread

Diameter: 8" (200mm)
Height: 12-5/8" (320mm)
ORDER NO. 18810-0000

PAR-MAX 3 SHOWER DRAIN PUMP

New generation, long life fully serviceable shower drain pump.

- 3.5 gpm (13.2 lpm) at 3ft (1m) head.
- Self-priming up to 10ft (3m) allows mounting above wet bilges.
- Diaphragm design allows extended dry running.
- Continuous rated, heavy duty motor with waterproof coating for harsh bilge environments.
- Thermal overload protection automatically stops the motor if it overheats due to overloading, with auto re-start feature.
- Complies with USCG 183.410 and ISO 8846 MARINE (Ignition Protection).
- ISO 8849 MARINE (Bilge Pump Standard).
- Complete with Pumpgard.
- Oil resistant elastomers.

Fitting: Connections for 3/4"(19mm) ID hose.
Size: 7.7" long x 4.2" wide x 4.1" high (19.6cm x 10.6cm x 10cm).
Weight: 5.0 lb (2.1kg).

SHOWER DRAIN PUMP/ BILGE PUMP

Robust diaphragm pump suitable for shower and sink drain applications with a multi-positional pump head.

- 4.2 gpm (16 lpm) open flow output at 3ft (1m) head
- Self-priming up to 10ft (3m) vertical lift allows mounting above wet bilges
- Flexible Installation
- Compact and simple design
- Filter-less
- Quiet running
- Capable of extensive dry running
- Corrosion resistant parts
- Complies with USCG 183.410 and ISO 8846 MARINE (Ignition protection)
- ISO 8849 MARINE (Bilge Pump Standard)

Specifications:
Fitting: Connections for 3/4" (19mm) ID
Hose Size:
11.7"(29.7cm) long
x 5.9" (15cm) wide
x 4.4" (11.1cm) high
Weight: 6lb (2.7kg)

ORDER NO.	Mfr. No.	Description
50880-1000	50880-1000	12 Volt DC, Fuse 10 Amp

FLOJET
a xylem brand

QUAD II SHOWER DRAIN PUMP

Transfer pump for shower and grey water

- Flow Rate: Up to 3.3 US Gal/Min (12.5 Liters/Min
- Runs dry without damage to the pump
- Manual on/off switch or automatic level control may be connected to pump (Not Included)
- Includes plug-in ports for easy installation 2 1/2" hose barb ports
- Strainer, 3/4" Port Fittings (NOT INCLUDED)
- Amp Draw: 4.0
- Dimensions: 3.75"H x 6.3"W x 8.2"L

Note: Positive displacement pumps, like this one must be operated with an on/off switch. Do not shut off these pumps with a valve.

SHOWER SUMP PUMP/SHOWER DRAIN

SHOWER SUMP PUMP SYSTEMS

Larger Capacity, Improved Performance

Multiple inlets can be hooked up to more than one drain – Using different hose sizes

Attwood's two new shower sump systems deliver the performance you've been asking for:

- Choice of sizes and output performance
- Fast water flow into and out of sump
- The lid snaps in to allow quick installation and removal for cleaning
- The new lid includes a gasket to seal the sump box against overflow. Even includes an air vent to prevent air locks.
- Inlets are routed directly into the sump box instead of through a shared manifold, providing less restrictive water flow. Water is pumped out of the sump box by Attwood's proven Sahara pump with self-contained, super reliable, mercury free, float switch.
- Produces faster draining with less clogging and less-frequent cycling resulting in lower power drainage
- Installation is simple.

It all adds up - Attwood's new shower sump provides reliable performance, larger capacity, simpler installation and maintenance.

Standard Capacity, 500GPH

Large Capacity, 750GPH

ORDER NO.	Mfr. No.	Model No.	Rated Voltage	Fuse Size	Outlet Hose Size	Amp Draw	Box Size

MULTIPLE PORT SHOWER SUMP WITH ULTIMA SWITCH

Mercury Free with no moving parts

This compact shower sump pump system is designed to meet the higher demands from today's boating industry where more equipment is used. This also includes the fresh water systems onboard and involves shower, dish-washing machines, galley sinks, etc. The shower sump turns on/off automatically using the Ultima switch technology and has multiple inlet ports for handling waste water from more than one tapping point. Equipped with a check valve on the outlet which stops water flowing back into the tank. The tank has a tight-fitting lid to minimize splashing & odours. To further aid in cleaning, the system includes an easily removable mesh filter.

- Capacity: 972 GPH Straight (13.6 V): 61 l/min
- Capacity: 1.0m head (13.6 V): 844 GPH / 53 L/min
- Voltage: 12 V
- Amperage: 3.4 A / 2 A
- Fuse Size: 5 A / 3 A
- Intake Hose: 1 x 3/4", 1 x 3/4" or 1 x 1", 1 x 1-1/8" or 1 x 1-1/2"
- Discharge Hose: 3/4"
- Dimensions: 11.5" L X 8.26" W X 5.7" H
- Weight: 2.3 lbs.

Mercury free

GULPER® 320

High Capacity Waste Pump for Multiple Drains

Fast Drainage & Space Saving On Board
No clog, no filter waste pump built on more than a decade of market leading pump technology

Gulper Valve Technology handles Shower Waste from Multiple Drains

- Save space one pump can be used for multiple drains with a grey waste tank
- Long life - runs dry without damage
- Easy to install - including uneven surfaces
- Reliable operation - Self priming
- Ignition protection ISO8846
- CE marked

- **Easy Maintenance -** Non-choke valves, no filter to block or clean
- **Ezi-clamp -** Twist & single screw to secure
- **Securing Strap -** Ensures pump remains in place in harsh marine conditions
- **Secure -** Three feet design - only 3 screws required
- **Reliability -** Double outlet valves for continuous flow
- **Simple Plumbing -** Barbed connections 19 mm (3/4") or 25 mm (1") hose size
- **Installation -** Multi directional head rotates 360˚ for convenient installation

GULPER® 220

Gulper Valve Technology handles Shower Waste such as Hair & Gel
No clog, no filter waste pump built on more than a decade of market leading pump technology

Reliably Pumps Shower Waste

- Up to 14 liters (3.7 US Gals) per minute
- Will run dry without damage and pump a mixture of air and water
- Virtually non-choke valves - No filter to unblock
- Reliable operation - Self priming up to 3 m (10 ft.)
- Easy to install in confined spaces
- Double outlet valve ensuring continuous flow
- Multi directional head - for ease of installation
- Low power consumption
- CE marked
- Ignition protection ISO8846
- IP45 rated

- **Robust Housing -** Reliable, Marine Grade materials
- **Vibration Absorbing Rubber Feet**
- **Easy Maintenance -** Non-choke valves, no filter to block or clean
- **Double Outlet Valve for Continuous Flow**
- **Simple Plumbing**
  - Barbed connections 19 mm (3/4") or 25 mm (1") flexible hose
- **Straight forward Installation -** Multi directional head rotates 360˚for convenient installation

COMPACT SHOWER DRAIN / BILGE & WASTE WATER PUMP

Viking Power 16

Single - chamber, self priming diaphragm pump that can be set up in several different pump/motor configurations.

Features:

- Specially designed to pump waste water
- Easy to install, even in tight spaces
- Quiet operation
- Easy, low cost maintenance
- High-impact glass-fiber reinforced nylon body
- Ball-bearing supported transmission
- Non-choke valves - no filters required
- Self-priming up to 3 meters (9.8 feet)
- Can be run dry and can pump air/water mixture
- Robust single diaphragm
- KlickTite™ XL connectors standard
- 12 Volt
- Low power consumption
- Complies with ISO15083 and small craft bilge pump standard for vessels up to12 meters (39.4 ft)

CE Approved

Technical Specifications:

Capacity:	16 l/min (4.2 GPM) open flow (15 l/min at 0.1 bar)
Max. Head:	3 meters (9.8 feet)
Max. Lift:	3 meters (9.8 feet)
Max. Head & Lift:	4 meters (13.1 feet)
Dimensions:	186 mm - 7.32" long 235/181 mm - 9.25"/7.13" wide 118/204 mm - 4.65"/8.03" high
Connection:	KlickTite™ XL connectors for 1" hose or 3/4" hose and 1/2" NPT/1/2" - 14 NPSM threads; straight and 90º
Motor:	40 W at 1m head, 12 VDC (with built-in thermal protection)
Body:	Nylon glass-fiber reinforced
Valves:	Nitrile rubber
Diaphragm:	Reinforced nitrile rubber

ORDER NO. 101-13350

Mfr. No. 10-13350-03

VIKING POWER VACUUM

Viking Power Vacuum diaphragm pump has been designed to meet the rigorous demands of the world's leading manufacturers of boats, recreational vehicles and buses.

The Viking Power Vacuum has double check-valves and can therefore also be used in vacuum toilet systems. Naturally, pumping ordinary shower or sink drain water or bilge water is no problem for this pump. Like the Viking Power 16, this pump has been engineered with a ball-bearing supported transmission for long service life. The pump cannot only be run dry, it can also handle a mixture of air and water without difficulty. Although powered by an electric motor, this pump can also be cranked by hand in case of an emergency.

Features:

- Maximum flow 24 l/min
- Specifically engineered to pump black wastewater
- Uncompromising odour-prevention features
- Whisper quiet operation
- High-impact glass-fiber reinforced nylon body
- Ball-bearing supported transmission
- Non-choke valves – no waste shredding required
- Pump head rotatable 360˚
- Double check valves
- Self-priming up to 5 meters (16.4 feet)
- Can be run dry and can pump air/water mixture
- Electric motor with power-out, manual-crank backup
- Complies with ISO 15083 and small craft bilge pump standard for vessels up to12 meters (39.4 ft)

ORDER NO. 101-13373-07

Mfr. No. 10-13373-07

Technical Specifications:

Capacity:	24 l/min (6.3 GPM) open flow 22 l/min (5.8 GPM) at 0.1 bar
Max. Head:	4 meters (13.1 feet)
Max. Lift:	5 meters (16.4 feet)
Max. Head & Lift:	4 meters (13.1 feet)
Dimensions:	340 mm - 13.39" long 271 mm - 10.67" wide 192 mm - 7.56" high
Ports:	38 mm/1-1/2"
Motor:	3.3 amp (12V), 1.6 AMP (24V) at 0.1 bar, 12/24V DC (with built-in thermal protection)
Body:	Nylon
Valves:	Nitrile rubber
Diaphragm:	Reinforced nitrile rubber

MARINE SHOWERHEAD

Enjoy longer showers with this ergonomically designed, handheld showerhead. Convenient on/off switch allows you to pause the flow of water while shampooing, greatly reducing the amount water used. No more rushing through your shower to conserve water. Multi-featured showerhead allows you a choice of four spray patterns. From a drenching rain to a gentle massage, you can personalize your shower with your favorite comfort settings.

- Heavy-duty construction for years of use
- Produces 2.5 GPM with 40psi or 1.7GPM with 25psi at the water source

Convenient ON/OFF Switch

ORDER NO.	Mfr. No.	Description
668-43710	43710	Showerhead only, Chrome

WATER PUPPY

Heavy duty, continuously rated waste sump pump.
- 380 gph (1430 lph) output at 3m (10ft) total head.
- Self-priming up to 4ft (1.2m) vertical lift.
- Bilge debris presents no problem to this bronze bodied, flexible impeller pump.
- Simple design means fewer wearing parts - all user serviceable.
- Complies with USCG 183.410 and ISO 8846 MARINE (Ignition protection).
- ISO 8849 MARINE (Bilge Pump Standard).

Fitting: Connections for 1/2"NPT male threaded fittings, and for 1" (25mm) ID hose.
Size: 6-3/8" long x 4-3/4" wide x 3-1/2" high (16.2cm x 12cm x 8.9cm).

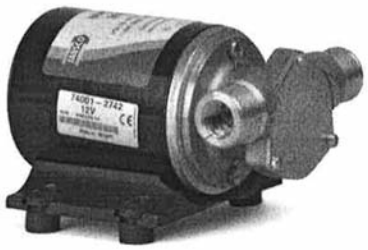
ORDER NO. 18660-0121
12 Volt dc model, fuse 15 amp
ORDER NO. 06303-0001-P
Replacement Impeller

COMMERCIAL DUTY WATER PUPPY

High flow, continuously rated bilge pump offering good discharge head.
- 470 gph (1770 lph) output at 10ft (3m) total head.
- Self-priming up to 8ft (2.4m) vertical lift.
- Bilge debris presents no problem to this bronze bodied, flexible impeller design.
- Simple design means fewer wearing parts - all user serviceable.
- Complies with USCG 183.410 and ISO 8846 MARINE (Ignition protection).
- ISO 8849 MARINE (Bilge Pump Standard).

Fitting: Connections for 1" (25mm) ID hose, or 1/2"NPT male threads. Do not use plumbing of less than 3/4" (19 mm) internal diameter.
Size: 7-1/8" long x 4-3/4" wide x 3-1/2" high (18.1cm x 12cm x 8.9cm).

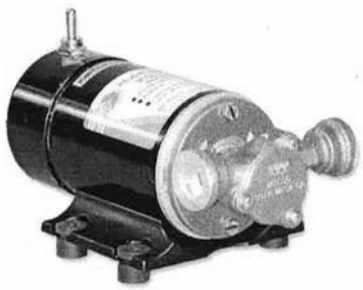
ORDER NO. 18670-0123
12 Volt dc model, fuse 15 amp
ORDER NO. 06303-0003-P - Replacement Impeller



MINI PUPPY 12V

Use for bilge pumping, livewell circulation, washdown and general pumping requirements. When bilge water contains significant amounts of oil, use impeller No. 14750-0003-P. For intermittent duty, motor may be reversed.* With a wet impeller, pump will produce a suction lift of about 4 feet (1,2m) and a lift to 15 feet (5m) when primed.
BE SURE SUCTION LINES ARE AIRTIGHT.
Flow Rate: 1.8 GPM (6.8 LPM)
Body: Bronze
Ports: 3/8" Pipe Thread Internal Plus an adaptor for 3/4" Garden Hose thread
Size: 3-3/8"H x 6-3/4"L x 3-3/4"W
ORDER NO. 08860-0001

ORDER NO. 14750-0001 - Replacement Neoprene Impeller



REVERSIBLE MINI PUPPY PUMP

Use for circulating and draining bait tank, engine oil changing or general pumping requirements. With a wet impeller, pump will produce a suction lift of about 3 to 4 feet (0.9 to 1.2m) and a lift of about 10 feet (3m) when primed. BE SURE SUCTION LINES ARE AIRTIGHT.
Flow Rate: 1.8 GPM (6.8 LPM)
Body: Bronze
Ports: 3/4" Garden Hose External
Size: 3-3/8"H x 8-5/8"L x 4"W
ORDER NO. 18620-0003

ORDER NO. 14750-0003-P - Replacement Nitrile Impeller

JABSCO
a xylem brand

FLEXIBLE IMPELLER AC MOTOR PUMP UNITS

Jabsco bronze AC motor pump units are similar to the popular Puppy pumps but are equipped with AC electric motors. They are ideal for dockside general purpose pumping and some onboard applications. With four models available offering flows from 3-1/2 to 26 GPM, there is a Jabsco pump suitable for almost any de-watering, washdown or circulation application. They are self-priming and portable making them very versatile.

12210-Series

The 12210-Series pumps are the most compact of the AC motor pump units. They are capable of delivering up to 3-1/2 GPM. The motor has replaceable brushes for extended life. However, they are not rated for continuous duty operation.

The 11810-Series pumps are mid-range models which deliver about 9.5 GPM respectively. They have a replaceable wearplate to extend serviceability when handling abrasive fluids.

The 06050-0003 pump is the largest of the motor pump units. With a capacity of 26 GPM, it is ideal for the larger de-watering or washdown applications. The motor can be wired for either 115 volt or 230 volt operation.

6050-Series

ORDER NO.	GPM* (L/min.)**	Voltage	Motor HP	Duty Cycle	Int.	Ext.	Impeller	Dimensions in (mm) Height	Width	Length(mm)	Weight Lb (kg)

FLEXIBLE IMPELLER PEDESTAL PUMPS

FOR ENGINE COOLING & GENERAL PURPOSE PUMPING

Jabsco pedestal mount corrosion resistant bronze pumps are ideal for engine cooling, washdown, circulation and many general purpose on-board or dockside applications.
The bronze or stainless steel shaft is installed with permanently lubricated ball bearings for long life and heavy duty service. Self-priming with the ability to operate in either direction at variable speeds. Capacities range from 3 GPM (11 LPM) to 83 GPM (314 LPM) with various port configurations and sizes. Most models have replaceable cams and wearplates for extended product life. Removable end cover for easy impeller service. The standard impeller for these pump models is neoprene with some having alternative oil resistant nitrile impeller available.*

Capacities shown are at 1750 RPM, 10 ft (3m) head.
Impellers listed for service reference only.

3.7 GPM (14 LPM); 1/4" NPT port connections;
3/8" (9.7mm) dia. shaft; full cam and lip seal.

CRUSADER - TYPE

The Jabsco Crusader type pump is a direct replacement for the stock Crusader (Thermo Electron) pump no. 97179 and (Sherwood No. E-35) sold through Crusader dealers. It fits most pre-1993 Crusader engine models, accepts the Crusader drive pulley and bolts directly to the stock mounting bracket. It has a replaceable wearplate and the seal can generally be replaced without even removing the pump shaft. The impeller will fit either the stock Crusader pump or the upgraded Jabsco model.

**These models may be ordered equipped with nitrile impellers by inserting a 3 in the last digit of the model number in place of the 1.*

MERCRUISER - TYPE

The Jabsco Mercruiser type replacement pump has a one piece bronze body and bronze end-plate and cast iron composite pump (Quicksilver model No. 46-72774-A32) supplied as original equipment. It has a replaceable cam and wearplate so it can be totally overhauled. The long-life Jabsco impeller fits both the stock MerCruiser pump and Jabsco aftermarket pump and is supplied with the gaskets needed to complete the impeller replacement.

ORDER NO. 43210-0001

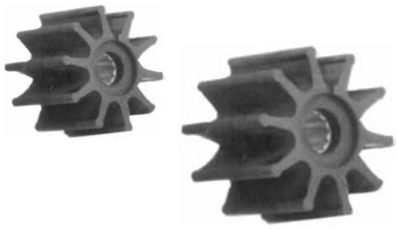
IMPELLER CROSS REFERENCE



Replacement impellers from the inventors of the flexible impeller pump.
The following Cross Reference illustrates Jabsco impellers that are interchangeable with other brand products. The recommended Jabsco impeller will serve as a direct replacement for the indicated other variety. It will produce the same required flow rate but also will provide the quality and long-life expected from a genuine Jabsco impeller.

SPECIAL ORDER ITEM

FLEXIBLE IMPELLER REMOVAL TOOL

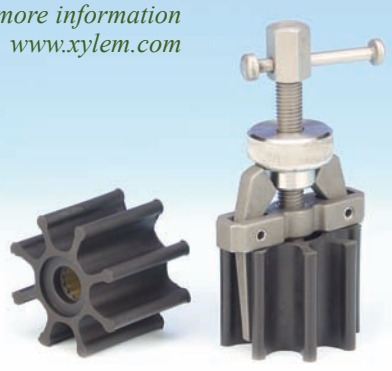
The Flexible Impeller Removal Tool is the easiest way to remove impellers, especially when the pump is mounted in tight and cramped conditions.

- Simple three stage operation easily removes the impeller.
- Removes the risk of expensive damage to the pump.
- Manufactured from corrosion resistant cast aluminum and stainless steel.
- Two models fit all impellers.

Size: 15cm wide x 2cm deep x 20cm high max (6" x 1" x 8")
Weight: 0.5kg (1.1lb)

ORDER NO.	Description
50070-0040	Suitable for impellers up to 65mm (2-1/2") diameter
50070-0080	Compact Version - Suitable for impellers up to 2-1/4" diameter
50070-0200	Suitable for impellers from 65mm (2-1/2") to 118mm (4-1/2") diameter

For more information see: www.xylem.com



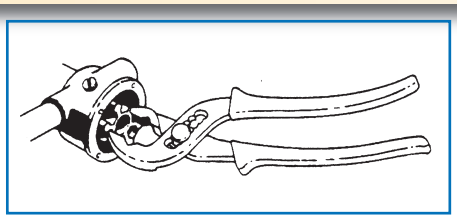
IMPELLER IDENTIFICATION GUIDE - Impellers shown are actual size. **See Page 927 for Conversion**

TAKE GOOD CARE OF THE COOLING SYSTEM
CHANGE TO A NEW IMPELLER EVERY YEAR

The impeller is a very important security device. Its task is to pump the water through the cooling system of the engine. But remember that the impeller should be replaced every year. And always make sure you get a Johnson Pump original impeller. Then you will know that it matches your pump exactly.

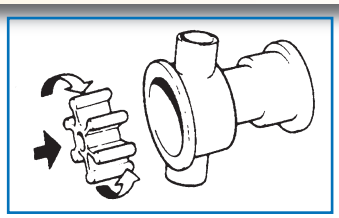
THIS IS HOW TO REMOVE THE OLD IMPELLER

Remove the impeller with a slip joint plier.



THIS IS HOW TO FIT THE NEW IMPELLER

Lubricate the shaft and the inside of the pump body and end cover. Use soap, grease or oil. By doing so you avoid dry friction when you start the engine. Mount the impeller by making a pushing and twisting movement in the rotating direction.



Change to a new impeller every year. It's just as important as changing oil and fuel filter.
The impellers are illustrated in full scale which means that you can identify your impeller without knowing the part number.

MC97 & Neoprene for cooling, Nitrile - Oil resistant

CHANGE TO A NEW IMPELLER EVERY YEAR. IT'S JUST AS IMPORTANT AS CHANGING OIL AND FUEL FILTER. THE IMPELLERS ARE ILLUSTRATED IN FULL SCALE WHICH MEANS THAT YOU CAN IDENTIFY YOUR IMPELLER WITHOUT KNOWING THE PART NUMBER.

MC97 & Neoprene - for cooling.
Nitrile - oil resistant

IMPELLERS

- Always use Johnson Pump impellers
- Nitrile, oil resistant, diesel and oil only, not gasoline or any light petrochemicals/fuels due to combustion
- Gasoline is never pumped with ANY of our pumps
- Neoprene, for cooling. Do not use with Diesel or oil due to swelling issues
- MC97, for ultra ballast this helps with flexing and reverse.....all around good impeller for cooling purposes, water applications

For more information see: www.spxflow.com/johnson-pump-marine

Johnson Pump®

IMPELLERS

The impeller is the heart of the flexible impeller pump design. Specially formulated rubber compounds have been developed to ensure long impeller life as each blade is bending 1750 times a minute or more. Johnson Pump molds all impellers in their own molding facility to maintain high quality standards. That's why so many engine manufacturers choose Johnson as standard OEM equipment. While Johnson has impellers available to fit its OEM pumps, many Johnson Pump impellers interchange with Jabsco impellers.

JOHNSON PUMP SPARE IMPELLERS
Interchangeable with Jabsco

OIL CHANGE F3B-19 PUMP FLEXIBLE IMPELLER PUMP KIT
All-in-One Complete Oil Change Package

- Easy, quick, no-hassle oil change package
- Reliable, well designed & proven F3B-19 flexible impeller pump technology
- For marine or industrial applications
- Serviceable & replaceable Nitrile impeller (09-843S-9)
- Greater flow for faster fill, transfer, & drain
- Flow reversing switch built into pump
- High temperature resistant dipstick tube
- Portable & convenient
- Heavy-duty alligator clips easily clamp directly onto battery
- Easy pour spout – No spill transfer of oil from bucket
- 12 Volt
- 1 Year warranty

Kit Includes:
Pail, Sealed Lid,
Pump Assembly, Dipstick Tube
Heavy Duty Alligator Clips,
Easy Pour Spout

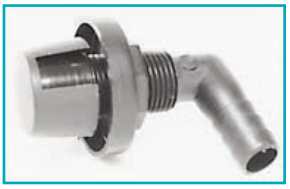
732-81170	8117	3 or 4" Flap only
732-81180	8118	3 or 4" Split Pin only

TANK VENTS & VENT GRILLS

- *Allows proper tank venting while preventing fuel contamination*
- *Fits standard 5/8" marine hose*
- *Built-in baffle prevents contamination*
- *Molded of non-corrosive nylon for long-time service and durability*

ORDER NO.	Mfr. No.	Description
732-30120	3012	Tank Vent, 100º Black



732-30120

MAXXFLOW™ SHOWER DRAINS

- *100º Angled Elbow lessens likelihood of clogging*
- *Flush head fits most standard showers*
- *Fits marine sanitation hose*
- *Flush head allows complete drainage*

ORDER NO.	Mfr. No.	Description
732-39990	3999	Shower Drain Elbow, Hose 3/4" w/screen
732-40490	4049	Shower Drain Elbow, 1" Hose w/short thread
732-40540	4054	Shower Drain Elbow, 1" Hose w/long thread
732-41150	4115	Shower Drain, Straight, 1-1/2" Hose

732-39990

GENERAL PURPOSE DRAINS

- *Low profile head affords excellent drainage*
- *Ideal for both scuppers & deck drains*
- *Fits marine sanitation hose*

ORDER NO.	Mfr. No.	Description
732-41110	4111	Scupper Drain, 1-1/2" Hose Long Thread w/ crosshairs

732-41110

MAXXFLOW™ ANGLED & STRAIGHT DRAINS

- *Flush head allows complete drainage*
- *Fits sanitation hose*
- *Assembly includes nut*
- *100º angled (elbow drains) drain considerably faster than 90º elbows*

ORDER NO.	Mfr. No.	Description
732-63220	6322W	Elbow Drain, 1-1/8" Hose, w/screen, White
732-67720	6772W	Straight Drain, 1-1/2" Hose ,w/screen, White

732-6322W

FIRE PORTS™

ENABLES CREW TO DETECT ENGINE FIRES QUICKLY & EXTINGUISH THEM SAFELY

- *Gives you the opportunity to eliminate, or at least control, the situation until help can arrive*
- *Allows you to visually inspect an engine compartment without opening it & adding oxygen to the fire*

ORDER NO.	Mfr. No.	Description
732-68000	6800	Fire Extinguisher Port, Engine Box, 2.7" dia. - I/O & Inboard

WATERPEX TUBING

Lead Free

A cross-linked polyethylene tubing used for potable water applications. WaterPEX is manufactured without an oxygen barrier.
Maximum Working Pressure:
160psi (11 bar) @ 73.4ºF (23ºC)
100psi (6.9 bar) @ 180ºF (80ºC)
80psi (5.5 bar) @ 200ºF (93ºC)

Features:

- Lead Free* cross-linked polyethylene tubing for use in potable water applications

JABSCO
a xylem brand

PLASTIC DC MOTOR PUMP UNITS

Jabsco plastic DC motor pump units offer an alternative to the bronze motor pump units with many of the same features.
They are also self-priming so they may be remotely mounted.
The larger Water Puppy size pump is equipped with 5/8'' hose barbed ports.

IN-LINE SUBMERSIBLE 12 VOLT PUMPS
THE NEW "RULE" HIGH CAPACITY SLIMLINE PUMPS - MARINE/UTILITY

- Easy pump-out in tight bilge areas
- Water Transfer
- General wash-down
- Baitwell aeration
- Rapid diesel refueling and transfer
- Deck showers
- Dinghy pump-out
- Sink draining

Centrifugal Pumping Power!
...for water and diesel applications

- 200 GPH to 500 GPH models available
  For continuous and intermittent duty
- Easy conversion for in-line pumping applications. Strainer removes for hose attachment to inlet nozzle
- Pumping up to 32 feet of head
  Up to 14 psi for washdown applications
- Kits include hose, battery clips and adjustable spray nozzle
- Fully submersible heavy duty construction
- 12 Volt DC

EVACUATOR 8000 - HIGH CAPACITY DEWATERING PUMP
12 VDC - 8000 GPH

The Evacuator 8000 represents the largest entrant in the upcoming Evacuator line of high efficiency portable utility pumps. Providing a sizeable 8000 GPH flow rate, the EV8000 represents the highest flow rate offering in the Evacuator product series. Designed as an alternative to gas or diesel powered portable pumps, the EV8000 excels in work environments requiring fast, efficient removal of large concentrations of standing or flooding water. Similar to the other Evacuator pumps, the EVA8000 benefits from the same innovative power connection which allows for direct operation from your vehicle's 12 volt battery, via two heavy duty battery clips.

Features Include:

- Impact resistant strainer protects against debris and jamming
- Integrated on/off switch in supplied 25 ft. cabling, providing operational convenience away from the power source
- Harsh environmental DC motor technology, proven in over 15 million operational units
- Direct operation from a 12 volt vehicle battery, providing flexibility in location and use
- Extended dry run time capability, preventing pump damage due to inconsistent water flow
- Thermal overload protection for each motor in the event of a debris jam
- Port Size Inlet/Outlet: 3"
- Amp Draw: 30 amps (approx.)
- Protection: Thermal Cut Off (TCO) for each motor
- Dimensions: (13.5"L x 12"W x 8.5"H)
- Weight: 1.1 lb.

RUB RAIL

TACO MARINE

TACO understands the harsh marine conditions and impact that rub rail must endure to prevent hull damage. TACO Marine's Rub Rail has long been the choice of professional boat builders worldwide for its superior design and quality.
The TACO Rub Rail Selection Guide is now available online *(www.tacomarine.com)*, to match your boat with the correct rub rail. This guide provides a simple cross reference to the original equipment installed by most boat builders.

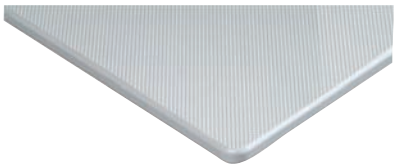
MARINE GRADE KING STARBOARD® ANTI-SKID - *Anti-Skid for preventing slipping in high traffic areas*

- High-density polyethylene
- Features a sure-grip design made of a special high-friction surface polyethylene in a diamond pattern finish to prevent slipping and promote drainage when wet
- Saltwater resistant and environmentally UV stable in the harshest marine environment
- Designed with marine-grade decking material for virtually every walk-on marine application
- ASTM S2047 Slip Resistant compliant
- Resists most stains and does not change colour
- Does not rot or delaminate
- Does not need refinishing
- Cleans easily with marine grade soaps or cleaners and water



Applications: Bow pulpits, decking, hatches, ladder steps, boarding areas, swim platforms, shower floors, stairways & entry ways, step treads

TOPSIDE ENAMEL

EZ

EZ-POXY® is a modern one-part polyurethane topside and deck enamel improved by the addition of silicone for a brilliant shine and easy brush-ability. Its advanced ultraviolet filters enhance the superior gloss retention and durability of polyurethane. The result is a topside finish that's exceptionally easy to apply, producing a lasting gelcoat-like brilliance with minimal effort. It is more economical, requires less effort and is more forgiving than the competition's.

Featuring easy application, less solvent smell, fewer coats to get the job done, and competitively priced, EZ-Poxy is the go-to choice for boaters all over. Give your vessel the best in protection without the extra hassle.

VARNISHES & SEALERS

EZ

EZ-WOOD SEALER 2018 is used to seal all types of raw wood prior to painting and varnishing. The sealer acts as a moisture barrier layer to prevent peeling and excessive absorption of vehicle from topside primers, paints or varnishes. It uniformly seals and satisfies the absorbancy of all woods including teak and mahogany.

CAPTAIN'S VARNISH 1015 is highly regarded for its ease of application, outstanding gloss retention and tough yet flexible durability. A combination of phenolic and alkyd resins blended with tung and linseed oils provide excellent performance. Its warm, light amber hue will enhance the rich, classic brightwork appearance. Compatible with **EZ-Poxy Performance Enhancer 3021**.

FLAGSHIP VARNISH 2015 offers the best protection against the sun's damaging rays. With six times more UV inhibitors, this blend of phenolic and alkyd resins, combined with tung and linseed oils, offers exceptional performance and a warm, deep amber hue. This high-build formula offers excellent abrasion resistance and a high gloss finish. Compatible with **EZ-Poxy Performance Enhancer 3021**.

SEAGOLD is the beauty and durability of varnish with the ease of use of synthetic wood treatments. Low-odor, user-friendly, and VOC compliant, the UV-stable resins provide a long-lasting finish that will not turn color with exposure to the elements. Its fast-drying formula allows 3 to 4 coats in a day. SeaGold can be applied over existing varnishes and its translucent amber color does not hide or blur wood grain. **Available in Gloss and Satin.**

ANTIFOULING BOTTOM PAINT

ULTIMA® provides excellent antifouling protection for both power and sailboats at an economical price. Ultima's surface wears away over time, eliminating build up or the need for sanding. It can be used on most previously-painted surfaces in good condition. One or two coats per season are recommended for optimal performance.

BLUE - 1281 **RED** - 1681 **BLACK** - 1881

HORIZONS® offers excellent protection from fouling along with all of the benefits of ablative paints. Economically priced, it performs well in all conditions, including severe fouling waters. A heavy load of copper provides dependable, multi-season performance. Its ablative surface wears away with use, exposing fresh biocides while eliminating paint build up and the need for sanding. Can be launched and re-launched without repainting making it an excellent choice for trailered boats.

BLUE - 1250 **GREEN** - 1350 **RED** - 1650 **BLACK** - 1850

UNEXPOXY HRT® seasonal antifouling uses the latest technology available to create a hybrid paint film strong enough to handle the tough marine environment without building up over time. It is a dependable antifouling paint formulated to provide outstanding protection at a very affordable price. Its smooth durable finish is able to withstand beaching, trailering, and season long abuse.

BLUE - 1211 **RED** - 1611 **BLACK** - 1811

NON-ANTIFOULING BOTTOM PAINT

OLD SALEM 1959 HARD RACING COPPER BRONZE is recommended for use in fresh water on racing hulls, sailboats, runabouts or cruisers. It is a non-antifouling hard racing finish that can be buffed to give a high-gloss, ultra smooth surface. It can be used in saltwater for small, dry sailed boats which are not left in the water. Suitable for use on fiberglass, wood and steel hulls. Excellent for use on trailered boats.

BRONZE - 1959

VIEW BOTTOM PAINT COMPATIBILITY CHART ➡

PREP & CONDITIONING PRODUCTS

BIO-BLUE DEWAXER 92 is a powerful blend of cleaning agents and silica grit that de-waxes, etches, cleans, and prepares bare fiberglass for painting, regardless of the boat's age. This solvent-free product is designed to provide an easy and trouble-free method of removing unwanted contaminants, grease, wax, dirt and mold release agents from fiberglass surfaces prior to painting.

RUSTLOK STEEL PRIMER 6980 is an easy to apply, moisture and corrosion proof primer for use on all cast iron and steel surfaces, including galvanized and stainless. Its water impervious barrier offers excellent adhesion and corrosion protection even over rusted surfaces. Recommended anytime an easy to apply, anti-corrrosive barrier coat is desired.

SPLASH ZONE A-788 is an extremely hard, abrasion and impact resistant, two-part epoxy patching compound. It applies like putty to seal, fill, patch or rebuild aluminum, wood, concrete, fiberglass, and steel. It can be applied in or out of water to repair boat hulls, buoys, seawalls, docks, bridge abutments, and more. Splash Zone provides excellent protection against corrosion of metals and erosion and deterioration of concrete or wood. Splash Zone's rock-hard surface can be drilled, tapped, or machined.

PROP COAT BARRIER SPRAY 1792 provides aerosol spray protection to bare metals above or below the waterline. Its smooth, hard surface will self-clean in service and inhibits corrosion on steel, stainless, cast iron, copper, bronze, galvanized and lead.

HOW MUCH BOTTOM PAINT DO I NEED?

1. Calculate the square footage of the hull:
   Length × Beam × 0.85 = Result
2. Divide this result by the amount of coverage the selected bottom paint offers. This will give you a one-coat total.

Note: All swatch colors shown in this brochure are approximations of the actual paint color in the can.

EZ

EZ-POXY PERFORMANCE ENHANCER 3021 is an additive that can be used in all Pettit high-gloss solvent-based topside paints and varnishes. Its advanced formulation reacts with the paint it is mixed in with, providing exceptional durability, gloss, hardness, gloss-retention, scratch resistance, and longevity. Unlike other two-part urethanes, paints catalyzed with this hardener can be applied over well adhered one-part finishes.

COMPATIBLE WITH **EZ-POXY, EZ-PRIME, CAPTAIN'S VARNISH,** AND **FLAGSHIP VARNISH**

EZ

EZ-PRIME is a multi-purpose primer designed for use as a base coat whenever the surface to be painted is aged, cracked, checked, pitted or in any way less than smooth. It can be applied to fiberglass, wood, properly etched metal and previously painted surfaces. EZ-Prime fills imperfections, dries quickly, and is easy to sand. Compatible with **EZ-Poxy Performance Enhancer 3021**.

EZ-TEX 7100 is an easy to use epoxy repair compound where a high strength, waterproof, permanent repair is needed. This unique formula creates a tenacious bond to most surfaces. Its buttery consistency will not sag or shrink and is excellent for filling cracks, gouges and voids. A 1:1 ratio makes mixing easy. EZ-Tex can be sanded, drilled, tapped, screwed and painted once cured.

PETIT PROTECT® is a heavy duty, two component, epoxy coating for use where maximum resistance to fresh or salt water is required. It reduces water absorption making it an excellent choice for osmotic blister prevention and repair. Its high-solids formula allows for quicker and easier application with fewer coats necessary for effective protection. It also offers dependable corrosion protection on all underwater metals.

GRAY - 4700/4701

- ✓ Faster and easier application
- ✓ Comprehensive gelcoat blister repair/prevention
- ✓ Covers in 2 coats vs. the competition's 5-6 coats
- ✓ Exclusive low-VOC formula developed

WHAT MAKES **PETTIT PROTECT** DIFFERENT?

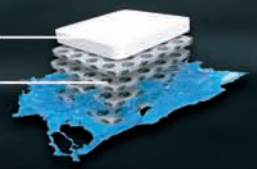
Pettit Protect uses significantly more of the waterproofing agent MICA. MICA, at the highest concentration possible, provides excellent protection from water intrusion.

HIGH CONCENTRATION OF MICA

✓ *IMPRENTRABLE PROTECTION*

LOW CONCENTRATION OF MICA

✗ *WATER CAN PERMEATE THE LAYERS MORE EASILY*



ULTIMA ANTIFOULING PAINT

- Excellent seasonal antifouling protection
- Hybrid paint film offers all the advantages of hard & ablative paints
- Unique controlled erosion minimizes build up yet stands up to seasonal abuse
- Hybrid technology reduces the need for sanding
- Can be painted up to 12 months before launching

Ultima hybrid antifouling provides excellent antifouling protection without the costs associated with high-end antifoulants. This unique formula combines all the advantages of both hard and ablative antifouling paints to produce a modern-day paint film designed to stand up to a season's abuse. Ultima will self-polish over time yet remains durable enough to resist premature wear. It can be hauled and re-launched without repainting, and can be used on most previously painted surfaces. Ultima is equally effective on both power and sailboats, and its attractive price tag makes it an excellent choice for use as a boatyard's "house paint". One or two coats per season are recommended for optimal performance.

HORIZONS ANTIFOULING PAINT

- Ablative technology reduces coating build-up
- Allows controlled release of copper over time
- Can be launched and re-launched without repainting
- Can be painted up to 12-months before launching
- Each coat Is usually a season of performance
- Excellent for trailered boats
- Not for aluminum boats

Horizons affordable ablative antifouling bottom paint offer excellent protection from fouling along with all of the benefits of ablative antifouling. Economically priced, Horizons is heavily loaded with cuprous oxide and performs well in all conditions including severe fouling waters. This product is the standard Ablative Antifouling for many boatyards because of its many attributes and favorable pricing.

UNEPOXY HRT SEASONAL HYBRID HARD ANTIFOULING PAINT

NEW!

HYBRID REACTIVE TECHNOLOGY

- Economical hybrid protection
- Smooth durable polishing finish
- Compatible over most bottom paints

Pettit Unepoxy HRT seasonal antifouling uses the latest technology available to create a hybrid paint film strong enough to handle the tough marine environment without building up over time.
Hybrid Reactive Technology features high density biocide utilization to maximize effectiveness by using biocide more effectively along with film modifiers to reduce yearly build-up, maintain uniform colour consistency, and lower weight while providing a smoother finish than traditional paints. It is a dependable antifouling paint formulated to provide outstanding protection at a very affordable price. Its smooth durable finish is able to withstand beaching, trailering, and season long abuse.

PETTIT

EZ POXY TOPSIDE COATING

EZ Poxy is a modern, one-part polyurethane topside and deck enamel improved by the addition of silicone for a brilliant shine and easy brush-ability. It's advanced ultraviolet filters enhance the superior gloss retention and durability of polyurethane. The result is a topside finish that's exceptionally easy to apply, producing a lasting gelcoat-like brilliance with a minimum of effort. It is more economical, requires less effort, and is more forgiving than the competition.
NOTE: EZ Poxy Performance Enhancer Order No. 53021-5000 (See page 959) can be added to increase gloss, hardness and longevity.

EZ-PRIME HIGH BUILD TOPSIDE PAINT UNDERCOATER

EZ-Prime 6149 should be used as a base coat whenever the surface to be painted is aged, cracked, checked, pitted, or in any way less than smooth. It can be applied to fiberglass, wood, and previously painted surfaces. EZ-Prime 6149 dries quickly and is easy to sand. This high-build formula has excellent filling properties which can be used for a full, one-coat application. When using on bare wood, seal with 2018 EZ-Wood Sealer (Order No. 52018-5002) to provide water resistance and dry rot protection. Not for use below the waterline.

PETTIT PROTECT HIGH BUILD EPOXY PRIMER

4700/4701 is a heavy-duty high build, two component epoxy-polyamide coating for use where maximum resistance to fresh or salt water is required. This complete coating system is resistant to water, many chemical fumes, and very humid environments. It is ideally suited to many commercial and pleasure craft applications and has excellent durability in exterior exposures, although, like most epoxies, it will chalk if not topcoated.

- Reduces water absorption in fiberglass hulls & prevents osmotic blistering
- High film build for maximum protection with fewer coats
- Excellent water and chemical resistance
- Exceptional protection for steel, aluminum, and other metals
- High performance system for underwater running gear

SPLASH ZONE

A-788 SPLASH ZONE

Two-Part Epoxy Repair Compound

Extremely hard, abrasion and impact resistant, two-part epoxy patching compound. It applies like putty to seal, fill, patch or rebuild aluminum, wood, concrete, fiberglass, & steel. It can be applied in or out of water to repair boat hulls, buoys, seawalls, docks, bridge abutments, & more. Splash Zone provides excellent protection against corrosion of metals and erosion and deterioration of concrete or wood. Splash Zone's rock-hard surface can be drilled, tapped, or machined. Recommended for patching and repairing damaged underwater surfaces. Not for use in potable water.

BIO-BLUE - HULL SURFACE PREP 92 - DEWAXER

Bio-Blue Hull Surface Prep 92 is a powerful blend of cleaning agents and silica grit that de-waxes, etches, cleans, and prepares bare fibreglass for painting. Regardless of the boat's age, the initial surface preparation is imperative. Residual parting agents utilized by the boat manufacturer to "pop" the boat from the mold may still be present, although not visibly apparent. This solvent-free product is designed to provide an easy and trouble-free method of removing unwanted contaminants, grease, wax, dirt, and mold release agents from fibreglass surfaces prior to painting. When used in conjunction with 6998 Skip Sand Primer or 6999 Sandless Primer and Antifouling paint, it is part of an easy 1-2-3 system of bottom paint.

- De-waxes, etches, cleans, de-greases and prepares bare fibreglass for painting
- Easy to use formula
- Works on all fibreglass surfaces
- Biodegradable with no VOC content
- Part of an easy 1-2-3 system of bottom paint

ORDER NO.	Mfr. No.	Description

LANCASTER CANADA

World's Strongest Cold Weld Adhesive
J-B WELD

JB WELD, CARDED

- 2 x 28 gr. tubes epoxy and hardener
- A cold weld alternative to welding, soldering and brazing.
- Will bond to any clean and dry surface.
- Sets in 4-6 hours and will cure in 16-24 hours.
- Temperature resistant up to 600° F
- Waterproof, petroleum, chemical, and acid resistant when fully cured
- Super strong and non-toxic
- Can be drilled, tapped, machined, filed, sanded, and painted.

ORDER NO. 810-08265 Mfr. No. 8265CAN

JB KWIK, CARDED

- 2 x 28 gr. tubes epoxy and hardener
- A fast set-cure version of J-B Weld that will set in 4 min. & fully cure in 4-6 hours
- Waterproof, petroleum, chemical, and acid resistant when fully cured
- Non-toxic and is temperature resistant up to 300˚F
- Can be used on any surface - Bronze, Porcelain, Ceramic, Aluminum, and ABS & PVC plastics
- Can be drilled, tapped, machined, filed, sanded, and painted.

ORDER NO. 810-08276 Mfr. No. 8276CAN

JB STIK WELD, 57 GR. (2 OZ.) CARDED

- Fast, tough steel-reinforced, non-rusting epoxy putty
- Epoxy adhesive will plug holes and make permanent repairs on wet and dry surfaces
- Will fully cure in 20-30 minutes, even completely submerged in water or gasoline
- Can be drilled, tapped, machined, filed, sanded, and painted
- Mixed colour: Steel Grey

ORDER NO. 810-08267 Mfr. No. 8267CAN

JB MARINE WELD™, CARDED

- Two part epoxy cold weld. 2 x 28 gr. tubes resin and hardener
- Sets in 4-6 hours at room temperature & fully cured in 15-24 hours
- Use on aluminum, metal, fiberglass, plastics/composites, & others
- Can be shaped, tapped, filed, sanded, & drilled
- Maintains strength above or below the water's surface
- 1:1 mixing ratio
- Tensile strength of 3960 PSI

ORDER NO. 810-08272 Mfr. No. 8272CAN

REPAIR AND SEAL MOST ANYTHING!

JB MINI WATER WELD, EPOXY, 57 GR. (2 OZ.) CARDED

- JB Waterweld epoxy putty will make permanent repairs in moist or under water application
- Will plug or seal practically anything that leaks
- Will fully cure in 20-30 minutes
- Can be drilled, tapped, machined, filed, sanded, and painted once cured
- Repairs fibreglass, PVC plastic, copper, iron and aluminum
- Turns Do-It-Yourselfers into repair professionals
- Mixed colour: Off-White

ORDER NO. 810-08277 Mfr. No. 8277CAN

Captain Phab, Gelcote and Lloyds's Laboratories for decades have designed environmentally sustainable products that address unique challenges and concerns of the Marine and R.V. Industries.
Captain Phab is proud to announce many new and existing products now carry the UL Eco logo, an official arm's length certified environmentally friendly products to global recognized standards. This is assurance for you and your customers that our products meet new stringent standards for being environmentally sustainable, biodegradable and formulated for minimal aquatic toxicity as proven through independent testing and auditing. Our registered products are consistent with the reputation Captain Phab products have earned over the past two decades ... *"They Really Work".*

Captain Phab, Gelcote and Lloyd's Laboratories are committed to becoming the most trusted brand of authentic, safe and environmentally responsible products for healthy recreational care products.

EXP SYSTEM

UNIVERSAL EPOXY RESIN AND 1:1 HARDENER

- **Completely Clear Finish · Does Not Shrink After Curing**
- **Low VOC's & Odor · Exceptional Strength**
- **Increased Flexibility · Low viscosity**

EXP Universal Epoxy Resin - used with our appropriate hardeners, cures to form excellent moisture resistant, high-strength plastic. Bonds well with wood fiber, fiberglass, reinforcing fabrics and a variety of metals.
It is easy to work with and is made without volatile solvents.
It has a relatively high flash point and no strong solvent odor, making it safer to work with than polyester or vinylester resins.
When cured, it can be machined, drilled, sawn, filed or sanded.
Ideal for projects that require water and chemical resistence. Oue 1:1 hardener has its own pot life calculated at a temperature of 22°C (72°F). Stir resin-hardener mixture thoroughly and apply immediately.

3M

3M™ MARINE ADHESIVE/ SEALANT 5200

This high-performance polyurethane adhesive/sealant becomes tack free in 48 hours, completely cures in 5-7 days with no shrinkage. The seal is extremely strong, retains its strength above or below the waterline. Stays flexible - allows for structural movement. Stress caused by shock, vibration, swelling or shrinking is effectively absorbed. Has excellent resistance to weathering and salt water. Easy to apply with manual caulking gun. Remains workable with trowel or spatula up to four hours after application. Won't sag or flow in vertical or horizontal seams. Available in tubes, cartridges and pails.

ORDER NO.	Colour	Size
Tubes-Carded		
600-05203	White	3 oz.
600-05205	Black	3 oz.

600-06504	Black	1/10 Gallon

3M™ MARINE ADHESIVE/ SEALANT FAST CURE 5200

A faster curing version of 3M™ Marine Adhesive/Sealant 5200. This high performance polyurethane becomes tack free in one hour and fully cures in approximately 24 hours. The seal is extremely strong, retains its strength above or below the water line. Stays flexible too-allows for structural movement. Stress caused by shock, vibration, swelling or shrinking is effectively absorbed. Has excellent resistance to weathering and salt water.

ORDER NO.	Colour	Size
600-05220	White	3 oz. (Tube)
601-65201	White	1/10 Gallon (Cartridge)

3M™ MARINE ADHESIVE/ SEALANT FAST CURE 4000UV

This high quality cosmetic adhesive/sealant cures to form a firm, rubbery, water-tight seal.
It has superior UV resistance and a very low odour.
Highly flexible, the 3M™ Marine Adhesive/Sealant Fast Cure 4000UV is resistant to weathering, salt water, and stresses caused by joint movement.
Seals between mechanically fastened joints on wood, fibreglass, metal, and most plastics above or below the waterline.
Applications include sealing deck to hull joints, thru-hull fittings, window and door frames, deck hardware, navigation lights, hatches and porthole frames.

ORDER NO.	Colour	Size
600-05280	White	3 oz. (Tube)
600-06580	White	1/10 Gallon (Cartridge)
600-06586	White	400 mL (Flex-Pack)

3M™ MARINE GRADE MILDEW RESISTANT SILICONE

A mildew resistant non-sagging, moisture-curing silicone rubber sealant. Remains flexible with excellent resistance to the marine environment. Adheres to bare and painted metal, fibreglass, glass, non-oily woods and many plastics and abraded rubbers. Ideal for head and galley sealing applications. Also excellent gasket adhesive and formed-in-place gasket material.

ORDER NO.	Colour	Size
Tubes-Carded		
600-08017	White	3 oz.
600-08019	Clear	3 oz.

ORDER NO.	Colour	Size
600-08027	White	1/10 Gallon
600-08029	Clear	1/10 Gallon

3M™ MARINE ADHESIVE/ SEALANT FAST CURE 4200

A one-part general purpose polyurethane that chemically reacts with moisture to deliver flexible bonds with good adhesion to wood, fibreglass, gelcoat, certain plastics and metals. Paintable and sandable. Forms watertight, weather-resistant seals on joints and boat hardware above or below the waterline. This product is approximately half the strength of 3M™ Marine Adhesive/Sealant 5200, which allows for disassembly of parts.
Note: Not recommended for sealing wood decks because it may be permanently softened by certain teak cleaners or sealers. On plastics, test 3M™ Marine Adhesive/Sealant Fast Cure 4200 to determine suitability.

ORDER NO.	Colour	Size
600-05260	White	3 oz. (Tube)
600-65601	White	1/10 Gallon (Cartridge)
600-65641	Black	1/10 Gallon (Cartridge)

3M™ FLEXIBLE PACKAGE APPLICATOR GUN

Fully enclosed, all metal, rod driven, friction feed applicator gun.
For use with all 310 mL or smaller flexible foil packages.
This tool has a 12:1 ratio.

ORDER NO. 600-08398
Container Size: 310 mL

3M™ GENERAL TRIM ADHESIVE - CLEAR - LOW VOC

A fast drying, high-strength, low VOC clear adhesive in an aerosol container. Designed for bonding most types of trim found in the Marine industry except unsupported vinyl. Excellent for fabrics, upholstery foam, carpets. Do not use on styrofoam.

ORDER NO. 601-08080
Size: 24 oz. Aerosol

3M™SUPER TRIM ADHESIVE

3M™ Super Trim Adhesive is a fast-acting, high-strength, aerosol contact adhesive designed for two-surface application. This adhesive is resistant to heat and plasticizing oils and is excellent for attaching vinyl, insulation, foam, padding and rubber parts to metal and other surfaces. Bonds can be made within minutes of application or as long as one hour later.

ORDER NO. 601-08090
Size: 24 oz. Aerosol

3M™ GLASS CLEANER

3M™ Glass Cleaner is an easy to use, quick acting, non-streaking aerosol glass cleaner. Excellent for cleaning glass; this product is also effective for use on plastic, chrome or metal.

ORDER NO. 600-08968
Size: 20 oz. Aerosol

For more information see: www.3m.com/marine

3M™ CITRUS BASE INDUSTRIAL CLEANER

3M™ Citrus Base Cleaner offers a fresh scent. Gently cleans oil, grease, tar & grime. Can help pewpare surfaces for adhesive bonding.
Industrial grade. Non-corrosive.

ORDER NO. 600-08789-24
Container Size: 24 oz.

GENERAL PURPOSE ADHESIVE CLEANER

Specially blended solvent for removal of light paint overspray, adhesive residue, wax, grease, tree sap, dirt, road tar, oil and bugs. Comes in aerosol form. Will not harm most thoroughly cured automotive paint, vinyls, or fabrics when properly used.

ORDER NO. 600-08987
Size: 425g Aerosol

3M™ SCOTCH-BRITE™ HEAVY DUTY PAD - TAN

A non-woven, three-dimensional product to be used on the following applications; varnish stripping, bottom paint scuffing and stripping, rust removal and heavy clean-up.

ORDER NO. 601-07440 Size: 6" x 9"

3M™ SCOTCH-BRITE™ LIGHT DUTY PAD - WHITE

For light scouring, including rust removal. Conformable so hard-to-reach, contoured surfaces are easy to reach. Open web construction makes pads easily cleaned for repeated work.

ORDER NO. 601-07445 Size: 6" x 9"

3M™ SCOTCH-BRITE™ GENERAL PURPOSE PAD - MAROON

For scuffing before applying paint and paint primers. Also may be used in cleaning upholstery and chrome. Can be rinsed and used over and over again.

ORDER NO. 601-07447 Size: 6" x 9"

3M™ SCOTCH-BRITE™ ULTRA FINE PAD - GREY

Used to finish sand scratches after using 3M™ Wetordry™ abrasives in the 360A grit range. Reusable.

ORDER NO. 601-07448 Size: 6" x 9"

3M™ TACK PAD

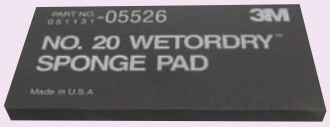
Based on 3M's non-woven technology, the tack pad's three-dimensional web absorbs dust particles and has good conformability, excellent dust collection and reduces adhesive transfer. It is designed to work with all modern paint systems, including water-based paints.

ORDER NO. 600-07910 Size: 6" x 9" 10/Pk

3M™ NO. 20 WETORDRY™ SPONGE PAD

A firm hand sanding pad to be used with a three-fold wrap of 3M™ Wetordry™ Tri-M-ite™ Paper Sheets, 3M™ Imperial™ Wetordry™ Color Sanding Paper Sheets or 3M™ Production™ Gold Paper Sheets to make hand sanding easier and more efficient.

ORDER NO. 601-05526



3M™ SANDING BLOCK

A pliable rubber block which holds the sandpaper securely during wet or dry sanding operations. It utilizes a 9" x 11" sheet torn or folded into fourths to make 2-3/4" x 9" sheets or for convenience use 3M™ pre-cut 2-3/4" x 9" sheets.

ORDER NO. 601-05519 Sheet Size: 2-3/4" x 9"

3M™ HOOKIT™ SANDING BLOCK - DUST FREE

Used for sanding applications. Attaches to vacuum hose for dust removal.

ORDER NO. 600-05216 Mfr. No. 05216

Size: 9" x 4-1/2"

3M™ HOOKIT™ SANDING HAND BLOCK

3M™ Hookit™ Hand Blocks are made from a sturdy, durable, high-strength plastic with an easy release hook face. Use with 3M™ Hookit™ Abrasives Sheets 2-3/4 inch x 5 inch for leveling of repair areas to produce a true, flat surface. Comfortably fits in hand.

ORDER NO. 600-05740 Mfr. No. 05740 **Size: 2-3/4" x 5"**

3M™ HOOKIT™ SANDING BLOCK KIT

Foam Hookit™ Sanding Block Kit contains the top seven most popular blocks in a blister pack shipper

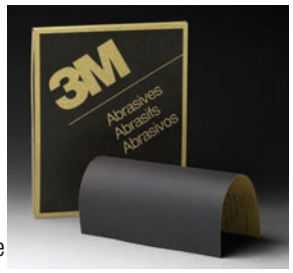
Helps make sanding easier in difficult locations. Use as an accessory item with the Hookit™ abrasive products for sanding filler, primer and other substrates. Use with 3M Purple Clean Sand Sheet Roll.

Kit contains (1) each of 3M#'s 05685, 05686, 05687, 05689, 05691, & (2) of 05691.

Blocks are semi-rigid. **ORDER NO. 600-05684** Mfr. No. 05684

For more information see: www.3m.com/marine

3M™ IMPERIAL™ WETORDRY™ PAPER SHEETS



The 3M™ Imperial™ Wetordry™ Paper Sheets utilize a premium, aluminum oxide mineral, an improved paper backing, and an optimized construction that results in the following performance advantages: improved rate of cut, increased abrasive life, increased flexibility, and uniform, consistent finish.

ORDER NO.	Grade	Sheets Per Sleeve

3M™ BLUE ABRASIVES

The Upgrade you've been waiting for. BLUE goes head to head with any abrasive in its class!
Upgrade your old Abrasives Today!
3M™ Blue Abrasives are engineered with a ceramic mineral blend that cuts through paint and body filler with consistent results every time. Available in 3M™ Stikit™ Abrasive Disc and 3M™ Hookit™ Abrasive Disc configurations.

Designed for Performance:
- **Engineered ceramic mineral blend** provides best-in-class performance using exactly the right balance of ceramic grain and premium oxide
- **Anti-loading coating** improves disc life
- **Upgraded resins** improve durability and finish

Best-in-class value leaves the competition in the dust literally
3M™ Blue Abrasive Multi-hole Discs are specifically designed to improve anti-loading and boost dust extraction for improved productivity and a cleaner work environment. The multi-hole pattern captures dust, keeping the abrasive open for a faster cut and consistent performance throughout the life of the disc.

3M™ Hookit™ Abrasive Disc univeral multi-hole pattern with alignment guide:
- Reduces loading for improved performance
- Improves dust extraction efficiently compared to 6 and 7 hole patterns
- Aligns with majority of dust extraction back-up pads

3M™ Hookit™ Abrasive Disc Attachment

3M™ PAINTER'S DISC PAD WITH HOOKIT™ - 6" DISC

Soft backup pad with Hookit™ attachment to be used primarily in the paint department.

ORDER NO. 600-05778

NEW!

3M™ HOOKIT™ CLEAN SANDING DISC PAD 6" DISC

Incorporated a mult-hole pattern designed to optimize performance and productivity. Pads have a one-piece stud design for improved balance and reduced vibration. Designed to help evacuate dust better than conventional dust free abrasive discs with pads, which dramatically helps increase disc life and overall sander performance. Recommended for use with 3M™ Random Orbital Sander and 3M™ Abrasive products for lowest vibration and best sanding performance.

ORDER NO. 600-20425

3M™ HOOKIT™ SOFT INTERFACE PAD 6 x 1/2 X 3/4"

Designed for 3M™ Hookit™ abrasives. Improves abrasive cut and finish. Reduces vibration on dual action random orbital sanders using 3M™ Hookit™ disc pads. For use with all 3M™ Hookit™ disc pads.

ORDER NO. 600-57770

600-57770

- Discs resist loading, extending disc life & improving productivity
- Facilitates exceptional dust extraction
- Delivers uniform, consistent finishes
- Uses 3M™ Hookit™ Attachment System for easy reuse

3M™ HOOK-IT™ CLEAN SANDING LOW PROFILE FINISHING DISC PAD 6"

Constructed of soft density foam with a 10˚ blunt tapered edge and is recommended for finishing applications on flat or contoured surfaces where dust evacuation is needed. Use this disc pad with grades 220 and higher. 3M™ Clean Sanding or 3M Hookit™ D/F Discs (sold separately)

3M™ PURPLE FINISHING FILM HOOKIT™ - 6" DISCS

High performance aluminum oxide cuts fast, lasts a long time, resists loading and leaves a consistent finish. Use with a soft interface pad 600-57770 to scuff sand before painting. Use for scuffing the blend area before painting. Removes runs, dust nibs and excess orange peel from topcoat finishes before repainting or buffing. Discs are easy to remove from backup pads. They are faster and easier to use than scuffing pads, and there's none of the dry time you get with wet sanding.

3M™ BUFFING & POLISHING PADS

3M™ SUPERBUFF™ POLISHING PAD

The 3M™ Superbuff™ Polishing Pad is a double-sided, soft-edge polishing pad, specially designed for use with a polisher and glaze. Made of extremely fine fibers (wool blend), the 3M™ Superbuff™ Polishing Pad produces a high gloss on paint and gelcoat surfaces. Other features include: long life, flexibility, lightweight and well balanced. For compounding prior to glazing, one of the other 3M™ Superbuff™ Pads may be used.
Fits all standard (5/8" shaft) slow-speed polishers.
ORDER NO. 600-05705 Mfr. No. 05705

3M™ SUPERBUFF™ ADAPTER

Adaptor for the 3M™ Superbuff™ Pads. For use with 3M™ Superbuff™ Pads, PNs 05700, Order No. 600-05701, 600-05705. Also works with 3M™ Perfect-It™ Backup Pad (05718).
ORDER NO. 600-05710
Mfr. No. 05710

3M™ SUPERBUFF™ III COMPOUNDING PAD

Aggressive, fast-cutting pad that is made of 100% untwisted wool. Stiffer centre hub for more cutting power, double-sided pad that is excellent for hard paints. Fits all standard (5/8" shaft) slow speed polishers.
ORDER NO. 600-05703
Mfr. No. 05703

3M™ SUPERBUFF™ III 2 PLUS 2 COMPOUNDING PAD

Made of blended untwisted wool with a stiffer centre hub for more cutting power. It is a double-sided pad that is less aggressive than a wool pad. Fits all standard (5/8" shaft) slow-speed polishers.
ORDER NO. 600-05704
Mfr. No. 05704

3M™ PERFECT-IT™ FOAM COMPOUNDING PAD - 8"

High performance double sided foam compounding pad. Refines P1200 or finer sand scratches. Unique quick connect design. For use with 3M™ Compounds (39060, 600-06085, 06086) to remove sand scratches. For use with 3M's Quick Connect Adapter 600-05752.
ORDER NO. 600-05706

3M™ FINESSE-IT™ ROLOC™ FINISHING PAD - 3"

Holds the 3" 3M™ Finesse-it™ Natural Buffing Pad in place. Provides a soft surface for excellent results.Finishing pad mounts in a 3" 3M™ Roloc™ Disc Pad Assembly (Order No. 600-05540).
ORDER NO. 600-14736 Mfr. No. AB14736

3M™ FINESSE-IT™ NATURAL BUFFING PAD - 3"

These 3" buffing pads are designed to get you into tight areas not accessible with a conventional polisher. Pads are hook-and-loop backed. 3" version attaches to the 3" 3M™ Finesse-it™ Roloc™ Finishing Pad (Order No. 600-14736) which mounts in a 3" 3M™ Roloc™ Disc Pad Assembly (Order No. 600-05540).
ORDER NO. 600-85078 Mfr. No. 85078

3M™ FINESSE-IT™ BUFFING PAD - 3-1/4"

Orange foam white loop provides soft, smooth surface for applying 3M™ Finesse-It™ polishes. Holds pad securely and provides quick pad change-out. Pad combined with buffers, random orbital tools, and variable speed polisher to produce desired final finish.
ORDER NO. 600-02648 Mfr. No. 02648

3M™ ROLOC™ DISC PAD ASSEMBLY - 3"

Designed to support 3M™ Roloc™ 3" diameter abrasive discs. This pad has a 1/4-20 INT thread which allows it to be mounted directly to tools with 1/4-20 EXT threaded shafts. Assembly also includes a Roloc™ shank and adapter.
ORDER NO. 600-05540 Mfr. No. 05540

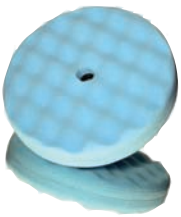
3M™ PERFECT-IT™ HOOKIT™ FOAM POLISHING PAD - 3"

Convoluted foam face for cool and swirl free polishing, easy on easy off 3M™ Hookit™ attachment, ideal size for getting into hard to reach areas. Designed to be used with 3M™ Hookit™ 3" Disc Pad (Order No. 600-05769) and the 3M™ Roloc™ Buffing Backup Pad (Order No. 600-14736). Sold as each
ORDER NO. 600-05726 Mfr. No. AB05726

3M™ PERFECT-IT™ FOAM POLISHING PAD - 8"

High performance black double sided foam polishing pad. Removes compound swirls and fine paint surface defects. Unique quick connect design. Provides high-gloss shine. For use with Quick Connect Adapter 600-05752, & Perfect-It™ Machine polish 39061, 600-06064, 06065.
ORDER NO. 600-05707 Mfr. No. 05707

3M™ PERFECT-IT™ ULTRAFINE FOAM POLISHING PAD - 8"



High performance double sided foam polishing pad. Eliminates swirl marks on painted surfaces, even on difficult dark coloured surfaces. Unique quick connect system. Use with Perfect-It™ Ultrafine Machine Polish 600-06068 and 3M™ Quick connect adapter 600-05752.
ORDER NO. 600-05708 Mfr. No. 05708

SPECIAL ORDER ITEM

3M™ HOOKIT™ DISC PAD

This pad is specifically made to use with 3M™ Hookit™ Discs. The pad face securely holds the discs yet allows for easy change and reattachment of discs. The pad is lightweight, shock resistant and well balanced. The tough durable plastic hub and a conformable foam body are designed for a maximum operating speed of 7,000 RPM.

ORDER NO. 600-05776

For Use With Disc Size: 6"

3M™ HOOKIT™ DISC PAD

Designed especially for use with 3M™ Hookit™ Regalite™ Discs, the hook-and-loop face secures the disc to the backup pad, yet provides for easy removal and reattachment. Edges are contoured to allow for sanding curves and close to mouldings. Fits all standard (5/8" shaft) slow speed polishers with maximum operating speed of 3000 RPM.

ORDER NO. 600-05779

For Use With Disc Size: 8"

3M™ STIKIT™ DISC PAD

Specially made for use with 3M™ Stikit™ Discs. The vinyl pad face provides good disc adhesion yet allows easy disc removal. Both pads are lightweight, shock resistant and well balanced. Maximum safe operating speed for both pads is 7000 RPM.

ORDER NO. 600-05576

For Use With Disc Size: 6"

3M™ HOOKIT™ SOFT DISC PAD

Designed for use with a slow speed polisher/grinder. It is ideal for use with fine grade abrasives for sanding primer on comformable surfaces. Produces finer finishes. Maximum operation speed of 3000 RPM.

ORDER NO. 600-05768

For Use With Disc Size: 8"

Ultimate Versatility

- Easy cleanup
- Maintenance free
- Fast, simple head replacement affords the performance of a brand new spray gun on demand
- Atomizing heads can be used on any 3M™ Accuspray™ replacement atomizing head spray gun
- Atomizing heads can be used 5 to 10 times and then simply removed and replaced
- Professional results
- Spray gun requires 13 cfm @ 20 psi

Suggested Applications:

- Used for a variety of painting applications including primer, sealer, basecoat and clearcoat

Choose the Preferred Atomizing Head Size for your Application:

Low Viscosity Coatings requiring a fine finish

1.2mm (Blue) - Stains, wood shellac, varnish, polyurethane, waterborne basecoat (hot weather), marine topcoat.

Medium Viscosity Coatings requiring a fine finish

1.3mm (Green) - Nitrocellulose lacquer, waterborne basecoat, solvent basecoat (colour), solvent clearcoat, enamels.

1.4mm (Orange) Primer sealer, single stage top coat, solvent base coat (colour), solvent clearcoat, lacquers, enamels

High Viscosity Coatings

1.8mm - (Clear) Primer surfacer, gelcoat, sprayable fillers, sprayable adhesives

Heavy-Duty Applications

2.0mm - (Red) Primer surfacer, gelcoat, sprayable fillers, sprayable adhesives, undercoats or industrial coatings

ACCUSPRAY™ ONE Spray Gun System w/ 3M™ PPS™ SERIES 2.0 Spray Gun System

3M™ ACCUSPRAY™ HGP SPRAY GUN KIT

An HVLP gravity pressured spray gun, to be used with a pressurized H/O cup system to provide superior application of high viscosity coatings.

Pressurized Gravity Feed for High viscosity Coatings

Complete Kit Includes:
(1) HGP Spray Gun, (1) Air Flow Valve
(4) Atomizing Heads – 2 each 1.8mm nozzles & 2 each 2.0mm nozzles

Now you can spray those high viscosity coatings such as gelcoats, bottom paints, extremely heavy bodied primers and adhesives. Virtually any sprayable coating. The innovative 3M™ Accuspray™ System with its replaceable atomizing head, in conjunction with the 3M™ PPS™ Pressure cup allows for the following benefits:

Boosts Productivity
- Lowers application time
- High delivery rates
- Eliminates costly gun maintenance
- Builds mil thickness quickly

Reduces Coating Consumption
- Minimizes overspray
- Reduces coating waste

Maximizes Benefits of the 3M™ PPS™ System
- Reduces spray gun cleaning time
- Uses less solvent for clean up
- Decreases hazardous waste disposal cost

3M™ Perfect-It™ Gelcoat Heavy Cutting Compound

This fast-cutting compound removes heavy oxidation, scratches, and other defects. Use 3M™ Perfect-It™ Gelcoat Heavy Cutting Compound for any P800 and finer scratches. Its improved formula has longer wet times for easier clean up and less dust. Plus, this formula works better in warm climates and allows you to use less material than before.

3M™ Perfect-It™ Gelcoat Heavy Cutting Compound works great on boats, RVs, and industrial gelcoats. While ideal for three-step processes, its high gloss results can be protected with 3M™ Perfect-It™ Boat Wax after compounding for an easy two-step finish.

ORDER NO.	Mfr. No.	Size
600-36101	36101	Pint (16 fl oz.)
600-36102	36102	Quart (32 fl oz.)
600-36103	36103	Gallon (122 fl oz.)

3M™ Perfect-It™ Gelcoat Medium Cutting Compound + Wax (One-Step)

3M™ Perfect-It™ Gelcoat Medium Cutting Compound + Wax combines fast cutting power, a high gloss finish, and durable wax protection. Use this for any P1000 and finer scratches. Its improved formula has longer wet times for easier clean up and less dust, even in warm climates.

3M™ Perfect-It™ Gelcoat Medium Cutting Compound + Wax works great on boats, RVs, and industrial gelcoats. This one-step solution results in a brilliant finish and long-lasting protection for any of your gelcoat surfaces.

ORDER NO.	Mfr. No.	Size
600-36105	36105	Pint (16 fl oz.)
600-36106	36106	Quart (32 fl oz.)
600-36107	36107	Gallon (122 fl oz.)

3M™ Perfect-It™ Gelcoat Light Cutting Polish + Wax (One-Step)*

When a brilliant finish and durable protection are needed for P1500 and finer scratches, 3M™ Perfect-It™ Gelcoat Light Cutting Polish + Wax is the perfect solution for light or dark coloured gelcoat. We've improved the formula with longer wet times offering easier clean up, less dust, and more efficient use, even in warm climates.

Specifically formulated for boats, RVs, and industrial gelcoats, this polish is ideal for one-step processes. Use whenever you want a durable wax finish.

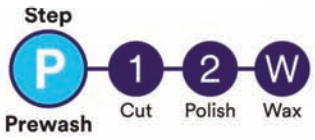
For more information see: www.3m.com/marine

When you need a perfect gelcoat finish, you want 3M's best system.

Introducing 3M's newest line of gelcoat products, formulated specifically to make it easier to achieve a perfect gelcoat finish – everytime.
Our increased wet time and less mess brings you incredible results, even in warm climates.
From buffing professionals to vehicle owners, the 3M™ Perfect-It™ Gelcoat Finishing System line of products works great on boats, RV's, and industrial gelcoat surfaces – new and used alike. In addition, these products now include a step-by-step process to help achieve dependable finishes everytime, regardless of one, two, or three step processes. Additionally, the colour-coded bottles allow for easy reference in the shop or on the dock.

3M™ Perfect-It™ Boat Wash



It's vital to start any refinishing project with a clean surface. Our 3M™ Perfect-It™ Boat Wash cleans grime, algae, dirt, and other common marine contaminants from stem to stern. This prep step allows for superior refinishing results, and as a professional concentrate, you only need one ounce per gallon. 3M™ Perfect-It™ Boat Wash high-sudsing formula is also gentle enough to clean without stripping wax.

ORDER NO.	Mfr. No.	Size
600-09034	PN09034	Pint (16 fl oz.)
600-09035	PN09035	Quart (32 fl oz.)

3M™ Perfect-It™ Boat Wax

Refinishing any surface takes effort and your effort deserves long lasting protection. Our 3M™ Perfect-It™ Boat Wax helps keep all sorts of surfaces looking great. It's safe for gelcoat, paint, fiberglass, and metals and has a pleasant tropical scent. The pure wax finish helps protect against the elements. Use 3M™ Perfect-It™ Boat Wax as a final step to any process where a wax finish is recommended.

STEPS 1, 2 & 3

3M™ PERFECT-IT™ EX RUBBING COMPOUND

Designed to remove scratches (P1200 or finer) with either a 3M™ wool pad or a 3M™ foam compounding pad.
ORDER NO. 600-36060 Mfr. No. 36060
Size: 946 mL

3M™ PERFECT-IT™ EX MACHINE POLISH

Quick & effectively helps remove compound swirl marks, leaving an outstanding finish. The polish has a wetter formulation than the Regular 3M™ Perfect-It™ Machine Polish (#600-06064).
Good handling & easy cleanup.
ORDER NO. 600-06094 Mfr. No. PN06094
Size: 946 mL

3M™ PERFECT-IT™ ULTRAFINE MACHINE POLISH

Eliminates swirl marks and produces high gloss finish. Easy cleanup.
ORDER NO. 600-06068 Mfr. No. 06068
Size: 946 mL

3M™ PERFECT-IT™ GELCOAT COMPOUND + POLISH

3M's new cutting compound plus polish is designed for removing light oxidation and P1000 and finer scratches on gelcoat while offering a finer finish and higher gloss than 3M ™ Perfect-It™ Gelcoat Heavy Cutting Compound. This compound plus polish is designed to be a single step system or be used as a second step to remove swirl marks and give a deeper gloss finish even on darker coloured gelcoats.
ORDER NO. 600-30344
Mfr. No. 30344 **Size: 946 ml**

ORDER NO. 600-30345
Mfr. No. 30345 **Size: 3.78 Litre**

3M™ DRY GUIDE COAT CARTRIDGE & KIT

Dry powder with applicator used to highlight surface imperfections and sand scratches prior to finishing with abrasives. Can be used on marine fillers, primers, paints and gelcoat. Contains no solvents. Kit comes with applicator pad.
ORDER NO. 600-05861 Mfr. No. 05861

50g Cartridge with Applicator Kit. 6 Per Case.

3M™ MARINE HIGH GLOSS GELCOAT COMPOUND

This paste compound is designed to quickly remove P600 dual action or 1000 wet sanding scratches from production gel coat. This compound contains no wax or silicone and leaves a high gloss finish without swirl/wheel marks. It has a unique formulation which reduces slinging while buffing. Best results are obtained when used with a 3M™ Superbuff™ Pad (PN 05700) or 3M™ Hookit™ Compounding Pad **(Order No. 606-05711)** on a slow speed polisher (1500-2500 RPM). **Size: 1 Gallon**

ORDER NO. 606-60251 Mfr. No. 06025

3M™ FINESSE-IT™ MARINE PASTE COMPOUND - WHITE

3M™ Finesse-it™ Marine Paste Compound-White is designed specifically for aggressive compounding of gelcoated fibreglass surfaces. This product is well suited for boat reconditioning of heavily oxidized surfaces/finishes. This product is also well suited for removing P800 sand scratches on production gelcoat and grade 1000 or 1200 sand scratches on tooling gelcoat. White colour reduces the potential for staining of light coloured boats. Has long-working time, requiring less compound to be used per application. **Size: 1 Gallon**
ORDER NO. 606-60390 Mfr. No. 06039

3M™ FINESSE-IT™ II MACHINE POLISH

3M™ Finesse-It™ II Machine Polish is designed for use on OEM and fully cured automotive paints. Can remove grade microfine 1500 sand scratches. Removes swirl marks after compounding while leaving a glazed finish.VOC content less than 17%.
ORDER NO. 606-05928 **Size: 32 fl. oz.**
Mfr. No. 05928

3M™ MARINE SUPER DUTY RUBBING COMPOUND

Designed to give a fast aggressive cut on all refinish and OEM paints. Can be used to remove heavy oxidation, minor orange peel and overspray. Also can be used to remove ultrafine or finer sand scratches. Should be used with an air or electric buffer.
ORDER NO. 601-05954 **Size: Quart**
Mfr. No. 05954
ORDER NO. 601-05955 **Size: Gallon**

BONDO-GLASS® FIBREGLASS REINFORCED FILLER

Bondo-Glass is a unique reinforced filler containing short, interlocking fibreglass strands and fibers that make it twice as strong as regular body filler. Repairs small (dime size or smaller) rusted-out metal holes and shattered fibreglass body parts. Works great on boats! Eliminates the need for backing strips, fibreglass resin or cloth on small holes and rusted-out areas. Sandable in only 20 minutes and compatible with all paint systems. Waterproof. Includes Red Cream Hardener.

ORDER NO.	Mfr. No.	Size
600-99272	272C	1.2 kg/1 Qt

BONDO® FIBREGLASS RESIN REPAIR KIT

Bondo® Fibreglass Repair Kits have everything needed for the Do-It-Yourselfer, including easy How-To directions, Fibreglass Resin, Liquid Hardener, Plastic Spreader, Fibreglass Cloth, Mixing Stick and Mixing Tray.

ORDER NO.	Mfr. No.	Size
600-99420	B-00420C	**Kit contains:** 237 ml/8 fl oz Fibreglass Resin 6 ml/0.20 fl oz Liquid Hardener Plastic Spreader, Fibreglass Cloth Mixing Stick, Mixing Tray
600-99422	B-00422C	**Kit contains:** 946 ml/29 fl oz Fibreglass Resin 11 ml/0.37 fl oz Liquid Hardener Plastic Spreader, Fibreglass Mat Mixing Stick, Mixing Tray

BONDO® FIBREGLASS CLOTH - 8 SQ. FEET

Bondo® Fibreglass Cloth is great for repairs on metal, fibreglass, wood and many other surfaces. When used with Bondo® Fibreglass Resin, repairs are 100% waterproof, making the products ideal for boat repair, tub, shower, sink, pool, hot tub and more.

ORDER NO.	Mfr. No.
600-99499	B-00499

3M™ MARINE PREMIUM FILLER

3M™ Marine Premium Filler is a unique vinyl ester formulation designed for marine filling and fairing applications above and below the waterline. 3M™ Marine Premium Filler resists water absorption into hulls, decks and other fibreglass parts. 3M™ Marine Premium Filler is a unique and easy to sand formula designed with 3M™ Scotchlite™ Glass Bubbles.

ORDER NO.	Mfr. No.	Size
604-60061	46006	**Size: 1 Gallon**
604-60050	46005	**Size: 1 Quart**

BONDO® FIBREGLASS RESIN

Bondo® Fibreglass Resin is the same high-strength polyester resin that is used to build most boats. Can be used alone or with fibreglass tape, cloth or mat to repair damaged fibreglass boats, snowmobiles, jet skis, bathtubs and showers. Can also be used as a sealer on damaged and rotted wood. Seals concrete, is great on large or small metal rust-outs and joins most surfaces together while creating a strong and long lasting bond. Sandable in less than 2 hours. Compatible with all paints, including gel coat and marine paints. Waterproof.
Includes Liquid Hardener.

ORDER NO.	Mfr. No.	Size
600-99402	402C	946 ml/1 Qt with Hardener

LIQUID HARDENER

Bondo® Liquid Hardener is for use with Bondo® fibreglass resin and other resins requiring a liquid MEKP hardener.

ORDER NO.	Mfr. No.	Size
600-99912	B-00912C	11 ml (.37 fl oz)

RED CREAM HARDENER

Bondo® Red Cream Hardener is designed to be used with Bondo® Body Fillers and Bondo-Glass. Formulated and packaged under temperature-controlled conditions which assures freshness and maximum performance.

ORDER NO.	Mfr. No.	Size
600-99913	B-00913C	21 g (.75 fl oz)

PLASTIC SPREADERS

Use with body fillers, fiberglass resin, putty, etc. Gives you a smooth finish. Available in 3 sizes: 2-3/4 x 4", 3" x 5-1/4", 3-1/2"x 6-1/4". Reusable

ORDER NO.	Mfr. No.	Description
600-99357	B-00357	Spreader, 3 pack

3M™ HIGH STRENGTH REPAIR FILLER

3M™ High Strength Repair Filler is a unique vinyl ester formulation designed with short strand fibreglass for blister and other semistructural repairs, above and below the waterline. This high performance reinforced filler is designed to reduce water transmission and absorption into repaired areas of fibreglass hulls, decks, and other parts, reducing the possibility of future osmotic blister damage.

3M™ PRECISION MASKING TAPE

Mint green paper masking tape made with a strong yet ultra-thin, ultra-smooth paper backing

- Made with an acrylic adhesive
- Excellent UV resistance
- Delivers sharp, clean and precise paint lines
- Suitable for use with waterborne and solvent paints
- Allows taping over freshly painted surfaces sooner with less chance of imprinting
- Removes easily without tearing or adhesive transfer
- Semi-transparent backing allows the painter better visibility for colour separation

ORDER NO.	Mfr. No.	Size

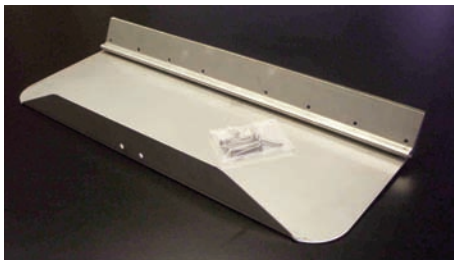
011-03694	36" x 9"

TRIM PLANE ASSEMBLIES

We cut and bend all tabs and mounting plates. Bennett tabs are not welded because welding creates a condition which invites corrosion. In operation, these strong tabs remain rigid even in the most challenging of situations.



Sport Tab SERIES

Bennett's M80 and M120 Sport Tabs are ideal for trailering boats in the 17-foot to 23-foot range. Their unique Batwing design provides 30 percent more lift than conventional trim tabs and their space-saving design ensures easy installation on virtually any transom. Trim tab kits include two stainless steel trim tabs, two actuators, a hydraulic power unit, all necessary wiring, tubing, hardware and installation video. Includes Euro-Style Rocker Switch Control.

	TAB SIZE	BOAT SIZE	ORDER NO.
M-80 Sport Tabs	8" x 10"	17-20 ft. Lengths	011-00080
M-120 Sport Tabs	10" x 12"	20-23 ft. Lengths	011-00120

Trim Plane & Mounting Plate for M-80	011-00084
Trim Plane & Mounting Plate for M-120	011-00124
Installation Video	011-00000
Actuator Assembly Short (11-3/4")	011-01200-1

Sport Tabs are the strongest, beefiest Bennetts ever. Designed for moderate performance use around 60 MPH, all three systems feature heavy gauge, reinforced black coated stainless steel trim tabs with heavy duty mounting plates and fasteners.
The ST16 and ST12 Sport Tabs use two actuating cylinders per trim tab. Each kit includes the top-of-the-line Rocker Switch control. Bennett Sport Tabs are designed to meet the performance challenge.

BOLT Electric Trim Tab Systems

BOLT ELECTRIC - ELECTRIC TRIM TAB SYSTEMS FOR TRAILERED BOATS

Boater's can now enjoy a durable and reliable electric trim tab system designed for 17-28 foot boats.

Bennett leads the way with a brand new electric trim tab system designed to outperform and outlast any electric system on the market. Compared to other electric systems using old technologies designed over twenty years ago, the BOLT Electric combines cutting-edge technology with a robust and water-tight actuator. This new "Superior by Design" technology resolves the issues that older systems have with breaking apart and water intrusion caused by design flaws and marine growth. While it is strongly recommended to use hydraulic trim tabs for most applications, electric trim tab systems are suitable for:

- Trailering boats from 17-28 feet (5-9 m)
- Single actuator use, due to the inability to syncronize two electric actuators on the same tab

Legendary Customer Satisfaction
5 Year NO-HASSLE WARRANTY
U.S. and Canada Only

BOLT Electric Trim Tab Systems Include:

- 12-volt actuators (2) with 6 ft. wire harnesses and waterproof connectors
- Stainless steel trim planes (2) and mounting plates
- 20 ft. or custom length harnesses (2) with waterproof connectors

BOLT Electric Controls (Sold Separately) Include:

- Diagnostics Control box with 3 ft. wire harness and diagnostics
- BOLT Electric Control (with or without LED indicator)

Features At a Glance:

Choose between 3 Control Options

- Wires are concealed and protected through the upper hinge
  – there are no exposed wires to the marine environment
- Robust, water-tight black nylon actuator provides trouble-free operation
- Main seal located high to protect against marine growth & water intrusion failures
- Quieter than any other system on the market – No more scaring the fish away!
- Installation is fast – no need to disassemble parts of the actuator
- 5 Year No-Hassle Warranty (U.S & Canada only)

Upgrade Your Existing Electric Trim Tabs with Bennett's BOLT Electric

- The BOLT Electric is designed to connect to many existing electric trim tab systems

TRIM TAB CONTROLS for BOLT ELECTRIC TRIM TAB SYSTEMS

BOLT Electric Trim Tab Systems

INTEGRATED HELM CONTROL - ELECTRIC

Replaces: 011-68000 (BCI8000)

NEW!

ORDER NO.	Mfr. No.
011-90000-E	OBI9000-E

INTEGRATED HELM CONTROL HYDRAULIC

Replaces: 011-50000 (EIC5000)

NEW!

ORDER NO.	Mfr. No.
011-90000-H	OBI9000-H

An attractive & user-friendly, stand-alone helm control without the need for an external control unit. The functionality & "brains" of the control unit are engineered directly into a single, space-saving, & simple-to-install keypad. Reduce bow rise, plane faster, & correct listing.

- Convenient "All Up" and "All Down" buttons
- Trim tab position LEDs always show you where your tabs are
- Auto tab retraction (tabs retract up when the ignition is powered off)
- Easy-to-install single lock nut design
- Compatible with other trim tab system brands
- Backed by Bennett's outstanding customer support

JOYSTICK HELM CONTROL ELECTRIC ONLY

Replaces: 011-66000 (BCIN6000)

NEW!

ORDER NO.	Mfr. No.
011-10000	JOY1000

The joystick helm control acclaimed for it's instinctive & intuitive interface is back—with a sleek redesign! Reduce bow rise, plane faster, & correct listing.

- Easily trim your vessel like a boss!
- Instinctive & intuitive feel & operation
- Backed by Bennett's outstanding customer support
- Connects directly to your actuators with plug-&-play connectors
- Auto tab retraction (tabs retract up when the ignition is powered off)
- Compatible with other trim tab system brands

SLT SELF–LEVELING TAB SYSTEMS

Now you can have the durability of a Bennett Trim Tab System with a simple quick and easy installation. There is nothing to do inside the boat – only the mounting of two actuators and two tabs at the transom. It's an affordable, simple solution for small boats from 10 to 18 feet.

With the SLT, you can plane at lower speeds, improve your hole shot, reduce engine laboring, improve fuel efficiency and eliminate porpoising. The SLT reacts instantly to boat speed and water pressure by adding trim when it's needed. You get a better ride while the SLT does all the work.

011-50010

SLT Kit Includes:

- Two 14-gauge stainless steel trim tab assemblies with Bennett's exclusive interlocking hinge
- Two strong and durable actuators
- All stainless steel hardware – no plastic!
- Features the same quality material used in Bennett Standard Hydraulic Systems
- Bennett's no-hassle 5-year warranty on all components

011-50006

Two Size Options:

SLT6, with 6" x 8" tabs, designed for boats from 10 to 14 feet
SLT10, with 10" x 10" tabs, designed for boats from 14 to 20 feet

ORDER NO.	Mfr. No.	Description
011-50006	SLT6	Self-Level Tab System, 6" x 8"
011-50010	SLT10	Self-Level Tab System, 10" x 10"

AUTOTRIM PRO - All-in-one Trim Tab Control System

Designed for use with either electric OR hydraulic systems, for boats of all sizes. AutoTrim Pro automatically levels the pitch and roll of your boat, adjusting your trim tabs to changes in vessel speed, sea conditions and shifting weight. Enjoy the convenience of riding in auto mode, or shift to full manual mode anytime.

Auto Trim Control:
Easily store 2 favorite automatic running attitudes in memory. See real-time AutoTrim Pro adjustments with LED indication.

Manual Tab Control with Automatic Overide:
Just push anywhere on the bow up or down buttons and you're in full manual command of the trim tabs.

OEM Customizable Response Time:
Configure response time to engine power, hull type, actuator type or trim tab size.

Trim Tab Position Indication:
L.E.D. indicators equipped with adjustable light intensity.

One-Touch Full Up and Full Down Buttons:
Down for hole-shot, up for running in a following sea, or coming into the beach

Automatic Tab Retraction:
Retract trim tabs to full up position when the boat's ignition is switched off, protecting tabs during storage and trailering

Now NEMA Capable!

TRIM TAB SWITCH

- Euro style rocker switch
- Water resistant

ORDER NO. 011-10006
Mfr. No. ES2000

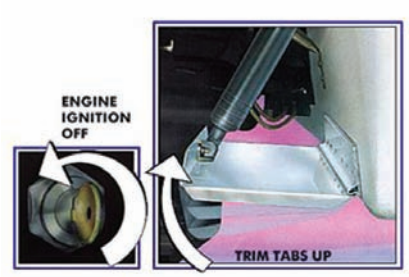
Euro Style Rocker Switch

THE AUTO TAB RETRACTOR

The Bennett ATR automatically retracts the trim tabs when the boat's ignition is turned off. Boaters with trailerable boats experience an added measure of defense from trim to tab damage with the trim tabs "full-up" during hauling, trailering, and storage.

- Reduce the risk of trim tab damage from: Fork lifts, Trailers, Dry storage racks
- Avoid unnecessary marine growth on actuating piston.
- Relieve hydraulic pressure when tabs are not in use.
- Plus...if your boat is not equipped with Bennett Trim Tab indicators, the ATR assures you the trim tabs are all the way up every time you start up.
- Easily installed behind instrument panel.
- Operates Bennett and Boat Leveler systems.

ORDER NO. 011-00512
Mfr. No. AR512



HYDRAULIC POWER UNIT

Durable compact (4" x 7-1/2" x 5-1/2") unit which powers the trim tabs. HPU uses automatic transmission fluid.
Mfr. No. V351HPU1

ORDER NO. 011-00001

ACTUATOR ASSEMBLY

Flexible nylon/fiberglass hydraulic cylinder moves trim tabs into position. The actuator measures approximately 13-1/2" in length.

DOMETIC STANDARD ELECTRIC TRIM TAB SYSTEMS

DOMETIC OUTDOOR

KITS: Include (2) 2.25" Standard Actuators, Controller, Harness, & Standard Tabs

Premium performance & appearance trim tab system.

All-electric design reduces complexity & provides reliability.

- **Intuitive Dial Controller** with one touch activation Dometic's dial control allows you to level the boat & program favourite positions.
- **Robust Two Piece Actuator** Dometic's rigorously tested actuators provide fewer points for water ingress, free wheeling ball screw technology, & protected shaft seals. High load capacity electric actuator for maximum lift force & precise tab positioning
- **Stainless Steel Tabs** Utilizes 316 marine grade stainless steel hardware 304, 12GA stainless steel tabs, with a 14GA hinge & 0.25" hinge pin durability

ELECTRIC TRIM TABS

STANDARD MOUNT TRIM TAB KITS - 12-VOLT

The most popular series. Ideal for most common style boats from center console fishing boats to cuddy cabin cruisers. Blades are constructed of 12 gauge (2.7mm) laser cut 304 stainless steel with 5/8" (1.6 cm) flared trailing edge & 1/8" (3.2 mm) diameter hinge pin. Upper & lower high impact corrosion proof mounting brackets with mechanical cable gland seal.

NEW!

& IMPROVED

Kits Include:
(2) 12-Gauge stainless steel standard finish blades
(2) Actuator with 6' leads and Deutsch connectors (Order #288-15054)
(2) 20' Actuator extension wiring harness (Order # 288-30133)
(2) Upper mounting bracket with gland seal (Order # 288-15085)
(2) Lower mounting bracket (Order # 288-50014

EDGE MOUNT TRIM TAB KITS - 12-VOLT

Designed for boat applications where lower actuator mounting height is desirable. Fast response electric actuators for precise control. Fully submersible. All Plug & Play Deutsch connections. Blades are constructed of 12-gauge (2.7 mm) laser cut 304 stainless steel with 1" (2.5 cm) turned up edges & a 5 degree taper on both sides to the trailing edge, & 1/8" (3.2 mm) diameter hinge pin. Actuator mounts at the trailing edge of the blade giving it a 1/2" (1.3 cm) lower mounting height on 9" (22.9 cm) long blades & 3" (7.6 cm) lower mounting height on 12" (30.5 cm) long blades. All edges are turned up for added strength & style. Upper & lower high impact corrosion proof mounting brackets with mechanical cable gland seal.

Kits Include:
(2) 12-Gauge stainless steel standard finish blades
(2) Actuator with 6' leads and Deutsch connectors (Order #288-15054)
(2) 20' Actuator extension wiring harness (Order # 288-30133)

AUTO GLIDE™ BOAT LEVELING SYSTEM AFTERMARKET KITS

The World's Leading Boat Leveling Trim Tab System

A Real Automatic Boat Control / Trim Tab Control System that actually works – completely & automatically! The Auto Glide system controls your trim tabs from the time you leave your dock until you come home again! The Auto Glide uses engine data and GPS data (depending on your installation method) to drive your boat to the most efficient running angle by adjusting your Lenco trim tabs as needed.
The Lenco Glide System will work on ALL boats with ALL engines. GPS data is used to provide data to the control box. Optional connection to NMEA 2000 is included.

- Boat must be equipped with Lenco Electric Trim Tabs
- Simple all in one solid state design
- Minimizes bow rise on take off
- Adjusts to changing sea conditions automatically
- Automatically trims boat to the most fuel efficient position
- Cuts planing time in half
- Manual override at the touch of a button
- Reads SmartCraft NMEA 2000 & J1939 data

Kit Description

- 12 & 24 volt compatible
- Fast & easy installation
- All plug & play connections
- All waterproof, solid state components (Key pad with waterproof connector) (control box with waterproof mating connector)
- Quick response
- Built-in retractor for trim tabs except while in manual mode
- Dual station installations available

For Single Actuator Trim System

Overall length tip to tip = 12-1/2"
The 101 Actuator is used in all Standard, Edge Mount & Standard Performance kits.

ORDER NO.	Mfr. No.
288-15054-1	15054-001

5-16" mounting hardware with 6' cable.

101 XD ACTUATOR 12 VOLT

2-1/4" stroke (5.715 cm)
Overall length tip to tip = 11-3/8"
The 101 XD Actuator is used mostly with HD, XD, High Performance & Super Strong tabs.

ORDER NO.	Mfr. No.
288-15055-1	15055-001

5-16" mounting hardware with 6' cable.

ORDER NO.	Mfr. No.
288-15056-1	15056-001

3/8" mounting hardware with 6' cable.

101 XDS (SHORT) ACTUATOR 12 VOLT

2-1/4" stroke (5.715 cm)
Overall length tip to tip = 10-7/8"
The 101 XDS Actuator is used with OEM specific kits & limited space applications. It is the shortest actuator Lenco manufacture.

ORDER NO.	Mfr. No.
288-15057-1	15057-001

5-16" mounting hardware with 6' cable.

Lenco electric actuators replace Bennett 4-ring actuators.
All Lenco products are CE certified.

DOUBLE ROCKER SWITCH KIT
SINGLE ACTUATOR SYSTEMS
12 VOLT

Without built-in retractor feature for single actuator systems.

- For standard trim tabs, standard & HD Performance Tabs (Single Actuator Versions)
- With 36" power pigtail
- Installation hardware included
- Clam shell packaged

ORDER NO.	Mfr. No.
288-10220	10222-211D

BENNETT HYDRAULIC - TO - LENCO ELECTRIC
CONVERSION & PERFORMANCE UPGRADE KIT
12 VOLT

This simple conversion & performance upgrade kit includes everything necessary to upgrade your current boat without any drilling or filling of holes.

- Upgrade to instant response electric actuators
- Improve boat performance
- Eliminate messy hydraulic pump unit
- Use your existing Bennett trim blades
- No new holes to drill
- Retrofits other hydraulic systems with minor modifications

ORDER NO.	Mfr. No.
288-15064-1	15064-001

LENCO

LED INDICATOR INTEGRATED TACTILE SWITCH KIT ALL-IN-ONE

NO MORE EXTERNAL CONTROL BOX

- Simple, quick, Plug & play - Deutsch Connectors
- With Built-in Automatic Retractor
- LED indicator switches have backlit key pads with a photo eye that self-adjusts for optimum viewing in low light conditions
- Includes Pigtail for **SINGLE** Actuator Systems
- Helps to free up space behind console
- Design shortens installation process

ATTENTION: REPLACEMENT KEY PADS & CONTROL BOXES FOR 2016 & PRIOR SWITCHES ARE NOT COMPATIBLE WITH THE NEW 15170-001 INTEGRATED SWITCH KITS.

Lenco # 15170-001

ORDER NO. 288-15170

GENUINE LENCO REPLACEMENT PARTS & ACCESSORIES

UNIVERSAL ACTUATOR MOUNTING BRACKET REPLACEMENT KIT (for 1 Actuator)

Includes all stainless steel hardware and Delrin pin.

Kit Includes:

Upper Mounting Bracket w/Gland Seal (Mfr. No. 15085-001)-**New Style**
Upper Mounting Bracket w/Gland Seal (Mfr. No. 50015-001)-**Old Style**
Lower Mounting Bracket (Mfr. No. 50014-001)

ORDER NO.	Mfr. No.
288-15099	15099-001

STANDARD UPPER MOUNTING BRACKET with GLAND SEAL

Vandar (3 screw holes, 1 wire hole)
Previous through 2007 - **Old Style**
Clam shell packaged

ORDER NO.	Mfr. No.
288-50015	50015-001D

STANDARD LOWER MOUNTING BRACKET VANDAR (3 SCREW HOLES)

Clam shell packaged.

ORDER NO.	Mfr. No.
288-50014	50014-001D

UPPER MOUNTING BRACKET with GLAND SEAL

Vandar (3 screw holes, 1 wire hole)
2008 through Current - **New Style**
Clam shell packaged.

ORDER NO.	Mfr. No.
288-15085	15085-001

DELRIN MOUNTING PIN

For 101 & 102 Actuators (1.5").
(Pack of 2)

ORDER NO.	Mfr. No.
288-15087	15087-001

DEUTSCH CONNECTED ACTUATOR EXTENSION HARNESS'

20 foot, 14 AWG
Clamshell Packaged'
ABYC Compliant.
(Sold individually) - One needed per actuator

ORDER NO.	Mfr. No.
288-30133	30133-103D

TURNING POINT® PROPELLERS

Industry Leading Manufacturer of Aluminum and Stainless Steel Pleasure Boat Propellers

CONTENTS

About Turning Point Propellers ____ TP1-6

Turning Point Propellers Part List ____ TP22-23

Who Is Turning Point Propellers

- One of the worlds largest propeller manufacturers. We own and operate our own aluminum and stainless steel foundries. From ingot to warehouse, we control 100% of the process.
- United States Corporation with warehouses in Jacksonville, FL and Chicago, IL.
- Design our propellers in Jacksonville, Florida. With a southeastern location we benefit from year round testing facilities that give us the ability to bring new product to market faster than our competition.
- We focus on engineering high performance propellers. We have new tools, the latest metal forming technology, and unbeatable aggressive designs.

The Only Part That Moves The Boat

- The Propeller is the link between the propulsive force of the boat, engine, and media that the boat is moving through.
- Like the tires on your car, the prop transmits power to motion.
- A new boat comes with a prop from the lowest bidder or captive factory, like the tires on your car. A factory prop is a "Firestone".
- Turning Point makes "Pirelli's". High performance products that will allow the boater to experience a performance envelop never seen on their boat before.

There is no item sold in the Marine Industry as cost effective as a propeller to increase the performance of any boat.

What Propellers Does Turning Point Manufacturer?

- 3 and 4 blade designs. Aluminum and Stainless Steel.
- 2 piece - Prop Housings and Installation/Hub Kits available for the full range of 6-300+hp Outboards and Sterndrive applications.
- Propellers available for: Coleman® Evinrude® Honda® Johnson® Mariner® Mercury® MerCruiser® Nissan® OMC® Parsun® Suzuki® Tohatsu® Volvo Penta® and Yamaha® outboard and sterndrive applications.

Turning Point Propellers Features and Benefits

Vented Propellers for 40-300+hp Engines (17+ Pitch Props 4.75" & 4.25" Gearcases)

- Hustler Aluminum & Express Stainless Steel Housings Have Vented Barrels for Fast Hole Shot/Low End Acceleration.
- Turning Point is still the only manufacture using this race proven technique in aluminum props.
- Wake-Boarders & water skiers get up out of the water faster!

Large Exhaust Pathways for 8-300+hp Engines (Hustler & Express Prop Series)

- Turning Point's Props have massive exhaust flow pathways.
- 40% more exhaust flow area VS rubber hub propellers with restrictive exhaust flow path.
- More exhaust flow and less back pressure can generate more horsepower.
- Like headers for your boat.

Turning Point Propellers Features and Benefits (Con't)

Premium ULTRACOAT Powder Coat (Hustler Prop Series)

- Exclusive to Turning Point, the Ultracoat powder coat rivals a fine automotive finish, and is more durable than paint.
- Utilizing a state-of-the-art five step process, Ultracoat gives the propeller a shiny, uniform appearance that enhances any boat's good looks.
- This is the Gold Standard in aluminum corrosion protection. Props look newer longer! Compared to competitors' 4 step paint and coating processes that result in much less abrasion and corrosion resistance.

24 Hour Slurry Test: 600% More Wear! Competitor's Process

24 Hour Slurry Test: Minimal Wear! TP Exclusive Process

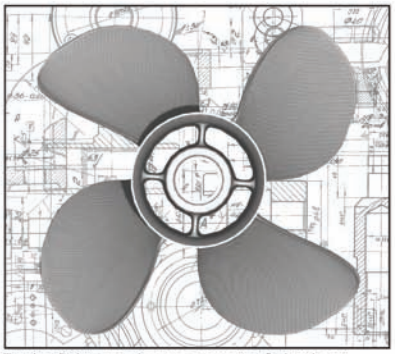
How Does Turning Point Design Industry Leading Performance Props?

When Turning Point designs a new prop for a given category, they identify the best performing OEM and Aftermarket stainless steel props in the market that fits into that category. A better aluminum & stainless steel version is designed at the same time using the same geometry & drawing. Through testing, Turning Point's engineers modify the design until it performs better than the best competitive Stainless Steel prop.

Turning Point Hustler aluminum props function just like Express stainless steel designs and run within 0.5MPH to 1MPH of each other most of the time. There are many reasons for this:

- Hustler props are produced from the same stainless steel geometry & drawing.
- Hustler is cast using the latest state-of-the-art squeeze casting technologies.

The competition does NOT use stainless steel blade geometry with no-blade-flex squeeze cast technology in their aluminum propellers. Competitive Die-Cast aluminum propellers significantly under perform when compared to stainless steel designs seen in the market.



Turning Point uses the same geometry & drawing to produce a version in aluminum and in stainless steel. Aluminum propellers end up functioning just like Stainless Steel.

Hustler Aluminum Squeeze Cast Blades Have No Blade Flex

Turning Point's Hustler aluminum Squeeze Cast blades have No Blade Flex, and use stainless steel geometry which results in stainless steel performance.

<u>TURNING POINT SQUEEZE CAST TECHNOLOGY:</u>

- Strongest blades, no voids, fine grain, and easily repaired.
- Squeeze casting like plastic injection molding: best method for aluminum casting produces the highest strength aluminum props available.
- Hustler Squeeze Cast aluminum propellers utilize class leading designs previously only used on stainless props for maximum performance.
- Squeeze Cast blades have No Blade Flex – Turning Point uses stainless steel drawings/ geometry which results in stainless steel performance.

<u>COMPETITIVE DIE-CAST TECHNOLOGY:</u>

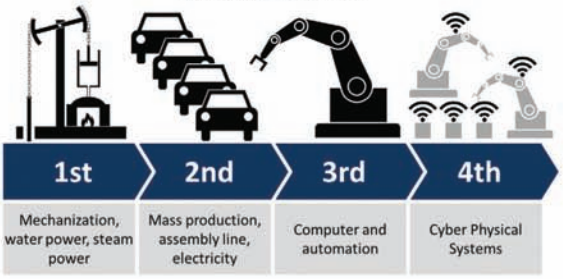
- Air bubbles, voids, and granularity. Blades that are weak, lack of strength and stiffness.
- Blades Flex under load, inefficient, loss of propulsive efficiency.
- Propellers that are difficult to repair.

Turning Point Squeeze Cast Blade

Competitive Die-Cast Blade

A Turning Point In Stainless Steel Prop Manufacturing

- Proprietary TP17™ Stainless Steel has over 20% more chromium than most of the competition for improved finish and corrosion resistance.
- Current State-of-the-Art casting technology with Turning Point's leading edge designs results in the Express Mach3, Express Mach3 OS, and Express Mach4 propellers.
- INDUSTRY 4.0 Manufacturing



For more information see: www.turningpointpropellers.com

Highlighted Examples of Turning Point's Unmatched Propeller Geometry and Propping Tips

4 Blades That Re-wrote the Rules (Hustler 4 Blade and Express Mach4, 40-300+hp)

The props that put the "four" in Perfourmance! These props re-wrote the rules, proving that you can run a four blade that has:

- Unprecedented hole shot, lift, handling, ease of steering, and rough water stability.
- No top-end speed loss you experience with other manufacturers' 4 blade propellers – keeps 3 blade top end speed.
- Lifts the entire boat higher out of the water.

By lifting the hull higher, boats tend to lose less speed when fully loaded versus a three blade prop. With a lightly loaded boat, a three blade is usually the faster prop for most applications. Alternatively when an application is loaded down with extra people and gear, a three bladed prop can lose up to 3 MPH. This is because the hull is forced deeper into the water causing more wetted surface by the added weight. By lifting the hull higher the Turning Point 4 blade when fully loaded does not lose the top end speed compared to a three blade propeller.

40-150hp w/ 4.25" Gearcase Applications: use Turning Point's state-of-the-art Swept Cleaver design (all 4 blades are the same).

150-300+hp w/ 4.75" Gearcase Applications: use Turning Point's Dual Geometry design that is uniquely engineered with two blade geometries:

- Two blades utilize a round ear high performance variable rake and aggressive pitch design for incredible bow lift, hole shot, and cornering.
- Two blades utilize a semi cleaver offshore style design for high speed and maximum stern lift.

Big Blades For Big Horsepower - Express Mach3 OS (150-300+hp)

- Improved cup, leading / trailing edges, aggressive progressive rake, and blade geometry.
- New design modifications produced a prop with excellent hole shot, impressive bow lift and class leading cornering.
- The Express Mach3 OS is perfectly matched to large horsepower bay boats, offshore center consoles and high horsepower tri-toons.
- Large diameter three blade props offer great mid-range fuel economy in most applications.
- Available pitch options: 11, 13, 15, 17, 19, 21, 23, 25, & 27 in Left & Right Rotation.

Why Upgrade To A Tuning Point Stainless Steel Propeller?

- Stainless steel propellers are much more durable compared to aluminum.
- Substantial better performance over competitive aluminum propellers. (Minimal performance difference, around 0.5-1mph speed gain over TP Aluminum Propeller Designs.)
- Large 15.6 diameter 3 Blade Express Mach3 OS only offered in Stainless Steel.
- Expect better performance over competitive OEM and Aftermarket Stainless Steel propellers.

What's The Difference Between A (3) Blade and (4) Blade Prop?

- A three blade prop gives high top end speed and good bow lift. Pontoons, boats with good power to weight ratios, light front ends run best with 3 blades.
- A four blade prop gives great hole shot (acceleration) and stern lift. Perfect for watersports and heavy/underpowered boats.
- A 4 blade prop will hold top speed longer than a 3 blade prop as you add weight (load) to a boat.

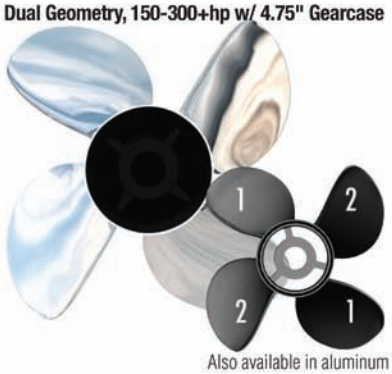
Generic Propping of Pontoon Boats

- More times than not use a three blade, unless the pontoon is under powered.
- Use large diameter Express Mach3 OS (OS) on High Horsepower Tri-Toons (200+hp).

Swept Cleaver, 40-150hp w/ 4.25" Gearcase

Also available in aluminum

Dual Geometry, 150-300+hp w/ 4.75" Gearcase



Also available in aluminum

Available in Stainless Steel Only

For more information see: www.turningpointpropellers.com

A Full Range of MasterGuard & MasterTorq Installation/Hub Kits Available for 6-300+hp Applications

Hub Kits Currently In The Market

Competitive Hubs Currently In The Market (Not TP Hubs)

Competitive Hub Kit Observations

- Some Competitor Hubs are made of Aluminum Anodized to confuse the boater into thinking it is brass. Aluminum splines become an anode in many conditions and may corrode.
- Soft Rubber Shears easily, can spin and leave the boater stranded like a rubber hub prop. Rubber covering is as thin as .035", Or 6 Sheets of Paper!
- Competitors Two Piece Hub Systems corrode, have corner breakout shift-shock damage, spin out, body failure in aluminum propellers, plastic splines.

Turning Point Installation/Hub Kit Features and Benefits

MASTERGUARD HUB SYSTEM

The Last Hub You Will Have To Buy • Engineered To Not Let You Down

- MasterGuard Installation/Hub Kits carry the only Lifetime* Warranty in the WORLD!
- MasterGuard Hubs have no* warranty restrictions, except for extreme commercial use.
- Saves a boater up to 33% on replacement propeller purchases (need to purchase prop housing only).
- One piece design: durable marine Bronze with Over Molded Glass Filled Nylon for Long Life.
- Re-useable after a Prop Strike.
- Warranted even if the prop is Destroyed!
- Enhanced lower unit protection.
- Warranted even if used in competitive propeller housings (Mercury, Michigan Wheel, Solas)

*Note: Lifetime Warranty on 500 & 700 Series Hubs Apply To Non-Commercial Use Only, for terms & conditions visit http://tpprops.com/warranty

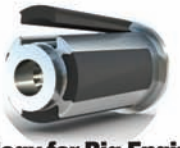
MASTERGUARD HUB SYSTEM

500 Series Installation Kit
Lifetime Warranty On
Engines < 200hp w/ AL & SS Props
Engines >= 200hp /w AL Props Only

SUPER DUTY MASTERGUARD HUB SYSTEM

700 Series Installation Kit
Lifetime Warranty On
Engines >= 200hp w/ SS Props

MASTERTORQ Fat Shaft Hub FSH



NEW Hub System NEW Technology for Big Engines with Big Prop Shafts

- For Mercury® Applications with 1.25" Prop Shafts
- 150-400+hp with 4.75-5.44" Gearcases Running Stainless Steel Props
- New extreme duty design and fit. 1 year material and workmanship warranty
- Can last a lifetime with low-cost replaceable cushioned material inserts.
- A more cost-effective solution vs OEM options currently in the market.
- Easy to install by hand, no hub press machine needed.

NEW

MASTERTORQ Fat Shaft Hub FSH

600 Series Installation Kit
1 Year Warranty On
Mercury Engines w/ 1.25" Prop Shafts

MASTERTORQ Sound Dampening Hub SDH

NEW SHIFT SOUND & VIBRATION DAMPENING HYBRID HUB SYSTEM

- Resolves an issue inherent in some outboard applications where noise at engine idle is transmitted throughout the lower unit caused by slack in the shift dog clutch assembly.
- For 40CT-300+hp Applications Running Stainless Steel Propellers
- More quiet more enjoyable - hybrid hub system. 1 year material and workmanship warranty
- Shift sound & vibration dampening rubber material with Hub Isolation Technology.
- Reliable over time, not likely to let loose & spin under normal use.
- Offers more lower unit protection. Doesn't lock into a solid hub position.
- Great replacement for Yamaha® SDS™and other brands.

NEW

MASTERTORQ Sound Dampening Hub SDH

800 Series Installation Kit
1 Year Warranty On
Engines > 40hp w/ SS Props

Prop Wizard Makes Every Dealer A Prop Expert

- Online Tool (https://turningpointpropellers.com/PROPWIZARD): Any dealer associate can access it on Turning Point's website or Prop Wizard can easily be embedded into the Dealership's website for use as if it was their own tool. It uses a database of 300,000 boats and over 7,500 engine combinations to calculate the most accurate diameter and pitch recommendation available: two props listed, one for cruising and one for water sports, allows dealers to upsell spare.
- Get the right prop the first time, reduces returns/exchanges. Saves time, saves money, maximizes profits, eliminates bad advice and unhappy customers. Tri-View Design for viewing on computers, smart phones, and tablets for easy propping anywhere in the dealership, even in the parking lot by a customers boat!

Prop Wizard - On-Shelf Prop Wizard Kiosks also available with qualifying purchase.

Selection Chart - Fast Access to Application Data (1 Page 2 Sided)

- Turning Point's entire product line fits on an easy to use non-tare two sided single sheet that includes a gondola mounting hole. Quickly find the hub and prop you need without thumbing through large and confusing catalogs commonly used by competitive manufacturers.
- Turning Point's products are grouped by horsepower range & gearcase size using a combination of shapes and colors making it easy to identify the parts needed for a given application.

Selection Chart

Quick Reference Guide / Master Catalog

- Search for a prop by engine manufacturer - products are then grouped by horsepower range & gearcase size within a specific manufacturer's section.
- Search using detailed engine application data in the back (includes Wide-Open-Throttle RPM information). Data organized by Manufacturer, Horsepower, Model, Year.
- Includes Hub Kit parts & stack-up listing that includes actual part images laid out in an easy to use format.
- Last two pages include a complete part listing.

OEM and Aftermarket Part Number Crossover to Turning Point

- Available in a spreadsheet or a printed version for Solas, Quicksilver, Michigan Wheel, and more. Look up an exact part to get the equivalent Turning Point item.
- Also available online within Prop Wizard's more prop finding tools tab.

Not All Recommendations Are Correct

Many times a propeller was sold to a customer that did not work out for their application due to unforeseen variables. All propeller manufacturers run into this situation. Boaters are often stuck with a propeller they can't use and are forced to purchase a second prop. This turns into a bad customer experience quickly.

Dealers and Boaters Are Not Stuck with The Wrong Prop

Propeller Pitch Exchange Program (Available Only for Contiguous USA)

For those customers who purchased the wrong pitch propeller and want to exchange for another pitch from the same propeller family. Turning Point will exchange for a $25.00 fee for each aluminum prop or a $35.00 fee for each stainless steel prop from their "exchange inventory". This nominal fee covers return shipping to the boater. The propeller housing to be returned for exchange must be in "new condition" - nicks, scratches, wear marks, or abrasions on any blade area will be rejected. This program is handled directly through Turning Point Propellers; for more information visit www.tpprops.com/exchange.

Contact Turning Point Propellers for access to any of the assets listed on this Page.

HUSTLER® ALUMINUM PROPELLERS

NEW ENGINEERING CRANKS UP BOAT PERFORMANCE

Stainless Steel Performance at Aluminum Prices
New unique blade geometry and manufacturing processes results in the highest performance aluminum propellers on the block. Hustler® propellers out performed most competitive stainless steel props in recent tests. Not only does top speed, handling and hole shot improve, but also mid-range performance, which will save you a ton in gas usage.

Squeeze Cast for Added Strength
Stainless steel performance is built into the Hustler Aluminum prop line. This is achieved through unique blade geometry and an exclusive Turning Point manufacturing process, Squeeze Casting. It generates the highest mechanical properties attainable in a cast aluminum prop resulting from a tighter grain structure. Stiffer blades means less flex and a faster prop. Competitors still use old Die-Cast processes that produce blades that flex, resulting in overall poor performance.

HOW TO USE THE APPLICATION CHART

If an original part number is not known or a propeller size or style change is desired, use the following procedure for selecting a propeller.

1. Locate the **BRAND** of outboard or sterndrive engine using the table of contents.
2. Locate the **HORSEPOWER/MODEL** and **YEAR** that corresponds with the engine brand.
3. Find the range of your **BOAT LENGTH**, and the boat use that best describes your vessel and usage.
4. Select the propeller **DIAMETER/PITCH** that best meets your vessel and usage.
5. Order the propeller using the **C.C.PART #** (Incorporates **Michigan Wheel part number indicated in blue**). Read across to the correct column for aluminum (Michigan Match® or Vortex® Series) or for stainless steel (Apollo® or Ballistic® Series) propellers, whichever is desired.
6. If **VORTEX®, APOLLO®, or BALLISTIC®** propellers are selected, the **XHS® / XHS II® HUB KIT** indicated must be ordered.
7. Carefully read ALL notes for **additional important attachment information**. (If **specific to a propeller,** it will be noted next to the part number.)

Unless otherwise noted: The XHS® / XHS II® hub kit is sold separately from the propeller. ***See Pages 1088 & 1089*** *for XHS® / XHS II® hub kit and miscellaneous hardware information.* *Vortex® and Apollo® propellers fit existing Mercury Flo-Torq® II hubs. Check existing hub for wear or damage and replace if necessary with Michigan Wheel XHS® / XHS II® hub.*

NOTE: This is a "general" application guideline for determining the appropriate propeller size for your vessel. Performance characteristics may vary due to the many kinds of boats, hull styles, loads and style of boating.

MICHIGAN WHEEL

Xchangeable Hub System

Michigan Wheel's Xchangeable Hub System (XHS®) absorbs impact and stress caused by shifting gears, and is designed to spin under significant impact to help protect your lower unit. XHS® / XHS II® is also designed to be interchangeable with Mercury's Flo-Torq II® hub system, potentially saving you money when replacing or upgrading your propeller.

Select propeller diameter and pitch from corresponding propeller series (reverse side) that best meets your vessel and usage.
Refer to MWM 2019 OBSD Catalog for specific engine years.
For complete installation, select a hub kit AND a propeller.

MICHIGAN APOLLO

With sizes available for 30 HP thru V6/V8, Apollo Standard Diameter propellers can be utilized on typical Outboard & Sterndrive applications. Apollo Large Diameter propellers are great for heavier applications that require increased blade area. Apollo propellers are also available in 4-blade configurations for improved hole shot under heavier loads, and are great for pulling/towing for water sports.

MICHIGAN BALLISTIC

Michigan Wheel's award-winning Ballistic® propellers feature characteristics of racing style propellers, including the proven Power Tip for peak efficiency. The Power Tip and cup combine to improve bite and reduce power loss, while highly cambered blade sections provide for higher speed and better bow lift. Available for a full range of applications (9.9 HP thru V6/V8 Outboard & Sterndrive), Ballistic propellers are the perfect choice for propeller upgrades.

MICHIGAN VORTEX

A high performance aluminum propeller featuring high performance blade geometry, precision balanced blades and high gloss powder coat. Vortex 4-blade increase hole shot, without sacrificing top-end speed. The aggressive blade geometry combines with added cup for peak acceleration and grip, while a reduced diameter helps maintain top-end speed. With equivalent or increased performance over OEM, at a lower cost, Vortex 4-blade propellers are ideal for pontoon, and deep-v aluminum fishing boats.

Excellence in Propulsion.

Replacing a Flo-Torq® Hub with Michigan Propellers

Replacing a Flo-Torq® Drop In Hub Design with Michigan Propellers

Propellers supplied from Mercury®, Mariner® and Force® since 1996 come with the Flo-Torq® II drop in hubs. When switching to Michigan Match® or Ballistic® propellers, change the attaching hardware set-up as follows.

When converting to a Michigan Propeller on a **V-4 gearcase**, eliminate B & C, replace A with H and use existing hardware F & G.

When converting to a Michigan Propeller on a **V-6 gearcase**, eliminate B & C and use A, D, E, F & G as attaching hardware (D & E replace C). Be sure to use high-performance trim tab 822777A1 for stainless steel installations.

Michigan Wheel offers the following attaching hardware kits for these installations:

999-90312 Includes D & E for the V-6 gearcase.
999-90332 Includes Forward Thrust Washer H for V-4 gearcase.

999-66011 Includes A, D, E, F & G for the V-6 gearcase.
999-66010 Includes H, F & G for the V-4 gearcase.

V-4 Gearcase EXAMPLE CC PART#100-31042	V-4 Gearcase EXAMPLE CC PART#100-31025

CAUTION: If the bearing is to be shrink fitted, care is required to prevent damage to the bearing. Cool the bearing gradually. Do not cool the bearing below -20ºF (-28ºC). Dry ice or other super cool materials should not be used. Pounding the bearing in a chilled state can cause damage to the bond between the rubber and the shell material.

MICHIGAN AQUALUBE

AQUALUBE

***AQUALUBE** bearings are designed for marine and industrial applications. The bearings feature a specially formulated rubber and are molded into various shell materials. The rubber is an extremely tough, chemical and oil resistant nitrile which offers outstanding resistance to abrasion and wear even in the most adverse conditions.*

MEGAWARE KEELGUARD/BOW GUARD

MEGAWARE KeelGuard®

Megaware KeelGuard is the original, patented do-it-yourself keel protector. Each kit comes with the tools you need to install the KeelGuard in less than one hour. Does it stay on? Yes, and we guarantee it. Each KeelGuard comes with an unsurpassed lifetime no hassles warranty against abrasion and adhesion failure. KeelGuard is so tough that it will protect your keel from grinding sand, abrasive rocks, and concrete boat ramps.

Without KeelGuard

With KeelGuard

Megaware KeelGuard is manufactured from a blend of the highest quality anti-abrasive materials resulting in ultra-tough protection against abrasion and wear. The combination of these materials and the extremely strong 3M pressure sensitive adhesive gives KeelGuard a superior bond, ensuring your boat a lifetime of protection and performance.

Megaware KeelGuard's patented hydrodynamic design ensures your boat or personal watercraft will not experience diminished speed or performance. KeelGuard often achieves greater top-end speed and enhanced handling on personal watercraft.

Beach your boat anywhere with a KeelGuard keel protector. KeelGuard is available in eleven* exciting colors to match your boat or personal watercraft. Used throughout the world by professionals, governments, defense forces, and boat owners, KeelGuard has a proven track record. With KeelGuard you can be confident you have the ultimate edge in protection and performance.

Recommended KeelGuard Length

5 ft. for boats 15 to 16 ft.
6 ft. for boats 17 to 18 ft.
7 ft. for boats 19 to 20 ft.
8 ft. for boats 21 to 22 ft.

Kit Includes:

- *KeelGuard with 3M Adhesive*
- *Scotch Brite Etching Pad*
- *3M Primer*
- *Specially Designed Burnishing Tool*
- *Instruction Sheet and Warranty Card*
- *Life-time Warranty*

SP674 - VMAX & HPDI 225, 250, 300 hp 2005-up

NOTE: Model Nos. not on our chart but on the Application Chart above can be ordered by special order. Approx 2-3 weeks delivery.

SKEG PROTECTION

MEGAWARE SkegGuard®

The Megaware SkegGuard provides the best of two worlds.
It will protect and prevent damage to your motor's skeg and can also be used to repair and replace an already broken skeg.

- Mirror polished marine grade 316 stainless steel
- 3mm thickened lower wear tab protects against ramp dragging and is great for river running
- Drain hole prevents against corrosion and freezing
- Do-It-Yourself install in less than 10 minutes
- Installs with as little as 2-3" of skeg remaining
- 3 year warranty

ENGINE SPRAY PAINT

Acrylic lacquers formulated for extended staying power.

- Colour matched to your engine's original colour
- For use on all outboard & inboard engines, stern drives, and lower units
- Fast-drying
- Superior durability
- Resistant to gasoline, oil, and heat
- Good hiding and adhesion
- 12 oz. net weight

COLOR VISION

- Heat & solvent resistant
- Colour matched to your engine's original colour
- Approved for use up 250˚
- Formulated for the marine environment
- For use on all outboard & inboard engines, stern drive, and lower units
- Quick-dry formula
- Oil & gasoline resistant
- 12 oz. net weight

CLEAR COAT

- Formulated for the marine environment
- For use on all outboard & inboard engines, stern drive, and lower units
- Increases luster and depth
- Quick drying formula
- Enhanced UV protection
- 12 oz. net weight

ZINC PRIMER

Use for steel and iron surfaces above and below the waterline.Zinc phosphate primer may be top-coated with two epoxies or left as-is.

- Ideal for aluminum surfaces above or below the waterline
- Excellent resistance to the marine environment
- Outstanding durability and abrasion-resistance
- 12 oz. net weight

SANDABLE PRIMER

For surfaces above the waterline, including bare metal, steel, iron, fiberglass, and wood

- Professional grade
- Provides single-coat hiding
- Superior adhesion
- Quick-dry formula
- Improves bonding of colour coat
- Helps fight rust
- Ideal for small repairs
- 12 oz. net weight

Each Sea-Dog Stainless Turnbuckle is made from AISI 316 stainless steel and features an electropolished bright finish at no additional cost. All thread sizes and wire rope sizes now conform to U.S. standards and are interchangeable with most other U.S. manufacturers.

Note: Item Number 185105 has 5mm metric threads.

General:
- *Turnbuckles should be lubricated before their first use and regularly thereafter*
- *Turnbuckles should be rinsed with fresh water regularly*
- *End fittings should be checked to ensure uninhibited universal movement*
- *Turnbuckles should also be inspected regularly for signs of damage such as bent terminals or cracking at thread roots, particularly at the end of thread*

SHIELDSFLEX II MARINE WATER/EXHAUST HOSE (w/Wire)

Black synthetic rubber tube and cover. Reinforced with wire helix imbedded between plies of HD synthetic cord.
Resistant to: exhaust fumes, ozone, mild chemicals, antifreeze, salt water.
Abrasion resistant. Odour permeation resistant.

- Engine Intake
- Wet Exhaust Connections - Use Where Bends Or Long Lengths Required
- Bilge Pump Intake/ Discharge
- Scupper Lines
- Toilet Intake, Discharge
- Holding Tank Vent, Pump Out

Temperature range:
-20° F to +200° F continuous, +250° F intermittent

Meets SAE J2006 Type R2
Meets ISO 13362:2004 - Type 1 - Class B

IMPROVED
NOW DOUBLE THE OZONE RESISTANCE
REQUIRED BY SAE J2006

Sierra Marine Engine and Drive Parts

SHIELDS® Marine Hose

EXOFLEX HOSE

ExoFlex Marine Hose is suitable for delivery of cooling water & exhaust gas.

- SAE J2006 R2 LLOYD Registered Type Approved
- Temperature Range: -22°F to 212°F, Peak 239°F
- Black corrugated synthetic rubber tube cover
- Resistant to heat, salt water, ozone, and abrasions
- Reinforced with synthetic plies, steel wire helices make it strong & kink resistant
- Very flexible with a 1.5" x ID" radius
- Tighter corrugations to optimize the perfect clamp location

SHIELDS SERIES 368 LOW PERMEATION MARINE FUEL HOSE

Fuel Feed - Gasoline up to 85% ethanol blended fuels/diesel/Bio=diesel all blends. Complies with EPA and CARB very low permeation requirements. Meets USCG Type A1-15 Requirements for pleasure boats.

- Plastic barrier veneer with NBR outer layer tube to limit permeation.
- Polyester reinforced.
- Weather / UV resistant NBR/PVC cover.
- Temperature range: -20° F to 212° F

Meets SAE J1527 Type A1-15, ISO 7840 Type A1
NMMA/CE Type Accepted

RIGGING FLANGE/HOSE UNION

- Completes professional rigging installation
- Complies with ABYC-NMMA specifications
- Split design of union allows installation on pre-rigged boats
- Fuel hose ports ID - 3/4"
- Installs with 2" ID T-H Marine rigging hose

ORDER NO.	Mfr. No.	Description
205-00311	RFHU-1-DP	Rigging Flange Hose Union, Black
205-00300	RFFHP-1-DP	Rigging Flange w/ Fuel Hose Port, Black

PERMANENT FUEL TANKS

All permanent tanks feature a swivel pick-up

MOELLER SELECT

MOELLER marine products

Quality
- In line quality checks
- Conform to all ABYC, EPA, USCG, ISO, CE, or other applicable standards
- ISO 9001:2008 certified. The ISO standard is a quality management system which helps ensure consistent products of superior quality.

Reliability
- 25 years and growing strong in Sparta, TN
- Mastercraft 2015 Supplier of the Year
- Outstanding customer service

Durability
- Rotationally molded, cross-linked polyethylene
- Production of up to 175,000 fuel tanks annually
- EPA compliant: permeation, evaporative emission, anti-spitback

Permanent Tank Specifications:
- Machined aluminum 3/8 in. withdraw fitting features 360° swivel poplock for hook-up convenience.
- Ethanol and biodiesel-corrosion and pit-resistant. Each tank is complete with molded fill neck and withdrawal/vent fittings molded directly into the shell.
- Fittings meet ABYC requirements and enable seamless connections with rigid low-perm hoses. UV rating of 8. Temp rating of -40ºF to 176ºF.
- Suitable for either gasoline and diesel use (**With Diesel Return Kit/ ORDER NO. 615-35724-10**)
- Hold-down grooves molded directly into tank shells for secure attachment with Moeller's Permanent Fuel Tank Hold Down Kit ***#615-35710***.
- Suitable as replacement tanks for boats built before 2011. If you own a later-model boat, contact Moeller or your manufacturer for direction.

CANADA'S MARINE SPARK-IGNITION ENGINE, VESSEL AND OFF-ROAD RECREATIONAL VEHICLE EMISSION REGULATIONS (MERV)

All "new build" boats must meet new emission & permeation requirements set out in the regulations for fuel tanks and fuel systems. Repairs to boats built after 2011 but prior to 2015 which are equipped with systems that meet the emission and permeation regulations of the United States EPA must not have these systems compromised through the use of non-emission certified components, while boats built prior to 2015 which do not have emission & permeation systems can be retrofitted with traditional fuel tank and fuel venting systems which have become the standard in Canada for many years. This would include non-barrier, below-deck permanently installed, fuel tanks & fuel handling lines. Standards are not applicable to portable fuel tanks & their associated fuel line.

LOW PROFILE
PORTABLE MARINE FUEL TANKS W/ GAUGE

Convenient Combination Fuel Pick-up w/ Sight Gauge

- Rugged one-piece compact design, tank shell construction designed to reduce fuel evaporation and retain octane value for longer periods
- Molded feet provide increased ventilation and stability
- Easily carry under seat portable fuel tank from your boat to the dock with integrated top handle
- Convenient combination fuel pick-up/sight gauge accepts standard 1/4 NPT marine tank fittings
- Low profile design comfortably fits under seats
- Molded from UV stabilized, high density polyethylene for long life
- Ideal for storage in transom well or in other small areas
- Meets CSA B376 and AS/ASNZ 2906 standards

ULTRA PORTABLE FUEL TANKS

Portable tanks are used to convey fuel directly to the engine. Portable tanks are not intended for permanent installation. They feature the same attention to detailed engineering and robust construction which set Moeller fuel tanks apart. They prevent the escape of hydrocarbons at the molecular level which makes them compliant with EPA emissions and permeation requirements. Constructed from seamless, thick-walled plastic, they are up to 30% tougher than other brands.

- ABYC/NMMA/EPA,CARB Compliant
- Rotating fuel withdrawal
- Fuel reserve
- Sight gauge
- Cap tether
- Audible click on closure of cap
- EPA-compliant
- Two-year warranty

MARINE ABOVE DECK ALL-IN-ONE FUEL TANK COMBO PACKAGE

Applications with 2 prong barb engines fitting.

- 1998 & newer Mercury outboards
- Most Evinrude/Johnson, most Yamaha outboards

Combo Includes:

- 1 6.5 gallon fuel tank (CSA & ISO13591 certified)
- Large carry handle
- 360˚ Withdrawal swivel low profile
- Direct sight gauge with glass lens
- 1 Universal fuel line
- 1 Quick disconnect to tank connector
- 3 Fuel line connectors (Evinrude/Johnson, Mercury, Yamaha)
- 1 Tank connector with sealant
- 1 Hose clamp

GAS WALKER 14 US GALLON (53 LITRE)

Quick-Fill Fuel Station

- Dimensions: 16.3" (41.5 cm)L x 11.1" (28.3 cm)W x 33.2" (84.4 cm)H
- Weight: 17.6 lbs. (8.0 kg)
- Large 2" filler neck
- 6" Heavy-duty tires
- 10' corded reinforced hose
- Stainless steel clamps
- Made from high density polyethylene (HDPE)
- Thick walled to control expansion & wheel rubbing
- Designed to fill & transport in horizontal position
- Dual mechanical shut-off valves at tank & hose
- Gravity flow design
- Average flow rate of 2 gallons per minute
- Robust molded-in handle
- Brass vented fill cap
- Spring-loaded nozzle for easy dispensing
- Packaged in a Hi-Visibility POP box
- Fuel Tank EPA & Carb approved for SORE

DuraMAX

14 GALLON (53 LITRE) WHEELED FUEL TRANSPORT

- **Flo n' Go LE (06799) Hand Pump is Included!!**
- Whether your fueling needs include water craft, hunting, camping, generator, backyard power equipment, etc., the wheeled fuel transport makes refueling a snap!
- Dual shut-off valves
- Use with gasoline, diesel or kerosene
- Quickly refuels
- UL approved, mechanically vented fill cap.
- Allows fuel to be pumped in any direction - even upward!
- Ergonomically designed, heavy-duty top handle with extra deep base unit handholds for transport.
- Meets D.O.T. & UN transportation requirements.
- Sturdy 6" (152mm) wheels eases maneuvering over uneven terrain

ORDER NO. 080-67920

TERA PUMP NEW!

TREDRUM ELECTRIC DRUM PUMP
(Plug-in) - Adjustable Telescopic

Applicable on 55 gallon drum & IBC totes.

- Delivery Volume: 7 GPM (27 LPM)
- Total Length: 43.7" (1110mm)
- Suction Tube: 33.5" (850mm) to 49" (1245mm)
- Discharge Hose: 78.7" (2 meters)
- Suction End OD: 2" (55mm)
- Power Source: DC 20V – **Includes AC 100 240V adapter**
- Weight: 2.45 lbs. (1.1kg)
- **Compatible Liquids:**
  Engine oil, hydraulic fluid, diesel, DEF, agricultural chemicals, water, kerosene, antifreeze, windshield washer fluid, mild detergents, light oils (max: 100cst) & many more
- **NON Compatible Liquids:**
  Gasoline, flammable liquids, Concentrated acids, drinking water, etc

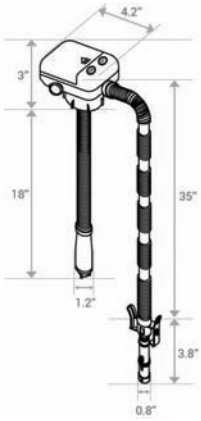
TERA PUMP

FUEL TRANSFER PUMP
Battery Powered Fuel Transfer Pump
3 GPM

Eliminates the lifting of large heavy gas cans, spilling, & wasted fuel. Tera Pump's exclusive design makes transferring fuel to boats, cars, trucks, off road vehicles, mowers, generators, & more, painless & hassle free. The built-in advanced auto-stop feature automatically stops when the transfer process is complete so you just sit back & watch it work. 3 included adapters allow the pump to fit 98% of fuel cans. The intake hose provides flexiblity to help grab the very last drop of fuel. This effectively reduces wasted fuel & allows for a more pleasant transfer process.
Pumps up to 3 GPM for a quick and easy transfer.

Features:

- Auto-stop
- Overflow protection
- Compatible Liquids: Gasoline, diesel, kerosene, & light oils
- Complete with 3 ft. flexible intake hose, 3 different sized adapters (2", 2.1", 2.75") to fit most gas cans
- Simple power buttons
- Suction hose with impeller
- 4 AA Batteries (Not included)



Gas Can Not Included

ORDER NO. 714-20042 Mfr. No. 20042

ELECTRIC FUEL SENDING UNIT - SWINGARM

615-35722-10

- Connects to a dash mounted gauge without a conversion capsule.
- Consumer can measure their tank depth and make the swingarm the correct length
- Internal measurement components will not rust or corrode!
- Calibrated to 33-240 Ohms - *An industry standard*
- 100% inspected during manufacturing to ensure the highest quality
- Swingarm float rotates easily in 90º increments for tank wall or baffle clearance
- Complete with 5 hole gasket and mounting screws

615-35727-10-1

ORDER NO.	Mfr. No.	Description
615-35722-10	035722-10	Electric Sending Unit for Tanks with a depth of 6" to 12"
801-35725-10	035725-10	Universal Electric Sending Unit 4" to 28" Kit 33 to 240 Ohms
615-35727-10	035727-10-1	Dash Mounted Electric Fuel Gauge 33 to 240 Ohms

MECHANICAL SENDING UNIT

615-35750-10

- All mechanical senders are calibrated to 33 to 240 Ohms - an industry standard. Compatible with competitive units
- Mechanical direct sight gauge comes complete on unit
- Gasket and screws(5) are included
- An optional conversion capsule (615-35760-10) is available for electrical dash-mounted gauge readouts. Conversion is simple by removal of two screws and replacement of capsule

ORDER NO.	Mfr. No.	Description
615-35750-10	035750-10	Mechanical Sender Fits 7-1/2" Deep Tank
615-35753-10	035753-10	Mechanical Sender Fits 11-3/4" Deep Tank

REED ARRAY SENDING UNIT

- Available with or without dash-mounted gauge - designed for top-mount in aluminum, plastic or stainless steel fuel tanks
- Limited lifetime warranty
- Material provides superior corrosion protection, both inside and outside the tank. Black wire is ground.
- For tank depths 6" to 24"
- Pre-bent 90˚ float arm

ORDER NO.	Mfr. No.	Description
801-35791-10	035791-10	Reed Array

REED SWITCH

Dramatically reduce "slosh fluctuations" which are inherent with swingarm units. Designed for all types of marine vessels. Sender top-mounts in aluminum, plastic or stainless steel fuel tanks. Reed Switch Materials: Stainless Steel with nitrile rubber float, provide superior corrosion protection, both inside and outside the tank. Black wire is ground.

801-35769-10

- Suitable for gasoline, ethanol, diesel, bio-diesel and non-potable water
- Fits tanks with depth ranging from 6" to 60"

Note: When purchasing sender length is 1" shorter than tank depth.

ORDER NO.	Mfr. No.	Tank Depth

MOELLER marine products

UNIVERSAL SWINGARM ELECTRIC SENDING UNIT W/ DIESEL RETURN

Moeller's patent-pending design enable integration of the return line found on diesel (and some fuel injection) engines. The sender gathers fuel level information from a float which is read on a dash-mounted gauge. Float rotates easily in 90 degree incremements for tank wall and baffle clearance. Internal components will not rust or corrode.

NOTE: Can ONLY be used for tanks with 1-1/2" cutouts.

ORDER NO.	Mfr. No.	Description
615-35724-10	035724-10	Tank Depth - 12" - 24"

ELECTRIC SENDING UNIT FOR 12"- 24" TANK DEPTH

A true DIY product, letting the consumer measure their tank depth and make the swingarm float the exact length for accurate fuel level. Calibrated to the Industry Standard of 33-240 Ohms. Requires connection to a dash mounted gauge. Internal components will not rust or corrode. Complete with 5 hole gasket and screws. To meet the needs of a return line found on diesel and some fuel injection engines.

NOTE: Can ONLY be used for tanks with 1-1/2" cutouts.

NEW!

ORDER NO.	Mfr. No.	Description

VENTED DECK FILLS & ACCESSORIES

NON-EPA VENTED DECK FILLS FOR 1-1/2" HOSE

With Colour Coded Resin Inserts for Gas, Diesel & Water

- Material: Scalloped stainless steel cap, resin body, polymer body
- Finish: Vented polished cap with black body & tether
- Deck plate key included
- Fill hose size: 1-1/2"
- Vent hose size: 5/8"
- Ground Wire: Not required
- Mounting Hole Dia: 2-1/8"
- O.D. Flange: 3-3/8"
- Screw Size: #8 - Neck Length: 2-7/16"
- Neck Length: 2-7/16"
- CE Certification

Features:

- Integral tank vent with anti surge valve
- Flame arrestor (on gas & diesel only)
- Deck plate key not required
- Colour coded resin inserts for gas, diesel & water

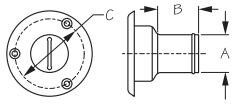
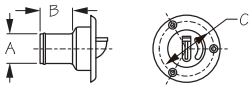
All caps include attachment chains.



DECK FILL WITH KEYLESS CAP - Injection Molded Fibreglass Nylon

The Sea-Dog Keyless Fills are entirely molded from fibreglass filled nylon and do not require grounding to the boat electrical system as required on all deck fills using metal components. Each deck fill has a special cap with a built-in key for easy cap removal. The hinged key can be locked in the upright position to open or close the fill and then recessed into the cap for a flush surface. In addition the caps are molded in special colours to help prevent the dangerous and costly problems caused by placing fuel in water or waste tanks or vice-versa.



ORDER NO.	Mfr. No.	Body Colour	Cap Marking	Cap Colour	A	B	C	FASTENER

90° P-TRAP FUEL TANK VENT

This vent helps prevent water from entering the fuel tank, yet allows air to vent freely, during normal sea conditions and washdowns. This eliminates the need for an anti-siphon loop in the vent hose. For 5/8" ID hose. Meets ABYC Standard. The arrows in this cross-section show the baffled route that the water would have to travel in order to reach the fuel vent hose. Compatible with Ethanol blended fuels.

FUEL VENT - FLUSH MOUNT 90° - *Enhanced 316 Stainless Steel Vent*

On the exterior, they have a smooth edge over the competition. Unlike some others, there is no protruding cap to cause damage — or be damaged by — hull bumps and scrapes. Cap unscrews with hex head wrench for easy cleaning of filter and pressure testing of entire fuel system. These vents now include two silicone gaskets.

ORDER NO.	Mfr. No.	Hose Size I.D.	Max. Hull Thickness	Installation Hole Size

PRE-FILTRATION FUEL FILTER FUNNELS

The **Racor Fuel Filter Funnel** (RFF) family is a heavy-duty, fast-flow, filter-in-a-funnel that separates damaging free water and contaminants from gasoline, diesel, heating oil, and kerosene.The RFF family of products is capable of removing free water and solids down to .0005 inches and allows you to visually inspect the integrity of your fuel supply as you refuel. The RFF family is manufactured using industrial-grade black electro-conductive polypropylene. Carbon powder is injected into the plastic so that the RFF will conduct static electricity. The grounding capability of the RFF is an important safety feature. Always use proper fuel handling procedures and follow local, state and federal regulations.

SCEPTER™ PORTABLE FUEL - JERRY CANS

Scepter Continues to Set the Standard for the Way You Flo n' Go

Always the leader in portable fuel can technology, Scepter developed the original plastic Jerry Can and changed the industry forever. For almost half a century Scepter has continued to set the standard with evolving product features that are breaking new ground in away-from-the-pump fuel transport and transfer like our new Child Resistant Closures (CRC's) available on our full line.

- Scepter Jerry Cans are virtually indestructible, manufacturerd from high-density, unbreakable polyethylene that is rustproof, crush-resistant and non-corroding.
- Self-Venting Jerry Cans feature a reversible self-venting spout – no need to worry about separate vent closures
- All sizes easily attach to the patented Flo n' Go™ hand pump.
- Extra Large, durable, molded-in handle provides superior comfort, pouring and carrying ability.

MILITARY STYLE DIESEL CAN

- UN approved
- Used by most NATO countries
- Flouro-elastomer gasket doesn't swell
- Used by most NATO countries
- Fits standard military bracket
- Can be used with blended fuels

FUEL LINE KITS

New low permeation fuel line kits meet all EPA requirements.
A re-engineered primer bulb along with new barbs and stepless clamps add strength and leak resistance.
EPA certified compliant hose. EPA certified fuel line. Ethanol compatible.

- EPA/CARB Certified
- Include LP Primer Bulb
- All kits include Attwood's exclusive Universal Sprayless Connector
- High-flow check valves ensure proper engine performance

UNIVERSAL SPRAYLESS CONNECTOR with Thread Sealant

The Universal Sprayless Connector is a safe way to eliminate the spraying of fuel when connecting and disconnecting pressurized fuel hoses during fueling or maintenance. Includes male and female connectors for use with all standard marine fuel tanks – ¼" in (6.4mm) NPT fittings.

- For easy replacement on any portable fuel line
- Pre-applied fuel grade thread sealant
- Double check valve for quick priming and unrestricted flow
- Alcohol resistant, suitable for use with leaded and non-leaded fuels
- Non corrosive, galvanized hose clamps
- Strong & durable
- Meets EPA and CARB requirements, 2 year warranty

ORDER NO.	Mfr. No.
108-88386	8838US6

PRIMER BULB

- Connections engineered for strength, durability and leak resistance
- Low-permeation, fiber-reinforced hose
- High-strength, low permeation bulb and hose resist collapse in extreme temperatures
- High-flow check valves ensure proper engine performance

ANTI-SIPON VALVES

Federal law requires the use of anti-siphon protection on permanent fuel tank installations. Moeller ASV's combine anti-siphon protection with a convenient hose barb design.
15 calibration yields 15" vertical height protection.
30 calibration yields 30" vertical height protection.

WATER SEPARATING FUEL FILTERS

Clear Site with Hydro-Shield™ offers the ultimate protection against water and other contaminates to help keep engines running at peak performance!

- Bowl and filter head are reusable!
- Extends the life of filter by draining collected water from fuel system.
- Easy turn thumb screw ensures a positive grip during draining of bowl.
- Drainage bowl is manufactured from UV protected resin.
- Available with powder coated or composite filter head – each style offers enhanced corrosion protection.
- Protect fuel systems from water and other contaminates.
- Provides cleaner fuel critical for today's engines to operate at optimum performance.
- Will not separate 2-cycle oil from gasoline.
- High performance 3/8 NPT ports offer lower vacuum pressure drop rates.

⚠WARNING

- Outboard engine use only!
- Not for use with diesel fuel!

ORDER NO.	Mfr. No.	Description

FUEL FILTER WATER SEPARATOR

SNAPP™ FUEL FILTER WATER SEPARATOR FOR OUTBOARDS

The fuel filter change… that changes everything
The One-Piece, High Performance Snap-In Fuel Filter Water Separator
Fits anywhere – Protects Everywhere

- Now the fastest fuel filter change is also the smartest
  - No Tools, No Mess, No Fuss
  - One-Piece Leak-Free Construction
  - Now, filter changes are a SNAPP!
- Snapp™ is 100% Racor quality
  - Legendary Aquabloc® filter media delivers efficiency in 2, 10 or 30 micron
  - Trademark Racor clear bowl for instant water-in-fuel inspection – Won't Rust!
  - Self-venting drain for easy service
  - Heavy-duty high impact nylon construction won't corrode
  - Rugged electrostatically-coated mounting bracket

Features:

- Easy to install and service
- Patented easy priming system
- For all small engines up to 250 hp – **Diesel / Bio-Diesel / Gasoline**
- Fuel fitting connection: Includes 3/8" quick connect fittings (per SAE J2044) for use with 5/16" I.D. hose
- Large finger tabs for one-handed removal
- Compact design

SPECIFICATIONS	
Maximum Flow Rate	26 gph (100 lph)
Horsepower Range	up to 250 hp
Aquabloc Micron	2, 10, or 30 micron
Height	7.8" (198 mm)
Width	3.8" (97 mm) at bracket
Depth	4.1" (104 mm)
Water Sump Capacity	3.4 oz. (100 ml)
Body Material	Nylon 6 plastic
Bracket Material	Stainless Steel
Port Size	3/8" (9.5 mm)
Quick Connect Fittings	3/8" (9.5 mm) per SAE J2044
Rated Pressure	50 PSI (3.5 bar)
Water Removal Efficiency	99%
Rated Temperature Range	-20˚ to 150˚F (-29˚ TO 66˚C)

AQUABLOC II

SNAPP™ fuel filter water separators are packaged for a first installation with mounting bracket & quick connect fittings.
The replacement kit includes a new SNAPP™ filter and priming accessory.
Note: Kits include Aquabloc media in 2, 10 or 30 micron ratings.
Two micron is recommended for ultra fine filtration of solid contaminants.

AQUABLOC II

OEM REPLACEMENT FUEL SEPARATOR FILTERS

The ParFit PFF5510 gasoline fuel filter/water separator filter replaces standard filters in many inboard, outboard, two and four cycle engine applications.
Fits Mercury, Mercruiser, Yamaha, Suzuki, Honda, Tohatsu and other applications using 11/16"-16 threads.
Dimensions are 3.6" dia. x 4-1/4" tall.

Features & Benefits:

- High containment capacity and 96% at 10 micron particle removal efficiency makes this filter suitable for all low or high pressure injection systems
- 99% efficient water removing filter media
- Performance exceeds OEM specifications.

NGK SERVICE BULLETIN

Subject: Introduction of "SOLID" Terminal Post for the Aftermarket Snowmobile & Watercraft.
NGK Spark Plugs has made available two of our most popular spark plugs for snowmobile & watercraft, those being BR8ES and BR9ES with a solid terminal nut.

(Please note that motorcycles still require BR8ES and BR9ES with the current style, having a screwable terminal nut.)
NOTE: NGK listing with the description "SOLID" means a solid terminal nut plug.

CHAMPION POWER SPORT™ More Power More Fun™

More Power – Less Fouling
For All Your Power Toys!
Champion PowerSport Spark Plugs Deliver Unmatched Performance.

- **More power**…for quicker acceleration.
- **Less fouling**…for faster throttle response-no more fouling.
- Sure Starts…delivers maximum ignition voltage.
- Eliminates RFI related static…in audio, on-board communications and engine management systems
- Extensive Coverage…seven SKU's cover over 90% of the personal watercraft and snowmobile market.

Note: PowerSport Plugs Below are Single Carded

Extremely Reliable Construction
The use of a strong material against a high temperature and high voltage phenolic resin and special rubber gives the plug cover a stable value.

Waterproof
Special rubber liners on both ends prevent drops of water from causing electrical leakage.

HOTFOOT FOOT THROTTLE

Allows you to Drive the Boat like you do the Car!

HOT FOOT™ PRO TOP LOAD FOOT THROTTLE

- Improved Safety & Throttle Control
- Topside Cable Connections
- Patented Idle Stop for FICHT & Optimax
- Stainless Steel Hardware with Teflon Bushings
- Requires longer throttle cable (Not included)

ORDER NO.	Mfr. No.	DESCRIPTION
205-60002	HF-1T-DP	HOT FOOT™ Pro Top Load Foot Throttle Fits: Johnson, Evinrude, Mercury, Mariner
205-62002	HF-1CT-DP	HOT FOOT™ Pro Top Load Foot Throttle Fits: Honda, Yamaha, Chrysler/Suzuki
205-60011	HFS-1-DP	HOT FOOT™ Replacement Spring (all models)

HOT FOOT™ FOOT THROTTLE

- Provides Added Safety & Performance
- All Cast Aluminum – Stainless Steel Hardware
- Nylon & Teflon Bushings on all Critical Pivot Points
- Patented Idle Stop for FICHT & Optimax Engines
- Accepts all engine manufacturers throttle cables
- Requires Longer Throttle Cable (Not Included)

ORDER NO.	Mfr. No.	DESCRIPTION
205-61111	HF-1-DP	HOT FOOT™ - Universal Model Fits all marine engines
205-60011	HFS-1-DP	HOT FOOT™ Replacement Spring (all models)

HOT FOOT™ SLIDE MOUNT

- Easy Adjustment of Hot Foot™
- Stainless Steel Fasteners & Release Pin
- Allows Over 5" of Slide Adjustment

ORDER NO. 205-00001
Mfr. No. HFM-1-DP

DOMETIC OUTDOOR

DOMETIC PRO-PEDAL FOOT THROTTLE

For High Performance Boats!

NEW!

118-70000-P

Dometic's Pro-Pedal foot throttle meets the individual requirements of a high performance bass boat driver. Offering significant advantages in terms of customization and comfort, its compact design keeps the boat floor uncluttered and allows for more room around the pedal. The adjustable pedal angle allows a driver to set up their boat for the perfect driving position. An integrated slide makes it easy to adjust the position of the pedal to suit different drivers.

- Allows the throttle cable to be routed from the front, back or above
- Locking fasteners hold a tight fit even under stress
- The enclosed mechanism and unique wedge prevents debris from inhibiting pedal function
- The mechanism is "universal" meaning it will accept any OEM style or 30 series engine specific sized cable
- Pedal position and travel can be easily adjusted to match the ergonomics of the driver while still providing full idle-to-WOT control
- Compact design keeps the boat floor uncluttered and allows for more room around the pedal
- Toe hook at the top of the pedal to allow the driver to manually pull the throttle back to idle if required
- These combined features of the Pro-Pedal amount to a 40% time savings during installation

ORDER NO.	Mfr. No.	DESCRIPTION
118-70000-P	FT7000P	Foot Throttle with Adjustable Slider Base Plate
118-70500-P	FT7050P	Foot Throttle

OUTBOARD MOTOR BRACKETS

PANTHER

ADJUSTABLE OUTBOARD MOTOR BRACKET

- Up to 10 hp or 80 lbs max. weight
- Constructed of stainless steel with spring assist for easy lifting
- Manual lifting required to raise and lower your auxiliary outboard motor
- 14" travel
- Pad size: 8.5" x 10.5" (Replacement No. 099-55650)
- Mounting hardware included
- Weight: 9 lbs.

Note: Not to be used with 4 stroke engines

Mfr. No. 55-0010 **ORDER NO. 945-50010**

ADJUSTABLE OUTBOARD MOTOR BRACKET

- Up to 20 hp or 115 lbs max. weight
- Constructed of heavy duty, light weight aluminum
- Designed for freshwater use on both powerboats & sail boats
- Manual power with spring assist
- 11" of travel with 5 stops
- Setback: 7.75" • Weight: 12 lbs.

Note: Not to be used with 4 stroke engines

Mfr. No. 55-0021 **ORDER NO. 945-50021**

OUTBOARD MOTOR BRACKET ALUMINUM MAX 12HP – 2 STROKE

- Heavy duty, lightweight aluminum bracket
- Designed for motors up to 12 hp or 82 lbs.
- Manual lifting with spring assist
- 14" of travel with 5 stops
- Pad size: 8.25" x 10.5"
- Setback: 7.75"
- Mounting hardware included
- Replaces 55-0022

Note: Not to be used with 4 stroke engines

Mfr. No. 55-0012 **ORDER NO. 945-00012**

4-STROKE OUTBOARD BRACKETS

- Up to 35 hp or 263 lbs. max. weight
- Anodized aluminum bracket is built to handle the increased weight and torque output of today's four strokes with long or short shafts
- Hand-adjustable with just the turn of a knob, stainless steel torsion springs counterbalance motor weight making adjustments a breeze
- 2" thick, extra wide mounting board, along with aircraft-type stainless steel hardware
- Spring assist • 8" setback • Weight: 20 lbs.

ORDER NO.	Mfr. No.	Description
945-50410	55-0410	5 Vertical Running Positions 10" travel (Replacement Pad No. 099-55651)
945-50416	55-0416	4 Vertical Running Positions 16" Travel

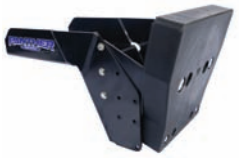
4-STROKE SWIM PLATFORM BRACKET

Built extra-tough and extra-wide for secondary engines including new higher-torque, four-stroke engines.

- Rated for 2 & 4 stroke motors to 20 HP or 195 lbs max. weight
- Comes complete with transom support bar for weight support and torque resistance
- Constructed of hard-coat anodized aluminum and can be adjusted to fit most platform heights and motor shaft lengths for optimal prop depth and performance
- Position trim adjustment available by moving bolts on bracket
- Style: Adjustable 3 vertical running positions, 4" Vertical Travel
- Mounting board is 2" weatherproof and maintenance-free polypropylene.
- Setback: 9-3/4" in the up position and 12" in the down position
- Adjustable mounting holes
- Pad size: 11.5" x 10.75"
- Stainless steel safety cable included
- Mounting hardware not included

(Do not use without Panther #55-0415 included safety cable)

- Weight: 19 lbs.



Mfr. No. 55-0030
ORDER NO. 945-50030

FIXED OUTBOARD MOTOR BRACKET

- Fits 2 stroke and 4 stroke motors weighing up to 150 lbs.
- Constructed of 1/4" heavy duty fabricated aluminum
- This economical fixed motor bracket is designed specifically for the weekend fisherman
- Features an 8" setback and a black anodized finish
- 5" high adjustment to accomodate short shaft motors
- To provide adequate support, the transom side of the bracket must be fully covered by the boat's transom.

DIMENSIONS:

Motor Plate Adjustable: 12" x 14.75" x 1/4" or 12" x 19.25" x 1/4"
Weight: 19 lbs.
Transom Plate: 10" x 12" x 1/2" (2) height adjustments

Mfr. No. 55-0027
ORDER NO. 945-50027

4-STROKE LIGHTWEIGHT BRACKETS

- Up to 15 hp or 132 lbs. max. weight

Note: 2-Stroke motors up to 20hp - (55-040SS model only)

- Built extra tough & extra wide
- Stainless torsion springs for easy lifting
- 2" thick, maintenance-free polypropylene mounting board
- Rated for long or short shaft engines

ORDER NO.	Mfr. No.	Description
945-04070 ALUMINUM	55-0407AL	Adjustable 5 Vertical Running Positions, 10" travel Setback: 8", Overall size: 8.50" W x 21"H
945-04080 STAINLESS STEEL	55-0408SS	Adjustable 4 Vertical Running Positions, 11" travel Setback: 7.25" (at top position) Overall size: 7.25" W x 21.5"H

INTEGRAL TRIM AND TILT – MODEL 25

The Integral Trim and Tilt Model 25 is made to provide trim and tilt features on motors that don't have factory trim and tilt.

- Designed to work with Johnson and Evinrude Two-Stroke outboards.
- Motors made from 1976 to 2004.
- Horse Power Ratings of 20, 25, 28, 30 and 35.
- Locking Shallow Water Drive (Flip Switch) must be on the side of the motor not the front.

ORDER NO. 934-00025 Mfr. No. 55-0025

Relay Control Only (ORDER NO. 934-55022)

TRIM AND TILT - MODEL 40

The Model 40 is a heavy duty fabricated aluminum bracket.
It will hold 2 and 4 stroke motors up to 150lbs.
8" setback - weighs 21lbs.

ORDER NO. 934-55040
Mfr. No. 55-0040

TRIM AND TILT - MODEL 135

For outboards up to 135hp or 350 pounds, the Heavy Duty Trim & Tilt maximizes lifting power (even greater than the outboard's tilt range). It also allows for increased tuck-under to get heavy boats on plane quickly.

ORDER NO. 934-00135
Mfr. No. 55-0135

TRIM AND TILT - MODEL 55

Perfectly designed for pontoons, fishing, or pleasure boats, the Trim & Tilt provides an additional five degrees of negative tuck for improved hole shot. Adapts to clamp on or bolt-through outboards.
Standard BIA bolt pattern.

ORDER NO. 934-00055
Mfr. No. 55-0055

AUXILIARY MOTOR LIFT - MODEL 35 - 13" SETBACK

Kicker motors are supported in any position with this durable design. In addition to its ruggedness, the Model 35 is the only kicker motor lift with a convertible setback.
It can be adjusted from 7 to 13 inches of setback, making it ideal for inboards

SEA-DOG LINE QUALITY MARINE GEAR

RAIL MOUNT MOTOR BRACKET

Injection Molded Polypropylene

Designed to hold small outboards up to 8 HP (2-cycle only) upright on the stern rail. Brackets will fit both 7/8" and 1" rails as well as rails using 90° tee fittings. The two piece unit is made of UV stabilized polypropylene and comes complete with fasteners. Extra holes enable the use of a recommended safety chain to secure the motor. It can also be used as a mounting platform for barbecues, downrigger brackets, fish cleaning tables, etc.

T-H MARINE

ATLAS™ HYDRAULIC JACKING PLATE

ATLAS™ SERIES HYDRAULIC JACK PLATES*

T-H Marine introduces the next generation in jack plate design, built for the heaviest and most powerful V6 engines on the market today, even the big four strokes. Our innovative high tech engineered polymer rod and slot lifting design guarantees trouble free action. This plate also features the newest concept in one-piece hydraulics from the most respected name in hydraulic design, providing the best of all worlds: Speed and self contained lifting action.

- Self contained hydraulic pump system - No reservoir or lines to install
- Fast! - 8 second lift time
- Rod and slot lifting design - Trouble free lifting action
- Hi-Tech engineered polymer rods - 6 times more abrasion resistant than steel
- Rods made from self-lubricating material
- Easy two-pin pump removal - Quick maintenance
- Installs in half the time of comparable jack plates
- Can be used for most outboards - 300hp Max
- Max Weight: 625 lbs.
- Width: 16-3/8" (Transom side)
- Height: 12-1/2"

DOMETIC OUTDOOR

SEASTAR MANUAL JACK PLATES

The JP1000 Series Jack plate comes in 4", 6", 8", & 10" setbacks to help you find the best match for your boat and optimize performance.

FEATURES:

- Rated for max 200HP 4-stroke gasoline engines
- The interlocking slide guides offer enhanced strength while providing smooth, bind-free travel
- The lead screw assembly sets the plate height and the side locks are used to hold the position
- The stainless steel lead screw is resistant to corrosion and pre-greased for smooth operation

DOMETIC OUTDOOR

DOMETIC SEASTAR XTREME JACK PLATES - 400 HP RATING

The SeaStar Xtreme Jackplates utilize high strength materials to be able to handle some of the strongest engine on the water. The heavy duty frames are capable of handling engines up to 400 horsepower. Designed with speed and durability in mind the Xtreme Jackplates can adjust the engine height in just 8.5 seconds, even while the boat is moving at full power.

FEATURES:

- Xtreme jackplate is using high strength materials and is easily capable of handling up 400 horsepower engines
- Rapid hydraulic response in 8.5 seconds
- Complete rigid engine support at full thrust
- Easily moves engine up or down at full thrust
- Smooth operation with composite bushings
- Easy wrench access to engine bolts from the side
- Compatible with all shallow water anchors
- High output integrated actuator to lift and lower engines in all conditions
- Environmentally sealed non-contact SmartStick position sensor kit available for precise height information
- Designed to maximize engine tilt with Dometic SeaStar steering cylinders
- High visibility lift scale for quick glance operation
- Integrated circuit breaker gives electrical protection right at the battery post
- All hydraulic Jackplates come with basic rocker switch DK4020

● ** NOTE: JP5040X requires adapter kit DK4600 for Power Pole® or Talon® anchor systems mounting*

DOMETIC SEASTAR STANDARD JACK PLATES - 300 HP RATING

The SeaStar Standard Jackplate is one of the sleekest and most durable engine jackplate available. This essential performance accessory allows for higher speed, gains in fuel economy and the ability to run in shallow water. SeaStar Jackplate features sleek, bold styling that is redefining the look for jackplates. The SeaStar Jackplate is rated for 300 horsepower and it is designed to maximize engine tilt when used with SeaStar steering cylinders.

JP5100R

FEATURES:

- Our Standard Jackplate is easily capable of handling up to 300 horsepower gasoline engines
- Rapid hydraulic response in 8.5 seconds
- Complete rigid engine support at full thrust
- Easily moves engine up or down at full thrust
- Smooth operation with composite bushings
- Easy wrench access to engine bolts from the side
- Compatible with all shallow water anchors

PROTAP CONTROLLER

DOMETIC PROTAP JACKPLATE CONTROLLER

ProTap Controller takes the guesswork out of setting a jackplate height or engine trim everytime you get underway. Use ProTap to quickly recall your pre-memorized positions. works with any jackplate and trim control switch, and allows you to fine tune jackplate and engine trim predictably by moving both in set increments.

- Allows you to save your favorite engine trim and jackplate positions.
- Quickly loads your presets; no need to adjust your boat manually every time.
- Fine tuning is easy thanks to an intuitive controller
- Synchronizes two engines
- Provides 0-5 V jackplate height signal
- MFD integration
- CAN expandability

Reach Max Speed fast with a ProTap Controller in Bay/Bass-B Mode.

When you order a ProTap controller in B Mode you no longer need to look at the gauge or the back of the boat to adjust your jackplate or engine trim to your favourite position. Let ProTap memorize it for you.
Hold the ProTrim switch up or down for 1 second to recall the pre-memorized positions. Fine tune engine height and trim by quickly tapping on the ProTrim switch. Jackplate or trim will move in set increments.

Get up to your boat max speed before the competition does!

Engine Tilt Protection

In any mode, with trim sender connected directly or via NMEA 2000 network, ProTap will detect when you are moving engine to tilt range and move the jackplate up to a predetermined safe position.

You no longer have to worry about accidentally damaging steering, transom or the engine.

Dual Engine Support

ProTap controller will synchronize 2 jackplates to each other in any mode.

You no longer have to synchronize your engine position manually.

PRO-TRIM SWITCHES - For Super Fast Planing!

Pro-Trim is a "Bolt-on" for most Dometic steering systems.

Fingertip Trim Control

Trim control the way it's meant to be . . . at your fingertips. With Pro-Trim, you can keep both hands on the wheel and concentrate on your driving. Its clean, modern design looks at home in any cockpit and there are no cords to tangle around the steering wheel, a big plus for boats with hydraulic steering!

The Pro-Trim **single**-switch controls one function (engine trim or jackplate).
The Pro-Trim **dual**-switch controls two functions (trim and jackplate).
Pro-Trim fits any boat using one of the following Dometic steering systems.

- Safe-T mechanical steering
- Rack & Pinion mechanical steering
- NFB No FeedBack steering (all helms)
- SeaStar hydraulic steering
- SeaStar PRO hydraulic steering
- Command 200 Rack & Pinion
- BayStar
- Sport, Sport Plus or Classic Tilt Mechanism

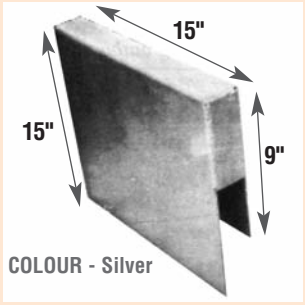
TRANSOM ACCESSORIES

TRANSOM ELEVATORS

Constructed of 3/16" aluminum. Allows long shaft engine to be used on short shaft boat transom.
Raises engine 5''. For all clamp on engines up to 40 HP.

For boats with 1-3/4" thick transom
ORDER NO. 098-00217

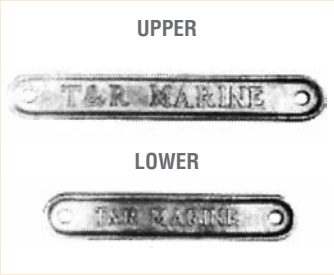
For boats with 2" thick transom
ORDER NO. 098-00218



TRANSOM BOLT SUPPORT PLATES

Cast aluminum with polished T&R Marine lettering. Prevents the bolts from working into the transom. Adds strength to transom, fits standard bia bolt pattern.

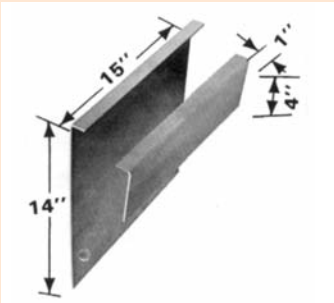
KIT - Upper and lower support plates
ORDER NO. 098-00090

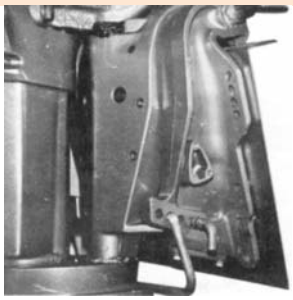


TRANSOM PROTECTOR

Two piece plated aluminum transom protector fits all transoms for added protection and strength. Easy to install and prevents mounting bolts from working into transom.

ORDER NO. 098-00030





TRANSOM SUPPORT PLATE

The Transom Support Plate is made of high quality cast aluminum. This plate distributes the stress of the motor mounting bolts to protect the transom. The plate can be furnished with your desired name in quantities of 50 or more. A generic plate with no lettering is standard.
ORDER NO. 205-21001
Mfr. No. TSP-1-DP

TRANSOM WEDGE

These Transom Wedges fit newer model OMC and Mercury engines. Bolt-on engines with factory installed tilt and trim. Cast aluminum construction allows for full, positive contact between engine bracket and transom.
2-1/4"W, 11-1/4" L Sold as pairs.
ORDER NO. 205-20002
Mfr. No. TW-2-DP

For more information see: www.thmarine.com

TRANSOM PAD

- Rubber pad is oil and weather resista
- Reduces motor vibration noise
- Fits most outboards to 25hp
- Protects transom

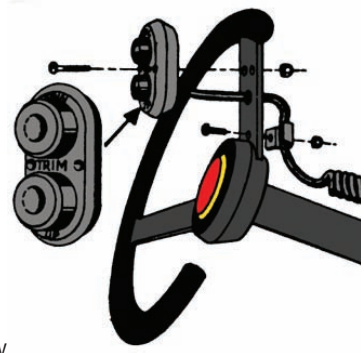
STEERING TRIM CONTROL UNIT



This Steering Trim Control Unit is molded of black plastic with raised white letters to not only enhance boat appearance but also provide the ultimate in control of any high performance boat. The Steering Trim Control Unit mounts easily to steering wheel spokes to place engine trim control at your fingertips for maximum safety and ease of operation. The weatherproof, rubber-booted, push-button switches combined with a black urethane coiled cord provide a unit which will provide trim control without removing hands from steering wheel.

ORDER NO. 205-11001

Mfr. No. ST-1-DP Steering Trim Control Unit

TRANSOM TRIM CONTROL

This transom Trim Control provides a weatherproof tilt control system at the stern area of the boat to facilitate placing motor support in position with one person. Switch can also be used for remote adjustment of hydraulic jackplates. The switch housing is molded black plastic with raised white letters and may be mounted on any flat surface, comes with 18" pigtail wire and installation instructions.

ORDER NO. 205-20001

BOAT STORAGE LOCKING SYSTEM WITH ALARM PADLOCK

Loc-R-Bar Alarm System

Loc-R-Bar Alarm System, a full package of protection for your valuable fishing gear. Loc-R-Bar Alarm System is the best way to protect all of your equipment; Adjustable stainless steel security bars, solid aluminum mounting brackets and the innovative Loc – Alarm completes the system. When properly installed, Loc-R-Bar Alarm System secures all deck lockers by extending across the entire deck surface, gunwale to gunwale. Even if thieves break out your hatch locks, they will not be able to open the lockers to get to your equipment.

Loc-R-Bar Alarm System is a fully self-contained alarm system for your boat. No wiring, sensors or complicated installation required. A full package of protection for less than the cost of a quality rod and reel.

Full Storage Locking System includes an alarm padlock and mounting brackets. Great for securing compartments and rod lockers on Bass Boats, Bay Boats, Walleye Boats and selected aluminum boats. An optional compartment adapter is available for securing additional storage units with the same bar (Mfr. No. LB-ADAPTER/1A).

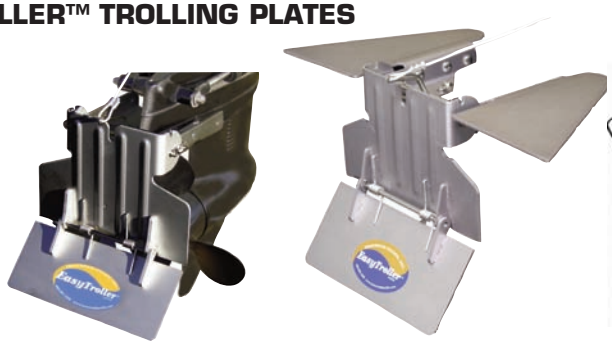
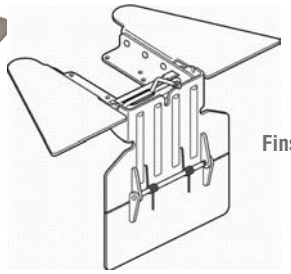
TROLLING PLATES

EASY TROLLER™ TROLLING PLATES

Ironwood Pacific OUTDOORS

Standard Model



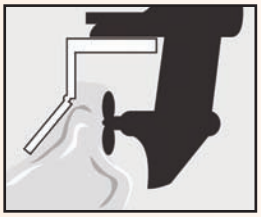


Fins Model

Innovative hinge design prevents bending!

The EasyTroller's patented hinge design prevents damage to the trolling plate under inadvertent acceleration. EasyTroller mounts directly to the cavitation plate and snaps down into place to slow the boat to an ideal trolling speed. If the boater inadvertently accelerates before raising the trolling plate, this hinged plate will simply flex and deflect the thrust downward rather than bending. Also available in a Fins Model with easy mount hydrofoil fins to help the boat plane more quickly and improve fuel efficiency. Made from all marine grade anodized aluminum and stainless steel.

Under power, prop thrust can bend or damage the typical trolling plate.



The EasyTroller plate flexes to divert the prop thrust downwards, preventing damage to the plate itself.

- Holds trolling speeds as low as 1 mph.
- Fits outboard & I/O motors from 50 HP to 300 HP
- Manufactured in the USA from marine grade anodized aluminum and stainless steel

ORDER NO.	Mfr. No.	Description

DOEL-FIN® HYDROFOIL

Doel-Fin® is the original hydrofoil developed by an aeronautical engineer to improve overall performance on all boats with outboard motors or outdrive units. Molded in 2 pieces of guaranteed unbreakable, high-strength plastic, each foil is designed to flex independently to absorb shock. The positive effects include greater stability, consistent planing at lower RPM, faster out-of-the-hole performance, steadier turns, higher top-end speeds and lower bow rise at all speeds.

- **Doel-Fin®** improves overall performance - even on boats with well designed hulls
- Save up to 30% on fuel comsumption
- Faster out-of-the-hole for happier water skiers
- Maintain lower planing speeds without constant throttle adjustment for wakeboarding, tubing or beginner skiers
- Less bow rise for better visibility and increased safety
- Simple 15-minute installation; hardware included

ORDER NO.	Mfr. No.
934-82200	440

WHALE TAIL XL® ALUMINUM STABILIZER AND SKI BOAT FIN

- Fits all I/O's and all outboards
- Pops up skiers in less time
- Smooths out ride in rough water
- Cuts down on porpoising and cavitation
- Stabilizes bow-light boats
- Increases top speed and fuel savings in most applications
- Water skiing's most versatile accessory
- Stainless steel attaching hardware furnished - installs in 15 minutes
- Mounts on the anti-cavitation plate
- Installation and operating instructions provided with each unit
- Marine grade aluminium with durable anodized finish
- Use the Whale Tail year around in all boating activities (salt and fresh water)

ORDER NO.	Mfr. No.

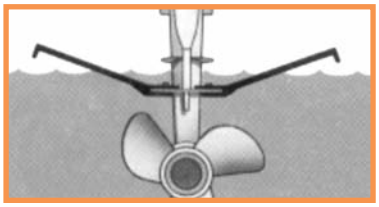
HYDRO-STABILIZER

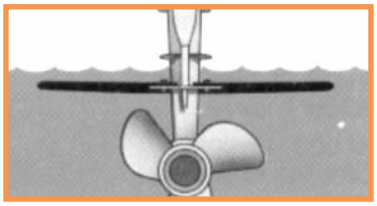
Gull Wing Design Hydrofoil

- Provides a smoother more stable ride & decreases porpoising
- Improves acceleration, ride and fuel economy
- Keeps your boat on plane at slower speeds
- Stainless steel mounting hardware included
- Easy to install

ORDER NO.	Mfr. No.	Description
109-94000*	9400-7	For Outboards and Stern Drives 50 HP and above
109-94010**	9401-4	For Outboards under 50 HP



Once you're on plane, most of the Attwood Hydro-Stabilizer is out of the water. Drag is reduced resulting in higher speed.



Ordinary, flat hydrofoils ride on or below the surface of the water, causing speed robbing drag.

*** Will not fit Volvo Penta 280/290 outdrives and BMW drives however, it will fit Volvo Penta 270 outdrive**
**** Will not fit Mariner 20 HP engines where the cavitational plate is too small for installation**

For more information see: www.attwoodmarine.com

HYDROFOIL STABILIZERS

Without StingRay

BENEFITS FROM EVERY STINGRAY™

- On plane in less time
- Reduced bow rise
- Eliminates Chinewalking
- Stops porpoising
- Wipes out cavitation
- Saves fuel
- Aids in pulling skiers

With StingRay

STINGRAY™ CLASSIC 2 SENIOR / JUNIOR / CLASSIC PRO

The StingRay™ Classic was developed over 20 years ago from the most advanced computer engineering of its time. This bolt-on hydrofoil has proved extremely reliable and has become the number one selling marine accessory of all-time! With a StingRay™ Classic 2 installed, boats get up on plane 50% faster, while bow rise is also reduced. Chinewalking, porpoising, and cavitation are no longer problems for boats with a StingRay™ Classic 2. For boaters wanting true stabilization, performance enhancement, and increased fuel efficiency from their hydrofoil, a StingRay™ Classic 2 Hydrofoil will satisfy and surpass expectations!

Eliminates Chinewalking

ORDER NO. 913-60003 - Grey

- Utilizes 2 bolts that secure the hydrofoil to the anti-cavitation plate
- Requires 4 drilled holes
- Designed for boats needing extra stabilization
- **Recommended 40-300HP**

Rating (1=least, 10=most)

Lift = 9
Speed = 7
Stabilization = 10

For more information see: www.stingrayhydrofoils.com

STINGRAY™ STARFIRE HYDROFOIL

The StarFire is the World's First No-Drill hydrofoil that gives boaters the option to install it by drilling through the cavitation plate. Although we recommend the No-drill installation, if you choose to drill your engine, you will only drill 2 holes instead of the conventional 4 holes required by most competitors!
StarFire utilizes ribbed-neck pins rather than clunky nuts and bolts used by others.

- **No-Drill™ Installation**
- **Best Top-End Speed**
- **Best Fuel Savings**
- **Simplest, Quickest Installation**

- The super-sleek profile of the StarFire's wings combined with the streamlined No-Drill attachment create a hydrofoil that is ultra-thin, easy to install, and an incredible performance improvement
- Has a narrower and thinner swept back Delta-wing profile and has a unique, inverted trailing edge design to relieve drag
- Requires only 2 set screws for No-Drill installation
- High quality inlay graphics designed to resemble polished stainless steel won't scratch, tear, peel, or fade in the sun

ORDER NO.	Mfr. No.	Description
913-50001	STARFIRE-1	StarFire Stabilizer, Black
913-50002	STARFIRE-2	StarFire Stabilizer, White

STINGRAY™ XR-III JUNIOR & XR4 SENIOR HYDROFOILS

Along with providing all of the StingRay™ Classic 2 performance benefits, the XRIII Junior & XR4 also provide the fastest hole shot in the industry! The unique design of this hydrofoil harnesses the prop-wash and redirects it into a powerful, thrust-enhancing cone. Improves top speed and gives boats greater fuel efficiency too! The enhanced styling of this hydrofoil projects a sporty and professional look for boaters wanting to improve performance without sacrificing value.

All of the StingRay™ Classic 2 Benefits **Plus** these unique features:

- **NO-DRILL™** mounting design
- Captive Prop-Wash resulting in fastest hole shot!
- Increased thrust enhancement
- Improved top speed
- Greater fuel efficiency
- Vision-3 enhanced styling

STINGRAY™ XR-III JUNIOR

STINGRAY™ NO-DRILL MODEL COMPARISON

NO-DRILL INSTALLATION

NO-Drill Installation Hydrofoils were pioneered and patented by us! The goal was to create hydrofoils that could be installed without holes being drilled into the engine. The NO-Drill Installation method differs depending on which StingRay Hydrofoil model you choose, but each method requires zero drilling and allows for installation in under 10 minutes!

For the best, most robust installation, we recommend utilizing the optional-drill installation that has been enabled for each of these NO-Drill Hydrofoils. The optional-drill method requires half as many drilled holes as competition (2) and provides the best security for your hydrofoil!

HYPERFOIL - 500/RED
ORDER NO. 913-70500

- Utilizes 2 set screws that pinch the anti cavitation plate from each side
- Requires zero drilled holes
- Designed for top-end speed and professional bass boats
- Recommended 40-300HP

Rating (1=least, 10=most)

Lift = 4
Speed = 10
Stabilization = 4

ACCESSORIES / TORQUE EQUALIZERS

Without Torque Equalizers

With Torque Equalizers

ORDER NO.	Mfr. No.	Colour
888-00001	TE-1	Black
888-00002	TE-2	White
888-00003	TE-3	Grey

TORQUE EQUALIZER installs on the underneath side of the Sting Ray Hydrofoil Stabilizer and is adjustable in 10° increments to achieve maximum effectiveness to solve your particular torque problems.

All boats react to propeller rotation causing a dangerous pull to one direction or the other. Fighting it can be very tiring to the boat's driver. StingRay™ provides the solution with Torque Equalizers.

StingRay™ Torque Equalizers, when placed on a StingRay™ Classic Senior or Junior, will reduce or completely eliminate dangerous steering torque on all boats. With a StingRay™ Hydrofoil Stabilizer and Torque Equalizers, boats track straight, are easier to control, safer to handle, and the driver's arm won't tire out after a day on the water.

By adjusting in 10° increments on the underside of the wings, Torque Equalizers provide superior leverage over auxiliary wedges or center mounted sacrificial anode torque tabs. In comparison, other solutions don't work nearly as well.

After one ride you'll know why Torque Equalizers are the premier solution for correcting bothersome steering torque.

Sierra TC-W3 is a high performance lubricant that has been manufactured and designed to meet and exceed all (Domestic & Import) engine manufacturers warranties. Exceeds JASO, ISO, API and NMMA, for advanced generation 2-Cycle lubricants.

- Ideal for oil injection systems or pre-mix applications.
- Significantly reduced aquatic toxicity to fish compared to other outboard oils on the market today.
- Reduces ring sticking, deposit formation and exhaust port blockage. Less friction allowing for easier starting.
- Formulated to improve performance and extend engine life by reducing wear on critical engine components.
- Ideal for today's high horsepower outboards that demand maximum performance.
- Excellent performance with lower quality fuels.
- Exceeds the industry standards established in 1997.
- Guaranteed and backed by our famous Sierra comprehensive warranty. (Will not void your engine manufacturer's warranty).

10W-30 FC-W® 4 STROKE MARINE OUTBOARD ENGINE OIL

10W-30 4 STROKE MARINE OUTBOARD ENGINE OIL is a highly refined petroleum product formulated with premium base stock and highly refined additives. Specifically formulated to meet or exceed the tough requirements of the Marine 4-Stroke motor manufacturers, Mercury, Yamaha, Johnson-Evinrude, Suzuki and Honda.

- Excellent anti-wear characteristics • Reduces friction
- Formulated to offer maximum corrosion protection
- Reduces sludge keeps engine cleaner for better efficiency
- Low temperature viscosity offers better cold starting
- Meets and exceeds quality performance API SJ, CF-2, CH-4, *NMMA, FC-W® Certified
- Guaranteed and backed by Sierra's famous comprehensive warranty. (Will not void your engine manufacturer's warranty).

25W-40 FC-W® 4 STROKE MARINE STERN DRIVE ENGINE OIL

25W-40 4 STROKE MARINE STERN DRIVE ENGINE OIL has been formulated to provide excellent lubrication and corrosion protection. Stern drive and inboard engines operate under high load and running stresses. This product is developed for the marine environment and will out perform standard 4-cycle automotive engine oils. Sierra's 25W-40 oil offers excellent detergency, anti-oxidants, antiwear, and corrosion protection. The benefits to your engine are reduced wear to the internal components, protection of internal parts from corrosion, cleaner pistons, and prevention of ring sticking. Excellent low temperature operating properties. Meets or exceeds quality performance API SJ, CF-4, CH-4. Recommended for use in Mercruiser and OMC.

- Guaranteed and backed by our famous Sierra comprehensive warranty. (Will not void your engine manufacturer's warranty)

15W-40 HEAVY DUTY MULTI-VEHICLE ENGINE OIL

GAS/DIESEL APPLICATIONS

This oil is specifically formulated for the heavy duty inboard marine market, including cruisers and towboats calling for a 15W-40.

- Meets API Service classification up to CW-4
- Meets the performance specifications for the API service classification SM
- Premium base stocks and additive package ingredients places Sierra Heavy Duty at the leading edge of lubrication technology
- Suitable for fuels on any sulfur level
- Not for use in gasoline engines equipped with catalytic converters
- Replaces: Shell Rotella T4, Delo 400, Mercruiser, Indmar, Pleasurecraft, Crusader, Volvo Penta, Mastercraft

5W-30 SEMI-SYNTHETIC FC-WCAT ENGINE OIL

Our 5W-30 Semi-Synthetic is an ultra-high performance engine oil that utilizes premium base stocks and industry leading additives.

- Meets and or exceeds FC-W Catalyst and FC-W specifications
- Proprietary additive package
- Enhanced detergent package to suspend and prevent sludge
- Reduces friction to maintain high performance
- Prevents thermal and oxidation break down under extreme temperatures
- High shear stability maintains viscosity to prevent excessive thinning in high performance applications
- Advanced ZDDP additive technology prevents phosphorus depletion extending catalyst life while maintaining anti-wear protections
- Meets or exceeds API SM category requirements
- Replaces: Honda, Indmar, Ilmor, PCM

25W-40 FC-W SYNTHETIC BLEND ENGINE OIL

This 4-cycle oil is blended with premium grade synthetic and mineral based stock combined with superior designed additives formulated for the stress endured by sterndrives and inboard engines.

- Superior corrosion protection
- Advanced lubrication for reduction of wear to internal engine components
- Outstanding friction reduction and wear protection
- Removes thermal breakdowns under high RPM's extreme temperatures and loads
- Extensively tested for outstanding performance
- NMMA FC-W® Certified/API-SL.

Note: Catalyst Engine Oil is also a suggested replacement lubricant see page 1205

10W-40 FC-W SEMI-SYNTHETIC ENGINE OIL

- Compliments current offering of motor oils to give Sierra a direct Suzuki replacement oil.
- Semi-Synthetic formulation for superior protection under high loads and operating stress.
- Offered in quart, gallon, 16 gallon and 55 gallon drums.
- NMMA FC-W® Certified/API-SL.

25W-40 SYNTHETIC BLEND 4-STROKE OUTBOARD OIL

This oil is blended with premium grade synthetic and mineral based stock combined with superior designed additives formulated for the extreme rigors of the marine environment.

- Superior corrosion protection
- Advanced lubrication for reduction of wear to internal engine components
- Minimized piston ring deposits
- Extensively tested for outstanding performance
- NMMA FC-W® Certified/API-SL.

SAE 30 FULL SYNTHETIC MARINE ENGINE OIL

A special bland of synthetic base oil and a balanced additive system that exceeds the FC-W requirements for marine engine oils.

- Recommended for gasoline and diesel inboard and sterndrive engines
- Superior engine protection during startups, operation and storage
- Reduces friction and wear for extended engine life
- Longer lubrication effectiveness than mineral oils
- Reduces oil consumption and improves fuel economy
- API-CF/SL

25W-40 CATALYST ENGINE OIL

These oils have been specifically designed to meet the unique requirements of modern 4-Stroke recreational engines with or without emission catalyst systems.

- Approved for all 4-Stroke applications including Outboard, Sterndrive and Inboard. Exceeds all 4-Stroke requirements including FC-W and FC-W Cat Compatible.
- Formulated to offer maximum corrosion protection
- Advanced lubrication for extended engine life and wear protection
- Capitalizing "ZDDP" anti-wear additive technology to prevent phosphorus depletion and extend the emission catalyst life
- NMMA FC-W® Certified
- **Formulated for INBOARD & STERNDRIVE ENGINES**

25W-40 SYNTHETIC BLEND CATALYST ENGINE OIL

A special blend specifically designed to meet the unique requirements of modern 4-stroke recreational engines with or without emission catalyst systems.

- Minimizes corrosion that is formed inside the engine.
- Displays enhanced detergent and dispersants properties to suspend and prevent engine sludge formation
- Industry leading wear protection and deposit control
- Prevents excessive thinning under extreme performance operations
- Capitalizing "ZDDP" anti-wear additive technology to prevent phosphorus depletion and extend the emission catalyst life
- NMMA FC-W® Certified
- **Formulated for INBOARD & STERNDRIVE ENGINES**

SYNTHETIC OIL 10W30

Formulated specifically for 4-stroke outboard and sterndrive engine technology. A special blend of synthetic base oil and a balanced additive system that exceeds the FC-W requirements for marine engine oils. Recommended for use in both outboard and sterndrive applications. Offers faster lubrication at start up in low temperatures, excellent protection at high temperatures, and greater resistance to oxidation for lower oil consumption.

ORDER NO.	Mfr. No.	Volvo No.	Description	Case Qty.

NMMA FC-W Certified / API-SL

FULL SYNTHETIC CATALYST 10W40 4-STROKE ENGINE OIL

Specifically desiged to meet the unique requirements of modern 4-Stroke recreational engines with or without emission catalyst systems.

- Application: All high performance Volvo/Penta Inboard engines
- Display enhanced detergency & dispersancy properties to suspend & prevent engine sluge formation
- Industry leading wear protection & deposit control for extended engine life at both high & low temperatures
- Employs highly shear stable viscosity stabilizers to prevent excessive thinning under extreme performance operations
- Capitalizes on advanced highly thermally stable "ZDDP" anti-wear additive technology to prevent phosphorus depletion & extend the emission catalyst life while still providing excellent anti-wear protection

15W-40 DIESEL ENGINE OIL

- First diesel oil offered by Sierra.
- Meets the following manufactures specifications: Volvo VDS-3; Cummins CES20078, CES20077, CES20076; Detroit Diesel DDC93D214; CAT ECF-2, ECF-1; Global DHD-1.
- Increased detergency to fight soot and carbon deposits.
- Certified to API CI4-Plus rating. Meets the highest standards of diesel oil in the marine industry

SIERRA HYDRO DEFENSE MARINE GREASE

- Prohibits rust and corrosion
- Prevents wear against the most extreme friction in marine applications
- Will not break down in marine conditions
- Contains PTFE for minimum wear and added friction protection
- For use on prop shafts, trailer bearings, throttle and shift cables and linkage, swivel pins and more!

HEAVY DUTY MOTOR OIL

Castrol HD 30 and HD 40 are premium monograde oils engineered for greater protection against thermal breakdown.

- Provides maximum wear protection in warm climates
- Use HD 40 when ambient temperature is above 60ºF
- Use HD 30 when ambient temperature is above 40ºF
- Exceeds API SM, SL & SJ performance for passenger cars and light trucks
- Formulated to surpass the engine protection requirements for Ford ESE-M2C153 G and F, GM 6085M, Chrysler MS-6395M

ORDER NO.	Mfr. No.	SAE Grade	Size

DOMESTIC MULTI-VEHICLE ATF - AUTOMATIC TRANSMISSION FLUID

It's More Than Just Oil, It's Liquid Engineering™

- For use in older Ford and General Motors vehicles.
- Enhanced friction durability for smooth transmission performance.
- Meets DEXRON®-III H requirements. Also satisfies requirements of DEXRON®, DEXRON®-III, II-E and II. Do not use this ATF in applications calling for DEXRON®-IV.
- Meets MERCON® requirements. May also be used in power steering applications where MERCON® is required. Do not use this ATF in applications calling for MERCON® V or MERCON® SP. Use Castrol Type F ATF in applications calling for Type F.

CASTROL GTX - Maximum protection against sludge build-up

Castrol GTX is the only motor oil formulated with patented viscosity modifier and proprietary additive package that efficiently and effectively fights sludge. Castrol GTX uses unique shear stable viscosity improvers and exceeds demanding U.S. high shear and stay-in-grade requirements for viscosity breakdown protection.

- Maximium protection against sludge build-up
- Maximium protection against both viscosity and thermal breakdown
- Superior detergency that helps prevent deposits
- Advanced anti-wear additives that help extend engine life
- Exceeds passenger car and light truck manufacturers' warranty requirements for the protection of gasoline and turbocharged engines where API SM, SL, SJ or SH is recommended

GEARCASE FILLER

CDI Electronics

551-000333

The new 3 gallon design filler makes it easier to fill or flush gearcases. Translucent plastic container allows you to check tank oil level. Sturdy tear-drop design resists tipping over. Now housed in a splash pan bottom further preventing tipping. Includes the check valve venting system. The check valve on the vent allows you to remove the filler nozzle without loosing any appreciable amount of lubricant. Now has a molded collar to hold filler hose gearcase fillers out of the way. Replaces 551-33GF and Stevens S33.

ORDER NO. 551-000333
Mfr. No. 551-33-1

For more information see: www.cdielectronics.com

FILLER VENT CHECK VALVE

Calibrated check valve creates airlock to keep lube from running out while you install drain plug. Includes a 4' hose.
A must for all shops! Included with #551-000333.

OIL EXTRACTORS

THE EASIEST OIL CHANGE THAT YOU'LL EVER DO AND YOU WON'T SPILL A DROP!

PELA 2000 OIL EXTRACTOR 2.5 L

A mini version of our popular PELA 6000. Designed for those who have small jobs but who don't want to pay the higher prices of our bigger pumps. Ideal for small 4-strokes up to 50 HP and sailboats with small diesel engines (9 HP to 18 HP). Just pump 5 to 10 times in a row to create a powerful vacuum. Then watch the oil drain into the container. Pump is removable.

ORDER NO. 514-02000

PELA PRO 14 OIL EXTRACTOR 14 L

Finally, a unit designed for bigger engines. With a 14 liter capacity, this pump is the largest on the market. New improved mechanism. Heavy duty construction with the pump housed inside the container.
Just pump 20 to 30 times in a row to create a powerful vacuum and then watch the oil drain out. An essential tool for technicians.

ORDER NO. 514-00014

PELA 6000 OIL EXTRACTOR 6.0 L

Our most popular pump. Compact yet powerful and affordably priced. With a large 6 liter capacity, it meets the needs of most boaters. Just pump 10 to 20 times in a row to start the vacuum. Sold to boaters around the world since 1998.

ORDER NO. 514-06000

BIG PELA OIL EXTRACTOR 6.5 L

Our original pump. A long time favorite among technicians because of its power and durability. Also the choice of boat owners who want the best.
Just pump 4 to 15 times in a row.

ORDER NO. 514-00001

ADAPTER KIT FOR THREADED STYLE DIPSTICK PIPES

For use with Pela Oil Extractors. Note: For some engines where the Pela Threaded Adapter cannot be used, the Rubber Hose Adapter can be used instead.
Kit Includes: 1 Pc. Threaded Adapter / Hose Assembly, 1 Pc. Rubber Hose Adapter

ORDER NO. 514-00002 Mfr. No.PL-THR-ADP

ATTACHABLE DRIP TUBE

For use with Pela Oil Extractors.
Models PL-650 & PL-14K

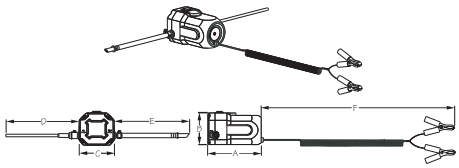
SEA-DOG LINE QUALITY MARINE GEAR

NEW!

PREMIUM ELECTRIC OIL PUMP - W/BATTERY CLIPS

Nitrile-Buna Rubber



ORDER NO.	Mfr. No.	A	B	C	D	E	F	Inlet Tube Dia.
425-01072-3	501072-3	5-1/8"	3-1/8"	3-1/8"	48"	80"	70"	1/4"

Easy to use and transport. The self-priming 12V pump attaches to battery terminals with alligator clips and drains oil through the dipstick tube on outboards and sterndrives. Convenient DIY operation saves money on expensive oil changes. Its compact size makes it easy to store. Includes 48" inlet and 80" outlet hoses. 12VDC. 60W. Maximum run time: 30 minutes. NOT intended for commercial use. NOT suitable for pumping out transmission oil, water, or flammable liquids.

- Oil flow rate: 0.84 quarts/min @ 140˚F (0.8 liters/min @ 60˚C)
- Diesel flow rate: 1.9 quarts/min @ 75˚F (1.8 liters/min @ 23˚C)

ACCU-MIX™ OIL TO GAS MEASURING BOTTLE

Plastic
Size: 32 oz.
Accurately measures the correct oil to gas mixture for all 2-cycle engines. Mixtures of 24-1, 33-1, 40-1, 50-1, and 100-1 ratios are shown on the see-through bottle for accurate measuring in both liters and gallons.

EXTRACTORS

Designed to handle heavy-duty jobs, Moeller Fluid Extractors are suitable for oil changes and for other marine applications, such as removing stagnant bilge fluid from those hard-to-access spots. The bucket-style handle makes it easy to carry and built-in fold-down foot braces add stability.

Specifications:

- No power required
- Dual action vacuum pump saves time
- Extracts warm or cold oil
- No-mess design includes tethered cap & easy-pour spout
- Manual pressure relief valve prevents burps and spills
- Automatic shut-off float eliminates overflow
- Pneumatic/manual operation extractor available in 15 L (Special Order Only)

Best of all, the extractor is versatile! It comes with an extraction tube & hose adapter kits. Use it for your hobby, lawn & garden, ATV, household, and automotive applications.

Model #035360 16L Only:
Air inlet: 1/4"
Working pressure range: 40-170 psi
Fluid temperature range: 35˚-200˚ F

NOT FOR USE WITH GASOLINE!

FLAT TANK OIL CHANGER SYSTEM

NEW & IMPROVED PUMP DESIGN

Simplifies the engine oil changing process, ideal for changing engine oil in Boats, RV's, Lawn & Garden Equipment.

Now there is no need to worry about open containers causing spills when changing engine oils with the 3-1/2 gallon (13 liter) compact self-contained unit fitted with a self-priming diaphragm pump with an easy pour for emptying.

The flat tank design allows easy storage in deck boxes, boat storage lockers, or RV storage compartments. The unit comes easy to use, clean and efficient dipstick suction tube, battery clamp wire leads, an on-off switch to make the pumping process simpler and easier.

Features :

- Powerful 12VDC motor makes oil changing quick and simple
  6-foot (2 meter) electrical wire for easy connection to 12 volt power supply
- Stows easily
- Compact robust tank design
- Easy pour spout with screw on cap
- Easy to carry handle
- 3-1/2 gallon (13L) sealed container
- Self-priming, run dry pump design

ORDER NO.	Description
17860-2012	12 Volt VDC, 3.5 GPM

For more information see: www.xylem.com

JABSCO
a xylem brand

SELF-PRIMING DRILL PUMP

The Jabsco self-priming drill pump chucks into a standard 1/4" drill motor and pumps up to 3-1/2 GPM (13 L/min). Use it for draining engine oil through dipstick tube, pumping, scavenging jobs and many uses around the boat or home.
Also includes two 3/4'' (19mm) garden hose port adapters mounted on 1/2'' barbed ports. Individually skin packed. Does not include electric drill.
Order 17255-0003 for replacement impeller and shaft assembly.

ORDER NO. 17250-0003

WARNING:
Not for pumping gasoline or flammable liquids

DRILL PUMP KIT

This self-priming drill pump kit is the same utility pump as above but includes all the accessories required for changing engine oil through the dipstick tube. Included are 3 feet of 1/2" hose, probe adapter and 1/4" x 40" dipstick probe.
Packed in poly bag with display header card.

ORDER NO. 17215-0000

WARNING:
Not for pumping gasoline or flammable liquids

"LITTLE PAL" HAND PUMP

Compact polished brass multi-purpose hand pump does many draining and liquid transfer jobs yet is small enough to fit in tool or tackle box.
Includes 2' (0,6m) hose and draw tube for draining crankcases through dipstick tube. Packed in poly bag with display header card.

ORDER NO.	Description
34060-0010	"Little Pal" Hand Pump
33815-0040	Draw Tube, 1/4" diameter
33857-0000	Draw Tube Reducer, 1/2 x 1/4

"HANDY BOY" UTILITY PUMP

This self-priming hand pump kit comes complete with adapters, tubes and hoses for dozens of pumping needs. Ideal for engine crankcase pumpout through the dipstick tube, diesel fuel transfer, or bilge pump. "The Handy Boy" can also be used as an air pump to inflate air mattresses, blow out fuel lines. Includes two 1/2" x 3' (12mm x 1m) hoses, two dipstick probes 1/4" (6.5mm x 1m), neoprene intake adapter and tube connector.
Packed in poly bag with display header card.

ORDER NO.	Description
33799-0000	"Handy Boy" Utility Pump
33815-0040	Draw Tube, 1/4" diameter
33857-0000	Draw Tube Reducer, 1/2 x 1/4

WARNING: Not for pumping gasoline or flammable liquids

MARINE ENGINE OIL DRAIN PUMP

PAR Oil Drain Pump connects to current marine engine oil dipstick tube on OMC, MerCruiser and other marine engines with a threaded male garden hose fitting on the engine dipstick tube. Unique design allows one hand pumping for quick and easy oil draining.
Includes pump with 3/4" brass fitting and drain hose 1/2" x 2' (13mm x 610mm).

ORDER NO.	Description
34060-0130	Marine Engine Oil Drain Pump
33815-0040	Draw Tube, 1/4" diameter
33857-0000	Draw Tube Reducer, 1/2 x 1/4

PERMANENT OIL DRAIN HOSE KIT

The Jabsco Oil Drain Hose Assembly includes drain plug fitting, oil drain hose, cap and hose hanger clamp. It is an ideal oil drain kit for use in conjunction with a Jabsco drill pump, Model 17215-0000, or PAR hand pump, Model 34060-0010.
Drain plug fitting size is 1/2" - 20.
Packed in poly bag with display header card.

Not recommended for automobiles with drain plugs exposed to potential road hazard damage.

ORDER NO. 18080-0000

HEAVY DUTY "PORTA-QUICK" OIL CHANGER

The Porta-Quick Portable Oil Changer makes quick, clean and easy oil changes on-board any boat, because it uses the vessel's own power supply to operate the powerful oil reservoir mounted flexible impeller pump.

- Pump Body: Bronze construction
- Impeller: Nitrile (oil resistant)
- Shaft Seal: Lip Type
- Motor: Reversible with integral reversing switch
- Container: Plastic with 14 quart capacity
- Power Cord: 8 feet with alligator clips
- Suction Hose 4 feet of neoprene hose with 40 inch Teflon dipstick probe
- Dimensions: 13-1/2" (343mm) diameter, 15-5/8" (354mm) high
- Weight: 9 lb (4.1 kg)
- 14 Quart (13 litre) container easily handles two engines.
- Sturdy bronze pump head.
- High-temperature resistant Teflon™ dip-stick probe.
- Non-collapsible thick wall suction hose.
- Garden hose thread adapter included, for dip-sticks with GHT male threaded ends.
- Fixed bail prevents pail wobble and spillage.
- Pail, lid and pump assembly fully assembled.
- Complies with USCG 183.410 and ISO 8846 MARINE (Ignition Protected).

OIL CHANGE SYSTEMS

JABSCO

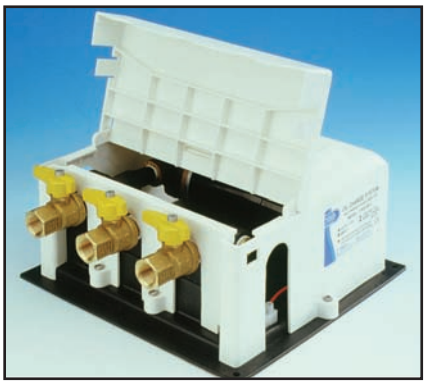
a xylem brand

OIL CHANGE SYSTEM

The Jabsco Oil Change system consists of a powerful reversible flexible impeller pump and a multi-valve distribution manifold mounted on an easy to install platform, to make onboard oil changing of multiple engines a clean and easy task.

The standard system is supplied with a five way manifold, fitted with three brass ball valves. Two additional ports (plugged from the factory) can be fitted with valves to allow the system to serve up to five different devices.

Dimensions:
L: 10-7/8" (27.6 cm)
W: 10-3/16" (26 cm)
H: 6-1/4" (15.9 cm) Including height of switch guards



ORDER NO.	Voltage	Amp/Draw	Fuse / Breaker

OIL CHANGE PUMP

This powerful pump can change oil in a typical V-8 engine in just minutes.

- Pump is reversible to both drain and refill engine oil
- Self-priming to 3 ft (1m) of lift
- Includes 3/8" NPT full flow ball valve
- Reversing switch guard to avoid accidental activation
- Complies with USCG 183.410 and ISO 8846 MARINE (Ignition Protected)

Fitting: Connections for 3/8" NPT male threaded fitting
Size: 7-7/8"L x 3-3/4"W x 4-7/16'H (20cm x 10cm x 11cm)

ORDER NO. 17830-0012

"DO IT YOURSELF OIL CHANGER"

Ideal for marine, industrial, automotive, home and garden use. Fully assembled and with the pump and lid fixed in place to prevent the pail from tipping.

- For use on boats of all sizes
- Self contained Oil Change System
- 4 easy steps to fast, clean oil
- High Temperature resistant Teflon Dipstick probe
- Sheathed power cord with fuse protection
- Secured fully assembled 14 quart(13L) pail prevents wobble and spillage
- Runs on 12VDC with integral power switch
- Tested for 1400 cycles.

Specifications:
Dimensions: 14" (34cm) Diameter
15" (35cm) High

LUBRICANTS

WHITE LITHIUM GREASE

Superior lubrication and durability in any weather or temperature. Perfect for use as a break-in lubricant for bearings or as a general purpose lubricant and corrosion inhibitor for tools, machinery and equipment.
ORDER NO. 268-14200 (284g)
Mfr. No. 14200

HEAVY DUTY SILICONE

A multi-purpose silicone spray. Forms a colourless, odourless, non-staining film that lubricates and protects in most metal to non-metal applications. Dry film eliminates binding and sticking while protecting most surfaces.
ORDER NO. 268-75074 (213g)
Mfr. No. 75074

6-56™ MULTI-PURPOSE LUBRICANT

Plastic safe lubricant, penetrant and corrosion inhibitor that helps prevent electrical malfunctions caused by water penetration, humidity, condensation or corrosion. Restores resistance values and helps stop current leakage.
ORDER NO. 268-76007 (312g)
Mfr. No. 76007

WHEEL BEARING GREASE

A blue tacky, aluminum complex grease using a highly refined base oil. It has been formulated with a polymer to provide adhesive, non-blend and water wash-out characteristics. Will resist water under the most severe water conditions.
ORDER NO. 268-73312 (397g)
Mfr. No. 73312

FREEZE-OFF™ PENETRATING SOLVENT

A unique formula that immediately drops the temperature of the area in direct contact with the spray. The freezing effect cracks rusted surfaces, allowing Freeze-Off to reach deeper and work more effectively than other penetrants.
ORDER NO. 268-75222 (326g)
Mfr. No. 75222

QD™ ELECTRONIC CLEANER

A petroleum distillate/alcohol based precision cleaner designed as a alternative to CFC based cleaners. Ideal for apps where lower flashpoint materials can be tolerated. Cost effective, plastic safe and residue free.
ORDER NO. 268-75102 (312g)
Mfr. No. 75102

SPECIALTY PRODUCTS

BATTERY CLEANER WITH ACID INDICATOR

Instantly detects leaks and neutralizes acid. Removes corrosion by-products. Just spray on and rinse off.
ORDER NO. 268-75097 (312g)
Mfr. No. 75097

BATTERY TERMINAL PROTECTOR

Specially designed to protect battery terminals from corrosion, a leading cause of hard starting and battery failure. Provides a lead-free soft protective coating.
ORDER NO. 268-75046 (213g)
Mfr. No. 75046

TANNERY® LEATHER & VINYL CLEANER

An excellent cleaner for today's leather products. Its mineral oil base and detergent chemistry have proven to be effective for home, farm, auto recreation and marine applications. Silicone free and great for cleaning leather between conditioning treatments.
ORDER NO. 268-75171 (283g)
Mfr. No. 74171

BUG BLAST

Fast acting, high strength insecticide. Ergonomic trigger that provides control, even with gloved hands, and is accurate up to 15' away. Plastic safe – will not damage plastic connectors and other insulating materials.

SmartWasher® BenchtopPRO®

BenchtopPRO® PARTS WASHING KIT

Tackle The Toughest Parts Cleaaning Jobs. Just Clean. Close. Store.™
Engineered to clean without hazardous chemicals. Non-toxic. Non-flammable.

- Designed for home garages and small repair shops. Easy to store.
- The degreasing solution continually cleans itself, so when you are ready to clean parts, the fluid is clean and ready.
- A water-based, self-contained, bioremediating parts washer that is as effective as solvent cleaners without the need to dispose of hazardous waste
- **Kit includes:**

(1) parts washer w/ 48" hose & brush combo
(1) BT5 Degreasing Solution 3.78 L.
(1) MicroPRO Pack® (4 pack)

ORDER NO. 269-00872 (1 Gal.)
Mfr. No. 1000872

BT5 DEGREASING SOLUTION

Water-based degreaser that cleans the dirty parts.
For exclusive use with the BenchtopPRO®

ORDER NO. 269-00447
Mfr. No. 1000447

MicroPRO Pack® (4 pack)

Contains microbes that break down the contaminants from the dirty parts to keep the degreasing solution clean.
Add 1 MicroPRO Pack® every 30 days.

ORDER NO. 269-00495
Mfr. No. 1000495

PERMATEX® RETAINING COMPOUND (BEARING MOUNT FOR CLOSE FITS) Fast Curing

Designed to bond non-threaded, cylindrical, metal assemblies by filling the voids between close-fitting metal parts. Hardens to create a solid, one piece assembly. Seal joints against leakage and prevents fretting & corrosion. Up to 3,000 psi holding power.
Temperature range -65˚ to 300°F.
ORDER NO. 814-60950 Mfr. No. 60950
Size: 50 mL

PERMATEX® LOW STRENGTH THREADLOCKER PURPLE

Designed for fasteners under 1/4" (6mm) that require occasional adjustment. Removable with hand tools for easy assembly. Set screws, headlamp screws, carburetors, relay locks, throttle body assembly, choke assembly, fuel injection set scews, body panel mounting scews & any small screw assembly. Protects against corrosion & prevents vibration loosening.
ORDER NO. 814-24024 Mfr. No. 24024
Size: 6 mL

PERMATEX® REMOVABLE STRENGTH THREADLOCKER BLUE

Valve cover bolts, oil pan bolts, water pump bolts, drive shaft bolts, rocker arm adjustment nuts, carburetor studs, & any similar threaded assembly. Protects against corrosion & prevents vibration loosening. Removable strength, general purpose threadlocker.
ORDER NO. 814-24200 Mfr. No. 24200
Size: 6 mL
ORDER NO. 814-24240 Mfr. No. 24240
Size: 36 mL

PERMATEX® PERMANENT STRENGTH THREADLOCKER RED

Assembly with air tools, cylinder block bolts, ring gear bolts, transmission shaft bolts, shock absorber bolts, frame bolts & similar fasteners subject to higher shock & vibration. Protects against corrosion & prevents vibration loosening.
Permanent high strength theadlocker
ORDER NO. 814-26200 Mfr. No. 26200
Size: 6 mL
ORDER NO. 814-26240 Mfr. No. 26240
Size: 36 mL

PERMATEX® HIGH TEMP/ HIGH STRENGTH THREADLOCKER RED

Camsaft sprocket bolts, cranshaft bolts, Idler bearings, press fit filler tubes, input & out put shaft threads, ring gear bolts & shock bolts. Withstands temperatures up to 450°F. High temp/ high strength threadlocker for heavy duty applications.
ORDER NO. 814-27240 Mfr. No. 27240
Size: 36 mL

For more information see: www.permatex.com

BLUE GEL THREADLOCKER ALL PURPOSE MEDIUM STRENGTH

For fasteners 1/4" to 1". Locks and seals while preventing parts from loosening due to vibration and shock. Protects threads from corrosion.
Temperature range: 54˚C to 150˚C
ORDER NO. 814-24235
Mfr. No. 24235 Size: 35 gram

RED GEL THREADLOCKER ALL PURPOSE HIGH STRENGTH

For fasteners 3/8" to 1". Recommended for parts that must withstand heavy vibration, shock or severe service. Locks and seals while preventing parts from loosening due to vibration and shock. Protects threads from corrosion. Temperature range: 54˚C to 150˚C
ORDER NO. 814-27135
Mfr. No. 27135 Size: 35 gram

PERMATEX® PERMAPOXY™ 5 MIN. GENERAL PURPOSE EPOXY

Fast setting epoxy in an easy to use 2-part dispensing syringe. Can be drilled, machined, filed & painted. Resists most liquids including fuels and solvents. Clear appearance. Sets in 5 minutes.Trim parts, knobs, cracked parts, fills cracks, ceramic, chrome, fabric, fiberglass, glass, hard plastic, metal and rubber. Permanent strength - up to 3400 psi.
Temperture range -51°C to 82°C.
ORDER NO. 814-84111 Mfr. No. 84111
Size: 25 mL

PERMATEX® ULTRA BLACK® RTV GASKET MAKER

Sensor-safe & non-corrosive. Superior adhesion to oily surfaces. Superior resistance to powertrain fluids, transmission fluid, gear lube and coolants.
Temperture range -54°C to 260°C intermittent.
ORDER NO. 814-59813
Mfr. No. 59813
Size: 300 mL Cart
ORDER NO. 814-59803
Mfr. No. 59803
Size: 80 mL Tube

PERMATEX® ULTRA BLUE® RTV GASKET MAKER

Elimintes the need for pre-formed, pre-cut, paper, rubber or cork gaskets. Superior adhesion to oily surfaces. Superior resistance to powertrain fluids, transmission fluid, gear lube and coolants.
Sensor-safe & non-corrosive.
Temperature range -54°C to 260°C intermittent.
OEM specified.
ORDER NO. 814-59603 Mfr. No. 59603
Size: 80 mL Tube

PERMATEX® AVIATION FORM-A-GASKET®

Seals any paper, rubber, cork or composite gasket.
Slow drying, non-hardening sealant.
Resists gasoline, oil, anti-freeze & axle fluids.
Temperature range -54°C to 200°C
ORDER NO. 814-58931 Mfr. No. 58931
Size: 118ml

Permatex

PERMATEX® FORM-A-GASKET® NO. 1 SEALANT

Thick, fast drying, hardening formula. For dressing cork, rubber, paper, & composite gaskets, sealing hose connections temperature range -54°C to 200°C. 1BR

ORDER NO. 814-58912

Mfr. No. 58912
Size: 80 mL

PERMATEX® FORM-A-GASKET NO.2 SEALANT

Thick, slow drying, non-hardening formula.
For dressing cork, rubber & paper gaskets.
Temperature range -54°C to 200°C. 2BR

ORDER NO. 814-58922

Mfr. No. 58922
Size: 80 mL

PERMATEX® THE RIGHT STUFF® GASKET MAKER

For Marine & Automotive gaskets, valve covers, gearbox covers, pumps, compressors, oil pans, themostat housings, water pumps etc.
Temperature range -60°C to 260°C.

ORDER NO. 814-30874

Mfr. No. 30874
Size: 147 mL Cartridge

PERMATEX® ANAEROBIC FLANGE SEALANT

For making and dressing gaskets of all shapes and sizes. Use on rigid-machined metal flanges. Provides a resilient seal that flexes with minor flange movements.

ORDER NO. 814-51550

Mfr. No. 51550
Size: 50 mL

PERMATEX® SURFACE PREP® ACTIVATOR

Any threadlocking, thread sealing & retaining application.Cleans & primes parts prior to assembly. Use in cold temperatures or where faster curing of Permatex® products is desired.

ORDER NO. 814-24715

Mfr. No. 24163
Size: 127g

PERMATEX® PERMAPOXY™ 4 MIN. MULTI-METAL EPOXY

Fills holes, mounts metal components, fills metal cracks, seals welded seams, aluminum, brass, chrome, copper, iron, stainless steel and steel. Permanent strength - up to 4500 psi. Resists most liquids including fuel & solvents.

ORDER NO. 814-84119

Mfr. No. 84119
Size: 25 mL

PERMATEX® PERMAPOXY™ 5 MIN. PLASTIC WELD

Bonds most plastic, interior trim, fills cracks, plastic to vinyl, ABS, acrylic, fiberglass, glass, PVC, steel, styrene, vinyl & wood. Permanent strength - up to 3500psi. Resists most liquids including fuel & solvents.

ORDER NO. 814-84125

Mfr. No. 84125
Size: 25 mL

PERMATEX® GUMOUT BRAKE PARTS CLEANER

Instantly penetrates, dissolves and flushes away contaminants from critical brake components. Non-chlorinated, leaves no residue, removes grease, oil, brake fluid, transmission fluid, hardened deposits, dust and other debris. PROFESSIONAL STRENGTH

ORDER NO. 814-29233

Mfr. No.29233
Size: 390g

NEW!

PERMATEX® HIGH PERFORMANCE THREAD SEALANT

Prevents leaks due to extreme pressures, vibration and temperature cycles. Protects threads from rust corrosion and galling. Parts can be repositioned after assembly.
Temperature range up to 150˚C (300˚F).

ORDER NO. 814-56550

Mfr. No. 56550
Size: 50 mL, White

NEW!

PERMATEX® BLACK SILICONE ADHESIVE SEALANT

Seal & waterproof electrical connections windshields, hatches, firewall openings heater boxes, vinyl tops, seams weather stripping. Seals & bonds glass, metal, plastic, fabric & vinyl.
Temperature range -62°C to 260°C. 16BR

ORDER NO. 814-59203

Mfr. No. 59203
Size: 80 mL

PERMATEX® CLEAR SILICONE ADHESIVE SEALANT

Seal & waterproof electrical connections, windshields, hatches, firewall openings, heater boxes, vinyl tops, seams, weather stripping. Seals & bonds glass, metal, plastic, fabric & vinyl.
Temperature range -60°C to 204°C. 66B

ORDER NO. 814-59103

Mfr. No.59103
Size: 80 mL

Captain PHAB

A. MOOVIT HIGH PERFORMANCE PENETRATING LUBRICANT

- Blended from the highest quality natural ingredients, uniquely formulated to loosen rusted, seized parts, nuts and bolts with ease
- Moovit is user friendly, compatible with all metals, alloys, plastic, and rubber

ORDER NO.	Mfr. No.	Size
706-11014	11014	350 g

B. DRY TEFLON™ LUBRICANT

- Contains Teflon™ for superior friction reduction. Goes on wet and dries clear.
- Water and moisture resistant to prevent corrosion.
- Dry form does not transfer to hands, clothing, sails. Non staining.
- Sheds dust and dirt to minimize abrasive wear.
- Ideal for cables, trailer hitches, linkages, sail tracks, awning mechanisms, windows, doors, fasteners, zippers and head plungers.

Teflon is a registered trademark of Dupont

ORDER NO.	Mfr. No.	Size
706-03911	391	312 g

C. MULTI-LUBE

- Loosens nuts, bolts and sticky mechanisms.
- Stops squeaks and noises for much longer periods *(Contains a lubricating oil that stays behind).*
- Displaces moisture to 'dry out' electrical wiring.
- Contains inhibitors to protect against corrosion.

ORDER NO.	Mfr. No.	Size
706-03941	394	340 g

D. KLEENS-IT NON CHLORINATED BRAKE PARTS CLEANER

- A fantastic safety solvent used for many cleaning & degreasing tasks required during mechanical repairs
- Almost odorless and extremely fast evaporating

ORDER NO.	Mfr. No.	Size
706-57320	57320	390 g

E. CARBURETOR CLEANER

- Removes gums and varnishes quickly and thoroughly.
- Powerful solvents ensure down to metal cleanliness.
- Restores proper engine performance and fuel economy.
- Use on metal carburetor's only.

(Not suitable for plastics)

ORDER NO.	Mfr. No.	Size
706-03011	301	340 g

F. MARINE SEALANT

- Waterproof
- Virtually odorless.
- Stretches 50% without cracking.
- Superior adherence to gel coat, glass and other difficult surfaces.
- Extra Mildew protection added.
- Excellent stability in presence of solvents and sunlight.
- Stays flexible from - 50° F to 440° F.

ORDER NO.	Mfr. No.	Size	Colour
706-06161	6160	300 ml	White
706-06171	6170	300 ml	Clear

G. LEAK DETECTOR

- For propane tanks and refrigeration lines. Thickened to detect slow leaks and prevent drippage.
- Dauber included for easy application.
- Rinses off readily with water.

ORDER NO.	Mfr. No.	Size
706-06431	643	225 ml

H. NEW SYSTEM SEALANT

- High Performance MARINE / RV / INDUSTRIAL
- Direct to metal adhesive Sealant
- Suitable for above and below waterline
- Superior adhesion to plastic, all metals including aluminum, teak, fiberglass
- Flexible, non-yellowing
- Sandable & paintable
- UV resistant

ORDER NO.	Mfr. No.	Size	Colour
706-05000	50000	300 ml	White
706-05001	50001	300 ml	Black

ON & OFF HULL & BOTTOM CLEANER

Removes waterline stains, algae stains, rust and gas exhaust stains. It works instantly and is asy to use, just brush it on, then rinse it off. For use on fiberglass only.

ORDER NO.	Mfr. No.	Size
268-76203	76203	946ml
268-76204	76204	3.785L

DG

ON & OFF GEL HULL & BOTTOM CLEANER

Unique gel formula clings to the surface to break down grease and oil, and remove scum lines and stains. Blue color makes it easy to see where the product has been applied. Works fast! Just brush on and rinse off. Pleasant scent.

ORDER NO.	Mfr. No.	Size
268-76532	76532	946ml

ALUMINEX™ CLEAN & SHINE

Light duty, dual-action formula designed to instantly clean and brighten aluminum hulls. Utilizes Safe Acid Technology™ to provide a gentler cleaner w/added brightening action. Regular use will help maintain a "like new" appearance.

ORDER NO. 268-76332 (946ml)
Mfr. No. 76332

INFLATABLE BOAT CLEANER

This special formulation is a non-flammable, heavy duty cleaner that quickly removes dirt, grease, grime & stains. Works equally well on fiberglass surfaces.

ORDER NO. 268-76832 (947ml)
Mfr. No. 76832

DG **Subject to Dangerous Goods Fee**

For more information see: www.crc-canada.ca

CLEAN-R-CARB™

Designed to maximize carburetor performance. Quickly dissolves carburetor deposits such as gum, sludge and varnish to improve fuel system performance and enhance fuel economy.

ORDER NO. 268-76064 (340g) DG
Mfr. No. 76064

STAINLESS STEEL CLEANER & POLISH

Exclusive ultra-shine formula eliminates dirt, dust, fingerprints, and watermarks. Leaves behind a non-greasy protective barrier to resist return of stains and water spots. CFIA Accepted.
Applications: Aluminum chrome, other shiny metal surfaces located in heavily industrial environments, stainless steel.

- Use for Commercial, Automotive and Marine
- Durable lasting shine
- Biodegradable

ORDER NO. 268-74424 (510g)
Mfr. No. 74424

GLASS CLEANER

Cuts through dirt, dust, fingerprints and haze deposits. Provides streak-free glass cleaning even on delicate glass surfaces. Biodegradable, ready to use.

ORDER NO. 268-76100 (510g)
Mfr. No. 76100

3M™ SCOTCH-WELD™ NITRILE HIGH PERFORMANCE RUBBER & GASKET ADHESIVE

- Quick drying and flexible with fuel & oil resistance
- Heat & solvent reactivatable
- Curable with heat
- Bonding, adhering, gluing, joining & attaching

Consistency: Medium liquid
Bonding Range: Up to 15 minutes
Colour: Brown

ORDER NO. 600-00847
Mfr. No. 847-5OZ Size: 5 oz.Tube

MOTOR FLUSHERS

UNIVERSAL ROUND CUP MOTOR FLUSHER

- Universal economy round cups
- Use on all lower units with side water inlets
- Quickly removes salt & mineral build-up with a simple flush
- No tools required
- Easy to use

ORDER NO. 801-99076-00
Mfr. No. 99076-00

RECTANGULAR CUP MOTOR FLUSHER

Powder Coated Aluminum for Standard Engine

- Ideal in low-pressure conditions often found in marinas
- For use on all lower units with side water inlets, including Volvo SX
- Improved water flow with rectangular cups virtually eliminates water leakage for high-pressure flushing

ORDER NO. 801-99077-00
Mfr. No. 99077-00

INBOARD MOTOR FLUSHER

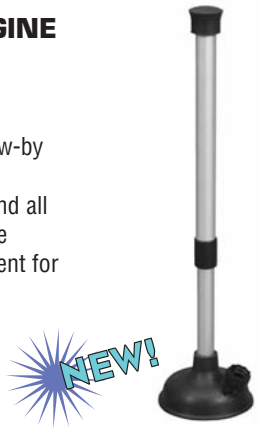
- Fits ski boats and other boats with sea strainers
- Installs in seconds
- Stainless steel T fitting slides into the intake slot in either direction for a quick fit
- Flusher is supported with 360˚ plastic support ring insuring a tight fit to the bottom of the boat

ORDER NO.	Mfr. No.
801-99085-00	099085-00

ADJUSTABLE INBOARD ENGINE MOTOR FLUSHER

- No tools required
- Telescoping flusher installs in minutes
- Large cup prevents fall-off or water blow-by
- 31" total length
- Fits inboards, performance ski boats, and all boats with teardrop-shaped water intake
- Telescoping tube allows precise alignment for hard to reach areas
- Ideal for Generator sets

ORDER NO.	Mfr. No.
801-99081-00	099081-00



VOLVO ROUND CUP MOTOR FLUSHER

- Fits 200; 250; 270;280 & 290 hp lower units
- No tools required
- Easy-to-Use!

ORDER NO.	Mfr. No.
615-99080-00	099080-00

PROFESSIONAL DUAL WATER FEED MOTOR FLUSHER

For Inboard Applications

- Rectangular cups
- Installs in seconds
- Designed for engines above 75 hp
- Heavy-duty metal yoke for added strength and extended use

ORDER NO.	Mfr. No.
801-380160	380160

DUAL WATER FEED UNIVERSAL MOTOR FLUSHER

- A customer favourite for all engines over 50hp
- For use on all lower units with side water inlets, including Volvo
- Improved water flow with rectangular cups virually eliminates water leakage for higher pressure flushing

ORDER NO.	Mfr. No.
801-99082-00	099082-00

Sierra Marine Engine and Drive Parts

ENGINE FLUSHER RECTANGULAR CUPS
Universal
Fits most engines 120 HP & Up
ORDER NO. 018-89980-1 Mfr. No. 18-8998-1

For more information see: www.catalog.sierraparts.com

attwood

UNIVERSAL MOTOR FLUSHER
Quickly flushes away salt, sand, silt and alkali to prevent clogging and corrosion. The flusher attaches easily to an ordinary garden hose. Reinforced polypropylene. Self adjusting clamping yoke fits most domestic or imported I/O's and outboards. Molded cups deliver fresh water from a garden hose to flush the cooling system through side intakes on the lower unit. Do not use full flow from hose.

WIRE & CABLE CUTTER

This wire and cable cutter has steel forged blades easily cut 22 AWG to 2/0 AWG copper wire and cable

- Contoured cushion grips for comfort & ease of use
- Length: 9.25" (235mm)

ORDER NO. 427-03005
Mfr. No. 703005

HEAVY DUTY WIRE & CABLE CUTTER

- Steel forged blades easily cut up to 350MCM (2 sizes larger than 4/0 AWG) copper wire & cable
- Strong fiberglass handles with thermoplastic rubber grips for comfort & slip resistance
- Length - 17.5" (444mm)

ORDER NO. 427-03006
Mfr. No. 703006

HEAVY-DUTY WIRE SCISSERS

- Corrosion resistant stainless steel blades
- Ergonomic overmolded handles for comfort & safety
- Cut wire up to 6 AWG (13mm^2)
- Includes safety holster with belt clip
- Length: 5.9" (15 cm)

ORDER NO. 427-03007 NEW!
Mfr. No. 703007

CUT/STRIP TOOL

- Precision ground cutter & stripping stations
- Strips insulation from 24 AWG to 10 AWG (0.5 to 2.6mm^2) solid and stranded wires
- Length: 6.6" (16.7 cm)

ORDER NO. 427-02008 NEW!
Mfr. No. 702008

STAINLESS STEEL CUT/ STRIP/CRIMP TOOL

- Crimp 10 to 22 AWG insulated & non-insulated terminals & coaxial connectors
- Cut & strip 22 AWG to 8 AWG solid & 24 AWG to 10 AWG stranded wire
- Cut & rethread 4-40, 5-40, 6-32, 8-32, 10-24, 10-32 screws
- Precision ground plier nose
- Length: 8.3" (21.0 cm)

ORDER NO. 427-01009
Mfr. No. 701009

CUT/STRIP/CRIMP TOOL

- Crimps 22 AWG to 10 AWG (0.3 to 5mm^2) insulated & non-insulated terminals, connectors & spark plug terminals in special cavities
- Strips insulation from 22 AWG to 10AWG (0.3 to 5mm^2) solid & stranded wires
- Cuts (4) 40/2 mm, (6) 32/4 mm, (8) 32/4.8mm, (10) 32/6.4 mm & 10-24/6.4 mm bolts
- Length: 8.6" (20.3 cm)

ORDER NO. 427-02007 NEW!
Mfr. No. 702007

CUT/STRIP/CRIMP TOOL

Precision ground cutters & stripping station.

- "Box" crimp works with Ancor double crimp terminals
- Marking is embossed and paint filled
- Crimps 22-10 AWG (0.3-5 mm^2) insulated and non-insulated terminals, connectors and spark plug terminals
- Cuts 4 -40/2mm, 6 -32/4mm, 8 - 32/4.8mm, 10 32/6.4mm & 10 24/6.4mm bolts

ORDER NO. 427-01007
Mfr. No. 701007

AUTOMATIC WIRE STRIPPER

- Automatically adjusts to different wire sizes
- Strips without damage or marking
- Strips & cuts wire from 24 AWG to 12 AWG (0.02-5.0mm^2)
- Wire stop adjusts length of strip from 3/8" to 1/2" (9.5 to 12.7mm)
- Length: 6.7" (17.0 cm)

ORDER NO. 427-02030
Mfr. No. 702030

COMPACT AUTOMATIC WIRE STRIPPER

- Compact design perfect for use in tight spaces
- Strips without damage or marking of conductors
- Strips & cuts wire from 20 AWG to 10 AWG (0.05-5.0mm^2)
- Length: 6.3" (16.0 cm)

ORDER NO. 427-02031 NEW!
Mfr. No. 702031

PREMIUM BATTERY CABLE STRIPPER

- Punctures the cable's insulation, breaks the insulation free & pulls the cut insulation from the wire in one efficient motion
- Strips 8 AWG through 400 MCM cable
- Heavy duty construction
- Length: 5.3" (13.0 cm)

ORDER NO. 427-03075
Mfr. No. 703075

UNIVERSAL WIRE STRIPPER

- Two different cutting methods to cut either small gauge wire or large gauge battery cable
- Wire stripping from 20 AWG to 10 AWG (0.05-5.0mm^2)
- Battery cable stripping from 8 AWG to 4/0 AWG (8-107mm^2)
- Length: 5.7" (14.5 cm)

ORDER NO. 427-02032 NEW!
Mfr. No. 702032

8 TO 4/0 AWG HEAVY-DUTY HEX LUG & TERMINAL CRIMPER

- Uses revolving dies to create a hex style crimp for 8 AWG to 4/0 AWG
- Length: 24.4" (62 cm)

ORDER NO. 427-03040
Mfr. No. 703040

8 TO 1/0 AWG HEX LUG & TERMINAL CRIMPER

- Uses revolving dies to create a hex style crimp for 8 AWG to 1/0 AWG
- For portable use
- Length: 15.4" (39 cm)

ORDER NO. 427-03050
Mfr. No. 703050

22 TO 8 AWG SINGLE CRIMP RATCHETING CRIMPER

- Ideal for crimping heat shrink terminals
- Can also be used with vinyl & nylon insulated terminals & connectors
- Must be fully closed before tool allows itself to open ensuring a proper crimp
- Includes lever to release jaws mid-cycle in the event of an incorrectly placed terminal
- 4 colour-coded cavities for different wire sizes
- Length: 10.9" (27.6 cm)

ORDER NO. 427-03010
Mfr. No. 703010

26 TO 10 AWG DOUBLE CRIMP RATCHETING CRIMPER

- Ideal for crimping nylon & vinyl terminals
- Double crimp mechanism crimps stranding & insulation portion of Ancor connectors in one motion for superior strain relief of vinyl & nylon terminals
- Must be fully closed before tool allows itself to open ensuring a proper crimp
- Includes lever to release jaws mid-cycle in the event of an incorrectly placed terminal
- 4 colour-coded cavities for different wire sizes
- Length: 10.9" (27.6 cm)

ORDER NO. 427-03030
Mfr. No. 703030

ANGLED 22 TO 8 AWG SINGLE CRIMP RATCHETING CRIMPER

- For crimping heat shrink terminals
- Angled head design is ideal for use in tight spaces
- Self-releasing mechanism ensures proper crimp
- Ratcheting operation & ergonomical handles prevent fatique
- Length: 9.5" (324cm)

ORDER NO. 427-03015 NEW!
Mfr. No. 703015

ANGLED 26 TO 10 AWG DOUBLE CRIMP RATCHETING CRIMPER

- For crimping nylon & vinyl terminals
- Angled head design is ideal for use in tight spaces
- Self-releasing mechanism ensures proper crimp
- Ratcheting operation & ergonomical handles prevent fatique
- Length: 9.5" (324cm)

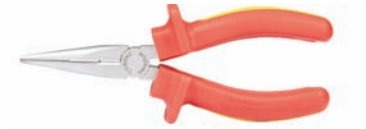
MINI FISH TAPE

- Durable, high-impact housing
- Low-memory 15 ft. tape does not curl during extension—perfect for non-conduit situations
- Compact, rugged design can be stored in tool belt or box
- Feed under carpet, behind walls or through panels
- Perfect for short runs, installing speakers, instrument clusters or common electrical uses

ORDER NO. 427-03112
Mfr. No. 703112



6" LONG NOSE PLIERS

- Insulated to 1000V
- Ideal for use in tight spaces
- Chrome vanadium
- Length: 6" (15.2 cm)

NEW!

ORDER NO. 427-10010
Mfr. No. 710010

7" COMBINATION PLIERS

- Insulated to 1000V
- Combines both gripping jaws & wire cutter
- Chrome Vanadium
- Length: 7" (17.8 cm)

NEW!

ORDER NO. 427-10020
Mfr. No. 710020

6" BENT NOSE PLIERS

- Insulated to 1000V
- Ideal for use in tight spaces
- Chrome Vanadium
- Length: 6" (15.2 cm)

NEW!

ORDER NO. 427-10030
Mfr. No. 710030

6" DIAGONAL CUTTING PLIERS

- Insulated to 1000V
- Ergonomic cutter for wire or cable ties
- Chrome Vanadium
- Length: 6" (15.2 cm)

NEW!

ORDER NO. 427-10040
Mfr. No. 710040

NEW!

7 PIECE SCREWDRIVER SET

Kit includes:

(1) 1/8" x 3" Slotted
(1) 7/32" x 5" Slotted
(1) 1/4" x 6" Slotted
(1) Test probe
(1) #0 x 3" Phillips
(1) #1 x 3" Phillips
(1) #2 x 4" Phillips

- Insulated to 1000V
- Includes convenient storage/carrying case with display window

ORDER NO. 427-11000
Mfr. No. 711000

WIRE STRIPPER /CRIMPER TOOL

Powder Coated Steel

Crimps and strips 22-10 gauge wire
Great addition to any tool box.

ORDER NO. 424-29900

Mfr. No. 429900-1

DELUXE WIRE STRIPPER /CRIMPER TOOL

Chrome Plated Steel

Spring loaded, strips & crimps 22-10 gauge wire.
Great addition to any tool box.

ORDER NO. 424-29905

Mfr. No. 429905-1

DELUXE TERMINAL WIRE CRIMPER

Power Coated Steel

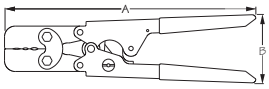
Crimps 22-10 gauge terminals.
Great addition to any tool box.

ORDER NO. 424-29910

Mfr. No. 429910-1

HEAT SHRINK TERMINAL CRIMPER TOOL

Powder Coated /Stainless Steel

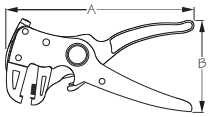


ORDER NO.	Mfr. No.	A	B
424-29920	429920-1	9"	2-3/16"

Heat Shrink Terminal Crimper tool crimps 22-10 gauge Heat Shrink terminals.
Great addition to any tool box.

ADJUSTABLE WIRE STRIPPER/CUTTER TOOL

Powder Coated Steel

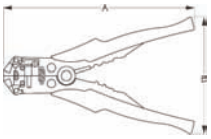


ORDER NO.	Mfr. No.	A	B
424-29930	429930-1	6-3/4"	3-3/8"

Adjustable Wire Stripper/Crimper Tool crimps 22-10 gauge terminals.
Great addition to any tool box.

MULTI-FUNCTION WIRE STRIPPER & CRIMPER

Powder Coated Steel

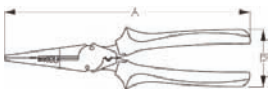


ORDER NO.	Mfr. No.	A	B
424-29940	429940-1	8"	4"

Three tools in one! It strips, crimps, and cuts 24-10 gauge wire with ease.

MULTI-FUNCTION NEEDLE NOSE WIRE STRIPPER & CRIMPER

Powder Coated /Stainless Steel



ORDER NO.	Mfr. No.	A	B
425-63152	563152-1	8-1/2"	2"

Includes needle nose pliers, cutters, wire strippers & crimper. Corrosion resistant.

DIGITAL MULTIMETER

Auto-ranging, DC & AC volts range 0.0001 to 1000 volts, Diode, Continuity beeper, milli and micro ampere, Amps (10 amps Max), Ohms, Temperature, Auto shutdown, Back lighted display.

ORDER NO. 511-600000
Mfr. No. 511-60A

INLINE NEON SPARK TESTER

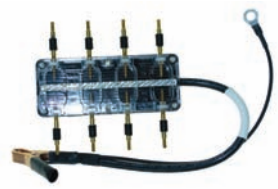
Ideal for personal watercraft. Sealed design is an added safety factor that further reduces the possibility of igniting gas fumes, especially in the hull of a PWC. Good for checking spark on running engines.

ORDER NO. 511-976400
Mfr. No. 511-9764

SPARK TESTER

Enclosed 8 Cyl., adjustable spark gap tester. Has heavy-duty wire for mounting in any position. Helps reduce possibility of igniting gas fumes.
(Wires sold separately)

ORDER NO. 511-976600
Mfr. No. 511-9766



SPARK TESTER

Sealed design reduces possibility of fire, an be used to test 1-8 Cyl., Pins designed for threaded spark plug

ORDER NO. 511-976601
Mfr. No. 511-9766T

PIERCING PROBE SET

Fully insulated probes with spring loaded clamp. Probes with stainless steel pin self-centers and punctures insulation. Includes:
1 red & 1 black probe.

ORDER NO. 511-977000
Mfr. No. 511-9770

AMP METER ADAPTER
Compatible W/DIGITAL METERS

1-400 amp range, Use to measure battery charging output current or starter current draw, Can be used with any DC multimeter w/ a Milli-Volt range & 3/4" test lead sockets.

ORDER NO. 511-977200
Mfr. No. 511-9772

DVA ADAPTER

Built in test leads.
Replacement tips fit most test clips.

ORDER NO. 511-977300
Mfr. No. 511-9773

DVA ADAPTER

Test leads not included-use existing meter leads.

ORDER NO. 511-977301
Mfr. No. 511-9773NL

PACK LOAD RESISTOR

Use to replace ignition coil for testing DVA output from ignition pack when looking for a defective coil,
Replaces: PL88.

ORDER NO. 511-977500
Mfr. No. 511-9775

CDI Electronics

TOOLS & TEST EQUIPMENT

DIAGNOSTIC TOOL KIT

Digital Multimeter w/ DVA Adapter & Resistor Test Card - 511-60A, Practical Outboard Ignition Troubleshooting Guide - 961-0002, CDI Electroncis Catalog - 961-0001, Laminated DVA Chart - 961-0003,Spark Gap Tester- 511-9766, Johnson/Evinrude Pin Tool Set - 553-2700, Spark Plug Gap Tool, Terminal Kit - 912-9708, OIS 6 Cyl. Test Harness - 511-4127, OIS 4 Cyl. Test Harness - 511-7270, CDM Test Harness - 511-5207A 1,5-Wire Jumper Kit - 511-73W, Piercing Probe Set - 511-9770, Spark Gap Tester - 511-9764, Packload Resistor - 511-9775, Compression Test Kit - 511-9778, CDI Connector Kit - 911-9900, Miscellaneous Cable Ties, & Durable Toolbox.

ORDER NO. 511-990400
Mfr. No. 511-9904

TEST LEAD SET

48" Set. Includes:
1 Red & 1 Black Test Leads.

ORDER NO. 511-000010
Mfr. No. 511-TL10

GEARCASE FILLER

Sturdy tear-drop design w/drip tray resists tipping over. The check valve on the vent allows you to remove the filler nozzle without loosing any appreciable amount of lubricant.
Replaces:
551-33GF, S33 Gearcase Fillers.
Includes:
551-33CV E-Z Fill and 551-334K Adapter Kit

ORDER NO. 551-000333
Mfr. No. 551-33-1

LOWER UNIT ADAPTER KIT

Compatible w/ 551-33-1, 551-34PV, 551-34HA & 551-34HB

Includes: 551-334M, 551-334S, 551-334V, 551-33TN & 551-33UN

ORDER NO. 551-00334-K
Mfr. No. 551-334K

LOWER UNIT FILL TUBE

Adapter for 551-33-1 Gearcase Filler (Perfect for Bravo lower unit & Verado lower unit)

ORDER NO. 551-00334-B
Mfr. No. 551-334B

METRIC ADAPTER

Adapter for 551-33-1 Gearcase Filler

ORDER NO. 551-00334-M
Mfr. No. 551-334M

SUZUKI ADAPTER

Adapter for 551-33-1 Gearcase Filler

ORDER NO. 551-00334-S
Mfr. No. 551-334S

FILLER VENT CHECK VALVE

Calibrated check valve creates air-lock to keep lubricant from running out while you install drain plug.

ORDER NO. 551-000332
Mfr. No. 551-33CV

VOLVO ADAPTER

Adapter for 551-33-1 Gearcase Filler

ORDER NO. 551-00334-V
Mfr. No. 551-334V

REPLACEMENT VALVE

Replacement Valve for the 551-33-1 Gearcase Filler

ORDER NO. 551-00033-VA
Mfr. No. 551-33VA

DIELECTRIC GREASE
Silicon-based grease that's designed to seal out moisture and prevent corrosion on electrical connectors. It also disrupts the flow of electrical current, which makes it good for lubricating and sealing the rubber parts of electrical connectors. Commonly used for spark plug wires. Works w/ most major engine brands.

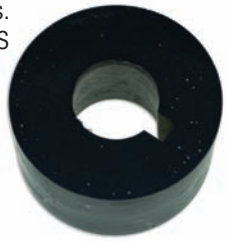
ORDER NO. 991-970600
Mfr. No. 991-9706

FUSE HOLDER 5 PIECE KIT
Water resistent fuse holder. 30 amp

ORDER NO. 992-970300
Mfr. No. 992-9703

PRESSURE & VACUUM TESTER
Combination tester does both pressure & vacuum testing. Replaces: S34, V34 Testers. Includes: 551-34HA, 551-334M & 551-334S

ORDER NO. 551-000341
Mfr. No. 551-34PV

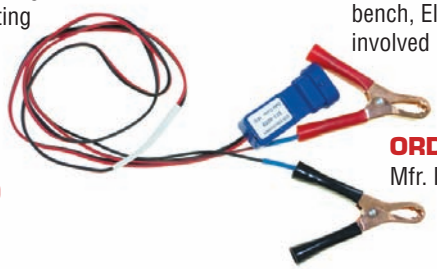


SENSOR GAP TOOL 2/3/4 CYL.
1972-1978, Engines w/ Open Timer Base, Compatible for Setting Timerbase Air Gap on Johnson Evinrude Engines w/ Terminal Block Power Packs.

ORDER NO. 553-970200
Mfr. No. 553-9702

OPTICAL SENSOR TESTER
Used to test V4/V6 optical sensor on the engine or on the bench, Unique Design sounds an audible alert when setting the ignition timing to allow an eyes free operation.
Replaces:
434017 OIS 2000 Sensor Tester.

ORDER NO. 511-401700
Mfr. No. 511-4017



OPTICAL SENSOR TESTER
Unique 3 Cyl. Optical Sensor Tester used to test 3 Cyl. Optical sensor on engine or bench, Eliminates the guesswork involved in testing trigger sensor

ORDER NO. 511-401900
Mfr. No. 511-4019

CDM MODULE TEST HARNESS
Unique design allows you to break the kill circuit without cutting the wire, Allows testing of DVA voltages from the stator and trigger while connected to the CDM Module, Can be used to Bench Test CDM Modules, Replaces: 84-825207A1

ORDER NO. 511-520701
Mfr. No. 511-5207A 1

REMOTE STARTER
Compatible w/ most 1975-2016 Johnson Evinrude Engines, Replaces Boat-side control harness at the Engine for Testing.

ORDER NO. 511-699600
Mfr. No. 511-6996

TRIGGER TESTER
Ideal for testing Mercury Marine triggers, Chrysler/Force Triggers, Chrysler Pre-Amp & Hall Effect Sensors, Johnson Evinrude V6 Quick Start Timer Bases (1998 & Newer), & Johnson Evinrude OIS Ignition, EFI

ORDER NO. 511-971000
Mfr. No. 511-9710

TOOLS & TEST EQUIPMENT

CDM MODULE TEST KIT
Can be used with all CDM Ignition Systems for Mercury. 4 Wire CDM.
Includes: 114-7509 & 511-5207A1

ORDER NO. 511-750960
Mfr. No.511-7509K 6

REMOTE STARTER SWITCH
4 & 6 Cyl. 1978 & Older Mercury Engines,
Replaces:
Boat-side control harness at engine.

ORDER NO. 511-780000
Mfr. No. 511-7800

REMOTE STARTER
1979-2006 Mercury Engines, Replaces: Boatside control harness at engine.

ORDER NO. 511-790000
Mfr. No. 511-7900

REMOTE STARTER
2006 & Older Mercruiser Engines,
Replaces:
Boat-side control harness at engine.

ORDER NO. 511-795000
Mfr. No. 511-7950

REMOTE DVA TEST HARNESS
Designed for use w/ 1978-2000 Mercury Engines w/ separate ignition packs & coils, Johnson/Evinrude 1973-2006 Carbureted Engines & Yamaha Engines.

ORDER NO. 511-977600
Mfr. No. 511-9776

OUTBOARD IGNITION LAMINATED DVA CHART

ORDER NO. 961-000300
Mfr. No. 961-0003

INSULATOR BLOCKS
1970-1975 (4HP - 1 Cyl.) 1966-1989 (4,4.5,7.5,9.8 & 20HP - 2 Cyl.)

ORDER NO. 994-398100
Mfr. No. 994-3981

DISTRIBUTOR SHAFT & ROTOR 4/6 CYL.
Fits Most 1970-1979 (Outboard Engines w/ a Distributor)

ORDER NO. 994-437100
Mfr. No. 994-4371

HARNESSES

ENGINES ADAPTER HARNESS
Adapts 1976-1995 Johnson Evinrude Engines to New Deutsch Controls. 18" Long.

ORDER NO. 423-634400
Mfr. No. 423-6344

ENGINES ADAPTER HARNESS
Adapts 1996-2016 Johnson Evinrude Engines to 1976-1995 Controls. 18" Long.

ORDER NO. 423-634900

8 FUNCTION DIGITAL MULTIMETER

- Auto ranging capability allows the meter to automatically determine the resolution based on the application
- Clear LCD display
- Lightweight, ergonomic design
- Comfortable protective cover, with test lead hanging groove
- Loud buzzer sound
- Overload Protection: 250V RMS
- CAT Rating: CAT II 250V
- Batteries:, two AAA Batteries (not included)
- Continuity✓, Diode Test✓

ORDER NO. 427-03072 Mfr. No. 703072

TRUE RMS 12 FUNCTION DIGITAL MULTIMETER

- Auto ranging capability allows the meter to automatically determine the resolution based on the application
- Clear LCD display
- Comfortable protective cover, with test lead hanging groove
- High voltage warning
- Auto power off functionality to save battery life
- Overload Protection: 600V RMS
- CAT Rating: CAT II 1000V, CAT III 600V
- Batteries:, two AAA Batteries (not included)
- Continuity✓, Diode Test✓, NCV✓

ORDER NO. 427-03073 Mfr. No. 703073

TRUE RMS 12 FUNCTION DIGITAL SNAP-AROUND METER

- Easy to read backlit OLED screen
- Non-contact AC voltage testing
- Provides accurate readings for both pure sine wave & modified sine wave electrical circuits
- Zeroing function
- Overload Protection: 1000v DC, 750V AC
- CAT Rating: CAT III 600V
- Flashlight for use in dark compartments
- Includes convenient carrying case
- Batteries:, three AAA Batteries (not included)
- Continuity✓, Diode Test✓, NCV✓

SELOC TUNE-UP & REPAIR MANUALS

CHRYSLER/FORCE OUTBOARDS, ALL ENGINES

18-01101

Covers all 3-150 HP, 1962-99
All Engines, 1 to 5-cyl.,
Including L-Drive

ORDER NO. 918-01101

SelocOnline

HONDA OUTBOARDS, ALL ENGINES

18-01200

Covers all 2-130 HP, 1978-2001
4 Stroke, 1 to 4-Cylinder,
Including Fuel Injection & Jet Drives

ORDER NO. 918-01200

SelocOnline

HONDA OUTBOARDS, ALL ENGINES

18-01202

Covers all 2-225 HP, 2002-2014
1 to 4-Cylinder, & V6,
Including Jet Drives

ORDER NO. 918-01202

SelocOnline

JOHNSON/EVINRUDE

18-01301

Covers all 1.5-125 HP,
1958-1972
1 to 4 Cylinder

ORDER NO. 918-01301

SelocOnline

JOHNSON/EVINRUDE

18-01302

Covers all 1.25-60 HP, 1971-89
1 & 2-Cylinder
2 Stroke Models

ORDER NO. 918-01302

SelocOnline

JOHNSON/EVINRUDE

18-01308

Covers all 60-235 HP, 1973-91
3-Cylinder, V4 & V6 Models
2 Stroke models, Includes Jetdrives

ORDER NO. 918-01308

SelocOnline

JOHNSON/EVINRUDE, ALL V-ENGINES

18-01311

Covers all 65 Jet -300 HP, 1992-01
V4, V6 & V8 Engines.

ORDER NO. 918-01311

Available on SelocOnline

JOHNSON/EVINRUDE, ALL INLINE

18-01312

Covers all Inline Engines 1.25-70 HP,
1990-2001 2 & 4-Stroke Models.

ORDER NO. 918-01312

Available on SelocOnline

EVINRUDE 2 STROKE W/ FUEL INJECTION

18-01313

Covers all 15-300 HP, 2002-2014
2 & 3 Cylinder Inline, V4 & V6
2 Stroke with Fuel Injection

ORDER NO. 918-01313

Available on SelocOnline

JOHNSON/EVINRUDE, 2 & 4 STROKE

18-01314

Covers all 2.5-250 HP, 2002-2007
2 & 4-Stroke Models

ORDER NO. 918-01314

Available on SelocOnline

MARINER OUTBOARDS, 1 -2 CYLINDER

18-01400

Covers all 2-60 HP, 1977-89
1 & 2-Cylinder Models
2 Stroke Models

ORDER NO. 918-01400

MARINER OUTBOARDS, 3, 4, & 6 CYLINDER

18-01402

Covers all 45-220 HP, 1977-89
3, 4 & 6-Cylinder Models
2 Stroke Models

ORDER NO. 918-01402

MERCURY OUTBOARDS, 1-2 CYLINDER

18-01404

Covers all 2-40 HP, 1965-89
1 & 2-Cylinder Models
2 Stroke Models

ORDER NO. 918-01404

MERCURY OUTBOARDS, 3-4 CYLINDER

18-01406

Covers all 40-115 HP, 1965-89
3 & 4-Cylinder Models
2 Stroke Models

ORDER NO. 918-01406

MERCURY OUTBOARDS, 6 CYLINDER

18-01408

Covers all 90-300 HP, 1965-89
In-line 6 & V6 Models. 2 Stroke Models,
Includes Fuel Injection & MR Drives

ORDER NO. 918-01408

MERCURY/MARINER OUTBOARDS ALL ENGINES 1990-2000

18-01416

Covers all 2.5-275 HP, 1990-2000
1 to 6-Cylinder, 2 Stroke Models,
Includes Jet Drives.

ORDER NO. 918-01416

Available on SelocOnline

MERCURY OUTBOARDS, 1-4 CYLINDER

18-01418

Covers all 2.5-250 HP, 2001-2014
1-4 Cylinder & V6, 2-Stroke Models,
Includes Jet Drives.

ORDER NO. 918-01418

Available on SelocOnline

MERCURY OUTBOARDS, 4-STROKE

18-01422

Covers all 2.5-350 HP, 2005-2011
1 to 4 Cylinder, V6 & V8
4 Stroke Models, Includes Jet Drives

ORDER NO. 918-01422

Available on SelocOnline

NISSAN/TOHATSU OUTBOARDS ALL ENGINES 1992-2013

18-01500

Covers all 2-140 HP, 1992-2013
All 2 & 4 Stroke Models,
Including EFI & TLDI

ORDER NO. 918-01500

Available on SelocOnline

18-01705

Covers all 2.5-225 HP, 1995-2004
1-4 Cylinder, V4 & V6
4 Stroke Models, Including Jet Drives.

ORDER NO. 918-01705

Available on SelocOnline

YAMAHA OUTBOARDS 4-STROKE

18-01707

Covers all 2.5-350 HP, 2005-2010
1 to 4 cylinder, V6 & V8
4 Stroke Models, Includes Jet Drives

ORDER NO. 918-01707

Available on SelocOnline

MERCRUISER STERN DRIVES, 1964-91

18-03200

Covers 1964-1991 Type 1 MR,
Alpha & Bravo I & II Models,
Inc: Carbureted & Fuel Injected Engines

ORDER NO. 918-03200

Available on SelocOnline

MERCRUISER STERN DRIVES, 1992-00

18-03206

Covers all Gasoline Engines, 1992-01
Incl: Alpha, Bravo, Blackhawk
& all Inboard Transmissions.

ORDER NO. 918-03206

MERCRUISER STERN DRIVES

18-03208

Covers all Gasoline Engines & Drives,
2001-2013
Including Inboards & Transmissions

ORDER NO. 918-03208

OMC STERN DRIVES 1964-86

18-03400

Covers all Electric Shift
& Cable Shift Models
Incl: Select Trim 1964-1986

ORDER NO. 918-03400

OMC STERN DRIVES

18-03404

Covers all Engines & Drive Systems
1986-1998

ORDER NO. 918-03404

SELOC TUNE-UP & REPAIR MANUALS

VOLVO PENTA STERN DRIVES, 1968-91

18-03600

Covers all Single & Dual Prop Models 1968-91

ORDER NO. 918-03600

Available on SelocOnline

VOLVO PENTA STERN DRIVE - Vol. II 1992-93

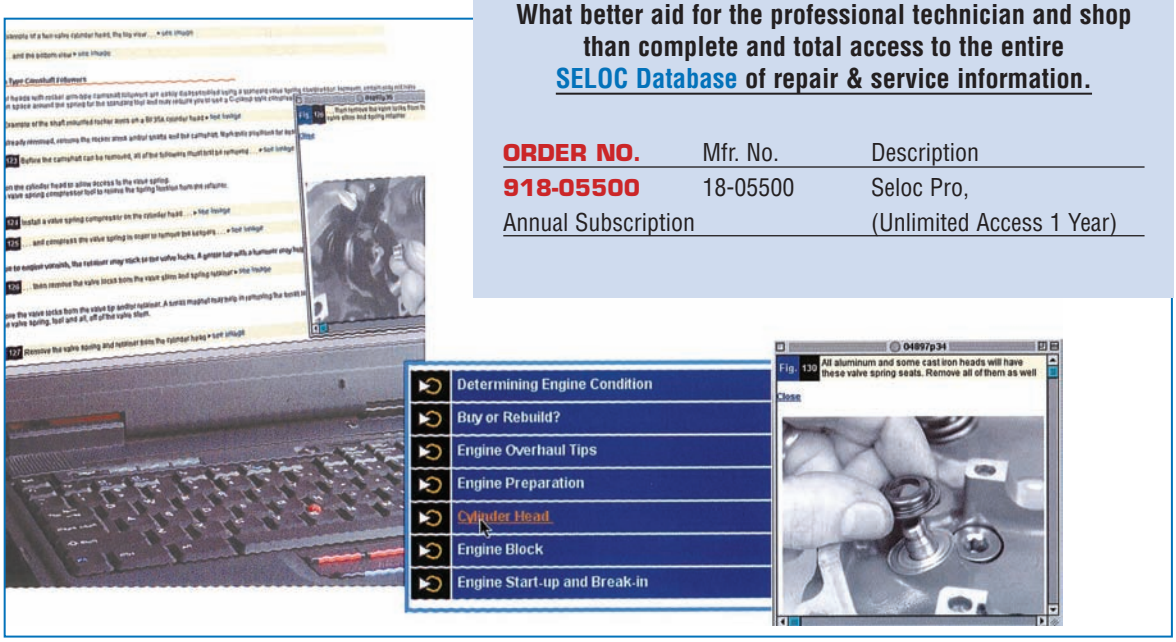
SELOC PRO

Seloc Pro is a mechanical repair database that is accessed via the internet. Marine Repair Shops have access to complete maintenance and repair sections, Quick access buttons to Maintenance Schedules, Wiring Diagrams, Specification Charts, Aftermarket Parts Database, Flat Rate Time (freshwater and saltwater) and a search engine hyper-linked index.

Manufacturers covered include Chrysler, Force, Honda, Johnson, Evinrude, Mercruiser, Mercury, Mariner, Nissan, OMC, Suzuki, Tohatsu, Volvo, Yamaha, and Yanmar Engines with coverage dating from mid 50's forward to 2014. We have recently added coverage of Sea-Doo and Yamaha 4-Stroke PWC models through 2011.

With Seloc Pro you will find each mfg. information organized the same way, our procedures can be accessed in less than a minute, and the average length of those procedures are 1 – 3 pages. A new feature added is a parts and labor estimating tool, along with an ever-growing OEM parts database.



What better aid for the professional technician and shop than complete and total access to the entire SELOC Database of repair & service information.

MARINE DIAGNOSTICS SOFTWARE

CDI Electronics® Provides Several Buying Options to Acquire M.E.D.S. for Your Shop:

OPTION 1: Buy an Individual Platform

OPTION 2: Buy a M.E.D.S. Bundle and Save $150 on Each Addition

OPTION 3: Mix and Match Platforms for Your Shop's Specific Needs (1)

M.E.D.S. BUYING GUIDE

Option 1: M.E.D.S. Individual Platforms:

ENGINE PLATFORM	Purchased Individually ORDER NO.	Purchased as an Add-On / Upgrade ORDER NO.
Mercury (w/o G3)	531-01180-M	531-01190-M
Mercury (Including G3)	531-01180-M2	531-01190-M2
Yamaha	531-01180-Y	531-01190-Y
Johnson / Evinrude	531-01180-B	531-01190-B
Suzuki	531-01180-S	531-01190-S
Honda / Tohatsu	531-01180-H	531-01190-H
MEFI 1-4 Gas Inboards	531-01180-14	531-01190-14
CANBus Engines	531-01180-15	531-01190-15
Volvo Penta Diesel	531-01180-V	531-01190-V
SeaDoo	531-01180-SD	531-01190-SD

The M.E.D.S. Tactisling Carry Bag is provided Free with the Purchase of a T Bundle Platform.

(1) An Engine Platform Add-On/Upgrade can only be purchased if you already own a Bundle Platform or an Individual Platform

Option 2: M.E.D.S. Bundle Platforms:

NAME	ORDER NO.	Includes
Basic Bundle	531-02000-T1	Mercury, Yamaha, Johnson / Evinrude
Standard Bundle	531-05000-T	Mercury, Yamaha, J/E, Suzuki, Honda, MEFI 1-4
Professional Bundle	531-05000-T3	Mercury, Yamaha, J/E, Suzuki, Honda, SeaDoo, MEFI 1-4, CANbus

Option 3: Mix and Match Custom Packages

PACKAGE DESCRIPTION	Package Includes
Older Mercury & BRP Only:	
Mercury Individual + Johnson/Evinrude	531-01180-M + 531-01190-B
Foreign Outboards Package:	
Yamaha Individual + Suzuki + Honda	531-01180-Y + 531-01190-S + 531-01190-H
Inboard Only Package:	
CANbus Individual + MEFI 1-4 + Volvo Diesel	531-01180-15 + 531-01190-14 + 531-01190-V

Additional M.E.D.S. Purchase Options

ORDER NO.	Includes
531-01190-L1	French Language Add-on
531-01190-U	Software Only Upgrade for Existing M.E.D.S. Users Prior to Version 6.0. Upgrade to the Latest Version of M.E.D.S. to Receive an Improved Graphical Presentation and M.E.D.S. Check Report.

Each M.E.D.S Bundle or Individual Platform comes with:

1) M.E.D.S. System Cable(s) which plug into your Windows PC, Laptop or Tablet computer via the USB Port.

2) Diagnostic Port Adapter Cables for the engine types you have purchased.

3) Three installations of the M.E.D.S. Software on Flash Drive. Help files are onboard and inline with M.E.D.S. (You can request a direct internet download by providing proof of purchase)

4) A hard carrying case or the M.E.D.S.Tactisling Bag, depending on the number of platforms you purchase.

SYNTEC®

MARINE GRADE REPLACEMENT CARPET

AGGRESSOR 160 MARINE CARPET

This superior quality indoor/outdoor carpeting is made from 100% ultra-violet stabilized coloured BCF Polypropylene, finished with Grey Tuf Loc Back. Specially formulated marine backing designed to lock in the tufts and keep the edges from raveling, for glue down. Long after carpet of conventional man-made coloured BCF fibers starts fading, the yarn in AGGRESSOR continues to show its true colours. AGGRESSOR is inherently stain resistant, meets or exceeds non-flammability requirements, and comes in six attractive colours.

Carpet is available in 6 foot and 8 foot widths in certain colours and is sold by the running foot. (Standard roll 100')
For best results It is suggested to use Syntec® Certified Adhesive

Colours	6 ft. Wide Carpet Sold per foot	8 ft. Wide Carpet Sold per foot

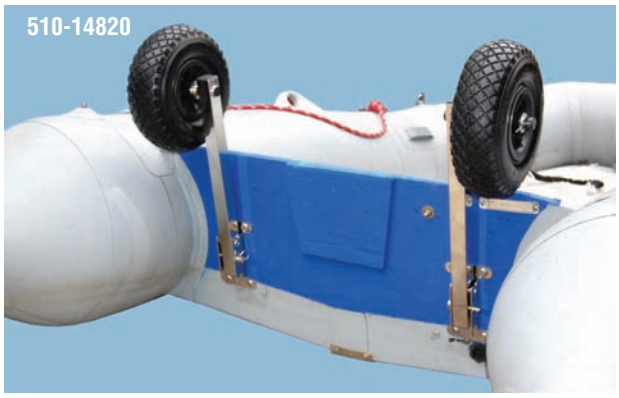
WHEEL-A-WEIGH

Get your small craft to and from the water quickly and easily!

- 316 Stainless steel frame and pivot bracket
- Complete installation instructions included
- Precision molded, non-corrosive wheel hubs
- Transom wheels are portable and removable
  A detent pin on each pivot bracket lets you position the wheels up or down, or remove them completely for storage
- Mounted wide on the transom, allowing load distribution and leaves clearance for outboard motors. In most cases, the boat can be operated without removing the wheels

NOTE: Not designed to be towed behind a vehicle



WHEEL-A-WEIGH STANDARD

- Inflatable 10" tires (26cm)
- 220 lb. capacity (100kg) handles most boats with motors up to 10hp
- Straight wheel frames
- Weight: 9 lbs.

ORDER NO. 510-14820
Mfr. No. 1482

WHEEL-A-WEIGH EXTRA-DUTY

- Inflatable 14" tires (36cm) with roller bearings inside the hub
- 330 lb. capacity (150kg)
- Curved wheel frames, allowing wheels to pivot under the boat, allowing moving heavier loads easier
- Weight: 15 lbs.

ORDER NO. 510-14830
Mfr. No. 1483

MEGAWARE
FlexStep Pro®

Megaware FlexStep® Pro is an innovative multi-angle/extendable step system that attaches to your trailer frame, allowing easy access to virtually anywhere on your boat.

The Megaware FlexStep® Pro makes boating more convenient than ever. This innovative multi-angle/extendable step system attaches to your trailer frame, allowing easy access to virtually anywhere on your boat. A quick, spring loaded pull handle and locking pin system adjusts the Megaware FlexStep® Pro to 16 positions for maximum reach.

Megaware FlexStep® Pro is manufactured from lightweight, high tensile 6063-T6 anodized aluminum ensuring the highest quality. Each step safely holds up to 300 lbs.

* Larger trailer frames may be accommodated by purchasing longer bolts available at any hardware store.

- 16 Adjustable Positions
- Extends from 17 to 21 Inches
- Removable for safe travel and stowing
- Fits Most Trailer Rails
- Easy boat entry and exit
- Easy access to windows and storage
- Easy installation and stowing

075-08010	8010	Trailer Tester, Includes Charger

TEKONSHA

MODULITE® ZCI™ (ZERO CONTACT INTERFACE)

SNAP Don't Snip™ - NO CUTTING OR SPLICING VEHICLE WIRE!

- Isolates trailer light operation from the tow vehicle's system
- Eliminates all interference & electrical draw on vehicle's lighting system
- Works with 2 or 3 wire systems
- Works with PWM, Multiplexed systems with 2 or 3 wire hookup and Low side switched vehicles
- Works with all known vehicle wiring systems including D, LS, G and most N codes
- Rated for 4.2 amps for turn/stop & 7.5 amps for taillight trailer circuits
- Robust design allows for interior or exterior mounting

SMITH™

LICENCE PLATE BRACKET

Upgrade the appearance of your trailer with an aluminum tread plate licence plate bracket.
Fits standard left side DOT brake/tail lamps. No mounting hardware required. Installs between existing tail light mounting bracket and the left side tail light via the lamps two mounting studs.

ORDER NO.	Mfr. No.	Material	Thickness
336-26053	26053A	Alum Tread	0.080"

TAIL LIGHT PROTECTOR

Added protection for fragile trailer tail lights. Mounts between the existing tail light mounting brackets and the lamp using the two lamp mounting studs. Mounting holes fit standard DOT brake/tail lamps.
No hardware required for installation.

ORDER NO.	Mfr. No.	Material	Thickness
336-26051	26051A	Alum Tread	0.080"

FRAME CLIPS

To Secure Trailer Wiring

All trailer light kits come with a few of these clips, but never enough to secure the wiring along the frame as frequently as you want. With a pack or two of these clips, you can secure your drooping trailer wiring.

- Zinc plated steel clips - 3/8" wide
- Grips edges up to 5/32" thick

ORDER NO. 336-16867
Mfr. No. 16867A (10 per pack)

LICENCE PLATE BRACKET

Use this tail light bracket for mounting standard DOT trailer lights to your trailer.
Pre-punched for lights, wiring & frame attachment.

- 11 gauge, hot dip galvanized
- 3-1/8" x 4-1/2" x 1-1/2"
- Use 3/8" bolts to attach to frame
- Hardware not included

ORDER NO.	Mfr. No.

attwood SWIVL-EZE

017-10107

LOCK 'N-STOW™

- Locks the outboard motor in forward position while trailering, greatly reduci effects of road shock
- Does not "tie" engine's lower-unit to trailer, eliminating excessive pressure on hydraulic seals and unsightly scuff marks
- Small compact mount can be easily stored in just about any boat compartment
- Constructed of black powder-coated steel with stainless steel pins

017-10309

ORDER NO.	Mfr. No.	Description
017-10107	10107	Fits: Mercury engines 200 - 250 HP Optimax/Optimax ProXS and the 150 - 200 HP EFI Engines*
017-10108	10108	Fits: Mercury engines 135 - 175 Optimax/Optimax ProXS and the 150 - 200 HP EFI Engines. Should also fit the 75 - 115 HP 4-Engines**
017-10309	10309	Fits: OMC, Bombardier 1989 to present, 100HP and up

**Note that this may not fit well on some of these engines because of their 4.65" span on the bracket may be too wide, depending on the position of the mount nut.*

***This will not fit 1.5L Family - the lower mount bolt centerline span is 3.44" and will not fit with their 3.25" span.*

For more information see: www.attwoodmarine.com

MOTOR SUPPORTS

PRO ADJUSTABLE TRANSOM SAVERS

Swivl-Eze transom savers are designed to protect your boat's transom and stabilize your engine and steering mechanism while trailering.

- Constructed of high tensile strength aluminum
- Adjustable length as well as over-the-roller features
- Equipped with adjustable toggles, with replaceable rubber pads
- Equipped with 15" rubber strap to secure transom head to engine.
- Available with Over-the-roller and Bolt-On style

Protect the performance life of your boat's transom.

4" STEER STOP OUTBOARD HYDRAULIC STEERING LOCK

Boaters can center their outboard motor equipped with hydraulic steering and keep it from wandering when trailering. The units clip onto hydraulic steering rams on either side of the outboard to keep engine straight and prevent damage to motor supports.

- Locks hydraulic steering when trailering
- Fits most steering cylinder rods on outboard engines
- Helps keep engine centered during transport

ORDER NO.	Mfr. No.	Description
205-206708	SS-3-DP	Navy Blue

Note: Fits SeaStar & Baystar hydraulic steering.

SMITH™

HEAVY DUTY SPARE TIRE CARRIER

Strong one-piece construction

Hot-dipped galvanized spare tire carrier mounts securely on frame or tongue.
One-piece construction for extra strength to withstand vibration.
Holds 4 or 5 lug wheels and adjusts for frames up to 3" wide by 4" high.
Tire mounting hole centers 4-9/64". Made of 7 ga. steel.
Side offset is 4-1/2" from frame with 5" rise for ground clearance.
All mounting hardware is included. Packed in display box.

ORDER NO. 336-27310 Mfr. No. 27310G

For more information see: www.cesmithco.com

U-BOLT SPARE TIRE CARRIER

Strong 7/16" rod construction with 20 pitch fine threaded nuts or spin on threaded locking plates. Fits on frame tongue or rails up to 3" wide. 3" of threads to fit a wide variety of frame thicknesses and wheel sizes. Approximate length needed by adding the frame width + 1/2 tire width + 1". Mounts 4 or 5 lug wheels.
Fits 8", 10", 12", 13", 14" and most 15" wheels.
Zinc plated. Packed one per blister.

ORDER NO.	Mfr. No.	Length/Description
336-27206	27206A	12" / with 2 lug nuts, (longer for wider wheels)

IDL

TRAILER SPARE TIRE BRACKET No. 6121

This bracket extends the spare tire up and away from trailer and boat. Heavy-duty steel construction is available with tough black powder-coated painted finish.
Fits either 4 or 5 hole rim and trailer tongues up to 3" x 5" complete with mounting hardware.
Fits wheel size from 9" to 14".

ORDER NO. 106-61210 Mfr. No. 22121

SPARE TIRE CARRIER

No. 6281

Zinc plated.
Spare tire carrier with locking capability.
Just add your own padlock. Fits 4 or 5 hole rims.

ORDER NO. 106-62810 Mfr. No. 22140

SPARE-n-DOLLY BRACKET No. 6221

Revolving spare tire carrier. Will fit either 4 or 5 hole rim for 8", 9" and 12" tires. Drilled with padlock hole in main shaft. Serves as spare tire carrier and dolly wheel when trailer is removed from car.
Provides full tire tread width when used as a dolly wheel.
Particularly effective on soft ground.
Fits 3" x 3" and 3" x 4" square tongues.
Black powder-coated finish.
Packed 1 per carton. (Wheel and tire not included.)

ORDER NO. 106-62210 Mfr. No. 22144

SPARE TIRE CARRIER EXTRA OFFSET

No. 6126

This heavy duty carrier extends the spare tire at an angle to avoid damage or marring of boat finish. Zinc plated TUFFPLATE finish. Fits wheel sizes from 13" to 15", 5 or 6 hole rims and trailer tongues 2" to 3" wide, and 3" to 5" tall.
Fits wheel size from 9" to 14".

J-PIN® ANTI-RATTLE PIN WITH BARREL LOCKSET

J-Pin® quickly and confidently secures ball mounts and other hitch-mounted accessories, eliminating the sway and rattle caused by part clearance issues. J-Pin® ready receiver design allows for the most confident and secure hookup in today's towing market by compressing the hitch-mounted accessory against the inner side wall of the hitch receiver tube. Once attached, the hitch and towing components seem virtually welded together. Packaged complete with its integral ball mount lock, J-Pin® makes your towing system complete.

- For 2" receivers only
- Ideal for bike racks and hitch-mounted cargo carriers
- Attachment wrench included
- Requires hitch with additional 17/32" hole in receiver tube
- Convenient 1/4" turn key for ease of use

FULTON® F2® MARINE & RECREATIONAL JACKS

Fulton, the industry leader for high performance marine jacks, is proud to introduce a revolution in trailer jack engineering. The F2®, designed for use with marine, recreational and utility trailers, continues the Fulton heritage of innovation rethinking every feature and challenging industry conventions. The result is a reengineered high quality product that will transform the industry. It's so strong and reliable that Fulton is backing it with an unprecedented LIMITED LIFETIME WARRANTY.

- Maintenance free - designed to eliminate the need for lubrication and maintenance
- Corrosion resistant coatings cover internal and external components - will hold up in harsh environments
- Ergonomic design - crank, release pin and integrated wheel wedge are made of strong, engineered plastic for a comfortable touch
- Stylish design - compliment your boat and customize your trailer's styling
- Sealed and lubricated one-piece gearbox
- Twin track and wide track versions available
- Available in bolt-on and weld-on versions for up to 5" tongues
- Handle Hold-Up secures handle to jack tube when in stowed position
- Limited Lifetime Warranty

MARINE & RECREATIONAL JACKS

Designed for use with marine and utility trailers, Fulton brand tongue jacks are time-tested and application-proven. Include all necessary mounting hardware for up to 5" frames (Handle & Wheel) Unassembled. The Fulton brand bolt-thru swivel mounts (U.S. PAT. 6,302,381) use 3-D formed heavy-gauge steel stampings and a proprietary bushing material for a mount with minimal deflection and maximum support.
All mounts fit up to a 3" x 5" trailer frame.

- Strong proprietary bushing materials
- Stable formed heavy-gauge steel construction
- Dependable design

600 hour salt spray rating per ASTM B117

**Maximum Mechanical Advance - Based on first layer of recommended line on the drum. For maximum efficiency, use only the amount of line required.

TWO SPEED TRAILER WINCHES

Make light work of heavy loads with Fulton® brand two-speed winches.

- One fast speed for quick pulling, second low speed for increased mechanical advantage
- Shift lock design allows changing gears without moving the crank handle from shaft to shaft. Just lift the shift lock & slide the shaft into the desired gear position. Shift lock holds the shaft in gear.
- Neutral, free-wheel position allows quick line pay out without spinning the handle
- Optional handbrake kit (501210 Special Order) can be purchased separately & available for all two-speed winches and can be installed after the winch is mounted
- 5 Year Limited Warranty

CE Compliant

CE All Cequent Performance Products two speed trailer winches are CE compliant. *** Brake Kit 1619-01 available as option not furnished. Only winches that are shown to accommodate steel cable should be used with steel cable. Cable keeper kits are included with the winches specifying steel cable. Winches rated for steel cable have a larger drum hub to reduce or lessen chance of kinking or fraying.

Notes:

1. Winch mounting hardware sold separately. Refer to instruction sheet for recommended bolt size and grade.
2. Fulton brand two-speed winches are designed for boat trailer and other pulling applications, which require the freewheeling feature of ratchet type winches. If moving loads requiring vertical lifting, or positive load control in both directions, choose a Fulton brake winch.
3. All Fulton brand winches are rated on the first layer of recommended rope, strap, or cable. The winch load capacity must be derated as additional layers are used. Derate the capacity 10% per additional layer of rope, strap, or cable.
4. Fulton brand winches are NOT designed to be human hoists and should never be operated when there are persons on, around, or under the load being moved.

F2® SINGLE SPEED TRAILER WINCH

Fulton continues to expand the F2 series of products with the introduction of the 1600 lb. F2® Single Speed Trailer Winch. Enclosed frame for performance and style, this 1600 lb. winch is user-friendly, sleek and reliable. Attractive design is styled to compliment the F2® jack series for a custom look.

- Compact design
- Enclosed frame design for a sleek, strong stylish look
- Two piece corrosion resistant aluminum frame
- One piece corrosion resistant aluminum handle
- Dual gear drum operates smoothly
- Handle is easily adjustable - 6" to 7"
- Handle switches from left to right hand drive
- Soft ergonomic grip
- Features E.I.S. - "Easy Install System"
- Strap and mounting hardware included in Display Box packaged product
- **CE** Compliant
- Limited Lifetime Warranty

175-16101

F2® SINGLE SPEED TRAILER WINCH

The F2® Winch addresses the need for attractive design in every element of a marine trailer. This 2000 lb. capacity winch will complement the look of even high end boat and trailer combinations and continues the industry-changing improvements in both performance and style of the Fulton F2® series of products. Its clean, high-tech look is sleek and powerful.

- Completely enclosed stylish design will compliment your boat and customize your trailer's styling
- 2000 lb. capacity
- E.I.S. - Easy Install System
- Precision fit components eliminate tightening or replacement
- Maintenance free – designed to eliminate the need for lubrication or maintenance
- Corrosion-resistant coating resists damage from moisture and salt
- Corrosion-resistant one-piece aluminum frame and one-piece aluminum handle
- Smooth reliable solid drive gear and powerful dual gear drum
- Center drive enclosed ratchet system
- User-friendly pull-turn knob to engage ratchet plunger pin
- Adjustable-length soft grip handle, switches from left- to right-hand drive configuration
- Includes 20' strap with hook
- Standard mounting bolt pattern, mounting hardware included, (footprint 8"H x 6.5"W x 9.5"D)
- **CE** Compliant
- Limited Lifetime Warranty

175-20101

TH MARINE

Z-LAUNCH™ WATERCRAFT LAUNCH CORD

Makes launching a boat by yourself as easy as 1-2-3 !
Used by majority of fishing professionals.

The patented Z-LAUNCH™ Watercraft Launch Cord makes solo watercraft launching easier than you've ever experienced. The no-hassle launch cord, made of premium elastics, uses automatically adjusting tension when you back your boat, jet ski, or tow tube into the water, so it won't jerk your watercraft around when you pull the trailer forward. Expandable to more than 2x original length, the Z-LAUNCH™ Watercraft Launch Cord attaches in just 3 steps. Fasten a hook to your trailer, connect a steel ring to the winch, & lock the winch.

- All stainless hardware
- Simple and safe operation
- Attaches easily
- Great for ramps with "no power" laws

For more information see: www.thmarine.com

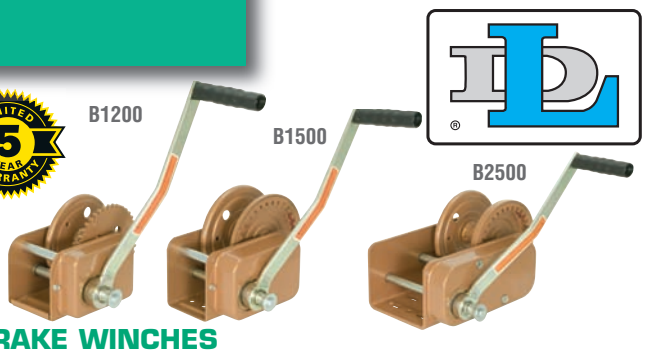
POWDER COATED TOUGH

Manufactured in the USA



BRAKE WINCHES

Special Features:

- Built-in self-activating friction brake that locks winch in position when handle is released.
- All welded and copper brazed construction for greater strength.
- Made in U.S.A.
- Hardened gears throughout on all models.
- Three models - B1200, B1500, and B2500 offer single, double, and triple reduction gearing.
- Meets ASAE safety standard S-361T.
- Standard finish is powder coated metallic copper bronze.
- B series winches are not strap adaptable.

NOT FOR MOVEMENT OF HUMAN BEINGS

PULLING WINCHES

D-L® winches are engineered to offer many distinct advantages.

TUFFPLATE®

CE

Manufactured in the USA

- Zinc Plated Tuff Plate® Finish
- Reinforced arc-welded reels. Embossed, reinforced bases, high carbon steel gears throughout.
- Load matched gear ratios for easier cranking. Hunting tooth gear system for more even wear and longer life.
- Permanently lubricated bearings on all drive shafts.
- Meets SAE Standard J1853
- Made in U.S.A.

D-L brake winches are built for multipurpose hauling and lifting operations. They are not to be used as hoists for lifting, supporting or transporting people, or for loads over areas where people could be present.

SKYWINCH ROPE WINCH

The revolutionary SKYWinch is the OPPOSITE of traditional ratchet winches and eliminates the hassles and dangers of trailering. Simply leave a bow-line attached to your boat and walk it to your trailer without wading in. Then just place the rope into SKYWinch, pull tight, and start cranking. The patented wheel grips the rope and easily pulls most lighter-weight boats under 18 feet. The crank arm will not spin backwards until released with trigger for control led payout. Accepts ropes to 1/2" diameter and fits most standard trailers with included mounting bracket and hardware.

- **Needs no spools, straps, cables, or ratchets**
- **For most boats under 18'**
- **Includes mounting bracket & hardware to fit standard trailers**

Recommendations:

- For best results, use only "High Capacity" Double-Braided Nylon (non-core) line
- Make sure rope break-strength exceeds boat weight
- Always keep tension on rope when loading

Warnings:

Not for transport of Humans. Always use Safety Chains and/or Tie Downs for towing. Use only as directed. Manufacturer not responsible for user results.

ORDER NO. 937-01000 Mfr. No. SKYWINCH

Powerwinch

REMOTE CONTROL TRAILER WINCHES - ELECTRIC, 12 VOLTS

Enjoy the luxury of effortless trailer loading with our New RC30 and RC23 Remote Control Trailer Winches!

We've made loading your boat onto the trailer easier than ever! The RC 30 and RC 23 are remote operated. Say goodbye to sore muscles from cranking and pulling your boat onto the trailer. With Powerwinch's new RC 30 and RC 23, stand back and simply push the REMOTE and watch the boat glide on to the trailer! Yes! Get the latest in technology and strength with Powerwinch RC 30 and RC 23 state-of-the-art trailer winches. All Powerwinch 12V trailer winches have smooth running gear systems for long-life wear and tear. They feature a corrosion-resistant zinc-plated frame, an aircraft quality cable, a level wind system to prevent cable snarls, and UV resistant ABS plastic housing.

The RC 30 & RC 23 feature a built-in light enclosed in the trailer winch casing so you can use your boat at night!

RC 30

Wireless remote operated trailer winch for boats up to 11,500 Lbs.

- Added convenience of a light enclosed in the trailer winch casing to assist you
- Vertical lift capacity (single line) **4000 lbs**, or double pull/line capacity **7500 lbs.** (Not to be considered or used as a hoist)
- Emergency crank conveniently stores in casing
- Remote power-in / freewheel-out operation
- Re-designed, stronger housing
- Pulley block provides for double line applications
- 60 amp standard wiring harness
- One year limited warranty
- **Max. boat length: 30' / Max. Boat weight: 11,500 lbs**

Mfr. No. P55950 **ORDER NO. 409-55950**

RC 23

Wireless remote operated trailer winch for boats up to 7,500 Lbs.

- Added convenience of a light enclosed in the trailer winch casing to assist you
- Vertical lift capacity (single line) **2400 lbs**, or double pull/line capacity **4300 lbs.** (Not to be considered or used as a hoist)
- Emergency crank conveniently stores in casing
- Remote power-in / freewheel-out operation
- Re-designed, stronger housing
- Pulley block provides for double line applications
- 60 amp standard wiring harness
- One year limited warranty
- **Max. boat length: 23' / Max. Boat weight: 7,500 lbs**

Mfr. No. P55750 **ORDER NO. 409-55750**

Model	Suggested Boat Length	Max. Boat Weight*	Line Speed	Vertical Lift Capacity	Double Line Capacity	Gear Ratio	Circuit Breaker	Cable Length & Diameter

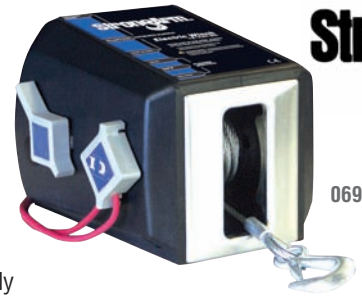
RC 23	17' - 23'	7,500 lbs	14 FPM	2400 lbs	4300 lbs	225:1	60 amp	40' x 7/32"

*When calculating boat weight, be sure to include boat, motor, fuel, gear and supplies. If in doubt, select the next larger size.

SA SERIES ELECTRIC WINCHES

- **Features Power-in, Power-out, controlled Freewheeling clutch and automatic brake.**
- **Available in 120 volt AC and 12 volt DC models.**
- **SA model equipped with flexible high strength 7 x 19 galvanized aircraft cable. SA9000 and SA12000 also accept 2" wide strap.**
- **Emergency crank handle is standard equipment.**



069-09000

069-12001

AC MODELS

- 120 volt AC operation complete with 10 foot, 3 wire ground power cord and built-in 3 position rocker switch.
- Available with CSA NRTL/C approval, signifying the winch has been evaluated to applicable ANSI/UL and CSA standards for use in the U.S. & Canada. NRTL (Nationally Recognized Testing Laboratory) is designation granted by OSHA to laboratories which have been recognized to perform certification to U.S. standards.

DC MODELS

- High-torque 12 volt DC motor has circuit-breaker overload protection.
- StrongArm® DC electric winches have a dynamic motor break as well as a mechanical friction brake to securely hold the load.
- DC models include wiring harness, 25 foot positive battery wire, and 8 foot ground wire.

Electric Winches

ORDER NO.	VOLTS	RATED LOAD CAPACITY	GEAR RATIO	CABLE SIZE LENGTH	PULLEY BLOCK & HOOK	MODEL NO.

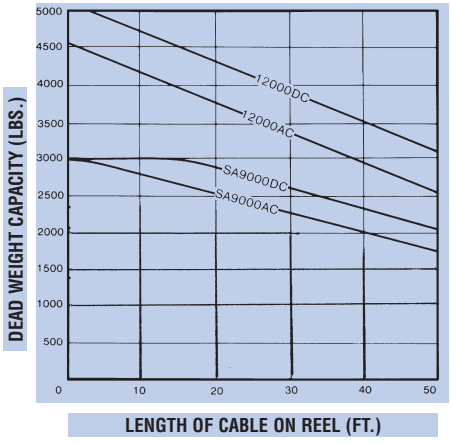
(1) Double Line Operation

ELECTRIC WINCH CONTROLS

The electric switch and clutch controls are both located on the same side for easy operation. The electric switch powers the load in and out - when released, it automatically returns to the "off" position. The clutch control provides for smooth load control from a locked to a free-wheeling position. It automatically returns to a locked position when released.
The clutch can be used for a controlled load release without electric power, if desired. The clutch can also be locked in the free-wheeling position for easy cable removal.

All D-L StrongArm® electric winches are built for multi-purpose hauling and pulling operations. They are not to be used as hoists for lifting, supporting, or transporting people; or for handling loads over areas where people could be present.



Approximate Amperage Drain (Full Load)
AC Models 6 Amps
DC Models 70 Amps

For intermittent use only. Ratings are based on 10' lift. For longer lifts at full capacity occasional motor cooling periods should be allowed.

GUIDE TO ROLLING LOAD CAPACITY (3) Maximum weight in rolling load pounds.								APPROXIMATE LOAD SPEED (FT./MIN.)			
MODEL NO.	PERCENT INCLINE						LOAD CAPACITY	NO LOAD		LOAD CAPACITY	
	5% (3)	10% (6)	20% (11)	30% (17)	50% (26)	70% (35)		Full Reel	Empty Reel	Full Reel	Empty Reel
SA9000	20,000	15,000	10,200	7,800	5,500	4,500	3,000 lbs.	11	5	4	2.5

PREMIUM POLYMER GUIDE ON'S

Drive on your boat safely in high winds or strong currents. Our premium polymer boat guides are designed to absorb impact of the hull and protect the trailer's finish. Poly-vinyl protector pads eliminate metal to metal contact and prevent rust. Steel components are zinc plated and are a universal fit for 3" and 4" trailer frame sizes. Soft poly-vinyl post is 22" high. Non-marking white PVC post option also available in 48" and 60" lengths. Sold in pairs with hardware included.

FLOATING GUIDE POST - ADJUSTABLE 48 - 60"

The user can choose to notch the post at a specific height or set on floatable mode and allow the waterline to naturally and automatically adjust the overall height as it enters/exits the water. This allows the post to always remain above the waterline and function regardless of the boat ramp inclination.

- Metal tube is made from heavy-duty 14 gauge steel, pre-galvanized, & powder coated for a durable finish
- Features a 30° slant through the bottom 18" to allow for varying hull shapes
- PVC pipe is black, non-marring & designed to hide the floating slot & holes for a clean look
- Width can adjust 8"
- Mounting bracket fits 3" & 4" tall frame rails

65" HEAVY DUTY HOT DIP GALVANIZED POST GUIDE-ONS

These post guide-ons serve the same purpose that all other Smith post guide-ons do, however these include metal uprights made of a thicker 12 gauge steel that has been hot-dip galvanized for greater corrosion resistance, making this set of post guide-ons ideal for heavy salt water use. This guide-on fits channel frames up to 4" wide by 5-1/4" tall, and any size of I-beam frame due to the two mounting options included. The metal uprights can be adjusted up to 19" out from the side of the frame.

ORDER NO.	Mfr. No.
336-27637	27637

75" POST STYLE GUIDE-ON

Designed for I-beam Trailers & I-beam Boat lifts

These extra tall post guide-ons allow you to see the location of the trailer when it's underwater. Designed for I-beam trailers and I-beam boat lifts, these guide-ons feature an innovative two piece mounting clamp that works above or below the I-beam. Fits on I-beams up to 4" wide with provided hardware. Sturdy 1-1/2" galvanized tube upright extends over 40" into the non-marring, heavy duty 2" PVC tube. Provides up to 19" of lateral adjustment out from trailer frame. Sold in pairs.

ORDER NO.	Mfr. No.
336-27635	27635

65" ALUMINUM POST GUIDE-ONS

Designed for I-beam Trailers

These post guide-ons utilize uprights that mount directly to your I-Beam trailer frame using stainless steel u-bolts, nuts and washers for a fit that will work on virtually any size I-Beam frame. The metal uprights can be adjusted up to 19" out from each side of the trailer frame. Recommended for I-Beam trailer frames used in salt water due to the corrosion resistance of aluminum. Warning: To reduce the risk of nut seizure when using stainless steel hardware always apply a light coat of grease to threads prior to assemby.

ORDER NO.	Mfr. No.
336-27638	27638

40" ANGLED POST GUIDE-ONS

Providing an easy visual while centering your boat

The angled PVC Post Guide-Ons allow you to easily center your boat on your trailer at the ramp.

- Fits trailer frames 3-1/4" wide by 4" tall
- Mounts above or below the trailer frame
- Adjusts up to 13" away from the trailer frame
- Angled to allow for wide or flared hulls
- For larger frames use with P/N 11416 (C.C. Order No. 336-11416) mounting U-bolts

PVC POST GUIDE ON - HEAVY DUTY

PVC guide on posts feature bright orange end caps providing visual markers to help launch & load your boat safely. Posts are available in 48" and 60" lengths as well as 90 degree or a slant 13 degree angle. The 13 degree slant guide posts give a wider target when loading your boat, while 90 degree straight guides are used for narrower trailers and boats. The non-marking PVC pipe is braced with metal tubing 15 in. into the pipe, adding strength and impact resistance. Posts equipped with LED lights offer additional visibility.
All hardware included. Bolts and nuts are zinc plated, & mounting brackets are galvanized for lasting protection against corrosion.
Sold in pairs.

STAINLESS STEEL WHEEL BEARING PROTECTOR

The only sure way to prevent trailer wheel bearing failure from ruining your trip is with the Stainless Steel Wheel Bearing Protector.

- Stainless steel barrel and components will outlast your boat.
- Keeps water and dirt out of hubs and bearings.
- Makes boat trailer hubs safely submersible, even in saltwater.
- Eliminates both the need and the mess of bearing re-packing.
- Automatic grease pressure control feature prevents overfilling and seal damage.

BEARING BUDDY® BRA

The Bearing Buddy® Bra is a vinyl cover designed to keep grease off trailer wheels. Many users tend to overfill the hubs with grease, which will escape out the front of the Bearing Buddy® through the automatic pressure relief feature. The Bearing Buddy® Bra captures this excess grease and keeps it off your tires and wheels.

ORDER NO.	Bra Model	Fits most bearing protectors from the following chart
101-00190	19 B	#201-19801, #101-19800

NOTE: Bearing Buddy protectors come as pairs.

SPINDLE SEAL BY BEARING BUDDY®

The Spindle Seal System eliminates excessive grease leakage caused by rough sealing surfaces, which will quickly destroy any seal. With the Spindle Seal System, high-quality neoprene seals ride on a smooth stainless steel surface constantly greased by the action of the Bearing Buddy®, prolonging the life of the seals.

If axle spindles already have stainless steel surface rings permanently installed you do not need Spindle Seal.

Bearings and hub cavity 100% pregreased.
Triple Lip Grease Seal and Bearings are preassembled.
Hubs are 100% Filled with Lucas Red N' Tacky Grease which is fortified with a high degree of extreme pressure additives.
That gives it a TRUE Timken load; much higher than other greases of this type.

TRAILER BRAKING SYSTEMS

ELIMINATOR VENTED DISC BRAKES

"Integral" one piece style vented rotor and aluminum caliper with automotive quality brakes pads

- Lifetime ceramic pads with stainless steel backing plates.
- Distinctive 380 aluminum caliper with E-coat finish
- Vented rotor with GalvX finish
- Galvanized heavy duty mounting bracket included
- Stainless steel bleeder valves and guide pins
- Bimetal piston with Stainless Steel piston cup
- Aluminum caliper with raised ribs dissipates heat up to 5 times faster than cast iron calipers
- Precision bearings, seal and grease factory installed
- 2 kits required per axle

ORDER NO.	Mfr. No.	Description
404-82113	82113	10" "Integral" Style Vented Rotor Disc Brake Kit
404-82100	82100	12" "Integral" Style Vented Rotor Disc Brake Kit

"G5" STAINLESS STEEL DISC BRAKES

Single piston aluminum caliper, patented bimetal aluminum/stainless piston, oil impregnated bronze bushings, ceramic pads with stainless steel backing plates & stainless steel slider pins. GalvX coated hub and galvanized mounting bracket.
(For 13", 14", or 15" Wheels – Replaces 10" Drum Brakes)

- All aluminum Caliper: 380 series, sheds heat five times faster than cast iron calipers
- Ceramic Pads: Floating ceramic pads with stainless steel backing plates
- Stainless steel rotor with venting holes
- Slim design
- Swivel brake line connector
- Large single piston design
- Factory pre-installed stainless steel slider pins
- Package includes one brake assembly per box
- Each kit is for one wheel, includes mounting bracket
- 3,500# Axle – 5 Lug Hub

- Rotor Diameter: 9.6" x .3125"
- Hub Capacity: 1,750#
- Hub Bearing Size: 1-1/16" x 1-3/8"
- Hub Bolt Pattern: 5 @ 4.5"

404-81100

ORDER NO.	Mfr. No.	Description
404-81251	81251	Ceramic Brake Pad kit for Vented Disc Brakes
404-81252	81252	Ceramic Brake Pad kit for "G5" Disc Brakes

BRAKE ACTUATORS

- Cast steel latch handle – Stronger, lays flatter, better looking
- Quick Lock 2" coupler – Coupler in closed position will auto lock on the hitch ball
- Aluminum master cylinder – Corrosion resistant
- Cast steel ball clamp – Stronger than stamped steel
- Safety pin locks the coupler to the ball – Coupler stays locked to the hitch ball even if latch is damaged
- Grease fittings on roller pins – Grease rollers with ease, longer life, better operation
- Dampener built-in and pre-loaded – No need to load dampener before bleeding the brakes

MADE IN THE USA

For disc brake only models

- Solenoid built into master cylinder – Solenoid can be cleaned or exchanged without removing the brake line or removing the actuator from the trailer

ORDER NO.	Mfr. No.	Model	Capacity	Brake Type	Solenoid Included
404-82401	82401	660	6600 lbs.	Drum	No
404-82400	82400	660	6600 lbs.	Disc	Yes

DROP N GO AUTO LATCH COUPLER

Quick and easy auto latch coupler, Class 4, 7,000 lbs. capacity, uses a 2" hitch ball and fits on a 3" tongue or channel tube. New coupler features technology that allows the coupler, when set in the closed (tow) latch position, to auto-latch onto the hitch ball when set on top of the ball with minimal weight.

- Quick and easy auto latching coupler
- Class 4
- 7,000 lbs. capacity
- Uses 2" ball

Mfr. No. 82420
ORDER NO. 404-82420

FLEXIBLE BRAKE LINE KIT

No need to go to the auto parts store again.
Two 1/8" ID x 24" flexible 3000psi. brake lines are ideal for disc brake installation requirements. Connects from brake caliper to female end of brake line or can be connected to existing steel lines with adapters included in the kit. Flexible line connection required on all disc brakes.

Mfr. No. 81099
ORDER NO. 404-81099

REVERSE LOCK OUT SOLENOID

Unlike drum brakes, disc brakes generate full braking power in reverse. If your actuator does not have a reverse lock out lever or switch, a reverse lock-out solenoid should be installed at the actuator before installation of disc brakes.
Can be used on drum brakes as well.

Mfr. No. 81103
ORDER NO. 404-81103

BUNK BOARDS

Heavy-duty replacement for 2 x 4 bunk boards come in two sizes, 4', and 5' lengths. Black marine grade carpet provides a smooth surface for your boat to easily slide on or off. Sold in pairs.

UNIVERSAL DOCK MOUNT
Kasco Marine offers an optional Universal Mount or Piling Mount that can be used with any Kasco De-Icer. This heavy duty Universal Dock Mount is made from thermal plastic composites, corrosion protected steel, and stainless steel to withstand the toughest marine conditions. The De-Icer is mounted to the "underwater parts" of the Universal Dock Mount and the "above water" parts are mounted to the dock or piling. Due to shipping limitations, a 1" pipe extension needs to be supplied by the purchaser to connect the "underwater parts" and "above water" parts. The De-Icer may be operated in a vertical or several different angled positions. The De-Icer may also be adjusted to a maximum depth of 10' from the above water mounting brackets and it may be moved 360°. This allows for a variety of operating positions and is able to fit and adapt to many different situations and conditions.
ORDER NO. 262-43485 Mfr. No. 24385

HORIZONTAL FLOTATION UNIT
Kasco offers an exclusive, arctic proven flotation kit. The easy-to-assemble kit consists of stainless steel components and a flotation block. The De-Icer unit is mounted at an angle just below the flotation block. Angle operation of De-Icer produces an elongated pattern of agitated water and is well-suited for shallow water operation. All models can be used with this float.

PREMIUM HEAT SHRINK TAPE - 180 FT LENGTH

Extra grade, heavy duty 9 mil adhesive heat shrink tape, waterproof, permanently tacky adhesive which bonds well to most surfaces over a wide range of temperatures. Ideal for taping patches over holes or (for boat side) - joining shrink film when additional length or width is required. Has the same shrink characteristic as the shrink film.

Note: Clear heat shrink tape has less UV filters.
Not recommended for taping access doors.

ANTI-CHAFE TAPE

Dr. Shrink's Anti-chafe tape is a high performance polyethylene film that provides a tough, puncture resistant material that prevents friction. This tape is designed as a low-tack film that will leave no residue, but will provide protection for your boat or other object. Simply apply it directly to the object where the shrinkwrap touches. The tape acts as a barrier between the object and the shrinkwrap, thus preventing any scratches or chafing. The black underside of the tape contains UV inhibitors to prevent the sun from getting to the adhesive.

SHRINKWRAP HEAVY DUTY RACK

- Steel construction
- Black powder coated
- Can hold up to four 200 lb. rolls of shrinkwrap along with the heat tool, propane tank, strapping, & other accessories.
- The rack rolls on extra large casters with locks for ease of use

ORDER NO. 231-60001
Mfr. No. DS-HDRACK

SHRINKWRAP GOCART RACK

- Easy assembly – Easy takedown
- Lightweight & easy to maneuver
- 8" Lockable, rotating wheels make braking & handling a snap
- Sturdy enough for the largest of shrinkwrap

ORDER NO. 231-70001
Mfr. No. DS-GOCART

SHRINKWRAP FOOTAGE COUNTER

Precisely measures material pulled from the roll in feet/inches

- Counter has a stable mounting base, measuring wheel, and features a clear display window to easily view the measurement
- Attaches easily to most film carriers and carts
- Works on all film types and sizes
- Takes the guesswork out of determining material available on your rolls within 5% variance
- Can also be used to easily measure for precut sheets
- Weight: 3lbs.

ORDER NO. 231-90001
Mfr. No. DS-WRAPCOUNTER
For more information see: www.dr-shrink.com

SHRINKWRAP ECONOMY RACK

- Side rails are made of square 18" steel tubing
- Easy mounting on floor or the wall
- Center pole - 72" long piece of conduit
- Sturdy enough for the largest of shrinkwrap

ORDER NO. 231-50001
Mfr. No. DS-FILMRACK

SHRINKWRAP UTILITY CART

- Lightweight two-wheeled utility cart
- Holds the propane tank, heat tool, hose, strapping, tape, buckles, etc.
- Rolls easily on 8" wheels
- Will make you more efficient

ORDER NO. 231-08001
Mfr. No. DS-UTILITYCART

SHRINKWRAP DOLLY

- Heavy-duty, built of steel (blue)
- Holds up to four 200 lbs. rolls, along with heat tools, propane tank, strapping other supplies
- Heavy-duty 6" phenolic casters with locks for ease of use
- Includes a tow bar
- Increases efficiency & provides a safe working environment

STRAP PROTECTOR

Designed for two different applications:
1. As a method of keeping strapping from forming dents in vinyl upholstery on boats
2. Used as corner guards to keep shrink wrap and strapping from being cut on sharp edges

- Notches on all four sides for easy attachment to strapping
- Flexible, durable and inexpensive

ORDER NO. 110-04000-10
Mfr. No. DS-PROTECTOR
(10 per pack)

LIFTOFF

Use to separate shrink wrap from the product it is covering. Using strapping, buckles and a tension tool the Liftoff offers simple protection. The benefit of this separation is to promote air circulation and surface protection on painted hulls. Air circulation is extremely important on painted hulls where shrink wrap touching paint can cause blistering.

- Easily installed
- Reuseable
- Durable

ORDER NO. 231-00160
Mfr. No. DS-LIFTOFF-10 **(10 per pack)**

PLASTIC TRIM KNIFE

Throw-away, designed for rapid trimming of excess material

SHRINKWRAP VENTS

Dr.Shrink+
INTERNATIONAL SHRINK WRAP SUPPLIER

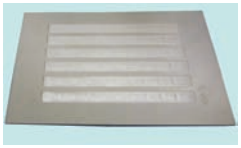
STICK-ON VENTS

Easy to install, self adhesive vents, allow your boat to breathe while giving the finished job a professional look. Don't give mildew a chance to start.

ORDER NO.	Mfr. No.	Description
110-00488	DS-062A	Round Airlette vent (Each)
110-00788	DS-LOUVER	Round louver vent (Each)
110-47550	PAB-475A	Rectangular screen vent (Each)

110-00488

110-47550



110-00788

WEATHER-TIGHT VENT

Allows more air circulation under shrink wrap covers and is water resistant when installed horizontally or vertically.

- Easy installation using the one-piece pull tab that exposes over 15 square inches of adhesive
- Permanent attachment using optional clips
- UV additives for long life in all climates

ORDER NO.
110-00688 Mfr. No. DS-683 (Each)

WEATHER-TIGHT FILTER VENT

- Uses a filter pad inside the vent top to keep dust, bugs, dirt & other debris out of shrink wrapped products
- Identical to the standard DS-683 Weather-Tight Vent, the DS-683F Filter Vent is easy to install, inexpensive, versatile, has a replacement filter, and works in any climate
- Complete with the filter vent pre-installed

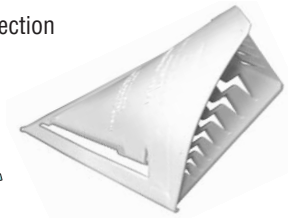
ORDER NO.
110-00688-1 Mfr. No. DS-683F (Each)

LIGHTNING VENT

- Provides airflow under shrink wrap to keep covered products moisture free
- Improves upon a tested vent design
- Large hood over vent opening for better weather protection
- Easy one-hand installation with self-piercing design
- Works for both storage & transportation covers
- Inexpensive protection

Secure with tape after piercing.

ORDER NO. 231-11460 (Each)
Mfr. No. DS-LIGHTNING



POLYFOAM VENT

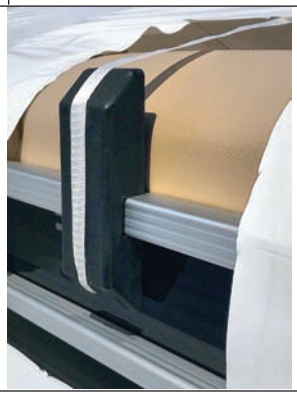
Polyfoam Vent. 19" x 3" x 2" Thick.
Don't give mildew a chance to start.
ORDER NO. 110-00486 (Each)

For more information see: www.dr-shrink.com

SEAT SAVER

- Protects vinyl seat backs from being indented by support structure strapping
- Fits on all 1.25" square tubing top rails on pontoon boats
- Prevents damage to seat backs from strapping abrasion and heat damage by lifting shrink wrap off the seat backs during the shrinking process
- Provides either a 2" or 4" lift of the strapping over the vinyl seat backs. This product is reversible with strapping receivers at both ends of the product

ORDER NO. 231-11477
Mfr. No. DS-SEATSAVER (Each)



Taylor Made

BOAT VENT II

Don't let your interior suffer from mold and mildew damage. Proper ventilation can keep these boat destroying fungi from attacking your boat! The patented Boat Vent II installs quickly and easily, with no screws or fasteners. The venting area provides for greater volume of exhaust air while closing the top to bottom gap - keeping water out! The Boat Vent II is manufactured from a superior grade poly carbonate blend material for strength and UV resistance and will accommodate either 3/4" or 7/8" support poles. Sold Individually.

ORDER NO. 101-11982 Mfr. No. 11982

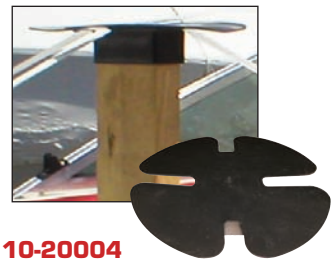
Dr.Shrink+
INTERNATIONAL SHRINK WRAP SUPPLIER

END CAPS & BOTTOM CAPS

End cap & bottom caps are designed to fit on the top & bottom of 2x4 boards commonly used as support poles under shrinkwrap covers.
BOTTOM CAPS have been redesigned into a smaller, more skid proof version with flexible plastic to be easily installed on a 2x4 support post. This upgraded quality of material offers less scratching on boat decks and better stability by reducing movement of the support post on the boat deck.

"Top Cap" End Cap Pad



ORDER NO. 110-20004
Mfr. No. DS-CAP

Non - Skid "Bottom Caps" New Style

ORDER NO. 231-23116-1
Mfr. No. DS-BCAP-NEW STYLE

SUPER CAP

The Super Cap is designed to transfer the weight of snow, ice and rain from the top of 2" x 4" support poles used under shrink wrap storage covers. Rests on the woven cord strapping which runs both lengthwise and crosswise on boats thereby helping to minimize support poles from poking through the shrink wrap storage covers.
Super Caps can easily be attached to wooden uprights with either a nail or staples.

- Domed shaped
- Dimensions: (20" x 20" x 6")

ORDER NO. 231-30004
Mfr. No. DS-SUPERCAP

RHINO CAP

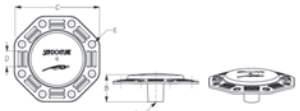
- The Rhino Cap is designed to keep support poles from poking through shrink wrap on storage covers
- Improves upon our tested and proven End Cap design by adding additional support and rigidity
- 100% stronger than existing End Cap design with 20% more surface area

ORDER NO. 231-11453
Mfr. No. DS-RCAP

SEA-DOG LINE
QUALITY MARINE GEAR

BOAT HOOK MOORING COVER SUPPORT CROWN

Injected Molded Nylon



ORDER NO.	Mfr. No.	A	B	C	D	E
424-91110	491110-1	7/8" (Tapered)	2"	6-1/2"	1"	1/2"

An injection–molded nylon crown that fits the tip of an adjustable boat hook or any universal/Acme thread that is used to support a mooring cover or canvas. The unique design has strap or line attachment details allowing the ability to secure the support crown in the correct location eliminating problems caused by water pooling pressures from rain, sleet or snow. Combine any of Sea-Dogs Boat hook with the support crown # 491110-1 and mooring cover support crown straps # 491115-1 for the perfect solution to nature's pooling pressures.

ACCESS DOORS with ZIPPERS

Zipper Access Doors are taped on the finished cover to allow access into a shrink wrapped object without compromising the durability of the cover. Have a continuous heavy duty zipper sewn into a "U" shape. Use a film knife to cut the inside of the opening for access into the shrink wrapped object.
Dimensions of the plastic perimeter, not the size of the opening.

- Reusable
- Waterproof
- Easily installed, taped on
- Does not shrink, no heat necessary
- Double pull zippers
- Open access doors from exterior or interior of vessel or object

Ethanol Free Formula

NON-TOXIC PREMIUM ANTIFREEZE -73°C (-100°F)

- -100°F (-73°C) Non-Toxic Antifreeze will provide burst protection to -100°F (-73°C) and freeze protection within a range of -58°F to -63°F (-50°C to -52°C). When testing with a refractometer designed for use with propylene glycol, freeze point readings on the PG scale will range from -47°F to -50°F
- Use in boats, RVs, vacation homes, pools
- Protects water systems & engines from freeze ups during storage
- Its premium additive package prevents corrosion of aluminum, copper, brass and solder, but will not harm rubber, seals or hose materials
- The 3X-dyed blue-green color provides excellent blow-through visibility
- Formulated with virgin, non-toxic USP-grade ingredients. It contains no alcohols
- This product is ready-to-use or may be diluted – please follow label directions for dilution ratios

SOLD BY DRUM/TOTE ONLY

BIO SAFE PG ANTIFREEZE & COOLANT ALL YEAR

- Non-toxic year-around virgin propylene glycol Anti-freeze
- Non-toxic formula provides superior year-round protection for all engines
- Protects engines from freeze up and boil over while providing excellent corrosion protection
- Biodegrades quickly in the environment and is easily broken down by sewer treatment systems
- Meets ASTM D-5216 and ASTM D-4985 Performance Standards.
- Formulated for running engines
- Contains Bitrex®

EXTENDED-LIFE 300,000 MILE ANTIFREEZE/COOLANT - 50/50 READY-TO-USE

- Ethylene glycol base
- Ideal for all gas & diesel water-cooled engines
- Compatible with all antifreezes including orange Dex-Cool™
- Lasts for 5 years, 300,000 miles or 6,000 hours
- Protects all engine metals, provides
- Reduces formation of abrasive solids to help extend water pump life
- Orange in color
- Contains Bitrex®

DO-IT-YOURSELF MARINE WINTERIZING KIT/ MARINE ENGINE DESCALING KIT

For Winterizing Kit Use:

- Quickly and easily adds winterizing anti-freeze to inboard and outboard engines
- All you need is a garden hose, ear muffs or flusher attachment and Star brite Anti-Freeze
- Winterize your boat right on the trailer

For Descaling Kit Use:

- Quickly and easily descales inboard and outboard engine cooling systems
- Removes scale and other debris growth to keep your engine running cool

ORDER NO. 408-35001
Mfr. No. 35001C

For more information see: www.starbrite.com

FLUSH PRO™ MARINE ENGINE FLUSHING & WINTERIZING VALVE

- Flush your boat engine safely and easily
- Transparent body allows for visual inspection of water flow
- Durable check valve system activated by water pressure from a garden hose
- Check valve automatically shuts off hull intake when water pressure is applied
- Adapter supplied with Flush Pro™ makes winterizing your boat easy
- Can be used with onboard generators
- Safety Seal Design prevents water intrusion
- Clear polymer
- Stainless steel spring

ORDER NO.	Mfr. No.	For Hose Size

CLEANING & DEGREASING SPRAYER

Specially designed for acidic cleaners. This sprayer makes even the toughest cleaning jobs easy. This sprayer is equipped with highest grade VITON seals and gaskets for maximum chemical resistance.

- Built-in relief valve/pressure gauge for added safety
- The container and discharge assembly have no fiberglass additives, only pure virgin grade material which stands up to acidic cleaners
- Lock-off mechanism to prevent accidental discharge
- Adjustable poly cone nozzle sprays coarse stream to fine mist
- Servicable pumps

MODEL # 2236XP Specifications
Useable capacity: 3.0 US Gal. / 11.4L
Tank: Poly
Hose: 42" / 1.06 m.
Pump: 9" / 225 mm Poly
Extension: 8" / 455 mm Poly

FOGGING OIL

- Prevents corrosion when storing inboard or outboard engines for an extended period of time
- Special formula makes starting engine after storage quick and easy.

ORDER NO. 408-48121 /ea.
12 fl.oz / 340 gram Aerosol

For more information see: www.starbrite.com

STAR TRON® DIESEL ADDITIVE

- Makes all engines start more easily, run more smoothly
- Eliminates and prevents gum, varnish and carbon deposits
- Stabilizes fuel for up to 2 years; ideal for use in seasonally stored equipment
- Works in all engines & all fuel

ORDER NO.	Mfr. No.	Size	Treats up to
409-31081	93108C	8 fl. oz. (each)	256 gallons of diesel
409-31161	93116C	16 fl. oz. (each)	512 gallons of diesel
409-31321	93132C	32 fl. oz. (each)	1024 gallons of diesel

EZ-TO-STORE EZ-TO-START GAS STABILIZER

- For inboard and outboard gasoline engines
- Protects gas and engine components during storage
- Prevents corrosion of fuel tank and fuel delivery system
- One product does it all - stabilizes and fogs in one step
- **Concentrated formula - 1 fl. oz. treats 5 gallons**

ORDER NO.	Mfr. No.	Size
408-43081	84308C	8 fl. oz. (each)
408-43161	84316C	16 fl. oz. (each)
408-43321	84332C	32 fl. oz. (each)

STAR TRON® GASOLINE ADDITIVE

- Makes all engine start more easily, run more smoothly
- Prevents fuel oxidation and stabilizes fuel chemistry for at least 1 year
- Eliminates carbon build-up in fuel delivery system and on exhaust components
- Increases fuel economy
- Lowers fuel system maintenance
- Eliminates and prevents ethanol fuel problems

ORDER NO.	Mfr. No.	Size	Treats up to
409-30081	93008PC	8 fl. oz. (each)	128 gallons of gas
409-30161	93016C	16 fl. oz. (each)	256 gallons of gas
409-30321	93032C	32 fl. oz. (each)	512 gallons of gas

STAR TRON® SHOOTERS

"Cures & Prevents" problems caused by all blends of ethanol fuel (E5, E10, E15+). The compact bottles are sized to fit in tools boxes, tackle bags, saddle bags or gloves compartments.

- Helps prevent phase separation; improves performance
- Ideal for outboards, snowmobiles, ATV's, generators, motorcycles and all gas-powered equipment
- Works on all engines and all fuels
- 1 fl. oz bottle treats up to 6 gallons

ORDER NO.	Mfr. No.	Size
409-14301	14301C	1 fl. oz. (2 Pack)
409-14324	14324C	1 fl. oz. (24/ Display)

STAR TRON® VERTICAL SHOOTER DISPENSER

Small Engine Formula

- Holds (12) (14311C) Star Tron® 1 fl. oz. shooters
- 1 fl. oz. (30 ml) treats 6 gallons (23 litres) of fuel
- An ideal way for first-time users to experience Star Tron®

Mfr. No. 14312C

ORDER NO. 409-14312

FUEL ADDITIVES

FOGGING OIL

- Foaming and strong clinging action ensures thorough coverage
- Displaces and prevents moisture contact with metal
- Extra lubrication and corrosion inhibitors for longer term protection
- Faster stalling and less smoking
- Greater resistance to "drying out" for a surer, easier restart

ORDER NO.	Description
706-02721	340 gr. Aerosol / ea.
706-02751	4 Litre / ea.
706-02760	20 litre Pail

FUEL STABILIZER ETHANOL (E10) FORMULA

Ideal for all 2 & 4 Cycle Engines

- Protects against fuel deposit formation
- Absorbs moisture to prevent corrosion
- Concentrated long lasting marine formulation
- Also suitable for snowmobiles & recreation vehicles
- **Treatment: 1/2 fluid oz. to 1 gallon (4 Litres) of fuel**

ORDER NO.	Description
706-03031	473 ml. / ea.
706-03041	4 Litre / ea.
706-03050	20 litre Pail

DG

MARINE DIESEL FUEL TREATMENT

- Fuel stabilization
- Helps to keep diesel fuel clear and bright
- Cleans entire fuel system including tank, fuel lines, fuel pump, injector pump
- Inhibited bacterial growth
- Detergent inhibiting sludge formation
- Increased cetane level for efficient combustion, easier starting and smooth operation
- **Treatment: 1 fluid oz. to 10 gallons of fuel**

ORDER NO.	Mfr. No.	Size
706-03201	320	535 ml (18 oz.)

ETHANOL FUEL TREATMENT

Ideal for all 2 & 4 Cycle Engines

- Compensates for ethynol enriched gasoline
- Ideal for all ethanol blends: E5, E10, E15 +
- Cleans fuel systems - Treats absorbed moisture in fuel
- Removes carbon buildup - Stabilizes fuel chemistry
- Reduces emissions - Increases power & fuel economy
- Compatible with all fuel treatments
- **Treatment: 1 fluid oz. to 60 litres of gasoline**

Treats up to 1,080 litres of fuel

ORDER NO.	Description
706-03151	535 ml

For more information see: www.captainphab.com

EGUARD ETHANOL TREATMENT

- Stabilizes E10 gasoline for up to 12 months.
- Prevents fuel system corrosion from water attracted by E10 fuels.
- Cleans fuel system and improves performance.
- Contains a non-alcohol water remover that helps to reduce the chance of phase separation.
- Bottled in easy to use precision measuring package.
- Safe for use in all gasoline powered engines including generators and outdoor power equipment.
- Safe for use in both 2-cycle and 4-cycle engines.
- Prevents gum and varnish formation for optimum performance and quick starts.

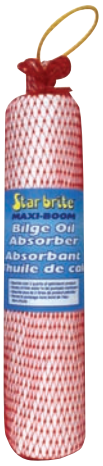
OIL-ABSORBENT BOOMS

The same type of oil absorbent material used to clean up major oil spills

- Absorbs oil in the bilge so that remaining water may legally be pumped overboard
- Convenient tie-downs keep boom in place
- Absorbs 2 quarts of oil yet repels water
- Special design allows maximum absorption
- Helps protect the environment
- 2 Quart Capacity

ORDER NO. 408-68051
4" x 15"



BILGE OIL PADS/5 PACK

- The most effective way to clean up, avoid an oil or fuel spill
- Quickly absorbs oil and fuel, but will not absorb water
- Made of high-quality, virgin materials; will not unravel
- Can be wrung out and re-used
- Ideal for wrapping fuel nozzle to prevent refueling spills

ORDER NO. 409-18451
Size: 17" x 19" x 3/8"
Mfr. No. 91845

For more information see: www.starbrite.com

Captain PHAB

BILGE SOCK

- Used to absorb spills and leaks of petroleum
- Highly absorbent
- Safe for disposal in accordance with sanitary landfill

ORDER NO.	Mfr. No.	Size
706-02061	206	3" x 15"

BULK BILGE PADS

- Special absorbent material soaks up oil and gas but repels water
- Absorbs 20-30 times its weight in oil
- Great for bilge areas, engine rooms or anywhere oil or petro chemicals are spilled
- Helps protect the environment
- Virgin material – does not shred like recycled imitations

ORDER NO. 409-18201 **(200 pk)**
17" x 19" x 3/16" pads

For more information see: www.captainphab.com

3M

3M™ MARINE OIL AND FUEL ABSORBENT BILGE PILLOW

Holds up to two quarts of oil. Just toss the pillow in the bilge, and it soaks up oil and gasoline, but repels water! The bilge water can then be pumped overboard legally. The pillow includes a special grommeted hole which can be used to tie the pillow in place.

ORDER NO. 600-29026
Approximate Dimensions/Sorbent Capacity: 7" x 15" (.5 Gallons/Pillow)

For more information see: www.3m.com/marine

BOAT STANDS

BROWNELL® Boat Stands & Equipment MADE IN THE USA

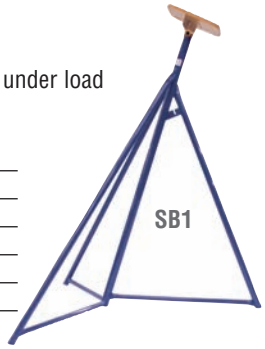
The Brownell Advantage:
•40 Years without a Product Failure
•Built in the U.S.A. by American Workers •Lifetime Warranty

SAILBOAT STANDS

Brownell Sailboat Stands are available from 24" - 96" in height and are designed to be placed under the angled hulls of sailboats. Always use Keel Supports with boat Stands.

- Solid, American Construction
- Wide Variety and Adjustability
- Available with Flat Top with 18 degree swivel or V-Top
- Solid Steel ACME threaded center rod for smooth adjustment under load
- Can be nested for convenient storage

ORDER NO.	Mfr. No.	Description	Range
758-30000	SB0	Sailboat Stand, with Top	79" - 96"
758-30001	SB1	Sailboat Stand, with Top	64" - 79"
758-30002	SB2	Sailboat Stand, with Top	48" - 65"
758-30003	SB3	Sailboat Stand, with Top	35" - 52"
758-30004	SB4	Sailboat Stand, with Top	24" - 36"



MOTORBOAT STANDS

Brownell Motorboat Stands are designed to be placed under the flat chines of powerboats.

- Solid, American Construction
- Wide Variety and Adjustability
- 18 degree top plate articulation in all directions
- Solid Steel ACME threaded center rod for smooth adjustment under load
- Can be stacked for convenient storage

ORDER NO.	Mfr. No.	Description	Range
758-20000	MB0	Motorboat Stand, with Top	41" - 58"
758-20001	MB1	Motorboat Stand, with Top	33" - 50"
758-20002	MB2	Motorboat Stand, with Top	29" - 46"
758-20003	MB3	Motorboat Stand, with Top	25" - 38"

LARGE BOAT DISPLAY STAND

- Unique four pad design reduces stress on the hull
- Unobtrusive design eliminates the potential "tripping" hazard of stands in the showroom. The design also maximizes showroom space because boats can be displayed very close together
- Accommodates dead rises to 45°
- No scratch, no slip TCL pads
- Ideal for boats up to 25' - 45' up to 35,000 lbs, each unit rated to 20,000 lbs. / 9100 kg
- Suitable for most popular brands

ORDER NO.758-37000 Mfr. No. BR37

BOAT STAND TOPS, PADS, CHAINS

ORDER NO.	Mfr. No.	Description	Range
758-00071	OTOP	Orange Top, with Screw	27"
758-00072	OVTOP	Orange V Top, with Screw	27"
758-00073	GTOP	Grey Top, with Screw	23"
758-00074	PVTOP	Pontoon V Top	-
758-00075	TLCPAD	Gel Pad, with Fasteners	-
758-00090	CHAIN12	Safety Chain, 3/16" x 12'	-

KEEL STANDS

We always recommend at least two keel stands placed on hard stable ground to carry the boat's weight. Keel stands are quick to install and are adjustable utilizing the acme threaded rod, thus reducing labour and saving money.

- One keel stand is recommended for each 20,000 lbs / 9,100 kgs of vessel weight.
- Makes complete bottom painting easy without lifting the boat

ORDER NO.	Mfr. No.	Description	Range
758-00004	K4	Keel Stand	15" - 24"
758-00001	KS1	Stackable Keel Stand	20" - 33"

For more information on these and other Brownell products, visit www.boatstands.com

HYDRAULIC BOAT LIFTING SYSTEM

- The safest, fastest means to remove a trailer from beneath a boat
- Heavy-duty construction – 3,000lbs/1,356kg capacity
- 8 ton hydraulic ram jacks
- Adjustable safety stops for jack and lifting arm
- Increased reach and lifting range
- Made in the USA with pride

ORDER NO. 758-00030 Mfr. No. BL3

Lift

Remove Trailer

Lower onto Stands

STAGING LADDER

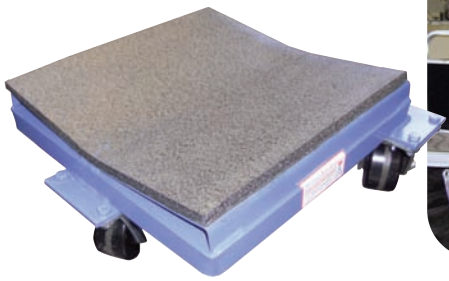
- Provides a stable work platform
- No assembly required
- Folds flat for storage
- Rugged tubular steel construction
- Also available in hot-dip galvanized finish

ORDER NO. 758-00080 Mfr. No. SL8

PONTOON DOLLY

- The safest, most convenient way to display or repair pontoon boats
- Ideal for show rooms, boat shows, repair shops and storage
- Also useful for many other applications
- Three 4" x 2" phenolic wheels with casters, won't scratch showroom floors
- 2,000 lb. capacity each
- Suitable for all pontoon sizes
- High density foam surface protects against scratches
- Dimensions 19" x 19.5" x 9"
- Weight 30 lb.

ORDER NO.758-00020 Mfr. No. PD2



15" High Pontoon Dolly

- Four 4" phenolic wheels
- Can be used with PD2 on tritoons when the pontoons are different heights
- Can be utilized to block boats higher than PD2
- 2,000 lb. capacity per dolly
- Pad is 19.5" x 19.5"
- Weight: 47 lbs.
- Dimensions 19"L x 15"W x 15"H
- Made in America

ORDER NO.758-00020-X Mfr. No. PD2X

PONTOON/TRITOON DOLLY

- For standard pontoons, tritoons, and high-performance sport boats
- Increased ground clearance and an open center section allow use with pontoons and tritoons with lifting stakes, foils and other below-the-waterline control surfaces
- Simplifies loading and offloading of trailers
- Dual 24" long bunks distribute the vessel load
- Corner bumper provides a soft and protective surface for the pontoons
- Width adjusts 2" - 19.5" allowing for customization to further ensure maximum protection for each vessel
- Heavy-duty construction
- Non-marking casters
- 3,000 lb. load capacity

ORDER NO.758-00300 Mfr. No. PD3

For more information on these and other Brownell products, visit www.boatstands.com

BROWNELL® Boat Stands & Equipment MADE IN THE USA

OUTBOARD MOTOR RACK

- Versatile, safe storage for Outboard Motors
- Heavy duty – 2,000 lb. capacity
- 5" locking swivel casters
- Mounting Bar Dimensions: 48" Length, 2" Depth, 6" Height
- Overall Dimensions: 53" x 24" x45"

ORDER NO. 758-50010
Mfr. No. OBR1

SINGLE OUTBOARD RACK/DOLLY

- A safe and secure solution for moving the industry's largest outboards around the shop or showroom
- 1,200 lb. load capacity, stable footprint and top-quality casters
- Storage tray and ample hanging points allow your technicians to keep the engine and rigging together in a single package

ORDER NO. 758-50020
Mfr. No. OBR2

BOAT RACKS

- For use with fork lifts and hydraulic trailers
- Ideal for wash downs and service at dry stack facilities for boats up to 20,000lbs/9,100kgs
- Fast and efficient set-up
- Compact for storage when not in use

ORDER NO.	Mfr. No.	Description
758-00040	BRB	Boat Rack, Bow 28"H
758-00041	BRS41	Boat Rack, Stern 31.5"H

BRB

BRS41

For more information see www.boatstands.com

STERN DRIVE INSTALLATION JACK

Allows for easy & safe removal & installation of stern drives.
Four pneumatic wheels allow easy movement in the shop/yard.
A convenient handle allows to easily push or pull jack around.

- 2-Part chassis for compact fit & strength
- 3-Axis adjustment for proper alignment & configuration with zinc coated hand wheels
- Locking mechanism keeps jack in place
- Reinforced brake pedals
- Heavy-duty lifting capacity
- Also available in hot-dip galvanized finish

Weight: 180 lbs. (82 kg)
Dimensions: 53"L x 32"W x 34"H (1310x810x860 mm)
Working Load: 550 lbs. (250 kg)
Warning: Working Load Limit must not be exceeded.
Not to be used for lifting or hoisting applications

TITAN® MARINE PRODUCTS

ORDER NO. 888-90000-2
Mfr. No. CMJACKV2

For more information see: www.canmet.com

PONTOON STORAGE BLOCKS

- Stable design keeps pontoon hull dry & off the ground
- UV-resistant, and engineered for added stability
- Conveniently stack together when not in use
- Each block holds 4,000 lbs. capacity
- Lightweight & easy to use
- Drainage channels prevent water build-up
- 13-1/2" x 13-1/2" x 9-1/2"

ORDER NO. 101-11401/ Set of 4 Mfr. No. 11401-4

For more information see: www.attwoodmarine.com

HEAVY DUTY BOAT DOLLIES

BROWNELL® Boat Stands & Equipment MADE IN THE USA

- Low profile - 2.5" ground clearance.
- 32" x 35" (81cm x 88cm) frame.
- Adjustable height 15.5" - 21.5"
- Adjustable width 35.5" - 43.5"
- 6" x 2" phenolic wheels with brakes and casters
- One pair required to accommodate boats to 8,000 lbs (3,630kg).

ORDER NO.758-00200 Mfr. No. BD2 ***SOLD AS EACH***

- 6,000 lbs. capacity per dolly; two dollies will safely support a 12,000 lb. boat
- 32" x 35" (81cm x 88cm) frame.
- Adjustable height 29" - 33"
- Adjustable width 57" - 77"
- 6" phenolic wheels with brakes
- Optional connector bar available
- Product weight: 185 lbs.
- Made in America

ORDER NO.758-03000 Mfr. No. BD3 ***SOLD AS EACH***

STERN DRIVE INSTALLATION JACKS

- Adjusts on 3 axis to make stern drive removal & installation an easy one man job
- Features pneumatic wheels
- Coated surfaces to prevent scratching
- Rating: NMDA, NMMA, ABYC, ABBRA, BBB and Association of Marine Industries
- Weight: 165 lbs. (74 kg)

Heavy-Duty 3 Ton Jack

ORDER NO. No. 758-00053 Mfr. No. SD3

SINGLE UNIT STERN DRIVE RACK

- Small, easily maneuverable method for moving the stern drive to and from the vessel
- Footprint of less than two feet square, the SDR1 stores easily when not in use
- All contact surfaces are coated with rubber to prevent scratching
- Heavy-duty steel is protected with our traditional painted blue surface for long-lasting durability

ORDER NO. 758-00054 Mfr. No. SDR1

STERN DRIVE STORAGE RACKS

- All contact surfaces are rubber coated to prevent scratching
- 5" swivel casters with brakes for easy maneuverability

ORDER NO.	Mfr. No.	Description
758-00044	SDR4	Stern Drive Storage Rack, 4 Units

DOMETIC OUTDOOR

GEAR UP FOR SUMMER

SeaStar Standard Trim Tab System

Dometic has redefined the ease of use and practicality of a basic trim tab system. Featuring an intuitive dial controller, you can easily adjust the pitch and roll to get your boat on plane quickly and efficiently. A programmable favorites button makes for effortless operation. While its innovative, rugged design and auto-retract feature, ensure reliability and safety on the water, whatever the conditions.

NOTES

NOTES

attwood®

The easiest, most reliable bilge pumps ever designed

attwoodmarine.com

ASG
ADVANCED SYSTEMS GROUP

THE WIDEST VARIETY ANYWHERE.

Oils & Lubes

FC-W | 4-Cycle Oils | Diesel | Gear Lube | Fuel Stabilizer
Premium Bearing Greases | Engine Fogging Oil

Full line of injector cleaners available.
All blends meet or exceed engine manufacturers' specifications.
Also offered in 16 & 55 gallon drums.

Oil Filters, Fuel Filters & Fuel Water Separators

Filtration

Sierra is dedicated to producing the best performing, most reliable filters in the world. Decades of research and development have helped us add to our always-growing lines of oil and fuel filtration solutions.

We are the industry leader in 10-micron filter technology. We also offer an extensive line of 21-micron filters.

Sierra is now proudly offering Racor® replacement fuel filters and elements.

www.sierramarine.com

Racor® is a registered trademark of Parker Hannifin Corporation

THE VERY BEST PARTS OF BOATING.
